

Winter 1960

Season's  
Greetings

**ALUMNI NEWS BULLETIN**

WISCONSIN STATE COLLEGE - STEVENS POINT, WISCONSIN

# Holiday Greetings

to all fellow alumni and former students of our college.

We continue to hear good reports of the work of our graduates and we're proud of you. We hope you continue to grow in your chosen occupation. If it means doing graduate work we recommend that too. There are numerous opportunities today to do that without too much financial hardship. As you, no doubt, know we now offer graduate work here in summer sessions in cooperation with the University. We are continuing to expand our offerings and, we hope, improving our service to our students. As we improve our college it will reflect credit upon you as one of our graduates, and we are not unmindful that your growth and good work reflects credit on us.

I think I can assure you that we will be starting a new dormitory in the spring for four hundred men, and a new science building in the autumn of 1961.

Mrs. Hansen joins me in wishing you an old fashioned Merry Christmas of song and story, and lots of good luck and happiness in 1961.

Wm. C. Hansen  
President

## LIBRARY SCIENCE OFFERINGS

The college is planning to offer on Saturday the second semester 1960-61 and on Saturday in the 1961-62 school year a sequence of courses which will meet the new state requirement of 15 credits in library science for the teacher-librarian certificate. Library science courses will also be available in the 1961 and 1962 summer sessions. Teachers who are interested in taking this Saturday and summer session curriculum should write to Mr. Gordon Haferbecker, Extension Director, for details. Literature for Adolescents will be offered in the second semester of 1960-61 school year.

# The Director of Graduate Studies Reports

The first session of the University of Wisconsin-State College Cooperative Graduate Program got underway at Central State College this summer. Forty-six students were enrolled. There were twenty-seven enrolled in the Elementary Area of specialization, six in the History and Social Studies, five in the Language and Literature, and seven in the Mathematics and Science Area. One unclassified student took Liberal Arts courses in preparation for the Home Economics Area of specialization, which will probably materialize for the summer of 1961. The offering of specialization courses in the field of Music is being planned for the summer of 1961 also.

The present Cooperative Program permits students to take two years of graduate work on the State College campus and two years of work at the University of Wisconsin, or the Wisconsin State College at Superior or for Physical Education majors at La Crosse, or for Home Economics and Industrial Art majors at Stout in Menominee. The program is designed for classroom teachers. Its purpose is to strengthen and supplement previous areas of preparation in the undergraduate level. The interests and assignments of teachers change from time to time as do training needs and expected levels of performance. These are the concern of this new Cooperative Program. Central State College plans to offer courses in each area of specialization in addition to last summers' Liberal Arts and Education offerings in the summer session of 1961.

## THE COOPERATIVE GRADUATE PROGRAM AT W.S.C.

The proposed course offerings for the second session of the Wisconsin State College, Stevens Point and the University of Wisconsin Cooperative Graduate Program are as follows:

- |      |  |   |
|------|--|---|
| I.   | <u>PROFESSIONAL EDUCATION</u><br>Seminar, Problems in Teaching - Elementary<br>Seminar, Problems in Teaching - Secondary<br>Philosophical Foundations of Education | Dr. Eagon<br>Dr. W. Clements<br>Dr. W. Clements                         |
| II.  | <u>HISTORY AND SOCIAL STUDIES</u><br>Great Issues in Western History<br>Public Finance<br>Great American Historians  | Dr. F. Kremple<br>Dr. J. Jensen<br>Dr. W. Jenkins                       |
| III. | <u>LANGUAGE AND LITERATURE</u><br>Language in Society<br>Literature and The Human Experience<br>American Novelists, I<br>Foundations of Oral Communication         | Dr. L. Burress<br>Dr. M. E. Smith<br>Dr. L. Burress<br>Dr. P. Isaacson  |
| IV.  | <u>SCIENCE AND MATHEMATICS</u><br>Integrated Biological Concepts<br>Physical Science<br>Fundamental Concepts of Mathematics<br>Intermediate Chemistry              | Dr. E. Pierson<br>Dr. M. Bainter<br>Dr. E. Treuenfels<br>Dr. R. Trytten |

- V. ART  
Historical and Philosophical Concepts of Art Mr. H. Runke
- VI. MUSIC  
Music in Contemporary Culture Dr. H. Marple
- VII. HOME ECONOMICS  
Recent Developments in Textiles and Clothing Miss E. Hill

As currently planned, the seventeen different courses offered will allow for a predicted doubling of enrollment in this new Graduate Program. The added courses include specialization in the area of History, Social Studies, Language & Literature, Science, Mathematics, and Home Economics.

