

# THE POINTER

Series III. Vol. III. No. 13.

Stevens Point, Wis., January 31, 1929

Price 7 cents

## THEIS PROFFERS RESIGNATION AS "POINTER" EDITOR

ENTERED RESIGNATION JAN. 21  
TO TAKE EFFECT AFTER  
THIS ISSUE

C. G. Theis, present editor of the Pointer, has proffered his resignation, as such and John Pralgske has been elected to succeed him in this office.

Theis entered his resignation on Monday, January 21 with agreement that he would edit the next two issues of this paper, by which time the new editor would have been appointed.

Theis gives as a reason for his action the fact that he desires to spend more time on curricula work and on outside activities both in and out of school.

John Pralgske steps into the vacancy very efficiently equipped to handle such a position. He served on the staff in the school year of 1927-1928 as circulation manager and thus far in 1928-'29 as business manager.

Mr. Pralgske is also President of the Margaret Ashmun Club, which is composed of students who have done outstanding work along literary lines.

## Elect Mr. Spindler As Honorary Member

At a recent meeting of the Margaret Ashmun club, Professor Frank Spindler was unanimously elected an honorary member of that club.

Mr. Spindler gave a very interesting talk before the meeting concerning the Socratic philosophy and Platonic philosophy of life. His views are very broad and the talk was enjoyed by everyone.

## Grammars To Give Movie Friday Night

The new movie machine which was installed some time ago in the college auditorium will be initiated tomorrow evening at 7:30.

Word has not been received definitely as to the title of the picture but it will be either "Nuck of the Northland" or "Timothy's Quest."

This movie is given for the benefit of the Grammar department and the admission charge will be ten cents.

## Members Of Faculty To Attend Meetings

Professor Rogers and Burroughs will go to Milwaukee, February 2, on business.

Mr. Rogers is chairman of the Science section of the Milwaukee Teacher's Association and Mr. Burroughs is chairman of the speech section.

A special meeting of chairmen has been called to make plans for a program for next year.

## Mr. Neale Requested To Address Teachers

Mr. Neale has accepted an invitation from the teachers of Milwaukee County to appear on their institute program Saturday, February 2, with an address on "Picture Appreciation." He gave a picture talk last spring to this group, and the teachers this year wished a continuation of that material.

Mr. Neale has already accepted several other invitations for early spring institutes, among them are Eau Claire and Ladysmith.

## IMPORTANT! RETURN BOOKS!

Text books are to be returned during the following hours at the close of the first semester:

Rural Dept. Tuesday P. M. February 5th 1:30 to 2:30  
Primary and  
Grammar Depts. Tuesday P. M. February 5th 2:30 to 4:00.

High School Dept. Wednesday A. M. February 6th 9:00 to 10:30  
Home Economics Dept. Wednesday A. M. February 6th 10:30 to 12:00

Do all your studying before the hour your books are to be returned because a fine of 25 cents a book is charged for books not returned during the time specified for the department.

Text library will be open Thursday, February 7th, 1929, from 10 to 12 A. M. and 1:30 to 4:30 P. M. for purpose of giving books out for 2nd semester.

## Plan Mardi Gras Festival Events

Plans for the Mardi Gras are progressing rapidly, and will take action at the beginning of the popularity contest Monday, February 4th.

Representatives for the contest will be nominated and elected at special class meetings after assembly today. These candidates will be put on ballots under the heads King and Queen. Students voting for these candidates will vote for all by putting a number in the box opposite each name in the order of preference.

Ballots may be purchased for one cent, five cents, or ten cents. The amount paid for the ballot will determine the number of votes cast for each person on the ballot. That is a ten cent ballot will cast ten votes for each person on the ballot in order of designation.

No doubt, as usual, the voting will be fast and furious until the close of the contest which will be at 7:30 the eve of the Mardi Gras.

The results of the contest will not be revealed until the coronation which will take place at the dance. Evelyn Elliott is head of the coronation committee.

Special effort is being made to make this a costume affair. For this reason the admission charge for masked persons will be fifty cents; for unmasked persons, seventy-five cents. In order to promote this, Professors Burroughs and Rogers will make a trip to Milwaukee Saturday and while there will make arrangements for costumes for the Carnival Costume house. This will provide access to costumes for students who do not care to make them.

Meals will be served for forty cents between the hours of 5:30-7:30. This will be taken care of by the Home Economics department. Anyone who will purchase a ticket for the dinner will be entitled to a vote in the popularity contest.

The main show will take place at 7:30 in the auditorium and will feature four mystery stunts. Admission twenty-five cents.

## Students Of School Awarded Positions

Several students who are graduating at the end of this semester have already secured teaching positions.

Miss Elizabeth Skinner has accepted a position as a teacher of Home Economics in Sheboygan, Wis. She will finish with a B. E. degree after a year and a half of additional study here. She will teach sewing in the High School at Sheboygan.

Miss Lulu Clocksin has received a position at Adams, Irene Cleaves at Merrill, and Hazel Chapel at Colby.

## Feb. 5th Is Date Of "Applesauce"

The play "Applesauce" will be presented Tuesday eve, February 5, at 8 o'clock.

This is the second of the two plays to be presented by the public speaking department this semester.

"Applesauce" is a comedy of the true type. It is supported by a well chosen cast which is as follows:

Ma Robinson ..... Eleanor Worzalla  
Pa Robinson ..... Walter Wasrud  
Mrs. Jennie Baldwin .. Sylvia Brickson  
Hazel Robinson .... Margurite Engles  
Matt McAllister ..... Lucille Hyland  
Bill McAllister ..... Allen Mc Vey  
Rollo Jenkins ..... Clarence Teske  
Admission will be thirty-five cents.

## Dr. Baldwin To Talk On Rural Problems

Doctor R. D. Baldwin has been recently requested to appear before a Rural Teacher Training section which will meet on Wednesday afternoon, February 27, in New York City.

