WISCONSIN STATE COLLEGE

Stevens Point, Wisconsin

May 1956

Officers Of Our Association
President — William Golomski
Executive Secretary — Mrs. Marjorie Kerst
Executive Committee

George Whitney, Class of 1949, whose term of office expires June 30, 1956
Phyllis Jarnick, Class of 1953, whose term of office expires June 30, 1957
Raymond Clausen, Class of 1940, whose term of office expires June 30, 1957
Cecelia Winkler, Class of 1945, whose term of office expires June 30, 1958
Robert Bestul, Class of 1951, whose term of office expires June 30 1958

In Memory Of

**Burton R. Pierce, Executive Secretary
Alumni Association**

Burton R. Pierce

The death on January 22 of Burton R. Pierce, a member of the faculty for more than 30 years, was not only a shock but also a sad event to all those who had known him. Mr. Pierce was principal of the Campus school's Junior High school and taught science courses at the college.

Mr. Pierce, 58, suffered a heart attack at the Campus school the preceding Friday morning. He drove home

and then was taken by ambulance to the hospital where he died Sunday.

A Stevens Point Normal school student until September 7, 1917, he then entered the services as a member of the machine gun company of the 128th infantry, 32nd division. He served overseas from February, 1918, to May, 1919.

After the war, Mr. Pierce returned to Stevens Point and was graduated from the local Normal. He later received his bachelor of arts degree from Ripon college and his master's degree from the University of Iowa. He did other graduate work at the University of Chicago.

Mr. Pierce was married to the former Josephine Maynard in Milwaukee on July 18, 1925. He is survived by his wife, a daughter, Mrs. Kathleen North of Waukau, and a grandson.

He was a director of the State Junior Academy of Science, executive secretary of the CSC Alumni association, a trustee of Frame Memorial Presbyterian church and was in charge of the Goerke Bequest corporation loan funds at the college. When scouting was organized in Stevens Point, he was the first local scoutmaster. He was also a member of a number of Masonic bodies.

Among other worthwhile activities originated by Mr. Pierce at the Campus school were the organizing of the patrol boys and the school parties where the youngsters learned social dancing. These and many other activities of his, along with his pleasant personality and devotion to teaching, will be long remembered by all those who knew him as a friend and a teacher.

Resolutions

of

**The Alumni Association of Wisconsin State College —
Stevens Point**

— In Memory Of —

Burton R. Pierce

Whereas Burton R. Pierce, who died January 22, 1956 after suffering a heart attack at the Campus Laboratory School, has been a capable and outstanding executive secretary of the Alumni association as well as esteemed member of the college faculty and had been active until this time in cheerfully carrying on his many duties with unusual ability; and

Whereas through his exemplification of high ideals others have profited, and through his kindly interest and self-sacrifices others have come to know, love and respect him; and

Whereas, his human personal qualities, his warmth, loyalty, devotion and industry, have left a lasting impression on the alumni association he served so ably for the past five years, 1951 to 1956.

Now, Therefore, Be It Resolved that we the alumni members of Wisconsin State Teachers, hereby express our feeling of deep loss in his passing and our conviction that his life and service in the association will be an inspiration to those who follow on after him.

Be It Further Resolved that a copy of this resolution be sent to Mrs. Burton R. Pierce and daughter, Mrs. Kathleen North and that a copy be placed in the records of the alumni association.

William A. Golomski
President of C S C
Alumni Association

NEXT YEAR PROMISES STUDENT FEES RAISE

A \$15 a year student fee will be assessed at Central State and other colleges around Wisconsin beginning next September to help pay for the new student union buildings soon to be constructed.

The board of state college regents made the announcement recently. Building of the unions may get under way this fall at Stevens Point, Oshkosh, Superior, Eau Claire, Whitewater, La Crosse, Platteville, Menominee (Stout) and River Falls. The \$15 per student fee will raise about \$179,590 annually.

WHAT'S HAPPENING AT CSC?**President Hansen**

Well, to begin with, we have our application before the Board of Regents for authority to offer a Major in music. We hope to have this in operation next fall. This will be a most important change in our offerings. We now have three full time persons in the Music Department and some part time staff, also.

