Lt. Governor Patrick Lucey watches Norman Knutzen light Winter Carnival Torch.

SPRING EDITION '66

Knutzen, Lucey Take Part in W.S.U. Torchlighting Rites

Winter Carnival week at WSU-Stevens Point was officially under way February 13 with torchlighting ceremonies on the lawn in of Old Main.

Lt. Governor Patrick Lucey, Madison, was on campus to receive the Winter Carnival torch which had been ignited by Gov. Warren Knowles February 12 in ceremonies in Madison. The flame had been carried to Stevens Point by 18 WSU runners in laps throughout the night.

Accepting the torch from the runners, Lucey termed their effort "in the great classical tradition of the Marathon runners."

Lucey then presented the flame to Norman Knutzen, WSU professor emeritus to whom this year's Winter Carnival is dedicated. Lucey cited Knutzen's contribution to education made during his many years of service to the university and congratulated students for their selection of Knutzen. "This is one small way to show your appreciation to him," Lucey added.

Knutzen lighted the Winter Carnival torch which burned continually through the week of carnival activities until Sunday night, February 20.

"Winter Carnival seems to be creating more spirit on campus than homecoming," Knutzen observed. He urged students to keep the program growing and developing.

Lucey addressed students and faculty members at a reception held in his honor at the University Center, and asked students to take an active interest in state government.

"Things done in Madison are determining both the quantity and quality of education, and citizens can continue to meet the challenge of education only if those directly involved become militant," he warned.

Lucey cited as a serious crisis a suggested moratorium on building at the state universities "proposed by some members of the building commission."

"Enrollment at the state universities has tripled, and yet the square foot per pupil is less than

it was 10 years ago," he said.

"Wisconsin has made the proud boast that we will provide facilities for all those who seek knowledge, and now we must meet that challenge," the lieutenant governor emphasized.

Citing the \$424 million earmarked for education in Wisconsin's budget, Lucey expressed his belief that such expenditures are a legitimate function of government. This must be made clear to "elected officials who would attempt to block such expenditures," he emphasized.

In his address, Mr. Lucey congratulated Mr. Knutzen for his "devoted service to education," and termed him Stevens Point's "Mr. Chips."

This sort of service is difficult to measure, Mr. Lucey said. "The contributions a great educator makes to education continue in ever widening circles on to the future generations of teachers entering the field."

As associate professor of English (emeritus), Mr. Knutzen reached retirement age in 1963 but has continued on a part-time basis. He has also continued as director of the WSU Men's Glee Club, an organization he has conducted in more than 350 concerts over the United States for 31 years.

Mr. Knutzen joined the WSU faculty in 1931. A native of Manitowoc, he attended WSU before enrolling at Lawrence College where he completed work for an A.B. degree. He received an M.A. degree from the University of Wisconsin and has also done graduate work at the University of Chicago.

Winter Carnival activities continued with a costume contest at the University center. Pancake eating and pipe smoking competitions were scheduled at the Allen Center.

Students voted for Winter Carnival king and queen and the royalty was introduced between the half of the River Falls basketball game February 19. Crowning of the king and queen took place at the "Woodchopper's Ball" Saturday, February 19.

Orland Radke Named Director of W.S.U. Extended Services

DON WARNER PHOTO

Orland E. Radke, former WSU-Stevens Point associate dean of students, has been named the university's director of extended services. Mr. Radke assumed his new position February 1.

The university's extended services has been conducted by Dr. Raymond Gothan who continues his present duties as director of the WSU Placement Office. Dr. Gothan also remains in charge of alumni activities.

Mr. Radke, who joined the WSU faculty in 1956, attended Lawrence College, Appleton, and was graduated from WSU-Stevens Point. He holds a master of science degree from the University of Wisconsin-Madison.

During the past semester, the WSU extended services program has provided 28 classes in 13 centers throughout the state. A total of 578 students were enrolled in extension classes both on the

WSU campus and at state centers.

As well as continuing work with the extension classes program, Mr. Radke serves as liaison between community and area groups, organizations and industries who may be interested in conducting special programs in cooperation with WSU.

"The university is well able to provide professional personnel as well as facilities for various seminars and workshops," Radke explained.

One such program is now being conducted in cooperation with Consolidated Papers, Inc., in Wisconsin Rapids. Company employees are enrolled in classes held both on the campus and at Consolidated headquarters. Instruction is being given in various fields to provide employees the opportunity for technical advancement.

The university also plans to expand the extended services program to offer additional adult education work on non-credit basis to interested persons in the community. Such courses have been previously conducted in poetry, political science, and art.

Also considered as possible future extension offerings are additional credit courses on the freshmen level for persons who wish to begin work toward a degree on a part-time basis. These will include classes scheduled during the late afternoons as well as courses now offered on Tuesday evenings and on Saturdays.

Forestry Major At W.S.U. Backed

The Board of Regents of State Colleges recently approved an undergraduate major in forestry at WSU-Stevens Point. The resolution was introduced by Mrs. Mary Williams, Stevens Point board member. The resolution is now before the Coordinating Committee for Higher Education for approval.

In presenting the proposal for the forestry major, WSU President James Albertson said it is the intent of the local university

to work out a program with the University of Wisconsin-Madison. He said it is hoped the university and UW-Madison will have a co-operative program to present to the Coordinating Committee.

No state school presently offers forestry, and Wisconsin students who wish to major in it usually go to Minnesota or Michigan. It is estimated that 200 students would enroll in the forestry major at Stevens Point if it were approved.

Plans for the Learning Resources Center

The Learning Resources Center is one of the major projects among the many new physical facilities being planned to meet the needs of increasing enrollments and expanding curriculum at our University. The building has been placed on the list of approved construction for the 1965-67 biennium and is scheduled for completion in the fall of 1968. The Board of College Regents office has granted a budget of \$3.2 million and an assignable space allocation of 91,000 square feet.

The plans for the new structure are still in the conceptual stages. A faculty Planning Committee has completed the Program Statement and is currently holding a series of planning sessions with representatives of the Regents' Office and the architects. The firm of Irion and Reinke of Oshkosh has been contracted by the state as the architects for the building. This firm has also served as architects for the library building at Oshkosh State University which was completed in 1962.

Although the plans are still in the initial stages, several factors have emerged which already characterize the concept of the Learning Resources Center and the resultant physical plant as a major effort of our University. The building itself in form and location will attempt to emphasize the academic objectives of the University. It will be located near the physical center of the expanded campus, adjacent to the projected mall and readily accessible to from the main arteries of student traffic. Structurally the building will embody architectural characteristics which will accent its dynamic functional role and at the same time coordinate with the architecture style employed in the Fine Arts Center which will be placed in proximity across the mall from the Learning Resources Center. An outstanding architectural feature of the building will be a tower to house the Schulmerich Carillons. The Carillons will be provided through the auspices of the University Foundation. Among other ideas intended to add to the attractive-

ness and to strengthen the functional aspects of the building is the plan to install carpeting, in the main lobby, circulation, and reading room areas.

Other features included in the present stage of structural planning will also tend to characterize the nature of the building. These include the plan for a stack tower and the employment of the modular principle in the construction of the major library service areas. The form of the building will be keyed to expansion of facilities to meet the future needs of an enrollment of 10,000 students and a book collection of 600,000 volumes. In short, in all architectural aspects, a concentrated effort is being made to blend aesthetic qualities with functional demands.

In addition to the traditional library functions of bibliography, stack circulation and reading facilities, the building will house the Audio-Visual Services, the Instructional Materials Center, the Conservation Materials Center, and the Federal and State Documents Depository. Another singular feature of the functional aspects of the building will be the inclusion of facilities to meet the needs of our new graduate program.

The project for a Learning Resources Center identifies our University as a pioneer in this area of academic developments in the state university system. The concept is of recent development to the entire field of higher education. Some of the more noted installations are the centers in operation at Stephens College in Columbia, Missouri, Central Washington State College, Florida Atlantic University at Miami, and the recently organized Grand Valley State College at Allendale, Michigan. Members of the Faculty Planning Committee have endeavored over the past year to visit as many of these functioning installations as possible in an effort to secure information and experience with the most recent developments in library construction and organization as well as of innovations and applications of automated instructional facilities in the audio-visual field. Among

the centers visited are those at Stephens College, Florida Atlantic, Northern Michigan University, Grand Valley College and the new library facilities at Notre Dame and Milwaukee Public Library. It is thus hoped that our new center will embody the latest and most functional developments in these fields.

The Learning Resources concept is based on several sound principles of teaching and learning. It is an expansion or rather a departure from the traditional idea of a library as a center primarily equipped for the depositing and circulating of printed materials. Provision is being made to permit new means of communication such as audio and video tapes and a variety of microforms to become standard media of instruction and learning. At the same time facilities will be keyed to the encouragement of a more individualized approach to instruction as well as self-instruction on the part of the student through programmed instructional devices. Encouragement will also be given to experimentation in new materials and methods in the teaching-learning process. The audio-visual facilities of the center will

be connected to all the major academic buildings of the campus by co-axial TV cable, making possible television broad casting within the campus area, including study facilities in dormitory centers. Within the Learning Resources Center itself automatic broadcasting and dial-access retrieval equipment will be installed to permit the student to employ a variety of audio-video communications in the learning experience. Future plans call for expansion of education television broadcasting through closed channel facilities to the surrounding community. To quote our University president, Dr. James Albertson; "We hope this will make a major breakthrough in the teaching-learning process."

In future issues of your Alumni News Bulletin we will attempt to keep you informed of our progress as the Learning Resources Center emerges from concept in plan to reality. We also hope to inform you in more detail on some of the specific functions and services which are to be integrated into the organization of the new Center.

Frederich A. Krempke
Dean, Learning Resources

Physical Education Major for Women Approved

The Physical Education Department is proud to announce that the physical education major for women was approved this year. With the approval of this major, we now have opportunity to graduate a greater number of women qualified to teach physical education and also, to give more service to area schools through workshops, conferences and master lessons.

The major for women is a 54 credit broad field major designed to prepare women for leadership positions in physical education, health and recreation. Course work has been planned so the student will: become aware of the moving human being, develop her own movement skills and know how to use movement in a wide variety of teaching-learning situations.

The major has a core of 45 credits which include: introduc-

tion to P.E., anatomy, physiology, physiology of exercise, kinesiology, adapted physical education, personal and community health, nutrition, first aid, elementary school P.E., organization and administration of P.E. Activity courses within the core are: beginning and advanced team sports, beginning and advanced gymnastics, fundamentals of rhythm and individual sports. Additional work is required in dance and swimming.

To complete the major, eleven credits must be selected in an area of concentration. These areas are: general physical education, elementary school physical education, recreation and health.

For further information about the Physical Education Major at WSU, Stevens Point, write to the Admissions Office or to Marjorie Schelfhout, Director of Women's Physical Education Programs.

Mrs. DeBot Retires; W.S.U. Dean 25 Years

UNIVERSITY PHOTO SERVICE

A year ago in February Dean Elizabeth Pfiffner DeBot walked towards the microphone set on the auditorium stage of the WSU physical education building, and gazed across the crammed and stuffy auditorium at the upturned faces of hundreds of people attending the climaxing night's activities of the annual WSU Winter Carnival, dedicated that year to Mrs. DeBot.

She paused a moment, and then with a laugh, clasped the microphone and said, "Most girls come to college to find a husband — well, now that I've found mine, I guess I can retire!"

And amidst roars of appreciation laughter and applause, Mrs. DeBot walked sedately back to her seat.

Mrs. Pfiffner, who was married Jan. 11, 1965 to Elmer C. DeBot, president of the Point Sporting Goods, Inc. found that it wasn't quite enough to simply announce her intention of resigning university, a position she had held for 25 years. For through the years, Mrs. DeBot had become an indispensable, integral part of the university's growth.

"I came to WSU when it was the Central State Teachers College," Mrs. DeBot said. "I received my master's degree from the University of Wisconsin at Madison, with a major in guidance work, and in 1937 I return-

ed to Stevens Point where I taught history for two years, and helped establish the guidance system there.

"In June of 1940, I came to the college to replace Miss Mary Hanna, an English teacher who had become ill. When money was voted by the board of regents to obtain a dean of women, E. T. Smith, president of the college at the time, offered me the position."

Mrs. DeBot has been at it ever since, serving as a substitute "mother" for a staggering number of coeds, who turn to her for help with their personal problems as well as scholastic ones.

Mrs. DeBot's tenure as dean of women has left an indelible stamp on the university, both through her philosophy and deeds.

Under her guidance, the local chapter of the Associated Women's Student organization, an international organization, was begun on campus. Today, every coed who attends the university is automatically a member of the association, whose benefits include the big sister program, destined to welcome incoming coeds and make them acquainted with the school; the senior women's banquet, and other activities.

Mrs. DeBot was instrumental in organizing a Panhellenic chapter of the national organization of the same name, increasing the efficiency and scope of what had formerly been called Inter-Sorority Council.

When Delzell Hall was erected, and a student union board set up, Mrs. DeBot attended many meetings in the Delzell basement as a faculty adviser to the newly organized group.

Professionally, Mrs. DeBot is a past secretary of the Wisconsin State Deans' Association.

What has she enjoyed most about her 25 years as a dean of women at the university?