Dr. Baldwin will talk on the "Future need in the Preparation of Rural Teachers". Due to his keen interest in this field of education, his efforts have impressed many of the leaders of the educational world and because of this fact, he received this invitation.

Dr. Baldwin has already given several speeches on this phase of education, one of which was printed in the September issue of "School and Society".

## CALENDAR

Feb. 1 — "Nuck of the Northland" or "Timothy's Quest"  
Feb. 2 — Basketball game, Nepeos here.  
Feb. 6 — Semester ends  
Feb. 7 — Enrollment  
Feb. 8 — Basketball game, Whitewater here  
Feb. 12 — Mardi Gras  
March 31 — Easter recess  
April 6 — Junior Prom.

## Call Miss Allen To Madison Conference

Bessie Mae Allen, director of the Home Economics Department of this college, went to Madison Friday for a conference with Miss Leta Bane who has charge of the extension department of the U. of Wisconsin.

The purpose of the conference was to plan new correspondence courses in Home Economics. Announcements of these will probably be out in April.

## POINT AVALANCHE BEATS FAST SQUAD FROM MILWAUKEE

MOLL FLEDGELINGS GET HOT IN  
SECOND HALF TO WIN  
HANDILY

By Carlton Lintner  
Running on a last-half scoring spree which netted them 30 points, Coach Moll's local Purple completely submerged the Milwaukee Teachers in the College gym last Saturday night, 41-24.

### MCDONALD SCORES

It was a case of Scotty McDonald

C. S. MOLL

### "SNOZZLE" HIGH MAN

Shooting way off form, the Moll-men just couldn't connect in the first frame, even sucker shots rolled around and off. Milwaukee's rangy quintet had a defense that allowed few short shots that were not hurried.

The Pointer's defense worked like a charm all night, keeping the southerners out of the scoring zone, making up for a poor offense and keeping the score somewhat even the first period.

The second half was a walk away. Neuberger and Marshall were aroused from their slumbers and both discovered that the object of the game was to put the leather through the hoop.

Neuberger proceeded to open up the artillery and bagged five more field goals and three free tosses, making him

(Continued on page 4 Col. 1)

## Coeds Selected For Court Competition

The following are the girls' basketball teams:

### Group 1

- Grammar:  
Forwards: Hiltz, George, Viertel.  
Guards: Sparks, Cutler, Kelley.
- Primary:  
Forwards: Hougen, Riley, Smart.  
Guards: Krumm, Mills, Scott.
- Forum:  
Forwards: Sippy, Rogers, Coppes.  
Guards: Springer, Brickson, Schneck.
- Home Ecs.:  
Forwards: Olson, Jeselun, Joseph.  
Guards: Schmidt, Andrew, Buhl.

### Group 2

- Reds:  
Forwards: Amble, Culver, Carswell.  
Guards: Hawkes, McWilliams, Roberts.
  - Purples:  
Forwards: Pulda, Sorenson, Fermanich.  
Guards: Johnson, Rice, Nichols.
  - Golds:  
Forwards: Lapenske, Sivertson, Novitski.  
Guards: Dunham, Bacon, Thorson.
- Teams in Group 1 will play each other, and teams in Group 2 will play each other. The winner of Group 1 will play the winner of Group 2. Dates of the tournament will be announced later.

Published Weekly at Stevens Point by the students of the Central Wisconsin State Teachers' College.

Entered as second-class matter May 26, 1927, at the post office at Stevens Point, Wisconsin, under the Act of March 3, 1879.

Subscription Price \$2.00 per year.

#### C. G. BIDS ADIEU

I wish to take this opportunity to announce publicly that after careful consideration my resignation as editor of the "Pointer" has been written and accepted. The reason for my action is the desire to spend more of my time on my curricula work and on extra activities both in and outside of school.

I thank all those who were so kind to assist the editor in lightening his duties, especially the staff members who cooperated so wonderfully with me the last eighteen weeks. I hope that the members of the staff will continue to cooperate with the succeeding editor, Mr. John Pralguske.

To close with just a word about John. He is an intelligent, conscientious and likeable chap and I hope that he will be given every bit of help from each student in the school within his or her power, so that the "Pointer" will be one of the best college papers in the state.

C. G. Theis.

#### ARE INSTRUCTORS HUMAN?

The first semester closes next week and the judgment day is hanging o'er our heads. Soon we will know what our efforts throughout the past eighteen weeks have netted us so far as grades are concerned.

But are grades the all-important goal in our endeavors in Central State? I have been thinking about this for some time—wondering if a 94 or a 74 conveys correct impressions. If you and I cram successfully or happen to know the answer to just those questions asked on the quizz, why we no doubt will receive a high grade. But what if we have fulfilled our daily assignments conscientiously and possibly have a physical or mental disorder the day of the examination, failing to answer the questions satisfactorily, then do we fail?

That question will be answered by your individual instructors better than I can. Some of the instructors in Central State use the system of grading by averaging quizz grades, others combine examination marks with daily recitation work, and still others require papers to be written at intervals during the semester and give grades according to the proficiency displayed.

Personally, I do not favor the first system by which an instructor grades on examinations alone. In a college the size of ours, a teacher should know what ability a student has shown during a period of eighteen weeks when the student meets him in a classroom three or four times a week. The last system is the most feasible for it requires a knowledge of the subject before the paper is prepared and also spreads the work over a longer period of time.

It has been my good fortune to take both Sociology and Economics under Mr. Smith. After reading material on a certain phase of the subject and careful analysis of it in class, the request is made to write a paper, injecting your personal ideas and reactions. If your thoughts have been too shallow or are incorrect, comments on the returned paper will aid you in rewriting it, a new idea here or a suggestion for improvement there. What is the result? When the paper is accepted, the student has really accomplished something and realizes it, not only that, but the mental labor involved of thinking through the entire problem himself will fix it permanently in his mind.

