

CAGERS AT OSHKOSH TOMORROW

ST. OLAF DEBATERS DISCUSS SUPREME COURT HERE

The local debate season was ushered in last Monday with two debates between St. Olaf's college and C. S. T. C. The St. Olaf's team, composed of Alvin Nelson and Edward Gunberg, met the local negative team, made up of George Hyer and Arba Shorey, at eleven o'clock in room 109 before Mr. Knutzen's English class and Mr. Burrough's speech class.

In the afternoon the men from St. Olaf's met an affirmative team of Virginia Watson and Kathryn Becher. The debates were non-decision but Rev. Philip Dydvig of Stevens Point gave a critical discussion of the constructive and rebuttal arguments.

The St. Olaf boys were to appear over the College Radio Hour but last minute difficulties caused the cancellation of plans. They left immediately for Oshkosh to participate in further debates.

Work On Iris Year Book Is Progressing

If things keep going as they are, you can start planning to have your "friends" write in your annual by May this year.

Arba Shorey, Iris editor, says that if the Staff continues to receive the co-operation it has in the past few weeks the book will be ready for distribution by May 15th.

The color scheme of this year's annual will be silver on black for
(Continued on page 5, col. 1)

WISCONSIN TEACHERS TO MEET WEDNESDAY

Next Wednesday, January 15, there will come to this college about 60 school masters from this section of the state for the first meeting of the Central Wisconsin School Masters Association. The visiting school teachers will be given a dinner at Nelson Hall to open the program. Mr. Edgar Doudna will be the main speaker of the day.

SCIENCE ASS'N HONORS ROGERS

Professor Thomas A. Rogers, of the faculty of this college, has just received notice that he has been elected to the American Association for the Advancement of Science. Mr. Rogers is an instructor in chemistry here and is a member of the Zeta chapter of Sigma Zeta, National Honorary Science Fraternity. Mr. Charles Watson, also of the faculty, recently attended a meeting of the American Association. He journeyed to St. Louis to the meeting during the holiday season.

Chi Delta Rho Formal Saturday Night

The members of the Chi Delta Rho fraternity, their friends, and ladies will cavort together in social hilarity on Saturday evening at the Hotel Whiting where the fraternity members including the welcomed alumni and ladies will first gather for the annual banquet at 6:30 P. M. in the main dining room. This will be followed by an evening of dancing to the music of Jimmy Jones and his well known dance band. Admission to the dance is open to all students and their friends. Bill Theisen is in charge of the invitations; Frank Menzel is the general chairman.

Michelsen To Attend National Band Clinic

Professor Peter J. Michelsen, Director of Music at C. S. T. C., is attending the National Bandmaster's Clinic Thursday and Friday of this week. The meeting is being held this year at the University of Illinois, which is located at Urbana.

MR. BURROUGHS ON THE AIR TODAY

Mr. Burroughs announces that a new college radio program called "Clean Winged Hearth" will begin this afternoon at three o'clock. The program is novel in that no announcements will be made thus giving a continuous performance. Mr. Burroughs will read six or eight household poems with a musical background. Special numbers by a quartette from the Glee Club will be given, with Mr. Knutzen furnishing the accompaniment. This program will be given every Thursday at three o'clock.

MUNDY SINGERS TO APPEAR WEDNESDAY IN AUDITORIUM

On the auditorium stage, January 15, the famous Mundy National Jubilee Octet appears. This octet appeared under the personal direction of James A. Mundy, famous negro choral leader and composer at both the 1933 and 1934 World Fairs and features the solo work of Claire Malone, the soprano who starred at the 1934 Music Festival in Chicago.

This group of singers will sing every type of negro song—the beautiful spirituals, the chants and plantation melodies of the southern negro. During a part of the evening's performance, the singers will be dressed in a special plantation costume.

Students Are Invited

This group is one of the most famous of negro organizations and has appeared in various houses throughout the United States. Their performance here should be a delight to all. Student tickets may be obtained from the office for the asking.

POINTERS TO OPEN CONFERENCE RACE WITH STRONG FOE

Kotalmen Begin Defense Of Cage Title. Eau Claire Here Monday

Coach Eddie Kotal and his basketballers will leave Friday afternoon for Oshkosh where they will clash with Bob Kolf's team in the evening. The game opens the conference for both squads. The Pointers are the defending title holders and the Oshkosh five is expected to furnish plenty of opposition as another race gets under way. Oshkosh is rated as the dark horse of this year's campaign with an excellent chance of winning top honors in case either Milwaukee or Stevens Point falter along the way. This coupled with the fact that Oshkosh and the Point are grim rivals, makes Friday night's game take on the appearance of a torrid battle.