"My contacts," came the prompt reply. "I've thoroughly enjoyed working with young people. It gives me such a thrill each commencement, to see the students who have struggled financially and scholastically to get their educa-

tion, finally succeed.

"My only real regret personally is that the responsibilities of the position had increased to such an extent, and the school is growing so fast, that there is not time to get acquainted with all the students and faculty members. That personal touch is so important to me."

To say that Mrs. DeBot is "retiring" is almost impertinent. Her daily schedule and activities prove that there is no such word as "retire" in her vocabulary.

Besides managing a home, caring for her husband and entertaining three young grandchildren acquired through marriage, Mrs. DeBot, who also has one daughter by her first marriage, Mary, now Mrs. E. J. Duffy, of Duluth, Minn., is an active participant in professional, church, and civic affairs, and maintains ties with the university.

She is a member of the American Association of University

Women, and her pet project is to see the AWS Honor Society established as a chapter of Mortarboard, national honorary women's organization. She is also a director of the newly established University foundation, whose function is to seek scholarships, grants and gifts for the university.

Both Mrs. DeBot and her husband are on the local Confraternity of Christian Doctrine Board, and she is a member of the lay school board at St. Stephen's Catholic Parish.

The League of Women Voters, the Progress Club and the Business and Professional Women's Club also claim her attention.

An optimist to the end, Mrs. DeBot still has some plans for her "spare time." "My husband and I hope to do some traveling, and I would like to have my own garden," said the dean, whose retirement officially began Jan. 1, 1966.

W.S.U.'s Initiate Full Time Graduate Student Program

Beginning September, 1966, the nine Wisconsin State Universities will conduct a full time resident graduate student program leading to master's degrees in education, the Board of Regents Office in Madison reports.

Planning is based on estimated total enrollment next fall of 47,530, including 1,750 graduate students.

The budget approved for the graduate program next year includes funds for 87 graduate assistantships at an average of \$2,000 for the year. It also provides for legislative scholarships for 100 graduate students.

Eugene R. McPhee, Madison, Director of State Universities, reports that the graduate assistant program was authorized with the understanding that graduate assistants will not be placed in charge of class or laboratory sections, but will work as assistants to regular faculty members.

"It is the intent of the regents and presidents to have all classes taught by full time faculty members," McPhee said.

The system-wide graduate program of the state universities began in the 1963 summer session. Earlier, a cooperative program with the University of Wisconsin enabled classroom teachers to begin their master's degree programs at the State Colleges, then complete their work and receive their degrees at the University of Wisconsin.

Graduate courses were offered during the regular school year for the first time in 1964-65 and consisted mainly of evening and Saturday classes. A similar program is being offered this year, with 1,004 graduate students enrolled.

Before the system-wide program began, specialized master's degree programs were offered for many years at La Crosse, Superior, and Stout (Menomonie).

Estimated enrollments next fall, with graduate figures in parentheses are: Eau Claire 5,370 (170), La Crosse 4,870 (120), Oshkosh 8,650 (250), Platteville 4,450 (200), River Falls 3,970 (120), STEVENS POINT 5,710 (130), Stout 3,430 (180), Whitewater 8,030 (330).

Report of Wisconsin State University-Stevens Point Foundation Inc.

The Wisconsin State University-Stevens Point Foundation held the first meeting for official organization on September 17, 1965. This meeting was called by President James Albertson of Wisconsin State University-Stevens Point.

The purpose of the meeting was twofold: (1) adopt by-laws, (2) elect officers.

The by-laws provided for the election of directors by four classes.

(a) Class 1. Ex-officio members — four (4) in number.

(1) President of the Wisconsin State University-Stevens Point or its successor

(2) President of the Wisconsin State University - Stevens Point alumni or its successor

(3) A member of the Wisconsin State College Board of Regents or its successor — designated annually by the President of said Board of Regents

(4) A member of the faculty of Wisconsin State University - Stevens Point or its successor—selected biennially by the faculty.

(b) Class 2. two (2) in number — 2 year terms.

Nominated by the President of Wisconsin State University-Stevens Point or its successor and elected for terms of 2 years.

(c) Class 3. two (2) in number — 3 year terms.

Nominated by the President of Wisconsin State University - Stevens Point or its successor and elected for a term of 3 years.

(d) Class 4. one (1) in number — 1 year term.

Nominated by the Student Senate of Wisconsin State University - Stevens Point or its successor and elected for a term of 1 year.

Following the directions of the by-laws, the following directors were elected:

John C. Thomson — Regent, Wisconsin State Universities

James H. Albertson — President, Wisconsin State University - Stevens Point

Warren Kostroski—Student

Robert Lewis — Chairman, Wisconsin State University faculty

Hiram D. Anderson—Attorney

Elizabeth (Pfiffner) DeBot—Retired Dean of Women

Carl N. Jacobs — Retired President, Sentry Insurance Co.

Joseph Hartz — President, First National Bank, Stevens Point

S. G. Kingston — Citizens National Bank, Stevens Point

The directors elected the following officers:

President — John C. Thomson

Vice President—Elizabeth DeBot

Temporary Secretary — Kurt R. Schmeller

Temporary Treasurer — Milton E. Sorensen

Mr. Albertson reported the financial statement for the Foundation. Various funds previously established at the University with others to be added showed a balance of \$12,783.74 as of September 13, 1965. Each scholarship fund has an administrative committee which will coordinate its work closely with that of the foundation.

The purpose of the Foundation as explained by Mr. Albertson was "to provide the margin of difference between a good and a great University, the Foundation will provide financial support to create new programs and to support on-going ones."

A number of activities were suggested for consideration by the directors.

(1) Financing needed housing, particularly the need for the 100 or more who will be employed in the Water Research Laboratory.

(2) Placing a carillon in the Learning Resource Center to serve as a cohesive element on the campus. The Schulmerich Carillon Co. has offered a price below current level for this project. The foundation contributed the first \$100.00 for this purchase.

(3) Assist students who are academically strong but financially weak.

(4) Endow chairs so that the University can strengthen current programs and support new programs.

(5) Purchase land for biology and forestry laboratories and other deserving academic areas.

Several standing committees were appointed by the president of the foundation:

1. Executive Committee
- 1.1 President of the Foundation
- 1.2 Vice-President of the Foundation
- 1.3 President of the University
2. Committee on Projects (Coordination and Priorities)
- 2.1 Mr. Albertson
- 2.2 Mr. Jacobs
- 2.3 Mr. Lewis
3. Committee on Investments
- 3.1 Mr. Anderson
- 3.2 Mr. Hartz
- 3.3 Mr. Kingston
- 3.4 Mr. Sorensen (non-voting mem-

ber)

4. Committee on Fund Raising
- 4.1 Mr. Albertson
- 4.2 Mrs. DeBot
- 4.3 Mr. Hartz
- 4.4 Mr. Kingston
- 4.5 Mr. Thomson
- 4.6 Mr. Kostroski

The secretary reported that the Foundation has received tax-exempt status Milwaukee — E.O.—65—283 from the Internal Revenue Service and that a maximum effort will be made to inform contributors of this fact.

The next meeting of the Foundation is scheduled for Tuesday, May 10, 1966.

New Staff Added in Department of Economics

Dr. James E. Jensen, Chairman of the Economics Department, has reported the names of three new staff members added to this department at the beginning of the current school year.

(1) Michael F. Sullivan — Instructor in Economics, B.A. Degree—University of Denver, M.S. Degree — University of Wisconsin, Continuing graduate study at the University of Colorado, Teaching experience at Idaho State University, Moscow, Idaho.

(2) Paul Kelch — Assistant Professor of Economics, B.S. and M.A. Degrees —Sul Ross State College, Alpine, Texas. Continuing

graduate study at Princeton University, Indiana University, and Butler University. Previous teaching experience at Sul Ross State College.

(3) Milton E. Sorenson — Vice President for Business Affairs — Assistant Professor of Economics B.S. Degree—University of Kentucky, M.B.A. Degree — University of Wisconsin, Mr. Sorenson will teach a course in "Personnel Relations."

Other members of the staff, teaching either part or full time, include Paul Apfel, Darrell A. Christie, Merl L. Farmer, and Dr. Gordon Haferbecker.

Koeppen Receives Ph.D. Degree At U.W.

Don Koeppen, chairman of the WSU-Stevens Point business education department, was awarded a Ph.D. degree by the University of Wisconsin-Madison at mid-year commencement, January 22, 1966.

Dr. Koeppen, associate professor of business education, came to WSU in 1961. He was graduated from WSU-Whitewater, and holds an M.S. degree from the University of Wisconsin.

He formerly taught high schools at Lancaster and Clintonville before joining the staff at WSU-Whitewater where he was a faculty member for five years.

He is a member of the Wisconsin Business Education Association, the National Business Education Association, and Delta Pi Epsilon, national business education fraternity.

John Thomson Suffers Heart Attack, Dies

STEVENS POINT DAILY JOURNAL PHOTO

In the picture, Mr. Thomson is shown with Gov. Knowles and Mrs. Mary Williams, the newly appointed regent to succeed Mr. Thomson, and President Albertson. A map of the campus is being studied relative to new buildings to be added.

John C. Thomson, 54, a vice president of Sentry Insurance and a leader in higher education in Wisconsin, died suddenly on Thursday, February 10.

He suffered a heart attack at his home, 516 Sunrise Ave., Park Ridge, Stevens Point.

Mr. Thomson was a member of the Board of Regents of the Wisconsin State University system from 1960 until last August, serving part of the time as vice president.

During that time, he led a fight to establish a community college system offering a combination of academic and technical training. He felt technical training was vital to the youth of Wisconsin and the economy of the state, and urged that it be brought "back into the mainstream."

By the time he left the board, his battle had been at least partly won. A new state law will require all areas of the state to be in vocational school districts by 1970, and this, Mr. Thomson felt, was a base on which a community college system could be built.

Mr. Thomson was appointed a regent by a Democratic governor, Gaylord Nelson. A Republican, Warren Knowles, was in power when he left the office.

Knowles, when he appointed Mrs. Mary Williams of Stevens Point as his successor, praised Mr. Thomson for exerting a "positive and lasting influence" on higher education in the state, and acknowledged that he had influenced his thinking on technical training.

Knowles offered Mr. Thomson an appointment to the strengthened Coordinating Committee for Higher Education, but he turned it down for health reasons.

He had previously been on the Coordinating Committee while a member of the Board of Regents.

Mr. Thomson was a native of Kansas City, Mo. He joined Sentry in 1935 as a home office claims auditor. He became general claims manager in 1947, central-east district manager in 1950 and vice president-personnel in 1953.

Mr. Thomson had had a heart condition for some time but remained active.

Survivors include his wife, Gladys, and three sons; John Godfrey, an attorney in Northfield, Minn., James in the Peace Corps in Niger, Africa, and Eric, a student at Hanover College, Hanover, Ind.

Dr. Krempfle Dean, Learning Resources

Dr. Frederick A. Krempfle, professor of history at WSU-Stevens Point, has been named dean of learning resources, a new position at the university. Dr. Krempfle who assumed duties on November 1 was appointed by Pres. James Albertson on the recommendation of the WSU Faculty Advisory Selection Committee.

As dean of learning resources, Dr. Krempfle administers program and personnel at the university's new Learning Research Center. Scheduled for completion in 1968, the center will combine the functions of the traditional library with an extensive collection of audio-visual materials including films, tapes, recordings and facilities for closed circuit television.

Formerly of Duluth, Minn., Dr. Krempfle joined the WSU faculty in 1948. He received a B.E. degree from WSU-Superior and both master's and doctorate from the University of Minnesota. He has also studied at Shrieveham University, Swindon, England.

Dr. Krempfle's special interests are in the fields of medieval and renaissance history. He is married to the former Pat Carver of Stevens Point, and is the father of one son. He had form-

erly taught in Douglas County, and at Ely Junior College, Ely, Minn.

The concept of a Learning Resources Center is an innovation in the Wisconsin university system. The first such center was opened at Stephens College, Columbia, Mo., in 1959. Other nationally known centers are located at Florida Atlantic University and Central Washington State College.

Based on the philosophy that in the modern university the library can no longer be considered simply a place, the learning center will seek to incorporate the physical structure with a collection and classification of information in book and non-book forms. Such a center will provide opportunity for student self-instruction as well as initiating new educational devices and techniques.

At WSU-Stevens Point, the Learning Resources Center is planned as the intellectual center of the campus. Located in the physical center of the university, the building will include the traditional reading and reference rooms as well as an instructional materials center, a conservation materials center and audio-visual services.

Placement Services Available to Alumni

It has been most encouraging to note the fine positions to which Point graduates have been selected as they earn attractive experience records and continue their graduate study. Though the number of notices of such promotions have increased significantly, we know that there are many whose new position we do not know. May we urge that more Pointer Alums send us notices of their present position and a record of the completion of graduate study.

Others who may wish to learn about new promotional opportunities are requested to arrange to have their placement files updated and available for placement services. A listing of vacancies in the elementary, secondary or

college and university levels will be supplied upon request. We have many positions reported at the college and university levels with a limited number of alums to recommend. Those qualified in special areas are also urged to contact the placement office.

