## WHAT WORKERS AND BOSSES WANT

### **I Want A Boss:**

- who is cheerful.
- who wants me to work for him.
- who helps me when I am new to get acquainted with my job.
- who explains to me just what my job is - just what I am expected to do.
- who tells me frequently how I'm getting along - what I do well and what I don't do well - who shows me how to do better.
- who not only thinks of me for what I am but also for what I may become.
- who takes a personal interest in me and my problems.
- who listens to my ideas for making the job easier and better.
- who stands up for me when I am right.
- who is honest with me.
- who tells me about changes before they are made.
- who has a personal faith and confidence in me.

I WOULD DO MY BEST FOR A BOSS LIKE THAT ! !

YOU WOULD TOO ! !

### **I Want A Worker:**

- who likes his job.
- who knows his job.
- who keeps himself physically fit.
- who wants to do a day's work for a day's pay.
- who wants to get ahead.
- who is always on the job unless excused.
- who is cheerful.
- who works safely - with due consideration for himself and his fellow workers.
- who gets a bang out of a job well done.
- who tries to avoid waste and cut costs.
- who looks for a better way to do the job.
- who tells the truth; who is sincere.
- who gripes little and looks forward.
- who keeps a spirit of teamwork.
- who asks questions when he needs help.
- who is willing to face his personal problems squarely.
- who tries to put himself in my place now and then.
- who feels that his job is a privilege - not a right.

I WOULD GIVE A WORKER LIKE THAT MY BEST ! !

YOU WOULD TOO ! !

# The State of Wisconsin

WISCONSIN STATE COLLEGE

STEVENS POINT

Greetings to Alumni.

We are about to open a new college year at Wisconsin State College at Stevens Point and there are numerous changes underway as well as quite a few that have been completed since a year ago.

You will recall that we moved into our new physical education facilities in the fall of 1960. During the past summer we have been remodelling the old gym space in the main building and also the lower corridors and other areas in the building. The next time you visit this building you will have an opportunity to get lost in it because there will be rooms and corridors which you have never seen. We will have four classrooms on the basement level of the old gym and two fine classrooms on the first floor level of that space, as well as four offices for about seven or eight faculty members. There will also be a new information center on the first floor which will include the telephone exchange for the college. During the past three years that switchboard has been in Nelson Hall. Some time this year it will make its appearance in the main building near the main entrance to the building, on the first floor. The remodelling this summer will also improve the ventilation and heating of the college auditorium. You will say that this has been badly needed, because the auditorium always got too warm before the end of a program or performance.

Within the past week we have broken ground for the construction of a new men's dormitory which is to house a little over four hundred men. It is an "L" shaped building and is to be located on the east side of North Reserve Street, just across the street from the physical education building and south of Moses Creek. This will be about a million dollar project. As you know, this is not built out of taxpayers' money, but is built to be paid for out of the revenues from the building, as was Steiner Hall and as was also Delzell Hall. In fact, Nelson Hall is also helping on that program, although it was built almost fifty years ago. When the dormitory is completed by September 1962 it is planned to have women occupy Steiner Hall and Nelson Hall and men occupy Delzell Hall and the new dormitory. Eventually additional dormitory space is being planned for the area on North Reserve Street which will ultimately make the present dormitories all available for women, Nelson Hall, Delzell Hall and Steiner Hall.

Our next important project is a science building which will be a two million dollar building, with about 100,000 square feet of floor space. Plans are about complete on this building and it is likely to be under construction by late winter or early spring of 1962. It will be about ready for occupancy in September 1963. This building will house the biology, physics, chemistry and geography departments. Our present plan is to construct this directly across Fourth Avenue from the new physical education building. This will be a first step in the plan to combine the new north campus and the old campus. Eventually enough land will be acquired in that area to connect these two campuses.

There are also many changes in the faculty for 1961-62. About nine additional faculty members are being added and at least as many have been employed to replace some who have left or are on leave of absence. A complete story on these changes will be found elsewhere in this Alumni Newsletter.

Come back at Homecoming this fall, it'll give you a good opportunity to see what is under way and to familiarize yourself with the campus so that you can keep up with the changes. Our best wishes to you for a successful year in your present assignment.

*Wm. C. Hansen*  
Wm. C. Hansen  
President

# CSC Staff Increased To Meet Enrollment

Nineteen new faculty members will meet with their classes September 7 when Central State College begins its 67th year. Of this number eleven will find the places of those who have resigned or retired. Eight have been added to the staff to meet the needs of increasing enrollment.

Dr. Paul Bennett, formerly of Arizona State University in Tempe, will come to CSC as associate professor of English. Dr. Bennett's A.B. degree is from the University of Akron, his M.A. and Ph.D. degrees from the University of Pennsylvania. He succeeds Miss Donna Schaefer.

Miss Irene Gray of Grand Junction, Colo., a graduate of Black Hills Teachers' College and the University of Wisconsin, where she was awarded an M.S. degree, will be an associate professor of English and speech in the Campus School.

