GRANEY DECLARED INELIGIBLE

POINTER BACK BARRED FROM FURTHER PLAY

Milwaukee Loses Van Roo As Result Of Athletic Board Decision

At the annual conference of the athletic representatives of the several state teachers' colleges and Stout Institute in 1927, the Milwaukee, Miles Graney, Stevens Point backfield star, and Bud Van Roo, outstanding Milwaukee linemen, were ruled ineligible. They were charged with having completed three years of college competition counting freshman ball as one year. Mundt, a regular on White-water's championship team last fall, was automatically ruled ineligible under the same decision, having played one year of freshmen football and two years of varsity ball at Marquette, with Graney.

Co-Champs Not Affected

It would seem then that White-water should be forced to forfeit their share of the championship claimed by them last year. When our representative, Mr. P. J. Schmeckmeier, suggested that something be done to right this obvious discrepancy, his motion was not favorably received by the board.

To Adopt New Rules

It would be to the advantage that the set of rules now in use be de-queated in many respects and that a new set be drawn up next January.

In order to remedy another glaring defect under the present system, that of misinterpretation, it was proposed that a committee be appointed by the board of re-
genentes whose duties it would be to interpret confusing rules and to act quickly upon the eligibility of players in the event of protest. This would do away with the nece-
sity of having to wait for the respective representatives of the various schools could convene at their annual conference at Mil-

waukee.

Too Many Duties

Here to fore, representatives were selected by the board of re-
genentes, upon the recommendation of the college presidents. It has been the duty of the plaintiff, defendant, judge and jury in all inter-scholastic athletic disputes within the conference. With all due respect to the fundamental in-
tegrity of this body, individually and collectively, one can say that they, acting in their manifold ca-
pacities, with questions in which

Band Goes To Oshkosh For Final Game

Saturday when our pigskin chasers go to Oshkosh for their final game, they won't be there alone. Peter J. Michelson and his "windy-boys" will be there to support the morale of the fellows who are striving for their last vic-
tory during the game.

Besides the fleet of private cars of local townspeople and college students, the band will motor to Oshkosh in cars of the respective board members and faculty. Mr. Michelson wishes to have all cars donated by students or faculty. By the time this article goes to press he is sure to have his fleet ar-

ranged.

The only factor that will change present plans is bad weather, be-

cause the instruments cannot be taken out in the rain. They plan on playing before and at intervals during the game, with a demonstra-
tion of their marching between halves.

All fellow students who have an interest at all in this game please report at Oshkosh and support both Team and Band.

their own school was vitally interested, often handed down deci-

sions which were unintentionally

Irish Staff

Iris Staff Will Start Year's Work

Celestine Nuese, Editor-in-chief of the 1934 Iris has appointed the following people on the editorial staff. Associate Editor (To be chosen by Junior Class). Administration and classes—Eileen Baerwald. Organizations—Charles Ross.

Activities:

Music — Tom Ringness;
Forensics — Cletus Collins;
Dramatics — Carolyn Hanson;
Men's Athletics — Robert Neale;
Women's Athletics — Alice Sorenson.

Features:

Calendar — Cletus Collins;
Humor — Jack Ogg;
Historical — Ella Kloet.

Artists: Jack Burroughs, Berencie Dick; Margaret Froene, Joe Frank, Irma Groth, Vivian Meyer, Laura Jang, Rosemarie, Ruth Schwahn, Robert Tardiff, Roy Thompson.

Photography: J. M. Davidson, Donald Mills.

Assistants: Harold Blenker, Guy Krumm, Peter Peterson.

Production: Harriet Bombera, Margaret Le- vi, Agnes Madsen.

The above named people have been selected through their appli-
cations turned in to Nuese for the respective positions on the staff.

The first staff meeting will be held on Monday evening, November 15, at 8:15 in the Iris office on the third floor.

It is interesting to note that the library circulation was increasing in the years that the school enrollment was decreasing.

There are no other records of the other uses of the library, but Mr. Allrich estimates that the use of the reserve books and reference work in the library has increased at even greater proportions. Activities in which there has been notable development has been in interlibrary loans and service to the alumni and public.

According to Mr. Allrich, there has been noticeable increase in the reading of students outside of their academic requirements. This reading, he states, has been particularly strong in the fields of bio-

graphy and travel.

Statistics Reveal Increase In Yearly Library Circulation

In recent years many improvements have been made in the housing and physical equipment of the library. A great increase has been recorded in the use of the library by students, faculty, and the public.

