**WISCONSIN STATE COLLEGE**

**Stevens Point, Wisconsin**

## **Chemistry - Physics Dept. Receive Joint \$12,000 Grant**

A grant of \$12,000 has been received from the Atomic Energy Commission (AEC) to equip a radiation laboratory in the Science Building.

The chemistry and physics departments applied jointly for the grant on Nov. 8 in order to provide experimentation relative to radiation in elementary and advanced courses in physics and chemistry here.

Included in the equipment will be a neutron howitzer which will enable experiments to be carried on with the neutron, and some precision instruments used for energy measurements relative to different kinds of nuclear radiation. The radio-active materials will be provided by the AEC and will be kept in a lead safe in the Science Building for safety and protection.

Having received the grant, a year course in atomic and nuclear physics is being planned which will include 16 experiments throughout the year. Nuclear experiments will also be used in physical chemistry, bio-chemistry and analytical chemistry.

Medical technology, pre-medical and pre-dental students will also be given laboratory assignments concerning the use of radiation instruments. Also included under this program will be a course for non-science majors which is intended to provide for a better educated citizenry.

Until now, the physics department has been limited to demonstrations and minor research because of the lack of equipment.

Sixteen students have graduated from WSC with physics majors since a physics major was first offered five years ago. One of the 16 graduates has received his M.S. degree, and three are now in graduate school working for their Ph.D. degrees.

In the chemistry department, 93 students have graduated with chemistry majors. Twenty-five of the graduates went on to graduate school, and of these nine have received M.S. degrees, five have received Ph.D. degrees, and 11 are still in school. Twenty-three of the total graduates are teaching in high schools, while 25 are commercially employed.

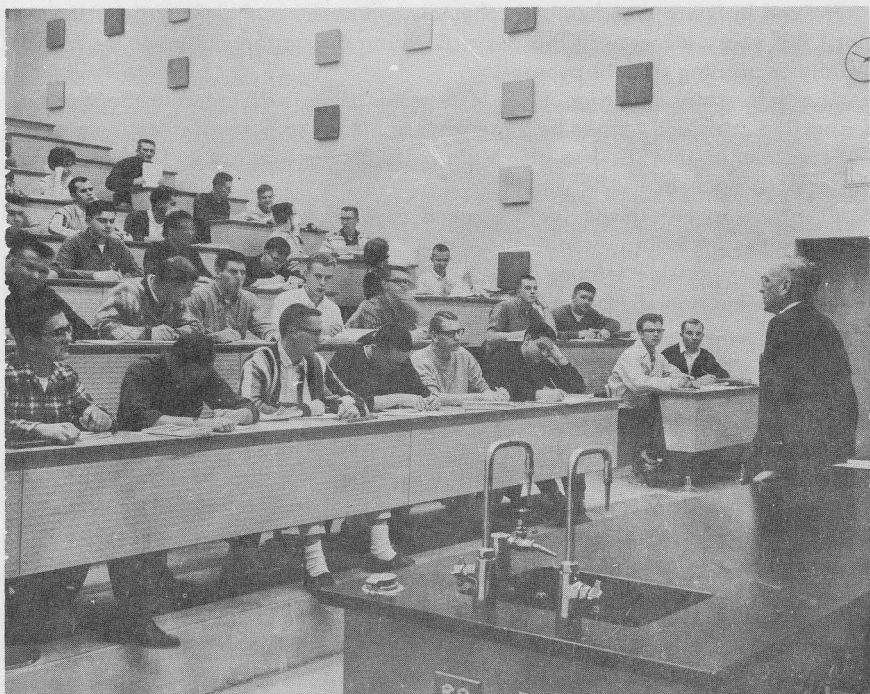

In the physics and chemistry departments, combined, 24 per cent of the graduates have gone on to graduate school and successfully pursued graduate studies.

Several faculty members of WSC are qualified to supervise the nuclear experiments that will be performed. The instructors in the chemistry department are Lawrence G. Kallander, Ph.D.; Oliver A. Andrews, M.S., and Robert H. Weaver, Ph.D. In the physics department, Monica Bainter, Ph.D.; Gregory Kulas M.S.; Allen F. Blocher, M.S., and Benedict Oh, M.S. are qualified for such position.

### **POINT CAMPUS CONTINUES TO EXPAND -**

At a recent meeting of the Board of Regents of State Colleges, authority to take options on 19 pieces of property, estimated at a total cost of \$259,000, was granted President Albertson. This property is east of Isadore St., south of 4th Ave. and north of Franklin St. and is needed for the building of a \$2 million dollar classroom with construction to begin around June 1, 1964. Completion is scheduled for the fall of '65.

A new heating plant is to be completed before the '65-66 heating season.

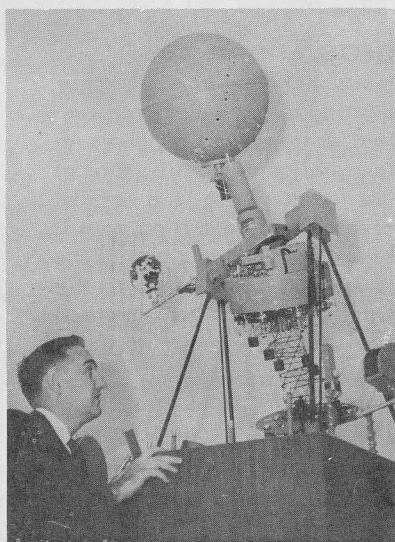

NINE TIERS OF seats provide room for 108 students in the chemistry lecture room in the new Science Building. Dr. Roland A. Trytten, chairman of the chemistry department, is at right.

# Open House At Science Building

Wisconsin State College's newest and proudest teaching facility, the Science Building, was shown to the public Sunday afternoon, November 30.

The size alone is impressive — 110,000 square feet of floor space, equivalent to about two football fields.

The building cost \$2.3 million including movable equipment, land and incidentals.

ONE OF THE MOST spectacular features of the Science Building is a planetarium. Allen F. Blocher is shown with the device which projects the sun, moon, stars and planets on a curved ceiling.

Housed in it are the chemistry, physics, geography and biology departments. Until this year, all were in the Main Building in quarters outgrown by WSC's rapidly increasing student population.

The three-story structure, brick with stone trim, is designed in the shape of a modified cross and topped by a greenhouse. It is the first all-classroom building constructed at WSC since the Main Building was erected in 1894, the year the college opened.

Outstanding are tiered lecture rooms, one of which seats 108 students; 25 laboratories, including a radio-chemistry lab; and a live animal room.

Another impressive feature is a planetarium whose \$14,000 projector displays the sun, planets and moon on a curved ceiling. The projector can show the position of stars thousands of years in the past and into the future.

Visitors were taken through the planetarium Sunday, but because of time limitations the projector was not operated. However, starting the second semester, public showings are planned.

"We appreciate the investment the taxpayers of the state have made in this building," said President James H. Albertson. "It is an investment that will have direct benefits for young people and the state itself over the next 75 years."

Not all the equipment had arrived when the building was opened in September and some of it still isn't here, and this has caused some problems, said the president. But, he added, "these are the pains we enjoy having."

Some of the features of the departments:

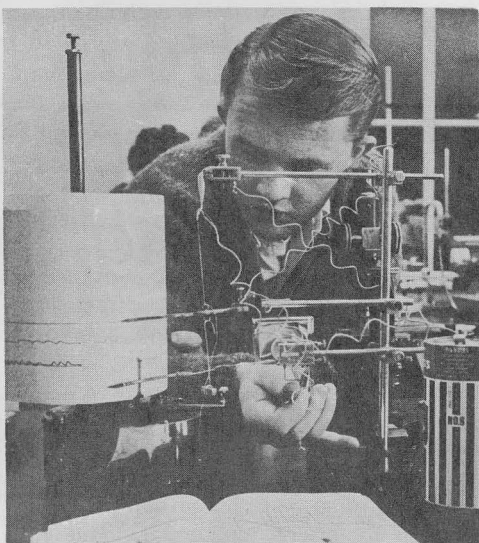

**BIOLOGY** - Two controlled-environment rooms with constant temperatures and humidity where growth experiments and similar projects may be carried out.

- A greenhouse with partitioned-off side rooms where plant pathogens can be used with-out contamination of main stock.

- A museum, photo-laboratory, faculty research room, animal room, seminar room, laboratories, three lecture rooms and office and conference areas.

R. E. Simpson heads the department.

**GEOGRAPHY** - A complex of rooms including a cartographic drafting room, a map reproduction laboratory and air photo interpretation facilities. One of the features here is a vertical copy camera permitting maps to be reduced or enlarged. The three-room complex allows students to carry research projects from the data-gathering stage, through the process of drafting maps, to the final print stage. The cartographic unit is a training facility for students in other fields, including biology and conservation. "The facilities also offer faculty opportunities for assistance in the preparation of research and manuscripts," said Robert T. Anderson, chairman.

