Mr. Davidson Critically Ill

Faculty Member Seriously Ill

Confined to St. Michael's Hospital in Town

Professor J. M. Davidson of our local faculty is in a critical condition at St. Michael's Hospital of this city. A recurrence of a stomach ailment which he overcame two years ago is the cause of his condition. His physicians had cleared up this stomach ailment, but complications of an infectious type have set in and his case is unusually serious.

Mr. Davidson underwent a minor operation early in August this past summer. His recovery was rapid and good health seemed to be his once more. While camping at Plum Lake near Sayner, Wisconsin, he again was stricken; his condition gradually grew worse until he was removed to the hospital September 11th.

Latest Available Figures Show 657 Enrollment

The enrollment at Central State Teachers College has, from the latest figures available, reached a total of 657. The figure at the close of the first week of enrollment, Friday, September 14 was 646 in contrast to last year's 664 of the same time. The enrollment for the first semester last year, including night school, was 815. Indications and predictions are that there will be about 20 less, all told, this semester, but your guess is as good as ours.

Dorm Girls Govern Themselves

Barbara Fulton Leads Governing Group

"College girls are capable of and should be accorded the privilege of governing themselves," stated Mr. Hyer. Thus the wheels of student government were set in motion at the dorm, and many favorable comments have since been heard.

Selection of a governing body was the first major step, and a general meeting was called when the elections occurred. Seven councilors were chosen by ballot vote, and it is this group of girls who hold the greatest share of the power and responsibility. They are consulted whenever questions arise, and they meet as a committee to discuss various arising problems. Barbara Fulton, of Oconto, Wisconsin, was chosen chairman. Assisting her are Helen Piehl, Mable Lange, Fern Manger.

Student Directory Being Compiled

The annual student and faculty telephone directory will be on sale at the College Counter in the very near future. While no definite date can be given at this time the dummy is now in the hands of the printers and should be available to the student body Wednesday or Thursday of next week.

The student directory is of value to the many students attending the college and also lends financial support to the athletic department. All the funds received over and above the cost of production go to the athletic committee.

Selling Price Low

In spite of the fact that the cost of printing has gone up something over 50% in the past year, due to the NRA code rulings, the cost to the student will remain the same as in the past, ten cents per copy. It must be clear to every student that this booklet is made possible through the cooperation of local advertisers. Over fifty of whom have found it expedient to use this means of placing the names of their products before those in attendance at this institution.

A Valuable Book

In this edition will be found the football and basketball schedule.

Notice

Any person who has had previous experience in the art of drum-majoring and who desires to try out for the job with the college band will please report to Prof. Michelsen at his earliest convenience.

College Band Makes Plans

Michelsen's Outstanding Work Attracts Many Candidates

The present course of events indicates that the band will have a banner year. The number of students desiring admittance to this music group is one of the reasons for optimism in this field. Seventy-seven persons have signified their intention of joining the organization on their pro-...
THAT GREAT AMERICAN GAME

It's not all it's cracked up to be — this life of a football player. Each night he jogs lightly out to the football field; each night he paddles slowly back to the shower room — a bruised, tired, battered batch of human flesh. It takes guts, nerve, persistence. It's ability to take both physical and mental punishment. It's willingness to get out there and expose himself in front of that square and taking all that he can give it. It's a game for the red-blooded. It builds men, it teaches them to "take it." It teaches teamwork; they learn to get along and rub shoulders with the other fellows. They learn to work clandestinely and lose as good losers should. It builds character as it develops the body — that's why it's the great American college game.

We're not slamming those who stand on the sidelines. To the contrary, it would be a funny world if everyone were a football player. The fellow who excels in one line usually doesn't contribute much in another. We need football players and we need football fans; we need musicians and we need scholars. However, it happens that this ability is related to the gridiron, and we're taking this time and space to give him just this — space his work has meritcd. And we'll be backing him whether he's the most outstanding star or the least noticed sub.

Let's take off our hats to the fellows who are willing to go out there for a tough practise grind each day so their Alma Mater can grow and glory in the team's victories. It's an accepted fact that a planned athletic program linked with victories and championships builds a school. The athletic records set up in the past several seasons are a tribute to the fellows who have supported and advertised our school than packages of literature and sacks of letters.

