HOMECOMING ISSUE

ALUMNI NEWS BULLETIN

WISCONSIN STATE COLLEGE

Stevens Point, Wisconsin

OCTOBER 1959

GREETINGS TO FELLOW ALUMNI:

It is 50 years now since I enrolled as a Student at old Stevens Point Normal. Many changes have taken place since that day and many of them are quite recent. You will need to come back to the campus this fall to keep up to date on what is going on here. We are sure that you will enjoy the new College Union, which is open this year for the first time. If you have not been back for a number of years, make it a point to visit Steiner Hall and the Library. By Homecoming time we expect our new physical education building to be far enough above the ground to begin to show on the skyline, so you will be able to see the beginning of that structure also.

Why don't you plan to come back here on October 17, and take in the parade and the football game and the dance to meet new friends and renew old acquaintances. We'll be seeing you also in Milwaukee on Thursday afternoon at the usual place during the W.E.A. Convention.

Our best wishes to you in your work this year!

WM. C. HANSEN
President

FROM THE DEAN OF INSTRUCTION

In September, 1959, the college opened with a new all-time high enrollment. There were 1610 students enrolled on September 24. These included 656 freshmen, 415 sophomores, 273 juniors, 243 seniors, and 23 special students. Enrollment was a little under earlier predictions but represented a substantial increase over the 1522 enrolled in September 1958.

Most of the freshmen had been in for one of several counseling days during the summer. They had planned their fall schedule of classes at that time.

This year twenty-one foreign students are enrolled including two from Kenya (Africa), five from Iran, two from Nationalist China, seven from Korea, and one each from British Guiana (South America), Germany, India, Malaya, and Norway. We also have two students enrolled from our newest state, Hawaii.

A new major, business education, was started this fall. In addition to providing for the training of teachers of shorthand and typing, this major will include advanced courses in accounting and business which will be useful to our economics majors. Academic majors which have been added within the last year include physics, German, and speech. The teaching major in music has been revised to expand the music content and a new Bachelor of Music degree has been authorized by the Regents.

We are pleased to report a substantial increase in freshman home economics enrollment. Our program in home economics is fully accredited by the federal education department, the Wisconsin Department of Public Instruction, and the Wisconsin Board of Vocational and Adult Education.

GORDON HAFERBECKER
Dean of Instruction

COLLEGE UNION OPEN HOUSE

To the Alumnus returning to the Campus for Homecoming this year, there will be a sight that many of you have looked forward to see. The College Union Building is open and in operation for the first time. An "Open House" is planned for all who are returning this weekend to acquaint you with its facilities.

The Homecoming weekend was selected as the formal opening date in order to make it convenient to the greatest number who are returning.

For many, this will be the first look at a project made possible by your support and money while you were students. As most of you know, the Union Building came into being through the efforts of the Student Body. A Union fee was assessed each student starting in 1956. This money provided the down-payment for a loan from the Federal Home Finance Agency. The remainder of the loan will be repaid through continued student fees.

The Union was opened for operation during the last summer session on a limited basis. It also provided facilities for several State Conferences which were held on the Campus during the summer. This fall showed how much the present students have needed and wanted this addition to the Campus. Every room and facility has been used almost to capacity.

The Union is the location of the Main Campus Cafeteria, (replacing the Nelson Hall Cafeteria). Other areas include a spacious Snack Bar, a large comfortable lounge, meeting rooms, recreation rooms and offices for many student organizations.

The policies, regulations and general programs of the Union remain in control of the student body through the Union Board. This is composed of students from each class, representatives of student government and faculty members appointed by the President. The Board elects a student manager to work with the Faculty Director.

In planning an "Open House", the Union Board asks the alumni and visitors to the Campus for the Homecoming festivities, to try to visit the Union on Saturday, October 17. There will be guides available (many of the

HOMECOMING — OCTOBER 16th and 17th

Greetings and Welcome back to C.S.C.

