

Spring Edition

BESSIE MAY ALLEN — RESIDENCE CENTER

New experiences in social living and learning will be provided when the Allen Residence Center, located in the center of the new residence hall complex on North Reserve Street becomes beneficially occupied beginning September, 1964.

ALUMNI NEWS BULLETIN

1964
WISCONSIN STATE COLLEGE

Stevens Point, Wisconsin

New Experience in Living and Learning

In keeping with the philosophy of educating the "whole person", 1,200 W. S. C. students will begin a new experience in living and learning in September, 1964.

The Allen Residence Center, located as the heart of the new residence hall complex on North Reserve Street, will serve as the center of the cultural, social, and recreational program for the 700 men residing in Pray-Sims and Smith Halls, and the 500 women residing in Hyer and Roach Halls. More than just a dining service building, the Allen Center is envisioned as the hub of activity for these 1,200 students.

The Center will contain lounge, meeting, and snack bar facilities. The upper floor of the two-story structure will be the dining area with a seating capacity of over 700. This area can also be utilized as a meeting hall and ballroom.

Guided by the professional staff assigned to each hall and the Allen Center, it is hoped that programs providing new experiences in dining, recreation, and social living will prove to be rewarding for the students residing in the complex.

With an expanding campus enrollment, the need for additional student living areas has become acute. This complex, while meeting these basic needs, will provide the student with the opportunity to participate in programs and activities which are designed to stimulate his imagination, involve him in self-government, and expose him to social situations which hopefully will assist him in becoming a better informed, contributing member of his future community.

Mr. Ronald Hachet, Director of Student Activities, will direct this program in all the eight residence halls as well as the College Union and the Allen Center.

RESIDENCE HALL COMPLEX — (1) Hyer Hall, (2) Roach Hall, (3) Smith Hall, (4) Bessie May Allen Food Center, (5) Pray Hall, (6) Sims Hall (5 and 6 not shown).

General Purpose Classroom Building

A campus planning committee which is developing a plan for the future growth of the college has completed the program analysis of a general purpose classroom building. In planning this building two basis assumptions were established.

1. That there will be approximately 95,000 square feet of floor space available for rooms and offices.
2. That the rooms are to serve for general classroom instruction with a minimum of variation in sizes and equipment, and a minimum of space and construction devoted to specialized instructional methods.

SUMMARY OF AREA USAGE

<i>Classrooms</i>	<i>Stations</i>	<i>Sq. Ft.</i>
1	300	7,500
10	100	12,000
28	50	16,800
30	35	12,600
12 Seminars	15	3,600
4 Seminars	20	1,600
2 Exp. Psych. (300 sq. ft. each)		600
1 Exp. Psych. (Observation)		300
88 — total rooms		55,000
<i>Other (Storage)</i>		
4 Storage Rooms		1,600
Audio Visual Education		
Business Teacher Education		
Foreign Language		
Psychology		
1 General Storage Room		1,600
		3,200
<i>Office</i>	<i>Sq. Ft. Ea.</i>	
1 Central Office	400	400
9 Department Chairmen Offices	200	1,800
9 Department Secretarial Offices	150	1,350
1 Faculty Lounge	1,200	1,200
96 Faculty Offices	107	10,269
		15,019
Corridors, Lavatories, Utilities		24,406
TOTAL NET SQUARE FEET		97,625

Plans include building-wide air conditioning for proper temperature and humidity control. Wiring is to include a closed-circuit network for television, to connect lecture halls and all classrooms. Equipment needed for this service includes one TV camera, 10 TV monitors, five carts on which the monitor can be mounted, and equipment for reproduction of materials from video tape.

To provide easy access for persons in wheel chairs, one grade level ramp and a building elevator are included. All classrooms are to be equipped for effective audio-visual usage.

One central office of 400 sq. ft. is included. Nine departmental office suites of 200 sq. ft. each, with an additional 150 sq. ft. for each secretarial person are planned. Faculty offices each with 107 sq. ft. for 96 staff members, a faculty lounge of 1,200 sq. ft., all with essential equipment, completes the general plan of the building.

Specifications for this building are now complete and will be submitted for bids in the near future. Contracts are expected to be signed in early summer and construction to begin within a week or ten days thereafter. The building and equipment is expected to cost approximately \$2,000,000 and to be ready for occupancy by September 1, 1965.

WSC Vice President Post To Be Filled By Man From East

Wisconsin State College President, James H. Albertson announces the appointment of Dr. John Yuthas, New Paltz, N. Y., as vice president for student affairs, a position recently created at WSC here.

Dr. Yuthas will supervise all student affairs including orientation, counseling and psychological tests, financial aids, health, housing and various student group activities as well as alumni activities.

Dr. Yuthas, now dean of students and chairman of the student personnel division of the State University of New York, New Paltz, is a native of Salt Lake City, Utah, who later moved to Wyoming where he received his high school diploma from Superior High School.

His B. A. in psychology, social science and education, was granted by the University of Wyoming; the M. A. in counseling, testing and guidance was earned at Michigan State University, and he received the Ph.D. in higher educational administration at Purdue University.

Dr. John Yuthas

He formerly was dean of student life at Texas Western College of the University of Texas at El Paso; activities coordinator and assistant dean of men, Colorado State University, Fort Collins, Colo.; assistant to the dean of men at Purdue University; civilian instructor in personnel for the career guidance school, USAF, at Lowry Air Force Base, Denver, and psychometrist in the counselling center at Michigan State University.

As to academic and professional honors, he was granted a fellowship by Washington State University; an assistantship at Purdue, and he is a past member of the Commission on Training for the National Association of Student Personnel Administrators. He was a grant participant and instructor trainee in a Harvard Seminar on case study training techniques, and was invited to attend a Continuation Study Center Conference on Behavior Science at the University of Minnesota.

Dr. Yuthas, who will come to WSC July 1, will join two other vice presidents at the college. They are Dr. Gordon Haferbecker, vice president for academic affairs, and Milton E. Sorensen, vice president for business affairs.

Dr. Yuthas will be accompanied to Stevens Point by Mrs. Yuthas and their four children.

Each day we weave a few more strands upon the loom of life,
Each evening sees the pattern grow of kindness or of strife.
Some times we choose the brighter threads to make the outline clear,
More often still — at night we find some places torn and bare.
It matters not what thread *we* choose, some narrow and some wide,
For God himself the pattern draws upon the other side.

Summer School!

Classes in the 1964 summer session begin June 15 at 7:20 A. M. Registration for off-campus students should be completed by mail again this year. Those registering early have a better opportunity for admission to required courses. Textbooks may be drawn any time during the first day.

A wide selection of courses is available to meet the specific needs of teachers and to meet requirements and provide enrichment for students in all areas. Several courses are provided for entering freshmen who wish to accelerate their training or make early adjustments to college life.

The Campus Laboratory School will conduct two kindergarten classes, a primary class, an intermediate class and three workshops which may include student teaching and/or special work. The Language Arts Workshop will prepare students in communication and the use of mass media. The Workshop in Physical Education will give special help to the classroom teacher in the interpretation of the new State Curriculum Guide in Physical Education for Elementary Schools. The Science Workshop in Aerospace will provide elementary teachers with an understanding of aerospace developments and the application of science fundamentals essential for the teaching and curriculum development of aerospace education. Flight and laboratory experiences will be included and resource materials developed.

The Speech and Drama Department under the direction of Dr. Pauline Isaacson will feature two special programs. The first is a six weeks workshop in speech therapy. Advance registrations have exceeded class capacity and further applications are accepted on a waiting list basis. The second program is our first venture in summer theater. A company of directors and actors is being assembled to present a series of five plays, three showings each, for the summer session student body and for the college community. Some tickets will be made available to theater goers from neighboring communities.

Other programs that should be mentioned are: the three music camp programs for junior and senior high school students, the Graduate English Workshop, the English Institute, the special studies program emphasizing biology and conservation, the Red Cross Home Nursing Instructor Training Course and the Civil Defense Adult Education Seminar.

Early inquiries about the graduate program would indicate another sharp rise in enrollment this summer. Courses will be scheduled in all areas of specialization, professional education and liberal arts foundations. We have been granted authorization to advance the master's degree granting date to the coming summer session. Furthermore, we have been authorized to offer some work as late afternoon or Saturday classes during the academic year, 1964-65. This extension of our program to the academic year will facilitate programming and remove some of the pressures for an eight-credit summer session. We plan to offer two or three courses each semester in professional education or liberal arts foundations as these courses will apply to most of the graduate programs available at the state colleges. Requests for additional information about any program and requests for the summer session bulletin and the graduate bulletin should be directed to the college.

The Increase Of Human Knowledge

Dr. W. E. Bumney, vice-president, E. R. Squibb & Sons.

The sum total of human knowledge is increasing at an appalling rate. It will double in the next eight years. Ninety per cent of all the scientists that ever lived are living today. There are 100,000 scientific journals and 300 abstract journals and every 50 years there are 10 times as many more scientific journals and abstract journals. Now they are talking about abstract journals that abstract abstract journals.