Business, industry and the state and federal agencies are much in need of experienced personnel, particularly those who have added graduate study. The services of the placement office will expand to any extent to meet the needs of our deserving alumni. It is important that your placement file remains up-to-date and service requested are arranged for in advance. We hope that more alums will make use of any of these services.

International Theater Festival A Highlight of Summer Art Offerings

An International Theater Festival will provide the "new look" in Summer Theater this coming summer at Wisconsin State University, Stevens Point. In other features of the summer series, famed saxophonist Sigurd Rascher will be on campus for the first four weeks of the summer session as both teacher and performer, a new dance workshop for both teachers and students will be inaugurated, and a display of paintings by William Burton will be shown in the Library Theater Gallery.

The University Arts and Lectures Series is bringing to the campus internationally known artists throughout the semester. During February the Koeckert String Quartet and the American Jazz Ensemble were heard. March will see the appearance of Nathan Milstein, violinist, in the University Auditorium at 8:00 p.m. The famous Philadelphia orchestra under Eugene Ormandy will appear in the fieldhouse at 8:00 p.m., Friday evening, April 29. During the summer session the Arts and Lecture Series will present three attraction: Dance Troupe from India, June 20; Marionette Theater, June 28; and Badger Ballads early in July. These events will be at 8 p.m. in the University Auditorium.

The new summer theater policy represents a switch from the stock company concept to the repertory company concept. Planned by a committee from the Drama faculty headed by department chairman Seldon Faulkner, the repertory will include: Robert Bolt's "A Man For All Seasons," Ondine by Girardoux, Molnar's "The Guardsman" associated with the remarkable performances by Lunt and Fontanne, and "A Thousand Clowns" by Herb Gardner. A resident company will spend the first four weeks of the summer session in rehearsal and the last four weeks in public performance of the entire repertory. Instead of giving one play several nights in succession, as in former years, the entire repertory of plays will be rotated during the four weeks. Applications are

now being received for scholarships for members of the company. Inquiries should be addressed to Dr. Faulkner, in care of the department of speech and drama.

Mr. Rascher, whose saxophone virtuosity has been an international sensation for many years, will join the faculty of the Point Music Camp and the graduate school for the first four weeks of the summer session. Mr. Rascher will offer a graduate course in instrumental techniques designed especially for secondary music teachers. During his stay on the campus, he will also present one or more public concerts and coach a saxophone ensemble made up of students from the camp.

The senior session of the camp will open as usual on the first day of the summer session, June 13, with registration the preceding afternoon. Outstanding among the conductors on the staff will be Donald I. Moore of Baylor University and Italo Taranta of Cass Technical High School in Detroit. Mr. Moore will direct the wind ensemble as well as teach a graduate course. Mr. Taranta, returning by popular demand for his second year, will direct choral activities. After the two-week session of senior camp, there will be two one-week sessions of junior high school camp, one commencing the week of June 27 and the other the week of July 3. A limited number of scholarships are available through the University, and additional scholarships are made available by various local organizations in Central Wisconsin, such as music parents clubs, service clubs, etc. Applications for admission to the camp may be secured by writing directly to Jack Cohan, Point Music Camp Director, Department of Music.

New this summer will be a workshop in dance instruction, designed especially for students, teachers, and school administrators interested in dance. Demonstrations, lectures, and performances will be given under the direction of a noted authority in

the field of dance. Further details may be secured by writing Robert Cantrick, Dean, School of Fine Arts.

The visual arts will be featured during the second week of the summer session when Mr. Buxton's painting show opens, running from June 20 through July 29. A gallery talk, a reception, and other events are being planned by the department of art, according to an announcement from Henry Runke, Department Chairman.

Plans for the new fine arts building have moved ahead to the drawing board stage. The new building, housing music, art and drama, will be constructed just south of the new classroom building nearing completion. Together with the classroom building and the science building, this new fine arts building will enclose a future campus mall, which is expected to be landscaped attractively as a center of the learning activities on the campus. Also located on the future mall will be the new learning resources center.

Highlights of the fine arts offerings during the spring include the presentation of the opera "Carmen" by the music department March 16, 17, 18. Directed by Thomas Cultica, this popular opera features a cast comprised mainly of students and a full orchestra utilizing both students and townspeople. The department of speech and drama presents the contemporary Pirandello drama "Right you are If you Think You Are" May 4, 5, 6, 7 in the University auditorium.

The annual faculty art show will be hung in the library theater gallery from March 20

through April 22, with a public reception scheduled for Sunday evening, March 20 from 7:00 to 10:00 p.m. in the faculty lounge. The spring concert of the Symphony band under Thomas Braeuer will be Tuesday, April 19, and that of the University choir under David Dick Monday, May 9.

Music faculty recitals include Jack Cohan's piano recital, February 4, Robert Cantrick's flute recital March 6 Donald Rupert's piano recital March 23, faculty string quartet recital Sunday, March 27, Virginia Geesaman's violin recital Tuesday, April 12, Robert Van Nuy's trumpet recital Sunday, April 24. All faculty recitals will be in the Wisconsin Room of the University Center at 8:00 p.m.

The annual spring concert of the men's glee club under the direction of Norman Knutzen will occur Wednesday, April 20 in the University auditorium. The Madrigal Singers under David Dick and the Brass Choir under Robert Van Nays will unite for a concert in the Wisconsin Room at 8:00 p.m. Thursday, April 28. The Women's Glee Club under Thomas Cultice will join the Chamber Orchestra under Virginia Geesaman for a concert Tuesday, May 17, at 8:00 p.m. in the Wisconsin Room of the University Center.

Two evenings of interpretive reading are scheduled by the department of speech and drama under the direction of Dr. Mary Elizabeth Thompson, the first March 21 at 8:00 p.m. in the Frank Lloyd Wright Lounge of the University Center and the second at the same time and place Monday, May 16.

Dr. Albertson Heads State Advisory Group

President James H. Albertson of WSU-Stevens Point will head an advisory council which will help administer the state's Community Service Program.

The program, operating under federal Higher Education Act of 1965, will use public and private higher education resources to aid in solving such community problems as housing, poverty, recrea-

tion, health, land use, transportation and employment opportunities for youth.

The act also furnished matching money for purchase of equipment and remodeling of facilities.

The University of Wisconsin will administer and coordinate the program, Gov. Warren P. Knowles announced.

W.S.U. Has New Vice-President and Dean

Dr. William Stielstra, former director of student loans at Purdue University, is the new vice-president for student affairs and dean of students at WSU-Stevens Point.

Dr. Stielstra received his early education at Waukazoo Public School and at Holland Christian Schools (Michigan). He did undergraduate work at Calvin College, receiving an A.B. Degree there in 1942. His M.A. is from the University of Michigan in 1947. University Michigan State University in 1961.

His experience includes four years of service in the U. S. Army Signal Corps, with 20 months combat duty in the Pacific Theatre. From 1947-51 he was assistant professor of history at Alma College, Michigan and from 1951-56 he served as dean of men at Alma. In 1956 he became assistant dean of men at Purdue University, which he retained until taking a position as director of student loans in 1961.

Dr. Stielstra belongs to the following professional societies: American College Personnel Assn., American Guidance and Personnel Assn., National Association of Student Personnel Administrators,

Midwest Association of Student Financial Aids Administrators.

His civic and personal involvement includes work with Boy Scouts of America, Young Men's Christian Association, Alpha Phi Omega, PTA, and School Board. His hobbies include building, fishing, skiing, reading, conversation, and world affairs.

Dr. Stielstra is married and has four children. His wife, Angelyn, received an A.B. degree from Calvin College and an M. S. degree from Purdue University. Her special interests include the education of educable mentally retarded or brain-injured children. Her hobbies are bridge, knitting, entertaining, concerts, and art.

The Stielstra's children include Diane Kay, a senior at Calvin College; Jonathan S. and Philip B. (twins), sophomores at Calvin College, and Ellen Thea, a high school sophomore.

Some of Dr. Stielstra's thoughts on student affairs at WSU-Stevens Point include the following: "If all of man's conscious experience is 'education,' we will need to use all of our imagination and resourcefulness to make meaningful the many non-classroom activities that fill a student's day. Experiences in residence hall living, in co-curricular activities, in personal living should all be enriching experiences that substantially supplement and support the formal education of the classroom and laboratory. Practically put, this means planning, staffing and equipping facilities and programs in counseling, housing, food service, intra-murals and recreation, financial aids, health services, remedial services and cultural enrichment. The university already has a fine start in this direction. However, much remains to be done. Refinement and expansion lie ahead if we are to serve properly not only today's students, but also the increasing number of those who are on our threshold."

Additions Made in Coaching, Phy Ed Staff At University

Several additions and changes in the coaching staff at WSU-Stevens Point, effective for the 1965-66 school year, were announced by Athletic Director Hale Quandt.

Joining the coaching ranks are James Clark and Lynn Blair, both natives of Illinois. In addition, Louis Sutton, a Pennsylvania native, has assumed the new position of director of the intramural athletic program at the university.

Clark, 30, serves as head coach in both cross country and baseball, in addition to assisting with the freshman basketball team. He replaces Don Hoff as cross country coach and Bob Krueger as baseball mentor.

Blair, 26, became head coach in swimming and tennis. He replaced Fred Hagerman in both sports. Hagerman resigned last spring to take a teaching position in New Zealand.

Krueger continues as head basketball coach and assists Clark in baseball.

Hoff, who came to WSU from Portage High School, serves as head coach in track and gymnastics and continues to assist in football. WSU has a varsity gymnastics team for the first time this year.

Hoff succeeds Gene Broadhagen as head track mentor. Brodha-

gen, who coached track the past eight years, continues to assist in football and retains his post as director of the physical education department.

Duaine Counsell, head football coach, assists Hoff in track. Quandt continues in his posts of athletic director, golf coach and freshman basketball coach.

Clark, who is an assistant professor in the phy ed department, is a native of Harvey, Ill. He received his bachelor's and master's degrees from the University of Michigan and currently is working on his Ph.D. at the University of Minnesota. He has seven years teaching and coaching experience in Minnesota high schools. Clark is married and the father of four children.

Blair, a native of Beardstown, Ill., received his bachelor's degree from MacMurray (Ill.) College and his master's from the University of Southern Mississippi. Blair also instructs in the phy ed department.

Sutton was born in Black Lick, Pa., and attended Slippery Rock, S.C., College, the University of Pittsburgh and Indiana State. His teaching experience is at both the high school and university levels. Sutton also instructs in physical education. He is married and the father of three children.

Approve Site for Water Research Lab

The northeast corner of Maria Drive and Reserve Street has been picked as the site of the new federal Water Resources Research Laboratory here, Rep. Melvin R. Laird, R-Marshfield, recently announced.

The property, presently undeveloped, is part of the Wisconsin State University campus.

Approval came from the federal Division of Water Supply and Pollution Control, which had investigated several sites here. The next step is for the WSU Board of Regents to seek transfer of

the property from the state to the federal government.

"Design and planning funds are presently available to award the architectural design contract as soon as the property transfer is approved," said Laird.

The research laboratory will cost between \$1.25 and \$1.5 million and completion is expected by the end of 1968. It is one of 10 regional water labs which have been built, designed or authorized.

The Stevens Point center is expected to specialize in eutrophication — the aging of lakes. It will employ 100 or more.

Geography Professor and Students Study the History of Wisconsin Railroads

RAY SPECHT PHOTO

Railroad research is of much interest in the life of Ray Specht, Associate professor of geography at Wisconsin State University, Stevens Point.

Mr. Specht had been working on the "Abandonment of Railroads" in Wisconsin for a number of years. His interest was given sudden impetus when the Chicago and North Western Railway abandoned almost 90 stations in January of 1964.

Prof. Specht realized that this move could mean the swift destruction of many valuable and irreplaceable station records if something was not done to save them, and quickly. He contacted the officials of the railroad and was given permission to salvage any materials he might feel were worth preserving or helpful for his work or for the research projects of his students.

Even so it was a gigantic undertaking, for the materials had to be removed from the stations within a 30 day span. Prof. Specht and his students took to the road, logging some 30,000 driving miles as they gathered up old records and many of the items used in the old depots through the years, items well worth preserving for they would soon be of museum value as the small town depot fast disappears from the Wisconsin landscape. Many of the records saved date to the late 1800's when the railroad first flourished throughout the state. Sometimes the best finds were found stuffed into

wall crevices or simply used as insulation by some former agent who found it simpler to stuff old paper behind the wooden walls then burn it in a trash can on cold winter days.

As other depots are closed out, trips to rescue materials are still necessary, but nothing will ever equal the hectic 30 days of '64.

The second phase of the project meant the cleaning, classifying and cataloguing the materials collected, and much of this has since been completed. The materials now provide primary sources for a number of research projects, some in progress, some projected. Many students participate in these projects.

For the past two years Prof. Specht and his geography department colleague, Dr. Maurice Perret have been awarded University grants for railroad research. They will have their first publication on their preliminary findings in the Wisconsin Council for Geographic Education's Spring Bulletin. Titled "The Geographical Analysis of Wisconsin Railroads," the report will cover three phases: Abandoned Railroad Lines, The Role of the Small Town Depot, and The Changing Pattern of Railroad Passenger Service.

Prof. Specht is also presenting a paper on the 'Role of the Small Town Depot' at the spring meeting of the same organization at LaCrosse.

