

THE POINTER

POINT DEFEATED IN OVERTIME GAME

Swamp Alumni Team By 16-5 Victory

In spite of the contrary hopes of C. S. T. C. "Grandpa Jinx," who came for an indefinite visit during the football season, decided to stay longer. Though he fooled us by packing his suitcase, he was on the floor when the whistle blew for the River Falls game.

Lose In Overtime

With only four seconds left to play, Berven, the Falls center, found the hoop, tying the score at seventeen all, which meant that an overtime period must be played. During this period, River Falls made three points to the Pointers one; and the whistle blew with the Falls leading twenty to eighteen.

Schroeder Scores First

Art Schroeder started the scoring by sinking a free throw in the first few minutes after a foul by La Dusire. He scored again on another free throw resulting from a foul by the same man. Miller made a basket on a rebound, tying the score. Thompson's goal on Miller's goal gave C. S. T. C. the lead, but Helixon took it away on a field goal. Schlicht placed the offensive in River Falls' possession giving them a six to three edge which Chvala pared to five, sinking a long shot.

Point Leads At Half

An added point to the Point score by foul tied the score. The teams played very hard ball, and the score ended at the half, 10 to 8. With the aid of a free throw by Baker and a field goal by Chvala, Schroeder gave the Pointer the lead of 15 to 13. Chvala made another successful shot that put the Point in the lead 17 to 13. The spectators thought a victory had been made by Stevens Point,

Chemistry Lab Best In State

What is without doubt one of the most modern, fully equipped chemistry departments anywhere in the state will be found at the Central State Teachers College, where new laboratories have just been completed in the basement section formerly occupied by the old heating plant. The rooms have been transformed with clean white walls, a gray cement floor and splendid lighting facilities and now comprise a department of eight completely modern laboratories and store rooms. An expenditure of \$12,000 has been made in the construction, with the equipment and installation of furniture amounting to \$5,500 additional.

Included in the department are a general inorganic laboratory, organic laboratory, analytical laboratory, balance room, general storage and stock room, an acid room for acids and organic chemicals and a small storage room for reagents.

The general stock room is a neat, well arranged place that would bring joy to the lover of law and order with its systematic shelving and storage facilities. Tall, all-steel cabinets have shelf upon shelf, with bins underneath for large and heavy articles. Test tubes in graduated sizes are near the door, and flasks and retorts are separated according to types and sizes. All compartments will be plainly labeled when the work of settling is fully completed. Other cabinets hold chemicals on the upper shelves, arranged alphabetically, with storage bins

(Continued on page 4, col. 2.)

Former Prexy Accepts Post At West Va. U.

Dr. Robert Dodge Baldwin, former president of Central State Teachers' College, has accepted a position as professor of education in the University of West Virginia, at Morgantown. Dr. and Mrs. Baldwin and family have been spending the last few months near LaGrange, Indiana.

Sigma Tau Delta Holds Meeting

Sigma Tau Delta held its regular meeting on Wednesday, January seventh. Theodore Rozelle presented an interesting discussion on our relations with Asia; the discussion was based on a recent book by Upton Close. Dolores Chilsen read an original short story entitled "Awakening".

MANY NEW IMPROVEMENTS GREET RETURN OF STUDENTS

Cast Picked For "A Tailor Made Man"

The three act play chosen for presentation by the speech class is "A Tailor Made Man". The play will be given in the early part of the second semester. The following is the cast of characters:

Mr. Huber Tom Smith
Rowland Clifford Larson
Peter Leo Odegard
Doe Sonntag Allan Hodell
Tanya Ann Jeselson
John Paul Bart ... Clarence Rice
Pomeroy Henry Klimowitz
Mrs. Stanlow ..Dorothy Kungsburz
Mr. Stanlow Ivan Lauscher
Corine Genevieve Pulda
Bob Westlake Earl Karl Koch
Mrs. Fitzmaurice Therese Lepinski
Mr. Fitzmaurice .. Kenneth Brock
Wheating James Larson
Mrs. Dupuy Irene Skutely
Bessie Dupuy ... Murilla Roberts
Mr. Jellecott Roland Koyen
Abraham Nathan ... Gerald Scott
Miss Shayne Florence Shoaff
Mr. Grayson Earl Karl Koch
Mr. Whitcombe .. Clifford Alberts
Mr. Russell James Larson
Mr. Cain Kenneth Brock
Mr. Flinn James Horton

As yet there are three minor parts for whom characters have not been chosen.