Mankind does not benefit from the acquisition of new knowledge unless that knowledge is applied. Shortening the time lag between the acquiring of new knowledge and its application has a direct bearing on the rate of rise of man's standard of living.

News From Pointer Alums

LOUISE SCHUELER, '62, is teaching fifth grade in Venton, Iowa. Currently she is on the Venton Education Association Executive Committee. Last summer she spent some time touring part of the western states of the United States. Her current address is 1512 G Avenue, Venton, Iowa.

EDMUND G. FACKLAM, '53, received his Master of Science degree from Winona State College, Winona, Minnesota on December 17, 1963. He earned his degree in the field of elementary administration and supervision. Mr. Facklam will participate in the formal graduation ceremonies in June, 1964. At the present time he is principal and eighth grade teacher at Manawa, Wisconsin.

ALTHEA B. OCKERMAN, '49, reports that she has been doing a lot of substitute teaching in two school districts, Bristol Township and Pennsbury District. She teaches, on the average, two days a week and "enjoys it very much." She further reports—"New York City is only 90 minutes away and we enjoy going in for plays, concerts, etc. Since the Metropolitan Opera season has been extended we have been able, this year, to get tickets for three operas and are looking forward to seeing performances of Aida, Faust, and Lucia di Lammermoor." Her address is 27 Myrtle Lane, Levittown, Pennsylvania.

Currently employed as a sales representative for Ray Cordon, Inc. is 1959 grad BEN A. WAGNER. Prior to this position he served as a sales correspondent for the West Bend Co. He is married to the former Jennie Lee Mullendore. They have one child, John Allen, born July 9, 1962. The Wagners reside at 1302 S. Harmon, Appleton, Wis.

MRS. ELIZABETH ANN BALISTRERI, the former ELIZABETH TOR-SZEWSKI, '54, resides at 6530 W. Oklahoma Ave., Milwaukee, Wis. After leaving WSC in 1954 she completed 3 years of teaching in Wausau, leaving there to journey to Colorado Springs, Colorado for a year of teaching. She reports that "week-ends were spent in sight-seeing and in the spring, upon completion of the teaching year. I traveled south to the painted desert and then on to the Grand Canyon, Salt Lake City, Yellowstone Park, the Badlands, and once again Wisconsin." In 1957 she began teaching in West Allis, met her husband there and was married in July, 1959. Son Steven arrived in July, 1960 and Joseph in August, 1961.

Word comes from THOMAS J. BREDOW, '61, that four WSC Letters and Science alums are located in the Great Smoky Mountain National Park area. LARRY E. HANNEMAN, '59, THOMAS J. BREDOW, '61, and RAYMOND A. KIMPEL, '63, are employed by the National Park Service as Park Rangers in the Great Smoky Mountains National Park, Tennessee-North Carolina. All three are assigned to sub-districts in the half-million acre national park. The fourth Pointer alum is Mrs. Ray Kimpel (the former EMILIE SCHUBERT, who majored in conservation education). All four were members of Alpha Kappa Lambda, conservation fraternity.

Serving as Junior High Principal and Curriculum Coordinator in the Southern Door Integrated District is 1948 grad STANLEY J. HARMANN. He received a M.S. degree in education from the University of Wisconsin in August, 1960. Mr. Harmann has taught school for 25 years and has served as a supervisor for 7 years. He is married to the former Delores A. Wicke of Manitowoc, Wisconsin. The Harmanns reside at R. 4, Box 381, Sturgeon Bay, Wis.

DR. BARTLETT MCNAMARA, a 1955 graduate of WSC, is employed in the private practice of general dentistry at Southdale Medical Bldg. in Minneapolis, Minn. He graduated from the Marquette University Dental School in 1957 and spent three years in the U. S. Navy. Dr. McNamara is Vice Chief of Dental Section Methodist Hospital, Minneapolis and is a member of the American Dental Association and affiliated groups, American Society of Dentistry for Children, Chicago Dental Society, Staff of Methodist Hospital. He is married and has five children. The McNamaras live at 4517 West 111th St., Minneapolis 31, Minn.

MARIE H. BUNCZAK, '61, is a postulant with the Sisters of St. Casimir Convent, Chicago 29, Illinois.

The first Kaltenborn Research Fellowship, a \$1,000 grant from the H. V. Kaltenborn Foundation to the State Historical Society of Wisconsin, has been awarded to 1957 grad EARL S. GROW, JR., teaching assistant and a candidate for a doctorate in speech at the University of Wisconsin. The fellowship was granted for a special research study in the field of the history of mass communications. The first Kaltenborn Fellow will study the pressures exerted on a news analyst by his sponsor and the listening audience with special emphasis on the period of the late 1930's and early 1940's.

ALLEN D. OLSON, '53, has been named principal of Delavan-Darien High School effective Jan. 1, 1964. Mr. Olson started his career in education as a teacher of biology and general science at Mauston High School, then served as principal of Mondovi High School for two years; he then served as principal of New Richmond High School for two and a half years before accepting his present position. He is married and the father of four children.

The John Hay Whitney Foundation has granted one of five opportunity fellowships to American Indians to DOROTHY W. DAVIDS, '45, Bowler, for a year of advanced study in human development at the University of Chicago.

RON W. MURRAY, '36, has been named North Central Regional Manager of Globe Laboratories, a division of Chas. Pfizer & Co., Inc., to cover Illinois, Missouri, South Dakota, Iowa, Minnesota, North Dakota, Kansas, and Nebraska. Murray was promoted from district manager in the same territory. He joined Globe Laboratories in 1949 and worked in the states of Montana, North Dakota, South Dakota, Minnesota and Wisconsin.

V. E. MADDEN, '61, Sturgeon Bay, has been promoted to commercial sales representative-space heating sales representative of Wisconsin Public Service Corporation. Madden is a graduate of Sturgeon Bay High School, the Door-Kewaunee County College, and WSC at Stevens Point. Prior to joining Public Service in 1949, he taught school in Door County nine years.

Currently teaching senior high school geography at Woodruff High School in Peoria, Illinois is 1960 graduate JAMES F. KREMS. He is beginning work on his master's degree during evening school at Illinois State Normal University in the field of geography. His address is 612 E. Pennsylvania Ave., Peoria, Ill.

FREDERICK J. WENZEL, '56, has been named Marshfield's "outstanding young man of the year" by the Marshfield Junior Chamber of Commerce. Wenzel is director of laboratories for the Marshfield Clinic and coordinator of research and education for the Marshfield Clinic Foundation. He supervises 32 laboratory workers, has developed an advanced science program for local high schools, is co-author of eight scientific papers which have been published nationally and internationally, and was instrumental in discovering the cause of maple bark disease and finding a way to eliminate the lung ailment which afflicts forest workers.

LESLIE NEWBY, '63, has been named quality control supervisor of the technical department of the Wisconsin Rapids Division of Consolidated Papers, Inc. Newby began working for Consolidated in February, 1963 and has been a process engineer at Wisconsin Rapids Division.

A teaching position in Hammond, Ind., has been accepted by ROBERT C. CHESEBRO, '60. He will teach instrumental music and music appreciation in the Hammond High School. Chesebro is a 1960 graduate of WSC and 1963 graduate of the Indiana University School of Music.

KENNETH M. VISTE, '27, has been appointed Kewaunee County Superintendent of Schools by State Superintendent A. B. Rothwell. Mr. Viste holds a bachelor's degree in elementary education from WSC and a master's degree from the University of Wisconsin with a major in administration. He was principal for six years when Maplewood was a junior high school, then a principal for three years at Brussels before serving a four year term as Door county superintendent of schools.

ROY HACKBART, '55, in his sixth year of teaching in the Ripon public school system, currently is president of the Ripon Teachers Association. Roy teaches mathematics and also coaches football, basketball, and track. In fact, the junior high school football team recently closed its season undefeated and has an unblemished record for three straight seasons—six wins in a row. Mrs. Hackbart is the former RUTH ANN CHARLESWORTH, '55. The Hackbarts have four children, Elizabeth Ann, 7; Jean Marie, 5; Robert Roy, 3; and John Stephen, 9 months.

MYRON T. FRITSCH, '35, is serving as School Superintendent at Owen-Withee. Prior to this appointment he had served as Junior High School Principal and Elementary Coordinator of the Owen-Withee District. He was awarded his Master's Degree from the University of Wisconsin in 1959. He and his wife reside in Withee and are the parents of three daughters, Jacqueline, who teaches home economics at West Allis Central High School; Barbara, a senior at WSC; and Sandra, now in her second year of nursing at St. Joseph's School of Nursing at Marshfield.

Employed as a music teacher in the Clinton Grade and Junior High Schools, Clinton, Wis., is MRS. DOROTHY O'LAUGHLIN, '48. She taught previously at Stratford and Westfield. She has four children, Sally and Susie, twelve-year-old twins; Jimmy, eleven, and Maureen, ten.