Hats off to you blooded men — to you fifty grizzly, live fellows who are working hard each night, keeping your noses in the dirt. You're a tribute to this school and we're proud of you!

HERE IS YOUR CHANCE TO COOPERATE

The experiment of self-government inaugurated at the dorm is of concern to every student of our college. It is, undoubtedly, a preliminary step to the innovation of student government in the school. The success or failure of this project will determine what policy the administration adapts in regard to student democracy. It is something for the entire student body to think about! We compliment the dorm girls on the courage they have shown in decisively deciding to take this forward step. We are sure that every dormite will discard petty jealousies, and cooperate to her utmost; we are sure that no one will so lose sight of personalities and personal grudges ahead of the principle.

But more than dormite cooperation is needed. The cooperation of the young men of the school is essential to this experiment's success. Knowledge of the rules and obedience of them is the key by which the gentlemen can help. Those irresponsible, thoughtless, young men who yell and whistle after closing hours are as much an attribute to our college as the weeds are to the lawn — both should be weeded out. The experiment is everyone's concern: the eyes of the entire student body are focused on the project; the townspeople, too, are watching with interest. Failure will be a black mark for the entire school.

We must prove to our onlookers that we possess the capacity to put this over; that we possess as much ability, as much determination, and as must foresight as students of other colleges. Let's prove to our good president, Mr. Hyer, that we are worthy of the confidence he has placed in us.

The students are the prime interests of the school and their ultimate success is the best the school can hope for.

BROADCAST

LET'S HEAR FROM YOU

Contributions from the students are always welcome. Just drop them in the Pointer mailbox on the third floor. We urge all students and faculty members to air their pet peeves through this column. We will be glad to accept your contributions, whether they are stories, jokes, comments, or criticisms.

Your name must be signed to the article, although anonymous names will be published if you so signify.

Dear Professor:

I'm only a Freshman, but already like this school, its friendly spirit, and its patient faculty. I expected that the Freshmen would be treated inferiorly, but find the upperclassmen's cooperation received. I am not enough for the spread.

Sincerely,

A PROHIB

A PROHIB

DORM GIRLS GOVERN SELVES

(Continued from page 1, col. 2)

son, Alice Martin, Fern VanVuren and Genevieve Eastling.

Rules Drawn Up

Since the majority of girls at the dormitory are new, a meeting was called to acquaint the girls with the old rules and to formulate new ones to fit the changed conditions. Three of these, of interest to outsiders, are:

1. On Tuesday and Thursday nights from 6:30 to 7:30, dancing for college students in the recreation room. A committee will be appointed to take charge of the dances.

2. Closing hours (everyone in) at 10 o'clock school nights and at 12 o'clock week-end nights. Pers will, however, be given upon request.

3. Friends may be entertained in the living room from 7:30 to 10:00 o'clock.

These are only indications that the inaugurated new scheme will work out successfully and will, undoubtedly, remain a permanent feature.

COLLEGE BAND MAKES PLANS

(Continued from page 1, col. 4)

the different instruments. It may be of some consolation to those who have been taken in by the band's first trial to know that the results of these tryouts are not necessarily final.

Michelsen Comments

"The band is perfect instrumentally," says Mr. Michelsen, "and consequently is somewhat short of music, because it has never been necessary for me to order for such a number and variety of instruments. I hope in its first half the necessary parts soon, and with the help of the FEFA men who are in the music department, to have them properly filed away."

With football games coming soon, no time can be wasted in getting down to work. Marching practice includes counter-marching, military corners, oblique, etc., and has already begun. At each band meeting, some time is devoted to the stirring marches, which are calculated to inspire our football warriors to greater efforts and more worthy achievements.

Much Color

In addition to the effect produced by the beautiful new uniforms which were purchased last year, the band stand will be still further enhanced this year by the display of the two new banners which were presented to the band by the Seniors of 1935-34. Mr. Thompson has made stands for these banners, and they will be ready for the first home game.

As a formal concert has been scheduled for an early date, work is beginning on the program for this event. Although some of practice time is spent playing marches, the greater part of the rehearsal period is given to work on the concert repertoire.

HAD RAPID GROWTH

The band, as an organization, and in its present form, began in 1931. In 1931 it had only thirty members; in 1932, forty members; and last year, fifty-six.