We added three full time faculty members at the beginning of the second semester in February: Mr. Cross in History, Mr. Barnes in Biology, and Mr. Carter in Geography.

This brings to eight the new full time staff members this year, but with more than two hundred fifty more students than last year this is still not enough staff.

As far as facilities go we are also moving ahead. We recently let contracts for completely new Biology laboratory furniture and equipment. This is all to be in place when we open in September and will provide us with four really up-to-date Biology laboratories.

Contracts were also let on March 6th for a third floor on Delzell Hall. This will provide twenty-six rooms and increase the capacity of the Hall to one hundred forty men. This is also to be ready for occupancy in September of this year.

Federal funds are already reserved for us for the construction of a two hundred man dormitory on our campus. The construction should start some time this year and the building should be ready for occupancy by September 1957. When this is ready it is our plan to convert Delzell Hall to a women's dormitory. We will then be able to accommodate two hundred seventy women and at least two hundred men in our own facilities.

Another project which is pending, and which we hope to have a definite announcement on some time after July 1st, is a student union. We hope to be able to borrow Federal funds for such a building. It is not likely to be ready for occupancy until some time in 1958. So this is still quite a way into the future, but a good probability. An adequate student union will really make a great contribution to our college.

Let me use this opportunity also to extend greetings to all of you and to wish you continued success in your work.

William C. Hansen
President

ART DEPARTMENT HAS NEW LOCATION

The Art Department at Central State College began operating in its new quarters at the beginning of the first semester 1955-1956. The new rooms are on the main floor of the college building. The rooms now occupied are rooms 112 and 116 which formerly housed the Chemistry Department.

Central State College is now offering a minor in art. Like so many other departments, the classes are larger with an increase in the number of sections taught in some of the courses.

New items of equipment have been added including a potter's wheel, gem grinding and polishing equipment, and new furniture.

Art students are supervised in their student teaching at the Campus Schools by Mr. Runke and Miss Edna Carlsten.

Several of the art students are holding exhibitions of their work in the Library Theater under the sponsorship of Alpha Phi Omega, the service fraternity on the campus.

Art extension classes are held in various areas during the year providing teachers with extra classes and credits in art.

A summer art workshop has been held on the campus for the past summers. Many teachers who are at the college for summer school enroll in this short course, which has proved to be very popular. An interesting workshop will be conducted this summer by the Hand-crafters of Waupun. It is hoped that interest in this work will be shown by a large enrollment.

Miss Carlsten and Mr. Runke extend an invitation to all alums. It is their wish that you visit the art department and become acquainted with its new home.

MEET THE NEW TEACHERS

A new semester brings many new faces to the campus of CSC. This isn't true of the students only, but also of the faculty. This semester four new teachers have been added to the teaching staff by President William C. Hansen. They are John W. Barnes in the Biology department, Jack L. Cross in the History department, Richard E. Carter in the Geography department, and Mrs. Joseph Pfiffner, who has been appointed a supervisor at the Campus Laboratory Junior High school for the rest of this year.

Mr. Barnes, who is teaching biology, zoology, and ecology, is a native of a small town, Lancaster, in Ohio, so he should feel right at home in Stevens Point. He has his Master of Science degree from the University of Minnesota, and is now almost finished with his Ph. D.

Mr. Barnes worked as a teaching assistant in entomology at the University of Minnesota while he did graduate work there. He is married and has one boy, aged three and one-half. He thinks he will like it here very much, and says, "Everyone has been very cordial, very friendly and tried to help me as much as they can."

Mr. Cross, who is teaching in the history department, is a native of Texas but came to CSC from Washington, D. C. where he was employed by the Central Intelligence Agency. He has his master's degree from the University of Chicago and is now working on his Ph. D.

He is married and has two boys, aged 9 and 4. He likes Stevens Point very much and says he finds the people here very alert and interesting.

Mrs. Joseph Pfiffner has been appointed a supervisor in the Campus Laboratory School junior high school for the rest of the year. Mrs. Pfiffner is a native of Stevens Point and received her bachelor of science degree from the University of Wisconsin. In recent years she has taught school at Green Bay East High school, Viroqua, and La Crosse State College where she held a position similar to the one she has now.