KARL W. PAAPE, '46, has announced his candidacy for the office of County Judge for Clark County. A County Judge will be chosen in the April elections. Mr. Paape received his B. S. degree from WSC and taught school for three years. He graduated from the University of Wisconsin Law School and was admitted to the Bar in 1951. Following three years of employment in the Milwaukee area, he established a law office in Greenwood, Wis. He is married to the former Nancy Wright of West Allis. They have two children.

Serving as a mathematics instructor at the Bessie Allen Junior High School in North Fond du Lac, Wis., is 1960 graduate CHARLES CHWAE. Prior to this position, he taught at the Goodman High School in Goodman, Wis. Born in Seoul, Korea, in 1929, Chwae received a degree in 1953 from Hong-Ik University, Seoul. He came to the United States in 1956, completing another degree at WSC in 1960. In addition, he has taken a year of work in mathematics at Purdue University. Chwae's wife, Jeanette, joined him here four years ago. They are parents of four children: Francis, 9, and Agnes, 8, are still in Korea but are expected here shortly. The two youngest children, Michael, 2½, and Edward, 6 months, are American citizens. The Chwae family resides at 459 Bischoff Street, Fond du Lac, Wis.

WARNER BERRY, '28, Superintendent of Loyal Public Schools, has spent 35 consecutive years in the Loyal school system. He holds a master's degree in school administration from the University of Wisconsin. He has one son, Bill, a senior at Loyal High School; and one daughter, Ann, in the eighth grade.

Former WSC student LEROY R. MOYER, Stevens Point, has been reassigned to Bentwaters RAF Station, England, following his graduation from the technical training course for United States Air Force administrative specialists at Amarillo AFB, Texas.

Appointment of LLOYD J. FRANZ as manager of the Thorp Finance Corp. office in Superior has been announced by Thorp's executive vice president. Franz attended WSC and formerly worked at Thorp offices in Stevens Point, Waupaca, and Ashland.

Former WSC student, Airman 1/C PATRICK L. CLIFFORD of Stevens Point, has been named honor graduate of the United States Air Force jet aircraft mechanic course at Sheppard Air Force Base, Texas. He was trained to maintain and service multi-engine jet aircraft and aircraft systems. He has been reassigned to Barksdale AFB, La., for duty in his new specialty.

DAVE SCHROEDER, 275-pound senior tackle on WSC's football team this past season, has been offered a contract with the New York Giants of the National Football League. Schroeder, a native of Stevens Point, will sign the free agent contract, reported to be in the neighborhood of \$9,500, after competing with the Pointer track squad this spring. A standout offensive tackle, Schroeder was recently cited by his coach, Duaine Counsel, for showing the most improvement of any player on the squad last season. He is also a standout performer in the shot put, discus and javelin on the track squad. He has won a State College Conference title in the discus event and holds school records in all three weight events.

PETER KOBER, a freshman at WSC from West Bend, has been nominated by Sen. Gaylord Nelson to compete for appointment to the U. S. Merchant Marine Academy. Kober was one of four nominated by Nelson in the state. There are seven vacancies in Wisconsin for the Merchant Marine Academy, located in Kings Point, N. Y.

DOUGLAS L. BARTELS, '64, is teaching American history, citizenship, world history, and social problems at Marshall, Wis. He also coaches baseball and assists with wrestling and basketball.

Teaching at Freedom High School (Wis.) is MRS. MELVIN PARKER. She is a graduate of WSC with a B. A. degree in home economics. She has done post graduate work at Mount Mary College, Milwaukee and has eight years teaching experience. She formerly taught at Niagara High School, Niagara, and the Milwaukee Vocational and Adult School, Milwaukee.

DON STREUBEL, '62, has assumed the duties of Forest Ranger-Dispatcher at the Park Falls Ranger Station, Park Falls, Wis. He is a native of Crivitz, Wis. and has spent a semester at the University of Alaska, plus six months on active duty with the U. S. Army.

HELEN A. RILEY, '64, has accepted a job at Bethesda Lutheran Home, 700 Hoffman Drive, Watertown, Wis. Her official title is Secretary to the Executive Director. She will be responsible for composing correspondence that goes out of the social service department, as well as reports and case materials for the Executive Director's files. A background in Sociology and/or Social Work was required for this position.

RAY BONESKE, '52, principal of Ben Franklin school for four years, has been named principal of the new Pleasant View elementary school. He holds a bachelor's degree from Wisconsin State College, Stevens Point and his master's from the University of Wisconsin, Milwaukee.

DUANE MALTBEY, '60, Shawano, has taken over his duties as Marathon County sanitarian. Maltbey has been employed for the past three years by the U. S. Food and Drug Administration, working out of the Chicago office. A native of Shawano, Maltbey is a graduate of Wisconsin State College, Stevens Point.

Addition of a full-time clinical psychologist to the staff of the Child Guidance Center of Marathon County, Inc., has been received by DR. ROBERT O. GUNDERSEN, who was born and raised in Plymouth and attended Wisconsin State College, Stevens Point. He served one year clinical internship at the Mental Health Institute, Mt. Pleasant, Iowa, and worked for one year as a child psychologist for the Iowa Division of Special Education. Dr. Gundersen then worked for his doctorate at Iowa University and worked part time at the Iowa University Hospitals, pediatric division, as a child psychologist. He received his Ph. D. in 1959. Dr. Gundersen will come to the center from Eastern State Hospital, Medical Lake, Wash., where he has been since receiving his doctorate.

The Foreign Language Laboratory

Three languages, French, German, and Russian are presently offered in the foreign language curriculum of our college. Spanish will be added in the fall of 1964.

Any visitor who passes room 134 in the main building of the college will see students in the foreign language lab sitting in sound-proof booths with their back turned to the teacher. The teacher conducts the class from a seemingly very complicated console, equipped with tape-decks, switches, plugs, and many other electronic devices. Students and teacher use tape recorders, microphones and ear-phones.

Foreign language students of Stevens Point State College have had the advantage for almost two years to use the foreign language lab in order to improve their pronunciation, to listen to native speakers, and to increase their proficiency in speaking the foreign language.

Dr. P. A. Kroner, Chairman,
Foreign Language Dept.

Learning a language, like playing an instrument, is based on developing certain habits and specific skills. The language laboratory offers the possibility to acquire these linguistic skills through a variety of drills. All students in the lab participate simultaneously, and yet individually, without being distracted by each other. Earphones and sound-proof booths isolate them and make concentration possible. Alertness and concentration are essential to progress in the use of the language laboratory. During the lab period the student applies systematically that which has been presented previously in the classroom. At the same time, he has the opportunity to listen to authentic patterns of native speakers and through his own meaningful repetition improve his intonation, rhythm, and understanding of the spoken word.

The lesson procedure in the lab is to a certain degree relatively simple and follows a specific pattern. The student listens to a master tape on which a stimulus is given in the native language. In the ensuing phase he is required to respond to the cue, then he hears the correct answer and finally repeats it. A flip of a switch enables the teacher to communicate with each individual student, correct his errors without disturbing the others, and supervises the entire class from his place at the console. In this very important first phase, or "mechanical phase" of learning the student establishes proper habits by rapid and automatic responses. In the classroom all drills become finally coordinated in the mind of the student and gradually enable him to think and express his ideas in the target language.

Each lesson stresses a specific aspect of the structure of the language upon which the student must concentrate. Students have most of their lessons and practices either in their textbook or in a lab manual. In order to eliminate confusion, certain facets of the lesson are clarified and explained in English. It is evident that to learn a modern language successfully, the student must acquire certain fundamentals of grammar. Grammar, however, is taught as a functional part of the language and not as an end in itself.

After memorization and comprehension, creative practice exercises will challenge the student to recreate patterns without the help of the teacher or the master-tape. Since the answers of the student are recorded on his own tape in his booth, it gives him the opportunity to return to the lab in his spare time and study it. He can do the lesson over if he is dissatisfied with his own performance and perfect his assigned work.

In reality, the language lab is not a new method but a new medium to improve the learning process. The lab is not a cure-all, it does not help the student who is not willing to learn. "Languages cannot be mastered without self-discipline, motivation, hard work, and long, long hours of practice." (G. Matheiu.) But even the indifferent student will benefit to a certain extent and will emerge with better pronunciation and quicker comprehension of the language.

The aural phase of the language learning should not be overextended. At an early stage the teacher moves from listening and speaking to reading and writing in order to lay a through foundation for the understanding of the cultural aspects of the new language.

No one should assume that the language lab is going to abolish the classroom or replace the live teacher. The tape recorder is an electro-mechanical device that can be used efficiently only if a constant cooperation is established between teacher and student.

In an ordinary classroom it is impossible to give the student sufficient individual attention. The teacher is able to reach only a limited number of students and even choral practice does not warrant the active participation of all of them.