Dr. Rhys W. Hays, formerly of Queens College in Flushing, N. Y., will serve as assistant professor of European history. His degrees are from Columbia College, Union Theological University and Columbia University.

Mrs. Ceil Gmahling Kelly, formerly of the Mississippi State College for Women at Columbus, will be an assistant professor in the journalism department. She will also fill the post of director of publicity. She received her A. B. degree from the University of Wisconsin and the M.A. from San Diego State College in California.

An assistant professorship in the department of business education will be filled by Donald Koeppen. Formerly a member of the faculty at Wisconsin State College in Whitewater, he received his B.E. degree from that college and his M.S. degree from the University of Wisconsin.

Miss Hazel M. Koskenlinna of Madison and formerly a teacher at Washington Park High School in Racine, will be an instructor in English at CSC. Miss Koskenlinna earned her B.S. and M.S. degrees from the University of Wis.

Gregory Kulas will come from Marquette University in Milwaukee to instruct in the physics department. His B.S. and M.S. degrees are from Marquette. He succeeds Francis Schmitz.

A new instructor in the department of mathematics will be Matthew Liu who has been a member of the faculty at the Illinois Institute of Technology. He replaces Mrs. Doris Epple. His B.S. degree is from Lafayette College and his M.S. from the Illinois Institute of Technology.

From the University of Minnesota will come Arlo E. Moehlenpach, who will be an instructor in chemistry. He holds the bachelor of science degree in chemical engineering from Washington University in St. Louis, Mo., and an M.S. degree from the University of Minnesota.

James G. Newman, formerly of the University of Akron in Ohio, will instruct in the department of conservation. He was graduated from Michigan State College with a B.S. degree and received the M.S. degree from the University of Akron.

Mrs. Frances Norton, formerly of Cornell College at Mt. Vernon, Iowa, will join the CSC faculty as an assistant professor in the psychology department. She was awarded the A.A. degree at Kansas City Junior College, the B.A. and M.A. at the University of Kansas City, and the Ph.D. from the University

of Iowa. She succeeds Ralph Holmberg.

Dr. Alice Peet of Mt. Union College in Alliance, Ohio, will join the English department as an assistant professor. She holds the B.S., M.A. and Ph.D. degrees from the University of Wisconsin.

Dr. Joseph J. Rondy, formerly of Murray State College in Murray, Ky., will join the English department at CSC as an associate professor. After having been awarded the Ph.B. degree at St. Viator College, he received M.A. and Ph.D. degrees from the University of Illinois. He succeeds Miss Parichehr Kasra.

Miss Carolyn Ann Sands, formerly of the University of Minnesota, will come to CSC as an instructor in related arts in the home economics and elementary art departments. Her B.S. degree is from Iowa State University and her M.S. degree is from the University of Minnesota.

Joining the chemistry department as an assistant professor will be Dr. Robert Weaver of Madison, who has been a member of the faculty at the University of Wisconsin. His B.S. degree is from Wesleyan College of West Virginia, his M.S. and Ph.D. degrees from the University of Maryland. He fills the position formerly held by Aamund Salvesson.

Dr. Jerry Yao, formerly of Montana State College in Bozeman, will be an assistant professor in the chemistry department. His B.S. degree is from National Peiping University in China and his Ph.D. degree is from Montana State College. He replaces Rodney Sung.

THREE NEW FACULTY MEMBERS IN MUSIC have joined the staff for this coming year.

Dr. Joseph Work, a violist recently of Ann Arbor, Michigan, will instruct classes in stringed instruments and Theory. His bachelor and master of music degrees are from the Eastman School of Music and the doctorate in music is from the University of Michigan.

Thomas Fitzpatrick will come from the Cosmopolitan School of Music in Chicago to instruct in the music department. His A.B. degree was earned at St. Ambrose College in Davenport, Iowa, and his B.S. at the Juilliard School of Music in New York City. He replaces Wendell Orr.

Formerly of the Conservatory of Music at Cincinnati, Benjamin F. Wiant will come to CSC as an instructor in music. His bachelor of music degree is from Ohio Wesleyan University.

## **Introducing The New Chairman,**

### **Business-Teacher Education Dept.**

The college is pleased to announce the appointment of Mr. Donald Koeppen as Chairman of the newly formed Business Education Department of the college. For the past 5 years Mr. Koeppen was a member of the faculty in the Business Education and Business Administration Division of the Wisconsin State College, Whitewater. He is continuing his graduate work and is presently a candidate for the doctors degree. Prior to joining the staff at Whitewater he taught for several years in Wisconsin high schools.

With the appointment of Mr. Koeppen to the faculty, introduction of the business skills subjects is assured for the 1961 fall semester.

# Tau Gam Page

Last November a Newsletter was issued to inform you of our decision to publish a Tau Gam page in the C.S.C. Alum News Bulletin.

This meant we would dispense with the Gab Board temporarily. For those of you who didn't receive the Bulletin — you may wish to know that the Alum Association has presented a gift of silver candelabras to the Actives in memoriam of Mrs. Winifred Spindler. I understand that plans are underway to have our own sorority house second semester of next year. This is certainly something for the actives to look forward to. It is our hope that the sorority house will bring our actives and alums closer together. We have shared a great deal in the past — let this be an even stronger bond.