Those interested in music may take some of their required courses this summer.

If you wish to receive more information concerning the proposed program for the 1961 Summer Session write to the Director of Graduate Study, Wisconsin State College, Stevens Point.

Burdette W. Eagon, Director

## Home Economics Master's Degree Program

Plans are going forward to establish a cooperative master's degree program in home economics involving the University of Wisconsin and Central State. A committee has been established to prepare plans for such a program. It includes Dr. Fern Horn of Stout, Dr. Frances Zuill of the University of Wisconsin, Dr. Julia Dalrymple of the University of Wisconsin, Dr. Agnes Jones of Central State, and Dr. Gordon Haferbecker as chairman of the committee.

As in the other master's degree programs, a student will spend two summers at Stevens Point and will complete the degree with an additional two summers at the University of Wisconsin or at Stout State College.

Under the proposed plan teachers would take three credits in education, six in liberal arts foundations, and one home economics course at Stevens Point during the first two summers. This would be followed by nine credits more of specialized courses in home economics at the University and a three credit seminar in the teaching of home economics. Admission to the program would require a major in home economics with at least 35 semester credit hours and a 2.75 undergraduate grade average.

The specialized courses would include courses selected from Foods and Nutrition, Clothing and Textiles, Home Management and Family Living, and related arts. It is hoped that it will be possible for home economics teachers to begin this program in Stevens Point in the summer of 1961.

## THE MUSIC DEPARTMENT

Plans are being made to begin graduate work in music education during the summer session of 1961 at Wisconsin State College, Stevens Point. The program as adopted by a state committee on graduate study is in cooperation with the University of Wisconsin. Two summers of graduate work will be taken on a state college campus, with two summers on the campus of the University, Madison or Milwaukee campuses. The degree to be offered is the Master of Science in Music Education.

## THE DEPARTMENT OF SPEECH

Summer session, 1961, offerings of C.S.C.'s Speech Department will include a "new look" which has proved popular with those who have enjoyed advance notice. It will be possible to earn 6 credits in 5 weeks (selected from 5 or 6 course offerings in Speech) and to earn those credits with 5 days on-campus and 4 weeks off-campus. The off-campus feature is particularly stimulating and interesting because it will offer a chance to travel. The college bus will take the group first to Stratford, Ontario (via the Upper Peninsula and "big Bridge"). At Stratford the group will see three plays which are part of the famous Shakespearean Festival. From Stratford, with a stop at Niagara Falls, the trip will cross New York State into Massachusetts. From this point on there will be a full schedule of famous historic spots, summer theatres, "backstage" lectures, and the Stratford, Connecticut, Shakespearean Festival before the C.S.C. group will settle down for 5 days in New York City. The route home will be different -- New Jersey, Pennsylvania, Ohio, Indiana, and Illinois.

The tour price of \$297 includes (1) all transportation; (2) accommodations in twin bedded rooms in pleasant, well located, inns, hotels, or, at Stratford, Ontario, in Canadian homes; (3) tickets for 20 plays; (4) recommendations and leadership for sightseeing. Tuition, of course, is extra as are meals. The purchase of one's own meals is the most economical. If some members of the group prefer to picnic or eat box lunches, they may do so. Flexibility in time and place to eat is desirable, particularly on days when mileage travelled is slight.

Mr. William Dawson of C. S. C.'s Department of Speech will serve as instructor and tour leader. Alumni who would like to receive a detailed itinerary, or sign for the courses and tour, address their inquiries to Miss Pauline Isaacson, Department Chairman. To date 26 people have signed. Membership in the group is limited to 35. The party should be complete by January 1.

## Alpha Kappa Lambda

Alpha Kappa Lambda is announcing our annual Venison Dinner, January 15, 1961. It will be held at the Country Club that Sunday evening. A delightful evening complete with entertainment will be had by all. Advance reservations can be made through Jack Erdmann, Delzell Hall.