The language laboratory will not solve all the problems in the techniques of learning a language. Much criticism has been levelled against the excessive use of this "method". It is extremely taxing on the teacher as well as time consuming for all involved in this learning process. The conscientious teacher has to prepare untiringly various drills. At the present time, neither sufficient books nor adequate materials with correlated tapes are available.

Despite all criticism the stress upon the audio-lingual method has made the American public more conscious of the importance of foreign languages. Before World War II foreign language instruction was primarily concerned with the teaching of reading. Recent years, however, have witnessed a shift of emphasis from reading to understanding and speaking. It is a matter of national self-interest to increase the number of American citizens who are able to understand and communicate in a foreign language. The foreign language laboratory will provide the means for a greater number of people to reach these objectives in a shorter period of time.

Alumni Office Prepares New Billing Plan

To facilitate the handling of annual membership statements, the alumni office has prepared a card which can be used continuously until the members address is changed. A windowed envelope is being used which eliminates the need for addressing each envelope. The member's card is inserted, together with a return envelope. The membership check, with the card, is returned to the alumni office in the addressed envelope. This plan should serve to prompt early return of the membership dues which eliminates the need for expensive follow-up. Your cooperation is deeply appreciated.

The card is to be used also for ready identification of the following: (1) the school from which the member graduated, (2) date degree was granted, (3) major or majors, (4) graduate study completed and institution attended. On the reverse side space is provided for recording experience, and a few items concerning a member's family and special certifications. This card will be used extensively in selecting graduates who may be recommended for promotional opportunities. Point Alums are urged to keep this record up-to-date, reporting all information which will be helpful in providing the most efficient and effective placement service. As the number of graduates continue to increase, the need for changes in our alumni procedure to provide additional service becomes apparent.

Appoint New Dean Of The School Of Fine Arts

President James H. Albertson has announced the appointment of Dr. Robert B. Cantrick to the newly created post of Dean of the School of Fine Arts which includes the departments of speech and drama, art and music. Dr. Cantrick will assume his new duties on June 15. It is hoped that with his leadership the college will now be able to maintain and strengthen its leadership in an area which has become one of national significance and concern. It has become obvious that if the nation is to achieve cultural greatness comparable to its achievements in science and technology it will be largely due to the efforts of colleges and universities.

This announcement also emphasizes the increasing importance of the role of the fine arts in the college program. For some years the music department has enjoyed the largest enrollment of students majoring in music of any of the Wisconsin State Colleges. The size and variety of its programs has increased greatly, and the faculty has increased in ten years from one to eleven. The art department has offered a major field of concentration for the last two years and has increased its staff to six. The enrollment of students in this major has increased encouragingly. The department of speech and drama offers a major in several areas of concentration and is actively engaged in providing college-wide services such as debate, forensics, theatre and speech and hearing clinics. A recent development in all three departments has been the offering of graduate work in summer session.

Most strikingly, the three departments included in the School of Fine Arts have provided cultural leadership to the college, the community and the area. The music department presents an extensive series of faculty recitals and concerts, student programs, opera, choir, band and orchestra concerts throughout the year. The summer clinic for high school students has been a regular feature for some years. The speech and drama departments has greatly increased its offerings of plays and will initiate a summer theater program this year. The art department has brought several outstanding exhibitions of paintings, sculpture and ceramics to the campus and has given an opportunity for a number of significant showings to students and faculty. The increasing enthusiasm and attendance at these events, as well as those sponsored by the Art and Lecture Series, indicates the growth of the college as an active force in the cultural life of central Wisconsin. The administration hopes that the appointment of Dr. Cantrick will bring new direction and co-ordination to the activities of the three departments involved in order that their service to the college and the area may achieve still greater significance.

Dr. Cantrick comes to Wisconsin State College from Alabama where he is now head of the Division of Fine Arts of Jacksonville State College, Jacksonville, Alabama. He has taught previously at the Juilliard School of Music, Furman University, Carnegie Institute of Technology and Cornell College at Mt. Vernon, Iowa. He holds degrees from the University of Rochester in music and philosophy and a doctorate from the University of Iowa. He has studied in addition at Harvard University, the Berkshire Music Center, the University of Michigan and Oberlin College and has been the recipient of grants from the Carnegie and Ford Foundations. He has published several articles and is active as a composer and conductor.

Dr. Robert B. Cantrick

Marriages

BARBARA M. BRENER, '58, was married in July, 1963 to John C. Dixon of Athens, Ga. Barbara taught in Shorewood, Wis. Her husband, who received his B.S. degree from Beloit College and his Ph.D. in entomology at the University of Wisconsin, is a research entomologist with the U. S. Department of Agriculture at Athens, Ga. The Dixons live at Athens, Ga.

VELDA L. LEVANDUSKE, '58, and Erland R. Greeler were married in October, 1963 at Granton, Wis. Velda teaches in the Granton Public Schools while her husband, a graduate from the farm short course at the University of Wisconsin, is engaged in farming at Route 1, Neillsville, Wis.

Living at Dalton, Wis., are Mr. and Mrs. CHARLES A. KNIGHT, who were married on August 31, 1963. Mr. Knight, a '58 graduate of WSC, is employed at the C. F. Knight Co. in Dalton. His wife is the former Patsy Siddall of Markesan, Wis.

Marilyn Ruth Friess and ARDEN W. HOFFMANN, '58, were married on December 28, 1963 in Madison, Wis. Mrs. Hoffmann, a 1962 graduate of Northland College, teaches at the John Marshall School in Wausau, Wis. Mr. Hoffmann, who is doing graduate work at the University of Wisconsin, Madison, teaches at the Lincoln School in Wausau. The Hoffmanns live at 405 Pintail Lane, Wausau.

Making their home at 4022 Birch Avenue in Madison are Mr. and Mrs. GENE SPEAR who were married on January 18, 1964. Gene, a '63 graduate of WSC, is employed at Mautz Paint and Varnish Co. in Madison. His wife, the former Rachel Olson of Poynette, is a 1962 graduate of Methodist School of Nursing in Madison and is employed as a registered nurse at the University Hospital in Madison.

PATRICIA WATERMAN, '63, and JAMES E. LAABS, '62, were married in December, 1963 at Wisconsin Rapids. Mr. Laabs is president of the National Keyboard Studios, a Midwest music studio; Mrs. Laabs is an elementary music specialist in the Wisconsin Rapids school systems. They reside at 1400 Welsby Ave., Stevens Point, Wis.

On December 28, 1963 SUZANNE HOLTAN, '62, and CHARLES ROSS, '61, were married in Fond du Lac, Wis. Mrs. Ross was employed as case worker in the Fond du Lac Department of Public Welfare. Mr. Ross is a member of the U. S. Army. They reside in Florida.

BETTE CHARNECKE, '61, and JOHN DiLALLO were married in Stevens Point, Wis. in December, 1963. Bette teaches in Greendale, Wis. while her husband, who graduated from the Youngstown University (Ohio) with a degree in electrical engineering, is employed as an electrical engineer for the Allis-Chalmers Co., West Allis. They reside at 9551 W. Beloit Rd., Milwaukee, Wis.

Living at 3906 Dempsey Road in Madison, Wis. are Mr. and Mrs. LORENZ R. DROES who were married in November, 1963. Mr. Droes is with the Ace Electrical Co. of Madison.

JOAN B. UNTIEDT, '58, and Thomas F. Petrykowski were married on November 30, 1963. The former Miss Untiedt is a teacher at Irving Elementary School, West Allis. Her husband, a 1954 graduate of Marquette University, is an application engineer for Racine Hydraulics at Racine. They reside at 2427 South 65th St., West Allis, Wis.

WILLIAM J. HINKE, and Jeanne Ann Weizenicker were married in December, 1963. Mr. Hinke is employed as a teacher at St. Mary School in Appleton. Mrs. Hinke is a graduate of the Lincoln County Teachers College, Merrill. The Hinkes reside at 608 W. Sixth St., Appleton, Wis.

Living at Nekoosa, Wis. are Mr. and Mrs. Maynard Mittlesteadt who were married in January, 1964. Mrs. Mittlesteadt, the former MARY BETH CRALL, '64, teaches fifth grade in Nekoosa.

Margaret Ann Peavler and ROBERT C. LaBROT, '60, were married in November, 1963 at Shorewood, Wis. Mrs. LaBrot is an alumna of Mount Mary College. They reside at 5737 N. 63rd St., Milwaukee, Wis.

Bernice L. Parins and RONALD C. KRYGER, were married in October, 1963. Mr. Kryger who attended WSC also completed a two-year accounting course at the Green Bay School of Vocational and Adult Education. The couple live on Dousman Street in Green Bay, Wis.

Making their home at 1621 Ala Wai Blvd., Honolulu, Hawaii are Mr. and Mrs. JAMES MUELLER who were married on November 30, 1963. Mrs. Mueller, the former ALICE ROBLEY, '59, had previously been teaching kindergarten in Appleton, Wis. Her husband is with the U. S. Air Force in Hawaii.