Plans for homecoming will be made soon. After taking a poll of last year's graduating seniors, I find that most of the girls would like a social and business get-together before the parade. Once the day begins we seem to all be off in different directions. If this is the desire of the majority, it will be scheduled thus. Your own wishes on this matter will be welcomed if you would care to write me a note. I am in hopes that each of you will make an effort to attend. You will be notified as to the time and place of the meeting at a later date.

Until October . . .

Sincerely,  
Karen Beebe Engelhard, President  
T.G.B. Alumni Association

## Editor's Note

The Editor of the Alumni Newsletter has established a policy of inviting alumni of the college to prepare guest articles to be included in each issue of the Newsletter. Three alumni have been invited to prepare an article for this issue.

1. Mr. Robert Schunk, who is currently a member of the Guidance Division of the Department of Public Instruction at Madison. Bob and his wife Alice are 1942 graduates of the college. Both have earned enviable records in the classroom and as guidance counselors. Their record of the number of students they have encouraged to attend this college is one which should be a real satisfaction to them. The college is indeed proud of both Bob and Alice.

2. Russell Way and his wife, Lorraine attended this college and Mr. Way graduated in 1936. Russ has made a very outstanding record as a teacher and school administrator. He has moved up the professional ladder through outstanding services as an administrator in such schools as Manawa, Merrill, Wynona, Minnesota and now Green Bay. He is one of the administrative leaders of the state at the present time. The college is proud of the record of Russ Way.

3. Harry Jones

## WHAT CENTRAL STATE MEANS TO ME

Time races by all too rapidly and it is most difficult to recall all of the incidents and details that have been a part of our lives. I feel that this statement is quite true about most things, but not for me when it comes to Central State College.

It seems like yesterday, but it was actually twenty-one years ago this fall that I enrolled at what was then called "Central State Teachers College." Since I was raised on a farm outside of the city of Marshfield, this was my first experience away from home. It was then that I began my first association with the school that has a "heart." No problem too large or too small was ignored by our Dean of Boys, Mr. Steiner, who willingly gave of his time to help each freshman with many of his personal problems. Miss Sue Coleman was the freshman English teacher at the time, and it was she who really helped this green freshman over the "hump." Mr. Knutzen helped more than once to "hear out" this very lonesome boy. Doc Tolo was more than a teacher and friend for he was a true counselor. The door to his office was never closed. Mr. Schmeeckle talked the same language that I did, and we spent many happy hours on trout streams together. Even the president of our college, Mr. Hansen, knew this insignificant frosh by his first name and never hesitated to offer a hearty "hello Bob" when I met him in the halls. There were many more instructors who helped this bewildered farm boy to adjust to the new way of life at college, such as our own Mae Roach with her wit and Irish humor, Dean Pfiffner who helped keep my "affairs" straight, and the fine football coaches, Mr. Kotal, Mr. Berg and Mr. Quandt who coached me. There were other instructors, including Miss Glennon, Dr. Lyness, and Mr. Jenkins, who provided encouragement and leadership in helping me to achieve my goal.

Many experiences and opportunities have come my way since those early college years at Central State - four years of service in the AAF, graduate study at the University of Tennessee, Northwestern University and the University of Wisconsin, scholarship work at Ripon college, fourteen years of classroom teaching in the high schools of the state of Wisconsin, but even today when I have the opportunity to come back to CSC, President Hansen is still there with his hearty "hello Bob," and Dr. Gotham still finds time to discuss job opportunities. Even though Mr. Schmeckle lives in Eagle River, we still get together to talk over our great outdoors. Dr. Tolo has since passed away, but right up until that time his office and home were always open to me. Mr. Knutzen's ready smile still prevails and his offer to allow me to sing with the Men's Glee Club from time to time warms my heart deeply. Miss Roach always makes the reunion at Teachers Convention seem like "old home week."

Time has changed the faces and personnel of the faculty at Central State College, but time has not changed the warm personal touch and intimate feeling that still exists there. You are never just a registration number to Central State and its faculty; you are an individual, a personality and they have a genuine concern for your well being. To me, Central State College will always have just a little something that other schools seem to have lost in their struggle for growth and expediency.

So as I close my brief memories of my Alma Mater, I can't help but bring to your attention again that I will always be deeply impressed and indebted to Central State College, its fine president and the faculty, the splendid background and training that I received for the teaching profession and especially the kindness, warmth, and personalized interest that was shown me during my undergraduate studies there.

Robert N. Schunk

## **GREETINGS** to Alumni of Central State !

It is a real pleasure to have the privilege of extending such a greeting via this bulletin. We, old timers, are especially pleased, and proud, to welcome the more recent grads to our ranks and hope that you will take a truly active part in the activities of our Association and give your support to further development of Central State. You've earned this privilege and our College is deserving.