Oshkosh came through a stiff non-conference schedule in fairly good shape. Among its victims is numbered River Falls by a 36 to 28 margin. The Kolfmen also made a trip into northern Illinois where they won one of three tilts against strong foes. The Pointers walloped River Falls twice, and also took the measure of St. Norberts and Eau Claire. Thus these early season results tend to give the Kotalmen a slight edge over

(Continued on page 4, col. 3)

RADIO GANG OPENS SEASON

At 3:30 Monday in the college auditorium, the first "College Radio Hour" of the new year was introduced. Many of the components of the versatile personnel seemed to have been either lost, strayed, or stolen during the Yuletide vacation; nevertheless, the program was greatly enjoyed by all.

More Faculty Interviews

Jack Burroughs announces that the new 1936 broadcasts will be of a little different nature from those which have been witnessed in the past. Each week, an organ-the new 1936 broadcasts will be featured in a novel manner. This

Grist From The College Mills...

COLLEGE ATTITUDES AND POLITICS...

There is, I believe, amongst American undergraduates a lamentable indifference to politics. That indifference is engendered by a kind of defeatism which is unworthy of the younger generation.

There is absolutely no excuse for the lethargy and the indifference of our undergraduate body. Of course if they prefer it that way, this is a free country, and let them go ahead and play their little games and yodel their little songs and sport around in a new coon coat with a new girl and talk vaguely of the money they will make as a broker when conditions have improved.

The unexpected is the only thing that ever happens in this world, and there is only one way to prepare for the unexpected—by making it the expected.

COMMENT...

It all goes to prove that with 10c and a college diploma one can get a cup of coffee anywhere.

THE VOICE WITH A SMILE...

We learn by remote control that the girls in a certain boarding house at the University of Wisconsin now have placed little placards up beside the phones in the house. The placards say, "Gentlemen guests will please not answer calls."

It is a development of an embarrassing situation of last spring. One day the dean of women called the boarding house and a deep masculine voice answered, "Third Floor"—La Crosse Racquet.

"PYSCHE"...AND "FISH"...

Up in one of the little New England seaports lay the good yacht "Psyche". It had come from one of the southern yacht clubs and was laying in for supplies. One of the older natives of the region, who was long on spelling, though short on mythology, was seen to return time after time to study the craft, and was also observed to shake his head. Finally he could bear it no longer; he swung on a bystander and in a disgusted voice said, "What a hell of a way to spell fish."—The Cornell Daily Sun.

A NEW ATTITUDE...

Anyone who has seen Knox play or practice this year couldn't fail to notice a new, different attitude among the players. It is that undefinable, yet ever present, something found on all winning teams. When confronted with this new acquirement, Donaldson stated that "There is a new spirit among the fellows this year. You can't name it, yet you know it's there. The strict training everyone has kept goes to prove it is there."

"Good coaching, good material and competition; good spirit among the players, and the students, and a spirit of cooperation between the players, and between the team and the student body—these are the things to which Donaldson attributes the return of Knox to football prosperity."—Beloit Round Table.

STOUT "KICKS" FEATURE...

Kicks, men students, constructive comments, deans, squawks, and directors will be intermingled Wednesday, Dec. 11, at the YMCA sponsored "Kick Session", to be held in the club rooms at 7:30 p.m.

Dean Bowman, Dr. J. E. Grinnell and Dean Price will be there to "take it", providing the fellows are there to "give it".

This is the rare opportunity for the men to go into "executive session" and get that load off their chests. The administrators report that they are anxious to help the students but just must have an expression of student opinion.

W. E. Giese, who is general chairman of the meeting, reports that a program has been formulated for carrying out the remedial proposals made at the meeting. It remains for the men to come to this kick session and express their views.—Stoutino.

FOR SALE...ONE FOOTBALL TEAM!...

"An interesting solution to the problems confronting the athletic directors of small colleges was offered by the editors of the Cardinal of the University of Louisville. They suggested the outright purchasing of a good football team, rather than secretly inducing high school athletes with promises of soft jobs and fat scholarships. As businesslike as their proposition might seem, it nevertheless is not applicable to the athletic situation as it exists on the Lawrence campus.

