Music Head Outlines Plans

Music Dir. Peter J. Michelsen has begun the organization of what appears to be the largest and finest music department in the school's history. With all the instruments repaired and refinished and the band room made more acoustically suitable, the musically inclined will be able to take their tryouts this week so that the band will immediately begin preparing for the job of playing and marching at football games.

Band To Broadcast

Departing from the custom of former years, Professors Michelsen will have two bands, a concert band of about 55 pieces, and a military band. This arrangement will make it possible to take care of the increasing number of students who wish to participate in band work.

Radio Committee Chosen From Faculty

Radio plans for this year will be made by a faculty committee composed of Mr. Burroughs, Mr. Jenkins, Mr. Neale, Mr. Kauten and Mr. Michelsen. Mr. Burroughs, who formerly was in charge of broadcasting, will head this committee. As the group hopes to make use of student cooperation in planning and directing programs, an indefinite schedule has been posted in the past the school has presented regular weekly broadcasts.

Dr. W. H. Glover Leaves; Successor, Dr. H. Tolo

Dr. Wilbur H. Glover, popular young instructor who came to Central State in the first semester of 1934-35, will teach at La Crosse State Teachers College during the coming year. He will teach the Social Sciences, as he did here. Glover built an enviable reputation for himself at C. S. T. C. by his excellent work and by his personal interest in the students. "We wish you all success in your new location, Mr. Glover."

Glover’s position at Central State will be filled by Dr. Harold Tolo. Tolo received his bachelor's degree from Luther College in 1921, his master's degree from the University of Colorado in 1926, and his doctor's degree from the University of Illinois in 1934. He has acted at different times as principal of various high schools and instructor in Concordia College, Luther College, and the University of Illinois. Tolo comes to Central State from Elmhurst College, Elmhurst, Illinois, where he was a professor of Social Sciences. He will teach those subjects here, specializing largely in history.

Dr. Tolo is an athletic coach of some experience, having worked with basketball, football, and baseball teams. In addition, he is interested in the band and chorus work.

I am pleased to welcome you to the Campus of Central State Teachers College. Here we hope you will find the opportunity to do the work which will help you to realize your highest ambitions. May you come to college “To live in the temper and spirit of a leader, open-minded, unwarped in judgment, free as far as light permits from delusions, eager to explore and inquire, quick to give up a confused idea and so gain a higher outlook, striving steadily to improve and to grow—these are the watchwords of a person who is striving to advance his intellectual life.”

If you attempt to work with that spirit, and enter into the life of the college, the year will prove a happy and profitable one for you.

With all good wishes I am,
Sincerely yours,
F. S. Hyer
President

New Health Service Installed in College

Dr. Fred A. Mars will be in charge of a complete student health service which has been established in the college. With the cooperation of the school nurse, Miss Mary Neuberger, he will attend to all cases of minor illness among the students throughout the year.

Modern quarters, furnished with complete medical equipment, will be open to the students during regular office hours. The school nurse will be in the office from 10:00 to 12:00 daily and Mr. Mars will be there from 11:00 to 3:00.

A medical fee of one dollar a semester will be assessed each student, in return for which he will receive a required physical examination, service of the nurse, medicine needed for minor illnesses, and the advice of the school doctor. This service has been established to maintain the good health of the student body.

N. Y. A. Work Assigned; Applications Exceed Jobs

The applications for N. Y. A. employment this year again exceeded the openings which are available. More than 300 students and prospective students applied for such jobs, while only 100 have received them. This number has been made possible by the splitting up of part of the jobs. The persons who have been selected will be given 40 hours of employment every month for which they will receive $12 per month. Parttime jobs pay $6 a month for 20 hours of work. N. Y. A. students' tasks consist in assisting instructors in laboratories, helping the attendeants and assisting profs in routine work, as well as working on the campus and football field.
A new school term is here. What will it bring? If the achievements of the past can indicate anything, and if affairs continue to improve, this will be some year.

