

Notice!

The classes which ordinarily meet tomorrow (Friday, Jan. 15) at 10 and 11 will meet today at 10 and 11. This is being done to avoid missing any work because of the assembly program tomorrow.

Doctor Myers Lauds Central State In His Widely Read Column

Dr. Garry C. Myers, famous psychologist and mental hygienist who appeared here shortly before the holidays, wrote on his visit last Monday in his widely syndicated column, "The Parent Problem." The article appeared in the Stevens Point Daily Journal at that time.

Had Several Group Meetings

In speaking of his visit here, Myers writes, "I met two groups of students—about 80 each—and discussed with them some of my published researches in learning. They entered the discussion freely, and we together considered the relative value to efficient learning of emphasis on accuracy rather than speed in the mastery of specific facts and skills. I soon learned that at this teachers college young men and women are now being trained to emphasize accuracy and to cultivate an atmosphere of serenity in the classroom. Other mental hygienists

Phi Sigma Epsilon Holds First Of Greek Formals

Dance Is Preceded By Dinner

Harold Menning Engaged For Music

The Kappa chapter of the Phi Sigma Epsilon fraternity is celebrating its eighteenth anniversary at its annual formal dinner and dance Saturday, January 16, at Hotel Whiting.

Arnold Hotvedt Presides

An unusually large number of alumni have signified their intention of returning for the occasion.

Arnold Hotvedt, president of the fraternity, will preside as toastmaster at the dinner. Captain Ferdinand A. Hirzy, charter member of the fraternity, will present the charter minutes of the organization. History of the organization from its founding in

Concert In Assembly Tomorrow

Men Sing Twice During Next Week

The Mens Chorus will sing a request program at the Congregational Church at Adams Monday night. The men sang at Adams on their spring tour last year and have been invited to return.

The last concert to be given this semester will be sung at the Spencer High School next Wednesday. This is the first time the Chorus has gone to Spencer.

Practice For Tour

In addition to the regular concert program there will be included solos, instrumental numbers, and numbers by the Quartet.

This program ends a successful semester for the Chorus. Since the fall term began it has presented eight concerts at seven towns. At the present time practice hours are being given to the development of a new program for the March tour.

Omegas Make Plans For Sorority Formal

Although leap year is a thing of the past, the coeds will have a chance to pick their dates for the annual Omega Mu Chi sorority formal to be held at Hotel Whiting, Saturday, January 23rd. Ted Gay's popular band from Oshkosh will furnish the music.

Second Semester Night School Plans Announced

Night school for the second semester will begin on February ninth, it was decided at a recent faculty meeting. It has been continued in response to demands from the 170 people who were enrolled this semester.

(Continued on Page 2, Col. 4)

Priddy, Wild Animal Trainer, Here Soon

Al Priddy, internationally known as the "humorist of the big top" will lecture at an assembly next Tuesday morning, Jan. 19.

Has Seen "Big Tops"

"Can Animals Think?" will be his question, and he bases his talk on his many years of experience with circuses here and abroad.

Priddy has at different times been with Al. G. Barnes, John Robinson's, Hagenback Wallace, and Ringling Bros. and Barnum and Bailey circuses. According to advance reports, he will "tell us more about animals than we have even dreamed of before."

College Theater Holds Second Play Tryouts

The college Theater has for the past week been conducting tryouts for its next plays. A policy has been inaugurated by Phil Runkel, president of the organization, of having seven plays each year, three of which are public and four are "Workshop plays" presented for school audiences.

Any student in school is eligible to try out for positions on the various staffs. Directors and technicians are particularly needed. Students will be selected on the basis of interest, not previous experience.

Last Trials Today

The next play to be presented will be "The Importance of Being Earnest" by Oscar Wilde.

Tryouts have been held all week, with the last group, for the business staff, to be held this afternoon from 4:00 until 4:30.

Results of the week's tryouts will be made public tomorrow morning.

Hugo Brandt, Pianist, And Concert Party To Present Entertainment

Hugo Brandt and his Concert Party will present a concert here tomorrow morning. This group is made up of Hugo Brandt, concert pianist, Paul Pence, baritone, and Helen Gridley, soprano.