In addition Prof. Specht and his wife, Ellen Specht, are collaborating on the history of the Green Bay and Western Railroad to be published this year, the centennial year for that railroad. Mrs. Specht is a journalist and free lance writer. Their book, "The Green Bay Route" is scheduled for fall publication by the Railway and Locomotive Historical Society, headquartered at Baker Library, Harvard University. The book will be published as one of the Society's regular bulletins. In addition a hardcover edition will be published by the

RAY SPECHT PHOTO

Banta Collegiate Press.

Several of the students research projects have already been published. These include "The Waupaca Electric Railway" by Tod Fonstad and "The Chippewa Valley Electric Railway" by Robert Epp. To be published in the near future are "The Iola and Northern Railroad" by Gary Graeffe, "The Waupaca-Green Bay Railroad" by Judy Olson and the "Wisconsin Rapids Electric Railroad" by Karl Blahnik.

Many of the papers and museum items are to be housed in a

replica of a depot which Prof. Specht has constructed in his own back yard. Here they will be stored in the same type of cases used in the old depots. The old time depot atmosphere will be recreated with the old telegraph key and sounder, accordion arm extension telephone, signal lanterns, ticket cases, express wagons, etc. For comfort the freight loading platform will be screened for use as a porch. The depot will be open to students and others interested in its research materials.

Financial Assistance to Attend the University of Wisconsin Summer Session

Purpose — Orientation to vocational rehabilitation counseling

When — June 20 to August 13, 1966

Content — Academic and clinical experience, including principles and practice of rehabilitation counseling and on-the-job experience working with handicapped people

Stipend — Tuition and \$84.00 per week

Upon completion — Full-time graduate education with stipends from \$200 to \$480 per month;

or employment with a state agency, current starting salary \$587 per month

Qualifications — Senior or graduate standing with a minimum grade-point average of 2.75 on a 4.00 scale. Undergraduate education in a related field. Personal qualifications suitable for a career in rehabilitation counseling.

Contact — George N. Wright, Ph.D. Rehabilitation Counselor Education, The University of Wisconsin, 400 Babcock Drive, Madison, Wisconsin 53706

Dean of the Summer Session Announces Programs and Events

The 1966 Summer Session at Wisconsin State University-Stevens Point opens June 13 and closes August 6. Registration should be completed early to assure admission to desired courses. The university reserves the right to limit class size when quality instruction may be jeopardized. The entire registration process may be completed by mail. Classes begin June 13.

Summer session bulletins are available upon request from the Director of Information Services, Wisconsin State University-Stevens Point, Wisconsin. Information pertaining to special programs and workshops is included in the undergraduate bulletin.

Room reservations in the residence halls may be made by sending a \$10 deposit to the Director of Housing. Meal service is available Monday through Friday at the University Food Service.

A wide selection of courses will be available at lower and upper class levels. Entering freshmen are advised to enroll during the summer to make an early adjustment to college life and/or accelerate their academic programs. Advanced courses in academic areas and professional education courses provide a wide selection for non-degree teachers and transfer students who need credits to meet certification standards or other requirements.

GRADUATE PROGRAM

Students will be afforded a wider selection of courses in the summer's program. Plans call for the implementation of majors in French and German, and the addition of Education for cooperating teachers and a course in Issues in Vocational and Technical Education. New students should make application for admission prior to May 14 and continuing students should complete their summer registration at an early date.

NEW PROGRAMS AND COURSES

A number of new programs and courses are available for the first time in the summer ses-

sion.

The Eastern-Asian Studies Program is designed to provide students and teachers with a better understanding of the countries and peoples of East Asia in regard to their physical endowments and their historical cultures and economic development. The Economics Workshop for elementary teachers will combine a course in economics with the development of resource units, instructional units and the teaching of elementary students. It is designed for teachers with little or no background in economics. An enrichment program is designed to upgrade high school graduation with good potential but mediocre performance records in their high school work. The summer experience should provide these students with remedial instruction and enable them to adjust more rapidly to university work in the academic year. Advanced Driver and Safety Education affords students an opportunity to meet the new certification requirements. A Dance Workshop for teachers and pre-college students is in the planning stage.

Special programs that have become a regular part of the summer offerings are; 1) Aerospace Workshop; 2) Outdoor Education; 3) Kindergarten Program; 4) Migrant Worker program; 5) High School Music Camp; and 6) the Four-Week Workshop in Mental Health.

The Department of Speech and Drama will inaugurate a Summer Theater Festival in the coming summer session. This enterprise will feature a Repertory Company of actors plus the talents of all interested students in a series of consecutive performances beginning July 13. A highlight of the Festival schedule is the opportunity for students to participate in various capacities in one or all productions. Academic courses have been coordinated with the Festival and registration for a variable number of Theater Workshop credits will facilitate programming.

Dr. Fortune Named for Teaching Award

STEVENS POINT DAILY JOURNAL PHOTO

Dr. Michael Fortune, professor of English at WSU-Stevens Point, has been selected as the first recipient of the university's \$500 Johnson Foundation Excellence in Teaching Award.

The Biannual award will be presented to a distinguished teacher in each of the Wisconsin State Universities from funds provided by the Johnson Foundation of Racine.

The award was based on teaching ability defined as "the success of the instructor, both in and out of the classroom, in securing interest, effort and progress on the part of the student. The primary consideration is that students are stimulated to high standards of scholarship, to

achieve interest in learning, and to effective effort toward self-improvement."

Candidates were nominated by all academic departments at the university and by members of the Student Senate. The voting committee included WSU deans of fine arts, letters and science, education, applied arts and science, graduate school, the vice president in charge of academic affairs, the president, seven students selected by the Student Senate, and all nominees for the award.

Dr. Fortune joined the WSU-Stevens Point faculty in 1956. He formerly taught at Three Lake High School and P.J. Jacobs High School, Stevens Point.

Born in New York City, he attended schools in Katonah, N.Y. and served 3 years in the U.S. Air Force. He was graduated from WSU-Stevens Point, and received an M.A. degree from the University of Minnesota and a Ph.D. from the University of Wisconsin.

Dr. Fortune and his wife are parents of eight children. Michael, a junior at WSU and a member of the varsity basketball team; Patrick, a freshman at WSU; twins Ronald and Richard at Pacelli High School; triplets, Susan, Sandra and Sharon at Maria High School; and three-year-old Laura, at home.

W.S.U. To Have Jacobs Chair in Mathematics

A gift from the Sentry Foundation will allow the creation of a chair of mathematics at WSU-Stevens Point, the first such chair in the WSU system. It will be called the Carl N. Jacobs Chair after the board chairman of Sentry Insurance.

WSU President James H. Albertson said Sentry Insurance's board of directors recently voted a \$3,000 gift to the Sentry Foundation, with the stipulation that it be turned over to the WSU Foundation for a chair in mathematics.

Sentry did not designate the name, which was suggested by President Albertson.

The \$3,000, said President Al-

bertson, will be added to the regular pay of a faculty member and will permit the university to hire a teacher who might not be obtainable under the usual salary schedule. "It will enable us," he said, "to recruit and retain a Ph.D. in mathematics, one who is interested in undergraduate teaching and recognizes its importance."

Procedures for filling the chair are being worked out by the WSU mathematics department. It will be inaugurated next September. The State University Board of Regents meeting in La Crosse adopted a resolution commending Sentry Insurance and the Sentry Foundation for the gift.

Clements Appointed Research Director

Dr. William H. Clements has been named Director of Institutional Research and Studies at WSU-Stevens Point.

Dr. Clements, who has extensive background in statistics, will direct the new program of studies concerning the growth and development of the university. Much of the research will be devoted to basic issues of long range planning such as forecasts of enrollment. Such information will be used by the university as a basis for policy making decisions.

In his new position Dr. Clements will coordinate the university's total resources to meet institutional research needs. He will also assist faculty members with the organization of data and substantiating of statistical information for individual research projects.

Dr. Clements, WSU professor of education, was graduated from WSU-Stevens Point and received both M.S. and Ph.D. degrees from the University of Wisconsin. While working for his doctorate, 1952-55, he was engaged in institutional research for the UW Extension, and also tutored graduate students in research and statistical methods.

He joined the WSU faculty in 1959, and has instructed classes in tests and measurements, sta-

tistics and education and also a graduate seminar in philosophical foundations of education. In his new position, he will continue to teach, but on a limited basis. He will assume his new position July 1.

During the summer of 1961, Dr. Clements was involved in special research in Washington, D.C. for the National Education Association. The result of his work was collaboration on a publication for the NEA, "Financing Publication, 1960-1970."

During 1962-63, Dr. Clements was assigned to northern Nigeria as a representative for the United Nations Economic, Social and Cultural Organization (UNESCO). The Clements family lived in Kaduna where he worked with the Nigerian government's examination standards.

Dr. Clements is also the author of a book, "The Fitful Wind," which will be published this year. According to Dr. Clements, the book will present views of democracy, and will analyze the shifting point of view of what constitutes democracy.

Dr. Clements and his wife, Belva, are parents of two sons, Bruce, a scholarship student at Georgetown University, Law School Washington, D. C., and Palmer, at Wartburg College, Waverly, Iowa.

Graduate Assistantships and Scholarships Available At W.S.U.-Stevens Point

Graduate assistantships consisting of a stipend of \$2000 and remission of out-of-state tuition for non-residents are available at WSU-Stevens Point. Duties include twenty hours of service per week.

Graduate scholarships are also available and include remission of incidental fees. Other fees and out-of-state tuition are in effect.

These assistantships and scholarships lead to a Master of Science in Teaching. The programs include elementary education, English, foreign language (German and French), history, music, social studies, and speech.

The requirements include a baccalaureate degree from an accredited four-year college or uni-

versity; eligibility for full status admission to the graduate program; and eligibility for teacher certification.

Address requests for application forms to the appropriate academic department. File application and supporting papers prior to April 1, 1966. These include: assistantship and scholarship forms, application for admission to the graduate program, transcripts and references.

The University participates in the National Defense Student Loan Program. Address inquires about loans and other forms of financial assistance to: Director of Financial Aids, Wisconsin State University-Stevens Point, Wis.

Pointers Added to Staff of Public Instruction

Stanley Kordus

Two Pointers, Stanley Kordus, '46, and Russell Hutter, '56, were recently appointed to new positions recently established in the office of the State Department of Public Instruction.

Stanley Kordus leaves the principalship of the Junior High School of Racine where he has served as principal the past six years. Prior to this assignment, he served as vice principal of one of the senior high schools for seven years and taught five years in a junior high school. Before completing his bachelors degree in 1946, he taught in the rural schools of Marathon County and the grade school in Mosinee. He completed the requirements for his master's degree from the University of Wisconsin in 1951.

The Kordus family includes five children, Ben, a sophomore at the Extension Center; Mary, a senior at Park High School, Ron, a high school sophomore, Gene, fourth grade, and Ann in the first grade.

His new position is that of supervisor of instruction at the elementary and secondary levels in the new program of improved education for the economically and educationally deprived.

A brother, Ben Kordus, '40,

died during the Second World War. Donald, '43, is on the staff of the Beaver Dam Public schools.

Russell Hutter, '56, has been appointed Supervisor of Driver Education, a field in which he has worked for several years. While at Point he completed majors in biology and conservation and the requirements for certification in driver education. After two years of teaching at Nekoosa, he accepted a position at Janesville where he remained until 1965. He attended a summer session at Stout State University in 1956 to add to his driver training qualifications and later four summers at the University of Michigan where he received his master's degree in 1961.

In the summer of 1965 he accepted a position with Allstate Insurance Co., Chicago as driver education consultant. He accepted his present assignment late in December and will move his family to Madison.

Two boys have joined the family of Russell and Janet (Bird), '57, Geoffrey, 4 years, and Kurt, 1 year.

Other Pointers on the staff of the Department include Robert Van Realte, Ida Ooley, Robert Schunk, Clarence Wentland, and Alan Kingston.

Irvin R. Hutter

News From Canterbury House

The Canterbury House at 2224 College Ave. is the Episcopal Center for students and faculty. The main purpose of the House and its activities is to serve the religious and related needs of all who wish to use its facilities, but especially to be responsible for the religious activities of members of the Episcopal Church from the campus.

The center of our life is St. Anselm's Chapel where services are held each day of the week, on Sundays, masses at 7:30 and 9:30, and on weekdays other than Thursdays, mass at 7:00 a.m. On Thursday mass is at 5:00 p.m. The Chapel is always available for private prayer and meditation and all who wish to use it are welcome to do so.

Aside from the regular meetings of our student group on Thursday evenings, other projects

such as lectures and discussion groups are carried on. Those attending the Sunday services are urged to remain afterwards for breakfast and discussion. Father Hall, the Vicar of St. Anselm's Chapel and Episcopal Chaplain of Canterbury House, is always available for those who wish to consult him on any matter in which he may be of service.

The regular ministrations of the Episcopal Church are available such as Baptism, Confessions (the regular hour for Confessions being 7 to 8 on Saturdays), Confirmation, etc.

It is the aim of Canterbury House to be as cooperative as possible with other religious groups on the campus and to join in projects with them whenever it appears feasible.

