**CAGERS AT OSHKOSH TOMORROW**

### ST. OLAF DEBATERS

**DISCUSS SUPREME COURT HERE**

The local debate season was ushered in last Monday with two debates between St. Olaf’s college and C. S. T. C. The St. Olaf’s team, composed of Alvin Nelson and Edward Gunberg, met the local negative team, made up of George Hryer and Arba Shorey, at eleven o’clock in room 109 before Mr. Knutzen’s English class and Mr. Burrough’s speech class.

In the afternoon the men from St. Olaf’s met an affirmative team of Virginia Watson and May Becker. The debaters were non-decision but Rev. Philip Dydvig of Stevens Point gave a critical discussion of the controversial and remotest arguments.

The St. Olaf boys were to appear over the College Radio Hour but last minute difficulties caused the cancellation of plans. They will immediately for Oshkosh to participate in further debates.

---

**Chi Delta Rho Formal Saturday Night**

The members of the Chi Delta Rho fraternity, their friends, and ladies will cavort together in social hilarity on Saturday evening at the Hotel Whiting where the fraternity members including the welcomed alumni and ladies will first gather for the annual banquet at 6:30 P. M. in the main dining room. This will be followed by an evening of dancing to the music of Jimmy Jenney and his well known dance band. Admission to the dance is open to all students and their friends. Bill Theisen is in charge of the invitations; Frank Menzel is the general chairman.

---

**Science Ass’n Honors Rogers**

Professor Thomas A. Rogers, of the faculty of this college, has just received notice that he has been elected to the American Association for the Advancement of Science. Mr. Rogers is an instructor in chemistry here and is a member of the Zeta chapter of Sigma Zeta, National Honor Society in Science, S. C. C. Charles Watson, also of the faculty, recently attended a meeting of the American Association. He has been invited to the national meeting during the holiday season.

---

**Mr. Burroughs on the Air Today**

Mr. Burroughs announces that a new college radio program called “Clean Winged Heart” will begin this afternoon at three o’clock. The program is novel in that no announcements will be made thus giving a continuous performance. Mr. Burroughs will read six or eight household poems for different backgrounds by a quartette from the Glee Club. The program will be given every Thursday at three o’clock.

---

**Mundy Singers to Appear Wednesday in Auditorium**

On the auditorium stage, January 15, the famous Mundy National Jubilee Octet appears. This group appeared under the personal direction of James A. Mundy, famous Negro choral leader and composer at both the 1933 and 1934 World Fairs and featured the solo work of Claire Malone, the soprano who starred at the 1934 Music Festival in Chicago.

This group of singers will sing every type of negro song—the beautiful spirituals, the chants and plantation melodies of the southern negro. During a part of the evening’s performance, the singers will be dressed in a special plantation costume.

**Students Are Invited**

This group is one of the most famous of negro organizations and has appeared in various homes throughout the United States.

Their performance here should be a delight to all. Student tickets may be obtained from the office for the asking.

---

**Radio Gang Opens Season**

At 3:30 Monday in the college auditorium, the first “College Radio Hour” of the new year was introduced. Many of the components of the versatile personnel seemed to have been either post, strayed, or stolen during the Yuletide vacation; nevertheless, the program was greatly enjoyed by all.

**More Faculty Interviews**

Jack Burroughs announces that the new 1936 broadcasts will be of a little different nature from those which have been witnessed in the past. Each week, an organ of the new 1936 broadcasts will be featured in a novel manner. This

**Wisconsin Teachers to Meet Wednesday**

Next Wednesday, January 15, there will come to this college about 60 school masters from this section of the state for the first meeting of the Central Wisconsin School Masters Association. The visiting school teachers will be given a dinner at Nelson Hall to get the program. Mr. Edgar Doudna will be the main speaker of the day.
Grist From The College Mills...  

COLLEGE ATTITUDES AND POLITICS...  

There is, I believe, amongst American undergraduates a lamentable indifference to politics. That indifference is engendered by a kind of defeatism which is unworthy of the younger generation. They look out upon a world so confused and so bewildered that they put the blame on their elders during their shoulders, and dwell largely on the corruption and inefficiency of American public life. Their attitude toward politics is a good deal like that of the small boy who defined water as "That stuff that turns black when you put your hands in it."—President Hills, Beloit College.

There is absolutely no excuse for the lethargy and the indifference of our undergraduate body. Of course if they pegged it that way, this is a free country, and let them go ahead and play their little games and yodel their little songs and open a new coin coat with a new girl and talk vagabondry of the money they will make as a broker when conditions have improved. But then the blame alone themselves if some fine day they find themselves where the young men of their own sort in Berlin is now standing themselves after the upheaval in their country—on the sidewalk. And that is only putting it mildly. Most of them were underneath the sidewalk.