Much more feasible would be the complete abolition of inter-collegiate sports, with a renewed emphasis on intra-mural athletics. To get good teams, as the editors of The Cardinal suggests, it is necessary to pay for them, and all colleges the size of Lawrence can not afford to invest that heavily."—Lawrentian.

What to do! What to do?!!

TRICK PLAYS...

While this may be entering the field of my friend Matt (Arch Ward) Rodermund, the story is too good to waste. It seems that the Cornell coach was rather disgusted with Beloit's play in general, but there was one play that impressed him. After the game he was heard to ask, "Say, what is that play where the weak-side end sits down?"—Beloit Round Table.

MEN...

The man who cannot afford to get down off his perch and move about among his fellows is wasting his time at a modern university. All the wisdom and learning that he may accumulate will not save him from a fossilized old age.—McGill Daily.

WOMEN...

In a survey at Hunter College, New York, it was found that of the 650 freshmen co-eds, only one intends to marry after graduation. The others are planning to work.—The Ohio State Lantern.

HAS THIS EVER HAPPENED TO YOU?

We hear that Clover Kretschmer stars in chemistry. The other day the directions told her to pour out two inches of a certain chemical. She did—down the drain.—Beloit Round Table.

Students in a math. class at H—were severely reprimanded recently when they left the classroom because the professor did not show up within five minutes after the hour. "You could see I was here," said the professor, "for my hat was on the desk."

The next day the professor found the room empty, but upon each desk was a hat.—Anonymous.

Five men walked out of a final exam at the University of Syracuse, announcing their refusal to compete against the cribbing that had taken place. The result was that the entire section was given a mark of "incomplete."—The Lafayette.

Diner—Do you serve crabs here? Waiter—Certainly, we serve anyone; sit down.—Hoofs and Horns.

- Can't study in the fall, Gotta play soccer;
Can't study in the winter, Gotta play basketball;
Can't study in the spring, Gotta run track;
Can't study in the summer, Gotta girl.—The Daily Illini.

FIGURES DON'T LIE ... But ...

A request has been received on how many days one should work a year here it is—there are 365 days in the year—if you sleep 8 hours a day that accounts for 122 days, leaving 243 days—and if you play 8 hours a day, that's 122 more, leaving 121 to be accounted for—but there are 52 Sundays to be taken out, so that leaves 69 days—and you are entitled to a half day off Saturdays, or 26 days, leaving 43 days—but your half hour off for lunch each day accounts for 28 days, and that leaves 15—naturally you take a two weeks' vacation each year—so you have one day left—but that day is Labor Day and you don't work anyway paste that in your hat.—The Dartmouth Jack-O-Lantern

JAZZ IN HELL?

Jazz has become a species of inebriation, said Prof. Carl Welty of Beloit college in a chapel address Tuesday morning. "The saddest excess on the campus is jazz, not jazz-music, because there is no such thing," he said.

"When music becomes more than 90% rhythm it ceases to be music," he stated, "and the constant immersion in jazz as a musical diet will eventually deaden one's sensitivity for good music," he said.

Mr. Welty contended that since students allow their food diet to be scientifically prepared, as far as calories, vitamins, and roughage is concerned, it is logical that similar attention should be given to the musical diet. He would include Beethoven as an important ingredient.

"Every man has a sovereign right to go to hell, and musical hell, if he wants to," said Mr. Welty, but he explained that one should understand the effect of constantly listening to jazz before he should allow himself to be deadened by it.

A MOVEMENT TO PRESERVE OUR WILD LIFE FOR POSTERITY?...

"Four reels of the all-school movie have been completed," Dr. Davenport, advisor of the Strut and Fret, said this week. This movie is planned as an advertisement for Eau Claire State Teacher's college, and is under the auspices of Strut and Fret.

In making up this movie, all activities of the school will be included, as well as all organizations, recreations, and representatives of the various classes. Action shots of all the outstanding events of the semester will furnish high points of interest. "It will probably take all semester to take the pictures for this movie," continued Dr. Davenport. "Then the movie will be sent to the different high schools to be shown."

This movie will give an insight into student life at Eau Claire State Teachers' college. It will contain shots of athletes, of Forensics, of some of the classes at work, as well as of the actual meetings and activities of some of the organizations.

The purpose is to show prospective students of Eau Claire State Teachers' college a glimpse of the school life. It will acquaint people with Eau Claire State Teachers' college and will aid in acquainting other schools with the type of work done here.—Eau Claire Spectator.