Fostoria, Ohio is the home of George A. Hamm, Jr. and his wife, the former CHARLENE MARY JOHNSON, who were married in July, 1963. Mrs. Hamm, who attended WSC, has been employed at Sentry Insurance Co., Stevens Point. Mr. Hamm, a graduate of Indiana Institute of Technology, is employed as a civil engineer for National Carbon Co. in Fostoria, Ohio.

WSC students, BETTY SELLER and JON WHERRY, were married on June 22, 1963 at Montello, Wis. Both are seniors.

ARTHUR F. BROECKER, JR., a senior at WSC, was married to Mary Lee Louret in the summer of 1963. Mrs. Broecker has completed two years at WSC. The couple reside at Yellowstone Trailer Court in Stevens Point, Wis.

Former WSC student, RICHARD D. DROSTE, and Sandra Brockman were married in April, 1963. They make their home in Wisconsin Rapids, Wis.

CAROLYN GROULEFF and LEON F. TEETER were married in January, 1964 at Stevens Point. Mr. Teeter and his wife are both students at WSC. They reside at S. River Drive in Stevens Point.

Two WSC students, MARY ELLEN WIRTZ and PHILLIP G. MACHT, were married in January, 1964. Mr. Macht is a senior, majoring in psychology and biology; his wife is a junior, majoring in English. They reside at 823 Ellis St., Stevens Point.

PATRICIA L. O'KEEFE and JAMES J. KUHN were married in Stevens Point on February 1, 1964. Mr. Kuhn is a junior at WSC; prior to coming to Stevens Point, he attended the University of Southern California. The former Miss O'Keefe attended WSC. The Kuhns make their home at 2925 Post Road, Whiting.

Residing at Palo Alto, Calif. are Mrs. and Mrs. JOHN P. MILLER who were married January 11, 1964 at Cle Elum, Wash. Mr. Miller, a 1961 Letters and Science graduate, is employed with Boeing Aircraft as an industrial engineer. His wife is the former Frances Bugni.

The June 6 wedding of Miss Louise Mary Vrobel to Richard Edward Hlinak, son of Mr. and Mrs. Edward Hlinak of Fond du Lac, is announced by Miss Vrobel's parents, Mr. and Mrs. Victor Vrobel, 809 Franklin St.

Miss Vrobel, a graduate of Wisconsin State College of Stevens Point, is teaching in the Tigerton public school system. Mr. Hlinak, will graduate from Wisconsin State College, Oshkosh, this summer.

"Woodwind Quintet To Perform In Indianapolis"

The Music Department at Wisconsin State College, Stevens Point, is pleased to announce that its Woodwind Quintet has been invited to perform at the national convention of the Music Teachers National Association. The convention will be held April 24-25 in Indianapolis. The particular session at which the quintet will appear is a meeting of the National Association of College Wind and Percussion Instructors.

The quintet is comprised of four students and Dr. Warren Lutz, woodwind instructor at the college. Its membership is as follows: Flute—Paul Beyerl, Colby; Oboe—Alinda Kussman, Amherst Junction; Bassoon—Thom Laba, Kenosha; French Horn—Blanche Bounds, La Crosse; Clarinet—Dr. Lutz.

A 3-day concert tour in conjunction with the Indianapolis convention appearance is presently being booked. It will include appearances in Hobart, Indiana, and several performances in Indianapolis.

Left to Right: Alinda Kussman — Oboe, Amherst Junction; Dr. Warren Lutz — Clarinet, College Faculty; Blanche Bounds — French Horn, La Crosse; Thom Laba — Bassoon, Kenosha; Paul Beyerl — Flute, Colby.

Edward Pliska Gets Promotion

Edward Pliska, son of Mr. and Mrs. John Pliska, 338 S. Fremont St., has been named assistant superintendent of instruction for the San Mateo, Calif., city schools where he has been on the staff since 1951.

Mr. Pliska and his wife, the former Jean Gullikson, daughter of Mr. and Mrs. Arlie Gullikson, 108 Jefferson St., are both graduates of Wisconsin State College here. Mrs. Pliska is a physical education teacher in the San Mateo school system.

Point Graduates Promoted In National Guard Unit

First Lieutenant Frederick McCormick, a member of the Portage public school faculty, has assumed command of Co. D, 732nd Maintenance Battalion, the local National Guard unit. Lt. McCormick succeeds Capt. Arthur Witalison of DeForest who was named movement control officer for the 32nd division and was assigned to the division support command headquarters at Madison. Both officers are Point graduates — Witalison in 1950 and McCormick in 1961. Capt. Witalison served with the local Guard unit since 1951, joining as an enlisted man after regular Army duty. Following his commission, he served as a platoon leader and executive officer before being named company commander in November, 1961, while the 32nd division was on active duty at Fort Lewis, Wash. He succeeded Capt. Donald A. Anderson. A member of the 32nd division since 1955, Lt. McCormick served with an artillery headquarters battery at Stevens Point. He graduated with the first class of the Wisconsin Military Academy and was commissioned a second lieutenant in October, 1959. Since his commission he served as a forward observer with the Stevens Point unit, as assistant executive officer with a Waupaca artillery unit while on active duty at Fort Lewis and since April of last year, as executive officer of an artillery battery at Wisconsin Rapids. While on active duty, Lt. McCormick graduated from the artillery officers orientation course and the nuclear war-heads assembly course, both at Fort Sill, Okla. Lt. McCormick has been a member of the Portage public school faculty for the past three years, serving as an elementary physical education instructor and American and world history teacher. He is a native of Plover.

Point Graduate Commended

Listed among the outstanding graduates of the Point is the name and enviable record of Earl S. Kjer of the Eau Claire State College. His concluding presentation of the College Players' production was "The Miracle Worker." So successful was this final performance that an 8th performance was demanded with the house sold out. His college president, Leonard Haas, in commendations stated in part, "The Miracle Worker presents a fitting climax of production as a director. May we take this opportunity to thank you for the prestige that you have created and the contributions you have made to the cultural life of this campus. In a period that has put new emphasis on excellence, we are reminded that you brought excellence to dramatics when you came to this campus in 1943. We know that your skill will continue to have a marked effect on what transpires on this stage in the years ahead."

An editorial in the Eau Claire Daily Telegram points out that, "For many years Prof. Earl S. Kjer has given pleasure and entertainment to the people of Eau Claire. He has not only developed and directed scores of exceptionally fine performances by the college — and previously to that high school students, but has also given his services to local civic groups in assisting with their projects."

Earl's home is in Ogdensburg. He completed the rural course at Point and taught in rural and state graded schools in this area while completing the requirements for his degree '41 by extension and summer school courses. He began his high school teaching of speech at Oconto Falls and later at the senior high school in Eau Claire before joining the college staff. His master's degree in speech was earned at Northwestern University. Many summers have been devoted to continual graduate study and attending dramatic productions, workshops and clinics throughout the country. He is well known and highly respected among the nation's leaders in the field of speech and drama.

Though no longer active in dramatic productions, Mr. Kjer will continue in his present position as director of the speech department of Eau Claire State College.

Home Economics News

Miss Sue Holthusen, '64, Stevens Point, home economics major presided when home economics students from Wisconsin, Illinois, Iowa and Michigan colleges and universities met Friday and Saturday, February 21-22, in Chicago.

Miss Holthusen, president of WIIM, took a major role in the planning of the program and in making other arrangements for the conference.

Miss Ethel Hill, WSC associate professor of home economics, accompanied the students to the meeting which had for its theme, "The Changing World of Home Economists."

Other WSC students attending included Patricia Bandt, Diana Jakel, Carmen Kuegler, Kathryn Marquardt, Hope Moreland and Clara Wywiowski.

Four WSC home economic students have accepted positions as summer agents, Nancy Ripp, Karen Roth, Audrey Thorbus and Judith Johnson. They will work during the months of June, July and August assisting home economics agents throughout the state.

Mrs. Agnes Jones attended the Central Regional Home Economics Education Conference sponsored by the U. S. Office of Education. It was held Sunday through Friday, February 23-28, in Chicago.

A graduate home economics course will be offered this summer. Miss Carolyn Sands will teach "Perspectives in Related Art," a 3 credit class beginning at 7:20 a.m. Persons interested in attending should contact Dr. Agnes Jones, Home Economics Dept., or Dr. E. F. Pierson, director of the Summer School Program.

"1964 Point Music Camp"

Plans have now been completed for the 1964 Point Music Camp. It will once again be held on the campus of Wisconsin State College at Stevens Point. The Director of the 1964 camp is Dr. Warren Lutz. Dr. Lutz came to the Point during the summer of 1963 and taught on the staff of that camp. He is the former director of the University of Kentucky Marching 100.