Witness first the athletic set-up. Nearly all of the old football men will be back. This gang, in addition to the promising new material which has lately arrived, will be "raring to go" to average last season's mishap. Coach Eddie Kotal produced two championship teams in two successive years, and it certainly looks as though there will be another now. Witness also the fact that Eddie has produced championship basketball teams in the last three years. Occasionally a coach will have an edge on the rest of the schools because of the material that he has, but Coach Kotal's consistent wins only can be attributed to superior ability.

It is hard to make any predictions as to the success of the band. This organization, under the leadership of Peter J. Michelsen, has risen with amazing rapidity in the last three or four terms. Trips, clinics, festivals, and concerts are only part of its regular program now.

The Mens Glee Club, of which Norman E. Knutzen is the director, began only three years ago, but already in 1933-34 it had become an extensive state touring club. Its recent affiliations with the Associated Glee Clubs of Wisconsin is also something of which to be proud.

In the field of forensics too, there has been a marked rise. Land M. Burroughs' pupils have never failed to place high in the state, interstate, and sectional contests which are held each year.

But all these activities are extra-curricular, and undoubtedly could not have been carried on without the increase in enrollment which began some years ago. That increase began with the coming of President Hyer. Through his efforts and the efforts of his committees the curriculum has been enlarged, many additions have been made to the faculty, the college plant has been immensely improved, and the prestige of the school itself has been built up. The rise of nearly all the important extra-curricular activities can be traced directly to Mr. Hyer's efforts.

FRESHMEN, MAKE YOUR MARK!

Again and again in the past few years seniors have been unable to graduate. Try as they will, they cannot bring in their grades to receive the necessary honor points. This might be because they haven't the necessary ability or because they didn't work when they were freshmen and sophomores. Usually it is the second, but whichever one it is, there is plenty of worry attached.

Another thing, often students are "peged" after their first year at college. If their record is high, fine. But if it is low, they will have a hard time convincing their instructors that they can do better work. In short, freshmen, "get in there and pitch".

MISS BERTHA HUSSEY

Miss Bertha Hussey, who was for many years dean of women at C. S. C., died Thursday, August 21, at Beverly Farms Sanitarium, Alton, Illinois. Miss Hussey had been very active in school life until she resigned from her position here at the end of the 1934 summer session due to illness. She was a patient of the Kirchhoffs' hospital for some time and then moved to Alton, Illinois, where she resided with her sister Miss Ethel Hussey. Recently she entered St. Luke's hospital at St. Louis and in March of this year she entered Beverly Farms Sanitarium, the place of her death.

She was born March 7, 1881, at Paris, Ill. Her father was a minister in the Baptist Church, and for many years he was a trustee of Shurtleff College at Alton. In 1905 Miss Hussey received her bachelor's degree.

After she had completed her work at Shurtleff College she did graduate work at the U. of Ill. In 1910 she received her master's degree at Chicago University. She did advanced work at Columbia later.

Miss Hussey taught school for many years in Ill. and Mich., before coming to Central Illinois as Dean of Women. She held that position at Kalamazoo. From 1916, when she came here, until her retirement she held the position of Dean of Women and also taught literature and Latin.

During her residence in Stevens Point she was active in the young people's work at the Baptist Church. She was a member of the Stevens Point Woman's Club and belonged to the P. E. O. Sisterhood. In the school she was a member of the Margaret Ashmun Club. In 1920 the Iris was dedicated to her.

Although Miss Hussey retired from active school work in 1934, there are many who remember her for her participation in school life and in activities on the campus. They remember her who wish to mourn her passing.

Mens Glee Club
To Hold Tryouts

(Continued from page 1, col. 2)

Miss Bertha Hussey attended a choral school which was held in Door County and was under the instruction of Prof. F. Melius Christiansen of St. Olaf's College.

The annual glee club trip is planned for the first week in March this year. The officers of the organization are as follows:

Pres.—Kirkwood Lakes Librarian—Calvin Bockfeller.