This year A.K.L. opened its annual program with our well-known Watermelon Feed. With a new backing of freshmen and old members, we are working at Mead Wildlife Refuge and at the Park at the north end of town. The Crow Shoot is planned for December 10 - Happy Hunting I. A new addition to our organization is a beautiful glass-enclosed display case made by Vetter Manufacturers showing deer census and other interesting articles formed by the members.

A.K.L. is still interested in our alums! If you have any information to pass along to us - please take the time to do so.

Emilie Schubert

# PLACEMENT REPORT

A partial list of placements of Letters and Science graduates of 1960 follows. Included is a partial report of positions filled by 1959 and 1958 Letters and Science graduates. The Placement Office is interested in reaching all Letters and Science graduates of each year in an effort to prepare a complete placement report. This information is of value not only for the placement files of the college but provides an opportunity for graduates of the college to know the location of their friends and associates of the college. If addresses are included, it provides an opportunity for students to keep in touch with their friends. The Placement Office would appreciate a report from each Letters and Science graduate whose present position is not listed or if the position has changed from the initial listing. An up-to-date address in the Placement Office will assure more efficient services in informing Letters and Science graduates of new placement opportunities for those interested.

## LETTERS AND SCIENCE GRADUATES - JANUARY, JUNE, AUGUST, 1960

### Biology Majors

- ADAMSHECK, BEVERLY (Dancy) - Bacteriologist I, Chicago TB Sanatorium, Chicago, Illinois  
GRAGE, GLENN (Marengo) - Student at Marquette Dental School, Milwaukee, Wisconsin  
MALTBEY, DUANE D. (Shawano) - Food and Drug Inspector, Food and Drug Administration, Department of Health, Education, and Welfare, Chicago, Illinois  
MALTBEY, LARRY L. (Shawano) - Food and Drug Inspector, Food and Drug Administration, Department of Health, Education, and Welfare, Chicago, Illinois  
WILSON, ARCHIE M. (Stevens Point) - Food and Drug Inspector, Food and Drug Administration, Department of Health, Education, and Welfare, Chicago, Illinois

### Biology-Conservation Majors

- ERICKSON, RICHARD A. (Milwaukee) - Warehouse work, Neidhoefer & Co., Milwaukee, Wisconsin  
MEYER, EDWARD W. (Nashotah) - Maintenance work, Waukesha County Park Commission, Waukesha, Wis.  
NELSON, JAMES E. (Tomahawk) - U.S. Army, Fort Knox, Kentucky  
SHERIDAN, JOHN G. (Fountain City) - Food and Drug Inspector, Food and Drug Administration, Department of Health, Education, and Welfare, Chicago, Illinois  
THOMPSON, RICHARD L. (Waupun) - Graduate Research Assistant, Virginia Polytechnic Institute, Virginia Cooperative Wildlife Research Unit, Blacksburg, Virginia

### Biology-Geography Major

- HEIN, RONALD K. (Algoma) - Food and Drug Inspector, U.S. Food and Drug Administration, Department of Health, Education, and Welfare, Chicago, Illinois

### Chemistry Major

- HEDIN, ARLYN (Wisconsin Rapids) - Chemist for the Army, Des Plaines, Illinois

### Chemistry-General Science Major

- McCAMELEY, PETER J. (Wisconsin Rapids) - Research Chemist-Plastics, Fiberite Corp., Winona, Minnesota

### Conservation Majors

- COULTHURST, BERNARD (Stevens Point) - Claims Examiner (Trainee), Railroad Retirement Board, Chicago, Ill.  
OUTCELT, RAYMOND L. (Niagara) - Gas Station Attendant, Martin's Shell Service, Niagara, Wisconsin  
VANDER BLOEMEN, ALBERT (Manitowoc) - U.S. Army, Fort Gordon, Georgia  
WALKUSH, RICHARD (Stevens Point) - Claims Representative Trainee, Social Security Administration Office, Chicago, Illinois  
ZAUGG, ARTHUR J. (Ashland) - Management Trainee, J. C. Penney Company, Ironwood, Michigan