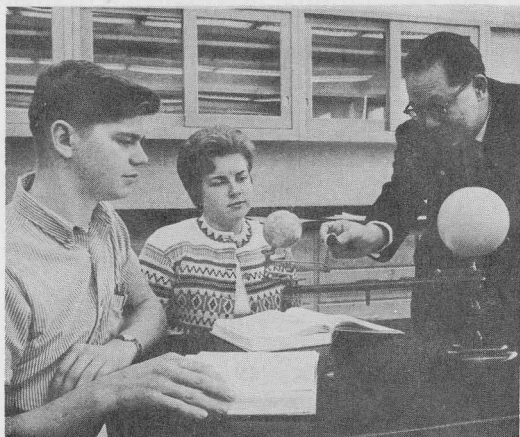

DALE HOPKINS of Stevens Point electrically stimulates a section of frog muscle in a physiology class in the Science Building.

— A weather display linking instruments to indicators in a weather shelter on the roof; a flat map room with space for 20,000 maps; a faculty research room; and three laboratories.

**PHYSICS** — The planetarium with its Spitz projector; expanded laboratory and classroom space; optics darkrooms; tiered lecture rooms; and telescope facilities on the roof for teaching astronomy.

MOVEMENTS OF THE earth, moon and sun are explained to Douglas Sommer of Beloit and Karen Holleen of Stanley by Dr. Chang of the geography department.

— A radio-chemistry lab, shared with the chemistry department and furnished through a grant from the Atomic Energy Commission.

— A Foucault pendulum, gift of the Dr. Wayne Cowan family. Dr. Cowan's widow lives at 432 Prais St. The pendulum, which has not yet arrived, will be suspended through three stories. A weight hung from a wire will swing constantly in one direction, but because of the earth's revolution its plane of swing will appear to shift during the day. It will serve as a clock, much in the manner of a sun dial, and will also have practical applications in the teaching of physics.

**CHEMISTRY** — A tiered lecture room seating 108, complete with demonstration and projection facilities. The demonstration desk is equipped with steam, hot and cold water, direct and alternating current and fume hood.

— Three quiz-discussion rooms, each with a demonstration desk.

— A stockroom with adjoining acid vault and volatile solvents vault.

— Six laboratories, with student stations equipped with electricity, gas, compressed air, hot and cold water and steam; a modern instrument room with adjoining darkrooms; and the radio-chemistry lab, shared with physics.

Dr. Roland A. Trytten is chairman of the chemistry department.

The college committee which aided in planning the building was headed by Dr. Edgar F. Pierson. Other members were Gilbert W. Faust, Trytten, Miss Bainter and Anderson.

The architect was George Foster of Foster, Shavie and Murray, Wausau.

The Science Building is one of two major structures completed this year on the WSC campus. The other is Hyer Hall for women on N. Reserve Street, scheduled to be dedicated December 8.

Under construction in the same area are two residence halls, May Roach Hall for women and E. T. Smith Hall for men, and a food service building, the Bessie May Allen Residence Center.

## POINTER ALUMS

WAYNE H. GALLER, '59, has been named elementary principal at McFarland, Wis. Mr. Galler, who received a Master of Science Degree in school administration and supervision at the University of Wisconsin in 1960, has been elementary principal at Marshfield's Washington School for the past three years.

The new administrator of Southern Door School District in Wisconsin is HERMAN W. LAATSCH, '40. Prior to this appointment, he headed the Kickapoo Area Schools since 1961. Before this, he was administrator of the Elroy-Kendall-Wilton District. He also taught and supervised at Aniwa Graded School, Bancroft Public School, Mountain High School, Oostburg Public School, and Plymouth High School. Mr. Laatsch is married and has a grown daughter.

A 1959 graduate of WSC, Stevens Point, SHERMAN IVERSON, was ordained into the ministry of the American Lutheran Church. He was graduated from Luther Seminary in St. Paul. He is married to the former Evelyn Loberg; they have three children, Lori Rae, 8, Lynn Marie, 7, and David Karel, 2. Mr. Iverson has accepted a call to serve the Lutheran Church in Hazard, Nebr.

Two Point graduates, MRS. EUGENE (NOBLE) FICK, '49, and MRS. PAUL DRAKE (ETHEL McDONALD), '38, received art honors at the Fall Art Festival, sponsored by the Town and Country Art League at Stevens Point, Wis. Mrs. Fick's winning water-color was titled "Snowbound on Peck Street," received the top honor. Mrs. Drake's oil, "On the Linwood Road," received 2nd place.

THEODORE DOWD, '51, has been named principal of the Vesper Elementary School. He holds a master's degree from Colorado State College, and has just completed his ninth year of teaching in South Milwaukee. He is married and the father of four children.

Appointed as chairman of the elementary education area at Northern Illinois University, DeKalb is DR. WALLACE J. WHEELER, '40. He earned Master of Arts and Doctor of Education degrees from Northwestern University, Evanston, Ill. After his graduation from SPSC, he taught in Readstown and Winneconne, and then served as principal and teacher at New London. He served in the Army during World War II, and then spent 15 years in the Waukegan, Ill. school system before joining the faculty of NIU in 1960. He is married and the father of four children.

CLIFFORD LARSON, '41, recently received his Master's Degree in education administration from the University of Wisconsin-Milwaukee. He is Superintendent of Schools for Portage, Waushara, Adams and Marquette Counties.

DR. DELL C. KJER, '42, has been elected Vice President of kindergarten education for the 99,000 member Association for Childhood Education International. He is on the North Texas State University, Denton, faculty. He joined the staff there in 1950. Dr. Kjer graduated from WSC, Stevens Point, and received his doctors and masters degrees from George Peabody College for Teachers, Nashville, Tenn.

Living at 6981 Whitby, Garden City, Michigan are JOHN L. SMITH, '46, his wife Virginia, and their two boys, 4 years and 9 months. John received his Master's Degree at the University of Wisconsin in physical education. For the last 3 1/2 years he has been working for Prentice Hall, Inc. His wife is a teacher with a Master's Degree in guidance and counseling.

MORRIS P. ANDERSON, '56, is employed by the Monarch Range Co., Beaver Dam, Wis. as a Division Sales Manager in charge of sales for the southern half of North Dakota. He is married and has two children, Peter, 7, and Mary, 3 months. The Andersons reside at 1008 Lake Ave., Bismarck, N. Dakota.

Serving as Associate Pastor at the First Methodist Church in Appleton and minister to students at Lawrence College is GORDON SORENSEN, '52. After graduation at the Point, he studied at Garrett Theological Seminary in Evanston, Illinois and received his Bachelor of Divinity Degree in 1955. He then served as Pastor of the Methodist Church at Lowell and Juneau, Wis. and from there moved to Beloit where he served as minister of Christ Methodist Church. From Beloit he moved to Appleton where he now lives at 507 East Alice St. He is married to the former DOROTHY THOMPSON, a mid-year graduate of Stevens Point in 1952-53. They have three children, Heidi Kay, 8, Nels Peter, 5, and Mark Gordon, 4.

CAROLYN PRONZ ROSHAK, '46, reports that she returned to the teaching field in 1961. She says, "I teach 15 boys who live at the Milwaukee County Home for Dependent Children. We have a full academic program as well as crafts, gym, woodworking, and music. I teach all except music. My pupils range in C.A. from 10 1/2 to 13, I.Q. 57 - 84, several psychotic, several severe behavioral problems, several mentally deficient." She resides at 1519 S. 34th St., Milwaukee 15, Wis.

FRANK J. KOEHN, '43, was recently appointed as Administrator of the Almond Area Schools. He received his M.S. degree from the University of Wisconsin and has done advanced study at the University of Oregon. He is married to the former MAXINE McGUIRE. They have two children, Frank Jr., 17, and Bruce, 13.

Living in their new home at 1100 Indianwood Drive, Brookfield, Wis. are Mr. and Mrs. James McGavick. Mrs. McGavick, the former PATRICIA GIESE, '55, taught at West Allis following her graduation. In the summer of 1957 she toured Europe with two other Stevens Point graduates, MARIE DORO, '56, and BETTY HOLSTEIN, '56. Her husband, Jim, is an account executive for an advertising agency. They have two children, Coleen Ann, born in Nov., 1959, and Dean Michael, born in March, 1962.

LLOYD MERTENS, '62, was graduated from Officer Training School on Feb. 5, 1963. At the present time he is a student at Aircraft Maintenance Officers School at Chanute Air Force Base. His next assignment is to Amarillo, Texas. He and his wife, Linda Jean, are expecting their first child in November.