Mr. Roberts Resigns To Teach In Rome

Mr. Earl F. Roberts has resigned from the faculty of Central State Teachers' College and accepted a position as president of Monte Mario College, in Rome, Italy.

Mr. Roberts has been a member of the college faculty here since the fall of 1925, being not only teacher, but registrar as well. However, for the past year and a half he has been in the East on a leave of absence, studying for his doctor's degree at New York University.

After receiving his doctor's degree in January, Mr. Roberts will

(Continued on page 6, col. 1.)

Engage Director For Primary Department

A new director for the Primary Department has been engaged and arrangements have been made to have her take over the work at the beginning of next semester.

Mr. Steiner has been acting as director of the Department since the resignation of Mr. Delzell.

COUNTER IS MOVED NEW LOCKERS ORDERED

Many new improvements have been made at school during Christmas vacation.

Probably the most noticeable of these is the new "Counter". The school store was moved across the hall in order to give a larger space. New shelving was put in, allowing for a better display.

All of the men's lockers have been moved into the room at the east end of the main hall in the basement. Eighty new lockers have been ordered and will be placed in the new room also. The old room is being made into a shower room. Additional furniture has been placed in the men's lounging room.

Pointer - Iris Offices Moved

All of the attics on the third floor have been cleaned and many of the class rooms put to a different advantage. Both the Pointer and Iris Staff offices have been moved to regular rooms near the Rural Assembly. Their old offices have been torn down.

Old Lab. Now Museum

The old chemistry lab to the west on the third floor is being made into a museum and the various collections of animals, birds and rocks which have been kept in cases around the school will be placed in that one room. The other lab is to be used at the present time for the taking of pictures for the Iris. Later it will be made into a magazine library.

Mr. Mott now has his class room and office on the third floor in the old chemistry lecture rooms.

When all improvements have been completed all of the rooms in the building are to be renumbered and a directory of the building placed near the bulletin board on the second floor.

THE NEW OFFICES

WITH the tearing down of the POINTER and IRIS offices a certain chapter in the history of each organization comes to a close. Within these cardboard walls much time was spent, fruitful and otherwise, and many conferences held. The names and witticisms of many students and former students decorated the walls on the inside, giving each office an atmosphere of its own.

The new offices, however, are a decided advantage over the old. Instead of being fire hazards and superfluous, they are assets to the organizations. There is plenty of room, regulated heat, better lighting, ventilation, and other good points. It stands to reason that better work will be done.

TIME TO TAKE INVENTORY

THE month of January is named after an old Roman god, Janus, who being possessed of two heads, could look ahead and backward at the same time. What an appropriate name for the first month of the year! The fellow who christened this month certainly had a keen sense of the fitness of that name.

It is at this time of the year that we look back over events of the past and look forward to the coming year with a hope that we may better our conditions and enjoy life, as we understand it, to a fuller extent.

In college, the student sees the end of the first semester rapidly approaching. If he is wise, he takes a survey of what he has, or has not, done to this time and makes preparations for successfully weathering the finals. The student who pays no heed to the passing time is generally the one who loses out at the end of the semester.

The new year is an excellent season for making resolutions. The only kind that is worthwhile, however, is that which is adhered to without exceptions. If you have not been accomplishing satisfactory results in your work, there is no better time of the year to buckle down to the job.

The rating and reputation of a college is determined to a certain extent by the standards maintained by the student body. Every student who does his part in holding the standards high is a credit to the institution.