This year, if Mr. Michelsen's expectations are fulfilled, we will have a full seventy-piece concert band.

STUDENT DIRECTORY BEING COMPILED

(Continued from page 1, col. 4)

for the coming year as well as the full name and address and telephone number of all the members of the faculty. Each student who had only completed his registration cards will find his name, year in college, home address, city, address and telephone number listed.

Every student and faculty member should have a copy of the directory in hand throughout the entire year.
SOCIETY NEWS

Tau Gam Tea
The Tau Gamma Beta sorority will open its social season Saturday afternoon when its annual tea party will be held in the Home Economics dining room. A cordial invitation is extended by the sorority to all college women, faculty women, and faculty wives.

Sigama Zeta Party
Sigama Zeta, National Science Fraternity, enjoyed a social evening last Tuesday evening when it convened for its first meeting. An enjoyable program was presented, followed by refreshments. Richard Schwan is Master Scientist of this group, while Mr. Rogers is advisor.

Y. W. C. A. Meets
The first meeting of the Y. W. C. A. will be held at the Nelson Hall extension room Wednesday evening at eight o'clock. All Protestant college and faculty women are cordially invited. This meeting is particular-ly important as plans for the coming year are to be formulated.

Luther League Entertainments
The Luther League of the First English Lutheran church sponsored an evening of entertainment in the Church Parlors, Wednesday evening. This gathering was to stimulate interest and companionship between college students. Many such gatherings have been planned, and it is hoped they will be as well attended as the first.

W. A. A. Party
Who's who in the women's sport world was discovered the other day at the W. A. A.'s well-considered and pleasant gathering. plans for this evening was to stimulate interest and companionship between college students. Many such gatherings have been prepared and will be held as well attended as the first.

Farewell Party
The Zeta Lambda Beta Sorority tendered Miss Audrey Wehr a farewell party last Tuesday evening. Miss Wehr will shortly make her home in Milwaukee. She will appreciate the appropriate going-away gift by the sorority. Velma Scribner was the hostess for the evening.

Loyola Club Party
Loyola Club members have a treat in store for them on September 21, when they will be guests at a dancing party given by the Columbian Squares of St. Stephen's Church. Many plans have already been made and the Loyola club look forward to an enjoyable evening.

ALUMNI NEWS

During the Home Economics Club picnic at Race Park last Thursday, the last week in June this summer, there was held a very enjoyable meeting of the Alumnae of this college.

They met on Thursday June 28 for luncheon at the Susam Palmer Tea Room on West 49th Street to discuss a fourteen down to the table, and after a most delicious luncheon, they spent some time reminiscing about old times. They decided that a C. S. R. reading of the newspaper clippings which Miss Fenwick had brought with her describing the Fortieth Reunion at Stevens Point. Everyone at this meeting expressed a hope that the meeting would be better attended than the first.

Vanishing Points
There were 15 Monday afternoon for archery, Evelyn Dun- kison taking charge of it this year and promises us a lot of fun. With a lot of competition, Dr. Culver has given to W. A. A. a prize for the girl making the highest score in a Columbus Round. If you don’t know what is coming out Monday night 4 o’clock.

Hockey
Field hockey, our major fall sport, is scheduled for Wednesday evenings with a first night to be decided. With eleven members needed for a team we can use a heap of players.

Greeks Meets
The Greeks held their initial meetings last Thursday to formulate plans for their program. President Myer, Dean Steiner, and Miss Steiner will form at eight o’clock. Ray Jacob's orchestra will play for dancing.

MRS. A. R. SPINDLER

W. A. A.

The townspeople gazed with wonder when they saw the horde of women marching down Fifth Avenue. The last of the five college girls hiking out towards Wyckoff Park on Tuesday afternoon. This opening spree of the Women’s Social Education Committee was a hit for all old girls had the opportunity of renewing friendship as well as becoming acquainted with the younger set. I must say, a peppy lot. With them to help us, this year is going to be one of our busiest and happiest. Sizzling hamburgers, doughnuts, coffee, and apples made up a satisfying menu and called for after dinner speeches. Ruth Wagner, 1934's president, introduced the sport heads, each of whom told about the high spots of their particular division. After a few days were spent at home hoping that each girl might have discovered some sport she was interested in and would join us in our fun during the year.