Isn't that a better system than trying hurriedly in an hour's time to write all you know about the Malthus theory and nine other phases of the subject, with a few extra stickers thrown in to manifest themselves like sore thumbs?

Some students of nervous dispositions and temperaments worry two weeks before and brood two weeks after the finals. What has the instructor accomplished except it be that he has made a nervous wreck out of a few human beings? If the student writes a poor paper, how can the instructor tell but that he or she was entirely responsible for this failure because of some personal, mediocre presentation of

#### THE SHOWER ROOM

COLD WATER AND BOQUETS  
CHEERFULLY THROWN.  
KNOCKS A SPECIALTY

Wanted: to buy cheap, a second hand fire ladder for basket-ball purposes only. Art Schroeder.

By the size of Gerboth of Milwaukee we shouldn't wonder!

#### BOOTS

During a recent high toned musical recital of some of Opera's misfits, we heard Mr. Deacon, foremost American baritone, sing "Boots, Boots, Boots". Ya gotta give that boy credit, he wasn't so dusty, but we are loyal to our Alma Mater, and stoutly maintain and affirm that Mr. Burroughs is the champion Booter of all times. Students, just think of all the times you've heard our professor shouting "Boots, Boots, Boots" to an appreciative audience, wasn't you kind of disappointed in the amateurish Mr. Deacon, who tried to sing this immortal ode? We were, and we'd much rather have heard St. Louis Blues!

#### KNOW HER?

At last we've found a co-ed so dumb she thinks the Associated press is a hug! And she's a Rural too!

#### NIZE DETECTIVE

Along about last fall, two of our prominent men about school decided that a school teacher's career was the bunk, and, having highly imaginative minds, decided that a detective's life was the life for them.

A mail-order course in detecting, with the only requirement big feet, all completed; these two looked around for worlds to conquer. Nothing ever happens here that needs two first rate detectives and the two gentlemen waxed impatient until about two weeks ago. It happened thus. There has been petty larceny and burglarly of late in the boy's locker room; the offenders preying upon the empty clothes of collegians partaking of class basket-ball.

While these two self-same detectives were flat-footing the ball around the hard-wood, some mischievous, frivolous, little imps spirited away an Ingersoll and a cigarette lighter belonging to one of the Sleuths whom we shall call Bill, and took a nice \$.98 cap belonging to the other whom we shall call Doug. The thieves started their getaway but met Bill and Doug in the corridor and those gents immediately detected the gleam of a criminal in the other's eyes. Knowing something was amiss, they hurried to their lockers and found things excent. Immediately they sprang into action, following the trail that lay plain before them over the frozen snow to the Pie House. Step by step, careful not to crack a twig to alarm those ahead, they crept on. Ah, there was the duct ahead gloating over their getaway, but it was not to be. With a rush Bill and Doug mustered up their cunning and courage, hurling themselves on the unsuspecting victims with much fury. For two hours the battle raged, then the detective training began to tell on the unexperienced culprits, who finally gave up, admitting their way wardness.

According to the Assorted Press, and an eye witness tells us that as Bill was struggling to get a toe hold, the culprit huddled the Ingersoll in a snow bank with his free hand, unnoticed by the Sleuth who lost it. It was found in good running order by another person who returned it to Bill for a considerate Sum.

Moral: Don't detect a La Sears Roebuch. Adios.

#### THE HOOK UP

Nip: "Give me a sentence with the word fascinate in it."

Tuck: "My girl has ten hooks on her dress, but she is getting so stout that she can only fasten eight."

#### HUMOR MORE OR LESS

"Say — That's Rich!"

#### NUTTING DOING

Liz R: "What are you going to do this summer?"

Glen W.: "I've got a job in my father's hardware store; in the nut and bolt department, doing nutting."

**FOR THE PIE-SHOP**  
Introducing the waterproof wrist watch for those who dip doughnuts in their coffee.

#### POWERFUL

Floyd: "What is the greatest water power known to man?"

Pauline: "Woman's Tears."

#### FLIVVER LOVE

The flivver that won't run is a standing joke.

Jo: "What's the difference between a mail box and a garbage can?"

Huck: "I don't know."

Jo: "You'll never mail a letter for me."

Most folks don't go joy riding for the joy they get out of riding.

#### TACT

Sophisticated Sophomore: "Look here, Frosh, did I hear you say my girl dances like a Jersey cow?"

Frosh: "Gosh never seen a cow dance."

#### HINT FOR HOME ECS.

Two old evening gowns sewed together make an excellent penwiper.

#### TOO BAD

Laurence B. "Someone has stolen my car."

Cop: "These antique collectors will will stop at nothing."

#### COED'S PHILOSOPHY

#### DISILLUSIONED

Dr. Collins: "I always thought a yard was three feet, until I started cutting my lawn."

#### FROM THE CHEMISTRY LAB.

It was so still you could hear the microbes nashing their teeth.

#### GOOD ORCHESTRA

Loretta to Irene: "It was a swell twelve piece orchestra. It could play ten different fox trots and two waltzes."

Krause in hospital: "Just before we got to the railroad crossing, we idled down to sixty-five an hour."

Teske: (Woefully) "I guess I won't pass in biology."