The following table indicates the enrollment years and library circulation statistics from 1925 to the present date:

<table>

Increased Enrollment

There were 44 enrolled in the first evening, time permitted by the enrollment of all present. Others have been registered at succeeding sessions. This figure, together with the 727 enrolled in the regular college classes, makes the school total to date 771, which is larger than the total for the first semester a year ago.

Wausau Represented

Those enrolled in these evening classes are representatives of this city and surrounding towns with the greatest number from Wau-
sconsin.

The professors of the faculty have volunteered to give courses at the night school, which will continue throughout the year.

Faculty Members To Appear In Who's Who

Six members of the local fac-

ulty, Susan E. Colman, Jessie Jones, George C. Allen, C. C. Evans, Mildred Davis and Helen Meston have been notified by the Robert C. Cook Co., publishers, that they have been recommended to them for inclusion in the 1934 WHO'S WHO IN AMERICAN EDUCATION. To receive notice of recommendation is the equivalent of having been accepted.

At the present time there are only two other members of the facul-
ty listed in this publication. They are President Hyer, and Dr. Jo-

Who's Who In American Educa-
tion, published biannually is A Biographical Dictionary of Eminent Living Educators of the United States.
A SUGGESTION

We would like to suggest to persons having eleven o'clock classes at the training school that they make an attempt to get to the auditorium early on assembly days, and secure a back seat. Those people who are seated in the front or middle of the room make a considerable disturbance when they get up in the midst of the program and walk out. Such a situation is distracting to the entertainer, and is not pleasant for those who are really enjoying what he has to offer.

We might even go a step further and take the liberty to suggest that a space be reserved in the rear of the hall for those who find it impossible to remain through the entire program.

For those who have nine o'clock classes at the training school and find it necessary to come late to assembly an additional space might be reserved. This would do away with the necessity of motorists halting the programs in order to allow them to walk to the front of the room before finding a place to be seated.

WE FEEL LIKE THIS

Undoubtedly, if you’ve read the story on page one of this issue, you’ve gathered that Mr. Schmeckelie had a rather tough time last week-end down at the annual athletic conference at Milwaukee. We consider it nothing but a “raw-deal” handed us again — as usual. After having declared Mundt ineligible, and beyond that, White-water representatives admitted his ineligibility without any argument; yet the committee refused to take any action on the matter as it was brought up by our representative. We can’t see any reason whatever, why there shouldn’t have been some action taken on this question. Just looks like more dirty work as far as we can see.

It seems there are about three people directly connected with that conference who can’t see any real difference in the record of that conference who can’t see any real difference in the final report. One of them is the Professor Spindler.

During the first semester of 1897-98 he was professor of psychology, economics and Latin in Belknap College, Nebraska. The second semester of that year he returned to Harvard for graduate work in psychology and education. In his work at Harvard, he covered almost every course offered in the department of psychology and philosophy, and practically equal to a Ph.D. In his extensive graduate work at Harvard University, Professor Spindler also attended lectures on education at New York University for several years, the summer session of the University of Wisconsin for the summer session of 1926. At Wisconsin he studied Psychology of Learning, Reading, Politics and Administration, Intelligence and Achievement Tests under Odell, and Educational Measurements under Herriman. In 1898-99 he was professor of Psychology and Pedagogy in the Michigan State Teachers College, at Ypsilanti.

In 1899-1900 he was professor of Psychology and Philosophy at Fairmont College, Wichita, Kansas, returning to Cambridge in 1900-91 for further study and research.

Professor Spindler entered Stevens Point Normal School in the fall of 1901. He has been great many years as principal of the school, and was associated with his work as a teacher. For the first five years he was the football coach. From 1906 and on until 1922, he did a great deal of technical administrative work. During the time mentioned, he wrote the catalogue and summer school bulletins and edited all school bulletins. He was vice-president from 1914-1922. He has been Chairman, Chairman of the Educational Board, faculty advisor to the Pointer and Iris.

For the last few years he has been released from excessive outside work and has been able with regard to duties to devote his time to reading and room teaching. He is now chairman of the Faculty Committee on alumni relations and the treasurer of the student loan fund, the work of both of which he greatly enjoys.

He is a member of the Evergreen Lodge F., and A. M. and of the Forest Chapter of Royal Arch Masons. He is an ex officio high class master.