### Economics Majors

ERICKSON, JEROME W. (Waupaca) - Insurance Underwriting, Employers Mutual of Wausau, Wisconsin  
JURGELLA, CARL (Stevens Point) - Warehouse man, Capps Company, Stevens Point, Wisconsin  
KROEPLIN, KARL (Stratford) - President, Central Turkeys, Inc., Stratford, Wisconsin  
SALVIN, BYRON F. (Stevens Point) - Sales work  
WOERLERT, LOIS (Wausau) - Married to Lee G. Andreas, residing at 1018 Main St., Stevens Point, Wis.  
WOODWARD, GERALD G. (Racine) - Personnel Trainee, St. Regis Paper Company, Bucksport, Maine

### English Majors

McCANDLESS, ELIZABETH (Wausau) - Graduate Student, Northwestern University, Evanston, Illinois

### General Science Majors

MARKO, JAMES (Stevens Point) - Insurance Representative, Farmers Mutual Insurance, Stevens Point, Wis.  
MASLOWSKI, MARY (Stevens Point) - Teacher, Physical Education and Science, Weyauwega, Wisconsin  
STANISZEWSKI, THEODORE (Milwaukee) - Purchasing Agent

### Geography Majors

KREMS, JAMES F. (Stevens Point) - Student, Wisconsin State College, La Crosse, Wisconsin

### History Majors

FAEHLING, JAMES (Port Edwards) - Caseworker, Waupaca County Welfare Department, Waupaca, Wis.  
FARRELL, GARY (Green Bay) - Area Salesman, Standard Oil Company of California, Western Operations, Anchorage, Alaska  
FUST, BARBARA (Wausau) - Married to Arthur S. Wilke. She is a half-time graduate assistant in the Department of Sociology at Iowa State University, Iowa  
OSTERKIL, ROBERT (Port Edwards) - Laborer, Nekoosa-Edwards Paper Company, Port Edwards, Wisconsin

### Home Economics Majors

CLARK, SALLY LOU (Hancock) - Married to Robert Scheurell. She is employed as Assistant Food Manager at Marguerite Hall Cafeteria, St. Louis University, St. Louis, Missouri  
DOYLE, MARY LOUISE (Shullsburg) - Home Economist for Wisconsin Public Service Corporation, Wausau, Wisconsin

### Mathematics-Economics Majors

HECKMAN, JAY J. (Antigo) - Computer Programmer, Northwestern Mutual Life Insurance Company, Milwaukee, Wisconsin

### Social Science Majors

KAPITZKE, DONALD G. (Weyauwega) - Caseworker I, Marquette County Welfare Department, Montello, Wisconsin

## LETTERS AND SCIENCE GRADUATES - JANUARY, JUNE, AUGUST, 1959

### Biology-Conservation Majors

BOEHMER, PAUL (Lodi) - Food and Drug Inspector, Department of Health, Education, and Welfare, Chicago, Illinois  
CATHCART, LYLE (Stevens Point) - Game Warden, Seasonal, Stevens Point, Wisconsin  
DANKE, ALAN (Fremont) - U.S. Army, Honor Guard Company, Fort Myer, Virginia  
HANNEMAN, LARRY (Wisconsin Rapids) - Topographic Surveyor, U.S. Geological Survey, Defiance, O.  
HUNT, STUART (Colby) - Claim Adjuster, Employers Mutual, Eau Claire, Wisconsin  
LOKEMOEN, JOHN (Merrill) - Graduate Student, University of Montana, Missoula, Montana  
JAKEL, DALE (Stevens Point) - Department of Interior, National Park Service Division, Coulee Dam Recreation Area, Kettle Falls, Washington  
ROTHER, HARRY A. (Plover) - Caseworker, Rusk County Welfare Department, Ladysmith, Wisconsin  
WIGHTMAN, CHARLES (Stevens Point) - Forest Ranger, Spring Green, Wisconsin

LETTERS AND SCIENCE GRADUATES - JANUARY, JUNE, AUGUST, 1959

Chemistry Majors

CHRISTOFFERSEN, ROBERT (Ogema) - Analyst, Abbott Laboratories, North Chicago, Illinois  
TAO, EDDIE (China) - Graduate Student, St. Louis, Missouri  
TAO, IRENE CHIEN (China) - Graduate Student, St. Louis, Missouri

Chemistry-Biology Majors

GRAUDEN, DEWAYNE (Merrill) - Chemist, Food and Drug Administration, Atlanta, Georgia

Chemistry-Mathematics Major

LODZINSKI, FRED (Stevens Point) - Graduate Student, Institute of Paper Chemistry, Appleton, Wis.