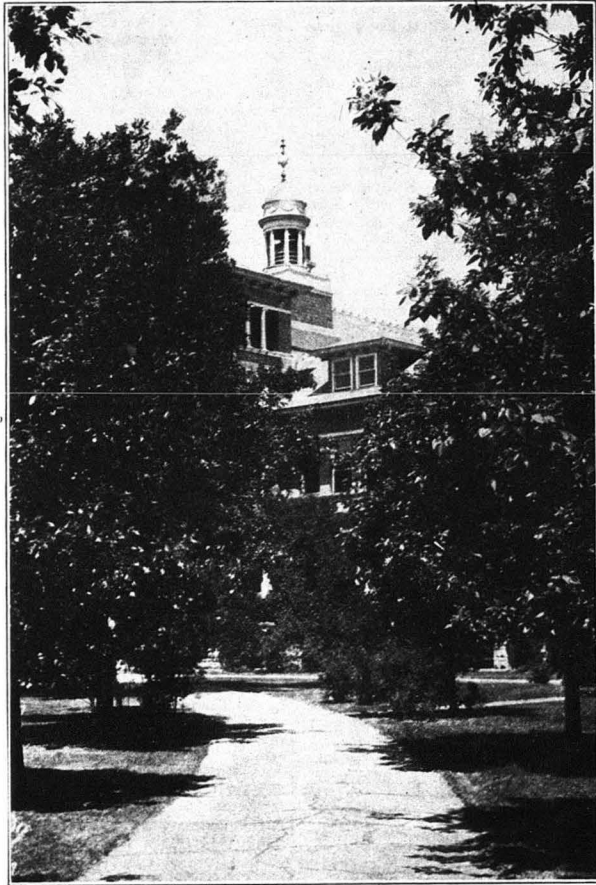

Budalh: "Why not?"

Teske: "Because I'm not taking it."

the material? A mental blockade because of the tenseness of situation may have caused the poor showing. Who Knows?

This article isn't being written to excuse those students who are just simply lazy but rather to express the sentiment of the conscientious type, who, though they have labored hard, yet have developed a complex against written inspections.

C. G. T.

OLD CENTRAL TOWER

(Continued from page 1 Col. 4)  
ace high for the night with fifteen points.

### SCHROEDER PLAYS WELL

Marshall also collected five from the field plus a free shot giving him eleven points. Art Schroeder, who ably filled the late Mr. White's shoes, contributed two nice shots to the cause besides playing a good game and getting a Scotch toss.

### SOME SHOOTING!

To show the world some shooting in the last round, both Neuberger and Marshall made good five out of seven tries from the field, while Schroeder made two out of three shots. McDonald made good all his tries in the starting period.

Albert Neuberger played his best game of the season; recovering backboard shots, passing, shooting, fighting all the time in a brilliant manner.

### BEN HANDED "STRETCH"

Ben Weronke had his hands full in covering "Stretch" Gerboth, Milwaukee's stretched out center, but Ben was knee deep with the old fight, as was the whole gang.

For Milwaukee, Van Horne, guard, Hendley, Gother, and Stapleton, forwards, put up a nice exhibition.

### FIRST HALF

Point shooting South; Milwaukee North basket. After tip off White got the first shot but couldn't connect. White fouled Hendley who put in both. Score M 2-P 0. Both defenses good, all shots hurried. McDonald fouled Stapleton who made one shot good. M 3-P 0. Pointers shooting wild. McDonald sank a long heave for the Point's first score M 3-P 2. Stapleton made another free throw on Mr. White. Weronke missed free throw. Stapleton puts in a pretty one-hand shot, followed by another on a dribble in from the side. Score M 8-P 2. Point time out. When play was resumed Hendley killed one from the free throw line. Weronke misses free toss on Hendley. Pointers missed pot shots. McDonald bagged long counter from the middle. White fouled Hendley who made one. Score M 11 - P 4. Schroeder for White, Marshall had hard luck on pot shots. McDonald sank another from middle. Schroeder missed F. T. on Gerboth. A pass Weronke to McDonald, a short dribble and the Point had two more points. Just before the horn sounded Neuberger dribbled in to close the half's scoring and tie the count at 11 all.

### SECOND HALF

Started out slow. White fouled Hendley again and took a shower. Hendley missed both. Schroeder for White. Schroeder put the Point ahead for the first time on a free throw S. P. 12 - M 11. Weronke called for doing the 220 with the ball. Ben spilled big Gerboth, as did Scotty. Milwaukee shooting way off — game faster. Marshall made a shot and a free throw. Hendley fouled Snuzzle as he shot, made both — Score P 17 - M 11 — Neuberger got one under the basket — Gerboth missed a free one on Benny. Neuberger makes it 21 - 11 with a shot from above his head. Pointers made 10 points to Milwaukee's nothing. Pointers going strong but Green slacking up. Gerboth left game. Van Horne made a flying basket over McDonald. Marshall dribbled in and added two more points. He sunk another off next play — S. P. 25 - M 13. Van Horne got a pretty, short shot from a dribble down side. Passes getting wild. Schroeder picked ball out of mixup and tallied one. McDonald fouled Hendley who missed both. A pass Schroeder to Marshall made score 29 - 16. Substitution, Milwaukee, Murphy for Hendley. Marshall to Neuberger all alone under the net — counted one more. Stapleton blew a free throw. Van Horne breezed a distant basket from three quarters of the floor to make it 31 - 18. Milwaukee got another from middle, followed by Neuberger who looped in two in succession. Snuzzle added a free throw — Stapleton made a free throw. Marshall sank a long shot, while Scotty added a Scotch basket to make it 39-21. Neuberger hit the loop on a shot over his head to complete the Point's scoring. Marshall fouled Murphy on the jump, counting one point for the Irish. Myhre finished all falling with a basket off; the tip off whistle — Score Stevens Point - 41 Milwaukee 24.

## Present Awards To Members Of G. A. A.

Any girl wishing to be on a basketball team must be out to every practice!

This week a business meeting of all G. A. A. members was held. At this meeting the new G. A. A. members received their letters. These new members are: Vivian Culver, Ann Jeselun, Frances Johnson, Ethel Kelley, Lucille Krumm, Ann McWilliams, Genevieve Pulda, Murilla Roberts, Ethlyn Smerling, and Esther Sorenson. Ethel Maes was awarded a bronze pin, and Eunice Riley received her tennis emblem.

