

This view of the field house, new heating plant, (upper left-center) and residence halls complex is taken from the roof of the new science building by Ray Specht. Pray-Sims Hall for men is the first building on the right. These two now accommodate 404 men. Next is the new Smith Hall which will house 286 men. May Roach Hall is next and will accommodate 318 women. The last building in this complex is Hyer Hall which houses 200 women. This total of 1,208 students will be provided dining and recreational facilities in the Bessie May Allen Center located between Smith and Roach Halls and to the back.

Two new residence halls, numbers 9 and 10 will be built to the left of this picture. These are the first of a second residence hall complex which will eventually accommodate 2,000 men and women with a residence center to provide dining and recreational facilities. Construction has begun on these two buildings to cost a total of \$1,218,493. These will be T-shaped and almost identical to Roach and Sims Residence Halls. Each will have a capacity of 270 students, one for men and other for women. Residence halls and the dining and recreational centers are financed by a federal government loan and repaid by student fees.

FALL EDITION 1964 ALUMNI NEWS BULLETIN

WISCONSIN STATE UNIVERSITY
Stevens Point, Wisconsin

Miss Leary Heads WSU Drama Chapter

Miss Mary Jane Leary, Stevens Point, is the new president of the Wisconsin State College chapter of Alpha Psi Omega, national drama fraternity.

James Mueller, Medford, is 1964-65 vice president; Miss Mary Ann Jelich, Stevens Point, is secretary-treasurer, and Dr. Alice Peet, associate professor of speech, is the adviser.

Alpha Psi Omega initiates include Doris Brezinski, Ellison Ferrall, Truman Flowers, Bonnie Hancock, Kathy Kenas, Karen Kujawski, Gary Morgan, Joan Newby, Ara O'Connell, Cynthia Parkovich, Kay Robinson, Jeff Rodman, Alice Schilling, Connie Seipel, Sue Siebert, Bernard Stanke, Aya-ko Takeda, Jon Whirry and Joyce Wolter.

Founded by Dr. Paul Opp in 1925 as a national honor society for the university and college theater, Alpha Psi Omega has kept pace with the development of the educational theater and now has more than 370 chapters in the U.S. and Canada.

Purpose of the fraternity is to give student actors and technicians adequate recognition for their work in the theater in the same way that students in other departments are honored.

The fraternity sponsors a publication, "The Playbill," which goes to colleges and universities across the nation whether they have a chapter or not. The magazine is designed to acquaint workers about what other educational theaters are doing.

Alpha Psi Omega also is credited with sponsoring the formation of the National Thespian Society for secondary schools.

Among the APO members who have gone on to distinction in the professional theater are Robert Taylor, Harriet Foote and Joe Gallison.

Delta Zeta and Tau Gamma Beta Alumnae

Dear Sisters:

We're sorry we haven't written for so long. We certainly haven't forgotten you. In fact, we've been busy trying to bring our alum file up-to-date and finding out how you can share the joys of national membership in Delta Zeta with us if you wish.

Please notify us of changes in your name or address so that you'll receive our news-packed letter which is coming soon!

Sorority Affiliated with National

Omega Mu Chi Sorority at Wisconsin State College affiliated with Alpha Phi, a national sorority. The local sorority announced that it has been accepted by the national group.

Officers of the sorority, elected to serve for the first semester of the 1964-65 school year, are as follows:

Carol Smith, Stevens Point, president; Mary Peck, Shetek, vice president; Kathy Verhagen, Kaukauna, secretary; Anne Thompson, Oconto, corresponding secretary; Caroline Miller, Chelsea, Mich., assistant treasurer; Chris Derezinski, Stevens Point, chaplain; Ruth Lewis, Stevens Point, historian; Donna Peterson, Oconto, parliamentarian; Caren Cashin, Stevens Point, Pan Hellenic representative; Kathy Kroll, Sheboygan, press representative.

Union Changes Name

Effective July 1, and concurrent with the name change of Wisconsin State College to Wisconsin State University, the College Union's name was officially changed to the University Center. This change will more accurately reflect the philosophy of the University and the Center's role within that philosophy.

As reported in the spring edition of the Alumni News Bulletin, construction is well under way on the addition to the University Center which will double its current size. Beneficial occupancy for the expanded center is expected by the opening of the 1965-66 school year.

Homecoming Celebration to Include Dedication of Four New Buildings

Two new residence halls, a food center, and a new Science Building are to be dedicated on October 24, at 9 A.M., during Homecoming.

May Roach Hall for women and E. T. Smith Hall for men are the new residence halls being dedicated.

The food center is Bessie May Allen Residence Center. Miss Roach, Miss Allen, and members of the Smith family will ride in the Homecoming parade. They will be special guests at the Alumni luncheon in the University Center.

They, along with Mrs. Wayne Cowan, will be present at the Alumni reception to be held at the Center Lounge after the football game.

Mrs. Cowan is being honored at the dedication of the Science Building on October 23.

You are all invited to come back to the campus Saturday to visit with those named above and do them honor.

State Universities Offer Quality

Because the public is providing needed support, good students can achieve excellence in education at all of the nine Wisconsin State Universities, Eugene R. McPhee, Madison, director of state universities, said in reply to a question posed by a national magazine.

Opportunities and problems of more than 200 state universities in 45 states were discussed by the Saturday Review in an article, "Can State Universities Educate for Excellence?"

It traces the growth and development from normal schools to teachers colleges and finally to general state universities. It notes that one of the most distinguished state university graduates is President Lyndon B. Johnson, an alumnus of Southwest Texas State College.

"As far as Wisconsin is concerned," McPhee said in a letter to the magazine, "I can assure you that the answer to the title of the article is yes."

Describing the Wisconsin State Universities, McPhee said that:

—Nearly all full professors and most associate professors now hold doctoral degrees.

—Wisconsin governors, legislators and citizens of both political parties have provided funds needed for buildings and staffs.

—The cost for board and room, fees and books for an academic year is approximately \$900 for Wisconsin residents—nine out of 10 of those enrolled.

—Growth is rapid from 6,700 to 24,500 in the last decade, and is projected to 63,000 in 1973.

—The terms "normal school" and "teachers college" are no longer correct but still are widely used.

"High school administrators and guidance counselors do understand that the universities now offer broad programs not only for future teachers, but also for students planning a variety of other business, professional and public service careers," McPhee said. "So do members of a legislative committee which reported: 'The universities have undergone a dramatic change in program and curriculum...The transition to quality institutions is still too recent to be fully appreciated.'"

Busy Fine Arts Schedule Characterizes Growing University

ROBERT B. CANTRICK
Dean, School of Fine Arts

The new School of Fine Arts, scarcely more than a year old, is in the midst of a busy schedule of plays, concerts, art exhibitions, and other ventures in the arts.

The three departments which were organized into this new School by President James Albertson — Speech and Drama, Art, and Music — are all contributing to this full program of events.

For the convenience of you who like to plan attendance well in advance, a Fine Arts Calendar for Fall accompanies this article. On behalf of the University I extend a cordial invitation to all alumni and alumnae to attend as many of our functions as possible. The quality of these programs will make you proud of your growing University.

"Emphasis: The Arts"

A unity among the arts is developing here. Striking demonstration of this fact was provided by last summer's series entitled "Emphasis: The Arts." About a dozen programs which were concentrated into two weeks during the summer session featured lecturers, musicians, artists, and theater specialists from the University faculty as well as from outside sources. Although space does not permit complete listing of all events, "Emphasis: The Arts" included such programs as the poetry readings of Pulitzer Prize poet Gwendolyn Brooks of Chicago, Summer Theater's production of Shaw's "Heartbreak House," the provocative discussion of modern architecture by architect William Wenzler of Brookfield, Leon Travanty's drawings, and the colorful impressions of African music by Miss Marion Gerlach of Northbrook, illustrated with slides and sound tapes made personally by her in Liberia.

A faculty committee developed and carried out the plans for "Emphasis: The Arts," with the active encouragement of President Albertson and Dr. Edgar Pierson, Dean of Graduate Programs and Director of the Sum-

"The Tender Trap," Max Shulman's comedy about a handsome bachelor with a plush New York apartment and a bevy of feminine admirers, opened WSU's successful first season of Summer Theater. Above, Richard Halle in the leading role is surrounded by, left to right, Arlene Tobias, Alice Tweedie, Cynthia Parkovich and Marti Virtue.

mer Session, Committee chairman was Miss Pauline Isaacson, head of the speech and drama department; committee members were Dean Blair of the music department, Richard Schneider of the art department, and Dean Cantrick. The School of Fine Arts is grateful to the University Library Staff for contributing a book exhibit and a lecture on "The Making of Books" by Frank Brey.

Big Arts and Lecture Series

Unity among the arts here at Point is not limited to the School of Fine Arts. It is evinced on an all-University level by the Arts and Lecture Series. Greatly expanded in scope and quality for 1964-65, this series rivals those of the largest cities and universities. Internationally known symphony orchestras, singers, actors, and chamber ensembles will be presented. The Arts and Lecture Series, developed under the energetic direction of William Dawson, associate professor of speech and drama, has two main subdivisions: a concert series of four attractions in the fieldhouse and a chamber series of five attractions in the auditorium. In addition, the series includes the Cinema Art series, the Nickelodeon film series, Audubon lectures, and several single attractions.