Balance your accounts before it is too late. Survey the past. If the results show a credit, strive to better it for your own good and the advancement of Alma Mater. If you find yourself "in the red," determine to wipe out the unfavorable showing before the forward view merges into the past.

SUPPORT THE TEAM

THE basketball conference games opened last Friday with a narrow defeat, but that has not dimmed the hopes of Central State in the slightest. With the constant enthusiastic support of the students, such as was in evidence at the last game, much will be done toward helping the team reach a place in the sun. The Pointers showed up very well against the championship team of River Falls. They are doing their part to win. The student body should be eager to show the team that its support is solid and active.

EDUCATION to accomplish the good ends of government should be universally diffused. Open the door of the schoolhouse to all the children in the land. Let no man have the excuse of poverty for not educating his own offspring. Place the means of education within his reach and if he remains in ignorance, be it his own reproach.—DANIEL WEBSTER.

HUMOR
MORE OR LESS

NEW YEARS' RESOLUTIONS

Helen Berfield — No more breakfasts for me.
Ruby Curtis — I swear off mice and men for '31.
Thyrza Iverson — I won't "make eyes" any more when I'm dancing.
Art Schroeder — I'm not going to be so bashful in 1931. (Watch out, Coeds!!)
Al Ackeret — I'm going to make my hair behave from now on.
Pat Cowan — I'm going to learn to dance.
Kermit Frater — No more dances for me!
Lawrence Beaudin — I'm not going to rattle my keys in the library to attract attention.
Now, do you want to add Your Resolutions?
If so, hand them in.

Dear Pat,
When bit by a mosquito,
When bothered by a flea,
When tormented by a bedbug,
Will you sometimes think of me? —Jo Jo Johnny

Jenny — Looking for the frame of her lampshade —
"Where is my frame?"

THAT SILVER LINING

There is a bright side to everything including last years suit of clothes.

Carl — "Ever hear of anyone going to bed with his shoes on?"
Frank — "No, who does?"
Carl — "My horse."

NEVER AGAIN!

And we still run into a person now and then who remembers when a girl had to have a lot of clothes loosened when she fainted.

SCIENCE AGAIN

A law in physics states that no two bodies can occupy the same space at the same time. We suppose that was discovered before the time of the rumble seat.

The latest version of "Three Little Words" —

I don't care!
Ask Babe if you don't believe it!

Papa Snake: Where is Jimmy snake?

Mama Snake: He was crawling around in the gravel pit, so I sent him to be half-soled.

W. Stowell: Aren't you glad this is Friday?

Somebody else: Why sure!

W. Stowell: I am. I've been waiting for it since Monday.

Art T. "Don't you wish there weren't any women?"

Murat: "Naw! What could we joke about then?"

SPIELEND SPRECHEN
FRED COCHRANE

"Wie Gehts?"
River Falls 20 — Stevens Point 18 (overtime)
"It's a crime!"

The Pointers would have walked away with River Falls if the latter hadn't kept the ball up in the air where the locals couldn't reach it.

The shortest fellow in their shock-troops made Johnson look like a pigmy from the Zulu Islands.

Such fellows would come around when Kotal's boys had left their stilts home.

C. S. T. C. Hit of The Week
"You're Driving Me Crazy!"

No word has yet been received concerning the location of Don Bludd's Christmas present, a midget automobile. It was lost in the mails. The shoe horn and whisk-broom (listed as tools and accessories) arrived last week.

Don is going to strap the midget on to his Ford as a spare.

If they don't stop putting engines into these roller skates we'll have to get a new walk for the campus.

A salesman mistook it for a driveway.

When he came out his car was missing; they found it at the skating rink; it was completely wrecked.

Some kids were playing hockey with it.

Doctor: You are the father of quadruplets.

Pater: "What!! One of those things that runs around on four legs?"

Question: What invention was the greatest aid to the Irish?

Jim Turrish.
Answer: The wheel-barrow, Jim. It taught them to stand on their hind legs.

Hot spot and his orchestra are now signing off, ladies and gentlemen. It is 2:00 A. M. I know that you will all be up at 6:30 to listen to our organ melodies followed by Doc Lock's setting up exercises.