The unexpected is the only thing that ever happens in this world, and there is only one way to prepare for the unexpected—by making it expected.—Hendrik Willem Van Loon.

COMMENT...  

It all goes to prove that with 10c and a college diploma one can get a cup of coffee anywhere.

THE VOICE WITH A SMILE...  

We hear by remote control that the girls in a certain college at the University of Wisconsin now have placed little placards up beside the phoses in the house. The placards say, "Geniuses, guests will please not answer calls." It is a development of an embarrassing situation of last spring. One day the deus of women called the boarding house and a deep masculine voice answered, "'Third Floor'"—La Crosse Ecclesi.

FOR SALE... ONE FOOTBALL TEAM...  

"An interesting solution to the problems confronting the athletic directors of small colleges was offered by the alumni of the Cardinal of the University of Louisville. They suggested the outright purchasing of a good football team, rather than secretly inducing the present director with a promise of soft jobs and fat scholarships. As businesslike as their proposition might seem, it nevertheless is not applicable to the athletic situation as it exists at the Lawrence campus. Much more feasible would be the complete abolition of inter-collegiate sports and the replacement on intramural athletics. To get good teams, as the editors of The Cardinal suggests, it is necessary to pay for them, and all colleges of Lawrence is not able to afford that expenditure."—Law.

What to do! What to do!?

TRICK PLAY...  

What?! ... This may be entering the field of my friendship (Arch W. Rodermund, the story is too good to waste. It seems that the Cornell coach was rather disgusted with Beloit's play in general, so he put one play that impressed him. After the game he was heard to ask, "Say, what is that play where the weak-side end sits down"—Beloit Round Table.

MEN...  

The man who cannot afford to get down off his perch and move about among his fellows is wasting his time at a modern university. All the wisdom and learning that he may accumulate will not save him from a fossilized old age.—McCull Daily Sun.

A NEW ATTITUDE...  

Anyone who has seen Knox play or practice this year couldn't fail to notice the different attitude among the players. It is that undefinable, yet ever present, something found on all winning teams. When confronted with his new acquisition, Donaldson stated that "There is a new spirit among the fellows this year. You can't name it, yet you know it's there. The strict twosome has been in and out this year has kept going to prove it is there." Good coaching, good material and competition; good spirit among the players, and the students, and a spirit of cooperation between the players, and between the team and the student body—these are the things to which Donaldson attributes the return of Knox to basketball prosperity."—Beloit Round Table.

STOUT "EICKS" FEATURE...  

Kicks, men students, constructive comments, deals, squawks, and directors will be intermingled Wednesday, Dec. 11, at the YMCA sponsored "Kick Session," to be held in the club rooms at 7:30 p.m. Dean Bowman, Dr. J. E. Grinnell and Dean Price will be there to "take it", providing the fellows are there to "give it".

This is the rare opportunity for the men to go into an "executive" situation and get that load off their chests. The administrators report that they are anxious to help the students but just must have an expression of it.

W. E. Giese, who is general chairman of the meeting, reports that a program has been formulated for carrying out the remedial proposals made at the meeting. It remains for the men to come to this kick session and express their views.—Stoutino.

FIGURES DON'T LIE... But...  

A request has been received on how many days one should work a year here is there are 365 days in the year—if you sleep 8 hours a day that accounts for 127 days, leaving 243 days—and if you play 8 hours a day, that's 122 more, leaving 121 to be accounted for—but there are 52 Sundays to be taken out, so leaves 69 days—and you are entitled to a half day off Saturday, or 26 days, leaving 43 days—but your half hour off for lunch each day accounts for 28 days, and that leaves 15—naturally you take a two weeks' vacation each year—so you have one day left—but that day is Labor Day and you don't want to waste that in your hat.—The Dartmouth Jack-O-Lantern

JAZZ IN HELL...  

Jazz has become a species of inebriation, said Prof. Carl Weity of Beloit college in a chapel address Tuesday morning. "The oddest excess on the campus is jazz, not jazz-music, because there is no such thing," he said.

"When music becomes more than 90 per cent 'jazz,'" he stated, "and the constant immersion in jazz as a musical diet will eventually deaden one's sensitivity for good music,", he said.