In 1900 he married Mrs. S. Ezuma, who is the daughter of the late President and Mrs. Sims, to Florence Winifred Hatch, daughter of Judge James M. Hatch of Waupaca County. They have one living child, George Dearborn Spindler, a sophomore in his local high school. Their first two children, Nichol- lass Hatch Spindler, age 3 years and a half; and John Francis Spindler, age 7 months, died in one week during the first fif epidemic of 1917.
Cross Country Meet To Be Held
At Milwaukee Saturday, Nov. 11

The local cross-country squad under the leadership of Lyman Scribner has been working hard throughout the season for the meet next Saturday at Milwaukee. The five men who have been chosen to represent C. S. T. C. are Scribner, Oshkosh, Platteville, La Crosse, and La Crosse. Cross-country is a major event in the program of the semester. The men are training hard for the meet and will compete against runners from Milwaukee, La Crosse, and Platteville.

Point Wins As La Crosse Shows Power

On Saturday, October 28, the Kotalmen went to La Crosse for a non-conference game. The game was scoreless until the second quarter when Oscar Copes blocked a La Crosse punt on the opponent's 24 yard line. Warren Krum and Art Thompson then hit the left side of the line to make La Crosse turn the ball over. Gregery ran back a punt to the five yard line and scored for the extra point. Score 6 to 0.

Platteville Threatens

Platteville threatened late in the game when they passed their way to the Point’s one yard line where their offense failed when a fourth down was given them a five yard penalty.

Pointers defeated Platteville Saturday, 33 to 0. After leaving his regular squad in the game long enough to run up a comfortable lead and finding that the opponents lacked the strength they had been given credit for, Coach Eddie Kotal put in the second team to save his men from possible injury out of the game. When they passed their downs to 6 for Platteville but most days. Under Captain Guy Pringle, time out gave them the Point’s one yard line to the 15 yard line. Against Wisconsin, off the course. He was leading the field as he neared the finish line when he saw a train approaching on the track which he had to cross. Fearing that he would be cut off and lose his lead, Becker crossed the track at a point slightly ahead of the marked-out crossing. He did not gain any ground but finished fully 800 feet ahead of the field. The runners placed as follows: Purrey, La Crosse; Bull, Point; Champ, La Crosse; Cook, Point; Johnston, La Crosse; Amos, La Crosse; Terlin, La Crosse; Yacht, Point; Miller, Point.

Oshkosh Wins.
Stout Loser At La Crosse Sat.

Oshkosh defeated Whitewater Saturday 13 to 0 in a game featuring Barlow and his brilliant open-field running. He scored on runs of 10 and 90 yards. The 90 yard run was the return of the kickoff opening the second half when Barlow looked good at hitting the line.

Stout Drops One

La Crosse won its first game of the season Saturday defeating Stout 21 and 7. The La Crosse homecoming completely outplaying their opponents the first quarter to score with Decker making the touchdown and point after touchdown. La Crosse came back to score in each of the remaining quarters Kunitz, Hanson, and Cymick making the touchdowns. Carroll trommeled Milwaukee 18 and 7 in a non-conference game.

Saturday's Win Assured Tie.

Kolmen Only Thumbs Up

Next Saturday the Pointers journey to Oshkosh for the final and most important game of the season. The Kotalmen are undefeated and will have a share of the title even if defeated. A win over the Kolmen is always the point of team. Oshkosh always puts up a strong team against the Purple and Gold and the outcome of these games is never a safe bet.

Tough Game

This year the game will be especially tough because Oshkosh is second in the conference standings and a win over the Pointers would give them a share of the championship. To date the Kolmen have defeated Platteville and Whitewater. Milwaukee handed them their only defeat. The Sawdusters feature a heavy line which is handled smoothly by quarterback Barlow, who is also their strongest offensive threat.

Tied for first place in the conference is the Oshkosh home-coming fullback who has functioned well in games this year. Barlow runs the ball well and Wandrey carries the line. Their lateral pass plays have been one of their outstanding scoring machines.

We're picking Michigan to defeat Minnesota.

**Rural Life Meets**

The Rural Life Club met in the Rural Assembly Monday, November 4th. After community singing and a short business meeting the members adjourned to the old gym, where dancing continued until time for W. F. to use of the field by the football squad. Music was furnished by the school orchestra. This was the first social meeting of the year.

**All School Party**

Next Friday evening, Nov. 10th, the Home Economics Department is giving an all school party. There will be no admission charge. Music for dancing will be furnished by the college orchestra from 8:30 to 11:30. L. I. A. Wehr Charles Turrih, Betn sority Elora Moore, Stevens Almond; Jack Ogg, Merrill; Margaret Ashmun Literary society in the evening. The yearly gigan, where dancing continued rather irregularly scheduled due to community singing and following this a spree for the fraternity.