Father Harris T. Hall

Annual Music Scholarship Auditions to Be Held in April

Dr. Hugo D. Marple announces that the music department will hold the annual scholarship auditions on April 16 and April 23. He would like to bring this to the attention of all music teachers and parents. Students interested in auditioning for a music scholarship should contact the Music Department prior to that time to receive an application blank.

Students will be asked to play or sing at the audition a selection that they have learned with their high school or private music teacher. They also will receive an interview and a college aptitude test.

Inquires should be addressed to: Dr. Hugo D. Marple, Chairman, Music Department, Wisconsin State University, Stevens Point.

Nelson Hall to Celebrate Half Century

Nelson Hall, the grand dame of WSU women's residence hall, is celebrating her fiftieth birthday this spring, and Nelson Hall alumnae will be invited to join in the anniversary observance.

Open houses for alumnae and Stevens Point residents are scheduled on the Sunday afternoons of April 24 and May 1 from 1-5 p.m. Highlighting activities will be the "President's Tea" and fashion show planned for Saturday evening, April 30. Invitations to this event will soon be sent to

all Nelson Hall past-presidents and hall directors.

Miss Rosalie Robinson, chairman of the anniversary activities, and her planning committee would like to include displays of photographs and souvenirs as part of the open house programs. Alumnae who might have such photographs and other articles of interest or clothing, which might be used in the anniversary fashion show are asked to contact Miss Robinson, Nelson Hall.

The Hilda Maehling Fellowship for Professional Development

The Hilda Maehling Fellowship is a program by which the Department of Classroom Teachers of the National Education Association grants stipends to classroom teachers to enable them to carry on projects which help them grow professionally, develop improved professional techniques, and advance professional association work.

Any classroom teacher with evidence of professional preparation, successful teaching experience, and outstanding service and leadership in the united profession is eligible to become a Hilda Maehling Fellow.

How may a candidate qualify for consideration? Each applicant must present a resume of a program or project he will carry out if he is named a Hilda Maehling Fellow. This program or project should be related in some way to academic advancement, improvement of instruction, or professional association work. It may involve study, travel service at state or national association headquarters, field work for some unit of the profession, or a combination of two or more of these types of activity.

Endorsements by groups or individuals must also be supplied. These endorsements should indicate the relevance of the candidate's proposed fellowship program to the professional association or school system. They should comment on the candidate's qualities of professional leadership and describe how his fellowship project may be expected to benefit him and his school system and-or professional association.

Endorsing groups or individuals may be local associations affiliated with the National Education Association, state departments of classroom teachers, state education associations, or professional colleagues in good standing in the united profession.

Selection is based upon the value of the proposed project and evidence of the candidate's ability to pursue it.

Preferences are given to appli-

cants when both the individual and his association and-or school system are firmly committed to a program which gives promise of having an important impact on both enrichment of the individual and improvement of the association and-or school system.

The Hilda Maehling Fellowship Committee selects the Fellows. This Committee consists of the president of the NEA Department of Classroom Teachers and three classroom teacher members-at-large, one appointed each year for a three-year term. Members-at-large are appointed by the president and approved by the executive committee of the Department.

Consultants to the Committee are the executive secretary of the NEA Department of Classroom Teachers, the executive secretary of the NEA, and the NEA assistant executive secretary for business management.

Grants vary in amount depending upon (a) funds available from investments of the Hilda Maehling Fellowship and (b) the amount needed to accomplish the proposed project.

Blanks may be obtained from the NEA Department of Classroom Teachers, 1201 Sixteenth St., N.W., Washington, D.C. 20036.

The following timetable has been established for the Hilda Maehling Fellowship:

April 1 — Applications available
November 15 — Deadline for filing applications and endorsements

November 15 to February 1— Preliminary screening of projects and interviewing of applicants by Committee

February 1 to March 1—Final screening and selection of Hilda Maehling Fellowship by Committee

April 1 — Announcement of Hilda Maehling Fellow(s)

Classroom Teacher Night, NEA convention — Official presentation of Fellow(s)

The Hilda Maehling Fellowship is financed from income accruing on a \$100,000 fund raised by voluntary contributions from class-

room teachers, other educators, and friends of education.

(The Hilda Maehling Fellowship was established to pay tribute to the first executive secretary of the NEA Department of Classroom Teachers and first assistant executive secretary for professional development and welfare

of the NEA when she retired from active professional service. The program honors Miss Maehling by advancing the objectives which she promoted over the years: to bring prestige to classroom teachers and to stimulate them in fulfilling their responsibilities for leadership in the united teaching profession.)

UNIVERSITY PHOTO SERVICE

W.S.U. Speech Clinic Plays Double Role

Wisconsin State University's Speech Pathology and Audiology Clinic is combining advanced training with community service.

The rapidly growing clinic began under the direction of Dr. Pauline Isaacson as a part of the speech department program four years ago. The modest beginning has now grown into a 10-room complex with a faculty of three located in the university's Old Main Building.

As the facilities and course offerings have grown, so have the number of undergraduate students choosing to major in this area of the speech curriculum. In 1963-64 one student graduated in this field from Stevens Point. Today there are some 50 undergraduates working toward their degree in speech pathology and audiology.

The three men responsible for the clinic's operation and development are Gerald Johnson, Donald Aylesworth, and Gerald E. Chappell, all of the WSU faculty.

Chappell is presently on a leave of absence completing his Ph.D.

degree. All are trained speech pathology and audiology clinicians.

Johnson and Aylesworth said, "One of the most complex areas of human behavior is communication. If there are impairments in this process — be it speech, language or hearing — countless problems can result."

Johnson noted, "Obviously many children with a speech or hearing disorder will experience difficulties in school. Adults too are affected. It might lead to their withdrawal from friends and associates, or it could lead to the point where livelihoods are endangered."

The purpose of the Stevens Point Clinic is twofold:

It is a training lab for speech pathology and audiology students whose positions are sometimes akin to interns under the direction of the faculty in this area.

It also performs a service to the residents of central Wisconsin.

Aylesworth said patients at the clinic arrive by a number of avenues. Some are WSU students,

some are children referred from the surrounding area by teachers, county nurses, physicians and private agencies. Area patients have been referred here from as far away as the Mayo Clinic.

Recent statistics estimate that some 19,000 clinicians are presently needed in this country, but only 12,000 are presently available. This shortage emphasizes the significance of the Stevens Point center.

Identity of a problem is the first task of the Stevens Point clinicians.

Some disorders treated include articulation, cerebral palsy, stuttering, cleft palates, deafness, hard of hearing, voice problems, laryngitides and mental retardation.

Articulation disorders result in inability to correctly pronounce speech sounds in words. In some cases the university clinicians might employ the technique of producing a speech sound and then encouraging the patient to reproduce the same speech sound.

Sometimes this method is sufficient to aid in correcting the problem. With more serious articulation disorders, a form of vocal phonics could be used in which the clinician actually forms the patient's facial muscles and tongue so the desired sound can be produced. The treatments are many and varied.

The clinic's youngest patient is three and one half years old.

Architecture Program Under Study At W.S.U.

A four-year program in architecture is under study at WSU-Stevens Point.

It would not necessarily conflict with a six-year program which the University of Wisconsin Board of Regents has approved for UW-Milwaukee, said President James H. Albertson. The Wisconsin Chapter of the American Institute of Architects and the Wisconsin Architect's Foundation feel there is room for both, he said.

No college or university in the state presently offers an undergraduate degree in architecture, although the University of Wisconsin has a two-year graduate program at Madison.

WSU-Stevens Point has been working on the idea for some

time, said President Albertson. "We've been giving thought," he said, "to ways of strengthening our liberal arts program, and particularly our School of Fine Arts."

"We are now preparing a position paper on a four-year architectural program which will be submitted to faculty groups here," Albertson said. "There is no question about the need, and it is not an expensive program in terms of faculty and equipment." In full operation, he said, it would probably require no more than three additional faculty members.

The final decision on whether to create new architectural programs will be up to the Coordinating Committee for Higher Education.

Dr. Kroner, Chairman, Department of Foreign Language, Announces A Graduate Course for the 1967 Summer Session

This will be a Foreign Language Workshop (3 credits) in Education.

The workshop will be offered jointly with the Department of Education and the Foreign Language Department. A critical study and analysis of the current methods of modern language teaching on all levels, from grade school to college. Emphasis will be given to the practical ap-

proach to teaching and the use of such audio-visual aids as records, tape recorders, films and other modern equipment. Critical discussions of textbooks as well as some practical experience in working with children.

This course is planned for prospective teachers or teachers of French and German in graded schools and high schools.

Physics Department Reports

The department of physics at WSU-Stevens Point has been offering a major for seven years. During that time the number of staff members has grown from two to five. In the school year of 1966-67, six will be needed. During these seven years 35 majors and a much larger number of minors have graduated. Many of these are now teaching in the schools of Wisconsin, are in industry, or attending graduate schools. Gary Kitzman, our first major, is now teaching at the college in New Paltz, New York. He has a masters from the University of Nevada and will soon be receiving his doctorate from New York University. About 10 others are in graduate schools throughout the nation.

We have tried to build a strong physics major while at the same time attempting to serve the needs of the state. About 200 or more elementary teachers each year take our Physics 1 course which

gives them background to carry on a science program that fits the times. This summer for the first time we will be extending our physics offering so as to be able to help the high school physics teachers or general science teachers by giving them the opportunity of taking an additional physics course. General Physics 3A will be offered during our summer session.

The new building provided a planetarium which is operated by the Physics Department. Mr. Taylor, a faculty member of the department who is in charge of the planetarium, has scheduled two shows weekly open to the public. In addition, special showings are provided for schools and other groups by special arrangements. In the 2½ years of operation almost 10,000 people have increased their knowledge by seeing a planetarium show.

Dr. Monica Bainter
Department Chairman

Point Grad Serves African Nations

Dr. D. L. Beran, a 1937 graduate of WSU and Associate Professor of Community Development in the Department of Regional and Community Affairs of the University of Missouri, has just returned from three months in Tanzania, East Africa. Dr. Beran went to Tanzania under the sponsorship of the Agency for International Development of the U.S. Department of State to serve as a Consultant in Community Development Training with the Ministry of Community Development and National Culture of the United Republic of Tanzania.

Dr. Beran, who has been teaching Community Development at the University of Missouri since February, 1964, formerly served as Consultant and Chief Advisor in Community Development for the Department of State in Egypt, Libya, Togo, and Brazil. He has also observed and studied Community Development in Ceylon, Korea, Ghana, and the Philippines.

His observations of Community Development in Tanzania are re-

ported in a one hundred page report (mimeographed). While in Tanzania he had the pleasure of seeing one of his publications (An Introduction to Community Development for Village Workers) on sale in the bookstores and translated into Swahili. This publication, originally distributed by the Agency for International Development, has been published in Spanish also and has enjoyed worldwide circulation. Recently he has had articles on Community Development in the Journal of the International Cooperative Training Center and the Adult Education Association of the U.S.A.

Dr. Beran is a native of Wisconsin. He taught and supervised schools in Wisconsin for several years. After completing graduate study at the University of Wisconsin, he taught at Drake University in Des Moines, Iowa and at American University in Cairo, Egypt. He is a graduate of WSU-Platteville (1923); WSU-Stevens Point (B.S. — 1937); University of Wisconsin, Madison (M.S. —1947; Ph.D.—1949).

Miss Helen Godfrey is New Associate Dean of Students

Miss Helen Godfrey joined the WSU-Stevens Point student affairs staff as an associate dean of students and joined the University as an associate professor of biology. She filled a vacancy created when Dean Elizabeth Pfiffner DeBot resigned on Jan. 1, 1966.

Miss Godfrey did her undergraduate work at the University of Wisconsin-Madison and her graduate work at the University of Indiana. While in the university, she was a residence counselor, an assistant in the botany department, and an assistant head res-

ident. In 1961, she accepted the position of associate head counselor and, in 1962, became head counselor of Indiana University.

Miss Godfrey also taught psychology at Ohio State University where she was program director of women's residence halls and assistant dean of women.

She is a member of Phi Lambda Theta, an honorary educational fraternity, Phi Sigma Society, an honorary biology fraternity, and the National Association of Women's Deans and Counselors.

Brey is Library Director

The appointment of Francis Brey as Acting Director of the WSU-Stevens Point Library was announced recently by President James H. Albertson.

Mr. Brey, who joined the faculty in 1962, was appointed to the position for the second semester of the 1965-66 school year. He has served as assistant librarian and library science instructor since coming to WSU.

He has been assigned to fill the post left vacant when Nelis

R. Kampenga, director of libraries at WSU, was appointed and assumed the duties on Nov. 1 as associate dean of Learning Resources and staff librarian.

A native of Waukegan, Ill., Mr. Brey received his B.S. degree from WSU-Eau Claire and his M.A. from the University of Wisconsin-Madison.

Mr. Brey is married and the father of three children. He lives at 218 Pinecrest Ave., Park Ridge, Stevens Point.

W.S.U. Library Gets Conservation Books

A total of 50 books and studies dealing with various aspects of conservation have been presented by R. G. Lynch, retired Milwaukee Journal natural resources writer, to the WSU-Stevens Point Library.

Dr. Paul Yambert, dean of the School of Applied Arts and Science, accepted the gift. Dr. Yambert announced that the works will be added to some 250 volumes on conservation now part of the library's Walter Sylvester Memorial Collection.