Conservation Majors

HIGGINS, THOMAS (Stevens Point) - Attending Wisconsin School of Mortuary, Milwaukee, Wis.  
HOPPE, WILLIAM (Winneconne) - Temporary job, Paine Lumber Co., Oshkosh, Wisconsin  
LASZEWSKI, PETER (Stevens Point) - A.S.C. County Office Manager Trainee, U.S. Department of Agriculture, Wausau, Wisconsin  
MILLER, JERRY (Neenah) - Safety Engineer, Employers Mutual, Wausau, Wisconsin  
RODAER, RONALD (Green Bay) - Sales work

Economics Majors

MENZEL, GERALD (Stevens Point) - Industrial Relations Consultant, International Harvester, Springfield, Ohio  
POLIVKA, THERON (Grand Marsh) - Management Assistant, Internal Revenue Service, Chicago, Illinois  
WAGNER, BEN (Appleton) - Equitable Life Insurance Company of Iowa

English Majors

WAZENICK, JAMES F. (Stevens Point) - Yard Conductor, Soo Line Railroad, Stevens Point

General Science Majors

CHICKERING, SYLVESTER (Endeavor) - Project Assistant in Immunology Research, University of Wisconsin, Madison, Wisconsin  
VANDENBERGEN, THOMAS (Arpin) - Laboratory Assistant in Chemical Analysis, Sund Strand Aviation Division, Rockford, Illinois

Geography Majors

JACOBSON, DAVID (Stanley) - Forest Ranger, Rhinelander, Wisconsin

Geography-History Majors

THURSTON, JAY (Loretta) - Finance Representative, First Credit Corporation, Milwaukee, Wisconsin

History-Social Science

FOLZ, ALPHONSE (Stevens Point) - Graduate Student, University of Missouri, Columbia, Missouri

Home Economics Majors

BOCHER, IRIS (Shawano) - Office Secretary for Big Sister Assn., Minneapolis, Minnesota  
GREEN, RITA (Schofield) - Married to LeRoy Suske

Mathematics - German Major

KOPP, WILLIAM (Oshkosh) - Analyst, Research Department, Employers Mutual of Wausau, Wausau, Wis.

Music Major

EASTWOOD, SUSAN (Stevens Point) - Student, Fuller Theological Seminary, Pasadena, California

Social Science Majors

McLENDON, ROBERT (Wisconsin Rapids) - Photographer, Stevens Point, Wisconsin  
PRAHL, DOROTHY (Wausau) - City Relief Director, Wausau, Wisconsin  
WILKE, ARTHUR S. (Nekoosa) - Graduate Student, Iowa State University

LETTERS AND SCIENCE GRADUATES - JANUARY, JUNE, AUGUST, 1958

Biology Major

WEIGAND, JOHN (Milwaukee) - Graduate School, Summer work - Mueller Climatrol Company, Milwaukee, Wisconsin

Biology-Chemistry Major

BLOOM, SANDRA (Eagle River) - University of Wisconsin Graduate School

Biology-Conservation Majors

FRAVELL, EDWARD L. (Minocqua) - Medical technician, Veterans Hospital, Marion Illinois

GREEN, JOHN (Milton) - Caseworker I, Sheboygan County Welfare Dept., Sheboygan, Wisconsin

Chemistry Majors

DUNIGAN, EDWARD (Wisconsin Rapids) - Graduate Assistant, Michigan State University, East Lansing, Michigan

MIKOLAJCZAK, KENNETH (Pelican Lake) - Chemist, U.S. Department of Agriculture, Peoria, Ill.