Present Story Of Schubert

Mr. Brandt, Polish by birth, received his education in Europe and first became famous as a result of concert appearances in several of the large European concert halls. More recently he has toured Canada and the United States as musical director for many light operas and he accompanied De Wolf Hopper on his last tour of Mikado and Pinafore. He is especially noted for his almost unlimited repertoire, and a remarkable musical memory. Mr. Pierce, lyric baritone, was discovered and developed by Miss Mary Garden, and the third member of the party, Helen Gridley,

Important Debate Tourney At Eau Claire Saturday

The C. S. T. C. debate squad travels up to Eau Claire next Saturday to participate in an Invitational Interstate Debate Tournament that is being held there.

Debaters who will make this trip are Shirley Webster, Phyllis Gikling, Rosalie Timm, Doris George, Kathryn Becker, Bob Hoffman, Joe Ophoven, Ben Laschkewitsch, LaRue Smith, George Hyer, and Jim Murat.

Accompanying the debaters will be Coach Burroughs and Professors Steiner and Tolo, these three acting as judges, and also Miss Coleman, who will accompany the girls.

Other States Competing

The group will travel by bus, going to Eau Claire on Saturday and remaining there overnight and come back Sunday.

This tournament is the first of the larger tournaments of the year and it is expected that most of the State Teachers Colleges teams from Iowa and Minnesota will also be entered.

Professor Smith led a round table discussion at a debate meeting held yesterday at 4 P. M.

Published Weekly except holidays and examination periods, at Stevens Point by the students of the Central Wisconsin State Teachers College. Subscription Price \$2.00 per year.

Entered as second-class matter May 26, 1927, at the post office at Stevens Point, Wisconsin, under the Act of March 3, 1879.

REGARDING N. Y. A.

A notice was recently posted to the effect that all N. Y. A. workers must make reapplications for jobs during the second semester. This must be done before January 26.

At present, with the additional workers which were added shortly after school began, there are 119 students working on the N. Y. A.

In spite of all the words that have been wasted on the subject, there were 17 time cards not in yet on Monday morning. When the checks are late, you workers will know whom to blame.

Those students who plan to drop work should notify the office at once, in order that the number of positions available may be determined.

Myers Comments On Visit Here

(Continued from page 1, col. 1)

will be visiting this college soon to see how it is done."

Impressed With Trg. Sch.

Going on, he says that "When President Frank Hyer went with me through the practice school, where the students are learning to teach, I was impressed with their poise and the serenity of the children. And we visited the rural group of 48 children of all the elementary grades in one room, in charge of a wonderful teacher. These children are typical rural children from the farms brought there in the school buses."

Comments On Friendly Attitude

He met with the entire student body in the afternoon and addressed the faculty later and altogether received a very good impression. "With the students I did discuss some of the personality fears many students are heir to, and we had an open discussion from the floor, after which many students lingered to ask more questions and make more remarks," he states.

"In the halls and about the campus I observed a friendly relation between teacher and student such as I have never seen elsewhere. And yet their academic standards are high. To receive the degree of bachelor of education for work done in any division, the candidate must have a total grade point average of 1.5, and be able to meet the requirements and to enter the graduate school of the state university."

Finishing the review of his day at Central State, he told of his visit at the home of President Hyer. In speaking about it, he said "Though President Hyer does not pose as a psychologist, I found that he had worked out in a practical way most of the psychological principles of learning which I had spent several years at deriving from experimental data—and years earlier. Before I began the published experiments which led me to my frequent emphasis in this column on accuracy rather than speed in learning, he had trained hundreds of teachers in these principles. Long live President Frank Hyer."

Assembly Program

(Continued from page 1, col. 4)

soprano, is well known both on stage and radio.

During each program, Brandt plays a medley of musical memory requests. Among the other worthwhile things on the program, this group will present the musical tabloid "Franz and Sylvia", a story of Franz Schubert's own life using Schubert's own music.

College News Briefs

Quartet Sings

The Mens Chorus quartet sang a concert at a late afternoon assembly at the high school in White Lake Wednesday; in the evening it sang to a parent-teacher's meeting. Professors Knutzen and Burroughs drove to White Lake to attend the meeting.

Edgar Kreilkamp has been ill for several days.

Philip Dakin underwent a major operation in Antigo during Christmas vacation. He will probably return to school second semester.