Once again we open our doors to returning graduates of our C.S.C. family. As usual many things have been planned for your enjoyment. Visit the new buildings and departments on campus, renew old friendships with faculty members and students, help crown our queen, listen to our music people sing and cheer our boys to victory on the gridiron. In the busy pattern of life today there is not always time for us to do as much visiting as we'd like to do but this weekend is set aside for you, our returning Alums. I hope you return for at least a part of the weekend, and during that time, that you gain a fuller realization of how much we're expanding and that you have time to tell us about your work and your new contacts. We are looking forward to seeing you.

ELIZABETH PFIFFNER
Dean of Women

HOMECOMING ACTIVITIES

Friday, October 16 -

Queen's Assembly 7:00 p.m. - Auditorium
Bonfire & Campus Dance - 8:00 p.m. - College Union

GREETINGS TO C. S. C. ALUMS from Your Placement Office

A new school year is under way which, we hope, offers new challenges and renewed enthusiasm for each CSC graduate. It is very apparent to those of us on the

campus that our graduates are earning enviable professional reputations and each year filling preferred teaching assignments at all levels of education. It is indeed a pleasure for the college to keep in close touch with its graduates through its Alumni Association. Much satisfaction is realized by those who have contributed to your preparation for teaching or important positions in business, industry, and government services as they note your progress and promotions to many of the better opportunities now available to capable graduates.

It is equally gratifying to note the number of CSC graduates who are continuing their education, many obtaining master's degree and some the doctorate. Our only disappointment at the present time is that there are more of those fine opportunities available requiring candidates with advanced preparation than there are individuals available at the present time. Attractive salaries are sometimes difficult to give up to continue preparation but in the long run are found to be very advantageous. May we assure you that your friends at the college are

watching with interest your progress and vitally interested in your welfare. We hope that you can find it convenient to return to the campus to discuss your present position and plans with those who will be glad to share your experiences and your good fortunes.

Your college is most grateful for the loyal support of so many of its fine graduates. The number is increasing each year, while not as rapidly as we had hoped, yet it is encouraging. If each alumnus would send in the names of other CSC graduates who are now not on our active list, so that we could get in touch with them to learn of their progress since their graduation, we could add a great deal of personal information to our Alumni News Letter. This issue contains a sample of some of the interesting personal information which we are sure will interest many graduates.

Predictions for fall enrollment at the college indicate a total of over 1600. This is below earlier expectations, since we found a number of schools where the number of graduates enrolling here has dropped this year over last year. During the year we hope to be able to reach each alumnus in an effort to encourage greater effort in interesting the more capable high school graduates to consider the opportunities available at CSC. We know that some alumni are not aware of the changes that have taken place here and of the expansion of the offerings. As we are able to reach a greater number, of course this will reflect itself in increasing enrollments from those areas. The record of some of our graduates in interesting top high school graduates to attend CSC is indeed impressive. Future issues of the News Letter will keep you posted on these vital statistics.

Some new brochures are being prepared which help a great deal to inform prospective students in the expanding program of the college. A copy of each will be made available to you during the next few months.

If you are not an active member of the Alumni Association, we would urge your filling in the form at the bottom of the last page, attaching your dollar, and sending it to us promptly. It will assure your receiving each edition which will be issued during the year. We are looking for a big turnout for our alumni activities this year from the comments of many of our graduates.

DR. R. E. GOTHAM
Director of Placement

NEW MEMBERS ADDED TO CSC FACULTY

When college opened on September 14, there were 15 new staff members on the faculty. Five of these were additional faculty members and ten were replacements. There were two retirements from the staff last spring, namely, Mr. Schmeeckle in Conservation and Mr. Rightsell in Physics.

Mr. Schmeeckle's place was taken by Mr. Lee G. Andreas who is completing his Master of Science degree at Iowa State University in the field of Forestry. He also had an undergraduate degree from the same college in Forestry. Mr. Andreas is originally from Milwaukee and attended Wisconsin State College at Milwaukee for several semesters before going to Iowa State University. Mr. Andreas has had experience in Forestry Extension Service in Iowa. He is unmarried.