Teaching English at Mayville, Wis. is ZORKA (MALESEVICH) FALK, '40. She is married to Arthur L. Falk, a graduate of Ripon College. During 1943-44 she worked at Douglas Aircraft at Long Beach, California while her husband (a Navy man) was overseas. During 1944-45 she was principal and 5-8th grade

teacher at Kekoskee, three miles from Mayville. She retired from teaching to raise her family; Kathy, born in 1947, Margie, born in 1949, and John, born in 1957. In 1961-62 she was called back to teaching at Kekoshee and then taught at the Theresa Public School during 1962-63. The Falks live at 322 Grand Boulevard, Mayville, Wis.

MRS KENNETH SALZWEDEL, formerly KATHLEEN GUELL, '56, reported that she is now retired from teaching and is a full-time homemaker. She has two children, Janet, 3, and Mark, 1 1/2. Her husband, who attended the college in 1955-57, is teaching psychology at Wisconsin State College, Whitewater. They reside at 143 N. Park St., Whitewater.

LOUIS E. SLOCK, who received his B.E. degree from Stevens Point in 1940 and his M.A. from the University of Minnesota, joined the faculty of WSC, Eau Claire, in January, 1944. His position is that of Director of Extended Services, Liberal Arts Placement and Alumni Secretary. He has two children: Rachel, who earned a degree in Medical Technology, and Charles, who earned a degree in education and is teaching in Wausau, Wis.

WILBURT G. RATHKE, '38, reports that he has spent the last two summers as a representative at the American Institute of Cooperation - in 1961 at the University of Minnesota and in 1962 at Ohio State University at Columbus, Ohio - learning ways and means in which all may develop and learn methods to improve cooperation in industry. His address is: 409 Park Ave., Oconto, Wis.

The MYRON J. FRITSCH family and their 17' housetrailer took a six-week (7500) miles trip last summer to the Black Hills, Yellowstone, Seattle, and down the coast to San Francisco. They also visited Reno, Nevada, Salt Lake City, Chicago and then back north and home. Their oldest daughter, Jacqueline, graduated from WSC, Stevens Point and is teaching at West Allis Central; the next daughter, Barbara, was a junior at WSC majoring in German and French; their youngest daughter, Sandra, is in nurses training at St. Joseph's in Marshfield. Mr. Fritsch, a 1935 graduate, taught 9 years at Spencer, was at Medford for one semester, and has been at Owen-Withee for the last 19 years.

REV. MARK SCHOMMER, '54, was ordained to the priesthood on June 1, 1963. He had studied at the De Sales Preparatory Seminary and the St. Francis Seminary, Milwaukee. Prior to his beginning preparation for the priesthood, he had signed a contract to play professional football with the Green Bay Packers. His first season with the Packers was interrupted by a call to military service. He served two years in the Army, 18 months of which were on assignment in Japan. He was assigned to a medical research laboratory and taught English part time in a Tokyo High School. After his discharge from the army, he began his preparation for the priesthood.

JAMES F. FREIMAN, '62, has been appointed as District Scout Executive for the Nicolet Area Council, Green Bay, Wis. He attended a National Training School for Scout Executives at Schiff Scout Reservation, Mendham, New Jersey during October and November, 1962. His new address is: 812 1/2 Carney Blvd., Marinette.

The following information comes from JOHN F. LUCAS, '60: "I taught at Sherman Junior High in Madison, Wis. for 3 years. The summer of 1962 I spent

at the Ohio State University under a National Science Foundation Grant... This year (1963) I received a National Science Foundation Summer Institute and Academic Year Institute Scholarship at the University of Illinois. The program leads directly to the degree of M.A. in mathematics. Two other colleagues from the Point are also in the same institute - RICHARD CUTTS, '60, and C. PATRICK COLLIER, '59. My wife, Shirley, and daughter, Kathryn (4 years), are living with me in the University of Illinois married student housing. This year (1963) my mother, MRS. MARYBELLE C. LUCAS, graduated from the college with the degree of B.S. in kindergarten-primary and has signed her first contract to teach first grade in Mosinee. My sister, MARY AGNES BURANT, '57, and her husband, DONALD D. BURANT, '56, are living at Racine, Wis. with their two children, Margaret Mary and Jeannie. Mary Agnes taught primary in Racine until 1962 and Don is currently teaching 5th grade in Racine. His work on a master's degree is just about complete at the time of this writing." The address of John F. Lucas is currently 1904-C Orchard St., Urbana, Illinois.

ROGER SCHNEIDER, '56, will spend the 1963-64 academic year studying on the campus of Texas A. & M. College on a National Science Foundation grant. He will complete work towards his M.S. degree. Mr. Schneider has been a member of the faculty of Urban Junior High School, Sheboygan, Wis. He completed a term as president of the Sheboygan Education Association and previously headed the Schoolmasters Association of the city. The Schneiders have two sons, Douglas and Ricky.

JUDITH UNGRODT, '61, spent a year at the Eastman School of Music of the University of Rochester in Rochester, New York, from which she received the Master of Arts Degree in music theory in 1962. This year she taught piano at Dr. Martin Luther College in New Ulm, Minnesota. In September, 1963, she is returning to Eastman for two years of study toward a Doctor of Philosophy Degree in music theory. She will have a graduate fellowship, acting as an assistant dormitory director. She indicates her present address will remain 739 East Clark Street, Medford, Wis.

From Nigeria comes word from CHARLES POLCYN, '61. In September, 1961 he entered the Peace Corps Training Program for Nigeria held at UCLA. In January, 1962 he completed the training program and arrived in Nigeria to teach mathematics at Maru Teacher Training College. He attended a five-week in-service program for secondary school teachers held at the University of Ibadan in August, 1962. In September, 1962 he transferred from the teacher training college to Methodist Boys High School, Okitipupa. The subjects he taught there were arithmetic, algebra, geometry, calculus, analytical geometry, statistics and mechanics, all to the upper classes. He is also responsible for athletics and games for the school, for the library and school grounds development. He indicates that "teaching and living here are both very rewarding and challenging." Mr. Polcyn's current address is: P.M.B. #1, Methodist Boys High School, Okitipupa, W. Region, Nigeria.

JAMES M. HAUGSBY, '61, is teaching English at Edgerton, Wis. The Haugsbys have a daughter, Kathryn Ann, born May 4, 1963. Their address is: 712 W. Rollin St., Edgerton, Wis.

# US Education Chief To Join Workshop Here

Rep. Melvin R. Laird, R - Wis., said today U. S. Commissioner of Education Francis Keppel has agreed to attend the higher education workshop he is sponsoring December 14 at Wisconsin State College, Stevens Point.

Some 50 administrators and deans will participate in the workshop for Wisconsin state colleges.

Laird, who will preside at the Stevens Point meeting, said that if this proves successful he will plan a similar one at the University of Wisconsin and a separate one for private institutions of higher education in Wisconsin.

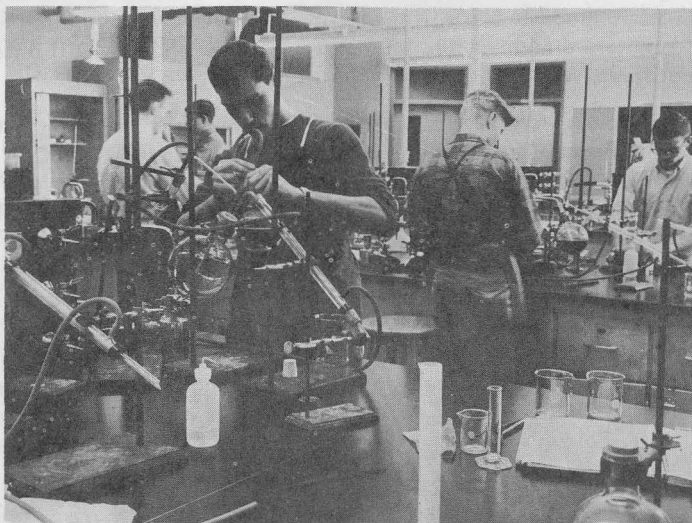

During his 11 years as a member of the House Appropriations subcommittee on Health, Education and Welfare, Laird said, he has found that smaller colleges in Wisconsin and throughout the nation were not taking part in existing programs available to them.

"It is a great disappointment to me," he said, "that 90 per cent of all the aid that is made available in 37 categorical federal-aid programs for higher education goes to the 100 largest institutions in the United States."

"The small, independent and state-financed colleges are not keeping up with these programs. This is not fair to the faculty or the students attending these institutions."

As an example, Laird said, Congress last year made available \$1.5 billion for research grants and higher education aids, but 90 per cent of that went to the 100 larger universities and colleges.