By buying season tickets to the concert series or the chamber series, one may save up to 60 per cent over the cost of single admissions. The Arts and Lecture season sale begins September 21. The first attraction is the Warsaw Philharmonic on October 19. For season tickets, write or phone Mr. Dawson at extension 207 or room 113, Main.

New Symphony Policy

Not only are the arts cooperating but also the sponsors of art. The University and the community have worked out a new agreement for the mutual sponsorship of the Stevens Point Symphony Orchestra during the 1964-65 season. The University has purchased a large block of season tickets for students. The symphony has appointed to its Board of Directors the University Dean of Fine Arts, Robert B. Cantrick. Together the symphony and University look forward to a joint operation which will be aimed at serving the entire Wisconsin River valley.

A new program policy by the symphony will attempt something which no professional artists from outside this area could ever accomplish: development of Wisconsin's own creative talent. For example, considerable excitement is likely to develop when some high school boy or girl, chosen by competition from the entire state, appears as soloist with the orchestra. And widespread enthusiasm among parents and teachers is predicted when outstanding choruses from schools or communities of this area are invited to perform with the orchestra. Conductor Hugo Marple, who is also head of the University's music department, will be interested at any time to hear from groups who might be candidates to appear with the orchestra.

The symphony season opens in October and will continue with two concerts in the spring. The board of directors got its ticket campaign off to an early start in August with gratifying results. Season tickets at \$10 are still available from Edward Wotruba, treasurer, Stevens Point Symphony, 331 Lindbergh Avenue, Stevens Point.

Art Exhibition Series

Besides these many examples of artistic cooperation a number of special events, sponsored by the individual departments, are of unusual interest. A highlight of the coming year will be the exhibition series arranged by the department of art, Henry Runke, chairman. These shows draw heavily on the talents of regional artists, whose achievements deserve special recognition. They are presented in the Library Theater with the cooperation of the library staff. Detailed arrangements are in the hands of Norman Keats, assistant professor of art, who has announced that outstanding fall events include: an exhibition by William Prevetti opening September 14, a show by Dick Schwanke opening October 19, and one by Marilyn Berens beginning November 23.

College Theater

A lively playbill has been posted by College Theater, including Kingsley's "Detective Story" in October and Peter Ustinov's "Romanoff and Juliet" in December. In the spring there will be productions of Hart's "Light Up The Sky" and Eliot's "Murder in the Cathedral." Season tickets at \$3.50 each guarantee a reserved premium seat on the night of your choice for all four plays. Alice Peet, William Kramer, and William Dawson will

+ No admission charge

share the direction of the plays. Again this fall the Speech Department will be host to three events which annually attract a large number of high school students to this campus, the Speech and Drama Institute, the district drama contest, and the sectional drama contest. Also during the fall two programs of interpretive readings from great works of poetry, prose, and drama will be presented by students under the direction of Mary Elizabeth Thompson, assistant professor of speech and drama.

Annual "Messiah" Concert

Following an annual custom, musicians from both the area and the University will combine to present Handel's oratorio "Messiah" at Christmas time. The most ambitious undertaking of the music department in recent years has been the production of a full-length opera from the standard repertoire. This year's opera will be staged in early November. The lighter side of musical theater will be emphasized in the spring with the production of an operetta or musical comedy.

A feature of Homecoming Week will be a concert by the faculty jazz combo, returning by popular demand following last spring's initial appearance. Another feature of Homecoming festivities will be the appearance of the marching band between halves of the football game. The marching season is only the beginning of a busy year for the band, which will swing into concert season in November with its presentation of a clinic on new music and techniques for visiting high school band directors and bandmen. Around Thanksgiving time the University Choir will present its first concert of the season. Several outstanding solo recitals are planned by individual faculty members throughout the year.

During the past summer three programs of unusual interest took place, each sponsored by one of the Departments of the School.

Summer Theater

The department of speech and drama headed by Professor Pauline Isaacson launched its first season of summer theater. The response of the public was most gratifying. A company of ten actors were in residence during the summer session, plus a group of students enrolled in the Technical Theater Workshop. William Dawson of the University faculty and James Rosenberg from the Carnegie Institute of Technology faculty were the directors. Bruce Pearson came from Allegheny College to be technical director. He was assisted by Bernard Stanke. Five plays were presented, ranging from the ambitious production of Shaw's "Heartbreak House" to the rollicking comedy, "Harvey." Watch for news of the 1965 Summer Theater season.

The department of art continued its successful sponsorship of the annual Art Education Workshop in northern Wisconsin at the Wisconsin State University Pigeon Lake Field Station, August 13 through 29. Students included in-service teachers as well as undergraduates. Studio and field work was given in crafts, design, drawing and painting. The workshop was under the direction of Professor Henry Runke, head of the art department. At the option of the student, three credits could be earned for successful work and accepted as residence credit by any of the nine Wisconsin State Universities.

Point Music Camp

The Department of Music headed by Hugo Marple again operated its annual Point Music Camp. This summer's operation was the largest to date, enrolling over 300 students. This summer also saw the successful inauguration of a string orchestra program at the camp. Senior high school campers arrived June 14 for a week of concentrated music-making, interspersed with recreation. Junior high campers came in two batches: one the week of June 28, the other the week of July 5. Each group climaxed its week at camp with a concert in the fieldhouse before a large audience of parents, friends, townspeople, and University personnel. The campers added a political sidelight to the musical atmosphere by electing a king and queen.

The impressive roster of guest conductors included Harry Carter, acting director of the choral program from the University of Illinois; Fredrick Balazs, conductor of the Tuscon, Arizona, Symphony Orchestra; Robert Griffith, director of bands from the University of Louisville; and Dr. J. W. Worrel, supervisor of music from Cincinnati. The active direction of the camp was undertaken by Dr. Warren Lutz, University director of

Bands, assisted by Robert Van Nuys of the music faculty. Two woodwind specialists served not only on the camp staff but also as instructors in the University's summer graduate program: Dr. Daniel Mac Anninch, solo oboist of the Louisville Philharmonic, and Dean Cantrick, flutist.

Graduate Program

A large number of high school music teachers from Wisconsin, Illinois, and Minnesota spent the summer in the music department's program of graduate studies leading to the Master of Science in Teaching-Music degree, the only such program at present offered in the nine Wisconsin State Universities.

Two graduate courses were offered this past summer by the department of speech and drama: a seminar in Interpretation and the study of American Public Address.

WSU to Train Leaders from Other Lands

Competing against 140 educational institutions, Wisconsin State University here is one of six chosen by the American Association of Colleges for Teacher Education to participate in an administrative internship program.

Detailed plans for the program have not been worked out, said WSU officials. It is a pilot project designed to help develop outstanding educational leaders for underdeveloped nations.

The project is sponsored jointly by the Agency for International Development and the U. S. Department of State.

In notifying President James H. Albertson of the selection of WSU as a place for the internship, it was pointed out that "It is the feeling of the committee that WSU and you would personally make available the kind of experience we hope will help develop outstanding educational leaders for some of the underdeveloped nations of the world.

"I am convinced that one of the most exportable commodities we can offer the developing nations of the world is our educational know-how... which will help administrative interns develop a top-notch training institution along democratic lines."

When the intern for WSU has been selected, President Albertson will visit the country from which he will come. This probably will be in September or October. In this way, the president may acquaint himself with the major educational problems in the country from which the intern will come. Expenses will be paid by the sponsoring organizations.

Administrators of the six colleges receiving the grant will meet soon in Washington, D. C., to discuss implementation of the project. The interns, too, will be briefed in Washington before proceeding to the campuses.

The intern will receive his administrative training in the three major divisions of the college — business, academic and student affairs. This will provide him with the ability to return to his native country and develop a teacher-training institution along democratic lines.

State Legion Commander is WSU Graduate

Robert T. Leklem, Wausau, elected state commander of the American Legion in Wausau, attended Wisconsin State University here.

A native of Wausau, Leklem served in the Navy in World War II. He attended WSU after his discharge and graduated in 1950. While here, he was football and basketball team manager.

News From Pointer Alums

MR. and MRS. JERRY L. BOWER, both 1960 graduates of WSU, are living in Port Huron, Michigan. Mr. Bower is an instructor at the Junior College in Port Huron. Mrs. Bower is the former DONNA A. DONNER. They have three children, Paul, 3 years, Craig, 2 years, and Eric who was born on May 28, 1964. The Bowers live at 2913 Cooper Ave. in Port Huron.

THOMAS G. MEIER, '64, is a Peace Corp Trainee at Syracuse, New York preparing for a program in Tanganyika, Africa.

Commissioned in the U. S. Navy on February 14, 1964 was 1963 graduate JAMES DIENSTL. He has completed a primary phase of flight training with the navy and has begun advanced training. He is a member of the Training Command Band and Drum and Bugle Corps, and has played in the New Orleans Mardi Gras Parades. The band also helped to open the World's Fair in New York.

