TO DEDICATE NEW FIELD OCT.

NEW ATHLETIC FIELD IN TIP TOP CONDITION

Eau Claire Host At Homecoming And Dedication Game Saturday, October 15

Turf on the local college's green and fashionable new athletic field will be dug and delved by football cleats for the first time Saturday, October 15, when Coach Willis Zorn's Eau Claire eleven will be host at our homecoming and dedication game.

In Tip Top Shape

Professor Fred J. Schmeeckle, who has supervised the construction of the new field and who has given his vacation months working on the project, said that work is practically completed. "The field is in excellent condition and will be in tip-top shape for the

(Continued on page 2, col. 3)

Summer Term Second Best FOR

Central State Teachers College won recognition when it ranked second to Milwaukee in total school enrollment of the nine teachers colleges in the state for the 1932 summer session.

Our Population Less

The fact that the population of Stevens Point is considerably less than five of the nine cities in which state teachers colleges are located in Wisconsin adds significance to the record set by the local institution.

Oshkosh, with a population of 40,075, or approximately three times that of our city, was third with Superior fourth.

Following is a list of the population and student enrollment of the nine cities in which teachers colleges are located, for the summer term:

City	Population	Enrollment
Milwaukee	572,557	1,489
Stevens Point		688
Oshkosh	40,075	562
Superior	36,100	-577
Whitewater .		535
LaCrosse		522
Platteville		329
River Falls	2,353	326
Eau Claire	26,337	296

THEY WELCOME YOU HERE

No two other persons are more concerned and interested in the achievements and success of our college students than Regent W. E. Atwell and President Frank S. Hyer. Registration week is always a busy one for both old and new students. But soon those new faces will become familiar and friendly as we go about our college work. But all is not toil at Central State Teachers College. Soon the cleats of football shoes will be digging the turf on our new athletic field. Our club meetings, dances, homecoming and week-end parties will tend to add spice and bring relaxation to the students.

Reaches 688, NEW HANDBOOK College Band To Sit "Up In Air"

All College Dances, Parties, Clubs and Athletic Schedules In

New Guide

A student handbook, edited by the senior girls, is being given each student enrolling in the local college. This is an entirely new undertaking and the first time in the history of the school that any book containing all social and athletic programs has been published.

A Student Guide

The handbook is not only a guide to the students but will tend to abolish conflicts in dates for dances, parties and other social affairs of the college that have existed in past years.

The book is brimful of valuable information including the social calendar, athletic schedules, school organizations, awards, church services in the city, roster of the faculty, committees, train schedule, Miss Bertha Hussey was the faculcollege yells and other material ty adviser.

A new stand for the college band has been erected on the east side of the athletic field. The new structure will easily accommodate 100 people.

The building has a water-proof roof on it which will protect the players and instruments in rainy weather. The stand is elevated by built just opposite the bleacher sections.

In past years the band occupied a section of the students' bleachers which wasn't so satisfactory. The new band stand will abolish such annoyances as having sliding trombones bump the heads of fans and the penetrating notes of the bass horn stinging the ears of excited rooters.

with which the average freshman is not familiar.

Committee In Charge

Florence Woboril was chairman of the handbook committee assisted by Olga Leonardson, Ethelwyn Baerwaldt, Madelin Rice, Natalie Gorski, and Alta Stauffer.

HYER EXTENDS WELCOME; ALL FOR ECONOM

College President Advocates Hard Work; Appreciates The Sacrifice Of Parents

A cordial welcome is extended to all students in Central State Teachers College at this time. The older students join in welcoming the new students to the campus.

College Has Opportunities

Preparations have been made to afford all students better working conditions than have ever been offered here before. It is hoped that every student has come to college this fall determined to make the most of the excellent opportunities which the state is so generously offering through Central college.

The faculty, the library, the equipment are all ready for you to do your work. You have the best atmosphere in which to work. It is up to you to prove that you are in fact a college student. We are here to help you, but we cannot do your work.

Parents Are Sacrificing

These are strenuous times, and parents are making great sacrifices to help their boys and girls through college. Every student who is dependent upon his parents for support in college should do everything in his power 20 foot scaffolds and has been to make every dollar go as far as possible. Let us learn to economize in time, effort, and money this year as we have never done before.

Let us make this the most profitable year in our life's work.

Yours sincerely, FRANK S. HYER.

TO OUR FRESHMEN

We dedicate the first issue of the Pointer to you. It is the aim of the upper classmen to make your stay at C. S. T. C. as cheery and gay as the color of this publica-

TO ERROR IS HUMAN - EVEN WITH PRINTERS

It can be safely stated that the average person, whether he be a student, professional man or laborer, little realizes the amount of work that is involved in publishing a periodical, whether it be a daily paper established primarily for commercial gain, or a college or prep publication.