Laird said the reason he is setting up the higher education workshop at Stevens Point is so the state colleges can become familiar with the programs.

THIS IS ONE of six chemistry laboratories in the new Science Building. The student in the left foreground is Dick Marchiando of Sheboygan. In all departments the building has 25 labs.

An assistantship from the University of Ohio has been received by SHARON MOESCH, '63. She took graduate credits this summer in theatre arts; in addition, appeared in summer stock in the Cape Cod area, at Monomoy Theatre, Chatham, Mass. Sharon teaches speech and English in the Cudahy School System. Her parents are Mr. and Mrs. Oscar E. Moesch, 214 Florence St., Rothschild, Wis.

DR. JOHN F. CHECK, '52, a member of the teaching staff at Flint, Mich. College of the University of Michigan, Ann Arbor, has been promoted from assistant to associate professor in education. Dr. Check received a Ph.D. degree from the University of Wisconsin in 1959. Since then he and his family have lived at Flint. In addition to teaching duties, Dr. Check has student advisory and committee responsibilities.

ALICE GORDON, '40, retired in the spring of 1962 as elementary supervisor in the Tomorrow River (Amherst) School District. Her teaching career, which spans 51 years, began in the 7th and 8th grades at Almond and as principal of the state graded school at Nelsonville. She became Portage County's first county supervising teacher. Her next position was with Wisconsin State College's old rural department; she supervised practice teachers in the rural demonstration school. From 1919-24 she was Portage County Superintendent. For the next 20 years she was at the Lincoln County Normal School in Merrill, serving as principal the last 10. Miss Gordon then held positions in normal schools in Wisconsin Rapids and Union Grove before returning to Portage County in 1951 - again as county supervising teacher. For the last 8 years she had been in the Tomorrow River Schools. She holds a master's degree from the University of Wisconsin. Miss Gordon plans to keep busy in retirement with a number of hobbies - sewing, art, furniture refinishing and reading. She is also active in church and community activities, and is director of the choir at the Nelsonville Lutheran Church.

Serving with the Peace Corps as a teacher in Iran is 1962 graduate MARTIN L. JOHNSON. He will be in Iran until June of 1964. His address is: Peace Corps, c/o Near East Foundation, P.O. Box 850, Tehran, Iran.

DAVID J. BEHMER, '63, has been awarded a graduate assistantship at Iowa State University, Ames, Iowa. He plans to do research in fishery biology while working toward his Master of Science Degree at Ames.

JOHN M. ROSS, '58, was admitted to the graduate division of Indiana University as a doctor's degree candidate. Mr. Ross will specialize in outdoor education and outdoor recreation. He will join the Department of Recreation of Indiana University in the fall of 1963 as a teaching assistant. Mr. Ross was also installed recently as a member of the Board of Trustees of University Lutheran Church, Bloomington, Ind.

Named as an International Farm Youth Exchange student for 1963, ALICE VIESTENZ, '60, joined other Americans in the farm youth exchange program this summer; they live with host farmers in Asia, Africa, Europe and Latin America. She previously taught in the Neenah Public School System. A number of foreign youths live with American families at the same time to complete the exchange.

LELA D. JAHN, '62, was one of 28 men and women who left the United States in the fall of 1962 to begin three years of special-term missionary service for the Methodist Church in 16 countries of Asia, Africa and South America. She was scheduled to go to Brazil to do social work. In preparation for this service, she took intensive training in linguistics, the Biblical and theological basis of missions, and world issues at the Missionary Orientation Center at Stony Point, N. Y., and Drew University in Madison, N. J.

Sister M. Clairann, the former BEATRICE PEPLINSKI, '51, made her final vows as a member of the Sisters of St. Francis of the Holy Cross in the summer of 1962. Prior to joining the community in September, 1953 she taught in Merrill Junior High School for two years. Since taking her first vows in 1956, she has been teaching in the Preparatory Novitiate High School at New Franken, Wis. She attended Marquette University, Milwaukee in the fall of 1962 to complete her studies for a Master of Science Degree in mathematics. Sister Clairann is the daughter of Mr. and Mrs. Alex Peplinski of Amherst. Another daughter, Sister M. Jeanette, is a member of the same community.

MRS. JULIUS BECKER, the former MARY DOYLE, '56, retired from the Schofield-Rothschild School System this summer. She began her 41 1/2 year career in Portage County schools. She taught in 1920-21 in the Pioneer School in the Town of Belmont, then taught a year in the McInroe School in Belmont and two years in Amherst Grade School. The rest of her career was spent in Marathon County, including the teaching of mentally retarded children in the Schofield-Rothschild schools for the past nine years. Her plans now include more traveling now that she is retired.

Serving with the 6th Missile Battalion, 44 Artillery, at Fort Bliss, Texas is 1962 grad MIKE SRODA whose home is Amherst Junction, Wis. He completed basic training at Fort Knox, Ky., where he was a platoon guide. While serving as platoon guide, he was nominated for the American Spirit Honor Medal, awarded for service and leadership displayed. He was recently promoted to private first class. In June, 1963 he was scheduled to leave Texas for 13 months of service in Korea.

In June, 1962 RUSSELL GARDNER, JR., who completed a three-year premedical course at Stevens Point, was awarded the degree of Doctor of Medicine. He is a student at the University of Chicago School of Medicine since 1958. In July, 1962 he started a year's internship at Henry Ford Hospital, Detroit, Michigan. He is married to the former MARY BRAATZ, '59; they have one child, Rebecca Claire. Mary is a graduate of Stevens Point State College and the University of Chicago. She taught a year in Racine.

Named as elementary supervisor of the grades and as junior high school principal in Southern Door School District was STANLEY HARMANN, '48. His office will be in the junior high school at Brussels, Wis. Prior to this appointment he was supervising teacher of Kewaunee County the last seven years. He also spent 13 years as rural teacher of Rocky Glen School in the Town of Union and 12 years as principal of Roosevelt Consolidated School. Both schools have been absorbed by the new Southern Door system. Besides his B.S. Degree, he has

obtained his master's degree in administration, supervision, and guidance from the University of Wisconsin-Milwaukee and has completed one year of post graduate work at the University of Wisconsin.

DAVID L. PETERSON, '63, is employed as probation and parole agent in Monroe County for the Wisconsin Department of Public Welfare, department of corrections. He will receive on the job training while also obtaining graduate school credits in social work at La Crosse State College and elsewhere by extension correspondence.

Mr. and Mrs. Earl Atkinson celebrated their 40th wedding anniversary on December 16, 1962. Mrs. Atkinson, the former CAROL ADAMS, graduated from WSC in 1957. At the present time she teaches 8th grade at the elementary school, Amherst in the Tomorrow River School system. Her husband has operated a general insurance agency in Portage County for more than 35 years and prior to 1952 the Atkinsons were engaged in farming.

DON WERTH, '60, a seminary student, has been employed as assistant to the pastor at Frame Memorial Presbyterian Church in Stevens Point for the summer months. He has completed two years of study at United Theological Seminary at New Brighton, Minn.

JOSEPH J. RAPPEL, '41, retired after 47 years in the field of education. He began his teaching career at the Franklin Jt. 14 (Menchalville) rural school in 1916. In the spring of 1920, he became principal of the Manitowoc Rapids state graded school, remaining there until the fall of 1928 when he was appointed Manitowoc County supervising teacher. In 1942 he joined the faculty of Manitowoc County Teachers College, and in 1945 was elected to the position of County Superintendent of Schools for Manitowoc County. In the fall of 1949, he entered the Manitowoc Public School System as 6th grade teacher at McKinley School and in 1956 was promoted to the principalship of Garfield Elementary School. His retirement years will be spent in historical research and publication of local historical material. He and Mrs. Rappel intend to do much traveling, visiting with their children and grandchildren and being active in the various organizations to which they belong.

MABEL F. RICE, '13, retired after twenty-seven years as Professor of Education and Director of the Broadoaks School of Whittier College in Whittier, California. The college still maintains an office for her on campus where she is working on the Third Edition of a language series, published by D. C. Heath and Company and of which she has been one of the co-authors since the first edition in 1950. She inquires as to whether or not the Class of 1913 is making any plans for its 50th anniversary, and would like the names and addresses of the surviving members of the 1913 class. She may be contacted at Whittier College, Whittier, California.

MRS. HENRY DuBOIS, the former LOLA RUTH, '18, would like to obtain a copy of the yearbook "of what was then called Stevens Point Normal School of the year 1918." She indicates, "I will pay \$15.00 for a copy in reasonably good shape." Anyone wishing to contact her could write to her at the following

address: Mrs. Henry Du Bois, 307 Jasmine, Corona del Mar, California. Mrs. DuBois has three sons, two are college graduates and married, the third is now in college.