On Saturday afternoon there will be an initiation party given in the form of a sleigh ride. The girls will have lunch at the Tea Room after the sleigh ride.

In case of unfavorable weather, the party will be held at Nelson Hall.

## Platform Of School Receives Furniture

The public speaking department has recently purchased some new stage equipment in the way of furniture and lamps.

This new equipment is a very welcome addition and will no doubt be initiated to-night in the auditorium, at which time the play "The Famous Mrs. Fair" will be presented.

The play "Applesauce" will also be given Tuesday Evening, Feb. 5, in the college auditorium.

The proceeds from these plays will be used to defray expenses of forensic work.

### BRAVO!

Miss Maurine Tavis and Miss Amy Amble braved the chances of a snow-bound train last Friday and spent the week end at their homes in Marshfield.

### TYPES OF GIRLS

There are girls with pretty blue eyes,  
There are girls with eyes of brown,  
There are girls who have no beauty,  
Cause they always wear a frown.

There are girls who think they're  
cunning,

There are girls who like to urge,  
There are others made of tissue,  
Tl-y're the kind men do not choose.

There are girls who have a beauty  
In their quiet and simple way,  
They are girls with lot's of reason  
For they understand fair play.

There are those with tender hearts  
With a love that's ever true,  
They're the kind men do look for  
Though they number but a few.

There are girls of every station  
Those who meet with toil and strife,  
There are girls who have a knowledge  
Of the better things of life.

There are untold types of girls  
And to make this round more gay  
It seems that they're improving  
Every day, in every way.

Lawrence Beaudin.

## Resume Of Clubs At Local School

Central State Teachers College has a number of organizations and clubs to which we students can attribute most of our social good times. All of these clubs tend to bring the students and teachers together so that all may become better acquainted.

The Forum is an organization for the members of the High School department. They keep alive the traditional significance of the old Roman Forum in their meetings. Sometimes entertainment is offered; sometimes, educational enlightenment. The prominence of the Forum in school life is largely due to Mr. Smith's interest in it.

The factor that plays the biggest part in the social life of the Home Economics department is the Home Economics Club. Miss Allen, Director, and Miss Meston are the club advisers; it is through their cooperation that the club succeeds in creating a friendly spirit among the girls of the department. Talks on travel and educational movements, music, and games furnish the chief source of entertainment.

The Rural Life Club is closely associated with the Rural department. The members of this club need never be motivated to attend because they are always sure of a worthwhile, peppy meeting. Programs are varied and interesting with dancing as one of the diversions of the evening. This club sponsors the one big social event of the college during Lent — a St. Patrick's Party — and history has it that it has been a success since its inauguration.

The Primary Council is the department society for the Primaries. At the meetings which are held every two weeks, they receive many social and instructive benefits. The Primaries are always active in all events of the College.

Students connected with the Grammar Department automatically become members of the department club known as the "Grammar Round Table". This club through its meetings and parties helps to give to the students the social functions so necessary in the life of young men and women. Last year the club gave a Valentine Party that was one of the best parties of the year.

The Y. W. C. A. is composed of women interested in the wholesome living that is inspired by Christian Fellowship. It has a three fold purpose; the spiritual, the intellectual, and the physical welfare of every member, and the extension of these benefits to everyone in the community. It is also the purpose of the Association to foster fellowship among its members through active service and friendship so that the life of the college community as a whole may reflect Christian ideals more strongly.

The Loyola Club gives for the Catholic men and women of our school a chance to become better acquainted and to discuss problems of a religious and spiritual nature. Much of the enthusiasm of this club is due to Miss Roach, Miss LaVigne, and Miss Hanna. With their efforts the club is bigger and better every year. Rev. Father Casey is the spiritual adviser of the club.

The Girls' Athletic Association is rapidly becoming one of the leading organizations of the school. This association, as the name indicates, is an organization particularly for the girls interested in their physical development. The association sponsors certain social functions. In the spring and fall picnics are given and during the winter skating parties besides an all school dance for girls. This adds much to the school life of the girls and helps to unify school spirit.

Proficiency in English, dramatics, speech work and the activities closely allied to it, such as oratory, debate, and school publications, is recognized by membership in the Margaret Ashmun Club. The club bears the name of one well known literary light among the alumni of the school. This organization affords an opportunity for the members to become better acquainted with the present-day literary world.

The Science Club is composed of all

### IF I WERE YOU

Now you needn't get to thinking, Sam,  
That you're twice as big as I;  
For I weigh about as much as you,  
And stand almost as high.

Oh, it isn't going to help you lots  
To be thinking you are more;  
For the truth is, you're a vexing pest—  
The like I've seen before.

Nor it isn't going to make you friends,  
All your haughtiness and pride;  
For it's cutting you away from folks  
And setting you aside.

So I want you to forget yourself,  
Just to come and learn to live;  
Else I fear you'll never have a friend—  
A screen without a sieve.

But perhaps I'm saying far too much,  
And am hurting you besides;  
So I wish you'd come, and go with me  
To yonder mountain-sides.

For it's there you'll learn the quickest,  
man,

Just how big you really are;  
And I say, Sam "Are you coming now?  
Or does it look too far?"

Oh I know you'll not regret the trip,  
Nor can money ever buy

The great joy you'll know out there  
with me  
Between the earth and sky.

And it's there that beauty really lives,  
For it's nourished from the sod;  
And, O Sammy, won't you come and live  
With me, yourself, and God?"

F. Rogers Constance.

### VACATION

Oh! Golly how I hate to work;  
It's lots more fun to sit and shirk.  
For when the days are nice and warm,  
The birds, they sing; the bees,  
they swarm;  
I want to be down by a brook  
To dream in a secluded nook.