The dates of the camp sessions are as follows:

Senior Session: June 14-27

Junior Session I: June 28-July 4

Junior Session II: July 5-11

A group of distinguished guest conductors and clinicians have been obtained to teach the students. Among the band conductors are Dr. John Worrel, supervisor of Music in the Cincinnati public schools and former music education and low brass instructor at the University of Kentucky. Mr. Robert Griffith, head of the music education department at the University of Louisville and director of the marching band at that institution will also work with the bands.

The chief choral clinician at the 1964 Point Music Camp will be Mr. Harry Carter, director of the Chamber Choir at the University of Illinois and acting head of the choral department at Illinois. Mr. Carter has had extensive experience on the West Coast in the high school and college choral fields.

Another feature of this year's faculty is the presence of a nationally-known woodwind clinician during the Senior Session. Dr. Daniel McAninch, oboist with the Louisville Symphony Orchestra and former first oboe with the Dallas Symphony will teach both at the camp and graduate work at the College.

Course offerings at the camp will include band, chorus, madrigals, stage band, theory, appreciation, conducting and private lessons in voice, piano, wind and percussion instruments.

Further information and application blanks may be secured by contacting Dr. Warren Lutz, Music Department, Wisconsin State College, Stevens Point.

New Planetarium

The new science building has a 24 foot diameter planetarium equipped with a Spitz projector. The planetarium operation is under the direction of the Physics Department. They have initiated a series of lectures which are open to the student body and the general public. A new program will be presented each month. Since the planetarium seats a maximum of 70 people, it is necessary to have the same program duplicated twice weekly for the period of a month.

The first program was titled "The Stars of Winter". This program had its last showing on March 4, and a new program titled, "The Solar System" began on March 8 and will be shown until April 15.

This facility is available for groups who wish to have a special showing. Many schools, boy scouts and private groups have indicated a desire for this service. The college is pleased to serve the communities of Central Wisconsin with this educational facility.

Teachers interested in bringing classes to the planetarium are urged to contact Mr. A. F. Blocher, Planetarium Director, for information regarding such visits.

If any of you are in the vicinity of the College, you are cordially invited to attend the programs which are held each Wednesday at 7:30 p. m. and each Sunday afternoon at 3:00 p. m.

WIAA New Office Building

The constantly-growing and ever-expanding operations of the Wisconsin Interscholastic Athletic Association have mushroomed into the necessity for a much bigger WIAA Office Building.

The Board of Control, which moved Executive Secretary John E. Roberts and his staff five years ago from Marinette to Stevens Point, announced plans for a new building at the September meeting of the Board in Madison.

The new building will be situated on Highway 10 in Park Ridge on the eastern outskirts of Stevens Point approximately two miles from the downtown location of the present WIAA Office Building. Construction began November 15 with July 1, 1964, the target date for completion.

Measuring about 135 feet in front and about 50 feet deep, the brick-exterior building will have a split-level section of about 40 x 45 on one end and a one-floor section of about 80 x 50 on the other with a 20 x 30 reception area in between and the boiler-mechanical room below the reception area. The lot measuring 200 feet in front and 140 feet deep will have ample area for parking, both for the WIAA's fourteen employees in the rear and for visitors on one side.

The offices of the Secretary and his two assistants as well as a staff room and secretarial and bookkeeping areas will comprise the lower floor of the split-level section while a large conference room, another office and a kitchenette-lounge area will comprise the upper floor. The one-floor part of the building will be utilized primarily by the Benefit Plan operations, including the recently-installed IBM equipment. The mailing room as well as a film room and two storage areas also are located on this floor.

Credential Renewal Procedures

The number of deadlines we all must meet seem to be increasing each year. In a number of instances, a fine is assessed if this responsibility is not met. Our driver's license, state and federal income taxes or car license are examples. There is no fine resulting from the failure to keep one's credentials up-to-date, but a promising promotion may be lost because the credentials are not ready when needed. Some planning is essential to assure the most efficient and timely service in this matter.

As soon as considerations are given to looking into promotional opportunities, arrangement should be made to activate credential files. This involves the arranging for evaluations of experience, together with special studies or graduate degree completed to be added to the credentials.

Too frequently we receive a request from a Pointer, who has applied for a new position, to send credentials immediately to an employer without having first arranged to have credentials ready for this service. This means a delay, which could easily be avoided by requesting the official form used for this purpose from the placement office. When filled in and returned, it will be processed and credentials readied for sending out on request.

Point grads will recall that the months between Feb. 1 and April 1 are not the best for the fastest service, since the placement office is the busiest at this time with the rapidly increasing number of beginners. Early fall or during the summer months is a preferred time to arrange for this service. When credentials are up-to-date and in the files, they can be sent out the day the request is made. In addition those employers wishing to examine the credentials of experienced candidates while on the campus will do so if they are up-to-date.

To those who have remained a number of years in the same position and may have a supervisor, superintendent or other superior who is near retirement or who may not be around many more years, it is a wise plan to arrange for an evaluation of your experience and service to be obtained and filed in your folder for possible future use, even though you may not plan a move at this time. We have found some Pointers who lost some valuable recommendations because of such instances. Since there is no cost for any placement service, it would seem advisable to arrange to bring your credential file up-to-date. This is a service we are pleased to provide every Point graduate.

4-H Award Given to Trees for Tomorrow

At a Price County 4-H Leader's Association banquet held recently at Phillips, Wis. a plaque was given to the Trees for Tomorrow Camp at Eagle River for its conservation work with 4-H members. This bronze plaque, given in recognition for meritorious service to 4-H, was accepted by Professor B. F. Schmeekle, former chairman of the Department of Conservation of WSC. Professor Schmeekle told of the history of the Trees for Tomorrow Camp at Eagle River and commented that since his retirement in 1959 he has donated two days each week to Trees for Tomorrow as a tour leader. He said that if the youngsters with whom he has come in contact at the camp are any indication of the typical teenagers, then our future is in good hands. Professor Schmeekle commented on the wonderful work being done by 4-H leaders in training our youth and admonished the leaders to continue their good work in teaching stewardship to today's youth so that the next generation will have as much as we have, or more.

1964 Football Schedule

September	14	Augsburg	(Here)	7:30 P. M.
	19	Stout	(There)	
	26	Platteville	(Here)	7:30 P. M.
October	3	Oshkosh	(There)	
	10	Hillsdale	(There)	1:30 P. M.
	17	Whitewater	(There)	
	24	Eau Claire (Homecoming)	(Here)	1:30 P. M.
	31	Superior	(There)	
November	7	River Falls	(Here)	7:30 P. M.

"Kismet" Produced by Jack Burroughs

Pointers in the Appleton-Neenah-Menasha area were provided an unusual treat to attend the production of Kismet on February 13, 14, 15. Since 1936, Jack Burroughs has produced and managed the drama programs in the Appleton High school where he has been teaching and managed many commercial productions, scheduled for this area. This recent production of Kismet highlighted his long and must successful career in this field of entertainment. It brought together over 250 students of Appleton High School from the areas of music, art, and speech. "Throughout the story runs a constant trend of splendor and magnificance in the imaginative settings and costumes and the pictorial excitement of exotic dances, imperial processions, market-place crowds and the swirling panoply of the Arabian Nights brought to life. Here is Kismet — FATE — in its newest and most lavish production."

Jack has taught Biology and English at Appleton and Evelyn (Hilbert '41) his wife has taught English currently serving as chairman of the English department.

Chesebro and Bride Teaching in Indiana

Robert C. Chesebro and his bride, the former Miss Gayle Kompelien, came here from their home in Hammond, Ind., to spend the Easter weekend with his parents, Mr. and Mrs. Donald Chesebro, 205 McCulloch St.

The couple are both teaching in the Hammond schools. Mr. Chesebro, a graduate of Wisconsin State College here, received a master's degree in music from the Indiana University, where he met his bride. He is teaching in the Hammond High School.

WSC Graduate Gets Tennessee Position

John E. Mrochek, who received a bachelor of science degree in 1955 from Wisconsin State College here and a Ph. D. degree from Iowa State University, Ames, last Feb. 29, is currently employed by Union Carbide at Oak Ridge National Laboratory, Oak Ridge, Tenn.

Dr. Mrochek attended Iowa State from 1959 until last February. He took his doctorate in chemistry with his thesis on "Extraction Properties of Some Bis (di-n-hexyl-phosphinyl) alkanes," a method of extracting certain chemicals from solvents.

Start New WSC Heating Plant

A new plant to relieve Wisconsin State College's overburdened heating system has been started.

Bids on the project have been opened in Madison and the low bidder is a Stevens Point firm, Ellis Stone Construction Co., with a figure of \$233,594 for general construction.

Other bids bring the total to \$788,797, not counting land, utilities, steam lines, site development and related costs.

The heating plant, on Maria Drive west of N. Reserve Street, is expected to be ready in time for the 1965-66 heating season.

It will replace the existing plant behind WSC's main building, which has become inadequate with the spread of the campus. Makeshift techniques have been employed to meet the heating demands of the growing college.

The exterior of the new plant will be brick to match Smith and Roach Residence Halls, now going up on N. Reserve Street.