Archery
The fall sports were begun this week and with a great bang. There were 15 Monday afternoon for archery, Evelyn Dunkison taking charge of it this year and promises us a lot of competition. Dr. Culver has given to W. A. A. a prize for the girl making the highest score in a Columbus Round. If you don’t know what is coming out Monday night 4 o’clock.

Tennis
A fall tennis tournament that will help line up girls for spring competition has already been organized by Maxine Miner. Those who are entered are: Lohla Week, Eleanor Crumney, Nina Belle Damon, Edith Gottschalk, Marian Gaffney, Dorothy Weber, Eileen Hanson, Helen Gielsberg, and Magdalene Wolf. It will be pleasant, though probably not actual- ly, hot, on the courts for some time to come; the last inch of life out of this summer’s balls.

Hockey
Field hockey, our major fall sport, is scheduled for Wednesday evenings with a first night to be decided. With eleven members needed for a team we can use a heap of players.

Riding
Miss Gilbert announces that there are special riding rates given to college students this year as in preceding years, providing they are members of a certain school. Physical education credit is given for this. All those interested in a class with instruction see her this week.

Greeks
The Greeks held their initial meetings last Thursday to formulate plans for their program. President Myer, Dean Steiner, and Miss Steiner will form at eight o’clock. Ray Jacob’s orchestra will play for dancing.

Physical education classes promise to be fun this year. They will contain tennis, archery, hockey, games, and dancing. The latter is a field in which Miss Gilbert is much interested and well prepared; and she expects to

One hundred forty teachers from the rural and graded schools of Fortage county attended the Fortage County Teachers Institute, held here in the main assembly Friday, September 14. Miss Marion Bannach county superin- tendent of schools was the hostess of the convention. She was assisted by Miss Rowena Allen, the supe-rvising teacher.

Mr. Neale, head of the rural department of C. S. T. C., spoke to the assembled teachers. His topics were: “Citizenship in Our Schools” and “Our Courts” in the morning session of the assembly, and in the afternoon he addressed them on “General Plan for Teaching a Picture.”

Fine Attendance
All of the rural and graded school teachers of the county, and the high school civics teachers, were present at the Institute. According to Mr. Neale, “The attendance was perfect.”

Miss Bannach also remarked, “We were unusually fortunate in having Mr. Neale with us,” and that the interest and politeone displayed by the teachers throughout the institute.

Training School Enrollment Equals Last Year's

On September 11, the same day that college students enrolled, the Training School held its enrollment and examinations. Classes began on Wednesday, the 12th. Of the former faculty, all but one except Mr. Davidson and Miss Brown.

According to available figures for enrollment, this year’s student body will be somewhat larger than that of last year. The figure this year was 245, in com-parsion with 240 on the corres-ponding day last year. Although the 1933 total enrollment was 251, 6 more than now, it is ex-pected that subsequent arrivals will cause the enrollment for 1934 to exceed this figure. At present, the number of students in each di-vision is as follows: Primary, 82; Intermediate, 84; and Junior High School, 79.

Painters have been busy for some time now repainting the stairways and halls of the school. The library is undergoing a few important changes.

The work up, in addition to tap and folk dancing, some natural dancing in which the body is used to express emotions. It is characterized by larger and more free movements than tap or ballet, and in addition facial ex-pression is used. Dances to por-tray characters called character dances will also add to the pro-gram. In the spring, tennis, softball, archery, and track will again be taken up and complete the program.

County Teachers Met Here Friday
Locals at St. Cloud Saturday

Prospects Not Very Bright

Ray Nugent

Nugent Fails to Return:

Frank Menzel Back

Central States Teachers College will open the 1934 fall season at St. Cloud, Minnesota, where they will play Saint Cloud College this week-end. The Saint Cloud Teachers headed their conference last year and were undefeated and untied, rolling up a total of 109 points to their opponents nineteen, meeting and defeating Hamline, Duluth Teachers, Jamestown College, Winona Teachers, Mankato Teachers and Saint John of Minnesota.

Menzel Back

The opening of the season presents a picture of varied aspects. Good news out of the football camp has to do with the return of Frank Menzel to college and the squad. Ben Stelowski and Jim Quire are also most welcome additions to the Pointers.

