DEBATE SQUAD ELECTED FOR INITIAL TRIP

The newly selected debate squad of Central State will journey to Normal, Illinois, on Thursday to take part in an important Mid-Western debate tournament sponsored annually by Normal University. Two men's teams with their coach, Mr. Leland Burroughs, will make the trip. Ben Lasky and Gordon Haferbecker will represent the college in the Championship Division while, Jim Murat and Joe Ophoven will debate in division one.

A practice debate will be held with Beloit College on the way Thursday, and the group expects to return to Stevens Point on Saturday. The tournament is regarded as one of the most important of the season by Coach Burroughs, and brings together talent from a large section of the country.

Eau Claire Dec. 17
The debate squad has also been asked to participate in an invitational tournament at Eau Claire on December 17. Twenty schools from Wisconsin, Minnesota, and Iowa will participate in this tournament. Four teams will be sent to this meet from Stevens Point. Other important engagements have been arranged, but will be announced later in the season.

ART STUDENTS SPONSOR EXHIBIT

The Arts Students League under the guidance of Miss Carlsten is sponsoring an Art exhibit which will last to January 20th. All exhibits are the work of local students.

Among those represented are Lucy DeBase, John Pliffner, Bob Tardiff, Marjorie Steff, Marvin Fryer, Edna Carlsten, and Sister M. Luciana. There is a fine assortment of oil paintings, water color sketches, charcoal sketches, wood carvings and cartoons.

There is an especially fine assortment of wood carvings which were done by John Colman, who is the

(Continued to page 3, col. 1)

The Greek social season will be formally inaugurated Saturday night, January 14, when Phi Sigma Epsilon fraternity will stage its formal dinner and dance at the Hotel Whiting.

The dinner, beginning at 6:30, will be for members and invited guests only. Presiding at the speaker's table will be Don Olson, president of the fraternity. Among the speakers will be Dr. P. Falk, president of the college, faculty advisor F. J. Schmeckle, honorary member Leland M. Burroughs of the faculty, and general chairman Michaels. There will also be impromptu speeches by various active and alumni members of the fraternity.

Menning's Orchestra
Harold Menning and his famous 11 piece orchestra featuring Marion Brennan and Don Decker on the vocals, will play for the dinner hour and for the dancing which will start at nine o'clock. The fine aggregation of musicians is well known to local singing fans and has made a name for itself in this state for its novel and danceable style.

Michaels in Charge
General chairman of the affair is Earl Michaels. The committees appointed by President Olson, are as follows: Publicity, Joe Bloom; Music, Phil Dakin, Bill Miller, and Clifton Fostad; Dinner, Fred Parfrey and Bob Bishop; Tickets, Ed Durand and Johnny Felix.

FORENSIC MEN CHOSEN IN MEET

The Debate of Central State has been chosen for the year, and the following people received assignments: Men, Ben Lasky and Gordon Haferbecker, Jim Murat and Joe Ophoven; Women, Marion Smith and Margaret Becker, Jane Johnson and Jane Atkins. The alternates are: Women, Sarah Anderson and Laura Lavall; Men, Ben Kordus and Frank Splitke.

Eliminations
Selection was accomplished through a series of intra team eliminations debates on the question for the year, Pump-Priming, and upon the advice of faculty members serving as judges. Each judge heard every contestant and then ranked the same. The judges

(Continued to page 3, col. 1)

STUDENTS REQUESTED TO SIGN FOR TESTS

The Health Department of Central State Teachers College is now offering the Wasserman test for syphilis, and earnestly urges that all students avail themselves of this opportunity. Syphilis in the United States is the most prevalent of the major communicable diseases, and syphilis control and education in American colleges is a real problem.