The Lynch books have been classified as works on water, flood control and pollution, land and forest, land and water use and works on the broader and philosophical aspects of conserva-

tion of natural resources.

Mr. Lynch, who spoke in Stevens Point December 5 at the annual Alpha Kappa Lambda conservation venison dinner, also sent the university a number of his personal writings and newspaper clippings. Some of these, books reviews he had written for the Milwaukee Journal, will be attached inside the covers of the books presented in the gift.

Begun as a memorial to the late Mr. Sylvester, WSU professor of conservation from 1947-57, the collection is one of the projects of Alpha Kappa Lambda. Each year the conservation service fraternity conducts a fund raising program through the sale of booster buttons for additional library purchases.

Pointer Alums

PETER J. KUST, '65, reports: "I am teaching in a remote village, a one room eight grade school for the Dept. of Education. There are eleven pupils and three grades — 2nd, 3rd, and 7th. Along with the high salary for first year, my room with all furnishings are provided. The people are great (50 in the village) and the hunting is something I have never seen before. The second day I was here a brown bear was shot for coming too close to the village. Yesterday, Labor Day, I was taken duck hunting (season opened Sept. 1st). The mallard sure tasted good for dinner today. We will be going on a caribou hunt in about two weeks when the men complete the season's fishing." Peter teaches at the Nelson Lagoon School, Nelson Lagoon, Alaska.

ROGER C. ERNST, '65, married Miss Margaret Graf, a senior English major at WSU-Oshkosh, on August 14, 1965 in Oshkosh. He has begun his first year as an English teacher at Neenah High School, Neenah, Wis. Roger and his wife live at 1033A Elmwood, Oshkosh.

KAREN BUB, '65, has joined the Sheboygan-Ozaukee County staff of state probation and parole officers. She supervises cases involving females, both adults and juveniles, in Sheboygan and Ozaukee Counties.

HERBERT C. WEBER, JR., '65, provides speech therapy services for students in Spencer, Stratford, Edgar and Marthon public schools. He is a full-time speech therapist in the Marathon County Special Education Program, and works with students individually and in groups, depending on the types of problems they have, the number of students in each school, and the amount of time available. A native of Marshfield, Weber is unmarried and lives at home.

Working on a master's degree in physics at the New Mexico State University, Las Cruces is 1965 graduate ALAN JOHNSON. He was awarded a National Science Foundation Traineeship.

MAXINE AUSTIN, '65, who has been a caseworker with the Adams County Welfare Department, has resigned her position to attend the Richmond Professional Institute located at Richmond, Virginia. She is entering a two year graduate course in order to secure her master's degree in the field of social work.

WILLIAM KNICKERROCKER, curriculum coordinator for the school system at Poynette, received a master of science degree at WSU-Stevens Point at the annual summer commencement exercises in August. He received a bachelor of education degree at WSU 14 years ago. He taught five years at Portage and was principal at Arlington State Graded School for five years prior to taking the position at Poynette.

MARY JO RICE, '64, reports, "This is my second year at Parkway School (South Milwaukee) and I'm very happy here. There are two other Point graduates at our school as well as others in the school

system. This year, as last, I am the advisor to the UWM chapter of Delta Zeta, and am looking forward to attend the National Convention in the Bahamas." Miss Rice resides at 317 E. Plainfield Ave., Milwaukee, Wis.

After receiving his commission in the Navy in February, 1965, ENS. JAMES E. SHAW, '64, came into the Naval Air Training command under which he had been training since that time. He will be flying jet trainers for approximately another six months after which he will receive his wings and report to the fleet for carrier operations. Jim's current address is B.O.Q. Rm. 236, N.A.A.S., Meridian, Miss.

PHILIP A. HELMKE, '64, has been elected President of the Edgar Education Association at Edgar, Wis. for the 1966-67 school year.

HELEN A. RILEY, '64, of 1047 Sherman Ave., Madison, Wis. is a student at the University of Wisconsin, Madison in the Vocational Rehabilitation Counseling Dept. She is doing a research internship which will complete the requirements for the Master of Science degree. Employed with the National Park Service at Blue Ridge Parkway is 1964 graduate CHARLES R. NEWBY. He has been stationed at Linville Falls in North Carolina since August of 1965. He completed five months of active duty in the Army Reserve at Fort Leonard Wood, Mo. from March, 1965 to August, 1965. He was married on December 27, 1965 in North Carolina to Diann M. Jankoski of Stevens Point, who had been deputy clerk of courts of Portage County for 6 years.

THOMAS F. REYNOLDS, '64, has been appointed sales representative-consumer in the Sioux Falls, S. Dak. district, Standard Oil division of American Oil Company. Reynolds joined Standard Oil June 1, 1964 after receiving a B.S. degree from WSU.

DENNIS F. MARSH, '64, was granted an assistantship at the University of Kansas. He is working toward a Ph.D. degree in chemistry. His undergraduate work was done at WSU.

Presently teaching English and French and coaching drama at Gillett (Wis.) High School is ROBERT J. CHECK, a January, 1963 graduate of WSU. From April, 1963 to August, 1963 he served as a field representative for Jim Laabs Music in Stevens Point.

Brown County's new consumer marketing agent is SHARLENE D. HANKE, a 1963 graduate of WSU. Her office is in the Green Bay (Wis.) Federal Building. Prior to this appointment Miss Hanke had been 4-H Home Economics Agent in Sheboygan County.

RICHARD PATZER, '63, is teaching math-grades 9-12 at Lincoln High School in Milwaukee, Wis., and is being considered for teaching one or more courses in the evenings at the Milwaukee School of Engineering. He was married on March 12, 1965 to Doris Vanooen of Milwaukee who is currently a secretary-typist at

the First National Bank. The Patzers live at 2467B S. 44th St., Apt. 2, Milwaukee, Wis.

BRUCE L. LAUBE, '63, received a Master of Science Degree with a major in Inorganic Chemistry from Iowa State University, Ames, Iowa on November 24, 1965.

GREGORY G. GUZMAN, a 1963 graduate of Letters and Science, is a full time student working toward his Ph.D. at the University of Cincinnati. The Graduate Assistantship which he held last year has been renewed for the current school year; he assists his advisor with the medieval survey course. This year Mr. Guzman is also a part-time instructor in the History Department at Xavier University, Cincinnati, Ohio. He teaches an advanced Medieval History course in Xavier's Evening College. Mr. Guzman received his M.A. from the University of Pittsburgh in April of 1964; he attended Pittsburgh on a fellowship. He has completed one year of work toward his Ph.D. and is currently working on his last year of formal course work for the degree. He is a member of the Graduate History Club, and vice-president of the UC chapter of Phi Alpha Theta honorary history fraternity. He and his wife, the former Judy M. Stroik of Stevens Point, live at 741 Dixmyth Ave., Apt. 5, Cincinnati, Ohio.

ADRIAN LANZILLOTTI, '62, is working for the 2nd largest newspaper in the U.S. — Chicago Tribune, 435 N. Michigan Ave., Chicago, Ill., as a reporter-writer. His current address is 1011 N. La Salle St., Chicago, Ill.

Mrs. Tom Keough, the former MARILYN GRONSKI, '62, graduated with a M.A. Degree on August 21, 1965 from Ohio University, Athens, Ohio. Mrs. Keough started her graduate work in the fall of 1964, after teaching high school English at Chilton, Wis. for two years. Her husband, Tom, '62, is completing work on his M.F.A. degree under the graduate assistantship program at Ohio University. Tom is in the field of speech and dramatic art. Mrs. Keough is currently an instructor of English at Ohio University. The Keoughs live at Apt. 32, Wolfe St., Athens, Ohio.

JOAN DAHL, '62, married Herbert Magnuson on August 14, 1965. Mr. Magnuson and his brother own and operate a large mink ranch near Rib Lake, Wis. Joan is presently being a housewife and helping some on the ranch.

VIRGIL STREHLOW, '62, has been in the USAF since Feb., 1963. He was stationed in Texas and Florida for brief periods and then spent 1½ years in Texargana, Arkansas. For the past six months he has been attached to Headquarters Air Forces Iceland stationed at Keflavik Naval Air Station, Iceland. He will be there for another six months and then will be going to the 665 Radio Sq., Calumet AFS, Michigan.

MRS. DORIS BERTOLINO, '62, has received 5 travel credits for five weeks travel in Europe during July and August, 1965. She toured 11 countries: England, France, Belgium,

Germany, Holland, Luxemburg, Austria, Leichtenstein and Monaco, Italy and Switzerland. She crossed over on the Queen Mary and returned on the Queen Elizabeth. She flew to Washington, D. C. to pick up passport; saw George Washington's home. She traveled by jet, train, bus, boat, and ship. "Wonderful trip." Mrs. Bertolino's current address is 1833 Rutledge St., Madison. RICHARD A. MAYER, '62, a graduate in music, is employed by the Chicago Board of Education as a teacher. After graduation he entered the U.S. Army as a Bandsman — was stationed in Washington, D.C., Ft. Sheridan, Ill., and Seoul, Korea. He attended the University of Maryland and taught at the Seoul American High School. He was released from active duty in May, 1965 and attended the 1965 summer session at WSU-Stevens Point. He spent two weeks in Japan during the Christmas of 1964. His wife is the former FLORENCE MARZOLF, '61, who is a home economics instructor at J. Sterling Morton High School, East — Cicero, Ill.

RONALD JOHANKNECHT, '62, has joined the industrial engineering department of Nekoosa-Edwards Paper Co. as a methods engineer. He did production control work for two southeastern Wisconsin manufacturers before joining Nekoosa-Edwards. He and his wife live in Wisconsin Rapids.

MRS. MARION (HART) PECHA went back into the teaching profession in 1949 after the death of her husband. She continued her education at summer schools for ten years. In the fall of 1960 she enrolled at WSU-Stevens Point for a full year and graduated in June, 1961 with a B.E. Degree. For the past five years, she has taught first grade at the Hoover School in Neenah, Wis. Mrs. Pecha has two children; Keith is a career man in the Navy and is presently instructing recruits at the San Diego Naval Base. Daughter Johanna is a nurse. Mrs. Pecha has spent time traveling in Canada, California, Williamsburg, Virginia, Washington, D.C. and the Ozarks. Her current address is 128 Lorraine Ave., Neenah Wis.

Employed by the Abbotsford Public Schools is NANCY (KONKOL) ANDERSON, '60. She teaches half days — math. and physics. Her husband Robert teaches also and is head basketball coach at Abbotsford High. The Andersons have a daughter, Amy Ann and a new son, Jonathan Edwin born on December 23, 1965.

Living at 2756 Oakwood Dr., Green Bay, Wis. is 1960 graduate RAY J. GREISINGER. He is married to the former Janet Hockers of De Pere, Wis. and they have five children — Peggy, 9; Polly, 7; Perry, 5; Paul, 4; and Peter, 2. Ray had sequential four years in chemistry at Syracuse University, Syracuse, N.Y.

A January, 1960 graduate of WSU, LYDELL L. NEWBY is serving as director of instructional service in the Fond du Lac School District. He had been teaching in the elementary school system in Fond du Lac prior to this appointment. He

received a master of science degree from the University of Wisconsin-Milwaukee. He is married and has three children.

WILLIAM SCRIBNER, III, '59, received his M.A. Degree at Arizona State University in July, 1965. He is presently teaching physics and chemistry at Sue Bennett Jr. College, Kentucky. Bill and his wife have two children, Cinda Maria, 6 years, and William IV (Marty), 3 years. The Scribners live at 201 W. Dixie, London, Ky. 40741.

Mr. and Mrs. Paul A. Boehmer, former Stevens Point residents, who have been living in St. Claire Shores, Mich., moved recently to Davenport, Iowa where Mr. Boehmer has been assigned to a resident post with the Federal Food and Drug Administration. For more than five years, PAUL BOEHMER, a 1959 graduate of WSU, has been a general inspector out of the Detroit, Mich., office of the FFDA. Mrs. Boehmer is the former Nerita Bourn of Stevens Point. The couple have a daughter, Debra.

RAMON PARKS, '58, taught mathematics in the Rib Lake High School from graduation until the fall of 1964 when he took over the principalship of the newly created junior high. He attended a N.S.F. institute at Northwestern State in Alva, Oklahoma during the summer of 1963 and another at Baldwin-Wallace at Berea, Ohio during the summer of 1964. He is presently working on his Masters in Administration at Superior State University. His family now consists of his wife, Marion, and children—Elizabeth, 9, Charles, 7, Richard, 5, and William, 6 months.

JOHN H. LETTAU, '58, received a M.A. Degree from California State Polytechnic College, San Louis Obispo, California. He is employed by Santa Maria School District from 1959 to the present—grade levels: 1st. — 3rd. — 4th. — 6th. — 7th. and 8th. He has done extensive work in the new math. teaching, demonstrations, and in-service training; served on panel discussions and as demonstrating teacher at Math. Conferences — Santa Barbara County-University of Calif.—Santa Barbara He also served as consultant, SRA —County Math Conference — Westmont College — Santa Barbara and as supervising teacher, student teacher program — Calif. State Polytechnic College. Mr. Lettau is active in the Santa Maria Elementary Teachers Association as past Vice-President, Executive Board member, and Salary Committee Chairman. He holds a life teaching credential in the State of California. In the fall of 1965 he began work on Pupil Personnel Credential at Calif. State Polytechnic College. Mr. Lettau is married to the former Joyce Bisel of Kaukauna, Wis. and the father of two active boys — Brad, age 12, and Scott, age 9. The Lettaus reside at 611 N. Valerie Drive, Santa Maria, Calif. 93454.