Both coal and natural gas will be used as fuel.

The plant is designed for future expansion. The college intends to use the same area for carpentry, electrical and plumbing shops, and a garage for vehicle repair and storage.

Bids were opened last summer on boilers, controls and fuel burning equipment, and a \$235,333 contract was awarded then.

The architects and engineers are Orr-Schelen-Mayeron and Associates, Minneapolis.

The design of a steam conduit connecting the new plant to the existing steam transmission system is nearing completion and bids will be sought.

Twice As Many Freshman As Seniors At WSC

Freshmen outnumber seniors more than two to one this semester at Wisconsin State College here.

In a student body of 2,581 there are 928 freshmen and 400 seniors. Of this number, 560 freshmen are men and 368 are women. In the senior class 246 men and 154 women are registered.

In the sophomore class of 664 students, 420 are men; 244 are women. Of 547 juniors, 337 are men and 210 are women. In addition to the above, 42 special students are enrolled. Here, the ratio between men and women reverses for 20 students are men and 22 are women.

The figure 2,581 does not include WSC on-campus Saturday or extension program students who last semester brought the enrollment to 3,300.

Gilbert W. Faust, WSC registrar and director of admissions, has announced that 10.2 per cent of the full time on-campus student body was dropped at the end of the first semester because of academic reasons. During the 1962-63 academic year, 9.1 per cent was dropped at the end of the first semester.

However, students placed on probation declined from 12 per cent a year ago to 9.7 per cent this year.

Projections for the 1964-65 academic year indicate that 1,235 new freshmen will enroll, bringing the total number of freshmen to 1,350. In addition there will be 790 sophomores, 600 juniors, 490 seniors and 40 others in special categories, bringing the on-campus, full time student body total to 3,270.

Sports

Point Wrestlers in National Tournament

The following wrestlers participated in the National Wrestling Tournament at Black Hills State Teachers College, Spearfish, South Dakota on March 12, 13, 14: Tod Wise, Rich Sommer, Larry Ironside, Pete Seiler.

BILL GELWICKS took part in the National Swimming meet held at Hamline University, St. Paul, Minn., on March 16, 1964.

Many Students From Far-Away At Local WSC

A cosmopolitan atmosphere is provided at Wisconsin State College here by some 27 "overseas" students representing 17 nations or states.

The nations or states represented include Hawaii, India, Hong Kong, El Salvador, Kenya, British Guiana, Turkey, Japan, Canada, Cuba, Rhodesia (and Nyasaland), Lebanon, Greece, Israel, Brazil and Nigeria.

Women students and their homes include Geraldine Campos, Hawaii; Pushpa Gidwani, India; Frances Ching-Yee Lee, Hong Kong; Mrs. Virginia Liu, El Salvador; Mrs. Ruth Muema, Kenya; Esme Patterson, British Guiana; Halide Satar, Turkey; Linda Smith, Hawaii; Ayako Takeda, Japan, and Mrs. Waltraud Tepfenhardt, Canada.

The men students and their homes are Antonio Sobrinho, Brazil; Stanley Martin, Canada; Manual Arco and Gerardo Caamano, both of Cuba; Dan Matsoukas, Greece; Man Ming Robert Cheung and Frank Tse, both of Hong Kong; Quasim Quasim, Israel; Yuan Lung and Isao Soranaka, both of Japan; Robert Mambo, Crispus Muema, Donald Muthengi and Jason Nyariki, all of Kenya; Wajih Kalash, Lebanon; Umem Jacob Umem, Nigeria, and Lance-lot Chirwa, Rhodesia and Nyasaland.

President Albertson Tells of WSC Goals

Dr. James Albertson, president of Wisconsin State College, outlined a statement of long range goals for the college and told of the immediate plans at the regular monthly meeting of the board of directors of the Stevens Point Area Chamber of Commerce at Hotel Whiting.

Dr. Albertson reported that the graduate program is being broadened at the college, and that a four-year nursing program is in the analysis stage.

He reported that the administrative structure has undergone major changes and that some 25 new faculty members are expected to be added in September 1964.

Projects currently under way or planned are: construction of a new athletic field; completion of the Roach and Smith halls by September 1964; completion of the Allen Residence Center by September 1964; use of the heating plant by December 1964; the letting of contracts for an addition to the Student Union; and the starting of a classroom building by the fall of this year.

Two additional residence halls may also be started this summer.

Dr. Albertson and the chamber directors agreed on the necessity of good cooperation between the community and the college if an orderly growth is to continue.

Dr. Cook Selected for Post Graduate Study

Dr. Lawrence K. Cook, Cleveland, Ohio, has been selected for a year's post-graduate dental studies in the field of oral surgery at Boston University in Boston, Mass.

Dr. Cook, son of Dr. and Mrs. Arthur R. Cook, 503 Brawley St., is currently completing a year as chief resident in oral surgery at the Cleveland Metropolitan General Hospital.

The junior Dr. Cook will study at Boston University for the 1964-65 school year. He was graduated from Marquette University School of Dentistry, Milwaukee, in June 1962. He had received a B. S. degree in 1958 at Wisconsin State College here with a history major and a music minor. He was a member of Sigma Phi Epsilon National Social Fraternity, the Men's Glee Club and the College Choir.

In Memorium

Miss Louise R. Thom, 70, a Kenosha school teacher for many years, died in Kenosha after a short illness. After receiving her bachelor's degree from WSC at Stevens Point, Miss Thom taught at Racine and Kenosha County schools, spending 17 years at the Hansche School, Racine, and 15 at Lincoln Junior High, retiring five years ago.

Mrs. Carl H. Vetter, 63, died Wednesday, January 29, 1964 at her home. Mrs. Vetter, the former Irene Bowers, was a graduate of WSC and taught for a time in Wausau, Abbotsford and the Stevens Point system.

A former Plainfield and area resident, Mrs. Gladys Rozell, Delano, California, died January 22, 1964 at Bakersfield, Calif., following a lingering illness. Mrs. Rozell, daughter of the late Mr. and Mrs. Julius Jarvis, attended the Waushara County Normal School at Wautoma and WSC, Stevens Point. She taught at West Plainfield.

Funeral services were held Friday, January 31, 1964 in Portland, Oregon for Mrs. Lura Karnopp, 88, a former resident of Eau Claire. She was graduated from Stevens Point Teachers College in 1900. She taught high school at Cumberland and served two terms as county superintendent before attending Columbia University to specialize in English literature. In 1913 she married John L. Karnopp and they moved to Portland. Mrs. Karnopp, noted for her prize primrose, was a founder, charter member, and honorary life member of the American Primrose Society and was named in 1954 as the society's first recipient of the Bamford Trophy from England for her primrose growing. She served in the Oregon state senate when she was appointed to take the post left vacant by the election of a woman as mayor of Portland. Besides her husband, she is survived by a daughter, Mrs. L. Roland Mills, Jr.

Vincent J. Shafranski, 63, died on February 3, 1964 at St Michael's Hospital in Stevens Point. He received his schooling at St. Peter's School and attended WSC in Stevens Point. In 1918 he started to work for the U. S. Post Office and served for 44 years as a parcel post and letter carrier. He retired July 31, 1963.

Miss Lillie Dunning, 83, died December 25, 1963, at the home of her sister, Miss Emma Blanche Dunning in Tomah. Miss Dunning received her Bachelor of Education degree from WSC and was a teacher in various public schools for a total of 43 years.

Mr. and Mrs. Clark Lampe, a former Stevens Point couple, were among the 85 victims of a Paradise Airlines crash near Lake Tahoe, Calif., recently. Mrs. Lampe, daughter of Mr. and Mrs. Frank O. Soeteber, 715 Church St., grew up in Stevens Point. The couple also lived here from about 1946 to 1950 and operated the old Sugar Bowl, a soda fountain on Main Street across from P. J. Jacobs High School. The Lampes had moved to California in 1962. Mr. Lampe was district circulation manager in Palo Alto for the San Francisco Chronicle. Both attended Wisconsin State College in Stevens Point.

Eagon Heads State Group

Dr. Burdette W. Eagon, dean of the School of Education at Wisconsin State College here, is the new president of the Wisconsin Association for Supervision and Curriculum Development, Department of Public Instruction.

Dr. Eagon, also a member of the state ASCD Board of Directors and of the editorial board, was elected to the presidency at the group's 14th annual spring conference at Lake Lawn Lodge, Delavan.

Dr. Eagon was a discussion leader on the conference theme, "The Social Aspects of Learning."

Also participating on the program were the Rev. G. Aubrey Young, director, Governor's Commission on Human Rights and Dr. Alexander Frazier, director of the Center for School Experimentation, Ohio State University, and a member of the national ASCD Executive Board.

Next Fall WSC Extends Curriculum Boundaries

Emphasizing the idea that knowledge is related, a new inter-departmental major and minor in American Civilization will be offered at WSC starting next fall.