Lois Schlottman, a senior in the secondary division, will assist in the physical education department by teaching gym classes in the fifth, sixth, seventh, and eighth grades at the Campus School. These classes were formerly taught by Mrs. Miriam Morrison, who will continue with her other classes in the Campus school and the college.

Mr. Carter who was teaching in the geography department, is from Park Ridge, Illinois. He had his undergraduate training at Northern Illinois State Teachers college in De Kalb and got his master's degree at Northwestern University. Before coming to CSC, Mr. Carter was employed in the City Planning Office in Chicago. He is unmarried. Because of ill health he resigned in April and has returned to his home in Park Ridge, Illinois. Announcement of his resignation was made recently by President Hansen. For the rest of the year, President Hansen has asked Miss Leah Diehl, retired CSC teacher, to take Mr. Carter's place. Miss Diehl has been substituting for Mr. Carter during his illness.

RADIO-TV WORKSHOP AT THE COLLEGE

The Radio-TV Workshop of the college has been doing its share in the public relations program during the current semester. Five half hour television programs have been presented over station WSAU-TV in Wausau. The title of the series has been "Close Up of Central State."

Each program has started out with a short film of the campus. The close-ups which have been presented have shown the work done in the departments of home economics, conservation, English, and speech.

There are twelve students enrolled in the workshop and these students have helped in writing script, producing and directing. Each department has also been very helpful in providing material and script to be used. The student director of the workshop this year is Jim Stasko.

FROM THE OFFICE OF THE DEAN OF MEN

Along with the continued growth in enrollment, activities in and about Central State College have been on the increase. There are now four fraternities on the campus and a new Inter-Fraternity Council is attempting to strengthen the position of fraternities on our campus.

The third floor of Delzell Hall is getting under way very soon and we are planning on an additional fifty-two boys for this third floor for the coming

school year. With the prospects of a new boys' dormitory being ready for the 1957 year, our campus will change considerably in appearance. Along with the new Union and contemplated dormitory additions, activities on this campus continued to grow.

We hope that you find occasion to come back and share with us the pride of our continued expansion.

John Roberts
Dean of Men

FROM THE OFFICE OF THE DEAN OF WOMEN.

There have been many programs and activities on the calendar for women this year at C.S.C. College Women's Association has been especially active with its coffee hours, its Easter Assembly, state association meeting and its presentation of Lynn Honeck in an evening assembly program.

For the first time in our history, C.S.C. now has a national social sorority on its campus as the former Psi Beta Psi group became Alpha Sigma Alphas this past month.

Sorority rushing is over and fifty-one pledges are busy meeting requirements of the tireless actives of each sorority. Formal initiation for all sororities is scheduled for May 5 to be followed by the Nelson Hall Formal.

Perhaps a few statistics may be of interest to you. Four-hundred sixty women were enrolled at C.S.C. the first semester — of this group one-hundred eighty-two, or approximately 40%, were regularly employed at least three hours per week. Many, of course, were working many more than three hours. In fact, part-time employment for women, based upon a 40-hour week, equalled full time employment of fifty-three workers. In addition, many are occasionally employed.

In the field of scholarship, figures released from the Registrar's office indicate that the total over-all average of C.S.C. women for last semester was 1.538. Freshmen women earning 1.35 average, sophomores 1.51, juniors 1.77, and seniors 1.99. So in spite of their work load and extra-curricular schedule they do study!

Recent action of the Regents gives the college women promise of a secondary dormitory — Delzell Hall — as soon as the new men's dormitory is completed.

Perhaps the announcement that a student union building was to be constructed on our campus and hopefully ready for use in the fall of 1957 brought the greatest pleasure to our students. Tentative plans call for a cafeteria and lounge in addition to numerous smaller rooms.

So I'm sure you can see that life moves along at a rapid pace at C.S.C. this year.

I hope life has been both pleasant and profitable for you this year, too.