Society News

Son Arrives
A son was born to Mr. and Mrs. George C. Allen on July 15. He weighed seven pounds, fourteen ounces at birth and now weighs eleven pounds, twelve ounces. The boy was named George Nicholas. "We call him 'Nicky'," Mr. Allen says.

Engagement Announced
On Saturday, August 29, Mr. and Mrs. W. H. Dumbleton, 502 McCulloch street, announced the engagement of their daughter, Lorraine, to Russell Wyay, son of Mr. and Mrs. Prask Way of Medford.

Lorraine entered Central State as a Freshman last year. However, she is not planning to return to the Primary department. "Russ" was a member of the June graduating class from the high school department. He was affiliated with Phi Sigma Epilus in his senior year and was an associate member of Sigma Zeta for two years and an active member in his senior year.

Both Lorraine and Russ were well-known and well-liked on our campus.

Herrick-Van Vuren
The marriage of Miss Fern Van Vuren, daughter of Mr. and Mrs. V. C. Van Vuren, and William H. Herrick, son of Prof. and Mrs. A. J. Herrick, of Stevens Point, was performed Saturday afternoon, August 29th at 4:00 o'clock at the Van Vuren home in Boudou, Wisconsin. The Rev. Phillip Koecke, Mrs. George A. Piper of Bodeburg, master of the bride, and Dr. Virgil Herrick, of Madison, brother of the groom, were the attendants.

Fern attended Central State Teacher's College for three years as an active member of the Home Economics department. She was a member of the Omega Mu Chi Sorority and of Sigma Zeta.

Bill graduated from the four year High School course last June. He was a member of the Phi Sigma Epilus fraternity.

Mr. and Mrs. Herrick will make their home at Augusta, Wisconsin.

Best wishes, Fern and Bill, from all of your many friends, both faculty and students, at Central State.

Freshmen Reception
A welcome party for all new students was held last evening in the recreation room at Nelson Hall, Hosts and hostesses from the upper classmen were present to make introductions and "Break the ice." The usual stag line of upper classmen was present with eyes open for those new freshmen "gals."

But Romney was in general charge with Miss Richardson as the assisting faculty member.

Dancing was enjoyed during the evening and refreshments were served.

Reception Tomorrow Night
The faculty reception will be held tomorrow evening in the gymnasium. Forming the reception committee will be Pres. and Mrs. F. S. Ryer, Dean and Mrs. H. R. Steiner, and Mr. and Mrs. Geo. H. Martens. The receiving line will form at 8:30 o'clock.

Following the reception there is to be an all-school dancing party.

Pan-Hellenic Activities
The Greeks are returning to town and the campus is humming with preparaations for a busy schedule. The fraternity houses will again be scenes of college activity after a rest of twelve weeks.

Sororities are planning schedules to meet in private houses or at members' rooms in Nelson Hall.

Plans for fall rushing will soon be terminating, and the familiar sights of pledging will again be seen.

"Manums, why does the furnace make daddy shiver and make fancy faces and hiccup when he comes up from the cellar?"

Annual Summer Session
Has Large Enrollment
The twenty-ninth annual summer term at C. S. T. C. closed July 24, when 67 of the 607 students enrolled graduated. Although the enrollment total was less than the figure for the previous session, the number of graduates was approximately the same.

Grid Prospect
Bright For '36

With twenty one lettermen as the nucleus for a football team, Coach Eddie Kotal is rather optimistic about the coming season. The squad, led by Captain Oscar Copes, started training on the Monday of this week and by the end of the week Kotal will have practice in full swing.

Strong Line, Backfield

The lineup, at the present writing, appears to be set this way: centers, Weingartner, Miller, and possibly Brouse; guards, Sletwin- ski, Sparhawk, Phipps, Batlitz, Loewekoe, and Dagnay; tackles Copes, Ted Menzel, and Norton; ends, Berard, Olsen, and Ninin. Many of these Schenking players together for the last three years and therefore Kotal's worries are few regarding the caliber of his line.