Entirely too many people still believe that nobody has syphilis except Negroes, prostitutes, and criminals. Sir William Osler's warning to the Medical Society of London, like an unlearned lesson, bears repeating: "But I see an incredulous look on some faces and I hear the whispered comment—'tis hard often enough! Where is all this syphilis. It does not come my way.' Yes it does. The syphilis we see, but do not recognize

(Continued to page 3, col. 2)

College Glee Club And Orchestra In Assembly Program

The College Orchestra and the Girls' Glee Club will collaborate in presenting an assembly in the C.S.T.C. auditorium at ten o'clock Thursday morning. In addition, members of the music department will offer special numbers. Peter J. Michelsen, head of the Music department, will direct the orchestra and glee club.

Program
The program is as follows: College Orchestra
March—"Let's Go" by Wood
"At Dawning" by Charles W. Cadman
"Intermezzo" from Ballet "Sylvia" by Leo Delibes
"Gavotte" from Mignon by Thomas
"Procession from the Sarda" by M. I. Iwanow
Trio Songs

The trio composed of Eyleene Atkins, Doris Seiberger, and Charlotte Reichel will sing—
"Green Cathedral" by Hahn
"Songs My Mother Taught Me" by Dvorak
Miss Evelyn Schwingel will play a marimba solo.

The Girls' Glee Club will conclude the program with the following songs:
"Lo, A Voice to Heaven Sounding" by Bartniansky
"Holy Spirit, Truth Divine" by Whitehead
(Adapted from Handel's "Berenice")
"Dream Song" by Warford
(Incidental Solo—Eyleene Atkins)
"When I Grow Too Old To Dream" by Romberg

CONGRATS

Miss L. Alta Stauffer, class of '33, has reported to the Placement Service at C.S.T.C. that she has been offered and has accepted the position of English Critic at the Plattville State Teachers College Training School for the Summer Session of 1939. Miss Stauffer was recommended to Dr. Edgar F. Riley, Director of Teacher Training at Plattville by the Placement Bureau here.

She is at present teaching in the city schools of Calumet City, Illinois. Miss Stauffer received her B. E. degree from this college in June, 1933 and during this past summer completed her work at the University of Wisconsin for her M. A.

Attention Juniors.....There will be a meeting of the Junior Class in the front section of the auditorium Thursday morning immediately after the assembly program.....

TWO ONE ACTS ON WED. BILL

This evening at 8 o'clock College Theater will present its second assembly program of the semester. The program will consist of two one-act plays. There will be no admission charge and the general public is invited as well as the student body. Only children accompanied by their parents will be allowed to attend.

"Murder By Morning"
The comedy "Murder by Morning" is directed by Margaret Becher and Betty Hannon. It was written by a Wisconsin author, Irving Wallace. The play deals with the lives of an author of mystery thrillers (Harvey Martini) and his secretary (Nancy Steiner). Instead of the proverbial eternal triangle there is, in this play, a foursome (And they don't play bridge). The rest of the cast is composed of Dorothy Sieck, Harlow Henninger, and Leo Lang, Leland M. Burroughs, who saw a rehearsal, said "The characters are well-suited to their parts and thus we should see a good play the night of the performance."

Swamp Spirit
The other play "Swamp Spirit" is of a very different type than has been presented on the stage of Central State this year. It combines superstitions and the ignorance of the southern swamp people to present a story of pioneer history of southeast Missouri. The acting jobs are being done by Al Carmody, Ben Lasky, Janet Poggenmiller, and Madeline Davel, and the play is directed by Wayne Johnson.

Technical Staffs
Last Sunday and Monday evening dress rehearsals were held for the benefit of the technical staffs as well as for the actors. The technical staff of "Murder by Morning" includes Norman Bensen as stage manager; Merrill Mevenden, Lighting; Jean Holman, make-up; and Barbara Gerdes, costumes. Those on the staff for "Swamp Spirit" are: Eber Siebert, stage manager; Jean Holman, make-up; Evelyn Sonnenberg, costumes; and Merrill Mevenden, lighting.

Mens Glee Club Travels To Mauston For Concert

The Men's Glee Club presented a concert at Mauston High School on Tuesday evening of this week. The one-hundred-sixty-eight mile trip was made by twenty-one members of the organization, with their Director, Norman E. Knutzen, and Accompanist, Miss Roberta Peterson.