Mrs. Elizabeth Pfiffner
Dean of Women

NATIONAL SORORITY ON THE CAMPUS

The week end of March 9, 10, and 11th was a memorable one for the twenty-eight members of Psi Beta Psi sorority. It was at this time that they were installed as the Gamma Beta chapter of Alpha Sigma Alpha, a national sorority.

Miss Virginia Carpenter, Cleveland, Ohio, National Vice-president, was in charge of the installation plans. Miss Rita Youmans, a college faculty member was general chairman of committees.

The Sky Club was the scene of the installation banquet on Saturday evening at 7 o'clock. To close the week end activities, a Pan-Hellenic Tea was held at the Student Union on Sunday afternoon from 2 to 4 o'clock.

Alpha Sigma Alpha was organized November 15, 1901, at Longwood College, Farmville, Virginia. Each year Alpha Sigma Alpha sponsors a "national philanthropic project" which supplies some of the "extras" at five large veterans hospitals in the United States. In 1916 a Fellowship fund was established to help those members who need financial aid to complete their education. There are also several other awards given to under-graduate members and alumnae members each year for outstanding work.

SPORTS CALENDAR

With the coming of spring sports move to their final activities.

The baseball schedule consists of six double headers of 7 innings each.

Baseball:

April 14 — LaCrosse — There
 April 21 — Stout — Here
 April 25 — Mission House — Here
 April 28 — Oshkosh — There
 May 5 — Eau Claire — There
 May 12 — Oshkosh — Here

Tennis:

April 25 — Lawrence — There
 May 5 — Oshkosh — Here
 May 8 — Whitewater — Here
 May 12 — Oshkosh — There
 May 19 — State (La Crosse)

Golf:

April 21 — Lawrence — There
 May 5 — Oshkosh — There
 May 8 — Whitewater — Here
 May 12 — Oshkosh — Here
 May 15 — St. Norberts — Here
 May 18 — State (La Crosse)

Track:

April 21 — Lawrence — There
 April 28 — Ripon — Here
 May 5 — Oshkosh — Here
 May 12 — Oshkosh — There
 May 15 — St. Norberts — Here
 May 19 — State (La Crosse)

BASEBALL

A champion in a new field will be recognized by the Wisconsin State College conference next year. That's when baseball returns as an official conference sport after an absence of a quarter of a century. Nine of the 10 schools in the conference have baseball teams now, but several of them are just getting their programs going this season so no champion will be crowned this spring.

It was decided at the latest conference meeting to add baseball to the list of official sports. Faculty athletic representatives and athletic directors decided to run the program on a divisional basis, that is northern and southern, such as basketball and football at times in the past were staged. A playoff between division winners is likely to determine the grand champion.

Hale Quandt, Central State's baseball coach, and Bill Vickory of La Crosse are in charge of getting the first schedule ready. Stevens Point and Whitewater only last spring fielded their first baseball teams. Milwaukee and Oshkosh are new this year while Platteville, Eau Claire, Stout and River Falls along with LaCrosse have had teams for longer periods. Superior is the only school without baseball.

Point, Oshkosh, Milwaukee, Whitewater and Platteville will compete in the southern division, and La Crosse, Stout, Eau Claire and River Falls in the north. Each team will meet the other teams in its division twice (in the form of a doubleheader).

Baseball will be the sixth recognized sport in the conference. The five now on the program are football, basketball, track, golf and tennis. All schools compete in football and basketball but only about half in the other three. Point and Milwaukee also have wrestling conference recognition in these fields.

SPORTS

FOOTBALL

Norbert Miller

Two members of the CSC championship football squad are going to have a well deserved opportunity to play professional football.

"Nubbs" Miller, the pile driving Little All-American fullback, has signed a contract with the Baltimore Colts for the coming season for \$5,500. Miller also had an offer from the Green Bay Packers, but chose the Colts after a talk with their backfield coach.

Miller expects to be used as a halfback, as the Colts already have Wisconsin's Alan Ameche. "Nubbs" will start his training during the middle of July at a small college in Maryland.

Ken Roloff, the hard running quarterback and Little All-American end from Kaukauna, Wisconsin, will have his chance

with the rough New York Giants of the professional Eastern Division for \$6,000.