Point? — Eau Claire?
Point? — Stout?

Adieu.

Then comes the question as to just what this thing "puppy love" is. No doubt it is just the beginning of a dog's life.

Iona — "What was the idea of starin' at me as I went past?"

Ford — "I wanted to see if you had an advertising sign on your back."

SOCIETY

Kennedy-Terrill Wedding Announced

Mrs. Blanche Terrill announces the marriage of her daughter, Josephine, to Robert Kennedy. The ceremony took place in Chicago, August 18. Both are popular students at C. S. T. C.

MARGARET ASHMUN

The Margaret Ashmun Club held its regular meeting last evening under the sponsorship of Miss Hanna. The features of the program were as follows:

- Discussion of Contemporary Short Story ..Miss Aileen MacGeorge
Talk of the Literati ...Cedric Vig
Current EventsAlice Falk
Piano SoloAlex Peterson
Vocal SoloRoland Koyen

Home Ecs Contribute To Fund For Poor

The Home Economics Club contributed \$10.00 to the Odd Fellows Association of Stevens Point to be given to the fund for the poor, for Christmas. The members of the Club agreed to do this instead of exchanging Christmas gifts as has always been the custom. The money was one of the largest amounts handed in to the Odd Fellows Association.

LOYOLA

Miss Bessie La Vigne was the speaker of the evening at the meeting of the Loyola Club Thursday, January 8th. She told of her holiday trip to Florida. Miss La Vigne's listeners were thrilled over the account of the exciting big fish catch and of her visits to Nashville, Miami, and Fort Lauderdale. Miss La Vigne was especially impressed by her journey through the Cumberland mountains.

COTTAGE CAPERS

Miss Alice Wallington and Miss Laura Schoeninger were hostesses at a dinner Saturday evening at the North Cottage. A low bouquet of roses and lighted candles formed the decorations for the table. The entire meal was served English style. The guests included President and Mrs. Hyer, Mr. and Mrs. Allez, Miss Mansur, and Miss Allen. Ruth Stiller and Flora Pike served. The girls' next project is to be a luncheon which will take place soon.

NELSON HALL NOTES

'Lo Everybody :

It seems that most of us have acquired an extra supply of energy over the holidays, and nature seems to find some use for it. Ice skating again holds sway over the outdoor sports and has claimed our fair coeds. The girls are so enthused that any morning some of them can be seen leaving the dorm in the wee hours of 5 or 6; neither stiffness nor aches and pains seem to stop any of the skaters from trying it a second time.

Although the weather is not especially fitted to hiking, some of the girls braved the cold last Saturday morning at 5:00 o'clock. Margaret Allman and Inez Brown hiked toward Red Bridge and returned in time for breakfast with healthy appetites.

Vivian Enge, who did not return to Stevens Point after the holidays, underwent an operation last Tuesday morning. We hope that she will be with us soon again.

Marjorie Moberg suffered a slight illness at her home last Friday.

Several members of our family are leaving us at the end of the semester. Helen Jordan and Vera Sargent are graduating, and Miss Martha Lockhardt is leaving to take a position at Norway, Mich. She will return for the summer session with a friend of hers who is now teaching at Norway.

Miss Elda Miller of Westfield is planning a trip to Florida with her brother. They will travel by airplane.

During the holidays, Miss Hussey conversed with some of the Miller sisters, who once attended the Teachers' College, and consequently learned about their whereabouts. Miss Florence Miller is a teacher of Mathematics in a junior

(Continued on page 6, Col. 1.)

Coach Kotal Guest At Fraternity Dinner

Wednesday evening, Dec. 16, 1930 Coach Kotal was the guest of honor at a banquet at the Hotel Whiting sponsored by the Phi Lambda Phi Fraternity. Other guests at the banquet were Professors Schmeekle, Watson and Rightsell, who constitute the athletic committee of Central State Teachers' College. Enjoyable talks by the guests of honor added to the success of the banquet.