Society Notes

Sorority Formal Next Week

The Tau Gamma Beta Sorority formal will be held at the Hotel Whiting on next Saturday evening, January 18. Music will be furnished by Charles Brinckley's orchestra, who will be remembered as having performed acceptably here in the past. Miss Barbara Joy is in charge of the invitations.

Party at Nelson Hall

Last Monday evening at ten-thirty p. m. the girls of Nelson Hall held a Twelfth Night Party. In spite of the lateness of the hour, the girls had a very good time; no doubt the bountiful refreshments contributed much to the success of the evening.

Y. W. C. A. Will Meet

The Y. W. C. A. will meet this evening at 7:30 at Nelson Hall. Miss Coleman will address the group at this time. It is necessary that every one be present as the Iris pictures are to be taken.

JOURNAL SOCIETY EDITOR TO SPEAK BEFORE PRESBYTERIAN CIRCLE

Mrs. Dorothy Dunn Hoffman, society editor of the Stevens Point Journal, will speak Sunday evening at a meeting of the Presbyterian Young Peoples' Getting Acquainted group. Her subject will be "Journalism As a Profession." The talk will be one of a series of vocational guidance talks to occur in the church parlors each Sunday evening at 6:45 o'clock. Succeeding talks will bring representatives of other professions before the group. All college Presbyterian young people and their friends are invited to attend.

"Good night," he said, "my little girl; Good night, I'm going now; Good night." He pushed the wavy locks Back from her upturned brow. "Good night, good-bye; I'm going now." He turned to go, and then, He clasped her close, and with a kiss, Began it all again.

MEN'S GLEE CLUB SMOKER TONIGHT

The Men's Glee Club this week resumes work after a two weeks rest in preparation for the spring concert and for programs while on tour. A group of excellent numbers has been ordered and will soon be ready for use.

Tonight the glee club plans to hold a smoker in the Gingham Tea Room as a get-together to start the new year right. Cards, smokes, and eats are on the program for the evening. Don't forget the chess board, too, you chess fiends.

Following eating of the lunch, each member will tell of his New Year's Eve experience.

PROFESSOR FAUST A BAND MEMBER

The C. S. T. C. band has a new member in the person of Gilbert Faust. Mr. Faust, it will be remembered, is Chemistry assistant, in charge of the laboratory.

Mr. Faust received his band uniform last week. He accompanied the band in its Marion engagement. It is not known at present writing what instrument Mr. Faust plays, but if his versatility in the many fields, in which he is now interested can be considered evidence of his ability in the musical field, his success will be assured.

Girls! Have you selected your formal and accessories for the big Saturday night event? We have formals priced from

POINTERS BEAT SAINTS 43-20

ST. NORBERTS BOW TO POINT 43-20

Central State's basket ball team came through with its fifth non-conference victory in a row by swamping St. Norberts Monday night 43-20. The Pointers had defeated St. Norberts at De Pere earlier in the season 27-24. At half time Stevens Point was out in front 22-12.

Unferth's long shot gave the Pointers a 2-0 lead soon after the game started. Spychalla pushed one in from the side to tie the score. Stevens Point then spurted and ran the score up to 14-8 with five minutes remaining in the half. At this stage Kotal called his reserves to the floor. Two baskets by the Green Knights set the score at 14-12. Coach re-inserted his starting line-up. Lindow dribbled in for a pot shot to lead a rally which gave Stevens Point a lead of 22-12 at half time, and the locals had already scored sufficient points to win the game, as the score eventually showed.

Baskets by Nimz, Unferth, Johnston and Lindow, along with two charity tosses by Nimz shot the Pointers far out in front early in the second half. Kotal put his third line of defense in the game at this juncture, and then followed with his second give, after a few moments. With but a few moments remaining the Pointers led 39-18. Lindow and Nimz scored from under the hoop, while D. Scovell tallied for the visitors. The game ended a few seconds later, the final score Point 43; St. Norberts 20.

The Pointers played spatty ball, showing a lot of class at times and then slipping back into ragged form again. Fred Nimz was the leading point getter with ten tallies.

Stevens Point attempted sixty shots, making good on seventeen of these. St. Norberts was successful in nine of its thirty-one shots.

Pointers To Face Oshkosh...