The concert was sponsored by the Band Mothers' Organization of that school and featured in addition to group numbers, selections by organization soloists, quartet numbers, and a piano duet. Songs were sung by Russell Frederick and Jerry O'Doherty, and the piano duet was played by Warren LeRoux and Miss Peterson. Gordon Cowles, Herbert Upright, Bill Clements, and Gerald Torkelson sang quartet numbers.

Hoffman To Speak For Rural Lifers

Miss Ruth Hoffman, the local director of the Wisconsin State Employment Agency will give a talk at a Rural Life Club meeting Monday evening, January 16 at 7:30. The topic will be titled "What Characteristics Employers Are Seeking in Prospective Employees."

Miss Roach, who has heard the speech says, "It's very, very good. No student can afford to miss it." The Rural Life Club extends a cordial invitation to anyone who wants to attend. The program will take place in the Rural Assembly.

C.S.T.C. CAGERS MEET GREEN KNIGHTS FRI.

The rollicking Purgolds will enter Southern Conference play this week, seven games up on their opponents and going stronger. Oshkosh and St. Norberts on Thursday and Friday respectively will furnish the competition for the Pointers, Oshkosh being the first conference game of the season.

Titans Show Promise
The Titans were division champs last season and the Pointers were

COACH KOTAL

second. In view of this fact the team that emerges victorious will be given quite a spread for Champs. Oshkosh will enter a line-up that will include two all conference men from last year and several other boys from last year's squad. Daniels, a rangy center, and Becher, a stocky guard, will head the Oshkosh squad bolstered by Speck and Evans, at the forward posts and Richlin at guard. The Pointers will rely on the same line-up that acquitted themselves so nobly against Jordan. Fred Nimz at Center, Pete Terzynski, and Hank Warner at forwards with Bandow and Olk at guards. Hank Nimz who suffered a sprained ankle in the game at Rhineland last week has been responding well to treatment and he doubtless will see action before the game is over.

Please Note!
The St. Norberts team needs little (Continued to page 3, col. 1)

NYA Enrollment Shows Big Increase In '38 - '39

9,000 ASSISTED IN WISCONSIN

Administrator Aubrey Williams recently announced that 312,893 students were employed in the NYA Student Aid Program for October, an increase of 68,000 over the figure for the corresponding period in the preceding year.

The increase in Student Aid enrollment for the current academic year 1938-1939, said Mrs. Williams, is due to the enlarged fund quotas allocated to schools and colleges and to the familiarity with procedure which enabled the educational institutions to complete their arrangements earlier for participation in the Student Aid Program.

Many Receive Aid
The total Student Aid enrollment in October, 1937, was 244,648. Of this number, 155,793 students were receiving high school aid and 88,855

were receiving college and graduate aid. In October of this year, of the total NYA enrollment of 312,893, high school students numbered 212,473 and college and graduate students numbered 100,420.

Enrollment Equally Divided
The enrollment is almost equally divided between the sexes, with 160,312 males and 152,581 females receiving Student Aid. The number of schools participating in the program in October was 22,395. Of this number, 20,824 were high schools and secondary educational institutions and 1,571 were colleges and universities.

The figures for the Wisconsin NYA Student Aid Program tabulated October 31, 1938 are as follows:

Number of schools	22,395
participating	567
Number of male persons	160,312
assisted	4,720
Number of female persons	152,581
assisted	5,044
Total number of persons	312,893
assisted	9,764

NOTICE!

The students and faculty members are cautioned not to park their cars or walk where there is danger of the ice falling from the school roof.

College People Should Take The Lead In Fight Against Syphilis

"A stitch in time saves nine". How often this adage is applied to problems of everyday life. People are urged never to put off until tomorrow what they can do today..... lest tomorrow come too late.

In the days of our youth our mothers took every precaution to protect us from childhood ills and diseases. In high schools athletic directors saw to it that each person engaged in some form of exercise. Why? To develop and maintain the good health of the student.