To reminisce would be unforgivable, though it would be easy to do. Rather, just a serious thought in these anxious times. While many may not be actively employed in education, the great majority perhaps are parents. Whatever our role, we do share a common responsibility - to strengthen our American way of life and the freedoms we enjoy. Would it be too trite to suggest that our foremost approach lies in the assurance of a strong program of education for our children and youth? We need alert and personable young men and women in ever greater numbers, well prepared, to staff our classrooms. We, as alumni, can help in various ways to foster a strong program of recruitment of such prospective teacher candidates.

As I have the frequent occasion to return to the campus, I am both amazed and thrilled at the changes so much in evidence. The library, the union, the physical education building, and other fine structures are testimony

to the progress being made. Congratulations are certainly in order to outstanding staff for their leadership and aggressive direction. As we join with them in their effort through active support, our first concern for children and youth will be realized.

Again, sincere greetings and best wishes.

RUSSELL S. WAY  
Superintendent of Schools  
Green Bay, Wisconsin

September 13, 1961

## **WHAT IT MEANS TO BE WEA PRESIDENT**

May I state first of all that I have enjoyed serving the teachers of Wisconsin this past year as president of the Wisconsin Education Association. It has been a great honor, given me many experiences that I will always remember, and given me a much better picture of the problems facing our profession.

I know that all of us as teachers have many meetings to attend but as president of the WEA I faced a myriad of them. These meetings generally fell into two categories; those that it was my responsibility to attend and those I attended if possible. In the first category priority was given to Executive Committee meetings. These are the meetings that the president presides at and where decisions are made implementing the directions of the Representative Assembly. These are held as often as necessary during the year generally in either Madison or Milwaukee. Another committee meeting that I feel is a must to attend is the Council on Education. This committee decides on the WEA stand on state and Federal legislation and meets five or six times during the year.

Another section of this first category are the committees I am on representing the WEA. One of these is the state Teps commission which represents all facets of Wisconsin education. This committee deals with the problems of professionalism. Other committees are the University of Wisconsin Schools of Education advisory Council and the committee of State Association Presidents and Executive Secretaries.

Also in this category are meetings held generally out of state where I represent the Wisconsin teachers. The NEA convention at Atlantic City highlighted by the fact that a Wisconsin teacher was president will probably be most memorable of these to me in the future. Not only was I able to do my bit in making the decisions that came from that meeting but I was a part of the actual proceedings of the convention. Another meeting that stands out in my mind is National Conference on Citizenship held in Washington D.C. This conference attempts to discover means of improving our citizenship. One of the highlights is the taking of the oath of allegiance by a group of newly naturalized citizens. I think the thing I shall remember longest about this conference was that I was the only representative of Wisconsin education there. Other meetings I have attended are School Administrators in St. Louis, NEA conference on Finance in Minneapolis, and State School Boards convention in Milwaukee.

The second category of meetings are those I attend if possible. This doesn't mean they are any less important than the ones already mentioned but the limitations of time and distance prevent me from attending. The largest group in this category are the meetings of the standing committees other than

the Council on Education. There are seven standing committees in all with each committee meeting from three to six times a year. I have been able to get to at least one meeting of each committee during the year. I certainly enjoy the association with the members of each committee.

Another group in this category are the local president's meetings held in spring and fall. These meetings are held for leaders of local associations in order to bring them up to date on what their state association is doing. Any state association is only as strong as its member locals so these meetings are most important. They are arranged in various sections of the state so that all locals will be within reasonable traveling distance. I attend as many of these as possible within time limitations as they are held on consecutive nights in various areas of the state. Probably right here would be a good time to throw in the information that a WEA president does not have a released year in which to carry out the duties and responsibilities of the office. Each president has a full time teaching position to fulfill. This means that attendance at many of these meetings depends upon whether or not I can get there if I leave school at 3:30.

One of the major events in a president's year is the annual convention in Milwaukee. Planning for this event must start in January in order to secure the speakers desired. Deciding on the speakers was my responsibility with suggestions and advice coming from the members of the Executive Committee. This becomes quite a project when all the brochures come in from speakers' bureaus. With the number of speakers available the final choices usually boil down to those someone had heard and liked, to those who have made outstanding contributions in their field, and to the money available. After the choices are made then the executive secretary takes care of the correspondence and other necessary details. The efficiency of our Executive Secretary and his office staff makes the president's job much easier. Work on the convention is usually completed by mid-September until the convention time arrives in November. At the convention I will be presiding in the Arena both days and at the Representative Assembly Thursday afternoon. I will have to introduce the Thursday nights entertainment and will be attending various other meetings. The convention is the climax of a president's year as the term of office ends December 1.

The association with so many fine people dedicated to education has been most stimulating and rewarding. It would be difficult to say what experiences will assume paramount position as time goes on. I daresay I shall remember all of them and be richer for it. I would be derelict if I didn't mention the part my family played this year. They were very patient in their understanding that I had to be gone almost every weekend during the school year. Once again, I have enjoyed serving as president of the Wisconsin Education Association.