Mr. Francis L. Schmitz replaced Mr. Rightsell in the Physics Department. Mr. Schmitz is completing his Master of Science degree at the University of Wisconsin in Physics, and was originally a graduate of Oshkosh State College. His home is at Malone, Wisconsin near Chilton. Mr. Schmitz has done some research work at the University. He is also unmarried.

Mr. Donald Rupert is taking two years leave of absence to complete his Ph.D. degree at Eastman School of Music. His place was taken by Mr. Paul L. Baumgartner who has his master of music degree from Eastman School and his Bachelor of Music from Heidelberg College at Tiffin, Ohio. He has also had a year of graduate work at Indiana University. Mr. Baumgartner is married. His wife is also a teacher of music, and they have two children.

Mr. Norman Birkholz who taught Chemistry last year left to accept a position in the University of Alaska at Fairbanks, and his place was taken by Dr. Lawrence G. Kallander who for the past couple of years has been teaching at Michigan Tech. He has a Bachelor of Science degree from St. Olaf College and his Master of Science and Ph.D. degrees from Michigan State University. Mr. Kallander is not married.

Dr. Lothar Iversen, who was a member of the Economics Department last year, has resigned to take care of his aged parents for the time being. His replacement for this year is Mr. James W. Noehl who has a Bachelor of Business Administration and Master of Business Administration degrees from the University of Minnesota, and who has for several years been instructor in Economics and Accounting in the University of Minnesota. Mr. Noehl is married and they have two sons.

Dr. Howard N. Schutter has been employed in the English Department to replace the part-time services of Mrs. Burress and Mrs. Thomson. Mr. Schutter has his Bachelor of Arts from Western Michigan College of Education, his Master of Arts and his Doctor of Education from the University of Michigan. Dr. Schutter is married and they have one child.

Miss Viola Bloom, who was a member of the Psychology Department the past two years, has resigned to do some Post-Doctoral work in the University of Nebraska. Miss Lucille L. Johnson of Copeland, Kansas, has

been employed to replace her. Miss Johnson has a Bachelor of Arts and Bachelor of Science degree from Emporia State Teachers College in Kansas; a Master of Arts degree from the University of Chicago.

Mrs. Cecilia Welch has been on the staff for a number of years and has wished to retire and was to be replaced this year. However, she is staying on for the current school year to take the place of Miss Hildegard Kuse in the second grade at the Campus School. Miss Kuse is taking a leave of absence to do graduate work at the University of Colorado.

Mr. John Knutson of Madison has been employed to replace Mrs. Welch in the position she occupied last year as supervisor in the fifth grade. Mr. Knutson is a graduate of Wisconsin State College at Whitewater with a Master of Education degree from the University of Wisconsin, and for the past six years has been an elementary teacher in the Madison, Wisconsin school system. Prior to that he taught in a number of other Wisconsin cities. Mr. Knutson is married and they have one child.

Mr. Thomas J. Hayes, who has taught for several years in the Rhinelander High School, has been employed in the Campus School in the position of science and mathematics supervisor. He took over the work that Mrs. Marjorie Pfiffner has been doing for the past several years, although she is being retained on a part-time basis. He has a Bachelor's degree from Northland College and a Master of Science degree from the University of Wisconsin. Mr. Hayes is married and they have two children.

One new position has been added in the Department of Speech. Dr. William M. Dawson has been employed. Mr. Dawson is a graduate of Wisconsin State College at Whitewater, with a Bachelor of Science, Master of Science and Ph.D. degree from the University of Wisconsin. His teaching assignments have been at Mosinee, Ashland, Hartford, and the University of Wisconsin. Dr. Dawson is married and they have two children.

A new staff member has been added to the History Department in the person of Dr. Charles E. Freedman. Mr. Freedman is a graduate of Mount Union College, Alliance, Ohio, and has his Master of Arts and Ph.D. degrees from Columbia University, New York City. He also spent two years in the University of Paris in graduate work. His teaching experience has been in connection with the University of Maryland, and part of that program has been done overseas, especially in Heidelberg, Germany. Mr. Freedman is married, but they have no children.