Conservation Majors

FERBER, EDWARD (Menomonie) - Forest Ranger, Conservation Department, Wausaukee, Wisconsin

LUNDA, GARY (Hollandale) - Salesman and Adjuster for Federal Crop Insurance Corp., U. S. Department of Agriculture, Mineral Point, Wisconsin

MILLER, JAMES (Platteville) - Ranger I, Wisconsin Conservation Department, Antigo, Wisconsin

ROSS, JOHN (Stevens Point) - First National Bank, Stevens Point, Wisconsin

English-History Major

McLENDON, ANNE (Wisconsin Rapids) - Instructor in Training Division at Marshall Field & Co., Chicago, Illinois

General Science Major

BEAMISH, MURIEL (Nekoosa) - Secretary for Wood County Superintendent of Schools, Wisconsin Rapids, Wisconsin

History Majors

FROEBA, NORMAN (Marshfield) - Summer work at Consumer Store in Marshfield, Wisconsin

JANZ, RONALD (Dancy) - J. C. Penney Co. at Blue Earth, Minnesota, in training program for managers

LANGTON, MAXINE (Stevens Point) - Child Welfare Worker, Sheboygan County Public Welfare Department, Sheboygan, Wisconsin

MAYER, J. GEORGE (Nekoosa) - County Children's Worker and County Probation Officer for Juveniles, Waushara County Public Welfare Department, Wautoma, Wisconsin

TRIMBERGER, EUGENE (Granton) - Was employed by Sheboygan County Public Welfare Department. Currently has scholarship from State Department of Public Welfare and is enrolled in graduate work in social work at the University of Wisconsin

Medical Technology

CARLSON, MRS. JUNE MARTENS (Stevens Point) - Medical technologist, Highland Park Hospital, Highland Park, Illinois

LINDBERG, DAVID (Merrill) - Medical technologist, Marshfield Clinic, Marshfield, Wisconsin

BIELINSKI, LEONARD (Denmark) - Medical technologist, Marshfield, Wisconsin

WENZEL, FREDERICK (Marshfield) - Medical technologist, Marshfield Clinic, Marshfield, Wisconsin

Geography Major

STRAND, EUGENE (Iola) - Bank Teller, Provident Savings Bank & Trust Co., Cincinnati, Ohio  
(Lacks few credits from degree)

FLETCHER, JOHN (Stevens Point) - General Chairman, Brotherhood of Railway Clerks, Soo Line System Board, Minneapolis, Minnesota

# Blaring Horns Tell of College's Growth

## Music Students at Stevens Point Had to Chase Bats From Ancient Main Hall So They Would Have a Place to Practice

By RICHARD C. KIENITZ  
Of The Journal Staff

Stevens Point, Wis. — Music students seeking practice space have displaced squeaking bats on the third floor of ancient Main hall at Stevens Point State college. It was just about the last place left to go.

"We're so short of room they even practice in washrooms," says Prof. Hugo Marple, chairman of what in five years as a major music department has become the largest in the nine state colleges.

The blare of horns through thin partitions is noisy enough evidence of the growth of a once tiny normal school into a quality liberal arts college.

Today's enrolment of 1,802 is nearly twice the 932 in the fall of 1954. By 1972, some 3,450 students are expected.

Today's problem is that the last substantial addition of classroom space was a second wing on Main hall in 1914, except for a laboratory school.

### Maia Hall Is Crammed

Long, narrow Main hall, with offices squeezed into every odd corner, was built—without the present wings—in 1894. It contains virtually all of the available classroom space. And its age makes it a fire hazard.

William Hansen

"If a fire started in the old pine beams of the attic on a windy night," says William C. Hansen, the college president, "I don't think there are enough fire departments in northern Wisconsin to stop it." "We are one match from being out of business," adds Regent John Thompson. A new two million dollar science building promised in the next two years will lessen this vulnerability, but not all of the growth problems.

Hansen believes that private colleges eventually will set maximum enrolments, leaving it to state institutions to meet the increasing demand for higher education.

### "Roughest" of the Colleges

Stevens Point has been tabbed as the "roughest" of the nine state colleges, which only in the last decade have been giving greater emphasis to liberal arts degrees after long being chiefly teacher training centers.

"Teacher training used to be our sole purpose," says Hansen, "and still is our most important one. We believe that a youngster who goes into teaching should have more than a casual interest in it, I think we've acquired a reputation of being rather severe if they don't get down to work."