Raymond Gray is ill at his home in Amherst.

We hope that all these students will soon be back on the campus and in the best of health.

Band Poses

Smile, please! The band assembled in the old gym Monday night to have its picture taken. Providing that the horns did not hide too many faces, the picture should be satisfactory.

Tips On Tomes - - -

Many more new books have just entered our library. They may well enrich your academic courses.

Deserts on the March, Paul B. Sears

This book deals with conservation of our natural resources. No one who is interested in the future of America should ignore this book. It shows how man tried to win an immediate living from the soil regardless of future needs. Sears shows how "the American people can even now arrest the progress of marching deserts." Botany students should be particularly interested in this book.

Look at Latin America, Henry Clay Gipson.

"Henry Clay Gipson travelled over 53,000 miles by land, sea, and air in five trips to Latin America while compiling this book." There are ninety six photographic studies—both in black and white and in color. Cameron Rogers, an authority on Latin America, contributes the foreword. Geography students and members of the photography club should look at this book.

Pre-War Years, 1913-1917, Frederic L. Payson.

In this book, the war is seen, not as an isolated catastrophe, but in its proper relation to the political, economical, cultural, and social history of the period. Professor Payson was in charge of

W. P. A. Art Projects Show Much Hard Work

The Art Department of C. S. T. C. is exhibiting a remarkable collection of handicrafts made and designed by the W. P. A. unskilled workers in Milwaukee. The exhibits show such handicraft as wooden toys, dolls, book building, block-printing, costume making, hook rugs, quilts, and weaving. It is sponsored by the Milwaukee State Teachers College.

The toys are educational as well as attractive. Modern in designs and color, they are toys to be appreciated by any small child. There are stream-lined trains, a tug boat pulling small barges, wagons and platforms of blocks, animals, and a little wooden village.

Blockprints show much originality and hard work. Animal motifs, circuses, and illustrations such as the "Pied Piper of Hamelin" are printed in color on cloth.

The display will last all week and is open to the public and students.

the Historical Branch of the War Plans Division of the General Staff during the war. In this way he was able to obtain much valuable material for this book. All history students and prospective teachers of history should read this book. The story is free from prejudices.

Marian-Martha, Lucile Fargo.

Anyone who is interested in library work should read this story about librarians and about two girls who became librarians under widely differing conditions. It is a vivid and entertaining narrative, in addition to its being useful as a vocational guide.

Propaganda and the News, Will Irwin.

This story includes many episodes in the battle of propagandists which have never before seen print. "The book is spiced with good stories and quick flashes of insight; it has the impulsive intimacy of good conversation, and deals with the basic problems of modern democracy."

Society News

Dance After Game

The Mens Glee Club is sponsoring the dance after the Platteville game tomorrow night. Tickets are being sold by members of this organization. The Castilians, famed for their smooth rhythm, will play.

Progressives Meet Tonite

There will be a short meeting of the young Progressives Club tonight at the city council chambers. The meeting will begin at 7:30 and a discussion of the constitution will be led by Benjamin A. Kordus. Everyone is invited to attend.

Tau Gams Entertain

Tau Gamma Beta sorority was hostess to its alumni at a tea held

sorority in 1908 were present for the occasion.

Members of the sorority poured at a table decorated with a novel centerpiece, a modernistic silvery gumdrop tree which was designed by Ethyl McDonald.

B. Roach Addresses Home Ecs

Miss Beatrice Roach, a representative of the Wisconsin Valley Electric Company presented an unusually interesting talk on "Planning and Modernizing Kitchens" to the Home Economics Club Monday evening. The old slogan "Get out of the kitchen" has been reversed and now we hear "Come into the kitchen", for this room has come to be one of the most used and modernized rooms in the home during the last few years.

A short business meeting was held prior to the talk.

Chi Deltas Have Party

Chi Delta Rho fraternity and their invited guests held an informal dancing party in the old gymnasium on Friday, January eighth.

Music for the evening was furnished by Joe Sanders, Kay Kyser, and many other favorite bands, through the medium of a radio-orthophonic.

About twenty-five couples attended the party.

Point Takes Eau Claire In First Debates

The intercollegiate debates between Eau Claire and Stevens Point which were held here at the college last Saturday proved to be very successful for the C. S. T. C. squad. Of the 28 debates which were staged, Stevens Point won 18, tied 2, and lost 8 to Coach Donaldson's Eau Claire team.