Mr. Dean L. Phelps has been added to the Geography Department. Mr. Phelps holds a Bachelor of Arts degree from the University of California, Los Angeles, and his Master of Arts degree from the University of

Minnesota where he is also working at his Ph.D. degree, which he expects next year. Mr. and Mrs. Phelps have four children.

An additional position has been added to the English Department and Dr. Oscar M. Villarejo has been employed for that position. Mr. Villarejo earned his Bachelor of Arts and Master of Arts degrees at Geo. Washington University in Washington, D. C. and his Ph. D. degree in Columbia University, New York. His most recent teaching assignment has been at Memphis State University, Memphis, Tennessee. He has also served on the staff of the colleges in Arkansas, Texas and Maine, and the Geo. Washington University. Mr. and Mrs. Villarejo have no children.

Because of the heavy load of piano students in the Music Department, it has been necessary to add a Piano instructor. Miss Maija Jekabsons of Franklin Park, Illinois, has been employed. Miss Jekabsons is a graduate of Elmhurst College and has her Master of Arts degree from Eastman School of Music at Rochester. She is a young woman just starting her teaching work.

BERNARD WIEVEL SAYS

Dear Conservation Alums:

Nature's pendulum has again swung around to Fall, back-to-school and back-to-work is the order of the day. Summer vacation gear is beginning to gather dust while the story of the "big one that got away" grows brighter with every telling.

Department-wise we have some telling to do, too!! Fred Schmeackle retired this summer and now the Schmeackles make their home near Eagle River. We're hoping they can be lured away from their northwoods retreat long enough to help us celebrate Homecoming. Lee Andreas, an Iowa State graduate, is the latest addition to the Department Staff. We're launching into an expanded curriculum this semester, and - -

But how about being zeroed in on these details firsthand? Ready your launching pads, fuel your rockets and lift off in plenty of time to impact at the Point come Homecoming time. Plans indicate a fine time is in store for everyone - - except Whitewater. We'd be mighty happy to see you and yours!!

Sincerely,

BERNARD WIEVEL

OUR NEW SPEECH MAJOR

We welcome old friends back for Homecoming, it goes without saying that we'll bring the conversation around to CSC's new major in speech. Many grads who were interested in speech and drama while at CSC earned

for their alma mater a fine reputation in debate and dramatics under the leadership of Professor Emeritus Leland Burroughs, who still "keeps his hand in" the work.

In June, 1960, CSC will graduate its first two speech majors, both in Secondary Education. The major is attracting Letters and Science students also, we are happy to report. To date, the minor draws students in Elementary Education. Our new courses in speech correction, voice science, phonetics, creative dramatics, and childrens' theatre should prove very useful to the intermediate and primary teachers.

You may have guessed that we need an increased staff in the department to meet our enlarged services. This year we are enjoying the addition of one new staff member - William Dawson who is completing his work for the Ph.D. degree at the University of Wisconsin. You will have a change to meet Bill Dawson at the Homecoming festivities. We'll direct the February and May Three-Act Plays. Our first play is under the direction of Miss Mary Elizabeth Thompson (a member of our staff for three years) who is completing work for her Ph.D. at Northwestern University.

One of the nice features of being in a speech department is the fact that we have maximum opportunities to go out "in the field" and see old grads at work in education. Through the contests, which we judge, we cherish this chance "to keep in touch" and look forward to your visits at CSC.

PAULINE ISAACSON, Chm.
Speech Department

1959 STEVENS POINT FOOTBALL

The 1959 Pointer eleven has won two games while losing one to date. Hamline and Platteville have fallen before the Pointers by scores of 33 to 0 and 23 to 0. River Falls, a long time nemesis of Point, edged the Pointers 13 to 7.

Sophomore Jack Bush has been outstanding in the backfield to date. With his darting runs and spectacular pass receiving, Jack has become the most feared back in the league.

Ever reliable Bill Kuse, Mike Liebenstein, and Gene Noonan round out the speedy backfield.

Four seniors anchor the line with Dale Schallert, Clarence Kobishop, Dick Johnson, and Henry Yetter doing the bulk of the head butting. These four boys have done tremendous jobs to date and have served as an inspiration to underclassmen with their spirit and determination.