Employed at the State University College at Oswego, New York as professor of history is WALTER DRZEWIENIECKI, '56. His wife, Zofia, recently received a master's degree in library science from Syracuse (N.Y.) University. Prior to four years ago, they lived in Stevens Point, Wis., where for 10 years, they both worked on the editorial staff of a Polish language weekly published by the Worzalla Publishing Co. Mr. Drzewieniecki also holds a master's degree from the University of Wisconsin, Madison, and a Ph.D. degree from an eastern school.

SHERMAN J. SWORD, '42, was recently appointed as managing editor of the Stevens Point Daily Journal at Stevens Point, Wis. He joined the paper as a reporter in 1948 and became city editor in 1949.

From Hawaii comes greetings from HELEN MATSUOKA, '59. She writes: "Aloha from Hawaii....Everything's just fine here except for the climate which is affecting my nose and eyes...My Hawaiian language course at the U. of Hawaii's summer session is much fun." Helen's address is: Kai Nani Apt. 1, 137 Kealahilani Ave., Honolulu 15, Hawaii.

Five chemistry majors at Stevens Point State College have been awarded graduate fellowships or scholarships. They are BRUCE LAUBE, son of Mr. and Mrs. Leon A. Laube, 418 Oak Street, Stevens Point; DONALD C. RULF, Hewitt; DAVID NEWTON, Kohler; VICTOR THALACKER, Westfield, and MELVERN TESSENE, Whitewater. Laube and Rulf have been awarded teaching assistantships at Iowa State University, Ames; Newton and Thalacker have been awarded teaching assistantships at the University of Arizona, Tucson, and Tessene, a biology and chemistry major, has been awarded a graduate scholarship at the University of Michigan, Ann Arbor. These men are 1963 graduates.

IRVING DORTH, '50, has recently been appointed as assistant professor in the Conservation Department, WSC, Stevens Point. His wife is the former RUTH TEETZEN, '53.

Two alumni of the Conservation Department at WSC, EARL MEYER, '61, and RICHARD HAAS, '61, presented the Alpha Kappa Lambda Conservation Fraternity with an institutional membership to the National Wildlife Federation.

Living at 322 E. Lincoln Ave., Oshkosh, Wis. is 1958 grad THOMAS G. SPEES. He was married to the former Elaine A. Bollerman on September 30, 1961. They have one daughter, Karen.

THEODORE F. JESKE, '57, is a classroom instructor of history and geography at the junior high school in Virginia, Minnesota. He recently received his M.A. degree in Education. His address is: 628 1/2 S. 3rd St., Virginia, Minn.

Employed as instructional supervisor at the Kenosha School of Vocational, Technical and Adult Education is 1956 grad KEITH W. STOHR. He received

his M. A. Degree from the Michigan State University in 1963. He, his wife, the former Carol Paiser, and their two children live at 4615 - 69th St., Kenosha.

BEULAH ANN (HUETTL) BRANDNER, '55, is presently teaching grade 3 at the Norwood School in Green Bay, Wis. She is married and has three children, Ann, 4, Barbara, 3, and Teddy, 2. The Brandners live at 1148 Nicolet Ave., Green Bay.

MRS. DARRELL WENZEL, the former JOAN FEHRENBACH, '52, lives at 622 Monroe, Sparta, Wis. Her husband is associated with the Hoag-Wenzel Jewelry Store. They have two children, Ann, 4, and Philip, 6 months.

On leave of absence from St. Paul, Minn. schools is WILBUR F. KALINKE, '54. He will do full-time graduate studies toward a Ph.D. and will also serve at the U. of Minn. as a member of the Educational Research and Development Council of the Twin Cities Metropolitan Area. In addition, in the summer of 1963 he was selected as a member of NDEA German Institute for Elementary Teachers at the U. of Minn. He and his family (wife Connie and two children) reside at 3020 Tomahawk Place, St. Paul 19, Minn.

JOHN V. YURKOVICH, '40, was one of two men who were awarded certificates as specialists in educational administration by Dean Lindley J. Stiles of the University of Wisconsin School of Education, Madison, on August 14, 1963. The men are the first to complete the new two-year graduate course especially planned by the UW School of Education, the State Department of Public Instruction, and state school administrators.

RICHARD D. MARKO, '59, and his wife, Beverly, a '60 grad, are both teaching in the Rhinelander, Wis. School system. Richard is an art supervisor and his wife teaches kindergarten. Their address is: 120 E. Monico, Rhinelander, Wis.

MRS. JUDITH GOLDSMITH, '63, has been awarded a teaching fellowship at Buffalo University in Buffalo, N. Y. She will receive a stipend while working toward a master's degree.

MR. and MRS. KEITH C. FOX report their oldest son, Jeffery, is planning on attending Stevens Point State College this fall to major in the teaching of English. Their other sons, Michael, a freshman, and James, 8th grade, also indicate an interest in teaching. Their last son was born on January 23, 1961.

MRS. LAWRENCE KAMPE, the former BARBARA RATHJEN, '58, is a teacher at the Whitney School in Green Bay, Wis. Her address is: 167 Gwynn, Green Bay, Wis.

Teaching 1st grade in the River Falls (Wis.) Public Schools is CAROL NELSON SUKOW, '58. Her husband, a 1959 graduate of WSC at River Falls, received his M. S. Degree in physics at Case Institute of Technology in Cleveland in June. He is presently teaching at WSC, River Falls. The Sukows live at R.R. 3, Box 8, River Falls, Wis.

Teaching home economics and English at the Fall River (Wis.) High School is DONNA BUTSON RICHTER, '57. They have been living at 319 N. Hickory St., Platteville, Wis. They have two children, Mary Lynne, 3 and Kathy Lee, 2. Her husband will be attending the University of Wisconsin to work on his master's degree in ag. education.

EUGENE A. BELONGIA, who graduated from WSC Stevens Point in 1939 and received his M. S. Degree in 1949, is an administrator of the Fairview Schools, Brookfield. He is supervising principal and administrator at Fairview North and Fairview South Elementary Schools. He and his wife, Elva, reside at 367 Tower Court, Pewaukee, Wis. They have one son, William, 21.

MARY LOU MICHALEWICZ (UTTERMARK), '57, teaches home economics part time at the Riggs Senior High School in Pierre, S. D. She resides with her husband, Edward, and three children at 311 S. Polk, Pierre, South Dakota.

Located at 1605 Briquelet St., Green Bay, Wis. are MR. & MRS. ROBERT M. BLOMILEY. Mr. Blomiley is a 1957 graduate and his wife, the former BENITA M. HELD, is a 1955 graduate. Mr. Blomiley received his M. A. Degree in 1959 and is currently a 6th grade teacher at the Elmore School in Green Bay.

ANTHONY J. ISHERWOOD, a '49 grad, teaches geography and history at the Washington High School in Two Rivers, Wis. He received his M. S. degree in 1957. The Isherwoods have two children, Kathleen, 7, and Mark, 5, and are expecting their third in September. They reside at 3323 Monroe St., Two Rivers.

Teaching mathematics at Hartford, Wis. is '35 grad ORVILLE HALVERSON. He received his master's degree in guidance from Marquette University and also received a National Science Foundation Scholarship at Marquette in summer. Mr. Halverson and his wife, Loraine, live at 506 Fifth St., Hartford, Wis.

NORMAN J. JOHNSON, who attended WSC from 1932-33, has been appointed Vice-President-Operations for A. M. Byers Company. Prior to his promotion, Mr. Johnson was the company's manager of operations. The Byers Company is the world's largest producer of wrought iron products.

JUDITH M. BANNACH, '62, is spending a year of study at the University of Kiel in Germany and will also teach English conversation and literature there. She has an exchange assistantship in the English department, arranged through the University of Arkansas where she spent last year studying for a master's degree in English.

A three-year National Defense Fellowship has been awarded to WILLIAM F. REINKE, '62. He has been a history instructor at Southern Door High School; this fall he entered graduate school at Michigan State University to continue his studies.

RAY C. WILDE, '56, is a science and mathematics instructor for the upper elementary grades in the Arbor Vitae-Woodruff Elementary School. In 1961 he received his master's degree in supervision and administration. He is married to the former FAITH POMERENING, '56. They have one child, Susan, born Nov. 22, 1961. The Wildes live at R. 1, Box 271, Woodruff, Wis.

Teaching mathematics and general science and also assisting with basketball at Shiocton, Wis. is 1960 grad ALLEN J. LUBINSKI. He is married and the father of two children, Kenneth Allan and Lee Ann.