3 Teams Win All Debates

Four rounds of debate were held in all, the first at 11:00 A. M. and the others following at 1:30 P. M., 3:00 and 4:30. Judges who acted in the various rounds were Professors Donaldson and Judd from Eau Claire, Mr. Sam L. Moreau from the local high school, and the following members of our faculty: Professors Tolo, Steiner, Mott, Wilson, Knutzen, Reppen, Jenkins, and Burroughs.

The teams consisting of Doris George and Rosalie Timm, Shirley Webster and Phyllis Gikling, and George Hyer and Jim Murat won all four of their debates.

Banquet Given

A banquet was given at 6:30 on Saturday at the Gingham Tea Room for about 40 people who attended the tournament, including the judges, the coaches and the debaters. Phyllis Gikling, acting as toast mistress, called upon Professor Steiner for a welcome to the Eau Claire teams and the two

W. A. A.

Girls Wanted

Girls are needed for the second round of the volley ball tournament and also for the approaching basketball tournament. About forty girls were out for basketball practice on both Monday and Wednesday afternoons. Let's have real tournaments!

Volleyball

The second volleyball tournament will begin the first week in February. All girls who wish to join a squad team, sign the volleyball paper on Miss Richardson's bulletin board.

Last Call

This is the last call for Girls wishing to play in the basketball tournament. If you would like to join a team see Miss Richardson before Friday.

Watch The Ping-Pongers

The ping pong elimination tournament begins January 18th. Be sure to play your matches as soon as possible. Spectators are cordially invited to watch the "champions" play.

coaches. Donaldson and Burroughs also spoke. This very full and very successful intercollegiate debate was brought to a close in a very peaceful way by the group's singing of "Auld Lang Syne."

Trouble Shooters

Any girl looking for a roost with all the comforts of home will be a welcome addition to the trio at 1303 Main street. The girls must know by tomorrow.... Everything is jake with Charlie—Kohls.... everybody is hanging low at present in preparation for the Phi Sig formal Saturday night.... Harold Menning is playing.... the Chi Deltas threw a private party Friday night.... great fun.... Tim Winch, of Palm Beach and points south, is back at school again.... with the debate team at Eau Claire this Saturday at least one prominent figure on the campus will be singing "Alone".... Omega Betty Schwahn visited the "in-laws" at Manawa again last week-end.... We have a tall, handsome Merrilite cutting in on home territory — quite successfully we might say.... revealing initials are P. R. (pronounced Rusch) and M. H.... and then we have the lonesome (?) girl who is making eyes at other people's property.... Betty Wolf must watch that boy friend.... Paul lately went to Oshkosh with aspirations for joining the Navy.... The basketball squad enjoyed Kay Kayser's Style at the Palace Theater Saturday afternoon.... Have you heard Tom Lindow's imitation of Ishka Bibbel?... We hear that Pickles had gray hairs after his recent medical exam. All of the scientific terms describing his minor ailments have him worried.... Don't forget to get tickets for the Omega Formal beforehand girls.... to save pecuniary transactions at the door.. last Saturday afternoon from three 'til five o'clock in the home economics parlors. Many alumni dating from the founding of the

Pointers Win First Conference Contest

Open Defense With Easy Win

Nimz High-Scorer For Evening, Rinka and Johnston Play Fine Games

Central State opened their conference season at Milwaukee, Friday, January 8, with an easy 39 to 26 victory over Coach Fenwells' five. This was the first conference game for either of the two teams.

Point Leads At Half

Officials Larson and Petrie had a busy evening calling forty fouls in all. Tom Lindow, Point guard, and five Milwaukee players were eliminated by way of the personal foul route.

The Point failed to make a field goal in the first ten minutes of play but soon began to click and held a 17 to 13 lead at the half. This margin was the result of Points controlling the tip off due to the efforts of Nimz.

Nimz High-point Man

The second half found the Pointers showing their scoring ability and soon they had acquired a comfortable lead. The defense of Coach Kotal's boys appeared to be weak at times but with Milwaukee slightly erratic in their shooting there was little need for worry. The game ended with Milwaukee trailing 39 to 26.