Much Bad News

Perhaps the most disconcerting note is the failure of Ray Nugent, 1933 all-conference fullback to return to school. Ray has entered the C. C. C. Camp and recently received a promotion; because of this fact Menzel deems it advisable to re-enter school at least, this semester.

George Breitenstein, a pal of Nugent, who was a capable reserve end, has obtained a job in the city which will not allow him to return to school. The absence of these two men will be sorely felt.

The Pointer camp has not been entirely free of injuries. Milton Anderson is ailing with a trick knee; Becker has a bad ankle and knee; McDonald, Unfetter and Beppler have varied leg injuries. These injuries may keep the men from the lineup Saturday.

Large Squad To Go

As the Pointers swing into action the starting lineup is still in doubt. A large squad will make the trip to Saint Cloud, and many of the new men will be called upon during the course of the game. During the practices this week Becker, Beppler, Murray, Fritsch, Chartier, Steiner, Johnston, Unfetter, Lame, Benson, Dagnanau, Anderson, and Zarufh have been used in the backfield.

Ted Menzel, Bob Broome, Frank Menzel, MacDonald, Sparhawk, Copes, Olson, Ben and Bruan, showing some marks in conference games.

Football Schedule for 1934 Season

As Seen From the Sidelines

Random Practice Thoughts

Was surprised the other evening — took in football practice at Schneebeck Field — about two and one-half hours... quite a bit to it... numerous lumbering up stunts... other drills on fundamentals... some still pretty red in the face. Kotal’ll take that out of ‘em... occurs to me that football players are like actors in a big play... the public sees ‘em on show day... day of the big game... surrounded by tinsel... glamorous... excitement... suspense... outcome in doubt... applause for the hero in the play (home team)... Bruxn cheers for the villain in the play (referee or possibly other team)... a dramatic spectacle... but public “little note nor long remembrance” that, just as the actors in a play put in long, wearisome hours and days of rehearsal to be at their best for the day on which the foot- ballers put in long, tortured hours... rehearsals in signals... fundamentals... in late summer sun... a grind from late August to middle November... that’s football routine.

Schwahn Assists Coach Kotal

Dick Schwahn, captain of last year’s undefeated football team, and sterling end during the last three goldennears in Pointer football history, has been appointed assistant football coach, and will work with Coach Kotal in developing line material. Dick has always been a consistent performer, especially adept in the blocking game. His many friends will be glad to learn of Dick’s continuance in the field where he has won many laurels in the past.

Cross Country Team Drills for Meets

The College cross-country team has been working out daily in preparation for the coming season. The opening meet will occur here on September 28, with the La Crosse boys furnishing the competition.

Lyman Scribner, E. Bull, F. Miller, and S. Yacht are veterans of last year. Scribner placed second in the national junior ten-thousand-meter run held during the past summer.

New comers on the cross country grid are Christianson, Grandowski, Siegle, McGinley, Laczewski, and Litzerski, all experienced runners.

College Gym Floor Gets New Coat

The floor of the new gym has received a complete renovation. The lustre it now sheds is the result of a reafforestation of the old gym and the new type long-wearing Bake-lite finish. A floor seal of exceptional qualities according to the contractors, who profess the belief that its application has put the floor in better condition than it was at the time it was built. If environment is any criterion our basketiers this year should be unbeatable.

Caudalities and Overconfidence

Ray Nugent, pile-driving fullback has not returned... Abel, last year’s great end prospect has switched elsewhere... Schwahn, Gregor, Maxfield, Seibel, and Roy are gone... Mr. Herman Kluge, auntie coach of the Milwaukee Teachers, deposes his own prospects, predicts pennant for Purple and Gold. Gil Dobie, old Cornell coach, wore out seeds of crying towels, “viewing with alarm” his own teams’ prospects, while opposing coaches wore out many pairs of pants sliding around on benches as Dobie’s teams ripped the opposition to shreds. “Gloomy Gil” — that’s what they all called him — but somehow when it came to figuring up championships Gil was way ahead of the field. We refuse to feel convinced, Mr. Kluge.