The scholastic ability of new boys on the squad this year is very encouraging. It is the hope of the coaches that these boys will add the brains that must go with modern day football.

From last year's undefeated team only three regulars reported back. Boys were lost to graduation, service, lack of funds, and marriage. With the present fine crop of freshmen, it is the hope of the coaching staff that the annual rebuilding program will not be as large each year.

Whitewater, a pre-season title favorite, will face the Pointers at Homecoming. Last year the Pointers spoiled Whitewater's Homecoming 22 to 14. It is going to be a bell ringer so be ready to cheer your college to victory. Feel free to visit the dressing room after the game.

DIRECTOR OF ATHLETICS SAYS

Dear Friends:

Soon the "Big Day", Homecoming 1959 will be here and we of the athletic department hope you will join us to make it a successful day.

The football team will be ready for Whitewater State. We are very proud of our team, its a good one. Its a young team but one which has plenty of size, speed, and a desire to win. They have gotten away with a fine start having easily defeated Hamline University of St. Paul, 33 - 0, lost a very hard fought game at River Falls 13 - 7, and defeated Platteville State in the mud at Platteville 23 - 0.

When you are here we hope you will take time off to inspect what has been done so far on our new million dollar field house. Its terrific in every respect. A dream is finally going to come true. A year from now the athletic department will have moved in their "new home".

We'll be looking for you Oct. 17, 1959.

Sincerely,

H. F. QUANDT
Director of Athletics

MASTER'S DEGREE PROGRAM

The State Coordinating Committee on Graduate Studies has been meeting monthly during the past year to develop plans for a new, cooperative master's degree program for classroom teachers. Dr. Haferbecker has represented Stevens Point on this committee. Other faculty members who served on study committees were Dr. Edgar Pierson, Dr. Pauline Isaacson, Dr. George Dixon, and Dr.

Burdette Eagon. Dr. Warren Jenkins is chairman of the Graduate Faculty at Stevens Point.

We are hopeful that the new program will begin in the summer of 1960, but a decision on this matter cannot be made until the 1959 legislature determines the budget for this purpose. We hope this will be known by December.

The state colleges and the University expect to jointly publish a common brochure describing the new cooperative program. This should be available in the spring of 1960.

Many details of the program have not been worked out but some information follows: The program will require four 8-week summer sessions, two at a state college and two at the University. Students will normally carry two 3-credit courses each summer. Courses will be of three general types (1) Liberal Studies (2) Specialized courses for teachers in particular academic areas and (3) Courses in education.

It is expected that the 1960 summer offerings will be in liberal studies and education. Specialized courses will be offered later as the program develops. The state colleges will select their 1960 offerings from the following courses (titles are tentative): The Biological World, The Physical World, Mathematical Concepts, World Population and Resources, Great Men and Issues in Western Civilization, Language in Society, Ideas in Literature, Philosophical Foundations of Education, Psychological Issues in Education, and Seminar in Problems of Teaching. Stevens Point will probably offer about eight of these ten courses.

The new program is designed to improve the competency of classroom teachers. Our survey in the alumni bulletin last fall indicates that many of our graduates will want to enroll for graduate study at Stevens Point. As soon as more definite information on graduate study is available, announcements will be made to school systems in our area and also in the Wisconsin Journal of Education. You may write Dean Haferbecker at CSC for information early in 1960.

GORDON HAFERBECKER
Dean of Instruction

NATIONAL DEFENSE STUDENT LOAN PROGRAM

The National Defense Education Act of 1958 affirmed the need to identify and educate more of the Nation's talented young men and women, and to develop programs through which the fullest development of their mental resources and technical skills may be realized. The main purpose of this Act is to make money available for long term, low interest loans to qualified students who are in need of such financial assistance in order to pursue a full-time course of study at a school of higher learning. The program includes provisions designed to encourage

education in science, mathematics, engineering and modern foreign languages. The program also includes provisions designed to attract an additional number of superior students to the teaching profession for service at the elementary and secondary school levels.