High scoring honors for the evening went to Nimz, Central State center, who collected five buckets and seven free throws for a total of seventeen points. Johnston and Rinka also played good games for the Pointers, while the outstanding Milwaukee player was Rudiger who took his team's scoring award with eight points.

Stevens Point is defending the championship which they won last year when they went through the season undefeated in fifteen games. The next conference opponent is the Platteville Teacher five who comes here tomorrow evening for its first conference game.

Falcons Even Pointer Series

Concordia college cagers went out looking for revenge Saturday and found it, much to the dismay of the Pointers, by the score of 30 to 21. The defeat was the first for the Pointers in their last nineteen intercollegiate games.

Reserves Start

The first half ended with both teams playing on even terms, but, at the beginning of the second period, the Falcon five obtained a small lead which they gradually increased until they had acquired the comfortable margin of nine points.

The Central State ball team showed the effects of the game played the night before with Milwaukee State Teachers. Coach Kotal tried to give his regulars a rest by starting a reserve five but was forced to replace them due to the lead acquired by Concordia.

Training School Wins Two Games

Three games were played at the training school gym last Friday night with the Mary D. Bradford teams victorious in two of the games. The opponents for the evening were the St. Peter's 7th grade team and a pair of teams from the Edison School of Mosinee.

Mosinee Wins

The first game, which was played between the St. Peter Seventh grade, was a victory for the latter by the score of 9 to 4. Stan-chik, center for the training school five, was high scorer with seven points.

The main game of the evening, which was between the Edison School of Mosinee and the local Junior High team, found the visitors a little too strong and they emerged victorious with a 9 to 5 victory.

Reichert Assists

In the final game of the evening the Mosinee eighth was defeated by the Mary D. Bradford eighth by the large margin of 15 to 5. The entire local eighth grade team played good ball with no one player outstanding.

All of the training school teams are coached by Mr. B. R. Pierce who is ably assisted by Harold Reichert.

Sports Gossip

My! My!

Coach Kotal may lose his star quarterback next year unless someone convinces the signal-caller that his hobby for building doll houses will never amount to much in later life. It appears that the above-mentioned football player has spent his entire Christmas vacation in constructing a lovely doll house—large enough to hold several good sized Shirley Temple dolls. "6 pt." cordially invites all those who care to make clothes, or have any extra patters to spare, to notify him as he is desirous of something to do in his spare time before exams. (Sport Editor's note—this piece of astounding news was found in the Pointer mail box.)

"Me And The Moon"

Fe Bohan is the proud owner of a two by one picture of his girl friend. Fe claims that if he obtains three more the same size he is going to paper his room. Just imagine what inspirations one could obtain in studying in such an atmosphere.

A. Bucholz Elected "S" Club President

At the "S" club election, which was held Thursday, January 7, in Mr. Watson's room, Alvin Bucholz was chosen to succeed Webb Berard as president of the organization. Other officers elected were Eddie Olsen, Vice President and Chuck Sparhawk, Secretary and Treasurer.

Regular Meetings

The officers, besides Webb Berard, who served during the first part of the school year were Chet Rinka as Vice President and Alvin Bucholz as Secretary and Treasurer.

Dues for all "S" club members were set at 25 cents per semester. A discussion of awards and initiation of new members followed the assessing of dues. It was decided that the regular meetings are to be held on the 3rd Wednesday of each month. All members are urged to watch the bulletin board near coach's office for the time of the meetings.

All men who have won a letter in any of the major sports, namely, boxing, track, basketball, and football are eligible to become members of the "S" club.

It Must Be Tough

Inman Whipple is having difficulty keeping his name off of the boxing cards at Wisconsin Rapids. In the last few weeks his name has been mentioned as a contestant on several of the Rapid bouts, but he has never been consulted beforehand. Some people never seem to be able to avoid a fight—not even when it is on an organized affair.

Led With His Head

Ray Urbans, athletic manager, had the misfortune to fly through a shatterproof windshield during a car accident, Saturday evening. Ray, due to his fine physical condition, (emphasis on the physical) is able to carry on with his school work and has felt little pain from the injury.

Rather Novel

All those that are stacking up on hunting stories for next year can obtain a good dear story from Ted Ketterl. He claims it is true too.