Ken, who played both end and quarterback for CSC, will be tried as an end, punter and defensive back on the Pro squad. Roloff will start his training around July 20 some place in Oregon.

Phil Cole, Prairie du Sac star, dropped school following the semester so he can report to the Milwaukee Braves' farm camp in Waycross, Ga. this spring. The former CSC footballer signed a contract with the Braves Eau Claire farm club in the class C Northern league.

Ken Roloff

BASKETBALL

With an upset victory over Platteville, the league leaders, on February 27th, the 1955-56 basketball season was brought to a close.

Considering the fact that it was a very young and inexperienced team, the season was a successful one. The overall record was 12 wins and 9 losses, most of which was by very small margins. Our conference record was six victories and six defeats.

Our roster included:

Amburgy, John	White Lake	Senior
Blomiley, Bob	Ironwood	Junior
Boldig, Jim	Bowler	Sophomore
Bostad, Bob	St. Point	Junior
Habeck, Merlin	Wausau	Frosh
Hoensch, Ron	Wausau	Frosh
Kestly, Fred	Antigo	Frosh
Koepke, Orv	Appleton	Junior
Krull, Jack	Birnamwood	Frosh
Luebstorff, LaVerne	Wausau	Frosh
Marko, Jim	St. Point	Sophomore
Schadewald, Paul	St. Point	Sophomore
Schneiders, Don	Marathon	Senior
Sekel, William	Beaver Dam	Frosh

John Amburgy was elected honorary captain and LaVerne Luebstorff was elected most valuable.

If the army leaves us alone and the fellows do a job in their studies, the "Pointers" will be a tough team to beat in 1956-57.

H. F. Quandt

WRESTLING

The 1955-56 wrestling team completed one of its most successful seasons winning 7 out of 9 dual meets placing second in the Quadrangular Tournament and winning the State A.A.U. team championship. The two winning state champions were "Butch" Sorenson and Don Smith. The following boys were awarded letters.

Orville Fink	Dave Hurlbut
Terry McLlarky	Don Smith
Jack Blosser	"Butch" Sorenson
Henry Yetter	Terry McMahan
Ron Wislinsky	"Jiggs" Meuret

"Butch" Sorenson was named outstanding wrestler for the past season and Jack Blosser named captain of next year's team.

John Roberts

C.S.C. AT A.C.E.I.

The Association for Childhood Education International held its national convention at Washington, D. C. in April. Round Table, organization for students interested in Intermediate Department, sent the following delegates: Miss Sally Rose, Miss Lily Sturkol, Mr. Tom Spicer and Mr. Larry Collins.

Miss Gladys Van Arsdale, third grade supervisor, was also present from C.S.C.

STATE HOME EC. CAMP AWARDS CSC STUDENT

Every year the Wisconsin Home Economics association presents an award to the outstanding student in one of the six Wisconsin colleges where home economics majors are offered. This year it is CSC's turn, and Jean Gatzke has been chosen as the recipient of the honor. The award consists of \$100 payable at registration next fall.

GOLOMSKI PUBLISHES BOOK

William A. Golomski of the mathematics department, Marquette University and president of the Alumni association has recently had a book published by the Marquette U. Press entitled "Quality Control Technical Paper."

Officers of Gamma Beta chapter of Alpha Sigma Alpha at Central State College are: Mary Louise Bloczynski, Athens, president; Janet Madison, Marshfield, vice-president; Judieth Heintz, Wausau, recording secretary; Nancy Coon, Hatley, corresponding secretary; Treive Anderson, Sturgeon Bay, treasurer; Virginia Jensen, Coloma, assistant treasurer; Joyce Hannemann, Merrill, college editor; Lily Sturkol, Hurley, chaplain; Rosemary Kreidler, Plymouth, membership director.

DR. NIXON

D. Nixon

Dr. Nixon was born in Adams County, Ohio, in a location which can best be described as "near Manchester." He attended grade school there and high school at Russienville, Indiana. His first college days were spent at the University of Indiana, where he started on the field of mathematics, which has held him ever since.