DOROTHY SCHARF PARKER, '44, reports that she has resumed her teaching at Freedom, a small community near Kaukauna. She had taught previously at the Milwaukee Vocational and Adult School from 1957 to 1962 in the Homemaking Department. Her family moved to Route 1, Kaukauna, Wis. in November, 1962.

Living at 1944 Henry St. in Neenah, Wis. is GWENITH BOLZ BURKHARDT, '59. She has taught first grade in the Neenah School System for the past five years. Her husband, Samuel F. Burkhardt, is a chemical engineer for the Kimberly-Clark Corporation in Neenah, working in research and development.

GORDON P. BIGALKE, '54, is Director and President of Juneau County Home Development, nc. The corporation is a general building contractor, presently engaged in sub-division development and government housing in the City of New Lisbon, Wis. Mr. Bigalke is also General Manager of Radio Station WRJC at Mauston, Wis. and operates the Home Theatre at New Lisbon. His wife, Judy, teaches fourth grade in the New Lisbon schools. The Bigalkes have a new home in the Allen Road Sub-Division in New Lisbon.

JAMES E. BALZER, '61, is working as a Public Health Sanitarian with the District No. 2 Office of the Wisconsin State Board of Health in Milwaukee. His work covers three counties, Racine, Kenosha, and Walworth, inspecting restaurants, vending machines, hotels-motels, tourist rooming houses, cottages, etc. Prior to this position he was a Food & Drug Inspector with the Federal Food and Drug Administration in Chicago. He has recently been accepted as a member in the National Association of Sanitarians and the Food and Sanitation Officials of Wisconsin and is studying to become a registered sanitarian. He and his wife, the former Elaine J. Rucinski of Wisconsin Rapids, have a daughter, Mary Lynn, who is two years old. The Balzers live at 4112 W. Capitol Drive, Milwaukee, Wis.

Teaching home economics at the Butte des Morts Junior High School in Menasha, Wis. is 1963 graduate HELEN GRUETZMACHER.

WILLIAM J. EDWARDS, '52, is serving as Assistant Vice President of the Great Lakes Insurance Group and is in charge of operations at the Branch Office in Madison, Wis. He is married to the former Delores Skowen and they have four children, Cynthia, 12, John, 11, Judith, 10, and William Jr., 4. The Edwards live at 4344 Bagley Parkway, Madison.

Living at 8900 N. Upper River Rd., Milwaukee, Wis. is LEAH M. HUBERTY DUMKE, '62. Her husband is a meat cutter for Sentry Foods in Thiensville, Wis. Their first child, Brad, was born in April, 1964. Since graduation Leah has taught in Green Bay and Menomonee Falls, Wis.

TERESSA DORAN JONES, '58, has taught at the Hortonville Elementary School since 1960. The past year she served as secretary to the principal of the Hortonville School. Her husband, Douglas, is employed by the Village of Hortonville as Chief of Police. A boy, their first child, was born on April 18, 1964. The Jones live at 322 North Nash in Hortonville, Wis.

BERNICE J. YONKEE, '59, reports that she has been Sec.-Treas. of the Wis. residents in Central California for the past five years. A reunion is held on the 2nd Sunday of September in Modesto, Calif. Miss Yonkee has maintained an interest in Little Theater and in the past few years she has appeared in Auntie Mame, Romanoff and Juliet, and Cat on a Hot Tin Roof. She received a nomination by the Los Gatos Community Players as best character actress for her part as Big Mama in the latter play. Miss Yonkee also serves as chairman of the insurance committee of the Alum Rock Teachers Association, San Jose and as President of the Bay Area organization of single Lutherans who meet for fellowship, sports and trips. Her address is: Apt. 1, 269 Pamela Ave., San Jose, Calif.

Living at 330 N. Birch St., Cedarburg, Wis. is DONNA LOU THOMPSON MLIUS, '54. She is now a homemaker, taking care of her three boys, Craig, 6½, Michael, 4½, and Timothy, born in spring, 1964.

Enrolled in the teacher certification program at North Park College is WAYNE SCHIMPF, '63. His address is 5923 N. Manton, Chicago, Illinois.

GEORGE BARTELT, '57, served as Guidance Director at Eagle River High School (Wis.) for the past year. Prior to this position he taught at Cassville, Tigerton, and Black River Falls High Schools. He received his master's degree from Stout State University.

MABEL LARSON, '54, traveled to Portland, Oregon and other points on the Coast during the past summer. She has been teaching second grade at Menasha, Wis. Her home address is Abbotsford, Wis.

ROBERT A. SCHACHT, '63, of 9525 Beverly Place, Wauwatosa, Wis. recently completed six months active duty with the U. S. Army.

For the past ten years JOHN GOLDBERG, '63, has taught eighth grade and served as principal in Wisconsin Rapids. He is married to the former Della Henke. They live at R. 1, Wisconsin Rapids.

Serving as chairman of the social studies department at Winneconne High School (Wis.) is 1947 graduate JACK V. PERRY. He is married to the former Joanne Kronitz of Winneconne. They have two children, Jill, 4½, and Jacqueline, 2½.

JOSEPHINE DANIEL, '56, has taught at Notre Dame College in Baltimore, Maryland. She has received her Ph.D. from John Hopkins. Her plans include a summer, 1964, wedding to Dr. Louis J. Swift, Assistant Professor of Greek at Latin at Buffalo University, Buffalo, New York.

GARY MANTEUFEL, '61, has accepted a position with the U. S. Department of State, teaching in a Turkish High School, Konya, Turkey. Change of address: MR. and MRS. RAY KIMPEL, both 1963 graduates, have moved from Alaska to Tallassee, Tennessee.

ROGER LARSON, '61, and his wife, Kathleen, are living at 2539 N. 68th St., Wauwatosa 13, Wis. Roger teaches sixth grade at the Madison Grade School in Wauwatosa. He is presently working on his Master's Degree in Administration and Supervision at the University of Wisconsin in Milwaukee.

Stationed in Darmstadt, Germany is 1963 graduate DANIEL L. CUNDIFF. He completed eight weeks of military police training at the U. S. Army Training Center at Fort Gordon, Ga., receiving instruction in such subjects as civil and military law, traffic control, map reading, prisoner-of-war control and self-defense.

FRED KRESTLY, '58, basketball coach at Pulaski, Wis., was honored as the community's "Man of the Year" at a Chamber of Commerce meeting held March 30, 1964. Kestly has been coaching at Pulaski for six years, the past five as head basketball coach. In that time, he converted one of the weaker teams in the area into a force to be contended with, finishing second in the Northeastern Wisconsin Conference three times, including this year.

ALLEN BRADWAY, '61, has been named the manager of the Rock River Cooperative. Prior to this appointment he was manager of a Midland cooperative at River Falls. Before he became associated with Midland he had been attached to Agricultural Stabilization & Conservation Services, a federal agency. He is married and has two children.

Employed as children's librarian at the Burlington Public Library, Burlington, Wis. is ALICE L. SWALJUG, '60. She received a master's degree in librarianship through aid of a 1961 Wisconsin Library Association scholarship from the University of Illinois.

T. V. OLSEN, '55, is the author of a new book entitled, **Break the Young Land**, which came from the press on April 10. His new western, written under the name of Joshua Stark, reflects his interest in the American frontier about which he has written several books. Mr. Olsen lives in Rhineland, Wis.

BURTON E. HOTVEDT, '33, has been elected as a director of the Brady Company, Milwaukee advertising and public relations firm. He has been a vice president and account supervisor of the firm, which was founded in Stevens Point, Wis. He is one of three new members on the six-man board.

Serving at the Army and Air Force Base at Aukara, Turkey is 1962 graduate WALTER DOWTY, JR.

MRS. CARL KUENNE, '56, was honored by the Sheboygan City Council of Parents and Teachers for her work with the children of the community in Scouting, AFS and PTA programs. Mrs. Kuenne, a teacher at the Jackson School in Sheboygan, has been a former co-chairman of the city-wide cookie-peanut sale of the Scouts, a troop committee member, assistant leader, director of Brownie Day Camp and camp staff leader. In the AFS program the Kuenne family opened their home to an exchange student from Uruguay for the 1958-59 term, and later they visited the foreign student in Uruguay.

EDWARD PLISKA, '51, has been named assistant superintendent of instruction for the San Mateo, Calif., city schools where he has been on the staff since 1951. His wife is the former JEAN GULLIKSON who graduated from WSU. She is a physical education teacher in the San Mateo school system.

Elected to a six-year term as Clark County judge is RICHARD F. GAFFNEY, who attended WSU and Marquette University Law School. He has practiced law at Owen since 1938, has been a member of the Clark County Board for 20 years, and has served eight years as district attorney of that county.

DAVID E. WILLIAMS, '39, has been honored for his 25 years of service in the Janesville school system. He has been principal of Wilson Schools, Janesville, since 1945 and prior to this he taught in Redgranite three years. He earned his master's degree from the University of Wisconsin.