The past summer MAXINE SEEFELDT, '58, finished her Master's Degree at the University of Wisconsin-

sin-Milwaukee as well as being a participant in the N.D.E.A. Institute of Geography. She is teaching in an Air Force Dependents School in Izmir, Turkey, this present year after teaching for the past three years with the Army in Karlsruhe, Germany. Maxine's current address is TULSLOG Det. 133, APO. N. Y. 09224.

DR. ROBERT C. SUMMERFELT, '57, was a visiting lecturer for the National Science Foundation sponsored Summer Institute for high school teachers of biology, Southern Illinois University, Carbondale, Illinois during the summer of 1965. His present address is 1530 College Ave. 4-A, Manhattan, Kansas.

At present teaching kindergarten at John Burroughs Elementary School in Columbus, Ohio is 1957 graduate EVON ANN (BECKWITH) KIMERER. She has two children, Kenneth, 5, and Kimberly, 2, and is awaiting the arrival of a third child. The Kimerers live at 75 Owens St., Hilliard, Ohio.

In January, 1966, ARMIN J. PAFF, '57, received a M.S. Degree from UW-Milwaukee. In October, 1965 he received the Wisconsin State Certificate-Reading Clinician. Mr. Paff will become a Clinical Reading Teacher for elementary schools in the Sheboygan Public School System in September, 1966. During the summer of 1965 he received an N.D.E.A. Scholarship Grant at UW-Milwaukee for an eight-week Reading Institute. The members of his family include his wife Georgia Ann, and children — Armin James, 12, Gregory Arthur, 10, Karen Lynn, 7, and Gigi Ane, 3. They traveled with an Apache Eagle Camper around Lake Michigan. Lake Erie, and Lake Superior. The highlights of the trip included Niagara Falls, Fort George-Canada, Fort Michilimackinac, Mackinac Bridge, and home at the end of the trip. The Paffs live at 1729 S. 17th St. in Sheboygan.

DR. WALTER M. DRZEWIENIEC-KI, '57, received a N.Y. State Research Foundation Grant in December, 1964, and a Research Foundation Grant-In-Aid in March, 1965. He is a N.Y. State Faculty Scholar in International Relations (with the Russian Institute, Columbia University for the academic year 1965-66. During the summer of 1965 he was invited to lecture at the Institute Zachodni, Poznan, Poland and also traveled in Europe (England, Holland, Germany, Poland, Czechoslovakia, Austria, and France). He is a contributor of The Historical Abstracts, American, History and Life, and The America Historical Review. Dr. Drzewieniecki's current address is State University College, 1300 Elmwood Ave., Buffalo, New York. MRS. RUTH STRUCKEY attended WSU for two years (1929-31), receiving a two year diploma in the intermediate department. She taught in rural schools in Shawano County from 1932-35. She is married to George Stuckey, Sr. and has three children — George, Jr. of Oconto Falls; Sandra Boyett of Miami, Florida; and Katherine, a sophomore in physical education at the University

of Wisconsin. Mrs. Stuckey went to night classes and summer schools, plus Trees for Tomorrow and the Clearing, receiving a B.E. Degree in primary education in 1957, the same class where son George, Jr. received his degree in Letters and Science. She taught in rural schools for six years and presently teaches grade 1 at Gresham (since 1946). Mrs. Stuckey is enrolled in the Cooperative Graduate Program. The Stuckeys reside at 143 Humphrey Circle, Shawano, Wis.

ROBERT BOSTAD graduated from WSU in 1957 with a Letters and Science Degree; he received an education degree and physical education major at U of W and La Crosse State. He is coaching football, basketball, and baseball and teaching physical education at Pardeeville High School. He is married and has one son, age 2. The Bostads home address is 517 Lake St., Pardeeville, Wis.

RICHARD L. STRASSER, '57, is studying for a year at the University of Wyoming, Laramie, on a NDEA Institute Study Grant in guidance and counseling. He has been teaching at Lac du Flambeau, and upon completion of the course he will return to the Lac du Flambeau area for two years to set up a guidance program there.

JOHN BOYNE, a 1956 graduate of WSU, has been named sales and product development manager of the Quality Pad Co., Hanover, Mass. He received a degree in engineering from the University of Wisconsin and was employed as an industrial sales representative by the Kimberly-Clark Corp. He is married to the former Mary Jo Tepp of Stevens Point and they have a son and a daughter.

BRADLEY A. BLAKE, '56, left for southeast India last November for nine months of anthropological field research among fishing villages of coastal Andhra Pradesh. He is sponsored by the department of anthropology, University of Wisconsin, with financial support from the National Defense Education Fellowship of the Department of Health, Education and Welfare, Washington, D. C. and the American Institute of India Studies, Philadelphia, Pa. Mr. Blake who has a master of science degree in anthropology and a master of arts in India studies, will use his research materials for a Ph.D. dissertation. His independent research plan includes a general ethnographic survey of the fishing villages and an intensive study of the social, political and economic structure of a specific village. Mr. Blake has been studying Telugu, the language spoken in this area, for the past two years, as part of his preparation for his field research.

Mrs. Blake, the former Patricia Scribner, '57, and their daughter, Leslie Susan and Laurel Catherine, are remaining in Madison. Mrs. Blake plans to meet her husband in Athens, Greece, on his return trip via Europe to the United States early this coming August.

DONALD GRUBBA, '55, has been recently promoted to Chief Chemist — Industrial Products Development at Bay State Abrasive Products Co., Westboro, Mass. In this capacity he will be in charge of the development of molded and sintered ceramic products. Mr. Grubba, whose home is Stevens Point, received his bachelor's degree from WSU with a major in medical technology. While attending the university he had been a chemist at St. Michael's Hospital. He joined the Bay State firm in 1955 and became senior chemist in 1962. Since graduation he has completed graduate study at Northwestern University. He is married and has five children.

MARION VAUGHN, a graduate of 1955, spent part of the summer of 1965 in California with her family. Her husband's occupation made this trip necessary so they made it a "family affair." They spent six weeks touring the western states and report, "The trip was both interesting and enjoyable." The Vaughns live at 3753 E. Klieforth Ave., Cudahy, Wis.

DAVID BUTLER, '55, has accepted a position on the faculty of Kansas State College, Pittsburg, Kan. He had been teaching in Green Bay and now is on the staff of the department of industrial education and art at Kansas State. Mr. Butler received a bachelor's degree at WSU and a master's degree at Stout State University, Menomonie.

EUGENE W. ARNETT, '55, administrator of Memorial Hospital of Taylor County, Medford, was elected to the board of directors of the Wisconsin Blue Cross Plan recently. The announcement was made by Daniel H. Keck, Neenah, board chairman of the hospitalization prepayment or-

ganization. Arnett was elected as a hospital representative to the 28-member Blue Cross board, which receives no financial compensation for its services in directing the non-profit Plan. Arnett will serve on the board until 1969, filling a term left vacant by the resignation of Sister Olive Cullenberg, administrator of Trinity Lutheran Hospital in Ashland. Arnett, 34, is a graduate in graduate of WSU-Stevens Point in 1955 and received his master's degree in hospital administration from the State University of Iowa in 1961. He was an administrative resident at Milwaukee County Hospital in 1960-61 before coming to Medford as administrator of Memorial Hospital.

MARY PFIFFNER DUFFY, a 1953 graduate, reports: "My husband, Emmet James Duffy, received his Ph.D. from the University of Wisconsin on August 6, 1965. His degree is in the field of Educational Administration. Prior to this fall, we had been living in Madison, Wisconsin where Jim was enrolled at the University for the past two years. During this time, I was employed by the Madison Public Schools as a teacher of home economics at La Follette High School in Madison. We moved to Duluth, Minn. in August so that Jim could begin his new assignment for the Board of Education of this city. He has accepted the position of High School Principal at Central High School in Duluth. This is a three year high school enrolling 1600 students and employing 72 professionals. Prior to our two years in Madison, we lived in Ladysmith, Wis. where Jim was principal of the Jr.-Sr. High School for three years." The new address of the Duffys is 2314 Greysolon Road, Duluth, Minnesota.

ELMO F. KORN, '53, graduated in 1962 from Columbia University, New York with a M.A. Degree in Psychology. He did graduate work at the University of Minnesota and the University of Wisconsin. Son Tom is in the Marines in Viet Nam. Son Bill is attending Gordon Military College in Barnesville, Ga. Mr. Korn's wife ended her teaching career after 28 years in special education. Mr. Korn further reports, "Moved from Wisconsin to Washington, entered U.S.F.S. as Director of Coun. and Guidance. Recreational activities—fishing, hunting, hiking, boating, group camping, swimming, rattlesnake hunting, bug collecting, tree identification, rock hunting, ESP experiments. We are enjoying life as never before without the competitive spirit and getting things done." The new address of the Korns is Curlew, Washington.

Serving as Principal of the Oregon (Wis.) Elementary School and Junior High School is ROLAND CROSS, a 1953 graduate of WSU. Mr. Cross received his master's degree in school administration in 1955 at the University of Wisconsin. He taught in rural Wisconsin for three years; was principal and teacher at Arlington, Wis. for three years; and has been at Oregon for eleven

years. He, his wife Carol, and their three children live at Route 2, Oregon, Wis.

RICHARD JANSEN, '53, former biology and driver education instructor at Random Lake High School, has accepted a similar position with the West Bend Public Schools. He received his master's degree in biology from the University of South Dakota in 1964 and has done graduate work in biology at Southern Illinois University and Ball State College in Indiana. He is currently doing post graduate work at the University of Wisconsin.

ARLINE MEISTER HIPPE, '53, is now living in Anchorage, Alaska with her husband Kenneth and children, Duane, Ann and Beth. The Hippes moved in Anchorage in 1963 where Kenneth served the National Bank of Alaska as assistant cashier in charge of the computer department. He has recently been promoted to the position of assistant vice president. Prior to her marriage Arline had taught in Edgerton for a number of years.

MARY JANE ZDROIK, the former Mary Jane Buss, '51, is presently teaching part-time at the Rosholt High School in General Science. She has three children, Tom, 9 years; Mike, 5 years; and Mary Elizabeth, 2 years.

OSCAR M. CENSKY, '51, who formerly served as Superintendent of Ozaukee County Schools, is now an administrative assistant to the coordinator of the Co-operative Educational Service Agency no. 19. He is responsible for the transportation of handicapped children to the schools in Milwaukee County; he oversees the operation of Ulao School which is Ozaukee County's school for handicapped children; and he is responsible for any other administrative duties assigned him. He received his Master of Science Degree in Educational Administration from the University of Wisconsin in Milwaukee in 1963. He had accepted the position of Ozaukee County Superintendent of Schools in 1957 and held that position until July when the posts all over the state were eliminated by the formation of the new Co-operative Educational Agencies. Censky and his wife, Mary, reside at 226 S. Main St., Thiensville with their six children.

After graduation in 1950 in the field of conservation, JOSEPH H. MARTINI worked for Weber Tackle Co. of Stevens Point as a sales trainee, which later led to his present work. He moved to California to represent Webers and has since secured contracts with several other firms in sporting goods fields. He has been active in this field since 1953 and owns his business. With the help of two associates, he travels the eleven Western states. Mr. Martini, his wife Charmaine and Two children live at 3329 Montgomery Drive, Santa Ross, Calif.

ERVIN S. YANKE, '50, who has been serving as principal of Johnson

School, West Allis, has been appointed principal of the new Frank Lloyd Wright Junior High School, established in the former Nathan Hale building, 8516 W. Lincoln Ave., West Allis, Wis. Yanke joined the West Allis school system in 1956 as principal of Woodrow Wilson School. In 1959, he moved to Johnson where he was principal until his present assignment. He received his master of science degree from the University of Wisconsin.

The past summer EDWARD KLINGER, '49, received a National Science Foundation stipend for summer school at Washington State University in mathematics. His family accompanied him to summer school. The Klingsers reside at 717 W. Decorah Rd., West Bend, Wis.

HARVEY HAFEMAN, a graduate of the 1945 and 1948 summer sessions, taught in the Wabeno schools since 1924. Prior to this he taught in a Mosinee rural school in 1923-24. He taught in elementary school until 1944 and has since taught in the Wabeno High School. From 1927 to 1944 he was principal in an elementary school and since 1946 assistant principal and later principal in the high school. At present Mr. Hafeman is a guidance counselor. During 1961-62 he served as acting administrator. Mr. Hafeman has visited every state in the United States except Hawaii and the deep South. He has also traveled in all Canadian provinces except the Maritime and Newfoundland. Mr. Hafeman was listed in Who's Who in the Midwest — 1963-64, 1965-66; in the Dictionary of Internal Biography — 1964-65, and the National Social Directory — 1966. He will retire from teaching in June, 1966 and move to Schofield where he and his son Donald own and operate a drug store.