Gone But Not Forgotten

Francis Roman, class ’32, is now an instructor and coach at Marathon City. “Larry” Bishop is located at Westfield, where he holds a high school position. Theodore Rozelle, one time editor of the Pointer here, is an instructor in the Wausau Junior High School. George Maurer, ’34, is studying law at Illinois.
Night Football
At Wausau Hi

The followers of the Cardinal clad Lakers will have an opportunity to enjoy football as a nocturnal pastime during the coming season. On Sunday evening the field was flooded with lights for the first time and Wausau athletic and electric officials expressed their pleasure and satisfaction over the type of illumination provided by the 72,000 watt system of forty-eight reflectors, each of which costs $1,500. Other Wisconsin Valley Coaches congratulated "Cuppy Ewers, Wausau athletic head, on the "Globe" in football, although Dame Humor hath it that some valley coaches are balking, saying that continuous practice across the Wausau bay to the areas, giving them a decided advantage over opposing teams, unused to night huddles (on a football field). Possibly the day will dawn, or more accurately the night will fall, when C. S. T. C. will have floodlights on Schmeeckle Field.

Russell Bepple ("Beggy"), hails from Neenah, and lives at 976 Main Street in this city. Bob has absorbed a lot of football under Coach Ringland at Stevens Point High School. Bob was the regular catcher for the Stevens Point Lakers, and has been a member of the varsity team during the summer months, and he also took part in playing Schmeeckle Field in shape, in addition to attending Camp McCoy at Sparta with the Stevens Point unit of the National Guard. Bob weighs 175 pounds, is nineteen years of age, and is chosen all-conference center last season, and also holds rank as C. S. T. C.'s outstanding radio crooner.

Oscar Copes, who is as big as Beppie is small, is the heaviest man on the squad. He worked out at his dad's hardware store at Tomahawk during the summer months. His school address is 1104 Strong's Avenue. Oscar played baseball during the past summer with the Road Lake Athletics, who tied for first place in their league. Congratulations to this nineteen-year-old, and the line is his favorite scene of action.

Myron Fritsch served as chef cook for the Libby, McNeil Libby Company, of Chicago (McMahan Fine Foods) in their canning factory at Dorchester, Wis. Besides a practiced versatility with a skillet, Fritsch also shines in the weight events on C. S. T. C.'s track and field team every spring. He is out to cinch the full-back position left vacant by the non-arrival of Nugent, last year's all-conference fullback. Myron's home is at Spencer, he is twenty-one years of age, and weighs 155 pounds.

Charlie MacDonald, another athlete who worked a lotta football under Coach Ringland at Stevens Point High School, "Chuck" and "MX," it is called, bearing in addition the distinguished appellation of "Jelly Bean" by his teammates on 104 Superior Avenue. Mac spent the summer in construction work, beginning in the men's section at C. S. T. C. He also played softball with the New Empire Team, Champions hereabouts, and hard ball with the West Side Team, members of the Central Amateur League. Mac donald weighs 175 pounds, is eighteen years of age, and was a regular infielder on the undefeated football team last year.

"Jug" Marsh lives at 501 Ellis Street in this city. "Jug" played with Stevens Point Dezel's baseball team and states that his team lost the championship when the game already entered as won was later declared forfeited. Tough luck! Marsh was another member of the Stevens Point Pointers, at camp McCoy. Marsh weighs 174 pounds, is twenty-three years of age, and has been a member of the basketball team during the last two years, including the championship team of 1932-33, which won twenty-three straight games, and the team of last year, which came within a game of winning the championship.

"Tell" Menzel's permanent location is at 805 Normal Avenue. He spent last summer pumping gas at Delzell's Oil Station, and also played ball on the team which represented that company. Menzel finished second in the league. Menzel weighs 150 pounds, is nineteen years of age and was selected as an all-conference tackle last year.

Bruno Slotwinski, of 216 Whiting Street, and Ben Slotwinski of the same address had varying fortunes during the past summer. Ben was at home, "laboring in the vineyard"; and he played ball with the West Side team in the Central Amateur League, a team which finished the season in second place. Ben is a lineman and weighs 165 pounds, is twenty-one years of age. Bruno had the good fortune of being able to make a canoe trip down the Wisconsin and Mississippi rivers to Dalouge, Iowa, and also a trip to the World's Fair; Bruno also spent a month and a half in the C. C. C. He weighs 182 pounds, and is a lineman.