I simply hate to go to school  
And have to mind the golden rule.  
For when the days are dry and hot  
There's only one refreshing spot,  
And that's a clear, deep shady pool  
In which to bathe, — in which to cool.

Oh! How I like to stroll all day  
Through fields of fresh, sweet,  
new-mown hay;  
Or spend a week in search of lore  
That comes from only Nature's door.  
I will admit, since boughs must bend,  
That I regret Vacation's end.

F. Rogers Constance.

instructors in science courses, and those students who have attained excellence in scholarship, and have manifested their interest in the development of science. Interesting topics, such as astronomical and electrical phenomena, radio, x-ray, chemical, medical and geographical subjects are discussed here.

The Pep Club speaks for itself. It is a club that injects spirit and action into the student body. Homecoming, an annual event, is sponsored by the pep club—beginning with a snake dance and bonfire in the evening and continuing the next day with a big parade, followed by the big game, and winding up with the dance. During this time the pep club has its annual luncheon at Nelson Hall.

The Girls' Chorus is composed of those girls interested in choral work. It has been a great aid in the presentation of programs, operettas, and other forms of entertainment. The girls become acquainted with the problems that arise in forming organizations of this nature and are able to make successes of their own attempts at this work.

Due chiefly to the sustained and energetic efforts of Mr. Schmeckle, the Tennis Club was organized in the spring of 1926. The purpose of the club is to promote tennis as a school sport and sponsor improvements and upkeep of our splendid courts.

# SOCIETY

## Cabinet Of Y. W. C. A. To Be Entertained

Miss Bertha Hussey, Dean of Women, will entertain the cabinet members of the Y. W. C. A. tomorrow night, Feb. 1 at Hotel Whiting at 6:30.

The dinner is given this semester because Miss Ethel Maes, who is a member of the cabinet, will graduate at the end of the semester.

Mrs. Robert Dodge Baldwin will be guest of honor.

## Mr. Kraus Speaks To Ruralites Of School

The Rural Life Club met in the Rural Assembly Monday night where they had the pleasure of hearing Joseph Kraus, principal of the High School, who spoke on "Thrift." Miss Beverly Newby played a piano solo. Following this an orchestra was organized and practice begun. All members of the club who can play instruments are eligible. It is planned to have a social hour after future meetings and the orchestra will furnish music for these occasions.

### NOTICE!

A special meeting of the pep club is scheduled for 12:45 today in Dr. Collins' room. Every member must be there.

Forum meeting, February 6, for all High School Department members.

Basketball game between Nepeos of Port Edwards and Point reserves, Saturday evening at 8 o'clock. Dance after the game.

## LEARN THE PIANO IN TEN LESSONS

### TENOR-BANJO OR MANDOLIN IN FIVE LESSONS

Without nerve-racking, heart-breaking scales and exercises. You are taught to play by note in regular professional chord style. In your very first lesson you will be able to play a popular number by note.

### SEND FOR IT ON APPROVAL

The "Hallmark Self-Instructor," is the title of this method. Eight years were required to perfect this great work. The entire course with the necessary examination sheets, is bound in one volume. The first lesson is unsealed which the student may examine and be his own "JUDGE and JURY." The later part of the "Hallmark Self-Instructor" is sealed.

Upon the student returning any copy of the "Hallmark Self-Instructor" with the seal unbroken, we will refund in full all money paid.

This amazing Self-Instructor will be sent anywhere. You do not need to send any money. When you receive this new method of teaching music, deposit with the Postman the sum of ten dollars. If you are not entirely satisfied, the money paid will be returned in full, upon written request. The Publishers are anxious to place this "Self-Instructor" in the hands of music lovers all over the country, and are in a position to make an attractive proposition to agents. Send for your copy today. Address The "Hallmark Self-Instructor" Station G, Post Office Box 111, New York, N. Y.

## Many Events On Social Calendar

Social activities at C. S. T. C. open with a Freshman mixer. This year it was held before old students arrived so that new students might become acquainted and feel at home before upper classmen were present. The Freshmen had such a good time that it was impossible to keep some of the old students out of the gym.

The first week of school ends with the Faculty Reception. This is always a real party with a good program and at its close everyone is ready for a happy year.

A regular social program has been worked out whereby each class or organization has a special time for its annual party. Many of these are already annual affairs and the rest go on that basis this year. In this way each organization knows what is expected and is able to give a successful party.

The main social event of the year is Mardi Gras. Who Goes? Everybody! It is sponsored by the Senior class and is of course just before Lent. It's more than a party. It usually starts in the afternoon in the Home Ec Lunch Room. You know what that means? Last year there were four sideshows before the first feature of the evening, the "Union Vodvil". Six acts of vaudeville with the best talent in school and in town! Then everybody goes to the gym, which has been miraculously transformed for the "Bal Masque". During an intermission winners of the popularity contest are announced and crowned.

This year it is planned to have a Junior Prom. It has not been the custom but it is hoped that this important event will take place and set a precedent for future years.

The holidays are reserved to the Departments. The Freshmen sponsor the Christmas Party.

Unfortunately this year the party was omitted because of the imposed vacation, but we don't expect to have flu every Christmas.

The Grammars have chosen Valentine's Eve for their party. One of the features of the party is the excellent program that is always given. This year, because of Mardi Gras coming so close to Feb. 14, the Grammars will have their party later.

The Rurals show their Green and White on St. Patrick's Day and they have the privilege of giving the only party for the entire school during Lent.

The date of March 8 has been reserved for the Y. W. C. A. and Y. M. C. A. to give some form of entertainment.

Besides parties there is the artist's course that is sponsored by the school. There are three numbers each year. Last year the first artist to appear was Rianald Werrenrath which indicates the class of music that is offered.

The Speech department gives several plays. This year they are giving two programs in connection with the Girls' Glee Club. There are also the regular contests and Forensic meets.