PHILIP J. RUNKEL, '39, active in the College Theater in his Point days, taught mathematics at West High School in Madison after being graduated from Stevens Point, Wis. In 1940 he went to the Panama Canal Zone as an engineering aide; later served in the U. S. Army. After a stint as a "teaching Sergeant" at the Engineering School at Ft. Belvoir and after the end of World War II, he returned to the Canal Zone to work again on the feasibility of a sea level canal. When that study was completed, he returned to teaching, this time as a supervising teacher of industrial arts in a large colored high school in the Zone. Seeing at first hand

the problems that arose in a setting where communication was impeded by extreme cultural diversity, he and his wife left the Canal Zone for graduate work in social psychology at the University of Michigan. He received his Ph.D. in 1955 and accepted a position in the Bureau of Educational Research at the University of Illinois, where he remained until 1964 when he assumed his present role in the new Research Center at the University of Oregon in Eugene. Mrs. Runkel is a retired librarian. The address of the Runkels is 610 Kingswood Ave., Eugene, Oregon 97405.

KENNETH F. STORANDT, '39, is serving as elementary principal and writing projects for the entire school system under the Elementary-Secondary Education Act. He attended a post-masters educational media institute at George Peabody, Nashville, Tenn. last summer. His graduate work was done at the University of Wisconsin and Winona State College. He is married and has four children. The Storandts address is 2154 Hoeschler Dr., La Crosse, Wis.

B.A. CUNNINGHAM graduated from WSU from the State Graded Course in Education in 1934. He taught for one year in a one-room rural school. In 1935 he became principal of Genoa State Graded School (Vernon County) and teacher of the 9th and 10th grades; in 1937 he became principal of the City Grades in Colby (Clark County). In 1941 Mr. Cunningham enlisted in the Army Air Force and was stationed at Scott Field, Ill., at Sioux Falls AAF, S. Dakota, and Truax Field, Wisconsin. In November of 1945 he accepted a position in Wausau as assistant principal and teacher of the 7th grade at Grant School. Throughout these years he continued attending college at night and during the summers. In the summer of 1945, he received his bachelor's degree from Stevens Point. During the next four years he continued his education at the University of Wisconsin, receiving his Master's Degree in the summer of 1950. In the fall of the same year he became a full-time principal in Wausau, Wis. While in the military services, Mr. Cunningham was married to Miss Alberta Syth, Greenwood, Wis. She is a graduate of WSU and is now teaching in Wausau. They have two daughters — one a junior at the University of Wisconsin and one a sophomore at Senior High School. The Cunninghams live at 238 N. 12th Ave., Wausau.

In Memorium

Mrs. Roger Lewis, 69, 413 Chestnut St., Whiting, Wis. died on October 25, 1965 at St. Michael's Hospital. The former Esther Belgium, she attended elementary and high schools in Mishicot and WSU-Stevens Point, from which she graduated in 1921 with a teaching degree. She took special education courses at Wayne State University in Detroit, and specialized in sight-saving work through courses at the Madison and Chicago University campuses. From 1917-1922 she taught school in Idaho, then returned to Stevens Point, where she taught school for 20 years, 11 of those spent in special education work at the Emerson School. In June, 1923 she married Royal Dawley who died in a train accident at North Fond du Lac in 1941. In 1953 she married Roger Lewis in Stevens Point. The couple made their home at Whiting.

Helen Lansbach Hitzke, Merrill, Wis. died on December 15, 1964, of a sudden heart attack. She was a graduate of the 1959 class. She had been a teacher for about 30 years, having taught in many capacities; classroom, principal, Lincoln County Teachers College demonstration teacher, and at the time of her death the 4th grade teacher of the Washington School at Merrill, her home town.

Samuel G. Burgess died of a heart attack on March 16, 1965. He graduated from WSU in 1961 and was employed in the engineering department of Walker Manufacturing Co. at Racine, Wis. at the time of his unexpected death. He is survived by his wife, Jane, and two children, David, age 18, and Elizabeth, age 14, who are now residing at 5 Saffer Court, Urbana, Illinois.

Mrs. Lylal Van Skiver, the former Lillian Whitman, passed away on March 31, 1964. She had graduated from the Normal School in 1919 and taught for about twelve years in the public schools of Amherst, Wis. Her marriage to Lylal Van Skiver took place in 1925. They moved to Tucson, Arizona in 1943 for their health where she passed away on March 31, 1964.

Mrs. Alfred S. Hingiss, 56, of 514 Sixth St., Kiel, died on December 5, 1965 at Calumet Memorial Hospital, Chilton, where she was a patient two days. Mrs. Hingiss, nee Helen Jordan, was graduated from WSU-Stevens Point. She was an instructor at Hawkins, Wis. junior high school for two years and one year at Kiel. She was married to Alfred Hingiss July 27, 1935, at Northwood, Iowa. She is survived by her husband, a daughter Susan, a student at the University of Wisconsin-Madison, a son Alfred Jr., at home, and a sister, Mrs. Ambrose Gadwa, of St. Paul, Minn.

Joseph J. Rappel, 68, died unexpectedly on December 12, 1963 at Holy Family Hospital in Manitowoc, Wis. Mr. Rappel was a teacher almost his entire adult life, and when he retired as principal of Garfield Elementary School, Manitowoc, he maintained his avid interest in education in addition to becoming involved in historical subjects related to Mani-

towoc County, also writing about them, and the Kiwanis Club both on the local and district levels. Mr. Rappel received a bachelor's degree in 1941 from WSU. He began his teaching career at the Franklin Joint 14 (Menchaerville) rural school in 1916. In 1920, he became principal of the Manitowoc Rapids state graded school, remaining there until the fall of 1928 when he was appointed Manitowoc County supervising teacher. In August of 1942 he joined the faculty of the county teachers college as registrar. Mr. Rappel was elected for a four-year term as Manitowoc County Superintendent of School. He became a member of the Manitowoc public school system in 1949, teaching sixth grade at McKinley School. Mr. Rappel was appointed principal of Garfield School in 1956, remaining in that capacity until retiring in June of 1963. Mr. Rappel is survived by his wife, Anna; a son, William of Oxford, Ohio; two daughters, Mrs. Ted LaValley of Madison and Mrs. Roland Skarda of Appleton; three brothers; two sisters; and eight grandchildren.

R. B. Woodworth, 77, Fond du Lac, a former Stevens Point resident and a retired school principal, died on November 6, 1965 at a Fond du Lac Hospital. He had been ill several months. Mr. Woodworth retired as principal of Roosevelt Junior High School in Fond du Lac in 1957. Woodworth Junior High, Fond du Lac, is named for him. He attended Stevens Point Normal School, and received his bachelor's degree from Ripon College and his master's degree from the University of Wisconsin. Before moving to Fond du Lac in 1920, Mr. Woodworth was a grade school principal and later assistant high school principal in Chippewa Falls, and director of the industrial arts department and athletic coach at Ladysmith. Mrs. Woodworth, the former Lois R. Jenness, survives, along with a daughter, Mrs. Roy Carpenter, of San Jose, Calif., two grandchildren and nieces and nephews. A former fourth grade supervising teacher at WSU Campus School, Miss Leah Diehl, 82, died at 10:25 a.m. January 20, 1966 at St. Michael's Hospital. A native of Elroy, Miss Diehl attended elementary and high school there, then attended the Milwaukee State Normal for two years. She completed her undergraduate work at the University of Chicago, continuing there in the departments of geography and education until receiving her master's degree. Miss Diehl came to WSU-Stevens Point in 1923 from Juneau County, where she had been for three years a county supervising teacher and for five years a county superintendent. Prior to that she taught sixth and eighth grades at Elroy. Miss Diehl, who retired Sept. 1, 1954, helped train more than 600 teachers, and it was estimated at the time of her retirement that more than 100,000 pupils in schools all over the country had been taught by these teachers. She was associated with the university for 31 years.

W.S.U. Staff Member Prize-Winning Poet

Prize winning poetry is being written by Miss Mary L. Shumway, a Wisconsin native, who is presently an English instructor at WSU-Stevens Point. Here Miss Shumway (center) shows her first book of published poetry, "Song of the Archer" to WSU senior Peggy Lou Bartels (left) and Miss Isabelle Stelmahoske, also an English instructor at the University.

(This article has been prepared by Susan Stanke, a June, 1965 graduate of WSU, Stevens Point, having majored in English. She is currently employed as a feature writer for the Stevens Point Daily Journal and is a native of Stevens Point.)

"When I was a child, I didn't think I'd ever do anything but play the fiddle for the rest of my life."

Instead, Miss Mary L. Shumway, currently an English instructor at WSU-Stevens Point, is the winner of the 1965 Academy of American Poets Award.

A Wisconsin native, Miss Shumway spent the past five years in California, teaching and writing poetry which has brought her critical acclaim and national recognition as one of today's most promising American poets. She returned to Wisconsin to teach and be nearer her parents, who make their home at Wisconsin Dells.

Miss Shumway's first book, "Song of the Archer," a narrative poem that tells the story of a young girl growing up, and

a collection of her other early poems, drew immediate favorable comment from national critics.

The author followed this literary success by winning the distinguished Academy of American Poets Award for a current collection of her poetry.

Unlike popular "beat" and "protest" poetry of today, in which nihilistic philosophies are intoned regarding the inescapable sad fate of men, Miss Shumway's poetry is as refreshing as re-reading "Tom Sawyer."

Warm and human, her poetry has a natural, lilting language and is delightfully seasoned with a rich, gentle humor. Written in graceful yet forceful style, her poetry reveals patterns of human experiences through delicate parallels with nature.

Miss Shumway, who usually does her writing "from about 11 o'clock at night until 4 o'clock in the morning," acknowledged that a great literary influence in her writing was Edward A. Robinson's poem, "Tristan."

"I guess I would say William Butler Yeats is my favorite poet," said the author, who thinks Robert Lowell is "the finest living poet today."

In addition to "Song of the Archer," since 1953 Miss Shumway's poetry has appeared in "Motive," "Modern Age" and "The Christian Scholar," all national journals and literary magazines, as well as in regional periodicals such as "The Beloit Poetry Journal" and "The Prairie Schooner."

Although her own poetry flows gracefully and unhurriedly along in a traditional manner, Miss Shumway is well versed and articulate on the current crop of poets, and has definite ideas on the place of poetry in today's world.

"We have a notion that we need a complex, educated intellect to appreciate poetry. It's not so. Good poetry uses natural expression, as Robert Frost's works, for example.

Miss Shumway, who once worked as a reporter who wrote theater reviews and feature stories for a California newspaper, be-

lieves that the theater is also a natural place for poetry.

"Archibald Macleish's 'J.B.' offers real theater possibilities, and Thomas Becket blends poetry and drama in his play 'Waiting for Godot,' as does T.S. Eliot in his 'Murder in the Cathedral,' she elaborated.

From Miss Shumway's early attitudes and various other talents, it might have been difficult to predict that recognition would come through her literary talents. As a youngster, she rebelled against "book-learning."

"I accepted a formal education only because all the things I was interested in required schooling," she explained.

She attend the University of Chicago, where she did editorial work for the university-published "Journal of Religion" and the department of philosophy's "Ethics" magazine.

While attending school there, she also served as dean of women and coordinator of undergraduate studies, and was employed by the university's psychological counseling service.

Paradoxically, the girl who once scorned education now holds a bachelor of science degree, and a master's degree in English from the University of Chicago and has tallied up course credits in evening classes at the University of Wisconsin and other schools.

Fascinated by the fields of sociology and anthropology, she had only to hand in her thesis and take her oral examination to receive a master's degree in anthropology. Then suddenly she changed her mind and decided to get her master's degree in English instead.

So while completing her graduate degree requirements in En-

glish, she taught cultural anthropology and English at George Williams College in Chicago.

Also a talented artist, who cites sculpting as her favorite media. Miss Shumway has both studied and taught at the San Francisco Art Institute. Although she studied art there, she taught anthropology and social science.

A talented musician, she plays the trumpet, violin and baritone horn.

"My mother was a piano teacher — so of course, being naturally perverse, I never learned to play the piano," she said, laughing.

While Miss Shumway's interests and talents are diverse, poetry remains her first love. But since coming to the university at Stevens Point as an English instructor last year, she admits that the time she has been able to devote to her writing has been limited.

"When you teach, it seems there are always limitless stacks of papers that need correcting and grading," she said somewhat ruefully.

Currently she is at work on another collection of her poetry, to be compiled under the tentative title of "Mindar and the Gandy-Dancer." Returning to her favorite topic, she terms poetry a mode of communication that belongs to the people, and one that "has to have meaning."

"If," said the author, "as Emerson said, we conceive of poetry as the 'first and last expression,' poetry is the most natural form of communication that man has at his disposal."

And, according to national critics, Miss Shumway is communicating effectively — and impressively.

W.S.U. Women Named to Who's Who

The names of three WSU-Stevens Point educators have made their first appearance in "Who's Who of American Women," the editors of the newly published fourth edition have announced.

The local woman, whose names appear in the edition, are Miss Mildred Greta Davis; Mrs. Elmer (Marjorie Esther) Kerst, and

Miss Mary Elizabeth Thompson.

The biographical dictionary totals 22,000 names — 9,900 of them for the first time—in the United States and Canada, along with leading foreign women with U.S. ties. They were chosen by the parent publication. "Who's Who In America," from all meritorious vocations and civic activities.