Miss Hanson Returns To Duties In J. H.

Miss Hanson, Junior High School critic, who had been ill for some weeks before Christmas Vacation, returned to her duties here when school opened after the holidays.

NOTICE!

All class officers: Dell Kjer, Bob Breitenstein, Peter Petersen, Burton Hotvedt, Orva Stiller, Irene Twetan, Ann Baird, Murilla Roberts, Harry Klappa, Alex Peterson, Clifford Alberts, Fred Hebal, Victor Vrobel, and Esther Hawkes must have their pictures taken for the Iris on or before January 15th.

MAY A. ROWE, Director
(Graduate Dietitian)

Death Takes Wife Of Retired Prof.

Mrs. Mary Delzell, wife of James E. Delzell, former head of the Primary Department of Central State Teachers' College, passed away Wednesday evening, December 31 at her home 1302 Main Street. Mrs. Delzell had been ill since a short while before Christmas, when she underwent an operation for appendicitis.

Funeral services were held Saturday afternoon, January 3, at the Delzell home and at the Methodist Episcopal Church. The pall bearers were members of the college faculty.

Y. W. C. A.

President Hyer spoke to a large group of girls at Y. W. C. A. last Thursday upon the subject of "Adjusting Ourselves to Community Life". He spoke from the standpoint of a teacher, saying in effect that when teachers go into a community they must adjust themselves to its customs and conduct themselves accordingly. Conduct which would be unquestioned in some places might be severely condemned in others. The Y. W. C. A. members and visitors manifested much interest in this talk.

Tonite the Y. W. C. A. anticipates a profitably discussion of "How Social Activity Develops Personality" by Miss Allen. An interesting program has been planned by Miss Hand. Everyone is invited to attend.

W. A. A.

The one thing that is talked about more than anything else just now is skating; and well it may be, with a dandy skating rink just a few blocks distant, and weather that was practically ordered for skating. Many girls have taken advantage of the opportunity, and laugh over bumps and bruises. Several have been on skates for the first time, and give free vaudeville acts. The skating rink is a real attraction, even at 5:30 A. M., and here hope it may prove so to even more than it already has.

Have you been in the new game room? You have probably wondered what has been going on in what used to be the farther locker room. Now it is open to all the girls, and we urge you to spend a few odd minutes every now and then playing Ping-Pong, or throwing darts. Read the rules of the games on the bulletin board, and in dart-throwing take a record sheet and keep track of your score. You may improve next time. This room is for every one of you to use, but not abuse, so let's take advantage of it.

Last Friday the W. A. A. girls went in a body to the game. We want to make this a custom, each time going in a group, and help the team work for victory by a good display of our spirit.

Our next meeting is the fourth Wednesday in January, the 28th. Wonder what Jennie Newsome is planning for us.

Basket ball practice is going on full force now on every Tuesday and Thursday after school, and Saturday morning at 9 o'clock. Remember the rule that you must be out to two practices a week to take part in the tournament games. Hand in excuses for absences to the head of basket ball or W. A. A. president.

Just as a gentle reminder — don't forget to try the ice.

Bob — "What lovely flowers! Do you know that they remind me of you?"

Helen — "But they are artificial."

Bob — "Yes, I know, but it requires close examination to detect it."

CHEMISTRY LAB BEST IN STATE

(Continued from page 1, col. 2.)

below. All porcelain ware is in one section, including casseroles, evaporating dishes, mortars and crucibles. The last shelves in the room are a continuation of chemicals, with bins for the storage of copper and iron ware. A work table and sink completes the equipment of the room.

A light, airy workroom is found in the general inorganic laboratory, where five long desks supply accommodations for 34 at a time, with total room for 68 students. Each student is serviced with water, suction, gas, electricity, hydrogen sulphide and a ventilating hood connected with a fan. Large fans force fresh air into the room, and the individual exhaust hood on each desk removes the impure air, making the "lab" a less odoriferous place to work. Other modern details are stoneware waste receivers with perforations in the bottom to drain out liquids for each desk and a sink with hot and cold water and a drainboard at the end of each long table. Steel shelving for reagents is found in each laboratory, with rubber matting to protect the shelves and lessen noise. A large hood serviced with gas, water, and electricity, has remote controls for water and gas that can be regulated from outside, and is well lighted so the embryo chemist can see every detail of his experiment. A large table is equipped for work with glass, and is serviced with air and gas.