ROBERT HACK, '63, has been engaged as a caseworker for the Marathon County Welfare Department. Mr. Hack is a native of Marathon County.

LORRAINE (PETERS) QUINN, '48, reported that her husband has been appointed as quality control superintendent of the Schlitz Brewing Co. plant in Honolulu, Hawaii. She states, "Our family moved here on March 6, 1964 and since then have been busy getting settled in our new home and soaking up this ideal weather and climate." The Quinns new address is: 1420 Olive Street, Honolulu, Hawaii, 96818.

WSU graduate JAMES E. FAEHLING has been named to the position of caseworker-supervisor of the Waupaca County Welfare Department. A 1960 graduate of WSU, Faehling recently obtained his Master's Degree in social work from the University of Wisconsin.

Teaching mathematics at Wisconsin State University, Whitewater is 1959 graduate ALTON T. OLSON. He did graduate study on a National Science Foundation scholarship at Illinois Wesleyan University, Bloomington and at the University of Wisconsin, Madison. He formerly taught in the Kimberly High School and in the Shorewood High School in Milwaukee. He and his wife have a son, Michael.

Teaching boys' physical education and swimming at Fall River, Wis. is 1962 graduate LEE MEGOW. Prior to this position Lee taught junior English at Wisconsin Rapids. He has been doing graduate work at the University of South Dakota majoring in physical education.

ROBERT C. CHESEBRO, '60, is teaching instrumental music at Hammond High School, Hammond, Indiana. He was married on February 15, 1964 to the former Gayle Margaret Kompelien of Palatine, Illinois. She is a January 1964 graduate of Indiana University and now teaches vocal music at Gavit High School in Hammond. Mr. Chesebro received a Master of Music Degree from Indiana University in 1963. He and his wife both play in the Gary Symphony Orchestra. The Chesebros live at 2219-169th, Apt. 35, Hammond Indiana.

Residing in Elba, Nebraska are MR. and MRS. CLINTON R. BAILEY. Mr. Bailey, '60, is music instructor for the Elba-Ashton Public Schools. Prior to this he taught music and civics at the Bowler Public School in Bowler, Wis. Mrs. Bailey is the former MARY JANE KLEIST who graduated from WSU in 1961 with a Bachelor of Music Degree. The Baileys are expecting their first child in January, 1965.

MRS. FRANK RATAJCZAK, the former JANET JOOSTEN, '38, is living with her family at 22390 Oak Ave., Los Altos, California. She taught English and history and associated subjects in high schools in Wisconsin for fifteen years and taught English for one year in California at Castilleja, a private school for girls in Palo Alto. Her husband is West Coast District Sales Manager for the Allied Chemical Corp., Nitrogen Division. They have one daughter, Robin, 8.

FRAN ROMAN, '58, is the new head football coach and athletic director at P. J. Jacobs High School in Stevens Point, Wis. Prior to this appointment he was football coach at Pardeeville, Wis. where his football team had a 26-0-1 record, one of the best in the state. They were Dual County Champions for three consecutive years, co-champs in 1961 with Randolph, the only tie game, and undisputed Champs in 1962 and 1963.

Serving as band instructor and chorus director at Blanchardville, Wis. is BONNIE SCHEELK, '63. She taught mathematics and directed the band at Wauzeka, Wis. prior to this appointment.

Two WSU graduates are seeking entrance into the political field. RAY LECY, '52, is a candidate for the Republican nomination for state senator in the 24th District, which includes Portage, Wood, Waushara and Green Lake Counties. He has been a teacher and coach in Wisconsin Rapids for twelve years. LEWIS T. MITTNESS announced his candidacy on the Democratic ticket for state assemblyman to represent Rock County's 1st District. He has been a Marshall teacher for the past six years; prior to that he taught three years in the Lake Mills school system. WILLIS J. HUTNIK, who attended WSU, is seeking his seventh term as Assemblyman from Price, Rusk and Sawyer Counties, on the Republican ticket. He was elected in 1952.

There was a joyful reunion at the central YMCA, Milwaukee, as Miss Irene Miller (left) and Miss Mildred Novotny met for the first time since their graduation in 1925 from the state teachers college at Stevens Point. Miss Miller, of 4001 N. Prospect Ave., Shorewood, is director of home economics for the Milwaukee board of education. Miss Novotny is a home economist with the University of California extension service at Berkeley. She is a native of Antigo and formerly taught in Whitefish Bay.

Seek Changes in State's Pattern of Education

Two local men who believe Wisconsin's education system is failing to meet the needs of youth and society are spearheading a drive for a statewide comprehensive community college system.

The plan, proposed by John C. Thomson and James H. Albertson, would create a network of two-year schools offering both academic and technical training.

Thomson is a member of the board of regents of the state university system and Albertson is president of Wisconsin State University-Stevens Point.

Community colleges would, they believe, close a huge gap not now filled by higher education or vocational schools.

The need is urgent, they say, because the growing technological revolution is making it far more difficult for unskilled youths to enter the job market. "The portholes into the economy are getting tougher and tougher to enter," said Thomson.

Computers, new power sources and other advances are expected to accelerate the technological revolution, and Wisconsin, they contend, is doing only half a job to meet the challenge.

"The best minds say those things (computers) can now do judgmental work," said Thomson. "We've got to keep people ahead of the machines."

Thomson's and Albertson's ideas would, if adopted, halt the growth of university centers, WSU branch campuses and vocational schools in Wisconsin. Instead, the comprehensive community colleges would assume the responsibilities of all—and in a more efficient manner, they believe.

Only 43 per cent of Wisconsin's youth now go on to academic higher education, Thomson said, and most of these do not graduate. Only seven per cent take post-high school vocational or technical training.

But another 40 per cent, he said, are capable of absorbing more education—and must do so to compete in an increasingly competitive job market.

In California, which has a system of comprehensive community colleges, 81 per cent of all youth continue their education beyond high school.

Failure to reach more Wisconsin youth, said Thomson and Albertson, is a disservice to young people. And in time, they declared, it could make this state "an economic backwater."

Thomson and Albertson do not claim to have originated the idea of the community colleges.

California pioneered the concept, and at least 30 states are moving into the program at varying speeds.

In Wisconsin, the idea has been studied and rejected three times by the Coordinating Committee for Higher Education.

"You can't keep a good idea down," said Albertson in explaining why he and Thomson revived it.

Both seem reasonably optimistic about its chances, although they said there are "a thousand obstacles before fulfillment."

The state university regents have given it strong support.

President Albertson and Regent Thomson

The State Board of Vocational and Adult Education, which would govern the community colleges, is showing an interest. The fact that the Vocational Board would run the program is a selling point for Thomson and Albertson, who stress it as proof that the plan isn't an empire-building scheme of the state universities.

University of Wisconsin regents and officials have been less enthusiastic, though not flatly opposed.

Thomson said he thinks the program could be implemented without the backing of the influential university, but he admitted the eventual support of the UW is "vitally important."

At the moment, the Coordinating Committee is studying the plan again.

If all goes the way Thomson and Albertson want it, the CCHE will have a program outlined for the next State Legislature, with passage and implementation in the 1967-69 biennium.

"It can't be done any earlier," said Thomson. And if it is delayed any longer, he added, it will be too late—"we'll be frozen into the existing structure."

The problem is that 13 additional UW centers and state university branch campuses, plus 25 new vocational schools, are in the planning stage.

Nine university centers and 58 vocational schools are already in existence, and two UW centers, a branch campus and an unspecified number of vocational schools will be built in the next biennium.

After that comes the crossroads, Thomson believes. If Wisconsin delays past 1967-69, he said, the separate academic and technical post-high school programs will have crystalized and it will be too late for a merger.

But if the new plan is inaugurated then, he declared, separate programs where they now exist might gradually be brought together.

What about cities—Stevens Point, for instance—which have four-year colleges or universities? Conceivably, said Thomson, separate vocational schools would be retained there. Or regional community colleges could be established close enough to permit commuting.

Why try to bring the academic and technical systems together?

"If you have a purely academic program," said Thomson, "you're not making a good citizen. He needs to broaden his liberal education. This is far easier to do in a comprehensive program."

And, added Albertson, those whose education is primarily academic should be exposed to technical training. "For the person who is going to be a lawyer or a school teacher," he said, "there is a gap in his education now."

Exposure to the technological side of education is also needed in four-year colleges, he declared. "We need a greater appreciation for the people who wear blue collars," said Albertson.

You have to grasp the unbelievable change that confronts society," declared Thomson. "We don't really feel it up here but you begin to sense it in the cities."

The present educational system, Thomson said, "is tied to a relatively changeless society," and is designed to produce college graduates.

But not everyone is capable of or even interested in a formal college education, he declared. He points out that while semi-skilled and unskilled jobs are diminishing, the nation is confronted with a rapidly growing need for people with technical training—lab assistants, data processors, draftsmen, practical nurses and the like.

Because of the failure to provide it, said Thomson, schools are saddled with reluctant students who see no relationship between education and their future needs.