Living at 4133 Spaanem Ave., Madison, Wisconsin is MRS. MARSHALL CORNELL, the former BETTY JEAN GILBERTSON, '51. She has taught full-time or done substitute teaching for nearly ten years and at present is a fifth grade teacher in Madison. Her husband, a graduate of the University of Wisconsin, is an electrical engineer with Western Electric Co. They have two children, Jon, 5, and Cathy, 6 months.

WILLIAM M. RUHSAM, '56, is employed as an assistant engineer for RCA Service Co. His duties consist of that of computer programmer for large scale digital computers operating in the scientific field. Bill resides at 57 East John St., Hicksville, L. I., New York.

CONNIE ANNE SMOODIE, '61, was recently granted a M.M. Degree in vocal pedagogy. Her field of specialization consists of teaching voice at any level, some knowledge of physiology of vocal production, vocal literature, and continued private voice study. Her home is at 157 Hillcrest Lane, Nekoosa, Wis.

Employed as a fishery biologist for the U. S. Fish and Wildlife Service is 1958 grad WALTER WHITWORTH. He is located at Southeastern Fish Control Laboratory, Warm Springs, Georgia. He recently obtained his Ph.D. in zoology (fisheries). His family consists of his wife Shirley and their three children, Susan, 5, Sally, 4, and Billy 2.

MRS. MELDA (BECKMAN) MORTENSEN, '51, taught 27 years in rural, state graded and city schools and currently teaches kindergarten in the Waupaca Unified School. She granted personal scholarships to former students of hers - \$100.00 scholarship to Judy (Anderson) Jolin in 1962 and a \$75.00 scholarship to Louise Paulson in 1963. Mrs. Mortensen indicates, "They were students of mine in elementary education in Waupaca. Both students attended Stevens Point College; I want more students to be teachers." Mrs. Mortensen resides at 128 Wells St., Manawa, Wis.

Serving as Principal of the Black Creek (Wis.) Area Schools is 1954 graduate ORVILLE N. SELL. He received his Master of Arts Degree in 1960 from the University of Minnesota. His wife is the former MARY MCGINLEY, '58. They have three children, Barbara, 11, Marilyn, 9, David, 8.

LEONA FORTH SCHUMACHER, '55, resides with her family at 1010 Pinos Street, Rhinelander, Wis. She is now a homemaker and also assists her husband in business (floral shop). She has three children, Ruth, 4 1/2, Sara, 2 1/2, and Mary, 2 mos.

## *WSC Pointer Band Reading Clinic*

The Pointer Concert Band, conducted by Dr. Warren Lutz, held their Band Reading Clinic in the lounge of the Union Building on Saturday, November 23. The purpose of this clinic was to bring new compositions and materials for band to the attention of visiting high school music educators. A secondary objective was to acquaint present music majors with future teaching materials. A large group of visiting teachers and their music students were in attendance.

A feature of the Band Clinic was a Trumpet Clinic by Robert Van Nuys of the college music faculty. Mr. Van Nuys came to the Point this past September following an extensive teaching career at Southwestern College in Kansas, Wichita University, Colorado State College and the University of Illinois.

The Pointer Concert Band will appear in formal concert on the evening of Monday, January 27th. This program is scheduled in the College Auditorium and will feature compositions by Shostakovich, Rossini, William Schauman, Alfred Reed, Alan Grayson and Charles Gross.

At the first meeting of the Pointer Band following the 1963 football season, the members elected the following officers who will form the Band Council, together with the director, Dr. Warren Lutz.

The band president is Roy Munderloh, Merrill, who served as band manager the past several seasons. He is first chair baritone player in the group.

The vice president is Bill Shay, Wisconsin Rapids, who is in this third year in the Pointer Band. He is a member of the 1st clarinet section of the band. The treasurer is Perry Wagner, a senior member and presently the solo chair cornet player. All three of this year's officers are music majors at WSC.

The makeup of the band has been changed since the football shows. The attention is now being directed to serious contemporary, as well as traditional band compositions.

The director of the Pointer Band is Dr. Lutz, former director of the "Marching 100" at the University of Kentucky and teacher of woodwinds at the University of Illinois.

## MARRIAGES

ALAN DANKE, '61, was married on June 15, 1963 to Miss Linda Jones of Waupaca. Alan teaches in the Waupaca City Schools while his wife, a 1963 graduate of Waushara County Teachers College is a teacher at the Galilee School, Waupaca County.

Living at Monona Village, Madison, Wis. are Mr. and Mrs. F. Robert Kolacke who were married this summer. Mrs. Kolacke, the former MARCELLA R. SKALSKI, '58, is an elementary teacher in the Winnequah School, Monona Village. Her husband, a graduate of the University of Wisconsin School of Law, is an attorney with the law firm of Hart, Kraege, Jackman, and Wightman of Madison.

EILEEN NIEMUTH, '58, and Charles Roberts were married on June 22, 1963. Eileen teaches home economics in Westfield High School, while her husband, a graduate of Michigan State College, teaches chemistry and science at Hillsboro.

Married in Wauwatosa on June 22, 1963 were Rita Deetz and LARRY V. TYLKE, '55. Mr. Tylke is presently the principal of the Kilbourn School in Oak Creek, and Mrs. Tylke, a graduate of Edgewood College, Madison, is a teacher in the West Allis Public Schools. They will reside at 13060 W. Robinwood, Brookfield.

Mary Jane Schiller and VERNON M. GETLINGER, '62, were married in June 1963. They will live at 1009 Portage St., Stevens Point. Mr. Getlinger will teach in Marshfield and his wife will be a senior at the college.

DONALD NEVE, '62, and Marlene F. Johnson, who were married in June, 1963, will live in Pittsville, Wis. Mr. Neve is an employment counselor for the Wisconsin State Employment Service, and Mrs. Neve is employed at Peoples State Bank and Peoples Insurance Agency, Inc., Pittsville.

Living at 14 N. Bassett, Madison, Wis. are MR. AND MRS. THOMAS M. LOVE who were married in June, 1963. Mrs. Love, the former JEAN ANN MORZINSKI, received her B.S. Degree in primary education in 1961, and Mr. Love also received a B.S. Degree in 1962 from Stevens Point State College. He will begin his second work of post graduate work at the University of Wisconsin in the fall.

On July 13, 1963 LEAH M. HUBERTY, '62, and Robert W. Dumke were married in Lena, Wis. Leah was a teacher in the Green Bay Public Schools during the 1962-63 term. Her husband is employed as a telephone repair man for Western Electric at Milwaukee.

PHYLLIS M. CASKEY, '58, and WAYNE L. SCHMIDT, were married in June, 1963. They will live at 2649 Stevens St., Madison, Wis. where Mr. Schmidt will continue study for his master's degree at the University of Wisconsin. Mrs. Schmidt taught second grade at Merrill Elementary School, Oshkosh. She will teach in Madison.

MR. AND MRS. ARLYN LOOMANS will live at 26 N. Forest St., Waupun. They were married on June 22, 1963 in Waupun. Mr. Loomans, who graduated in June, 1963 is employed by the Wisconsin Conservation Department.

Married in Stevens Point on June 22, 1963 were VENITA MARCIA WAGNER and Gerald Lee Burling. Mrs. Burling attended Taylor County College for two years, later receiving a B. S. Degree at WSC, Stevens Point in 1962. She has been teaching at Fort Atkinson. Mr. Burling graduated from a two-year course in accounting at the Madison Vocational School. He is employed as an account examiner for Wisconsin State College, Stevens Point, and Mrs. Burling will teach in the Stevens Point Schools.

Robertta Jane Hintze and STUART L. HACKBARTH, '63, were married in June, 1963. Mr. Hackbarth is employed by Mosinee Paper Mills Co., but will spend the next six months in the Army Reserves. Mrs. Hackbarth is employed at Wausau Paper Mills, Brokaw.

Lois A. Kraemer and ROSS A. PORTER, '62, who were married in Green Bay, will reside at Fort Leonard Wood, Mo., where he is stationed. Mrs. Porter attended the Point, and Mr. Porter received his B.S. Degree from WSC.

Married on July 6, 1963 were KAREN BRAEM, '61, and JOHN R. HANOUSEK, '62. Karen has been teaching home economics in West Allis, and her husband is employed at the Forrer Business Interiors Equipment Co., Milwaukee.

CAROL ANN KOZICZKOWSKI, '62, and James H. Friday were married in July, 1963. Mr. Friday attended St. Mary's College, Winona, Minn. and WSC and is associated with Home Furnishings, Inc. in Stevens Point. Mrs. Friday is a first grade teacher at the Jackson School in Stevens Point. They will reside at 421 Briggs St.