A small store room to serve this general laboratory opens from the large room, equipped with steel tank for hydrogen sulphide, which is passed through a gasometer into service pipes for use in the "lab."

Another pleasant workroom is the organic laboratory, which has two long tables accommodating 12 at a time, or 24 in all. The tables are serviced with water, gas, air, steam and electricity, and have waste receptacles and sinks with hot and cold water. The "lab" has a large double hood serviced with gas, water, steam and electricity, with remote control and lights. The desks have drawers extending the entire width of the table for keeping long tubing, condensers and burrettes. Of special interest are the table tops, which are made of alberine stone treated with a mixture of paraffin, gasoline, and benzine, protecting the stone and giving a pleasing appearance to the surface.

From this room, steps lead to a small room, formerly the old ash pit. No suggestion of ashes can be found now in the clean, well kept storage room used for acids and volatile chemicals. It is equipped with air for siphoning off acids and even has a sink with hot and cold water.

The third large laboratory is for analytical or quantitative chemistry. It is serviced the same as the organic "lab", with the exception of the steam for the individual work desks. An open hood has a steam bath, electricity,

gas, water and hydrogen sulphide. It has a metal top with porcelain rings with four coils, as many of which can be used as desired.

The floors of all the laboratories have been raised over an inner flooring, with a space between for piping. If anything goes wrong, the repairing will be a simple matter as the pipes will be easily accessible. All the tables in the "labs" are raised two and one-half inches from the floor level, and have been built especially for the college. Another interesting example of careful construction is the fact that all the "labs" are fireproof and are separated from the hall by steel doors.

The balance room, where exactness and accuracy must be obtained is equipped with adjustable side lights over balance tables that extend the full length of two sides. Nine sets of balances, intricate and delicate are owned by the department.

The dark room lives up to its name, for no darker place can be imagined. Of course, it can be well lighted, also when the occasion demands. It is serviced with hot and cold water, electricity and gas, and has a steel cabinet with a Yale lock and a master key. This room is used for picture developing and experimental work in chemistry and physics requiring a dark room.

The lecture rooms and office of the department are on the first floor, with two lecture rooms separated by a preparation room between. A lecture table and sliding blackboard are convenient for the teachers.

The chemistry instructors are Thomas A. Rogers, who has the students in the Home Economics courses, and Dr. Dell S. Garby, who teaches the courses for the students enrolled in the high school department. They are justly proud of their domain, and take pleasure in showing their fine new rooms to visitors. Under their supervision are more than 60 students, and an even larger enrollment is expected next semester, for here one can take four straight years of chemistry, with all the advantages of the best equipment and best instruction.

Miss Diehl Ill Unable To Return

Miss Diehl has not been able to return to school after the holidays because of illness. Miss Diehl is a critic in the Intermediate Department of the Training School.

THE MORNING AFTER

Jack — "How did you find yourself this morning?"

Oscar — "Oh, I just looked under the table and there I was."

TALK ABOUT SCOTCH!

Jack Frost has been making use of a new way to save paper. First he uses pencil and then turns the paper sidewise and writes with pen.

WHOSE ZOO?

Dick Rothman is one of those locals who chase ducks into the water and then won't let them swim. He is going to marry soon. The first honeymoon will be spent on the seashore; the second on the rocks.

Dick is a very intelligent boy in spite of the fact that he goes to college. He knows that snow shoes are not used for bedroom slippers in Alaska.

Some one asked Dick's girl if she had a hobby.

"No," she answered, "I am single."

Dick changed his mind about going to the dental school, said he didn't have enough pull.

FREDRICK J. COCHRANE

(Fourth installment.)