Only individuals experienced in the printing game can appreciate the possibilities there are of errors creeping in from the time a story is written by the reporter to the hasty minutes it is set by the linotype operator and finally locked in the form ready for print.

Taking these factors into consideration the editor and his staff assure you as students that the Pointer will be fair, impartial and free with its publicity. May we particularly ask the presidents and heads of the different classes and organizations as well as the faculty members to "tip" one of the staff members of any news or announcements you may have?

A new mail box will be found on the door of the Pointer office located on the third floor and we invite and urge all faculty members and students to acquire the habit of "dropping in" contributions regularly. Whether you have a story, joke, criticism, or comment makes no difference to us. We will always give it our unbiased attention. Articles written with serious intent must be signed by the writer although anonymous signatures will be published upon request.

After all, the Pointer is just another school activity and its results, whether good or bad, reflect directly upon our college. With this in mind may we exhort you to cooperate with us so that we may maintain the high standards last year's editor and staff established?

SOME INTERESTING STATISTICS

After studying the enrollment figures of the nine teachers colleges in the state, citizens of Stevens Point and students of the local college cannot help but admire and feel proud of the progress that Central State Teachers College has made during the past two years.

Our institution ranked second to Milwaukee for the 1932 summer session enrollment to establish a new record in the history of our school when the figure swelled to 688. Wisconsin's metropolis has a population some 44 times greater than that of Stevens Point and naturally should have a larger college enrollment. Going the other direction, our neighboring city, Oshkosh, had a splendid enrollment of 562; yet it fell short by 126 of our mark. Oshkosh's population is three times greater than ours.

When President Frank S. Hyer took up his executive duties here in September 1930, the enrollment was 360. For the regular term ending in 1932 our enrollment jumped to 631, an increase of 75 per cent. We are not submitting these figures as a reflection upon our former president. This year's enrollment threatens to climb to a new

President Hyer is far too modest, diffident, and unostentatious to comment on these figures. But when we consider that each student spends hundreds of dollars in Stevens Point throughout the school year the result means not only a bigger and better college for the students — it puts dollars and cents into the cash registers of the business men and citizens of Stevens Point.

Our fine college band, new athletic field, and other improvements about the campus are some of the material results that have been made possible under our present administration and through the integrity, business ability and cooperation of our President, Regent W.E. Atwell and faculty.

Old students need not be reminded of the warm welcome and hospitality that is always hanging on Mr. Hyer's office door. But for the benefit of new students we assure you that there is no person more willing and capable of giving "fatherly" advice than our President.

NEW ATHLETIC FIELD IN TIP TOP CONDITION

(Continued from page 1, col. 1) homecoming came", Schmeeckle stated.

The new field rates with the best in the college conference. New bleachers accommodating over 1,500 fans were installed this summer. The new field can easily take care of 5,000 fans. It measures 448 feet in length and 245 feet in depth.

Has Sprinkling System

A seven foot steel fence surrounds the field with gates on all sides. A sprinkling system with six openings furnishes the water supply. A cinder track measuring a fifth of a mile surrounds the gridiron. Concrete curbing surrounds the track on either side. A concrete walk has also been constructed at the foot of the bleachers to avoid muddy conditions during wet weather.

Steel goal posts, set in concrete, are to be installed. These will be removable. The field will be roped off on the side facing the bleachers during games. A band stand that will take care of 100 has been constructed on the side. A ticket booth is located at the southwest corner of the field.

No Cars Allowed

Cars will not be allowed to enter the new field. Schmeeckle said the sod is in good condition but a maximum of one practice a week is all that will be allowed on the new grid this season. Evergreens are to be planted in the northeast and northwest corners of the grounds.

No Sneaking In

Here's some sad news for the kids but nevertheless is true. The entire field area will be enclosed with a canvass before each game. "It's going to be a darn hard job to peak or sneak into our new field", concluded Schmeeckle.

The approximate cost of the new field is estimated at \$3,500. The fact that the work was done under local supervision and by the job rather than by contract realized a saving of thousands of dollars to the school.

Soil Donated

Soil, donated by Regent W. E. Atwell, saved the college at least \$350 Schmeeckle said.

POINTER STAFF TO MEET TODAY

An important meeting for members of the Pointer Staff will be held in the Pointer office today at 12:30 P. M. Members are urged to be on time so as not to interfere with one o'clock classes.

Burroughs Is Honored With Master Degree

Mr. Leland M. Burroughs, director of the speech department for the past eleven years, completed work for his Master of Arts degree in the School of Languages, at the University of Michigan, at Ann Arbor this summer. Mr. Burroughs received confirmation of his master degree Tuesday.