Donald Unferth, of 126 Spruce Street in this city, and strongest and best informed "Chub" backer in the school, witnessed a number of baseball games in Chicago during the summer, in addition to pitching for the Dezel's; Don is a partisan tweeder of no mean ability. He was a member of the basketball team last year and high scorer, also pitched several fine games for the Colleen Club; he is not a backfield man, weighs 152 pounds, is twenty years of age.

Ronald Murray (Ron) of 214 South Michigan Avenue, hails from Gladstone, Michigan. He attended the National Guard campment at Sparta, and also dropped several Aid Scout chisagames, Michigan. Murray was a member of the backfield unit last season.

(Two more "Sports Personalities" next week.)
Junior Pointer
Staff Members
And Hustlers

Never before, in the history of the Training School, has there been a finer exhibition of unusual co-ordination, artistic talent, and a more rapid display of enthusiasm with which the first edition of this year's Junior Pointer was put out.

The staff are headed by Editor Jessie Ripton, with William Miller as Business Manager, Neva J. Busston as Advertising Editor, and Edward Haas taking charge of the Cartoons. Cartoonists include Jean Ripton, Douglas Wright and Richard Wardon; and Audrey Barge "covers the waterfront" to bring the low down on the entire building.

New and Useful

This paper not only contains news of the school at present, but it also lists the rules which are upheld within the building and which might prove valuable to you practice teachers. Of course, one of the highlights of the paper is the humor section. If you don't add some new stories to your collection, well — you should be demoted to the Training School.

The staff of the Junior Pointer should be complimented on its industry, ability, and cooperation in turning out a real piece of work.

College Students
In Smash-up
John Verrill, an 18 yr. old C. S. T. C. freshman, enrolled in the High School Dept., and Clair Brunner, a C. S. T. C. graduate, were seriously injured in an automobile accident Sunday night at 11:30 P. M. Verrill suffered concussion of the brain, probable skull fracture and lacerations of the forehead. Brunner received a fractured left arm, cerebral concussion, and lacerations of the nose and forehead. According to attending physicians, both have a fair chance to recover, unless complications arise.

At Local Hospital

According to witnesses, the car driven by Verrill sideswiped an auto, continued on for several hundred feet, and struck the car in which Brunner was riding. The other persons were not as seriously injured as Verrill and Brunner, but all were taken to St. Michael's Hospital, where doctors worked over them practically all night.

Bob Neale Elected Rural Life Prexy

Rural Life Club, the most active of the professional organizations, held its first meeting of the year last Monday evening. A splendid attendance started the year's activities with a bang. A well-planned program was followed by election of officers. Those selected to guide the destinies of the club for the first semester of the 1934-35 year were: President, Robert Neale; Vice-president Ruth Wagner; Secretary, Maxine Olinberg; and Treasurer, Eino Tutt. Robert McMillan, former president of the club, spoke briefly on the program for the coming year and the benefits to be derived from the organization by each member.

Many Neighboring Prep Schools To Receive Each Week's Pointers

A new scheme of familiarizing surrounding high school with our college and its activities has been introduced by the publication department of our school. Over fifty high schools in this part of the state will receive a copy of each week's Pointer. The plan is the result of a suggestion of Mr. Knutson of our college faculty, and he cooperated to compile a list of high schools which are to receive the Pointer, and whose graduates will be taking part in this school's activities in years to come. The initiation of this plan, further burdens the work of the circulation manager, but Mr. Ruh simply smiles and says, "Bring them on."

HUMOR

"Have you heard of this new method of learning French in nine easy lessons?"
• Bingo — Here's that half-dollar I borrowed of you last week.
• Stingo — Great Scott, I'd forgotten all about it.
• Bingo — Why didn't you say so and then I could have kept it.
• Diner (who has ordered tea) — What do you call this stuff anyway — tea or coffee?
• Waiter — What does it taste like?
• Diner — Paraffin.
• Waiter — Then it must be tea — the coffee tastes like gasoline.

"Doesn't it madden you when a girl is slow about getting ready to go out to dinner with you?"
• "It's the longer she takes the hungrier she gets." — Neighbor (to young fellow who has just taken up the saxophone) — What's the matter? Your playing has bellowing of a sick dog at a skunk's picnic.
• Saxophonist — I don't know what's the matter with my instrument. I blew it sweet but it comes out rotten.