Watson arrived from Plover that afternoon.

"The detective from Plover arrived this afternoon, Mr. Rightsell. You and I are to go with him to examine Boris Klyzumshik's room at the Whiting. It is after eight now, let's hurry.

"Why do you always drag along that infernal pup? Are you blind?"

"Well, Mr. Hyer, it's this way. If a dog leads a man, the man is blind; but if the man leads the dog, the man is married."

"— and if the man DRAGS the dog?"

"One or the other isn't enjoying his companion. Let's go."

Ten minutes later the two men with Watson, Sherlock Holmes' understudy were in Klyzumshik's room at the hotel and trying to translate a note written in Russian. It had been found on Boris' desk.

"The names of the writer and receiver are all I can make out," said the Russian bellhop whom they had summoned. "It was written to a Hodag by a Votka."

"Thank you," said Mr. Rightsell, oiling the extended palm with a dollar tip. "Do you recognize the names, Watson?"

"I am looking for them in my text-book of criminology. Ah yes, Hodag and Votka, here they are. (reading) 'Hodag, alias "Poker-face;" former end on Stevens Point football team; desperate; do not hesitate to use your gat (gun) in case you should encounter him; about five feet eight and very beautiful; \$5,000 reward. Votka, partner to Hodag; former center on Stevens Point football team; six feet plus plenty; wavy brown tresses, an unconquerable smile; his initials are carved on the walls of every respectable jail in Portage county; if you meet this man, tell him a sad story about a girl (one of his former classmates preferred), and he will break down. Bring him to the sheriff and receive \$4,000 bounty.' This is a scoop for me, gentlemen! My future is assured!

"Turn on the lights! Seize her, men! Gone! What could a woman want in here?"

"The note!"; Watkins.

"It's gone!"

"Telephone call for Mr. Hyer,"

sang a bellhop, sticking his head in the partially opened door.

Mr. Hyer returned in a few minutes. He seemed very excited. (Does Mr. Hyer ever seem excited?)

"In my car! Quick! We have to leave \$5,000 in locker 225 immediately, or we shall never see Honey Suckle again. She was out walking with Ted Halthusen. THE WOLF kidnapped her before Ted could get his hands out of his pockets. They knocked him out. Then THE WOLF was brazen enough to send that call to me!"

"— leave \$5,000 in the locker."

"Did you trace the call?"

"Yes. The central said it came from my office at school. Hurry!"

Ten minutes, and the three men were standing in front of locker 225 in the college proper. Mr. Hyer was opening the new lock. Watson stood on one side smiling up his sleeve (which had a hole in the elbow) at his own ingenuity, (acquired at the Plover detective school.) In his hand he held a bundle of paper money. Upon closer scrutiny, one could see that the bills were marked with indelible ink.

"Thud!" This wouldn't strike you as such a dull sound if you knew what it was all about. This was the noise made by the body of Votka, formerly known as Grischa, as it struck the floor. It fell out of the locker as President Hyer opened the door.

"It is Grischa! Votka!" exclaimed Mr. Rightsell.

"Yes. It WAS Votka," said Watkins. (Aside.) "\$4,000; now I can buy those new shoes for Ikey."

"We shall have John clean up this mess in the morning," said Mr. Hyer, like the gentleman in the customary "Murad" advertisements, "Let's put that money in here and leave, Watson. My wife will be angry if I don't call to take her home from that bridge party."

"Gee, I left Sweetums (the infernal pup) in Boris' room. What will MY wife say?"

(What would you say if you heard that the money-marking trick was discovered by THE WOLF? It's true. Will you read next week about how Honey's body went "thud" as it hit the floor?)

HURRAY FOR THE OLD TIMES!

In Ye Good Old Days, every petting party turned out to be a tale of woe.

Little boy, who is lost (to policeman) — "Have you seen a lady with a little boy any place? I am the little boy." — Life.

Dressing for skin poisons, dry itching eczema, insect bites, barber itch, dandruff, poison ivy and skin affection.