Has Splendid Record

Termed the "Builder of Champions", Mr. Burroughs has very capably earned this title. Last year his protege, Celestine Nuesse, then a sophomore, won the Interstate Oratorical Contest held here.

Two firsts and two seconds have been awarded to Stevens Point in other Interstate meets. In previous state meets Stevens Point has won four Oratorical and one extemporaneous contests, under fine coaching of Mr. Burroughs.

First Degree From Wabash

Refore coming to Stevens Point in 1920, Mr. Burroughs had been a teacher in High Schools. He received his B. A. in 1913 at Wabash College; a graduate of King's College of Oratory, Pittsburgh. He is a graduate student of the University of Chicago and has attended the University of Michigan for four Summer Sessions.

Faculty Members Attend Schools

Among the summer session student at the University of Minnesota was Miss Mary Hanna, English teacher in the Rural Department. While at Minnesota Miss Hanna took an eleven weeks course in the school of education, specializing in English. Miss Hanna is working toward her B. A. degree.

Mr. Joseph Mott was also a student in the summer session of the University of Minnesota. Mr. Mott took a six weeks course at the University taking special work in the fields of Supervision and Psychology of Legislation.

and Psychology of Learning.

Miss Leah Diehl, training teacher in the Intermediate department, spent the entire summer session at the University of Chicago. Miss Diehl was enrolled in the graduate department of Education where she took work towards her Master's Degree.

Miss Bessie La Vigne, training teacher in the Rural Demonstration School was also a student at the summer session of the University of Minnesota where she was enrolled in the department of Education. During the six weeks term she took studies in Geography and History which will apply toward her B. A. degree.

GRIDDERS OPEN AT CARLETON

NEW MATERIAL ISSUED SUITS

Eighteen Vets And Plenty Of New Gridders Report For First Drills

Coach "Eddie" Kotal has been putting his college football team through some strenuous drills the past few days in preparation for the opening game of the season at Carleton, September 24.

Many Heed Call

When the gridders were issued their football togs last Monday 18 veterans, over a dozen of last semester's ineligibles, and a small army of new material were right on hand to grab their shares.

Kotal has avoided comments on this year's possibilities. However, it has been a precedent with "Eddie" to let fans do the judging on the gridiron rather than to picture an invincible eleven in print. "We have some new ma-terial besides our hold-overs," is the best statement Kotal would make.

Last Year's Vets.

The list of veterans include the Baker brothers, Scribner, Garber, Roy, Winn, Reimer, Schwahn, Hansen, Klement, Koehl, Richman, Atwood, Gregory, Miller, Greene, Andre, and Busch. Then there are over a dozen of last year's students, who were either ineligible because of transfers or who saw action in the "B" squad, that look mighty good.

"Christy" To Compete

Oscar Christianson, a former Lawrence gridder, will be eligible this year. Others include Fritsch, Beppler, M. Anderson, Omholt, Kujath. Tuthill, Thompson, Kujath, Tuthill, Thompson, Krumm, Margeson, Pizer, Neale and Marsh. It is doubtful whether Peterson, Keener and D. Anderson will return to school this fall. Peterson and Keener were football-and basketball athletes.

Alumni Game, Oct. 1

Local fans will have an opportunity of seeing the college team perform Saturday, Oct. 1, when the annual varsity-alumni tussle takes place.

PHI SIGS TO MEET

Members of Phi Sigma Epsilon fraternity are urged to present at a meeting to be held in the Men's Room, Tuesday evening, at 7:30 o'clock. Election of a new president to succeed Richard Rothman, who is not returning to college this semester, rushing plans and fall parties will be acted upon.

VETERANS AND Cut And Glue This On Your Bed Or Table

Coach "Eddie" Kotal has been whipping his gridders into shape by staging two drills daily the first part of the week in preparation for the local college boys first game of the season with Carleton college next week Saturday, September 24, at Northfied, Minn.

Three home games and four outof-town contests, not including the annual varsity-alumni game, to be held Saturday, October 1, are slated for this year. Following is a schedule of Central State Teachers college games: Sept. 24, at Carleton; Oct. 1, alumni; Oct. 8, at Whitewater; Oct. 15, Eau Claire (dedication of new athletic field and homecoming); Oct. 22, at Milwaukee; Oct. 29, Oshkosh; Nov. 5, St. Norberts at Green Bay (St. Norbert's homecoming game); Nov. 11, Stout (tentative).