Sparks are certain to be flying tomorrow evening down in Oshkosh. An Oshkosh team is a tough proposition to face anytime. Especially will this be true tomorrow when they will be playing in their own tricky gym. The playing floor is a long, narrow affair resembling, oddly enough, a bowling alley. Last year, with the championship hanging in the balance, Stevens Point played at Oshkosh. The Pointers won, 27 to 26, in a game that was just as thrilling as the score indicates. Oshkosh seldom suffers defeat on its home floor. Bob Kolf's team won't be in the mood to lose to Stevens Point again before the home folks. Incidentally, Tom Lindow will be playing against his former team. Tommy was a regular on the Oshkosh five for two years before enrolling at Stevens Point. Now he is performing quite capably at a regular guard position for the Pointers. Nothing would be sweeter than to have Tommy play an outstanding game against his former team mates. And that's just what he'll be trying his utmost to do.

No doubt the majority of Stevens Point cage fans are under the impression that Eddie Kotal's cagers had an easy time of it in their victory at River Falls preceding the holidays. We want to

AS "OTHERS" SEE US...

Falcon fans will get a chance to see a swell basketball team when Eddie Kotal brings his big Point team here Thursday night for a return game. When I say they're big, I mean it. Every one of hi steam but Unferth, sparkling little forward, is a six footer or better. Besides Nimz there are Copes and Miller who play the pivot post, and they all are plenty big.

Around the Point the fans seem to think they were robbed of a championship in football last fall when the Pointers were banned from the conference. But I'll put my chips on the Pointers for a hardcourt title even if Milwaukee has a veteran team back. Kotal has the ball players on that outfit.

Louis Kulas, writing in the "Kibitzer's Corner"—River Falls Student Voice (Dec. 18 issue).

'36 BASKETBALL SCHEDULE

Jan. 10	Oshkosh, there
Jan. 13	Eau Claire, here
Jan. 17	Milwaukee, here
Jan. 24	Whitewater, there
Jan. 25	Platteville, there
Feb. 6	
Feb. 14	
Feb. 21	
Feb. 28	Milwaukee, there
Feb. 29	Concordia, there

correct that idea. The game was an entirely different affair than was that 50 to 22 game a week previous at Stevens Point. The Pointers won by a twelve point margin, it is true; but Coach Kotal was forced to leave his starting lineup intact throughout the game. Not one reserve saw action. Maybe that doesn't strike you as so strange, but just listen to this. It was the first time since Kotal began his coaching career here back in 1931 that he failed to use even one reserve in a game. That ought to give you an idea of just how tough that ball game at River Falls really was.

Coach Kotal had one put over on him during that same River Falls game. Midway in the second half Kotal protested a decision by the referee. The official warned Eddie to observe silence for the remainder of the game. Shortly after this the official tooted his whistle and denoted that Don Johnston, Point guard, had committed a very questionable foul. Oscar Copes roared out from the bench in that meek way of his protesting the decision. Kotal, in the meantime, was at the scorers bench, trying to find out how many minutes remained in the game. The referee, hearing Copes' gentle voice above the din of the crowd, gazed sternly in the direction of the Point coach and said, "Technical foul on Coach Kotal." By that time Kotal turned around, and, not having seen what had happened, he inquired as to whom the technical foul was on. Imagine Eddie's astonishment when he was informed that the foul was on himself.

POINTERS TO OPEN CONFERENCE RACE WITH STRONG FOE

(Continued from page 1, col. 4) Oshkosh. However, when these two old rivals meet, past records mean nothing at all. In addition Oshkosh will be playing in its own gym, which is worth about ten points any time.

Eau Claire Here Monday

Saturday night Coach Kolf will take his cagers to Milwaukee for a game with Marquette University. Coach Zorn will bring his Eau Claire quintet to Stevens Point Monday for a return match with the Pointers in a non-conference game. The Point team defeated the Zornmen at Eau Claire earlier in the season, 41 to 23. Probably the outstanding player on the Eau Claire team is Moore, who is ineligible for regular conference play this semester. Moore, along with Captain Pat Held, have carried the brunt of the attack for the invaders in practically every game this season.

NIMZ LEADS POINT TO VICTORY OVER FALCONS, 45-33

The Pointers, with big Freddie Nimz showing the way, rang up their fourth straight victory before the holidays by trimming River Falls on the latter's own floor, 45 to 33. The win was the third in six days for Stevens Point, and also was the second time the Pointers whipped River Falls this season.