In the backfield the burden will be carried by McGuire, Johnston, Chartier, Bucholz, Hitzke, and Honick. All of these men saw action last year, and with the addition of some newcomers, the ball carrying end should be well taken care of.

Some Men Not Returning

Coach Kotal also expects the following men who have been on the team but did not receive letters to return: Olingy, Larson, Burgh, Buth, Stafford, Grandkowski, McAleney, G. Miller, Rinka, Linsow, Schneider, Brill, Cooper, Hartvig, and Wilkecki.

Among those who will not return are: Tom Person, a New Jersey recruit, who entered the University of Wisconsin; Miner — going to the Chicago Art School; Zurfluh — working; Haag — working; and Frank Menzel and Don Unberth, who have graduated.

No dope is yet obtainable on any outstanding prospects among the newcomers.

Sports Gossip

In the spring of this year several prominent Central State students voiced their opinions regarding the outcome of the major league baseball races. Although several weeks of play remain it might be rather interesting to compare a few of the various predictions with the positions of the teams at the present time.

The Yankees have already assured themselves the flag in the American League but not one of our writers has picked them for that position. Frost Hudson, a baseball star himself, placed Ossie Picks and Missen the Yanks in second. This was the highest rating given them, but he made the unfortunate mistake of choosing the Detroit Tigers for first. (At the present writing the Tigers are twenty games out of first.)

In the national league he has the Cubs, Cards, Giants, and Cincinnati in the order mentioned, which is rather good considering the closeness of the race.

Oscar Copes, football captain, was lucky enough (you call it luck don't you Oscar?) to pick the Giants, Cubs, and Cards for the first three positions, but due to a lack of foresight picked the Dodgers for fourth position. In the American league Oscar didn't fare quite so well as he picked the choice of Boston, St. Louis, Detroit, and New York; unfortunately the wear they line up today and it's almost a certainty that the St. Louis Browns will never reach the first division. Better luck in football, Ossie.

According to the Associated Press hole-in-one club the odds against an average person making a carry are 20,000 to 1. The majority of us will have to be satisfied with our eggs and birds.

It will be just too bad for Texas Tech if war breaks out. Thirty-nine football players are in the national guard. Tech's colors, incidentally, are red, white, and blue.

W. A. A.

W. A. A. Membership
To become a member of the Women's Athletic Association, a girl must have shown an active interest in W. A. A. sports. This means that she must have participated in a few of the activities offered by W. A. A. Opportunity is given to take part in the various sports not only for W. A. A. membership, but also for the enjoyment and fellowship which goes with "play."

Hockey and Tennis
Hockey and tennis are the W. A. A. fall sports. Hockey practice is held two nights a week from 4 o'clock to 5 o'clock. All girls are urged to come out and try it—even if they have never tried before. Two teams are chosen at the end of the hockey season and a final tournament is held. The tennis tournament will begin immediately and will be carried on simultaneously with hockey practice. Those who are interested in either of these sports may watch the W. A. A. bulletin board and sign up when the notice is posted.

Fall Picnic
The first event on the W. A. A. calendar is the annual picnic. All girls and the attending college are cordially invited to come. Last year seventy girls enjoyed the "outing." Just as big a crowd is expected this year. The Pointer and the W. A. A. bulletin board will give further information on this later.

Pompous Physician (to man plastering defective wall): The traveler covers up a lot of mistakes—what? 
Workman: Yes, govern—and so do the spoils.

"What's this big item on your expense account?"
"Oh, that's my hotel bill."
"Well, don't buy any more hotels."

Storekeeper: Shall I draw the chicken for you, madam? 
Young Bride: No, thank you, your description is quite sufficient.