Emphasizing this aim of turning out quality teachers, a grade point average of 2 (of a possible 4) is required for a liberal arts degree, but a 2.25 average must be produced before Hansen will sign a teaching certificate. Sixty-two per cent of the 1960 graduating class planned to teach.

"Our standards are as high as anyone's," says Dean of Men Orland E. Radke. "We turn down some youngsters other colleges will take, which is going to be good for our reputation." Of more than 700 freshmen this year, about 73% were in the upper half of their high school classes, and only 1% from the lower one-fourth.

Asked about the quality of a Stevens Point degree in comparison to one from the University of Wisconsin, Dean of Instruction Gordon Haferbecker says, "Our requirements are very similar to the UW's. A person starting here is in pretty good shape to transfer there."

But Stevens Point is not particularly interested in being a steppingstone to the UW, except in highly specialized fields for which it cannot provide the full course. By beefing up its own program, it has reduced its dropouts between the sophomore and junior years from 24% to 12%.

Offering majors in 15 fields, plus some combinations, Stevens Point specializes in business-teacher education, conservation, home economics and medical technology. It believes in firmly grounding future teachers in geography and the sciences so they will be able to explain the changing world to their pupils. The geography department is the largest in the state college system.

### Music School Grows

The music department is a good example of how the school is growing in scope and caliber.

"When I came here seven years ago," Prof. Marple recalls, "we didn't have a major and there was only one instructor on the staff. Now we have 10." There are 85 majoring students, compared with 60 just last year, and 15 minors.

"Just about every student is interested in teaching," Marple says. "About 40% of our music graduates in the last six years have gone

on to graduate school. We're proud of the fact that they are accepted at such places as the Eastman school of music." Hansen also sees a bright future in the business education field. White-water is the predominant state college in this subject, but a

major was authorized here when central Wisconsin high schools experienced trouble staffing their commercial courses. However, Hardware Mutual insurance companies here takes on as many as 15 persons a year with this background and there is also a demand from Employers Mutuals at Wausau. With this in mind, Hansen expects a major in business administration to develop eventually.

Under a co-operative UW-state college program, Stevens Point has just been authorized to let teachers work for master's degrees in home economics in summer sessions. The "home ec" department has built up its reputation to where it gets 15 job offers for every available graduate.

Improving teachers as well as training new ones is a challenge willingly accepted here. Its extension program is the second largest in the state college system, with 17 on campus Saturday classes and off campus night courses in 12 communities.

President Hansen, a 1911 graduate of the old normal school here, keeps faculty standards as high as possible under his budget. There are 35 doctor's degrees on the staff of 111.

Short as it is of classroom space, this fourth largest and fifth oldest of the state colleges is churning with excitement over its two latest buildings.

#### Team Now Has "Home"

A million dollar physical education building opened this year has given the college basketball team its first real "home" floor. Games in the past have been played at local high schools and the physical education program has been stuck away in odd corners. The requirement for a second year of "phy-ed" for students was ignored for years for lack of facilities.

Of a \$600,000 student union first put to use last year, President Hansen says, "I don't know how we ever got along without it."

Previously, the only student gathering place on campus was in a couple of rooms set aside in one of the three dormitories. And there wasn't much to do off campus.

Now, some 3,500 persons go in and out of the union snack bar in each 14 hour day. The cafeteria serves 875 at each meal. The union here—called the college's "family room"—is the most used on any of the nine state college campuses. A tunnel connects it with Main hall and the six year old library.

"In the changing campus atmosphere," says union director John Amacker, "a lot of students were getting lost in the shuffle and we didn't want them to become IBM numbers. We find that this building has helped more than anything."