Mr. Weity contended that since students allow their food diet to be scientifically prepared, as far as calories, vitamins, and roughage is concerned, it is logical for the college to give the same treatment to the given to the musical diet. He would include Beethoven as an important ingredient.

"Every man has a leverage right to go to hell, and musical hell, if he wants to," said Mr. Weity, but he explained that one should understand the effect of constantly listening to jazz before he should allow himself to be deadened by it.

A MOVEMENT TO PRESERVE OUR WILDLIFE FOR POSTERITY...  

"Four reels of the all-school movie have been made by a committee of the student advisor of the Strut and Fret, said this week. This movie is planned as an advertisement for Eau Claire State Teacher's college, to be shown under the auspices of Strut and Fret. In making up this movie, all activities of the school will be included, as well as all organizations, recreations, and representatives of the various classes. Action shots of all the outstanding events of the semester will furnish high points of interest. It will probably be the best movie ever made—it will be the pictures for this movie," continued Dr. Davenport. "Then the movie will be sent to the different high schools to be shown to the students.

This movie will give an insight into student life at Eau Claire State Teachers' college. It will contain shots of athletes, of Forensics, of some of the classes, of some of the actual meetings and activities of some of the organizations.

The purpose is to show prospective students of Eau Claire that the college is the school life. It will acquaint people with Eau Claire State Teachers' college and will aid in acquainting other schools with the type of work done here.—Eau Claire Spectator.

(Continued on page 6, col. 4)
Sorority Formal Next Week
The Tau Gamma Beta Sorority formal will be held at the Hotel Whitling on next Saturday evening, January 18. Music will be furnished by Charles Brinckley’s orchestra, who will be remembered as having performed acceptably here in the past. Miss Barbara Joy is in charge of the invitations.

Party at Nelson Hall
Last Monday evening at ten-thirty p.m. the girls of Nelson Hall held a Twelfth Night Party. In spite of the lateness of the hour, the girls had a very good time; no doubt the bountiful refreshments contributed much to the success of the evening.

Y. W. C. A. Will Meet
The Y. W. C. A. will meet this evening at 7:30 at Nelson Hall. Miss Coleman will address the group at this time. It is necessary that everyone be present as the Iris pictures are to be taken.

JOURNAL SOCIETY EDITOR TO SPEAK BEFORE PRESBYTERIAN CIRCLE
Mrs. Dorothy Dunn Hoffman, society editor of the Stevens Point Journal, will speak Sunday evening at a meeting of the Presbyterian Young People’s Getting Acquainted group. Her subject will be “Journalism As a Profession.” The talk will be one of a series of vocational guidance talks to occur in the church parlors each Sunday evening at 8:45 o’clock. Succeeding talks will bring representatives of other professions before the group. All college Presbyterian young people and their friends are invited to attend.

“Good night,” he said, “my little girl; Good night, I’m going now; Good night.” He pushed the wavy locks back from her upturned brow. “Good night, good-bye; I’m going now.” He turned to go, and then, He closed her close, and with a kiss, Began it all again.

—La Crosse Racquet

**MEN’S GLEE CLUB SMOKER TONIGHT**

The Men’s Glee Club this week resumes work after a two weeks rest in preparation for the spring concert and for programs while on tour. A group of excellent numbers has been ordered and will soon be ready for use. Tonight the glee club plans to hold a smoker in the Gingham Tea Room as a get-together to start the new year right. Cards, smokes, and eats are on the program for the evening. Don’t forget the chess board, too, you chess friends.

Following eating of the lunch, each member will tell of his New Year’s Eve experience.

**PROFESSOR FAUST A BAND MEMBER**

The C. S. T. C. band has a new member in the person of Gilbert Faust. Mr. Faust, it will be remembered, is Chemistry assistant in charge of the laboratory. Mr. Faust received his band uniform last week. He accompanied the band in its Marion engagement. It is not known at present whether what instrument Mr. Faust plays, but if his versatility in the many fields, in which he is now interested can be considered evidence of his ability in the musical field, his success will be assured.

**OUR FOOLISH CONTEMPORARIES...**

It Was The Dean’s Move...

A few days ago an announcement was made to the students on the McKinlock campus of Northwestern University. A voice class for amateur harmonizers was to be opened on the ninth floor of the Ward building.

One day after the class began the dean in charge moved his office from the eighth to the first floor.

POINTER BEAT SAINTS 43-20

ST. NORBERTS BOW TO POINT 43-20

Central State's basket ball team came through with its fifth non-conference victory in a row by sweeping St. Norberts Monday night 43-20. The Pointers had defeated St. Norberts at De Pere and Ontonagon last. Tonight's game was the first time Stevems Point was out in forward 22-12.