A Scotchman, wishing to know his fate in love, telegraphed a proposal of marriage to the lady of his choice. After spending the entire day at the telegraph office, he was finally rewarded late in the evening by an affirmatory answer.

"If it were you," suggested the operator, when he delivered the message, "I'd think twice before I marry a girl that kept me waiting all day for an answer."

"Na, na," retorted the Scot. "The lass who waits for the night is the lass for me."

Selection Of Staff Practically Complete
Tryouts for the Pointer staff are still being conducted, but most of the positions have already been filled.

The assistant editor is George X. Huy. George is a very active student in college, having taken an important part in debate work last year. He is a member of Chi Delta Phi, and also plays in the band.

John Shailer will handle the sports end of the sheet. Johnny is a senior this year. He has always been interested in sports and has played basketball at Central State. Johnny is a member of the Chi Delta Phi.

Assistant sports editor will be Harold "Red" Dregue. He was a star player on the Phi Sigma Epsilon football team last year. He is a member of Phi Sigma Epsilon fraternity.

Maxine Miner and Ruth Hanson, both members of Omeg Mu Chi Sorority, will handle the girls' sports news and the society news, respectively. Both girls have high averages. They are well known in sports. Miss Hanson especially in tennis and basketball, and Miss Miner in all the activities. Miss Miner is Major Scientist of Sigma Zeta, National Honorary Science Fraternity.

Several Positions Open
One of the newspaper's positions has been filled by James Moray, a sophomore. He is also a Chi Delta Phi.

There are still openings on the reporter staff. Several typists are still needed.

Ellery Frost, business manager, has not yet selected anybody to head the circulation department. He expects to have something definite for the next issue. That department will also need a staff of assistants.

The customer who hadn't paid for a long time finally came around and settled his bill is full.

"It's that letter you wrote me," he explained. "I've never seen you like it. It was a letter as big as a stone. How'd you ever think it up?"

"I didn't," answered the storekeeper. "I picked the best parts from the letters my son sends me from college."

College News Briefs

Ped, Student At Same Time

Gerhard Winkler, who attended college here several years back has returned for this term. In addition to doing his college work, he is teaching several classes of German at Stevens Point High.

Nesie, Roach Lead Institutes

Professor O. W. Nesie, head of the rural department at Central State, has been very busy during the last month conducting teachers' institutes. In a crowded two-week period he presided at five of them. They were held in Washington, Elkhart, Janesville, Dodgeville and Friendship.

Miss May Roseb, also an instructor in the rural department, conducted an institute at Antigo last Friday.

Faust Honors

Mr. Gillett T. Faust, assistant chemist, professor was recently elected a member of Phi Delta Kappa, professional educational fraternity.

Steen Attends Chicago Convention

Mr. H. F. Steen, Chemist, College of the college plant, attended a convention of the National Association of Power Engineers during the last week in August. It was held in Chicago, at the Stevens Hotel. The chief business of the meeting was to contest a new law which various states have passed forcing all men who call themselves engineers to certain state requirements or else drop the name of engineer. This procedure would leave only graduate civil engineers and architects to be so titled. Of course, this change of name is not the only thing involved. "If you want to be an engineer," says Mr. Steen, "just call him an operator."

Former Editor Is Druggist

George Simonson, editor of last year's Pointer, is at present helping his brother in the drug business. Bob Steen, last year's business manager, is teaching at Menro.

Many Improvements Made

During Summer Vacation

During the summer, while most students were enjoying vacations, President Hyer stayed in the city and attended to the improvement of the school. Some of the work was done with federal W. P. A. appropriations, but the largest part was taken care of by regular state funds.

Oddly enough, the basement shows perhaps the greatest improvements. The first thing noticeable is that the concrete floors have been painted. The locker rooms have been refinished, and the lockers themselves have been painted both inside and out. The chemistry lab. is really beautiful with its new coat of delicious, acid-resistant paint covering the walls, desk tops, and fixtures. A new fully equipped doctor's office has been installed in the room that was formerly the men's lounge. The spare shower room has been converted to a closet for storage.