A pleasant skin tonic and healing lotion. Use after shaving to keep the skin clean and pores reduced.

MR. ROBERTS RESIGNS TO TEACH IN ROME

(Continued from page 1, col. 3.)

go to Hartford, Connecticut, to study international relationships. He will be joined by Mrs. Roberts, who has been primary demonstration teacher and teacher of primary methods in the Chicago Teachers' College during her husband's absence in the east, and by their daughter, Winifred. The family will then return to New York City, where they will study the Italian language until they sail in May. They will spend some time in London, Paris, and various cities in Spain and Italy, acquiring international backgrounds before arriving in Rome in July, when Mr. Roberts will take up his administrative duties as president of the college.

NELSON HALL NOTES

(Continued from page 3, col. 1.)

high school in Akron, Ohio. Her sister, Myrna, is teaching biology at Stout. Another sister, Alice Miller Simley, is teaching sixth grade at Madison. She is married to a dentist of that city.

Miss Hussey also received news of the Morgan sisters from Miss Florence Morgan. Mable is staying home at Amherst; Una, a graduate of the High School Dept., is married three years and has a little girl who is one year old. Hattie teaches at Racine; Gertrude teaches at a settlement at Mountain Hill, Kentucky; Grace teaches at Michigan City, Indiana. This is quite a record for "sisters" don't you think? Do you know of any who could beat the above group?

The change of environment evidently didn't agree with some of the Nelson Hall Family. Mildred Lonsdorf is now recovering from an infection. Irene Miller has just recovered from an attack of bronchitis, and Bessie Dewar has been having trouble with her eyes. Miss Hussey is recovering from illness also. The family hope that they will be well soon.

Some of the girls who have left the "flock" at Nelson Hall sometimes return again to its corridors. Miss Hazel Schroeder, "Jo's sister", visited here this week-end. Everyone saw to it that she received a royal welcome.

Miss Emma Larson was a guest of her sister, Helen, this week-end. Emma is a teacher of the primary grades at Berlin.

Miss Esther Helsten and Miss Lucille Scott were supper guests here Sunday evening.

POINT DEFEATED IN OVERTIME GAME

(Continued from page 1, col. 1.)

but Captain Schlicht managed a basket on a breakaway. With the Point in the lead 17 to 15 and FOUR SECONDS to play Berven made a basket which placed the game in an over-time period. Capt. Neuberger put his team ahead with a free throw, but a foul by Johnson of the Point brought the score to a tie, 18 all. With a few minutes to play, Berven tapped the ball into the basket for the winning points.

Stevens Point will play at Stout and Eau Claire this week. With the remarkable showing made against the Falls team last Friday, victory seems assured in these next two games.

The line-up is as follows:

Stevens Point			
Hanson, rf	0	0	0
Schroeder, lf	1	3	1
Neuberger, lf	0	1	0
Thompson, c	0	1	1
Alberts, rg	0	0	0
Baker, lg	0	1	2
Totals	5	8	8

River Falls			
Sutherland, rf	0	0	2
Warwick, rf	0	0	0
La Dusire, lf	2	0	4
Kuss, lf	0	0	0
Miller, c	1	0	1
Berven, c	2	1	0
Helixon, rg	1	0	2
Schlicht, lg	1	3	1
Alphonse, lg	1	0	0
Totals	8	4	10

Stevens Point	10	17	18
Rivers Falls	8	17	20

Free throws missed, Schroeder, 2, Alberts, Sutherland, Warwick, Berven 2, Schlicht.

Referee, Ritchay, Wisconsin Rapids; umpire, McCaw, Clintonville.

The first game of the year was played Wednesday night, January 7, with the alumni. The result was a sixteen to five victory for the college team. This gave coach Kotal a chance to use fourteen players. The graduate squad consisted of Frank Wierensinski, Dick Marshall, captain of last year's squad but ineligible because of having played three years of college basket-ball, Ben Weronke, Henry Bannach, Gregory Charlesworth, and Ferdinand Hirzy.