The Pointers started very slowly, and it was only a brilliant spurt late in the first half that enabled Kotal's team to lead, 19 to 16, at the midway mark. Then Nimz came through with an amazing total of eighteen points in the second half to insure a Point victory. Incidentally the big Point center amassed twenty points for the entire game. Walter Herkal, star forward of the Falcons, was outstanding for his team, piling up sixteen points on six baskets and four charity tosses. The play of the River Falls team was very much improved over its appearance in Stevens Point at an earlier date.

RADIO GANG OPENS SEASON

(Continued from page 1, col. 4) type of program will include all organizations, musical, social, dramatic, etc.

Plans are also being made to interview more of our faculty members. So with the help of Francis White and the orchestra, we may look forward to some interesting programs.

BAND CLINIC

FEBRUARY 12

A Band Clinic for the high school band masters of Wisconsin will be held here on Wednesday, February 12. Fifty invitations have been sent out, and already more than a dozen band directors have signified their intentions of attending.

At the clinic, which will be held in two sessions on that day, both in the afternoon and evening, the C. S. T. C. Concert Band, under the direction of Professor Peter J. Michelsen, will play the state and national numbers which have been selected for the tournaments this spring. Between sessions, the band masters will meet for a "get-together banquet" at Hotel Whiting.

Only Request Numbers Played

The purpose of this clinic is to allow the various directors of the state to hear how the music that they have chosen for competition should sound when played correctly. On the replies to the invitations that are received, the men indicate exactly what numbers they would like to hear played. After the concerts, the group will meet and discuss the performance of the numbers for which they have asked and decide exactly which numbers they want to use.

Plans are under way for a movie benefit for the band in the near future. If these are completed, the organization wishes to encourage as much support as possible. The proceeds will go toward helping to pay the expenses of the annual tour.

Irish Staff Busy

Within the next six weeks the staff will be collecting and preparing written copy. Mr. Shorey will appreciate any help that students and faculty members may give in helping gather necessary information for the copy.

The "dummy" or final draft of the book is prepared. Every page is completely laid out and the copy amount is estimated.

Never before in the history of Iris building has the work been as far advanced this early in the season. The Iris staff should be congratulated on its splendid work.

Alumni Notes

Cassel Community Project

A recent graduate of the two year rural course of this college has succeeded in organizing a community project in the town of Cassel (Marathon County).

Leo Lang, who graduated from this college in '35 has inaugurated an evening community club, the purpose of which has been to turn the interest of his community to worthwhile projects of civic benefit.

The programs are mostly musical or of the short play variety, with all local talent being used. From an initial membership of eight, the number enrolled has now passed the thirty mark, with prospects bright for new additions to the club work. Meetings are held once a month.

Needless to say that work of this kind is very much worthwhile to the community in many ways, chief among which is the enlarged understanding and mutual appreciation which is especially needed in communities of varied population elements.

Mr. Lang is much pleased with the growth of the club, and has much to say in appreciation of the support which the members of this project have accorded him.

Heart-Throbs Column

"A Perfect woman, nobly planned,
To warn, to comfort, and command"—Wordsworth.

Do you prefer the athletic or clinging-vine type of girl?

Bob Frieberg: Personally I prefer the clinging-vine type because I've never yet seen a good woman athlete with titian hair.

Jim Muart: At the present time I am interested greatly in the athletic type of girl. But, I'll admit that the so-called clinging-vine type might interest me. The whole trouble is that I don't know any girls of that class.

Russ Way: I prefer the athletic type because "clinging" isn't my style.

Bill Herrick: I find that a combination of the two types makes life more interesting.

Roy Weingartner:

Girls that enjoy athletics and can share my viewpoints hold a very definite fascination for me.

Don Norton

In my opinion the athletic type of girl is by far superior to the "clinging vine". The latter type usually demands, with much ado, that things are done as she desires. This isn't true with the athletic girl who is willing to go half-way in making anything a success.

GLEANINGS:—
SUNDRY and DEVIOUS

Flattery is soft soap and soft soap is 90% lye.

Children are natural mimics. They act like their training teachers in spite of every effort to teach them good manners.

Seldom a day goes by but we are told that money isn't everything and that you can't buy happiness. That may be true, but with it you can be unhappy in comfort.

If paint is a great preservative and the slogan "Save The Surface and You Save All" is true, some of the dollies running around here are in for a long (and colorful) life.

It is said that many Hollywood hosts issue invitation cards to their elaborate parties, reading:—"admit bearer and One wife."