Some become dropouts and others, he declared, are jammed into colleges and universities though they aren't ready or able to absorb this kind of training.

Historically, vocational training grew up as a separate field because classical educators refused to include it in their curricula. Today, most educators regard this as a mistake, believing it has damaged the status of technical education and deprived many youths of the form of training that would benefit them most.

"Expansion of opportunity for the individual, coupled with developments in science and the humanities, necessitates more educational programs for more people," said Albertson.

There are psychological reasons, he declared, why comprehensive community colleges should be established rather than just tacking on two more years to the high school program.

For one thing, he said, the community colleges would be for adults as well as youths, and adults would be reluctant to go to high school.

The colleges would have a four-fold function:

1. Two years of academic education, designed to prepare students for transfer to four-year colleges and universities.

2. Technical-vocational training.

3. Terminal training for students who are not sure whether to continue in the academic or vocational fields.

4. Adult education. (In an era of change, said Thomson, "people are going to have to be students all their lives.")

Along with this the colleges would provide intensive counseling and guidance to help students find where their talents and interests lie.

"Guidance is the backbone," said Albertson.

Would mixing the pure academic with the pure vocational result in a watered-down program?

"The University of Wisconsin," said Albertson, "offers agriculture, home economics, a school of education, letters and science, physics and a graduate program. Is the university offering a watered-down program because it is comprehensive?"

"The advantages of a comprehensive community college are manifold," he declared. "One of them certainly is cost. You would have one plant, one administration."

Thomson and Albertson say cost details have not been worked out, but they do not deny the new system would be expensive.

But the alternatives are expensive, too, they said.

"We could probably jam another 10 per cent into our higher education system and another 10 per cent into the vocational system," said Thomson, but this would still leave a large gap.

Higher welfare and crime bills, he declared, could be the result, along with a weak economic base.

"Seventy-five years ago," said Albertson, "Wisconsin made the same decision we're making today. In those days the eighth grade was terminal. Then the state committed itself to universal educational opportunities beyond the 12th grade.

"I'm sure we could dig into the archives and find statements then that the State of Wisconsin couldn't afford it and didn't need it."

Point Approved by American Association Of University Women

In the spring of 1963 Wisconsin State University-Stevens Point was given approval by the American Association of University Women. This means that all of Stevens Point's women degree graduates are eligible for membership in one of its various branch organizations and study groups. We feel this is good news for our alumni for various reasons. It immediately puts them on an equal footing with graduates from all other colleges and universities. It offers them an opportunity to meet new friends and also to share in the great program of AAUW, a program dedicated to helping improve the status of women throughout the world and, through their extensive scholarship program, help them improve their professional standing. Some of our own graduates have received AAUW scholarships for graduate work. I suggest that if you are interested in affiliation, that you contact the Branch president in your community.

John S. Fochs Appointed Superintendent of Wauwatosa Schools

Mr. John S. Fochs, a 1951 graduate, has been appointed as superintendent of Wauwatosa's school system, effective July 1, 1964. He moves from the second highest post in the system, assistant superintendent of schools for instruction.

The promotion climaxes a series of advancements in Wauwatosa where he began working in 1956 as principal of Jefferson elementary school. After two years, Mr. Fochs became principal of Hawthorne junior high and after another two years was named assistant superintendent in 1960.

A native of Mosinee, Wisconsin, he attended elementary and high school there, graduating in 1935. He continued his education at Marathon County Normal school at Wausau, obtaining a certificate; Wisconsin State College at Stevens Point, earning a Bachelor of Education degree in 1951; Wisconsin State College at Milwaukee (now UW-M), Master of Education degree in 1955; and additional work at the state university, both in Milwaukee and Madison.

John S. Fochs

In the field of education, he is a member of the American Association of School Administrators, Association for Supervision and Curriculum Development (regional, state and national), International Reading Association, national and state Audio-Visual Association, national and state Associations of Secondary School Principals and Elementary School Principals. He also is a member of the National Education Association, Wisconsin Education Association, Wauwatosa Education Association, national and state Student Teaching Association, PTA, and Wisconsin Junior High School Association.

His wife is the former Virginia Swotloski of Knowlton, Wis. They have three children, Jeanette, a senior at Mt. Mary College, Milwaukee, Terrance, a sophomore at UW-Milwaukee, and Beverly, an eighth grade pupil at Longfellow Jr. High in Wauwatosa.

Special Summer Session in Audiology Planned

Plans are underway for a 1965 Special Six Weeks Summer Session in Speech Therapy. The selection of specific courses will depend on the needs as expressed by prospective students.

A number of alumni and students working toward a degree have expressed interest in an audiology "package" for 1965. This would mean these three credit courses:

Speech 151—Basis Procedures in Audiology—Nature of hearing; measurement and evaluation of hearing acuity; supervised testing.

Speech 152—Hearing Rehabilitation—Fundamentals of auditory training; methods and practice in teaching speech reading.

The **Special Six Weeks Summer Session in Speech Therapy** was a 1964 "sellout". Dr. Gerald Johnson served as instructor for the two courses, Phonetics and Voice and Articulation, which comprised the **Workshop**.

If you are interested in this 1965 Workshop, indicate this by writing Miss Isaacson, Chairman, Department of Speech and Drama. The Workshop will begin on June 14 and close July 23. Dr. Johnson will serve as instructor.

Death Ends Michelsen's Music Career

Peter J. Michelsen, 81, La Crosse, former director of the music department at Wisconsin State University here and one of the state's most distinguished musicians, died late in May after a brief illness.

Mr. Michelsen retired from the WSC faculty in 1954 but never gave up his lifelong association with music.

He was conductor of the La Crosse Symphony Orchestra at the time of his death. He became ill two days after conducting the orchestra's last concert of the 1963-64 season and suffered a stroke several days later.

Mr. Michelsen was born in Hamar, Norway, near Oslo, and grew up there.

He received diplomas from the Military School of Music and the Conservatory of Music in Norway, where he studied under the famed composer Edvard Grieg. In this country, he graduated from the Vandercook School of Music, Chicago.

Before coming to the United States in 1908, he was a member of the National Band and National Orchestra of Norway, and was also a flutist with bands in Denmark and Germany.

After coming to this country, he settled in Westby. He organized an orchestra at West Salem in 1912 and also directed the village's military band. In 1920 he became music director at Richland Center High School, where he developed state championship bands, and in 1931 he came to the college in Stevens Point.

He not only developed an outstanding band here, but directed the Girls' Glee Club, the chorus and orchestra, and founded Alpha Kappa Rho, honorary music fraternity. Many of his students are now music directors in schools in Wisconsin and other states. He directed the Trinity Lutheran Church Choir for many years.

The Christmas concerts which Mr. Michelsen directed became a local institution. He not only planned the musical part of the program, but went to the woods himself and selected the trees used to decorate the college auditorium.

A kindly, affable man who was popular with students and townspeople, he was long sought after as a judge of music contests throughout the Middle West.

Mr. Michelsen touched the lives of many students here in his 24 years on the campus at the State University. A genial man with rare abilities both as performer and teacher, he had not the stormy artistic temperament often associated with outstanding talent. An inner good nature twinkled in his eyes and sounded in his kindly voice. The musical groups that he directed were a joy to hear because they transmitted the spirit of their conductor.

Those who were favored by the friendship of Mr. and Mrs. Michelsen and who were touched by their inspiring devotion to each other know that his death removed from our midst an uncommonly good man. There are too few like him.

In 1954 he directed his last WSU concert and retired. Mr. Michelsen and his wife, who lived at 216 N. Michigan Ave., moved to La Crosse in 1955.

There, he taught parttime at La Crosse State University, continued to serve as a music contest judge and, in 1956, became director of the La Crosse Symphony.

The University of Wisconsin honored him in 1962 for distinguished service to music.

Mr. Michelsen's wife was the former Ethel Oltman, whom he married in West Salem in 1916. She died Nov. 14, 1956.

Surviving are a daughter, Mrs. A. J. (Ruth) Bentz, La Crosse; six grandchildren; and a brother, Magnus, of Westby.

Latin American Studies Included At WSU

Because of the growing interdependence of the U.S. and Latin America, a minor in Latin American Studies will be offered at Wisconsin State University this fall.

President James H. Albertson announces that a major will be offered in the fall of 1966 because geographical proximity, economic interdependence and political conditions make Latin America an area of vital concern to the U.S.

The interdepartmental Latin American program is designed to provide a knowledge of Latin American geography and culture especially useful to those who plan to go to Latin America with a business concern or for the U.S. government.

The WSU Latin American minor consists of 24 semester hours, and the student may choose from such courses as Middle American Geography, South American Geography, Colonial Latin American History, Recent Latin American History, Independent Mexico, Peoples of Central and South America, International Trade, Population Problems, International Politics, History of American Diplomacy since 1881, The Ways of Mankind, and the History of Recent World Politics.

Dr. Robert J. Knowlton, adviser for the program and WSU assistant professor of history, earned his Ph.D. from the State University of Iowa, attended the University of Mexico in Mexico City and was stationed in Panama with the U.S. Army.