Married on August 10, 1963 were GERTRUDE ANN WEST, '61, and Donald L. Neuendorf. Gertrude is an English instructor at P. J. Jacobs High School in Stevens Point. She has done graduate work at the University of Wisconsin, Madison and Winona (Minn.) State College. Her husband, a graduate of Minneapolis School of Business, is terminal manager of the Neuendorf Transportation Co. They will reside at 130 Nebel St., Stevens Point, Wis.

ANN MARIE MARTIN, '63, was married to Albert W. Greenheck. She will teach home economics at Muscoda High School. Her husband is a partner of Wisconsin Pole Structures in Lone Rock, Wis. The Greenhecks will live in Muscoda, Wis.

At home at 520 Stanley St., Stevens Point, Wis. awaits MR. & MRS. KENNETH L. KEENLANCE who were married in June, 1963. Mrs. Keenlance, the former SHIRLEY WAGNER, '63, will teach home economics at Manawa High School. Mr. Keenlance is a student at WSC, Stevens Point.

MARY JO SCHLIESMAN, '62, and William O. Otto were married in August, 1963. Mr. Otto is director of physical education in the Stevens Point Public Schools. Mrs. Otto teaches kindergarten at the Howe School, Wisconsin Rapids.

### "CAROUSEL" PRESENTED AT WSC

The music department of Wisconsin State College here presented "Carousel", the perennially popular Rogers and Hammerstein show which appeared on Broadway for years.

Tom Cultice, who this fall came to WSC from the University of Indiana was the producer and also took the leading male role of Billy Bigelow, a barker for the carousel. Mr. Cultice has sung leading opera roles at the University of Michigan and Indiana University.

David Dick, who came to WSC from Butler University, Indianapolis, was director of music and orchestra. He has had experience as the director of such groups as the University Chorale, The Glee Club and the Madrigal Singers.

The show is known for such melodies as "If I Loved You," "June is Bustin' Out All Over," "When I Marry Mr. Snow," "When The Children Are Asleep," "Blow High, Blow Low," "Soliloqui," "A Real Nice Clambake" and "You'll Never Walk Alone."

---

### FROM THE OFFICE OF THE DEAN OF THE SCHOOL OF LETTERS AND SCIENCE

Probably when you were a student here, your Alma Mater was organized into the College of Letters and Science and the School of Education.

In 1961, the School of Applied Arts and Science was created. Included in this school are the departments of home economics, conservation and physical education. Development of new programs in this school is planned. The School of Applied Arts and Science also is responsible for degrees in medical technology. Dr. Paul A. Yambert is the dean.

Meanwhile, the College of Letters and Science became the School of Letters and Science. Dr. Burdette W. Eagon continues as dean of the School of Education.

In 1963, a fourth school, the School of Fine Arts, was created to embrace the departments of music, art, speech and drama. Dr. Warren G. Jenkins, dean of Letters and Science, is the acting dean of Fine Arts. However, a dean for the School soon will be selected.

Majors and minors in the School of Letters and Science include biology, chemistry, economics, English, French, general science, geography, German, history, mathematics, philosophy, physics, political science, psychology, social science and sociology.

You will find that all of these departments have increased their staffs and curricula to meet the needs of the rocketing enrollment which stands at 2,897, including Saturday and Extension Classes.

The foreign language department this year started a beginning course in the Russian language. This year's freshmen (at least those who entered in September) working toward a B.S. Degree in the School of Letters and Science, must fulfill requirements in both mathematics and a foreign language. You will probably recall that students previously chose between mathematics and a foreign language. Many new changes will be made in the college curricula.

We will endeavor to keep you informed of these important matters.

#### FOREIGN TEACHING OPPORTUNITIES

---

American teachers, preferably in the fields of science (chemistry, physics, and biology) and mathematics, and alternatively in the field of English language training, will be placed in English language high schools at Istanbul, Izmir, Samsun, Konya, Eskisehir, and Diyarbakir, Turkey, for the 1964 - 65 school year. Similar positions are also available in the United Kingdom Dependencies.

Priority will be given to teachers of chemistry, biology, physics, and mathematics. Alternatively, priority will be given to teachers of English as a foreign language. Knowledge of the Turkish language is not a requirement, but the grantee should possess patience, tact, and a sense of humor.

Teachers will probably be asked to give occasional lectures and talks at other schools and before various groups and educational organizations.

Secondary schools in Turkey open the last Monday in September, and close the last Saturday in May. Examinations are held in June. There is a 2-week holiday at the beginning of February. American teachers are usually required to teach approximately 20-25 hours a week. Classes normally consist of about 50 students. The school week includes Saturday, which is a half-school day, as is Wednesday. Schools are closed on Sunday.

Furnished or unfurnished apartments and houses can be found for grantees with accompanying dependents.

Should you decide that you would like to apply, application forms may be obtained from Frank Thomas, Teacher Exchange Section, Bureau of International Education, Educational Exchange and Training Branch, Office of Education, Department of Health, Education, and Welfare, Washington, D. C. 20202.

#### ALPHA BETA RHO

Alpha Beta Rho fraternity, founded as a local chapter here at WSC in 1955, has a present membership of 40 men. ABR participates in all school functions, such as Homecoming and Winter Carnival and conducts its own pledging activities. These, as ABR alumni will recall include the Bottle Hunt, Pledge Hike, Smelt Fry and "Hell Night."

Alpha Beta Rho would like to establish a closer relationship with our alumni. If you haven't already done so, please send your current address to: Tom Farr, Alumni Chairman, c/o Alpha Beta Rho Fraternity, WSC, Stevens Point, Wis.

# Hyer Hall Open House

Three members of the Hyer family attended the dedication Sunday of F. S. Hyer Residence Hall for women at Wisconsin State College.

Included in the family group were Mrs. Frank S. Hyer, Waupaca, widow of WSC's fourth president, for whom the building was named, and her daughter and son, Mrs. A. I. Leishman, Elmhurst, Ill., and Frank P. Hyer, Wilmington, Del. Mrs. Leishman and Hyer were accompanied by their husband and wife.

In the brief ceremony, President James H. Albertson said that in dedicating the residence hall to the former president, "We not only honor the memory of a man, but we also rededicate ourselves to the service of the young people of the state through the use of this fine facility."

Pointing out that President Hyer had served the young people of the state for 51 years, Dr. Albertson said, "We are participating in more than a dedication of a building. We are dedicating ourselves to an idea . . . an ideal of education.

"We are dedicating ourselves to the concept that education is more than books and classes. It is an opportunity to learn by shared living . . . by learning to know others and by participating in the planning and implementation of programs of recreational, social and cultural significance."

Orland E. Radke, associate dean of students and director of housing, who also spoke briefly, asked, "Why do we dedicate buildings? What are we hoping to accomplish when we attach the name of Frank S. Hyer to the bricks and mortar of this hall?

"To some, it may be only a means of identification or the following of a tradition. However, I'd like to see develop within these walls and within you 200 residents the same qualities that former President Hyer stood for, including leadership and the determination to attain distinction.

"But Mr. Hyer was more than a leader who attained distinction, he also was a personality with warmth, consideration, respect and love for his fellow man.

"These are the things that you girls in this hall can also stand for. Each of you can be a 'hall' of distinction. You can take a stand for what is right and good. Be not proud of yourselves, but make everyone proud of you. Develop a personality sparked by warmth, kindness and consideration."

Quoting the late President Hyer, Radke said, "Walk uprightly, work righteously and speak the truth."

Miss Doris Wadzinski, Marathon, president of the hall, welcomed the guests. Miss Marilyn Sherman, Waupaca, responding for the students, said Hyer Residence Hall was not a hall to her but a home. "My room shares my sorrows, laughter, hopes and joys. It is my college home and each year it will become a new home for another WSC student.

Residents of the residence hall and their parents attended the dedication. Later residents of the area toured the building which houses 200 women students.

Rooms had been decorated for the event, and many students had trimmed Christmas trees and lighted them. Doors also were decorated, each featuring the Christmas theme.

Student fees are financing the building which includes study rooms, laundry facilities, a spacious lounge and ample storage compartments for student luggage.

THE WIDOW OF Frank S. Hyer, Former Wisconsin State College president, was present Sunday when Hyer Residence Hall was dedicated. She is in the center here, flanked by her son-in-law and daughter, Mr. and Mrs. A. I. Leishman, Elmhurst, Ill., and her son and daughter-in-law, Mr. and Mrs. Frank P. Hyer, Wilmington, Del. Seated is Mrs. Elizabeth Pfiffner, WSC associate dean of students.

#### FROM YOUR PLACEMENT OFFICE:

May we remind you of the need for early planning should you anticipate a change of position for next year. Upon completion of a minimum of two years of teaching your placement office will be pleased to arrange to obtain an appraisal of your teaching or other experience, together with a record of any graduate study and bring your credentials up-to-date for placement services. This should be completed as early as possible to assure completion by the time needed.