As there is usually a dance after each football and basket ball game, scarcely a week goes by without some school event that offers entertainment. Watch the Pointer for announcements of these events. Then come and have a good time.

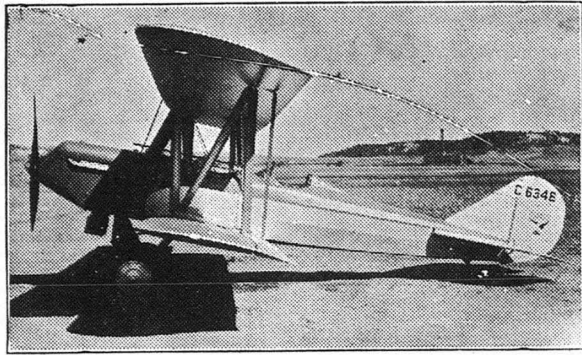

## To Award Prizes To Students Of Colleges For Aeronautical Work

The fact that 29 airplanes carried two score college students to a recent Big Ten Football game illustrates the growing tendency among undergraduates to use aircraft for rapid transit.

This year, for the first time, airplane manufacturers are recognizing the campus as an important market. A pioneer in this movement, the Alexander Aircraft Company of Colorado Springs, is preparing to enter the field with college sales agents. Its decision is the result of an encouraging advance res-

over week ends. Flying appeals to students who cannot get good rail or motor accommodations. Truly, the airplane is expected to move the college closer home.

As the greatest development of the day, aviation has caught the attention of the great American college student body, to judge from the heavy early response received by the Alexander Aircraft company concerning its 1923 aeronautical scholarship contest among college undergraduates.

The Alexander Eaglerock to be given to some college student in June 1929 in the Alexander Eaglerock Awards.

ponse to an aeronautical scholarship contest which the company will conduct among American colleges in 1929. A new Eaglerock airplane or a 4-year university course in engineering and business aeronautics will be awarded.

Numerous purchases by college students brought out that this class can, and does, buy airplanes. Flying is reaching proportions of a general campus craze. Consequently the Alexander factory is trying to increase the number of Eaglerock dealers now scattered throughout several schools. Eaglerock planes appeal to the novice chiefly because of their ease in handling. They are used as training ships in 143 American air schools. Their distinguishing features, an unusually large wing area, allows a slow landing speed, so important to the student pilot, without sacrifice of top speed. Behind a low priced motor the ship will cruise twice as far on the same amount of fuel, and three times as fast, as the average automobile.

A large number of college pilots are paying for planes by ferrying passengers to out-of-town games, by instructing fellow students, or by "hiring out" for special stunts at football matches.

It is estimated at least 100 American college students occasionally commute by air between their college and homes

In the first few days following announcement of the contest, inquiries were received from students of 62 colleges. Indications are that several thousand students will bid for the new Eaglerock airplane or the 4-year university scholarships in aeronautical engineering and business aeronautics which will be awarded the winner. Lesser prizes will include free solo flying courses and flight instruction manuals.

Co-eds, as eligible as the men, are showing themselves equally air-minded. Students with no flying experience, but with ready ideas on things aeronautic are competing on an equal basis with those who have worked in the new industry.

Such universities as Massachusetts Institute of Technology, University of Michigan, and Stanford University, have endorsed the contest. Felix W. Pawlowski, Professor of Aeronautical Engineering at Michigan, writes, "I indeed appreciate the generosity as well as the wise policy of the Alexander Aircraft company which prompts it to assist the numerous young and able students who are anxious to enter the field of aeronautics, but who are handicapped from doing so because of lack of sufficient funds for obtaining proper training in the fundamentals of this new and fascinating profession."

## Training Building Erection Continued

The teaching laboratory now in process of erection at Stevens Point represents the result of planning begun in 1925 under President John Frances Sims and continued through the summer of 1928 under President Baldwin. Considerable study has been made of training school buildings noted for their progressive features and advice has been sought from experts in the field of teacher training. The result is a plan which emphasizes the aspect of teacher preparation, since the primary purpose of a teaching laboratory is to furnish accommodations where: first, children may learn under favorable conditions; and second, teachers may gain a grasp of their profession under conditions most conducive to rapid progress. No pains have been spared by the State Architect, Mr. Arthur Peabody, and the president and faculty to bend all of this study to the development of a building conceived for a distinct purpose and conforming in all details to this unifying ideal.

The building is of the modified "T" type of construction. It is of brick of varying lighter shades laid to produce a mat effect and trimmed with variegated Bedford stone. It is located on the west campus and forms the west side of what is planned as a quadrangular arrangement of the buildings on the campus. Its main entrance is vigorously and tastefully simple.

The first floor is given over largely to the special subjects, such as industrial arts, physical education, and nature study. In the south wing is the kindergarten. This was located on the first floor so that the little folks would have access to their rooms without climbing stairs. In addition to a large kindergarten room, there are separate cloak rooms for boys and girls, an office for the kindergarten, a supply room and two practice rooms. The balance of the first floor is given up to a special standard room for geography, and a gymnasium, at the west end of which is a large stage, and locker rooms for boys and girls. The gymnasium measures 60x81 feet with 22 feet clearance from floor to trusses.

The second floor is for the first six grades, with primary home rooms in the south wing and intermediate in the north wing. Respective offices and practice rooms adjoin. There is also an observation room with banked seats for formal and informal observation of teaching. At the center of the main corridor is the office of the director of the teaching laboratory, with a student work room adjacent. Here cabinets and filing cases are built in under the banked seats of the observation room to conserve space. Directly opposite are a large supply room and two rooms for textbook storage.