However, a brilliant biology-minded roommate almost swung Dr. Nixon from figures to phyla, and he was so nearly persuaded that he took several biology

courses. As it was, however, the fumes issuing from the biology building were quite discouraging, and after a year of "dissecting this, that, and the other" the biology-student-to-be became a math major again. In 1914 he graduated with his B.A.

Next educational stop was the University of Chicago, where Dr. Nixon obtained his M.S. and his acquaintance of Miss Vesta Tharp, later to become Mrs. Nixon. The last degree on his list was that of a Ph.D. received from Ohio State University. During the time of Ph.D. getting, his wife managed, in 25 days, to teach her husband enough German to pass his examination in that language.

Among the many interesting positions which Dr. Nixon has held are 10 years as principal of East High school in Green Bay, and three years spent working for the Ohio State Department of Justice. During this time, he directed the giving of tests to first federal offenders as part of the established rehabilitation program. Then, when Dr. Joseph V. Collins retired as head of the mathematics department of CSC in 1937, Dr. Nixon was hired to take his place. He has been here ever since.

Mrs. Nixon, who was an accomplished author of children's stories, died in 1953. She could attribute at least part of her success to the many tales told for their two sons, Bob and Floyd. Bob, after four years at CSC, went to West Point, and graduated from there in 1944. Just married recently, he is a major in the Army Corps of Engineers.

Floyd, also a CSC graduate, is now employed by the Glen L. Martin Aircraft Co. in Baltimore. His recent book, "Principles of Automatic Controls," is fast becoming established on the top list of textbooks for electrical engineering. Floyd is married and the father of two little daughters, very much loved by their grandfather.

50 YEARS AS TEACHER FOR MAY ROACH

Miss Roach

The clock has ticked off 50 years in the teaching profession for Miss May Roach of Central State College.

At 11 o'clock on the morning of February 9, 1904, Miss Roach relieved another teacher at Bear's Grass school in Eau Claire county and began a career which has made her one of Wisconsin's best-known women.

Miss Roach's entry into the profession, it may be noted, actually occurred 52 years ago — she had to take out two years later on to get her diploma at the Stevens

Point Normal school. When she started teaching she was just three weeks out of high school and had only a certificate granted by examination.

For the past 42 years Miss Roach has been a member of the college faculty. Associate director of rural education at CSC, she is best known in other cities as a public speaker who is never at a loss for words. This is her last year of teaching — she plans to retire in June.

An open house honoring Miss Roach was held Saturday, April 21, from 2 to 5 p.m. at the Delzell Hall lounge.

Alumni, students and friends of Miss Roach were invited to attend, and refreshments and musical entertainment were provided.

"The May Roach Student Fund" has been set up in her honor by the Stevens Point Chamber of Commerce to provide financial aid to needy students, and donations are being accepted.

A permanent record in recognition has been provided for those who contribute to the fund.

Miss Roach will be missed by all the students and her host of friends throughout Wisconsin. She has been a beloved teacher, person, and friend who always finds time for a friendly word or gesture.

TO ALL ALUMNI — — — — WHAT YOU CAN DO

There are things we feel our alumni can do to assist Central State in finding the right kinds of young people. The opinions of our alumni have a great influence upon the thinking of high school young people when they begin to think about going to a college.

TALK CSC — THINK CSC

THOSE BUSY CSC GRADS**Where they are . . . What they are doing . . .**

Class of 1910

May Roach, assistant director of rural education at CSC, will retire this June after 52 years of teaching.

Class of 1942

Merville Meverden and his wife Lucille Newman are now at Iowa City, Iowa. He is finishing his Ph.D. in education.

Class of 1945

Mrs. Richard Yensch formerly Joan Joosten of Wausau has completed nine years of teaching this June. They have a daughter, Heidi, age 7.

Class of 1950

Warren Lensmire received his M.S. degree from the U. of Wisconsin in June of 1955 and is now President of Wood County Teachers College.

Class of 1951

Phyllis Peterson Pope has been teaching Home Economics in the Dorchester schools for the past three years.

Lloyd A. Peterson is now a statistician at the Marathon Corporation.