To obtain the necessary forms for bringing your credentials up-to-date, address your request to: Office of Placement Services, Wisconsin State College, Stevens Point, Wis. Should you wish to be placed on the active list for placement services, indicate the type of position desired, geographic location preferred, and other information which would assist us in providing you with our services.

As soon as you accept a position we would appreciate your notifying the placement office. Your name will then be removed from our active list and a form sent you to provide us with an official record of your new position. Until we hear from you your name remains in our active placement list.

Should you plan to enter graduate study or to be married, it would be to your advantage to arrange for an evaluation of your experience since graduation to be included in your placement file. Then when you wish to obtain a new position, your file could be activated promptly and credentials would be available for placement service.

As soon as you make application for a position, a request is received at the placement office for your credentials. If they are out-dated and have no evaluations of your experience, an extensive delay is caused since it is necessary for the placement office to locate you and send you the credential renewal form to provide us with the information needed to bring your credentials up-to-date. This unnecessary delay is sometimes costly in losing a desired position. Early planning for any change of position is very important.

Your placement office has enjoyed extending placement services to an ever increasing number of alums who have earned excellent teaching records and completed graduate study. Excellent promotional opportunities have been available to many deserving Pointers.

## WINTER CARNIVAL 1964

As the snow starts to fall and the temperature drops, we fell winter creeping up on us. When winter comes, we know that just around the corner is the fourth annual Winter Carnival.

The preparations are being made to make this the best event in the history of WSC.

February 17-23 is the date that has been selected for the winter wonderland of activities. In this week, events which will be enjoyed by everyone have been scheduled; such as an all-school skating and tobogganing party, a hockey match, ice sculpturing and winter games.

The big weekend of February 22-23 will be fun-packed with ice sculpture judging Saturday morning, games in the afternoon, and the "Woodchopper's Ball" in the evening with the crowning of the Winter Carnival King and Queen the highlight of the evening.

Sunday night will climax the big week with big name entertainment and the presentation of the Winter Carnival trophy.

A special invitation is being extended to you, Alumni of this college, in the hopes that you will attend and renew old acquaintances at this big winter event. — Winter Carnival Planning Committee

## HISTORY INSTITUTE HELD AT POINT

A History Institute on Revolutionary Latin America was held July 29-31 on the college campus for a selected group of Wisconsin high school teachers of history and social science. The Institute, co-sponsored by Wisconsin State College, Stevens Point, and the Service Center for Teachers of History of the American Historical Association, probed the current explosive condition of Latin America with particular emphasis on the Mexican and Cuban Revolutions: their problems and prospects. Three eminent historians were present for public lectures and for more informal discussions limited to Institute participants: Professors William A. Williams and John L. Phelan of the University of Wisconsin and Professor Robert Quirk of Indiana University. In an evaluative session on the final day, the participating teachers agreed that the Institute had greatly benefitted them personally and professionally by broadening and deepening their knowledge and understanding of Latin America. — R. J. Knowlton

Burress

At National Meet

Dr. Lee A. Burress Jr., chairman of the English department at WSC spoke when the National Council of Teachers of English met Saturday, Nov. 30, in San Francisco, Calif.

His topic was "An Areopagitan Oath for Teachers?"

Dr. Burress based his talk on an article on censorship written by him and which recently appeared in the Wisconsin English Journal, the official publication of the Wisconsin Council.

The article was reprinted and will be distributed by the national council.

# Audio-Visual Techniques

A national audio-visual demonstration team explained multi-media and other new AV techniques when area educators met Friday, Nov. 22, at the WSC Union.

Members of the team were William Prigge of Northern Illinois State Normal and Gene Faris of Indiana University who were trained under the National Defense Education Act.

Their presentation pivoted around modern classroom audio-visual techniques for teaching units in science, mathematics and modern foreign language, target areas of the NDEA. However, all grade levels and all subjects taught in the schools today were included.

Wisconsin audio visual specialists, in afternoon sessions demonstrated overhead projector techniques; the tape recorder, feltboard and other instructional media. Closed circuit television procedure was also demonstrated.

The workshop, one of three scheduled this month in Wisconsin, was under the sponsorship of the State Department of Public Instruction, the NDEA and WSC.

R. C. Wheeler, Madison, audio visual supervisor for the department of public instruction, points out that the workshops are designed not only for the classroom teacher but also for school administrators, their assistants and audio visual supervisors.

In charge of local arrangements were Robert S. Lewis, WSC director of audio visual services; Lloyd Wallin, in charge of audio visual work at P. J. Jacobs High School, and Merton Peterson, curriculum coordinator for the Stevens Point Elementary District.

## *H. H. Smith On WSC Faculty*

Mr. and Mrs. Harry Hazen Smith and their family of five children are among the new residents of Stevens Point this year, Mr. Smith having accepted a position as assistant professor in the biology department at WSC.

Mr. Smith, who holds Ph.B. and M.S. degrees from the University of Wisconsin, has done additional work at the University of Minnesota and the UW School of Medicine.

He served with the Army for six years and also has had extensive teaching experience dating from the time he was a biology teacher and assistant principal at Cadott. He later taught at Kemper Military School, Boonville, Mo., and at St. John's Military Academy, Delafield. He also was dean and assistant headmaster at Breck School, St. Paul, and a member of the faculty at Wisconsin State College, Eau Claire, and at Stout State College, Menomonie. He was an assistant to the ship doctor on the United States Lines and was a chemist for the U.S. Rubber Co., Eau Claire.

He comes to Stevens Point from Beaver Dam where he has been dean of day students at Wayland Academy.

Mr. Smith also has done extensive Boy Scout work and was president of the Parent-Teachers Association while in Eau Claire.

## *Two Added To English Staff*

In an effort to meet the rocketing enrollment at WSC, two additional positions have been created in the English department.

The two new faculty members are George P. Inman Jr. and Norman C. Wacker.

Mr. Inman, who holds B.S. and M.A. degrees from the State University of Iowa, has been working toward a Ph.D. degree.

After serving in the U. S. Air Force in Europe as a first lieutenant, he was a teacher-supervisor in Iowa City.

Mr. Wacker holds a B.A. degree from the University of Connecticut and soon will complete work toward the master's degree at the State University of Iowa.

### Dr. Wievel At Poynette Meeting

Dr. Bernard F. Wievel, chairman of the conservation department at WSC, attended a meeting of the Wisconsin Council for Conservation Education held at the Wisconsin Conservation Department Conservation Center at Poynette.

The purpose of the council is to cooperate with agencies in the promotion of conservation education in the State of Wisconsin.

Dr. Wievel, a member of the executive council of the group representing college education, was accompanied to the meeting by Peter Kust, a WSC student.

### JIM KUTELLA, FORMER WSC STUDENT, GETS PEACE CORPS ASSIGNMENT

Jim Kutella, son of Mr. and Mrs. Joseph Kutella, 120 N. River Drive, Stevens Point, received a Peace Corps assignment in the Republic of Guinea on Africa's west coast. Jim attended WSC for a summer session and a fall semester. Then while working for the pulp lab of Consolidated Papers, Inc., Wisconsin River Division, he heard the radio advertisement for Peace Corps applicants. He applied and was accepted for training.

His preparation started in July with three weeks of physical conditioning in the Santa Rosa mountains of Puerto Rico, a hot humid area with a climate similar to Guinea. After the jungles came studies at the University of Vermont and Sandonona, a privately financed experiment in international living housed in a massive mansion near Battleboro, Vt. At these institutions he received intensive instruction in the French language. There were also studies in agronomy, American history, communism and dozens of other subjects. Jim was also sent to Montreal, Quebec, where he lived with a French-speaking family to put his language studies into practice.

Like most Peace Corps candidates, Jim won't know his exact geographical assignment until he reaches Guinea. But he figures he'll be working with Guineans in animal husbandry or agronomy, helping them improve their country's economic conditions and standards of living.

When Jim returns home following his tour, he hopes to return to college. "I guess you get to see the light after a while," he remarked, referring to the fact his Peace Corps training has sold him on the idea of a college education.

ALUMNI ASSOCIATION  
**WISCONSIN STATE COLLEGE**

Stevens Point, Wisconsin

RETURN REQUESTED

To Alums:

My sincere good wishes to each of you for the holiday season! May the true spirit of Christmas be yours as you share this holiday season with friends and loved ones.

As your alma mater faces the new year it is fitting that she pause and express appreciation to all alums for contributions made in the past, interest in her present programs and dedication to her future support.

Merry Christmas and Happy New Year.

Cordially,

James H. Albertson  
President