EDITOR'S NOTE: Harry W. Jones is currently principal of the John Marshall Elementary School in Wausau. He was elected president elect of the Wisconsin Education Association in November, 1960. He assumed the position of president in September, 1961. Mr. Jones is a native of Rhinelander, who completed the Oneida County Normal in 1936 and began teaching in the rural and state graded schools in Oneida County until 1942. Through summer sessions and extension courses, he completed the requirements for his bachelors degree in 1947. He has been a teacher, assistant principal, and principal in the Wausau school system until the present time. He received his masters degree from the University of Wisconsin in 1951. Harry has responded to our request for a guest editorial, which we are sure will interest News Letter readers. We are very proud of the splendid professional record of Harry Jones and his outstanding leadership in the field of education. He, too, is one the college respects and admires not only for his fine records but for his continuous support of the college.

## **Institute for High School Teachers of History**

July 17 - 19 the History Department in cooperation with the Service Center for Teachers of History of the American Historical Association held an institute for high school teachers of history. All sessions of the institute were held at the College Union, except for one public lecture in the auditorium. The subject of the conference was "American Foreign Policy, Retrospect and Prospect." Twenty-two teachers of high schools located throughout the state participated in the institute. Three visiting historians, nationally recognized as experts in the field of diplomacy, participated as leaders in the institute. They were Professor Wayne Cole of Iowa State University, Professor Alexander DeConde of the University of Michigan, and Professor William A. Williams of the University of Wisconsin. All members of the History Department of Stevens Point participated in the leadership of the conference.

THE POPULAR "SNACK BAR" IN THE NEW COLLEGE UNION

## **COLLEGE UNION REPORTS**

The College Union continues to become the true "family room" of the campus as it finds its place amongst the various campus functions and organizations.

The goals of the Union are to provide the center for the social, recreational, and cultural events on the campus; to provide the facilities, services, and conveniences the students need in their daily campus life, to encourage their self-directed activities, and to try to make their free time a co-operative factor with their studies. In this way we hope to help in the development of the person as well as the intellect.

The past year, the second year for the Union, saw many "firsts", many activities which were all directed toward the goals mentioned above. The Winter Carnival (which you may have seen written up in the Milwaukee Journal), several wonderful dances, the Harry James concert (which was sponsored by the sophomore class), and many others.

The Outing Club of the Union Board had a very successful year. Several trips to Rib Mt., as well as a week-long trip to the Iron Mountain area. In spite of the lack of snow generally, they sought it out and had a great time. The club now owns twenty bicycles (including two tandems), twenty pairs of skies and brots, three king-size tents and all the miscellaneous equipment it takes to make it "a real going" organization.

A special plea to all alumni — If any of you are in the resort areas and know of good locations for the Outing Club, they would appreciate hearing from you. Ski hills - white waters - good camping areas, etc. are always in demand. Just drop a line to the Outing Club % College Union.

Several of the alumni have written asking if there was something the Union needed that they could give or contribute toward. While I like the idea involved, I don't feel I should solicit your hard-earned monies. We have drawn up a master priority list of things we could use (a newspaper and magazine rack for the lounge, another microphone for the speakers' podium, etc.) and if any of you are so inclined I will be happy to send a copy of this list to you. A note to the Union Office will bring a prompt reply.

The Union's Food Service Department is also becoming more acclimated to the campus needs and wishes. A new modern bakeshop was added last winter, additional equipment was purchased for the teas, luncheons, and banquets which are so popular, and the student employees have become accustomed to the new type of service.

If you haven't had an opportunity to visit the Union since you've left Central State, or if you haven't attended one of the many conferences and workshops which are held here each year, we cordially invite you to stop in when you are in the area. You'll probably be surprised!

For those of you returning for the Homecoming Game on October 14 — the Union Board has a full week-end of activities planned that should interest all ages.

The campus is becoming used to the Union, its services and functions and the Union is getting to know the needs and desires of the campus. It's beginning to achieve the goals which you — the former students — looked forward to. It is through your efforts that we have a facility such as this. I know that the students who are presently enrolled (when they take time off from their busy schedules) think often of those of you who had the foresight to start the fund rolling.

I've often been asked what I feel the most important role of the Union is. My most frequent answer is that it provides an area and a staff to direct and encourage the services and amenities for the students which they need in their daily life on the campus and for getting to know and understand one another through informal association out-side the classroom. In the age where our academic staff is becoming more and more pressed for time, they don't see many of their students before 8 a.m. or after 5 p.m. The Union tries to fill the gap left in the rest of the seven or so hours left in each day of a student's life. To this end it is so dedicated.

John Amacher, Director

# Omega Mu Chi

We are back in school again after a nice summer vacation. For the girls who attended summer session, the vacation wasn't very long. This year there were 16 Omegs attending summer school. The school year just isn't long enough for some of us!

We have 37 members this fall. Our president this semester is Lee Huberty. There are quite a few new faces in our group, but I'm sure you'll be able to recognize them as Omegs.