Class of 1952

Mary P. Miller has made quite an extensive tour of Europe. She lived a full month with the natives in Yugoslavia.

Russell Roberts will graduate from the Marquette School of Dentistry in June of this year.

Margaret Blaisdell (Margaret Thirkill) writes that they had a son born August 2, 1954 and that they moved to Beloit from Wisconsin Rapids January 13, 1956. Her husband, George, is employed as assistant plant engineer at Fairbanks Morse, Beloit, Wisconsin.

Bryan Purchatzki has moved his family to 1311 Franklin St., Wisconsin Rapids. He will be teaching 5th grade at the Mead School plus having the duties of basketball and track coach of the 7th and 8th grades.

Kelly Douglas is teaching Biology and Phy. Ed., coaching football, wrestling, baseball, and tennis in a brand new school with 550 students at Oaklawn, Illinois.

Viola A. Remau now Viola Schelenberg writes that she is making her home in Anchorage, Alaska.

Class of 1953

Mary Louise (Lund) Jacobsen taught two years in Beloit, Wisconsin and then taught one year at Lawton, Oklahoma. Next year she hopes to teach at Madison while her husband attends the University of Wisconsin.

Parr B. Eves, a conservation major, is traffic manager for Western Frozen Foods in Watsonville, California.

Class of 1954

Everett R. Moore is working toward his Ph.D. degree in education and holds the position of counselor, Dean's Office, School of Education, University of Wisconsin.

Donald C. Grubba is a research analyst at the Bay State Abrasive Products Co., Westboro, Mass.

Richard Jacobus is a chemist at the Institute of Paper Chemistry, Appleton, Wis.

Class of 1955

Jan Berglin is teaching Home Economics and Art at Green Lake, Wis.

Pat Giese teaches kindergarten at West Allis, Wis.

Jo McClone is teaching at a Clintonville rural school.

Bobby Netzel is teaching second grade at Marshfield, Wis.

Mrs. Robert (Bonita) Blomiley teaches kindergarten in Port Edwards, Wis.

Mrs. Bud Roberts (Cleo Gilbert) teaches third grade at Woodruff, Wis.

Marion Hummel is teaching first grade at Green Bay, Wis.

Judy Clayton teaches Home Economics at Eau Claire, Wis.

Carol Holt teaches an intermediate grade at Waukesha, Wis.

Mr. and Mrs. Clayton and their daughter are enjoying a vacation in Hawaii.

Gene Hurrish is in service at Fort Bliss, Texas.

Phyllis Gertschen Lang and her husband are back in school. They will be located at Madison next fall.

ENGAGEMENTS & MARRIAGES

Jo Broetzman is engaged to Dave Hurlbut.

Roberta Netzell is engaged to Don Page.

Doris Moss is engaged. She has transferred to Texas.

Nancy Court is engaged to Ray Cook.

Lois Langfeldt is engaged to Tom Wirkus.

Ruth Ann Charlesworth is engaged to Roy Hackbart.

Gloria Suckow is engaged to Bill Conway.

Mary Bartelt is engaged to Dave Butler.

Ellen Zerneke was married January 29, 1956.

Miss Cecilia Winkler is engaged to Henry Welsh and they will be married June 16, 1956.

Lou Breyman and Jack Crook will be married June 16, 1956.

Everett R. Moore was married April 4th to Elizabeth E. Martin of Madison, Wis.

BIRTHS

Born to Mrs. and Mrs. Geimer (Dolores Plainse) a baby girl, Deborah Sue, on April 2.

Ken and Marge Schmah Hurlbut became the parents of a baby girl March 11, 1956.

A daughter, Deborah Lee, was born to Mr. and Mrs. William Clayton, February 12, 1956.

Twin boys were born to Dr. and Mrs. Burdette Eagon, April 16, 1956.

AREA GROUP MEETINGS OF CSC ALUMNI

An area group meeting of Marathon County alumni of Central State college was held at the D. C. Everest High school of the Rothschild-Schofield district. The following slate of officers was presented and accepted for next year: President, Miss Betty Warner; vice president, Mrs. Amy Moody; secretary-treasurer, Mrs. Eleanor Solzer.