It should be emphasized that the Act does not restrict the loans to students in any special field of study. If an institution has adequate money in its student loan fund to meet the needs of all otherwise eligible applicants, the "special consideration" feature may have little practical relevance. However, when the total loan funds available at a given time are insufficient to assist all qualified applicants, special consideration must be given to those in the two categories listed above, all other eligibility factors being equal.

It is obvious that no absolute or uniform definition of need, nor an arbitrary measure of its extent, can reasonably be established for all institutions and students participating in the program. Generally, the basic data considered is as follows:

- A. The academic background of the applicant.
- B. The probable course of study in college.
- C. The income and resources of the applicant's family.
- D. The income and assets of the applicant.
- E. The costs reasonably necessary for the student's attendance at the institution.

Terms of student loans at Wisconsin State College at Stevens Point can be broken down as follows:

- A. Students eligible.
 1. Freshmen.
 - a. Must be accepted by the State College.
 - b. Must be in upper one-third of graduating class (high school).
 - c. Must earn a grade point average of 2.5 to have loan continued the second semester.
 2. Sophomores, Juniors and Seniors.
 - a. Must have been in residence at least one semester or qualify under Freshmen regulations.
 - b. Those in residence must have earned and maintain at least a 2.25 over-all average at this college.
- B. Amount (maximum).
 1. Freshmen - \$150.00 per semester.
 2. Sophomores - \$200.00 per semester.
 3. Juniors and Seniors - \$250.00 per semester.
- C. Interest - 3 per cent per year on the unpaid balance beginning with the date on which repayment of the loan is to begin.
- D. Repayment - Begins one year after a borrower ceases to pursue a full time course of study at an institution of higher education, and ends 11 years thereafter. Accelerated repayments are expected in almost all cases.

E. Waiver of interest and postponement of payment - This will be done while the borrower is attending an institution of higher education and during which the borrower is a member of the Armed Forces.

F. Cancellation for service as teacher - Up to one-half of any loan (plus interest) is cancelled for service as a full-time teacher in a public elementary or secondary school in a state, at the rate of 10 per cent of the amount of the loan plus interest for each complete academic year of such service.

G. Nature of student contract - The loan must be evidenced by note or other writing, but no security or endorsement may be required unless the borrower is a minor not legally able to create a binding obligation, in which case either security or endorsement may be required.

H. Cancellation upon death or permanent disability - Upon death or permanent and total disability, the loan is cancelled.

During the second semester of the school year 1958-59, which was the first semester of participation at CSC the total amount available for loans was \$5,500. The Federal Government's share is nine-tenths of this amount and the local institution one-tenth. Thirty-four applications were approved at an average of \$162 per loan.

A considerable increase in appropriation was granted for the 1959-60 school year. At the present time the amount available for student loans is \$28,028 with a further allocation of \$8,000 to be appropriated during the school term. Forty-five applications have been approved for the semester at an average amount of \$220 per loan.

The National Defense Student Loan Program was established in 1958, and, according to present legislation, is scheduled to operate for a period of eight years, terminating on June 30, 1966. Annual appropriations anticipated for the period will amount to about \$38,000.

High school students desiring further information regarding this plan may contact O. E. Radke the Director of Student Loans. This information disseminated to needy qualified students will be appreciated.

MUSIC DEPARTMENT

The big news in the Music Department this year is that we were authorized by the Board of Regents to offer a BACHELOR OF MUSIC DEGREE beginning this fall.

This degree offers students 60 hours in music and will bring our school in line with most schools in the country where training of school music teachers is offered. It will also give us the opportunity to offer to students a degree that is the one most often achieved by students in music.

This degree will also give the students a better

opportunity to develop in the area of music in which he is most interested: vocal or instrumental.

After the clouds of registration had settled we found that over 60 music majors had signed for instruction into our department. All classes are larger than before, with overloads being evidenced in all of the applied areas.