You will find that with temperamental people it is usually a case of 95 per cent temper and 5 per cent mental.

According to the papers there is a new craze in Vienna—dancing without music, but it's old stuff to those who have danced to jazz bands.

A wife, like a cigarette lighter, is no good unless it works.

The rudeness of the French is more gracious than other people's courtesy.—Nancy Boyd.

Whenever the literary German dives into a sentence, that is the last you are going to see of him till he emerges on the other side of his Atlantic with his verb in his mouth.—Mark Twain.

The Englishman speaks of the paintings of great masters as "not half bad." If he lost an arm and a leg in the war, he "came out a bit shy." If he is half starved he says he's "in a hole". When the Germans bombarded the Yorkshire Coast, he spoke of it as "liveliness."

The Frenchman, as far as his language goes, lives in a world of tragedies, passion, and disasters. He is "crushed", "overwhelmed", "annihilated", "transported." All sorts of things happen to him all the time.

The one real question as to the success of a democracy is this—Can it learn to think? The bone of a democracy is the man of easy solutions. He does not need to think; he knows. He does not need to experiment; he has already

GRIST FROM THE COLLEGE MILLS.

(Continued from page 2, col. 4)
INCREASED ENROLLMENT
WISCONSIN U. SHOWS NEW
PARENT ATTITUDES

If the increased enrollment at the University of Wisconsin this year means anything it is that parents are willing to entrust their children to its care and guidance. Perennial lambasting of the University has proceeded in the form of investigations and inquiries of various hues.

A university is something else besides presidents or athletic teams. It represents, in this instance, nine thousand young men and women in whom the state is making an investment; our sons and daughters for whom we provide training under the best possible conditions, and an institution that always has and which, it is expected, always shall play an important part in the development of our state. A university deserves to be viewed in its functional role rather than lost in a confusing maze of personalities and trivial aspects.

Safeguarding the University from insidious burrowing is not one man's job. The university has many friends who will fight to protect it if they are given an opportunity. The university can, if it will, organize its internal strength and rally its friends to a positive turn in the field of public relations.—Wis. J. of Edu.

PROF. DEFENDS USE OF SLANG

Slang is perfectly all right, declares Dr. W. C. Spencer, president of a Baptist college, Franklin in Indianapolis.

Mr. Spencer must believe what he says since he went so far as to defend slang before a group of ministers. Several benefits of slang, according to the prexy:

It provides short cuts in expression; it makes a demand on imagination; it adds vividness and picturesqueness. Slang has even crept into legal parlance, he points out, since a bill in the New York legislature refers to "joy-riding."

CAN THEY TAKE IT! ...

The football season has ended in an unusual blaze of glory. No more shall we see, in 1935, the Northland team go out on the field under the impression that they are to give an exhibition of adagio dancing. The boys will have to figure out some other excuse for loafing now.—Northland College "Student Life."

found the way. His father has told him, or his party, or his common sense, or his church. Against such men we need to establish the technique of thinking. Let it be understood among us that no man has a right to an opinion on any subject unless it rests upon the best thinking which we have upon that subject. There is no greater sin than that of holding an opinion as true without proper evidence, when proper evidence is available....—Alexander Meiklejohn

THE COLLEGE CONUNDRUM...

Dr. James M. Todd, builder of Radio City and benefactor of Beloit College, is the editor of a volume titled "The College Conundrum which is fresh from the presses and which contains the views of practically every member of the Beloit college faculty on the question;

"In the college with the usual student body and with the usual corps of instructors and faculty, how can the individual instructor, in his certain line of subjects, get across to the student the help he needs; and how can the instructor, where necessary, get the preparatory help he needs?"

Todd Asks Questions

Dr. Todd, himself a graduate of Beloit college, pronounced this question to President Maurer and every member of the faculty at Beloit. The signed replies constitute a symposium of views on education and its needs and comprise a volume of 257 pages.

Paragraphs which express the opinions of the faculty members, but do not interpret their attitudes completely because they are lifted bodily for purposes of brevity from the adjacent text, include the following:

George L. Collie—Good teachers are, born; they are not made. No amount of training can produce a good teacher if natural qualifications for such a calling are wanting. In fact, courses in pedagogy may well stunt and stereotype such natural qualifications, even if present... If the right type of teachers are brought together on a college faculty they will develop their students into the right kind of leaders, men and women fitted physically, mentally, spiritually for a sound and valiant life work.