Marrs Comments On Scarlet Fever

Due to the recent outbreak of scarlet fever, Dr. Marrs, head of the Health Service Department, has considered it timely to prepare a short article on the recognition and treatment of that disease. The article follows:

SCARLET FEVER

It is more prevalent in winter and spring than in the summer. Persons of any age may be attacked. Some cases are mild and some are severe. It is communicable in all its forms and mild cases will as readily transmit the disease as severe cases, and severe types may be contracted from mild types.

Typical Scarlet Fever.—A typical case begins with a sore throat accompanied by fever. The pulse is rapid and vomiting may occur. In young children the attack may begin with convulsions. In 24 to 48 hours after the initial symptoms a finely dotted scarlet rash appears on the body, gradually extending to the arms and legs. The rash is not likely to be on the face but the face is red from congestion. In this respect it is different from measles which has the rash on the face. The rash and fever continue for a few days before convalescence begins. Shortly after the beginning of convalescence peeling of the outer layers of the skin usually becomes manifest.

The sore throat is of varying intensity and resembles tonsillitis. The tongue is covered with a whitish covering and very frequently the little elevations called "papillae" on the back of the tongue show through the coating. About the fourth day this white coating may disappear and leave the tongue red or dark red over its entire surface, and this is often referred to as "strawberry tongue". Some cases do not show the characteristic tongue symptoms. In typical cases desquamation or peeling of the skin begins when the rash fades, or it may not become evident for two or more weeks after the initial symptoms; it may continue for five or six weeks or even longer in some cases.

Complications occur with frequency. The most common are enlarged glands of the neck, running ears, rheumatism and disease of the kidneys in which there may be swelling of the face and feet, also the heart which must be protected in all cases of scarlet fever. These complications may not become manifest for two

Found

One gray sweat-shirt in the janitor's rooms in the basement. Owner may have same by seeing Mr. Parks and identifying same.

or three weeks or longer after the onset of the disease, and may occur in well supervised cases, but more often in those not given proper care.

Treatment.—a physician must be called in all cases, the patient must be put to bed, kept warm, and given a liquid diet with plenty of milk. Scarlet fever antitoxin is sometimes used in some of the more pronounced cases to combat the fever and the rash.

Scarlet fever remains communicable for a long time. It may be communicable for four weeks or even six weeks or longer in some cases; it is assumed that after the four weeks, quarantine that the patient is free from the disease, but should not sleep with another person for at least another two months.

Scarlet fever is caused by germs called scarlatinae streptococci. These germs invade the throat (rarely a wound or abrasion). The poison or toxin of the germ circulates in the body and produces the rash. The nose and throat of infected persons harbor many of these bacilli and scarlet fever is therefore transmitted in any way that the infected secretions are transmitted. Cups and towels used in common, coughing into the face of another, and hands contaminated with nose and throat secretions spread the disease. Articles like toys and clothes "laid away in dark damp places without proper disinfection have been known to retain contagion for a long time. Patients with discharging ears and chronic catarrhal conditions may be infectious for several weeks. Mild cases, especially sore throat forms without a rash, are prolific transmitters through failure in diagnosis.

Extra!

A new series has just been organized," Gary Willecke announced. They will begin next Monday. The programs will be entitled "History and You".

Professor E. T. Smith will open the series with "Problems of Remaining European Democracies." He will talk from 3:45-4:00 next Monday.

On Monday, Jan. 25, Doctor Tolo will speak on "Beginnings of Hitlerism".

Doctor Reppen will talk on "Politics and Economics of The Dictatorship" on Monday, Feb. 2.

Other speakers will be announced at later dates.

Boners.---

Here are some prize boners. They were found in the Sigma Zetan, bulletin of Sigma Zeta National Honorary Fraternity.