New to the staff this year is Miss Maiya Jakobsons and Paul Baumgartner. Miss Jakobsons is a graduate of Elmhurst college in Chicago and the Eastman School of Music. She is teaching theory, organ and piano. Mr. Paul Baumgartner is taking the position formerly filled by Mr. Rupert while the latter is on leave of absence to the Eastman School of Music for a doctorate. Mr. Baumgartner is also a graduate of the Eastman School of Music and has been doing work toward a doctorate at Indiana University. Mr. Baumgartner is teaching piano and Music History and Literature.

NATIONAL SCIENCE FOUNDATION SCHOLARSHIP RECIPIENTS

JAMES GOSH, '55 -- Received a National Science Foundation Grant to do post-graduate study in mathematics at the University of Wisconsin for the 1959-60 school year. He is married, the father of two children, a boy and a girl.

Librarian

SCHUMACHER, HAROLD - from graduate work to Colby,
Wis. - Guidance
SMITH, DONALD - From Malaya to Hammond, Indiana -
English
STASSEL, FRED - from Alaska to Kaukauna, Wis. - Math.
WEBER, JOANNE - from Sheboygan to Green Bay, Wis. -
Home Ec.
WIRKUS, TOM - from grad. work to Wis. State College,
La Crosse-Instr. in Communications
ZASKE, FRANKLIN - from Athens to Pardeeville, Wis. -
Social Studies
ZUKOSKI, HAROLD - from Wonewoc to Fullerton, Cali-
fornia - English

Rural

BRUCHS, RUTH - from Waupaca Co. to Bear Creek, Wis. -
Primary Grade
FRIZZELL, IDA ROSIN - from Waterford to Plainfield,
Wis. - Gr. 1
NELSON, ELAINE - from Hartford to Hancock, Wis. - Gr. 1

Letters and Science Graduates

BOCHER, IRIS (Shawano) - Office Secretary in charge of
case history, Big Sister Assn., Minneapolis, Minn.
CHRISTOFFERSEN, ROBERT H. (Ogema) - Analyst,
Abbott Laboratories, North Chicago, Ill.
DANKE, ALAN (Fremont) - U.S. Army, Honor Guard Com-
pany, Ft. Meyer, Arlington 11, Va.
FOLZ, ALPHONSE (Friendship) - Caseworker I, Adams
County Welfare Dept., Friendship, Wis.
GRAUDEN, DEWAYNE (Merrill) - Food & Drug Chemist,
U. S. Food & Drug Administration
HIGGINS, THOMAS (Marshfield) - Attending Wis. School
of Mortuary, Milwaukee, Wis.
JACOBSON, DAVID (Stanley) - Forest Ranger, Rhine-
lander, Wis. Conservation Dept.
JAKEL, DALE (Stevens Point) - Department of Interior,
National Park Service Division, Coulee Dam Recrea-
tion Area, Kettle Falls, Washington.
LODZINSKI, FRED (Stevens Point) - Attending Institute
of Paper Chemistry, Appleton
MILLER, JERRY (Neenah) - Safety Engineer, Employers
Mutual, Wausau, Wis.
POLIVKA, THERON (Grand Marsh) - Management Asst.,
Internal Revenue Serv., Chicago, Ill.
RANK, DONALD (Manitowoc) - Claims Representative,
Dept. of Health, Education & Welfare, Port Huron,
Mich.
THURSTON, JAY (Loretta) - Finance Representative,
First Credit Corp., Milwaukee, Wis.
VANDENBERGER, THOMAS (Arpin) - Lab. Asst. in
Chemical Analysis, Sund Strand Aviation Division,
Rockford, Ill.
WAGNER, BEN (Appleton) - Equitable Life Insurance Co.
of Iowa
WAZENICK, JAMES (Stevens Point) - Switchman, Soo
Line Railroad, Stevens Point, Wis.
WIGHTMAN, CHARLES (Stevens Point) - Forest Ranger,
Spring Green, Wis.

Main Lounge — College Union

The Main Lounge is a Haven in the Storm for many — It provides a quiet atmosphere, with soft sofas, deep easy chairs, lighting which is never too bright and is located out of the way of the general campus rush. The Lounge is also used for receptions and teas. A nearby serving pantry is available for these.