The third floor is planned chiefly for

a junior high school. In the south wing is an assembly room with offices for the faculty and practice rooms adjoining both in the wing and along the main corridor. At the center of the main corridor is the library for grade and junior high school children, where we expect to have a children's librarian in full charge. Directly opposite are two science laboratories and their respective supply rooms immediately adjacent. On this floor again is an observation room with seats banked over the north stairwell to conserve space. The north wing duplicates the south wing. It will be utilized to accommodate some of our, at present, overcrowded collegiate departments.

The thing that will impress a visitor is the large number of comparatively small classrooms, twenty-one in number, varying in size from two rooms each 13'6" x 16'6" to two rooms each 23'4" x 16'6". These are practice rooms, in which classes numbering from eight to twenty children in charge of a cadet teacher will be accommodated. By this sort of contact with space enough, but without waste, the cadet teacher learns that basic secret of successful teaching, the winning of a child's confidence. These rooms are only slightly larger than a room would be in an average home, and the home atmosphere is readily inspired. At the same time, each grade has a room large enough to duplicate public school conditions. These are known as home rooms.

Another thing that will impress the visitor is the number of offices, of which there are sixteen. One unfamiliar with the need for constant conference between cadet and supervising teacher might not understand the need for these. However, those with experience in preparing teachers will view this abundant provision for conference purposes not only with approval, but with enthusiastic acclaim, since in these office conferences the real work of building teaching skill and professional confidence is done.

Here is a building dedicated and molded to a central purpose. It is to be the heart of the work of the Central State Teachers College. That work is the preparation of teachers for the public schools, a service of prime importance to a living democracy and deserving of the most earnest attempt at adequate evaluation on the part of the public whose interests the teacher's colleges have been established to serve.

# DIRECTIONS FOR ENROLLMENT.

2nd Semester 1928-1929

ENROLLMENT—THURSDAY, February 7, 1929, 8:30 to 12 A. M. and 1:30 to 5:30 P. M. Classes will meet regularly beginning Friday morning.

Students who wish rooming places: Men see Mr. Steiner, Dean of Men; Women see Miss Hussey, Dean of Women.

**DIRECTIONS FOR ENROLLMENT:**

1. SECURE TREASURER'S REPORT BLANK FROM MAIN OFFICE, fill it out, and present it to Treasurer in main office. Pay her all fees and receive receipt and ticket.
2. PROCEED TO ROOM 207 (west end of corridor 2nd floor). In room 207 fill out required enrollment blank and have your fee receipt countersigned.
3. PRESENT SEMESTER RECEIPT AS DIRECTED BELOW and have study list made out:
  - A. Those who are enrolled as specials Mr. Thompson, Room 1, basement floor.
  - B. Freshmen of all 4 year courses except those enrolling for Home Economics — Mr. Roberts, Registrars Office 2nd floor.
  - C. All other students, including freshmen of 4 year Home Economics Course — Departmental Directors as follows:

Home Economics Dept. Miss Allen, Home Ec. Office (east wing 1st floor).  
 High School Teachers Dept. E. T. Smith, Room 239 (2nd floor east).  
 Junior High School, Grammar and Intermediate Grade Teachers Dept. C. F. Watson, Room 222 (2nd floor west).  
 Primary Grade Teachers Dept. Jas. E. Delzell, Room 240 (2nd floor east).  
 Rural Teachers Dept. O. W. Neale, Rural Assembly (west end 3rd floor).

4. Take signed programs to Room 241 (east end 2nd floor) where class entrance cards will be issued. REGISTRATION IS NOT COMPLETE UNTIL THESE CARDS ARE MADE OUT AS NO STUDENT WILL BE PERMITTED TO ENTER A CLASS WITHOUT HIS CLASS ENTRANCE CARD. This card is to be left with the instructor so be sure to take your class entrance card for a class with you to the first session of the class. All absences incurred between date on card and entrance to class are inexcusable, cannot be made up and are zeros. Any student who does not enter the first recitation following date on the class entrance

card cannot enter the class until he has the permission of Mr. Roberts to enter the course. A STUDENT MUST ENTER A CLASS FOR WHICH HE IS ENROLLED, UNLESS EXCUSED BY THE REGISTRAR, OR IT AUTOMATICALLY BECOMES A FAILURE AND HONOR POINTS WILL BE DEDUCTED ACCORDINGLY.

5. No student may carry for credit more than the standard load of 16 hours, unless his scholastic record gives him standing among the upper 5 per cent of all students carrying a normal load during the previous semester. In such cases 18 hours will be the maximum load for 2nd and 3rd year students and 19 hours the maximum for 4th year students. Students registering more than one week late in any semester will not be permitted to carry the normal load for that semester. REGISTRATION MUST BE COMPLETED BY 5:30 P. M., Thursday, February 7th, or late registration fee must be paid.
6. PRESENT YOUR FEE RECEIPT AND STUDY LIST TO THE TEXT LIBRARIAN (text library 2nd floor) to secure text books. Text library will be open Thursday Feb. 7, 1929 from 10 to 12 A. M. and 1:30 to 4:30 P. M. KEEP YOUR RECEIPT AND STUDY LIST UNTIL END OF SEMESTER. The Text Library will be open Friday, Feb. 8, at the same hours.
7. After your program has been approved necessary changes in the program (dropping or changing subjects) may be made only by securing "Change of Program" slip from the Registrars Office and having it properly filled out. ANY SUBJECT DROPPED WITHOUT GOING THRU ABOVE PROCEDURE WILL BE RECORDED AS FAILED. CREDIT WILL NOT BE GIVEN IN A COURSE UNLESS YOU ARE ENROLLED FOR IT. NO EXCEPTION WILL BE MADE TO THIS RULE.

NO STUDENT WILL BE ALLOWED TO DROP ONE SUBJECT AND TAKE UP ANOTHER AFTER 4:30 P. M. THURSDAY, February 14, 1929.

SEE PROGRAM SECOND FLOOR FOR ROOM NUMBERS.