HIGH GRIDDERS **APPLETON**

Forty Preps Respond To "Harry" Ringdahl's Call For Material

When Coach "Harry" Ringdahl of the Stevens Point High school called for football volunteers 40 husky preps were on hand to make bids for the dazzling new headgears, pants, shoes and other gridiron equipment.

High School Dedication

Ringdahl's gridders will open the season here when they entertain the Appleton High school, in a non-conference game, Saturday, September 17. On Saturday, October 8, the High school's new athletic field at the Goerke Memorial park (fair grounds) will be dedicated when the preps meet Wausau.

Besides Captain Ray Nugent, who is rated as the best fullback in the alley conference, there are "Bingy" Oligney, W. Dagneau, C. Houck, V. Marshall, R. Menzel, R. Broome, P. Steckel, G. Breiten-stein, J. Vicker, R. Marrs, E. Hanna, T. Menzel and R. Dehlinger as veterans. In addition there is plenty of green material which is certain to produce some dark

High School Schedule

Following is the High school 1932 football schedule: Sept. 17, Appleton (here); Sept. 24, at Eau Claire; Oct. 1, at Marshfield; October 8, Wausau (here and dedication of new athletic field); October 14, Nekoosa (here); Oct. 12 at Merrill.

Our Coach

E. L. KOTAL

Every old student in college knows Eddie Kotal, but for the benefit of our new students we wish to introduce our coach. Kotal joined the local faculty staff in 1930, coming from Lawrence college. Eddie's personality, sportsman college. Eddie's personality, sportsmanship and willingness to lend a helping hand has won him a multitude of friends both in college and in the city. Kotal has produced some plucky athletes during his two years here. The Coach's taciturn way always leaves the fans guessing as to what kind of a team the college will have. But judging from the husky army of gridders that respond to Kotal's call for football material last Monday things look mighty good.

C PORT

dedicated in Stevens Point this fall. The High School dedication is Saturday, Oct. 8, with Wausau the host. Eau Claire will be guest to the college homecoming and dedication, Saturday, Oct. 15.

We don't like to be pessimistic but with the hospital just across the way from our new athletic field visiting gridders will find the service and accommodations ideal.

With our elevated band stand located midway between heaven and earth Prof. Peter J. Michelsen and his college band will be able to entertain football fans and Gabriel's angels all with the same "toot" of the horn.

Can we trim Carleton next week? Follow the team to Northfield, Minn., and see for yourself.

WARNING TO PEDESTRIANS

Varnish has produced a glossy but slippery finish to the college floors and stairs. As a warning we suggest students mesh gears when turning corners or descending stairs.

22, Tomahawk (here); Oct. 29, at Antigo; Nov. 5, Wis. Rapids (homecoming game here); Nov.

KOTAL SENDS A FEW WORDS

"Eddie" Thinks New Athletic Field Is Dandy; Urges Pulling Together

To all Students: -

"Peptime" is here and the athletic department welcomes everyone of you wholeheartedly. To tell the truth - we really need you in our business so get in line, outstretch those arms and do a lot of hearty welcoming yourself.

Eddie Urges Support

Our prospect for good athletic teams for the coming year are going skyward at the present time because of the large number of students interested in athletic activities. Our success of course, will depend upon the effort put forth by our athletes and the support given by you.

Praises New Field

One of the biggest helps to the athletic department is our new athletic field. The credit for this big piece of work goes to Mr. Hyer, Mr. Atwell and Mr. Schmeeckle. Without their undenying efforts very little would have been accomplished. It shows that the school is cooperating one hundred per cent

Graduation last spring lost several very good athletes and "old Two new athletic fields will be ing us some more trouble... but even the material looks quite promising. There are several new faces in our lineup and these combined with the old timers may mould out a smooth working aggregation.

Let's Get Together

With our present large enrollment and our new improvements we should feel like a much larger college so let's get together and act larger.

Now that we have a good peppy band and a band stand we can work up new cheering, ideas and formations. Let's be "big college stuff".

EDDIE KOTAL.

Allez Completes Work At Columbia

Mr. George C. Allez, local college librarian, has been granted his master of science degree from Columbia university, New York, where he has been a student for the past year.

Elected Class President

Allez was elected president of his class which numbered 50 students. His thesis, which is required of every student working for a master degree, was entitled, "Time Study of Activities of Librarians in Teachers colleges of Wisconsin".

Mr. Allez joined the local facul-ty staff in 1929. Last year he was awarded the Carnegie Scholarship worth \$1,500. He was granted a year's leave from the local college to complete his master's work.

Previous Schooling

His previous schooling included a three year diploma from the State Normal school in 1927 at Bellingham, Wash.; B. A. degree from the University of Washington in 1928; B. S. Columbia university in 1929. Miss Lulu Mansur was librarian during Allez's absence.