LARGE PART OF FEES FOR ATHLETICS This year a large part of our student activities fees went to the athletic department. We have two women and two men engaged in directing the activities of this department. Why? Because we know that a healthy, sound body is necessary for happiness and success.

When we can go to all this expense for health, why shouldn't we avail ourselves of the opportunity to enlist in a combat against the disease which infects and destroys every mental and physical tissue of the human body. A disease which can, if treatment is ignored, make raving maniacs of football heroes and college professors alike.

2 OUT OF EVERY 1000 INFECTED According to a recent survey based on the results of 78,388 blood tests in 500 American colleges, 2 out of every 1,000 students are infected with syphilis. That doesn't seem very high but those two might be you and I!

WASSERMANN TESTS ARE AVAILABLE Last week Dr. Marrs announced that the Health department is ready to make tests for anyone desiring them. A case of syphilis is of great importance. If undetected it spreads and becomes the focal point of an infection. If detected and treated the communi-

ty as well as the individual is protected. The age-group of first exposure, of which college people are an important part, is the only group in which control can reduce the general rate to an appreciable extent.

INTELLIGENT ACTION CAN ABOLISH SYPHILIS As students we are supposed to be leaders in intellectual pursuits. We are expected to direct others toward physical perfection. How then can any of us hesitate to take advantage of the Wassermann test? Let's do our part in making syphilis a forgotten plague of the past.

POISON'S PRUNINGS

Current conundrum: Is this college designed to train people to be teachers to service this part of Wisconsin or is it a school for the preparation of people for the graduate school at the University. If it's a teachers college, as I had been led to believe when I enrolled, 9 chances out of 10 when a call comes for a teacher they ask for an athletic coach, a debate coach, a dramatic coach, a band man, an orchestra man, one who can handle glee clubs, publications etc. The majors and minors being quite secondary as that can usually be adjusted by the school seeking the new teacher. Those people who come here for a year or so in anticipation of going on at the University, are naturally quite studiously solid, scholastically. They can afford to be. They carry no extra curricular to enrich their possibilities of getting a teaching job. That's entirely their business and they should know what they're doing..... Now the point is this. Don't question the industry of a hopeful teacher-to-be who seems quite below par and non-industrious in your class room. When you compare a person preparing himself to be a teacher beside an individual preparing himself to enter law or medicine..... you may not have an individual who is there because he prefers or desires your course. He may need it to graduate.

The faculty member who has no responsible connection with any extra-curricular activity and who holds no worry and has no particular interest in placing an individual, can well afford to question the industriousness of some of us.

Jerry Dunn promises a skating exhibition as soon as the ice gets in shape and the girls quit bothering him.

There has been quite an epidemic of diamonds lately. Most of them are recent graduates but we have one "rock" right here on the campus..... Marguerite Adams is the name and she's so bold about it too. Either she's trying to impress a few of us "birds" with our own insignificance or she's trying to discourage us for the future. At any rate, she wears it very well and we do kinda envy Irv. (I hope that's who it is).

Flash! Atkins is snortin' all over the place because "Heinie the Horn Blower" is sporting another girl. Three nights in a row he had her out..... For shame!

Term papers are now undergoing processes of revision, metamorphosis, auction, sales, friendly obligations, and exchange. Then on the other hand..... some people take a week off, (or all night) and try to be different. They actually create new ones.

How's about some of these ardent "mailbox" fans signing their own names to some of their tart complaints that they make through the Pointer?

Mrs. Finch (at the dorm) is doing very well after her recent illness and we fellows who are pleased to see her smiling face will be looking for her. (Yes, some of us actually enjoy stopping in to see Mrs. Finch.)

The following space is reserved for your personal reaction to this question: Why do you suppose that Evelyn Hillert (Phone 652) would just as soon transfer back to Lawrence?

According to Lois Peden..... Ophoven's all right. What do the rest of you girls think about it?

THE WISDOM CORNER

By "DOC" BEN
"Saxes Mean Jobs"

In one of my education classes the instructor stated very emphatically that we should be the leaders and should not be everlastingly copying the methods of the scientist and the economist. This statement, taken literally is apt to be misleading. It does not mean that we should not adopt those parts of the scientist's methods which work and which have proved successful. Many of their patterns of operation can teach us much if we but have the initiative to apply them.