Other staff members include Dr. Maurice E. Perret, assistant professor of geography who earned the Ph.D. at the University of Lausanne and has lived in Latin America; Dr. Ralph S. Holloway, associate professor of sociology, who holds the Ph.D. degree from the State University of Iowa, and Francisco Solinis Herrero, assistant professor of Spanish and French, who holds the M.A. degree from the Universite de Toulouse in France. Related courses will be taught by members of the history, political science, economics and sociology departments.

The major will consist of 34 semester hours, and four semester hours of college Spanish beyond the first year level will be required.

Travel, work and study in Latin America are also recommended, and the college plans to investigate exchange programs, summer-travel study and other phases of international programs.

State Buys Homes for Building Site

The State has substantially completed purchase of an area west of Wisconsin State University's Science Building, where a new classroom building will be started this fall.

Involved are 14 parcels of land containing 13 homes, two of them duplexes.

The purchase includes property on both sides of N. Phillips Street, between Franklin Street and 4th Avenue. It also takes in the block west of Phillips to Isadore Street. It does not, however, include those homes in the block facing Franklin, except for one on the corner of Phillips.

The purchase, long in the making but only recently cleared by the State Building Commission, cost \$235,000, said WSU President James H. Albertson. All the property was bought without condemnation.

Homes in the area, most of them relatively new, have been moved off with the state taking possession of all of them Aug. 1. North Phillips will be closed between Franklin and 4th.

The classroom building is scheduled to be started this fall. The cost, including land, utilities and other related expenses, is estimated at \$2,030,000.

The building is scheduled for completion by September 1965, but Albertson said it may not be finished until somewhat later.

State Universities to Get Many Valedictorians

Valedictorians of more than 100 Wisconsin high schools enrolled this fall as freshmen at the nine Wisconsin State Universities.

Eugene R. McPhee, Madison, director of state colleges, said reports show a total of 277 type A legislative scholarships awarded thus far to top-ranking high school students. Included are 104 valedictorians, who rank No. 1 in their graduating classes, and 72 salutatorians, who rank No. 2.

The Legislature has authorized one, two or three scholarships for top-ranking students in each Wisconsin high school, depending upon total enrollment. The scholarships cover the general fee of \$190 for the 1964-65 school year. Scholarship students pay approximately \$70 in other fees for the year.

Additional type A scholarships were awarded during the summer, McPhee said. Last September, 331 students enrolled with the help of such scholarships.

State Universities also are authorized to issue approximately 1,300 type B scholarships, worth \$190 each, to students who rank in the top half of their classes, have leadership qualities and need financial assistance in order to attend college.

The nine state universities report that approximately 1,200 of those scholarships already have been awarded. At some of the universities, because of the number of applications, the scholarship winners generally ranked in the top 20 per cent of their classes, McPhee said.

WSU's Goal Not Just Job Training

A university education is not merely a means of moving up a step or two on the economic ladder declares President James H. Albertson of Wisconsin State University in an outline of goals for the university.

WSU's president said a student must, by necessity, learn vocational skills. However, President Albertson declared he believes the student must develop other skills and qualities in order to effectively take his place in the world of tomorrow.

A Long Range Goals Committee has been meeting with the president in an effort to come up with specific goals so that work may begin on curriculum re-evaluation.

The new goals call for the development of the student as an individual as well as a breadwinner.

Using the new goals as a yardstick, the future WSU graduate is projected as a person who understands the history of forces and ideas that have affected societies down through the ages. This ideal graduate also must have concern for ideals of democracy and social justice as well as a sense of responsibility to his fellow man. He is, of course, competent in his chosen field; thinks clearly and logically and appreciates the perspective, judgment and wisdom of a liberally educated person.

Ideally, he also develops creativity, is aware of the importance of physical fitness, realizes that learning is a lifelong process and does not plan to slam the door on learning on graduation day.

The new goals stress the need to develop the student's ability to communicate. This will be accomplished by developing the ability to observe, listen and read critically. Emphasis also will be placed on writing and speaking with clarity and force.

The WSU educator emphasized that students should recognize that all fields of knowledge are related. President Albertson said, "Too often students are not held responsible for English composition in all classes. All faculty members must regard the quality of their student's writing as significant."

Other projected goals are development of intellectual curiosity, recognition of the importance of knowledge to mankind and the understanding and practice of the arts, philosophy and scientific disciplines.

"A student must be able to think clearly about what he, a person, is and about his life's purpose," stated President Albertson.

Meanwhile, President Albertson has restructured faculty and administrative organization so that these goals may be implemented and that curriculum evaluation may go forward.

Marriages

ROBERTA LYNNE SLATER, '64, and THEODORE LANCE HOLTHUSEN, '63, were married in the summer of 1964 at Stevens Point. Mr. Holthusen is a student at Luther Theological Seminary in St. Paul, and his wife teaches in that city. Their address is: 980 Manvel, St. Paul, Minn.

JANICE M. WANKE, who graduated from WSU in 1964 with a degree in music education, was married in May, 1964 to EARL F. HIGGINS. Mr. Higgins attended the University of Wisconsin and WSU.

Living at 320 S. 6th St., Cornell, Wis., are MR. and MRS. EDWARD J. NELSON who were married in May, 1964. Mr. Nelson, a '62 graduate, is employed as a Wisconsin conservation warden. His wife, the former Elizabeth Scipior, was employed by the First National Bank of Stevens Point. LOUISE MARY VROBEL, '60, and RICHARD E. HLINAK were married on June 6, 1964 at Stevens Point. Mrs. Hlinak taught at Tigerton last year and now teaches in the Lomira, Wis. public school system. Mr. Hlinak, a graduate of WSU, Oshkosh, teaches in the Fond du Lac public school system.

Two 1964 graduates, MARY ANNE NOHR and WILLIAM E. LAMBRECHT, were married in Merrill, Wis. They reside in Milwaukee where Mrs. Lambrecht has accepted a teaching position and her husband has accepted a teaching assistantship for graduate study at the University of Wisconsin-Milwaukee.

On June 13, 1964 CARYL ANN CASHIN became the bride of FREDERICK A. ORLANDO, '64, at St. Stephen's Church in Stevens Point, Wis. Mr. Orlando is employed as a claims adjuster for Employers Mutual Insurance Co. of Wausau; his wife, who attended WSU for two years, was employed as a receptionist for Sentry Insurance of Stevens Point.

GENEVIEVE GREEN, '63, and NYLES ESKRITT, '62, were married in June, 1964 at Waupaca. Mr. Eskritt is a junior in the School of Medicine of the University of Wisconsin, and his wife teaches home economics in Madison, Wis. Their home is at Route 3, Syene Road, Madison.

Living at 802 S. Division St., Stevens Point are MR. and MRS. CARL A. CARLSON who were married in Wisconsin Rapids on June 27, 1964. Mrs. Carlson, the former JUDITH STOUT, '63, is employed as a social worker with the State Department of Public Welfare, Division of Children and Youth. Mr. Carlson, who graduated from Spencerian College, Milwaukee, with a bachelor of business administration degree, is employed by the Ellis Stone Construction Co., Stevens Point.

Marriage vows were exchanged by CONSTANCE ANNE SMOODIE, '61, and GEORGE F. HOWLETT, JR., '61, on June 20, 1964 at Nekoosa. Mrs. Howlett received a master of music degree from the University of Indiana and has been teaching music at Flint, Michigan. Mr. Howlett, a teacher of biology, is a candidate for his master of science degree from the University of New Mexico. The couple live at Palmdale, California where Mr. Howlett teaches general science, anatomy, and physiology at the Antelope Valley Union High School.

LORRAINE HELEN FREDRICH and ELIO ALLAN PASCUTTI were married on June 6, 1964 at Mosinee, Wis. The bride is a senior at WSU, and the groom, a 1964 graduate of WSU, is a teacher at P. J. Jacobs High School in Stevens Point. They reside at 211 N. Illinois, Stevens Point.

NANCY K. MOORE became the bride of FREDRIC C. MAXFIELD in June, 1964. Mrs. Maxfield was graduated from the University of Wisconsin in home economics; her husband was a June, 1964 graduate of WSU. He is employed by the federal government.

Two WSU graduates, SANDREA LEE EWERT, '64, and JERRY J. TIMM, '64, were married in Rippling, Wis. in June, 1964. They reside in Crownpoint, N. M. where both teach in Navajo Indian Reservation Schools for the U. S. Government, Bureau of Indian Affairs.

MARILYN ANN READER and LARRY LEE JOHNSON, '64, were married in Stevens Point this summer (1964). Mr. Johnson teaches in Racine, Wis. His wife has been employed as a secretary at WSU.

Residing at 707 El Sagundo St., Schofield, Wis. are MR. and MRS. THOMAS J. LONSDORF who were married in May, 1964. Mr. Lonsdorf, a 1961 graduate, is employed by the Wisconsin State Employment Service. His wife is employed by Sterling Drugs.