"We don't know, and neither does anyone else, what the outcome of the football season will be. We know who wins, who loses or draws, the team that Kotal puts on the field will be well grounded in the fundamentals of the game. But boys will tackle low and hard and their blocking will be vicious."

There are four outstanding reasons why we have had successful athletic teams since President Hyer ushered in his New Deal about four years ago. First, a man of Kotal's standing in the field attracts great prep school material. That may be done with or without conscious effort on his part. Probably both. Second, that material is well taught. Third, the coach has the personality to handle a bunch of stars and make them work together. He has an intuition which tells him when to humor and when to bully a two hundred pound gaint. We believe that championship basketball squad, every man an all-conference man, he demonstrated that quite conclusively. It would be foolish to assume that those fellows were not human and that petty jealousies did not arise from time to time. In a tough eighteen game schedule under those circumstances the strain must be terrific and the least little discordant note might follow with a general crackup. Fourth, the cooperation of local business men has made possible the support necessary to winning aggregations.

"Tis bitter so "Tis sweet to love, but, oh, how bitter to love a girl and then not get her! Yet, sometimes, having got her, oh, Tis bitter that you can't let go.

the amount of money students spend in Stevens Point annually, and for what purpose. While information of this type has been gathered in the past, times have changed and what was true four years ago is apt to be wrong today. Some business men appreciate the value of this institution to the city. In fact, most of them do. A few, however, do not. A little proof might help when out soliciting advertising for the support of school projects.

Last year, in the last issue of the Pointer, we wrote a "Bed Time Story", while no names were mentioned, the veil of courtesy was so thin that there was little doubt as to whom the hero and heroine were. Those parties, still in college, are-disgusted with the writer, even after three months vacation. One of them has suggested that we write a public apology. Consider this as such.

EVENING ENTERTAINMENT PROGRAM
Central State Teachers College, Stevens Point, Wisconsin
Season 1934-35

Class Officers To Be Elected To-day

After a short general assembly the classes will adjourn to their allotted rooms today to select their officers for the present term. Intense rivalry and competition are again expected to lure every class member to the scene of the balloting.

The president of the Senior Class plays the role of Junior King (or Queen), and the Sophomore class is known as the Senior Ball, one of the features of the social calendar, and has numerous and varied responsibilities — the senior class play, the seniors' gift to the school, class and commencement day exercises are only a few of the reasons why senior officers lose weight and add grey hair to their prized collection.

The president of the Junior Class plays the role of Junior King (or Queen), and the Sophomore class is known as the Senior Ball, one of the features of the social calendar, and has numerous and varied responsibilities — the senior class play, the seniors' gift to the school, class and commencement day exercises are only a few of the reasons why senior officers lose weight and add grey hair to their prized collection.

Class Officers To Be Elected To-day

After a short general assembly the classes will adjourn to their allotted rooms today to select their officers for the present term. Intense rivalry and competition are again expected to lure every class member to the scene of the balloting.

The president of the Senior Class is automatically king (or queen) of the Senior Ball, one of the features of the social calendar, and has numerous and varied responsibilities — the senior class play, the seniors' gift to the school, class and commencement day exercises are only a few of the reasons why senior officers lose weight and add grey hair to their prized collection.

The president of the Junior Class plays the role of Junior King (or Queen), this prom being the greatest of the school's social affairs. The sophomore prom has a real job on his hands in the form of guiding a junior class which seems destined to shatter all records and precedents set by the classes which have preceded it. And the Freshmen who are attempting to entrench themselves deeply in the school's activities must choose capable leaders to guide their ship of state to the front.

Science Department Has Bumper Crop In Labs

The steady increase in enrollment during the last few years, and a new rule requiring eight hours of laboratory science in the Junior college has caused a great increase in enrollment in the various science courses. The enrollment figures have jumped this year to 180 students in Biology 165 in Chemistry, and 82 students are enrolled in Physics.

Handling all of these students in the laboratory and placing them in sections is a great problem. Miss Jones, of the Biology department, commented, "It's a Chinese puzzle to find laboratory accommodations, but arrangements satisfactory to all will be made." Other science teachers share Miss Jones's view.