A shoat is a slide they use to shoot pigs down.... The function of the clitellum of an earth worm is to separate the anterior from the posterior.... Hermaphroditic, the disease that causes hydrophobia.... The medusa stage is the helpless stage or the stage before adulteration.... The eye is focused by a pull from the pyloric.... Parthenogenesis is the producing of young without fertilization, such as tickling a frog with a straw, causing it to lay eggs.... The cloaca is the sounding apparatus of the frog.... The types of scales on a fish are gonads, colloids and triploids.... A co-ed is a girl who can memorize two sonnets of Shakespeare but always keeps forgetting her pocketbook.... Bigamy—that's when a man tries to serve two masters.... Monotony—the law limiting a man to one wife.... Spice, the plural of

spouse.... An angle, a triangle having only two sides.... A circle, a line which meets its other end without ending.... Trigonometry, having three wives.... Equinox, a man living near the north pole.... Faculty, a body of men surrounded by red tape.... Nicotine, a poison so deadly that one drop on a dog's tail will kill a man.... Skeleton, a man with his insides out and his outsides off.... Water is a light-colored wet liquid which turns dark when you wash in it.... Anatomy is the human body. It is divided into three separate parts, the haid, the chest, and the stummick. The haid holds the skull and the brains if there is any; the chest holds the liver and the stummick holds the vowels which are a, e, i, o, u, and sometimes w and y.... A door knob is a thing revolving door goes around without.... A straw is something which you drink through two of them....

Intelligence Test Shows Superiority Of Point Seniors

By A. J. Herrick

An intelligence test was given recently to 108 seniors who are doing practice teaching in the training school during the first semester. The Otis Group Intelligence Scale-Advanced Examination-Form A was used. This test is perhaps the best standardized mental test that has been published during the past decade. Form A of the Otis test has never been used before in this college, the practice being to use a different test each year.

Results Gratifying

Since 1929-30 it has been the policy of the training school to give a mental examination to all student teachers each year. These tests have been given to supply information regarding the mental ability of our graduates to employers of teachers, teachers' agencies, and to employers in the commercial fields who may have any of our graduates under consideration for a position.

The results of the test this year are especially gratifying. The scores of 55 of the 108 student teachers from all college divisions on or above the general college or university median (I. Q. 115). This signifies that this group of C. S. T. C. students has, as a group, mental ability equivalent to that of college and university students at large. The C. S. T. C. student teacher median in 1934-35 was 111.5, in 1935-36 it was 108, and for the current year it is 115. Assuming that the 108 student teachers tested are fair examples of the student body as a whole, we may conclude that C. S. T. C. attracts a class of student personnel of as high a rank in-

tellectually as attends our major colleges and universities.

Scores Compact

This should be a matter of special pride to both students and faculty. Given such competent students the college can set up standards of achievement comparable with those existing in our larger universities and colleges. A movement in this direction is noted in curriculum changes reported in the December 3 issue of the Pointer. The changes described indicate an advance in scholarship standards and greater curricular coherence.

Another point worth mentioning is the compactness of this year's scores. There are very few exceptionally high or exceptionally low scores among the 108. With the exception of about 14 scores, they all fall closely about the university median. If five or six scores were omitted from the tabulation, the balance would form a splendidly symmetrical distribution.

It is also evident from the distribution found that students in all of the academic divisions of the college are on approximately the same mental level. This feature has not been so apparent in test results of past years and indicates a healthy growth. 80% of the 108 students tested rate as having superior or very superior intelligence according to the Terman classification.

Majority Above Average

According to Dr. Terman of Leland Stanford Junior University, I. Q. scores between 90 and 100 belong to persons who have normal or average intelligence. 60% of the general population are found to have normal or average mental ability. Only 20% of the 108 student teachers' scores fell between 90 and 110. Had this group been a normal one made up of individuals in general, 60% of

the scores would have fallen between 90 and 110. Actually only 20% did so fall. The other 40% presumably dropped out of school for some reason either during the elementary grades, high school or left C. S. T. C. before completing the requirements for practice teaching. The lack of native ability to carry on advanced school work successfully very likely was the most potent cause of such students leaving school.

How great a correlation exists between mental ability and success in teaching has not been definitely determined. It is quite true, however, that a high negative correlation exists between feeble-mindedness and success in teaching. Cases of high I. Q.'s and unsatisfactory teaching success in our training school, that have been noted and studied, seem to reveal that the cause of failure in teaching was some other than the possession of a high I. Q. It will be admitted that mental ability is a very important factor of success in teaching although it is not the only one.

The training school is fortunate to have such a fine group of intelligent student teachers this year. They are able to understand the purposes and the significance of the principles of teaching and, in general, evidence a sincere interest in their chosen profession.