**CLAASROOM GROOMING**

**THE Beauty School**

By Helena Rubinstein

I know the feeling you have before an early class. In Vienna, some of my students were at 8 o'clock, and at that hour appearance does not seem so important. Yet the habit of grooming for every occasion, no matter how small — the niceties of looking well even in your room, alone — should be part of your own training of yourself for the years to come. Of course, you will want to take a shower or bath. It will save time if you spread a film of your preferred face cream or a skin cleansing cream over your face before stepping into the tub, for the heat of the water makes it easier for the cream to penetrate the skin. Then when you are ready to dress, remove the cream with absorbent cotton, and put on a skin toning lotion to close the pores, tone the skin and prepare your face for makeup.

I think you will find that you can make up more quickly if you know the proper way to apply your cosmetics. And the result is much more flattering! I would suggest a cream rouge for the first makeup — you can touch your coloring with dry rouge during the day. But don't waste time cutting on a great deal of rouge that has to be wiped off. Instead, tap your finger lightly against the rouge and against your cheek. With a clean finger, smooth the rouge carefully until the edges are well blended. Repeat with the other cheek. Then press your powder firmly over your face, and dust off the surplus with a fresh bit of cotton. Lastly, smooth on your lip rouge, last off your lashes and a brow — and you can start for class assured that your beauty lesson, at least, is prepared.

If you have a personal beauty problem on which you need advice, write Woman's Interest Syndicate, 525 Fifth Avenue, New York City.

**HOMECOMING**

For days and weeks aerost is everywhere: Acute anticipations tinge the air. Great plans are made for welcome and display. Where former "grades" will come "back home" that day.

The active student-bodies of the school observe the old traditions and the rule that each one shall prepare for the parade. A brightly painted float stands for promotion.

The gay parade depleting forty years, is greeted with a host of smiles and cheers. By contrast and by imitation, too. Those early days are brought again to view.

The history of this school has ever been a compliment to thinking minds and men. "O Alma Mater, our C. S. T. C., We're ever glad to give our best to thee.

F. ROGERS CONSTANCE

This poem was written by Mr. Constance while riding on a float during the parade.

EXCHANGES

MILWAUKEE

The college cafeteria at Milwaukee Teachers College, faces a serious problem made plain by President Baker in an assembly appealing students to increase their patronage of the cafeteria. For the past five or six months it has been operating at a loss in spite of the fact that labor costs and general overhead have been drastically cut. (Echo Weekly, Milwaukee Teachers College).

Fines levied on thirty-one students last semester for writing notes and otherwise defacing their texts show that 60% were placed on editions used by foreign language students. Convenient translations and helpful hints by former users seemed to constitute the bulk of the defacements. (Echo Weekly, Milwaukee Teachers College).

RIPON

"It was just drawn to our attention that in a certain English school there are forty professors and while that isn’t remarkable it becomes so when you hear that they have never had more than eighteen students at one time since the school was founded.”

(Ripon College Days)

Thankfulness

The little son of a minister had been very naughty and as punishment, he was not allowed to eat with the rest of the family, and a small table was set aside for him. On being given his food at this table for the first time, the little chap said very solemnly, "Lord, I thank thee. Thou hast spread a table before me in the presence of mine enemies.”

Local Faculty Member Writes Grade Manual

"Picture Study In The Elementary Grades", a manual for teachers by O. W. Neale, director of the Department of Rural Education in this college, was released by Lyons and Carnahan, publishers, of Chicago on November 1. It was displayed at the State Teachers Convention in Milwaukee last week.

This is Mr. Neale's second publication on picture interpretation. The first one, Picture Study in the Grades, has had a very wide sale.

Fill's Need

The new book was written because of a demand by teachers for material on other pictures such as "Don't Blame Idea for any coed to pledge to!". Mr. Neale uses in his own interpretations of the great masterpieces of art. The accumulation of this subject matter is the result of years of work and study by the author. His technique has been developed by his experience before varied audiences in many parts of the country.

500 Illustrations

During the past summer he accepted an invitation to return to Peoria, Illinois, for the second time to present picture interpretations to an audience of twelve hundred teachers each day during a week of institute.

'Picture Study in the Elementary Grades' is illustrated with beautifully colored reproductions of the seventy-two pictures included in the table of contents. It contains five hundred and eight pictures. The volume is artistically and durably bound.