MARILYN M. WERNBERG, '61, and RICHARD L. BUTZER were married on June 20, 1964 in Stevens Point. Mrs. Butzer has been teaching in West Allis, Wis. Mr. Butzer, a graduate of the University of Wisconsin, is employed by an insurance company in Milwaukee. They make their home at West Allis, Wis.

MIRIAM KILTY, '63, and HARLEY JOHNSON were married this summer (1964) at Unity, Wis. Mrs. Johnson is a third grade teacher at Colby, Wis. while her husband is employed by Rollohome Corp. in Marshfield. The couple resides in Colby.

Two WSU graduates, DELORES GOETZ, '64, and JOHN WAGNER, '63, were married in June, 1964 at Montello, Wis. Mrs. Wagner is a member of the faculty at Washington school in North Fond du Lac. They reside at 159 West Arndt St., Fond du Lac, Wis.

EATRICE PAVEY, '45, and ROBERT R. RULE were married this summer (1964) at Appleton, Wis. Mrs. Rule, a graduate of WSU, holds a master's degree from the University of Wisconsin, Madison and is employed as a teacher at Franklin School in Appleton. Mr. Rule is with the Wisconsin Michigan Power Co. They make their home at 522 E. Glendale Ave., Appleton, Wis.

SANDRA LEE FRISTAD, '64, and JOHN P. ENGEL, '64, were married in Stevens Point on June 20, 1964. They make their home in Caledonia, a suburb of Milwaukee, where Mr. Engel is employed as an insurance adjuster by the General Adjustment Bureau. Mrs. Engel taught at Green Bay the past semester and now teaches at Greendale, Wis.

LOLA JANE GUENTHER became the bride of JOHN S. MAIN, JR. on June 13, 1964. Mr. Main, '62, is an English teacher at Lincoln High School, Wisconsin Rapids. Mrs. Main is a senior at WSU, her major home economics. They reside at 410 McCulloch St., Stevens Point.

Living in Green Bay, Wis. are MR. and MRS. ROGER BINTZ who were married on June 13, 1964 at Stevens Point. Mr. Bintz, '63, taught in Wisconsin Rapids last year and now teaches in the Preble system, Green Bay. Mrs. Bintz, the former HELEN VAUGHN, graduated from WSU in 1964. CLAIRE JENSEN, '62, became the bride of PAUL R. HANSEN on July 25, 1964 in Stevens Point. They reside at 15839 W. Greenfield Ave., New Berlin, where Mr. Hansen is engaged in the insurance and real estate business. Mrs. Hansen is a teacher at Greendale.

Marriage vows were exchanged by BEVERLY HARDER and JOHN S. NITKE, '60, on June 20, 1964 at Wausau, Wis. Mr. Nitke is employed by the Ppjohn Co., his wife is an employee of CTL Co., nc. They reside at 2305 Rose Ave., Rhinelander, Wis.

MARY MARGARET O'MELIA and DAVID L. PETERSON, who attended WSU, were married in June, 1964 at Madison, Wis. Mrs. Peterson attended Dunbarton College, Washington, D. C. and the University of Wisconsin; her husband is probation and parole officer in the Sparta area. The couple live in Sparta, Wis.

Residing at 4610-8th St. S., Wisconsin Rapids are MR. and MRS. REGINALD FANNING who were married on June 13, 1964. Mr. Fanning, a graduate of the University of Wisconsin, is an accountant for Harold Becker, CPA. Mrs. Fanning, the former MARY LOUISE SMITH, '64, has been employed at Baker Drive Super Valu.

JUDITH J. OLSON, '63, was married on June 20, 1964 to THOMAS A. RATEAU. During the past year she taught in Brookfield, Wis. At the present time she and her husband are living in Maryland while he is in service. Their address is: 1129 Westview Terrace, Laurel, Maryland.

MARILYN P. GRONSKI, '62, and TOM KEOUGH, '62, were married in June of 1963. Tom taught at Eagle River and at New Holstein while Marilyn taught at Chilton High School. Both are now enrolled at graduate school — Ohio University, Athens, Ohio.

Making their home at 316½ Prais St., Stevens Point are MR. and MRS. ROBERT C. DAVIS who were married in April, 1964. Mr. Davis, '63, is employed by Montgomery Ward & Co. in Stevens Point. His wife, the former HELEN LOUISE SOMMERS, is continuing her studies at WSU.

JOANNE M. WHITE and BALE LYNN WEST were married April 4, 1964 in Stevens Point, Wis. Both attended WSU here. Mr. West is employed by West's Dairy. The couple lives at Wisconsin St., Plover, Wis.

Federal Aid Program Explained to State Universities

Colleges and universities cannot expect Washington alone to protect their freedom and independence as federal aid programs are administered, Francis Keppel, United States commissioner of education, warned recently. Keppel said that if the institutions lost this freedom as a result of accepting federal funds it would be their own fault.

"I am not talking in a vague and academic fashion," Keppel said, "I'm talking about a very real problem."

He said the office of education would have to develop many details and regulations for administering new aid programs that resulted from "the most significant year in the history of Congress with respect to consideration and passage of educational legislation."

Urged To Fight

He urged the 60 presidents, deans and faculty members of Wisconsin's nine state universities who attended a higher education conference at Stevens Point State University, to "please fight."

"This freedom is going to have to be fought out line by line on these regulations," Keppel said.

"Please feel personally responsible for every regulation."

He said it was "clearly a matter of decentralization" to keep at a minimum the amount of federal direction and federal paper work.

To do this, he suggested that state departments of public instruction be strengthened and every federal program be administered in such a way as to strengthen colleges and universities, making them more independent.

Laird Sees Some Control

Representative Laird (Rep., Wis.), who arranged the conference in cooperation with the state university system, added that there still would have to be some federal attention given to how the aid money was used by institutions.

"I don't fear federal control... I think you have to have federal direction," Laird said.

Keppel urged the educators to maintain a vital interest in elementary and secondary education and to help solve problems at that level, especially in the urban and rural slum areas of the country.

He noted that 250,000 American children a year did not even finish the eighth grade.

Aid Is Less Than 1%

"I'm not arguing for specific legislation," Keppel said, "but for local, state and federal concentration on these problems."

The conference was arranged so that state university representatives could learn at firsthand from federal officials how universities of their size might receive a greater share of federal aid funds.

Less than 1% of the 26 million dollar operating budget of the state university system comes from federal funds. Many large universities get substantial federal support. More than 20% of the University of Wisconsin's annual budget, for example, comes from federal agencies.

Walker D. Wyman, president of Whitewater State University, proposed that the office of education use Wisconsin's state university system as the subject of a research project to find out how to stimulate more faculty research at smaller institutions.

Possibilities Seen

Laird, Keppel and David Seeley, Keppel's administrative assistant, said the idea had possibilities. But Keppel urged that a formal proposal be initiated from the state rather than by his office.

Practical suggestions for obtaining more federal funds were made by Francis A. J. Ianni, the office of education's director of cooperative research.

He said institutions of the size of the state universities were ideal for research projects to test new curriculum programs in local school systems and for retraining teachers to use new methods.

He gave these common reasons for the relatively low rate of approval (20% to 30%) of research projects proposed to his office by small colleges.

A low rate of application on the part of small university professors.

Proposals for problems that are "so small, so narrow that they simply aren't important."

Proposals that are too broad.

Inadequate explanation of procedures to be followed.

Faulty relationship of the amount of funds requested to the study problem.

Resistance by some university administrators to have their faculty members do research. This is based on the failure to realize that a teacher can best keep up to date by doing research.

Keppel, former dean of the Harvard University graduate school of education, said that professors of academic subjects did not play a large enough part in research on educational problems. As a result, he said, the quality of educational research has not been as high as it needs to be.

"I'm sorry to put it that way, but we want to buy something (for the federal funds granted)," he said.

WSU Men Working on Research

Six Wisconsin State University faculty members are working on research projects by state grants totaling \$2,640.

Dr. Robert H. Weaver, associate professor of chemistry, is working toward establishment of the metabolic roles of diamines and polyamines in living cells and the characterization of some of the enzyme systems involved in amine metabolism.

Dr. Lee A. Burress Jr., chairman of the WSU English department, is continuing a study of Wisconsin Folk Beliefs as part of a nationwide effort to publish a national dictionary of American folk beliefs. He has agreed to edit the Wisconsin volume; and the University of Wisconsin Press has indicated interest in publishing the collection.

Dr. Gerald F. Johnson, assistant professor of speech, is studying the type-token ratio of the language of stutterers. The purpose of the study is to test the hypothesis that the spoken vocabulary of stutterers is affected by stuttering. It is also hypothesized that there will be no difference in their writing ability—as compared to other persons.

Authorities agree that avoidance of feared words is characteristic of stuttering. Often, in order to avoid a feared word, the stutterer may give up the attempt to use that word.

Dr. Richard D. Face, associate professor of history, is translating from Latin into English the annals and histories of the 11th and 12th century historian Caffaro of Genoa. Although of great value and interest to historians, the works of Caffaro have never been translated into English. Caffaro is of unique interest because he was the earliest chronicler and secular historian in Western Europe.