Unfert's long shot gave the Pointers a 2-0 lead soon after the game started. Spychalla pushed in one from the side to tie the score. Stevens Point then spurted and ran the score up to 14-5 with five minutes remaining in the half. At this stage Kotal called his reserves to the floor. Two baskets by the Green Knights set the score at 14-12. Coach re-inserted his starting line-up. Lindow dribbled in for a pot hot to lead a rally which gave St. Norberts a lead of 22-12 at half time. The locals had already scored sufficient points to win the game...as the second half began.

Baskets by Nimz, Unfert, Johnston and Lindow, along with two charity tosses by Nimz shot the Pointers far out in front 25-12 in the second half. Kotal put his third line of defense in the game at this juncture, and then followed with his second give, adding to the score. With but a few moments remaining in the Pointers led 39-18. Lindow and Nimz scored from under the hoop, while D. Scovel tallied for the visitors. The game ended a few seconds later, the final score Point 43; St. Norberts 20.

The Pointers played spotty ball showing a lot of class at times and then skipping back into ratted form again. Fred Nimz was the leading point getter with ten tallies.

Stevens Point attempted sixty shots, making good on seventeen of these. St. Norberts was successful in nine of its thirty-one shots.

Now For Oshkosh

Points To Face Oshkosh...

Sparks are certain to be flying tomorrow evening down in Oshkosh. An Oshkosh team is a tough proposition to face anytime. Especially so in this back stretch when they will be playing in their own tricky gym. The playing floor is a long, narrow affair resembling enough, a bowling alley. Last year, with the championship hanging in the balance, Stevens Point played at Oshkosh. The Pointers won 27 to 26, in a game that was just as thrilling as the score indicates. Oshkosh seldom suffers defeat on its home floor. Bob Kolf's team won't be in the mood to lose to Stevens Point again before the home folks. Incidentally, Tom Kotal will be playing against his former team. Tommy was a star in the Oshkosh five for two years before enrolling at Stevens Point. Now he is performing quite capably at a regular guard position for the Pointers. Nothing, would be sweeter to hear Tommy Tompkins standing game against his former team mates. And that's just what he'll be trying his utmost to do.

While the majority of Stevens Point cage fans are under the impression that Eddie Kotal's eaglers had an easy time of it in their victory at River Falls preceding the holidays. We want to correct that idea. The game was entirely different affair than was that 50 to 22 game a week previous at Stevens Point. The Pointers ran on by a narrow margin, but Coach Kotal was forced to leave his starting lineup intact throughout the game. The reserves saw action. Maybe that doesn't strike you as so strange, but just listen to this. It was the first time since Kotal took over coaching duties in 1931 that he failed to use even one reserve in a game. That ought to give you an idea of just how tough that ball game at River Falls really was.

Coach Kotal had one put over on him during that game River Falls was in the second half. Kotal protested a decision by the referee. The official warned Eddie to observe silence for the remainder of the game. Shortly after this the official footed his whistle and warned that Don Johnston, Point guard, had committed a foul. Oscar Copes roared out from the bench in that muck way of his protesting the decision. Kotal, in his former team, was at the scorer's bench, trying to find out how many minutes remained in the game. The referee, hearing Copes' gentle voice above the din of the crowd, gazed sternly in the direction of the Point coach and said, "Technical foul on Coach Kotal." By that time Kotal turned around, and, not having seen what had happened, he inquired as to whom the technical foul was on. Imagine Eddie's astonishment when he was informed that the foul was on himself.

POINTER TO OPEN CONFERENCE RACE WITH STRONG FOE

(Oshkosh. However, when these two old rivals meet, past records mean nothing at all. Additional Oshkosh will be playing in its own gym, which is worth about ten points any time."

Eau Claire Here Monday

Saturday night Coach Kolf will take his lagers to Milwaukee for a game with Marquette University. Coach Zorn will bring his Eau Claire quintet to Stevens Point Monday for a return match with the Pointers in a non-conference game. The Pointers defeated the Zornmen at Eau Claire earlier in the season. 41 to 23. Probably the outstanding player on the Eau Claire team is the entire nine who is ineligible for regular conference play this semester. Moore, along with Captain Pat Held, has carried the honors and the attack for the invaders in practically every game this season.

BAND CLINIC
FEBRUARY 12

A Band Clinic for the high school band masters of Wisconsin will be held here on Wednesday, February 12. Fifty invitations have been sent out already, and more than a dozen band directors have signified their intentions of attending.