This new addition to the curriculum reflects the national trend toward study of American culture, an example of which is the requiring of work in American Civilization for members of the Peace Corps. Similar programs already in operation in this region are those at WSC, River Falls and Minnesota State College, St. Cloud, Minnesota.

Students at WSC will now be able to earn a major or minor while studying their national heritage from a variety of viewpoints—in courses drawn from the fields of history, literature, arts, music, economics, political science, geography, sociology, speech, and education. Courses from these fields will enable the student to cut across departmental lines to answer such questions as: "Are there specifically American ideas and characteristics?" "What is the American identity?" "What does our own culture owe to that of other civilizations?"

A new course, American Civilization 100 titled "American Life," has been added to the curriculum. This new course will tie together the work of the program and integrate material from the various fields around central themes, periods, and persons, such as individualism, the 1920's, and Frank Lloyd Wright.

A central goal of the new major and minor program is to aid in the development of the student's self-understanding and to promote active citizenship—local, national, and international. Students will be able to study such objects as American architecture, oratory, jazz, and folk music, economic theories, government, community social patterns, stories and poems. To insure seeing their own culture in relation to that of other parts of the world, they may also do some study in the civilization of another nation, or area, such as that of France, Russia, or Latin America.

Through careful selection of courses meeting both American Civilization and Education requirements, students in Education can earn a major in American Civilization which will be required to contain a built-in teaching major and minor from the participating traditional subject areas. Upon completion of no more than the usual number of credits required for graduation, the student will then be certified by the State of Wisconsin to teach American Civilization as well as his traditional major and minor in specialized teaching fields, such as a major in history and a minor in English, for example.

Education students at WSC earning the broad field major in social science will also be able to earn a built-in major in American Civilization through careful selection of courses required in both areas.

In addition to providing preparation for elementary, intermediates, secondary, college and graduate teaching, study of the file of American Civilization is also valuable to vocational training in pre-law, journalism, and library science. Programs in American schools, colleges and universities and also in educational institutions in other lands where there is interest in American culture. In many institutions degrees are conferred at all levels—B. A., M. A., and Ph. D.

Students in the College of Letters and Science at WSC whose main concern is cultural insight may also earn the major and minor in American Civilization while working toward a general B. A. degree.

WSC Graduate Is Author Of Book

T. V. Olsen, 1955 Wisconsin State College graduate, is the author of a new book titled, "Break the Young Land," which will come from the press April 10.

His new western, written under the name of Joshua Stark, reflects his interest in the American frontier about which he has written several books.

His first book was written during weekends while he was attending WSC here. He lives in Rhinelander.

Engagements

JUDITH MAE NICHOLS, '63, and LAURENCE W. LADWIG, '63. Miss Nichols is a student medical technologist at St. Mary's Hospital in Wausau. Mr. Ladwig is teaching English at Eagle River High School, Eagle River, Wis.

ANN HELD, '61, and LUDWIG MILLER, '61. Miss Held teaches at the Horicon (Wis.) High School.

CARMINE MAE HANSEN, '63, and ALFRED C. ROBINSON, '63. Miss Hansen is a kindergarten teacher and her fiance is a science teacher in the Appleton Public Schools.

FAYE LIGHTFUSS, '63, and ROLAND JUNKER, '63. Miss Lightfuss is a teacher at Montello schools. Mr. Junker is employed with Deere and Co. of Moline, Ill., as a computer programmer.

LORANN MEILAHN, '63, and KIM STIEN. Miss Meilahn is teaching physical education at the Waterloo Community Schools. Mr. Stien attended WSC and is currently a sophomore at the University of Wisconsin School of Medicine.

CLAIRE ANN JENSEN, '62, and THOMAS F. BEECH. Miss Jensen is a kindergarten teacher at Greendale, Wis. Mr. Beech was graduated from Carleton College, Northfield, Minn. and attended Union Theological Seminary and Columbia University in New York City. He is presently working as a research assistant at the Marshfield Clinic and will attend the University of Minnesota School of Medicine.

JUDITH STROIK and GREG G. GUZMAN, '63. Miss Stroik is employed by Sentry Insurance in Stevens Point and Mr. Guzman is currently studying for a master's degree at the University of Pittsburgh.

SANDRA K. SWANKE and GERALD C. WHITEHOUSE, '60. Miss Swanke was graduated from Marquette University and is a physical therapist at the University of Illinois Research and Educational Hospital, Chicago, Ill. Mr. Whitehouse is teaching at the Tigerton High School (Wis.).

CAROLYN M. MALMEN and BERNARD B. COULTHURST, '60. Mr. Coulthurst is employed in Chicago by the U. S. government as a data processing supervisor in the Bureau of Wage and Service Records of the U. S. Railroad Retirement Board. Miss Malmén is also employed in Chicago by the federal government as an administrative assistant to the labor member of the U. S. Railroad Retirement Board.

MARY JO BUSSE and DAVID W. MCKAY, '62. Miss Busse attended WSC and graduated from Madison Business College. She is employed at the United States Armed Forces Institute in Madison. Mr. McKay is a teacher at Waupaca High School, Waupaca, Wis.

ANNE M. HARASIUK and THOMAS W. DLUGOS. Mr. Dlugos is a junior at WSC, majoring in conservation. Miss Harasiuk is employed by the First National Bank in Stevens Point.

MARY ANN WALLACE and THOMAS F. GREEN, '64. Miss Wallace is a sophomore at WSC and Mr. Green is a senior in secondary education, majoring in mathematics.

DONNA MAE FUHRMAN and ROGER W. HAHN. Miss Fuhrman attends WSC, and her fiance is a graduate of the University of Wisconsin agricultural short course.

SHARON MARY SMITH and CHARLES W. KAHSEN. Both Miss Smith and Mr. Kahsen are juniors at WSC.

Union Addition Under Construction

Alan Babler of Monroe, president of the Wisconsin State College Union Board, took the first shovelful when ground was broken Friday, April 3 for the new union addition. From left are Babler; Don Hachet, assistant director of the union; Leon Bell, union director, and WSC President James A. Albertson. Actual excavation started April 6. The addition, which should be ready for use by the fall of 1965, will double the size of the building. "Today's ground-breaking culminates several years of intensive planning by students and administrators," said President Albertson, "and will help facilitate an enrichment of our cultural, social and recreational program."

The addition will be built on the back (west) side of the union. It will add 35,000 square feet of floor space, bringing the total to about 70,000, and will expand food service facilities to help meet the demands of the growing college.

The present building was built in 1959 but was crowded almost from the start because of the college's expanding enrollment.

The new addition will have a college store, a post office sub-station and a game area in the basement; a snack bar, lounge and union administrative offices on the first floor; and a large multi-purpose room on the second floor, seating 500 at lectures and films.

The multi-purpose room will be used for dances as well. Also on the second floor will be meeting and conference rooms, and offices for the assistant union directors, college publications, the Student Council and the College Union Board.

The present building will be remodeled to tie it together functionally with the addition.

A snack bar in the basement will be turned into a cafeteria for students at Delzell, Nelson and Steiner Halls. The present cafeteria on the first floor will be used by off-campus students, faculty members and other personnel. The present second floor lounge will be used for banquets.

Cafeteria service for students living in Pray-Sims, Hyer, Roach and Smith Halls on the north campus will be provided at the new Allen Residence Center.

Psychology Major Approved

On February 28th, the State College Board of Regents approved a Liberal Arts major in Psychology for Stevens Point. Final approval by the Coordinating Board is expected in March.

The major will be in effect for the fall of 1964 with the first graduates expected in June, 1965.

The Psychology Department has been planning for the major for several years. New courses already approved, and offered for the first time in 1963-64 or 1964-65, make the major fully functional at once. The major requires 30 credits in Psychology, and the student may plan a program from a total of 40 credits that are offered.

At present there are four members on the Psychology staff and a fifth has been authorized for 1964-65.

An undergraduate major in Psychology is expected to be of interest to two groups of students: Those who do not expect to go beyond the bachelor's degree, and those who will use it as pre-professional background. The first will include those who want a liberal education and select a major primarily as a matter of interest, and those who use the bachelor's degree to qualify for a broad range of business and industrial occupations. Persons who are interested in psychology at the professional level will plan to continue study in graduate school.

Dr. Frances Norton did her graduate work at the University of Iowa. Dr. James Lee has been chief psychologist at the Erie County Mental Guidance Center, Sandusky, Ohio, for the last six years. His Ph. D. in Psychology was received from Purdue University. Clyde Norton was formerly head of the Department of Psychology at Cornell College, Mt. Vernon, Iowa. Albert Harris did his graduate work in Education and Psychology at the University of Wisconsin.

WSC Graduate in Boy Scout Work

Gary Parkinson, Green Bay, who was among the 76 mid-term graduates from Wisconsin State College here, has accepted a position of district Boy Scout executive in Lafayette, Ind.

In preparation for this job he is attending the National Training School for Boy Scouts of America in Mendham, N. J.