Robert S. Whitmire, associate professor of biology, and Dr. George C. Becker, professor of biology, will survey the vascular plants of Portage County. The flora of Portage County has never been systematically collected, and virtually no collections have been made of the aquatic forms.

Prof. Hugh Iltis of the University of Wisconsin has indicated that this work should be done prior to the publication of the Wisconsin Flora, and the two WSU researchers are cooperating with the Wisconsin Flora Project undertaken by the University of Wisconsin.

The grants were made by the WSC—Colleges Research Committee and approved by the Board of Regents.

At its July board meeting, the Board of Regents, allocated \$3,450 for additional projects. The funds will be allocated upon recommendation of the WSU faculty research committee headed by Dr. Burress.

WSU Graduates Selected as Outstanding Young Men

The following graduates of WSU have been selected for inclusion in the 1965 edition of **Outstanding Young Men of America**:

Mr. Lee A. Henrickson, '64
Mr. Kenneth A. Krahn, '64
Mr. David R. Ross, '54
Mr. Richard Turzenski, '52
Mr. Richard Lee Christensen, '63
Mr. John F. Lucas, '60

Selections for **Outstanding Young Men of America** were made by a thirteen man National Board of Editors.

Doug Blankenship, Past U. S. Jaycee President (1962-63) who is serving as chairman of the Board stated that men were selected between the ages of twenty-one and thirty-six who "had distinguished themselves in one or more fields of endeavor to the point of being outstanding."

Outstanding Young Men of America is an annual biographical compilation of approximately 10,000 young men of outstanding rank throughout the country. Nominees for the book come from many sources, however, the majority of the nominations are made by Junior Chamber of Commerce Chapters and College Alumni Associations.

"An outstanding idea" is the way National Jaycee Public Relations Director, Jim Stafford, described the publication. National Jaycee President (1963-64), Richard M. Headlee, a member of the National Board, said, "the publication is one of the finest I have seen recognizing the achievements of America's outstanding young men."

The Junior Chamber of Commerce has long been active in the recognition of outstanding achievement among America's young men. Each year since 1938 the Jaycees have selected the Ten Outstanding Young Men of America. Among past TOYM winners are such famous personalities as John F. Kennedy (1946); Nelson Rockefeller (1941); Dr. Tom Dooley (1956); and Henry Ford, II (1945). The publication **Outstanding Young Men of America** will feature the 1965 TOYM winners. Winners of state Outstanding Young Men awards will be pictured throughout the book. President Lyndon B. Johnson will write the foreword for the 1965 edition.

The book is 7" x 10" in size and will contain approximately 896 pages. The binding is blue with gold embossing. Publication date is approximately January 15, 1965.

Ex-Pointer Retires As School Head

Lawrence H. Beaudin, a boyhood resident of Stevens Point, retired from his duties as superintendent of the Geneva, Ill., Public Schools on June 29.

The well-known educator, who has been superintendent at Geneva since 1950, started his teaching career in the rural schools of Portage County.

Mr. Beaudin served as elementary school principal at Ashland and Wausau; as junior high principal at Marshfield and as intermediate principal, Evanston, Ill.

He left this assignment to accept a position as registrar and associate professor in the department of education and psychology at Carroll College, Waukesha, where he remained for three years. In 1950 he accepted the superintendency at Geneva.

Besides serving as superintendent, Mr. Beaudin was legal secretary for the Board of Education for the 14 years and was business manager of the district from 1950 to 1957.

In Memorium

Miss Margaret M. Ritchie, 60, a former member of the Wisconsin State College library staff, died in Cannon Falls, Minn.

She was assistant librarian here from 1944 until 1960, when she resigned because of ill health. Since then she had lived in retirement in Cannon Falls, her home town.

Miss Ritchie was born July 15, 1903. She was a graduate of Carleton College, Northfield, Minn., and earned a master's degree in library science from the University of Illinois.

Before coming to Stevens Point she was a librarian at Mankato (Minn.) High School. She was a member of the American Library Association, the Wisconsin Library Association, the Wisconsin Association of State College Faculties and the Association of College and Reference Librarians.

Her survivors include two sisters, Miss Agnes Ritchie and Mrs. John Robertson of Cannon Falls.

John A. Redfield, 60, Los Angeles, Calif., died in a Santa Monica, Calif. hospital, following cancer surgery. He was an all-conference football center at the College. He worked at American Seating Co. of Grand Rapids, Mich., as Pacific Coast sales manager until shortly before his death.

Mrs. Bert P. Vogel, 55, the former Elizabeth Ann Spafford, died at her home at Union Grove, Wis. after a short illness. She attended WSU. Her husband is president of the Racine-Kenosha Teachers College in Union Grove.

Miss Florence Marsh, 82, died May 31, 1964 at Neillsville, Wis. Miss Marsh, a 19 graduate of WSU, taught, during her long career in education, at State Teachers College in North Dakota and in New York suburban schools.

An automobile accident claimed the life of Arthur V. Swenson, 40, an ex-Stevens Point resident and former sports editor of the Daily Journal, Stevens Point. He attended WSU and later graduated from the University of Wisconsin. At the time of his death, Swenson was in public relations work with the W. A. Krueger Co., Milwaukee.

Mrs. William Cleary, 55, Madison, died at her home on May 28, 1964. She graduated from WSU in 1929 and taught primary grades at Algoma, Edgerton, and Milwaukee. She moved to Madison six years ago with her husband; they started the Cleary Furniture Co., which they have operated since.

Miss Olive S. Gregory, 48, Stevens Point, died July 8, 1964 following a long illness. She graduated from WSU and from the University of Wisconsin Library School. She was employed at public libraries in Quincy, Ill. and Elkhart, Ind., as well as Stevens Point.

Funeral services were held on May 20, 1964 for Mrs. Patrick Barden, 30. She was the former Virjean Drexler who graduated from WSU in 19 . She taught in Park Falls and Rhinelander high schools before her marriage in 1956. Surviving are her husband; three daughters, Kathie, 7, Debbie, 6, and Ann Marie, 10 months.

Mr. Wilburt G. Rathke, a 1938 graduate of WSU, died on April 24, 1964. His home had been at Oconto, Wis.

Miss Lydia C. Hamm, a retired public elementary schoolteacher, died in April, 1964, at Marshfield. She received her college education from the state universities at Oshkosh, Stevens Point, and Superior. She taught school in Marshfield, then taught for many years at Jefferson Public School in Medford, retiring from teaching in 1946.

Mr. LeRoy Hanson, whose home had been Stoughton, Wis. for a number of years, died recently. He had been a 1926 graduate of the three-year junior high school course at WSU.

Graduate Scholarships and Degrees Awarded to Alums

A National Science Foundation grant has been awarded to MICHAEL J. WISNOSKI, '61, who will study at Pennsylvania University State College during the 1964-65 year. Mr. Wisnoski has been teaching science at the Farnsworth Junior High School in Sheboygan, Wis.

EUGENE L. SORENSON, '59, has participated in a National Science Foundation Institute in Radiation Biology at the University of New Mexico, Albuquerque, New Mexico from June 15 to August 14, 1964.

LESLIE C. JERGESON, '62, attended summer school at Colorado State University, Fort Collins, Colorado during the past summer. He had received a National Science Foundation grant which will carry credit toward a master's degree. Mr. Jergenson teaches biology at Stanley-Boyd High School, Stanley, Wis.

A National Science Foundation grant was awarded to LENNART HENDERSON, '60, for eight weeks study at the University of Wisconsin-Milwaukee. Mr. Henderson teaches biology and geography at Lincoln High School, Wisconsin Rapids.

RICHARD WANIE, '58, is the recipient of a grant by the National Science Foundation for one year's study at the University of Michigan at Ann Arbor, Mich. He has been teaching biology at the Fort Atkinson, Wis. High School for the past four years.

Two WSU graduates, JOHN F. LUCAS, '60, and C. PATRICK COLLIER, '59, have been granted one-year scholarships by the National Science Foundation for an Academic Year Institute for supervisors of science or mathematics at the University of Wisconsin, Madison, for 1964-65. The two recently completed work for their master's degrees in mathematics at the University of Illinois, Urbana. Lucas taught at Madison for three years. Collier taught in the Marathon High School for four years.

LEE KERSTEN, '60, received a National Science Scholarship at Notre Dame University, Notre Dame, Ind. for the 1964 summer. He teaches at Manawa, Wis.

MARILYN P. GRONSKI KEOUGH, '62, was the recipient of a tuition scholarship from the graduate school of Ohio University, Athens, Ohio. She will work toward her master's degree in English. Her husband, Tom, also a 1962 graduate, is working on his master's degree in speech and dramatic art at the same school. Tom formerly taught at Eagle River, Wis. and New Holstein, Wis. while Marilyn taught at Chilton, Wis.

Pointer Alumni —

Meet your friends and classmates at the Alumni Luncheon in the University Center following the parade. Reservations must be received by October 19. Make checks payable to: University Center, W.S.U.

**Alumni Offices,