At the clinic, which will be held in two sessions on that day, both in the afternoon and evening, the C. S. T. C. Concert Band, under the direction of Professor Peter J. Michelsen, will play the state and national numbers which have been selected for the tournaments this spring. Between sessions, the band masters will meet for a "get-together banquet" at Hotel Whitin.

Only Request Numbers Played

The purpose of this clinic is to allow the various directors of the state to hear how the numbers they have chosen for competition should sound when played correctly. On the replies to the invitations that are received, the men indicate exactly what numbers they would like to hear played. After the concerts, the group will meet and discuss the performance of the numbers for which they have asked and decide exactly which numbers they want to use.

Plans are under way for a movie benefit for the band in the near future. If these are completed, the organization wishes to encourage as much support as possible. The proceeds will go toward helping to pay the expenses of the annual tour.

WORK ON IRIS BOOK IS PROGRESSING

(Continued from page 1, col. 1)

Cover design is to be selected from the cover and the same scheme throughout the entire book. The group of four designs.

Irish Staff Busy

Within the next six weeks the staff will be collecting and preparing written copy. Mr. Shorey will appreciate any help that students and faculty members may give in helping gather necessary information for the copy.

The "dummy" or final draft of the book is prepared. Every page is completely laid out and the copy amount is estimated.

Never before in the history of Iris Building has the work been as far advanced this early in the season. The Iris staff should be congratulated on its splendid work.

THE POINTER 5

Alumni Notes

Cassel Community Project

A recent graduate of the two-year rural course of this college has succeeded in organizing a community project in the town of Cassel (Marathon County).

Leo Lang, who graduated from this college in '35 has inaugurated an evening community club, the purpose of which has been to turn the interest of his community to worthwhile projects of civic benefit.

The programs are mostly musical or of the short play variety, with all local talent being used. From an initial membership of eight, the number enrolled has now passed the thirty mark, with prospects bright for new additions to the club work. Meetings are held once a month.

Needless to say that work of this kind is very much worthwhile to the community in many ways, chief among which is the enlarged understanding and mutual appreciation which is especially needed in communities of varied population elements.

Mr. Lang is much pleased with the growth of the club, and has much to say in appreciation of the support which the members of this project have accorded him.

Heart-Throbs Column

"A Perfect woman, nobly planned,
To war, to comfort, and command"—Wordsworth.

Do you prefer the athletic or clinging-vine type of girl?

Bob Friberg: Personally I prefer the clinging-vine type because I've never yet seen a good woman athlete with titian hair.

Jim Muir: At the present time I am interested greatly in the athletic type of girl. But, I'll admit that the so-called clinging-vine type might interest me. The whole trouble is that I don't know any girls of that class.

Bus Way: I prefer the athletic type because "clinging" isn't my style.

Bill Herrick: I find that a combination of the two types makes life more interesting.

Roy Weingartner: Girls that enjoy athletics and can share my viewpoints hold a very definite fascination for me.

Don Norton

In my opinion the athletic type of girl is by far superior to the "clinging vine". The latter type usually demands, with much ado, that things are done as she desires. This isn't true with the athletic girl who is willing to go halfway in making anything a success.

STEVENS POINT, WIS.
GRIST FROM THE COLLEGE MILLS.
(Continued from page 2, col. 1)
THE COLLEGE CONUNDRUM...
Dr. James M. Todd, builder of Radio City and benefactor of Beloit College, is the editor of a volume titled "The College Conundrum which is fresh from the presses and which contains the views of practically every member of the Beloit college faculty on the question:
"In the college with the usual student body and with the usual corps of instructors and faculty, how can the individual instructor, in his certain line of subjects, get across to the student the help he needs; and how can the instructor, where necessary, get the preparatory help he needs?"

Todd Asks Questions
Dr. Todd, himself a graduate of Beloit college, pronounced this question to President Munner and every member of the faculty at Beloit. The signed replies constitute a symposium of views on education and its needs and comprise a volume of 257 pages.

Paragraphs which express the opinions of the faculty members, but do not interpret their opinions completely because they are lifted bodily for purposes of brevity from the adjacent text, include the following:

George L. Collet—Good teachers are born; they are not made. No amount of training can produce a good teacher if natural qualifications for such a calling are wanting. In fact, courses in pedagogy may well stunt and stereotype such natural qualifications, even if present...

If the right type of teachers are brought together on a college faculty they will develop their students into the right kind of leaders, men and women fitted physically, mentally, spiritually for a sound and valiant life work.

SHOTS AT RANDOM