Many others, including the main hall, have been improved, especially in comfort and appearance. The doors have been repainted and new doormats are in place.

Theme Of '37

Iris Announced

By Clifford Malehow, Editor of Year Book

The theme for the book this year is based on mythology. It will be the editor's endeavor to tie up ancient Greek art with modern school life. Something new and entirely different is promised for the cover on the '37 Iris. If present plans materialize, it will be the first time in the history of the school that colored pictures will be introduced. As yet, only a few books in Wisconsin enjoy this new process of color printing.

Plans for the '37 Iris have progressed very favorably. Although the engraving contract has not yet been let, it is just a matter of a short time before it will be disposed of.

Under the new set-up inaugurated last semester, this marks the first year the book will be published by the junior class. It was formerly a senior class project. The selection of the staff has not yet been completed but will be announced very soon.

Pretty refurbished and will be used especially by the basketball men.

Roof Gets New Paint

Throughout the college the walls have been repainted and the floors varnished. Nearly all of the offices and most of the lecture and laboratory rooms have been equipped with the new eye-appeal lighting fixtures. The equipping of Miss Jones' biology lab, which was begun last year, has also been completed. The exterior appearance of the school itself is better than it will be in years. The campus lawn is in the best condition that it has been for many years. To top it all, the entire roof of the school has been covered with a new coat of bright red paint.

Many others, perhaps the greatest improvements. The first thing noticeable is that the concrete floors have been painted. The locker rooms have been refinished, and the lockers themselves have been painted both inside and out. The chemistry lab. is really beautiful with its new coat of delicious, acid-resistant paint covering the walls, desk tops, and fixtures. A new fully equipped doctor's office has been installed in the room that was formerly the men's lounge. The spare shower room has been converted to a closet for storage.

Courtalese (to a grateful friend)— Thanks very much for the brandy peaches. Although the doctor wouldn't let me eat the peaches, I enjoyed the spirit in which they were sent.

Martens, Regent, Extends Greetings To Students

Mr. Geo. H. Martens, prominent lawyer of Stevens Point, is regent for Central State. He sends a greeting to the old and new students.

We local regent of Central State Teachers College, it is my privilege and pleasure to extend to the students here attending this school a sincere and hearty welcome.

We local residents of Stevens Point are extremely proud of our institution of higher learning. We are glad that you have chosen it to assist you in your preparation for your life's work. The State will offer you unassisted educational advantages. Grasp them. Attention to the work at hand will guarantee your success.

Both new and old students of C. T. G. greetings and a warm handshake.

Geo. H. Martens

Stevens Point Churches

Invite College Students

Reverend Schwemmer, representing the Ministerial Association of Stevens Point, extends the following invitation to the students:

The churches of the city of Stevens Point extend their greetings to the State Teachers College students, new and old. We are here to serve, and we extend the privilege of meeting and knowing you, and of helping you in any way that may be of assistance. We invite you to worship and serve in the church of your choice.

Very cordially yours,

Stevens Point Ministerial Association,
Rev. Wm. G. Schwemmer, President

Personalities

The men in the glee club this year will be forced to watch their laurels as Gilbert T. Faust, assistant professor of chemistry, band member, and able accompanist for the Men's Glee Club, had his tonsils removed during the summer.

In speaking of his arrival at C. S. T. C. on Sept. 7, he said that he came back early to prepare for his vacation.

Mr. Lawrence Davis, junior of the training school, is almost ready to patented a new floor covering. "All that I need," he says, "is assistance in the collection of the materials used in my experiment. If the students will only bring me all their used chewing gum, I will endeavor to prove to them that material makes a most durable floor covering, outlasting any number of coats of varnish and literally inches of linoleum. As a matter of fact, I only have to consider the extreme difficulty I have in removing it from my many floors."

"Should a man propose to a girl on his knees?"

"Yes, either that or she should get off!"