This past summer several Omegs took that "big step." Penny Maahs, Mary Krasny, Lois Draeger, Edwina Sommers, Patt Otto and Nancy Thompson were married within the last three months.

We have begun work on the Homecoming activities. We plan to eat at the Hot Fish Shop this year. Of course, we plan on having a prize-winning float and an Omeg queen. Last year's victories have made us more determined than ever to make this year's activities a huge success.

Our fall tea will be in October. This year there will be only one tea a month. Each sorority will be able to plan their individual teas and there won't be so many conflicts.

Our sorority house will not be ready as we had hoped it would. We wanted to show it off on Homecoming weekend, but that will have to wait until next year.

We are hoping that we'll see many familiar faces October 14 and 15. We are eager to have you meet your new sisters, and we'll try very hard to make the weekend a memorable one for all.

On behalf of Omega Mu Chi Sorority, "Welcome Alumni!"

Jan Bray

Press Representative

## Speech Department News

Our big news in the Speech Department is Miss Alice Peet, our long-awaited technical director. Miss Peet, who has built a fine reputation at the University of Wisconsin Theatre and elsewhere for her technical stage work, comes to us from Mount Union College in Alliance, Ohio. Her career has been an interesting one and has included two years in Chile.

Many of you have heard of our summer theatre tour (1961). Twenty-five people joined Mr. Dawson for the stimulating venture. In the group were some of our alums: Mary Jo Buggs, Hattie Wanta, Helen Van Sant, Lucille Steubs, Martha Lukas, Eldon Gaffney, Hazel Aton. While all reported strong academic gains from the trip as a whole, the Shakespearean plays at Stratford, Ontario, and at Central Park in New York City drew the highest praise. At Stratford, an English actor with the company, Mervyn Blake, lectured and showed the entire backstage facilities. The twenty-nine day study tour allowed some time for sightseeing, of course. We hope to repeat the venture some time in the future. If you would be interested in being part of the group, let us know.

While we are on the subject of travel, we should not fail to mention that the European Study Tour for summer, 1962, is sold out at present, but we are taking names for the "waiting list." There is always the possibility that illness may prevent one or more of the party from going. We shall have 35 days in Europe and will visit France, Switzerland, Italy, Austria, Germany, Holland, Belgium, and England. Some of the group are planning an extension to Scandinavia. Through careful planning we are keeping costs to a minimum. Atlantic travel will be by fast liner. It will be possible to have a few days in New York upon return. Dr. Kroner and I, who will accompany the group, are pleased with the response the announcement of the Study Tour received from alums and current CSC Students. While we cannot guarantee you a place now (we have our 40), we can put your name on the waiting list if you will send us your deposit of \$100. If you'd like further information, write us.

We are making plans for the fall Speech Institute right now. If you are are doing work in forensics and/or dramitics, plan to spend Saturday, October 7 with us. We hope to make the day a very helpful one and shall have a considerable staff on hand to make it possible. Besides Miss Peet, Miss Thompson, Mr. Dawson, Mr. Dowling, and myself, we shall have Miss Gray from the Junion High at the Campus School (fresh from Colorado's forensic program) and several visiting staff members.

When you get to CSC, come in to see us. Meanwhile, feel free to write us, if we can be of help to you.

Best wishes for a rewarding year.

Sincerely,  
Pauline Isaacson  
Chairman, Dep't. of Speech

---

Ronald Hein, '60, joined the Army on March 5, 1961, for six months of active duty. He was discharged on Sept. 3, and will be returning to his position at the U.S. Food and Drug Administration. He and his wife, Emmy Millard, reside at Downers Grove, Ill.

## CONCERNING CSC ALUMS

Mr. and Mrs. Roger Adams (Suzanne Muck, '58), are moving to St. Paul in November where Mr. Adams will be employed at Minnesota Mining & Manufacturing. He will receive his Ph.D. in physical chemistry from the University of Iowa on November 22.

Mrs. Irene Arnold Anderson celebrated her and her husband's silver anniversary in 1960. She returned to CSC in 1955 after 20 years to finish her degree.

Mrs. Patricia (Rickel) Anderson, '55, reports that her husband is in the Research Dept. at Oscar Mayer and Co. in Madison.

William Arnett, '55, reports he is working at Memorial Hospital of Taylor Co., Marshfield, as an administrator. He received his M.A. from the University of Iowa in June, 1961.

Mrs. Anna Louise (Wrase) Baer, '59, has acted as assistant chaperone on student tours to Mexico for the past 2 summers. Both trips were made by automobile and were approximately 5,000 - 6,000 miles in length.

Jerome Boettcher, '54, is the Chairman of the English department at Brookfield Central & East High Schools. For the past 2 summers, he has been teaching English and Phy. Ed. at the Wisconsin School for Boys at Waukesha.

Carol Corliss Baldig, '54, is teaching junior high school at Ripon while being a housewife and mother to two daughters Tracy Lee, 5, and Elizabeth Anne, 2 1/2.