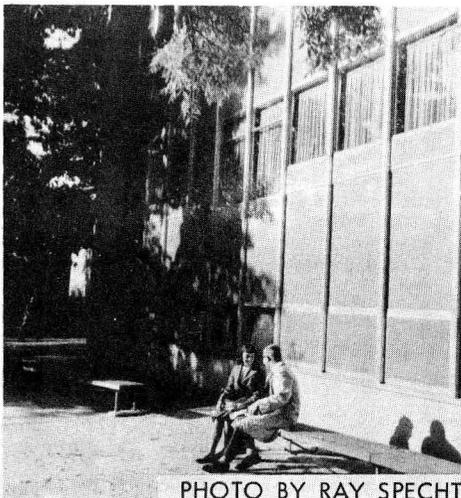

PHOTO BY RAY SPECHT

## COLLEGE UNION

The union staff has taken over the task of helping in organizing student social and cultural activity, keeping the building so busy that an addition within five years already has been requested.

Long confined to 10 acres and three odd lots, Stevens Point has added 20 acres a block from the campus for the physical education layout and eventually hopes to join the two sections.

#### Has Few Traditions

When the college opened its doors on Nov. 17, 1894, after a fight between Stevens Point and Wausau over who would get it, students came from 25 central Wisconsin counties. Today, they hale from nearly every county and most of the states, but more than half are from Portage, Marathon, Wood, Waupaca, Shawano, Langlade and Oneida counties.

A long time "suitcase" college, with most students going to their near-by homes on weekends, Stevens Point has not built up many traditions. An English professor, Norman Knutzen, 26 years ago started a men's glee club, which has given some 700 alumni their strongest tie with the campus.

The school's most distinguished alumnus is Dr. Arnold Gesell, Yale university's famed child psychologist, who took the normal school course.

But the story of the school is not complete without mention of energetic Miss May Roach, now 75, an inspirational public speaker who was on the campus from 1914 to 1956 in the rural education department. When she retired, local businessmen set up a fund in her honor that provides about 16 scholarships of \$250 a year. She said friendliness was a great tradition here.

President Hansen, who has been here since 1940 and at 69 is due to retire next year, is a gentle leader, who gives his faculty a large hand in working out curriculum improvements.

Although the initials CSC flash from student sweatshirts and appear in campus publications, this school never has been officially named Central State college as the letters imply.

# Training Given in Conservation

There is nothing quite like Stevens Point's conservation education course, the nation's only major in the field when it was established in 1946.

Fred Schmeackle, first head of the department, now retired, pressed the idea that the people of the nation needed to be educated about natural resource conservation. Schools, he argued, were the best place to do this.

The first plan was to train teachers for special conservation courses in grade and high schools, but it never quite worked out that way.

"Now we have found that the best way is to integrate it in other courses," says Prof. Bernard F. Wievel, the present department head. This has led to a great many minors in conservation and such combinations as biology-conservation majors.

## Teach Other Teachers

"In bigger schools," Wievel adds, "our graduates teach other teachers how to integrate conservation into their courses." One of the early graduates was Roy Swenson, supervisor of conservation in the Milwaukee public schools.

The more than 200 majors in the department now are given a broad base in forestry, soils and wildlife. Many liberal arts graduates have wound up in the state conservation departments. The five man staff turns out as many as 25 graduates a year.

"We train generalists in conservation," Wievel says. "For the more professional needs, we don't have the depth and recommend that students transfer to specialized schools, or finish up here and go for a master's."

Conservation is not an easy course.

## Course Often Misinterpreted

"There is a tremendous mortality," Wievel says. "If we have 150 to 180 freshmen, they are cut down to 80 by the sophomore year. We're not sure, but we think many misinterpret what conservation is. They think it is hunting and fishing."

A learn-work program is carried on at summer camp in connection with the course. Optional now, it will be required in 1962.

Sixty acres of swamp and woods some distance north of the campus, obtained for future expansion, is expected to be used for the time being for conservation projects.

"We're also moving into the field of outdoor education," Wievel adds, "trying to set up a minor in such things as camping and using the outdoors as education."

## Stained Glass Window Is Relic of Earlier Days

Stevens Point was so eager to be a normal school site in the 1890's that it agreed to finance construction of the original building at \$60,000.

Citizens eager to be associated with the educational adventure contributed all sorts of bric-a-brac to give the school a cultural aspect. Main hall once was cluttered with all sorts of statuary.

The only relic of this era is a stained glass window at the west end of the second floor corridor of Main hall.

Biology staff members, whose office is between it and the outside wall, agree that they would rather have a door instead of the fancy window.