A second area group meeting of Wood County alumni of CSC was held at the Mead School at Wisconsin Rapids on April 18, 1956. Raymond Clausen, Superintendent of Wisconsin Rapids schools, acted as chairman of the meeting. The program consisted of music presented by Wisconsin Rapids High school students and CSC music students. President Hansen talked to the group about new developments at the colleges and Dr. Raymond Gotham discussed the services offered by the placement office and the Alumni association. It was decided to have the officers elected after further consideration.

A third meeting of Waupaca County alumni will be held early in May.

FROM YOUR PLACEMENT OFFICE

Each year the list of successful CSC alumni who qualify for deserved promotions become longer. Many more of our alumni are taking advantage of the expanded service of the college placement office and arrange to have their credentials brought up-to-date and available for placement purposes. If you follow the reports of the placement office you will note the excellent positions our alumni are accepting and the advancement it provides for those with attractive records. All alumni with attractive records are eligible for these services at no cost.

A successful teaching record is of first importance. Continued preparation at the graduate level is essential for the preferred positions. We are pleased to note the many of our graduates who are attending summer sessions regularly or taking a year's leave-of-absence to earn a Master's degree. In most cases the added salary included in a schedule for a master's degree is sufficient to cover the expense within a few years. Few administrative positions are available for anyone who has not the master's degree.

An outstanding record of successes in any one of several fine extra-curricular fields is a real advantage in the competition for the preferred positions. Those who have an interest in these fields and have had continued success in their efforts should report to the placement office. The additions of these records in credentials make them of exceptional value. Those interested in the field of guidance should report a substantial experience since this is a field in which new interest has been expressed.

Any CSC alumni whose credentials have not been brought up-to-date within the past two to four years should arrange to have them brought up-to-date regularly. School administrators and supervisors do move to other positions, retire, leave the profession or for other reasons are not available when recommendations are desired. Keeping your credentials up-to-date will assure you prompt and complete service whenever needed. On occasion we receive a request for service in sending out credentials only to find that the credentials were not renewed since graduation. Extensive delay results in such instances and considerable extra work in locating persons from whom recommendations are requested. We urge all CSC alumni to keep their credentials up-to-date and to include all experience and added preparation. **Remember**, there is no charge for this service. It is our way of assuring you of our continued interest in all our graduates and to repay you for your loyal support of the college.

Dr. R. E. Gotham

RETIRING PRESIDENT SPEAKS

To My Fellow Alumni.

During the past two years our Alumni Association has made excellent progress. Membership has increased and attendance at our functions has improved. We have developed Alumni Area Groups so that our members can get together for activities in their particular city, county or group of counties more easily. More of these will be formed. Much of the credit goes to Mr. Gotham and the late Mr. Pierce.

So that we might carry out the activities of the association as smoothly as possible, I have appointed as Executive Secretary, pro tempore, Mrs. Marjorie Kerst, inasmuch as she is very familiar with our activities and also a member of the College's Alumni Relations Committee. She is doing a wonderful job. By July the new directors, vice-presidents, executive secretary and president will be in office. To them I wish the best of luck and as enjoyable a time as I have had in working with you. My duties at Marquette University make it awkward to continue.

The association should try to sponsor or get groups to sponsor scholarships at the college. This is an immediate need. Strange as it may seem, provisions in wills, and other bequests are most welcome. Do whatever you can for the college. I give my sincere thanks to all who helped me in any way at all.

William A. Golomski

RESULTS OF THE VOTING

Alumni may be interested in the results of the voting which recently took place. Mr. William Miller will replace Mr. George Whitney on the Board of Directors. This was a close contest.

Providing arrangements can be made, a noon luncheon at W.E.A. will be made available for alums. This is to be very informal with no program, but would provide a nice gathering place for alumni. Watch your W.E.A. Journal for further notice about this.

ACKNOWLEDGMENT

We wish to thank the Faculty, Pointer Staff, Stevens Point Journal, and all others who in any way contributed to this bulletin. Your fine cooperation has made this publication possible.

M. Kerst, Executive Secretary