Albert Carl Braun, '51, has traveled extensively through 33 countries, including Czechoslovakia, Poland, Russia, the Middle East, and Holy Land areas. He has taught a year each in Labrador, Upper Heyford, England, and 2 years in Wiesbaden, Germany. This fall he will be teaching in Japan.

Walter Bruseman, '52, received his M.S. degree from University of Wisconsin in June 1960, and is now a math teacher at Jerstad-Agerholm Junior High School in Racine.

Mary Jo Buggs, '59, will have begun her new position teaching English, Speech and journalism at Ripon High School.

Jack Crook, '56, has started his third year of teaching at Shawano. He and his wife, Lou Breymann, '55, live at 307 S. Washington and are the parents of two children, Lisa, 3, and Tom, 1.

Mary Ann Camber Crosby, '59, is teaching second grade at Wausau, while her husband, John, is employed as an underwriter at Employers Mutuals, Wausau.

Mrs. Eleanor Badeen Donaghy, a 1938 Home Ec. major, taught one year at Prairie Farm, after which time she married in 1939. They have lived in Ontario, Canada from 1939 - 1956, when they moved to Minneapolis, where her husband is a manufacturing agent. At present she is substitute teaching in Minn.

Marilyn Eskritt and Gretchen Speerstra, '60, took a five-week tour of the Western States this summer. Marilyn is teaching at Madison this year.

Richard Johnson, '60, has accepted a new position as phy ed. teacher at Shiocton, Wis.

## **OF THINGS BIOLOGICAL - current status -**

The CSC Biology department last year required the fulltime services of eight faculty members. The eight members, with last academic institution attended in parenthesis, include the following: Messrs. Pierson - Chairman (Univ. of Iowa), Barnes (Univ. of Minnesota), Becker (Univ. of Wisconsin), Epple (Univ. of Wisconsin), Simpson (Univ. of Iowa), Swedburg (Univ. of Oregon), Whitmire (Univ. of Michigan) and Wilde (Univ. of Edinburgh).

The number of students enrolled in biology courses during the past year exceed one thousand with approximately 275 enrolled each semester for the two semester general program, 165 registered (over the year) in the one semester program, many in the five sections of Physiology offered and the remainder in other courses.

Eight new courses have expanded biology offerings to twenty-four. The new courses include: Trees and Shrubs, Plant Physiology, Ornithology, Plant Pathology, Embryology, Animal Parasitology, Biological Technique and Seminar. The expansion of offerings has made possible a greater degree of technological training.

Pre-registrations for the fall semester of the 1960-62 academic year have already caused the closing of a number of courses or sections of courses. Space and time limitations necessitate such closure. The large laboratory was in use as a laboratory for scheduled classes 40 hours a week last year. The smaller laboratories were occasionally pressed into service as lecture rooms when not in use as laboratories. The same laboratory was necessarily used for for several different courses, with concomitant difficulties in getting out and putting away material in the ten minute break between classes. The difficulties implicit in lecturing in a room not designed for that purpose are obvious.

The promise of a new Science Building, ready for use in the fall of 1963 offers at least brief respite from problems of space, scheduling and facilities. The approximately \$2 million structure will be erected at the junction of 4th Avenue and Reserve Street, just south of the new physical education building, and will house the departments of biology, chemistry, geography and physics. The biology department will have a long-sought-after greenhouse, a combination Herbarium-Insectarium, a combination Natural History Laboratory-Museum, a laboratory solely designed for Physiology classes (ten sections anticipated), a faculty research laboratory and a coffee pot. The staff will welcome letters from our majors concerning their teaching or work experiences.

Dr. Edger Pierson

Chairman, Biology Department

### **School Head, A. G. Werth, Dies**

The many friends of Arlie Werth were deeply grieved to learn of his sudden death at his summer home on Trout Lake early in August. He had been a very competent teacher and school administrator in Marathon County for many years.

Arlie and his wife, Pauline, who were school mates at Wittenberg, were the parents of a son, Bill, who has just completed three years in the U.S. Navy Band. He is enrolled as a freshman at the University of Wisconsin.

This college is indeed proud of the fine record of one of its outstanding graduates.

## **FROM OUR MEDICAL TECHNOLOGY DEPARTMENT**

Medical Technology majors at CSC increase in number with each successive year. Employment opportunities for graduates far exceed the number of graduates and the market shows no signs of weakening. Nearly thirty high school graduates have indicated their intentions of entering CSC's Medical Technology program this fall and the final number of entering freshmen in this number. Since 31 students from last year have pre-registered, signifying their intention to continue in Medical Technology, the total enrollees will exceed sixty for the 1961 - 62 academic year.

The program offered at this college exceeds the requirements set up by the Registry of Medical Technologists, American Society of Clinical Pathologists and the requirements of the Board of Schools of Medical Technology, of the American Medical Association. As a consequence, CSC is in good standing with these agencies. The program calls for a science-oriented, academically strong student since the curriculum requires 25 credits in Chemistry, 16 credits in Biology, 8 credits in Mathematics and 8 credits in Physics in addition to the general college requirements. Formal academic training at CSC is completed in three years with a fourth year required at an accredited hospital training institution. One advantage to the program at CSC lies in the acceptability of ANY hospital training institution for the fourth year of technical training so long as the hospital is approved for teaching by the American Medical Association. This permits students to train in local hospitals or in hospitals of their choice in any of the fifty states (and Puerto Rico). At the present time our fourth year students are in training in Washington, D. C., Cleveland, O., Chicago, Ill., Rockford, Ill., as well as in Wisconsin hospitals. On completion of the fourth year of training the student is awarded a Bachelor of Science degree if the overall college grade point is 2.25 or above. Passage of an examination issued nation-wide by the Registry, permits the student to practice Medical Technology anywhere in the country.

All CSC students enrolled in Medical Technology are eligible for membership in Sigma Mu Tau (Society of Medical Technologists) with programmed monthly meetings centered around the practice of medical technology. Physicians and specialists present their specialties and an occasional trip to a hospital installation yields further enlightenment on the chosen field of the membership.

High school seniors and graduates interested in this field are urged to visit their local hospital laboratories for direct observation and information on the work of the technologist. Additional information can be obtained from this college. Inquiries should be directed to Dr. Robert Simpson, Wisconsin State College, Stevens Point.

## **POINT MUSIC CAMP**

Last summer the third annual summer music camp for junior and senior high school students was held on the college campus. A record enrollment of 300 students were in attendance.

Course instruction included daily band and chorus rehearsals, music theory, music appreciation, conducting, piano workshop, sectionals, small ensembles and private instruction in piano and voice.

# Marriages

Gloria Jean Richard, '60, and David Cavi, DePere, were married June 24, '61 and are residing at 335 W. Newhall Ave., Waukesha. David is an Electrical Engineer for the Wisconsin Power and Light, Milwaukee, while Gloria is teaching 10th grade English at Waukesha.

Wyona Jeske, '59, and David Marx were married July 22, 1961. They are residing at 611- 16th St.-S., Wisconsin Rapids. Wyona has taught in Marshfield the past 2 years and will teach in Rapids. David is a lab technician at the Biron division of the Consolidated Water, Power, and Paper Co.

Nancy Konkol, '60, and Robert Anderson were married June 6, 1961. He is a 1958 graduate of Wis. State College, Eau Claire. They are now residing at Oxford where both are teaching.

Carolyn Nordlund, '58, and James E. Arthur, were married July 29, 1961. They are residing at 15 1/2 E. Ninth St., Fond du Lac, where Mr. Arthur is an engineer aid. Carolyn will begin her fourth year of teaching at Mayville.

Ronald Hein, '60, and Emmy Millard were married September 16, 1961, and reside in Chicago where Ronald is employed at the U.S. Food & Drug Admin.

The Aikens, the former Alice Jean Allen, '56, are residing at Wausau after their marriage on August 5, 1961.

Roselyn Cobb, a '61 Home Ec. major, is now Mrs. Allan P. Cobb as of July 8, 1961. The Cobbs reside at 745 Landfried Ave., Mosinee.

Dorothy Hanish, '43, and Clifford Craddick were married July 1, 1961 and had a 30 day honeymoon in Europe by jet.

Margaret Worzella, '60, and William Dean Kieffer were married August 12, 1961. The Kieffers reside at Auburndale.

On July 8, 1961, Priscilla Lundberg, '59, became Mrs. James Carlson. The Carlsons reside at 714 Paddock Court, Crestwood 26, Missouri.

Rose Mary Opichka, a '59 Home Ec major, and Jerry Diedrick of Courtland, Minnesota, were married June 5. Rose and Jerry are "at home" in Edgar, where both are teaching.

Mary Susan Eastwood, '59, is now Mrs. Tom Wiesmann as of July 25, 1961. The Wiesmanns reside at Hegibachstr 27, Zurich 7/32, Switzerland.

---

EDITOR'S NOTE: This list is incomplete in that we know of a number of marriages but do not have the details. Will you kindly send us the details of your recent marriage and the names of any others that you may know that have not been included in this list. This is not only of interest to your college friends and faculty, but it will help us keep your records up to date with your new name and address.

## *Support Your Alma Mater*

## The Coaches Corner

### FOOTBALL SCHEDULE 1961

Sept. 9	Eau Claire	T (we won, 38 - 13)
16	Lakeland	H (we won, 39 - 0)
23	Oshkosh	T
30	Whitewater	H
Oct. 7	Stout	H
14	U of Wisconsin Milwaukee	H
21	Platteville	T
28	River Falls	T
Nov. 4	La Crosse	T

### The Alma Mater

Other schools of valor boast,  
Of victories galore,  
Of laurels never lost,  
Of triumphs by the score.  
Let them tell you of their prowess,  
Of warriors strong and bold,  
But their colors ever lower  
To the purple and the gold.

To the banks of old Wisconsin,  
When years are past and gone,  
As schoolmates we have parted,  
Our lessons all are done.  
We'll return and show our comrades,  
We're loyal as of old,  
And cheer them on to victory  
'Neath the purple and the gold.