One of the first requisites of a manufacturing plant is to produce a sound, dependable product; one that the salesmen may display, present, and guarantee with a conscience free from guilt or deceit. The producers who are held in the highest esteem are the ones who have ever higher standards and who immediately reject inferior products. A second requisite of a manufacturing plant is to get Live Salesmen on the payroll.

I fail to see why C.S.T.C. does not have more Live Salesmen on the road. We have people in positions, with abilities, who could do marvelous work in this field. It is gratifying, however, to note that at least a few of them have been actively engaged in this line. I have noticed some happy developments recently.

With an ever increasing supply of teachers and a demand that indicates but slight positive trends, the outlook is none too bright for prospective teachers.

A school with a standard so strict that students would enter with the knowledge—"Produce or Get Out"—and with the assurance that "Produce and You Will be Placed"—, would draw the best quality material in the state. It might prove difficult at first, but the goal once attained would be an admirable achievement. High standards of attainment and production will not deter valuable students from attending; on the contrary it would draw them here by droves.

Maybe I'm wrong, but, should a teachers college act as a "feeder", or should it turn out teachers?

SALES MEAN JOBS

NEWS FROM THE FIELD

Christmas vacation brought many familiar faces back to our midst. Among them were Ted Menzel who is coaching at Marshfield, Bill Larson of Antigo, and Ted Kettler of Mosinee. Joanna Walker of Barron and Gene Connor spent a few days here with friends.

Bjorn Christenson, last year's Senior Class President, has taken over the coaching position at Wittenberg High School.

Coach Guy Krumm of Crandon, Wis., has won 27 consecutive basketball games. In spite of the fact that Krumm's team has been without a gym all year they are still undefeated and have good prospects of remaining so for the rest of the year.

THIS WEEK AND NEXT

On Wednesday, January 11, at 8 P. M. the College Theatre will present two one-act plays in the College auditorium. It's free!

The Girls Glee Club and the College Orchestra will present an assembly program Thursday morning, January 12. Following the assembly there will be a faculty meeting in Room 207.

Y.W.C.A. will meet Thursday Jan. 12, 7:30 P. M. at Nelson Hall. There will be a special speaker and lunch will be served. Everyone is urged to be present.

Photo Club will meet on Thursday night at 7:30. Mr. Burroughs's room will be used for the occasion. There will be special slides and a party following the meeting.

Thursday, January 11, the basketball team will play Oshkosh at Oshkosh. Friday the team will go to St. Norberts.

Thursday the debate team will go to Normal, Illinois.

Phi Sig Formal Saturday, Jan. 14 at Hotel Whiting. Banquet at 6:30. Dancing begins at 9:00 P. M.

Rural Life meeting Monday night at 7:00 P. M.

RADIO NOTES

Typical U. S. Dial-Twister belongs to a family with an average income of \$1160 and education thru elementary school. He spends only \$30 a year for recreation of all sorts.

Listening habits show the average U. S. receiver is turned on nearly five hours a day, urbanites listening 4.75 hours and ruralites 4.78. Researchers found that on an average weekend persons who spend from \$30 to \$50 monthly for rent were the steadiest listeners, with 30 percent having sets on mornings and afternoons and 50 percent in the evening. Group paying the largest rentals were the least faithful listeners, only 35 percent of them tuning in between 8 P. M. and midnight.—Testimony of Hugh M. Beville, Jr., chief statistician of the National Broadcasting Company, before the Federal Communications Commission, November 17, 1938, as reported in Variety, November 23, 1938.

Listeners Digest, a magazine which will attempt to sift, digest, and produce in print material which has been broadcast from radio stations all over the country, will make its appearance next month. This publication is being undertaken on the sound theory that it is an utter impossibility for the individual listener to hear all that is worth hearing and that much that is heard merits a more leisurely perusal than the fleeting airways permit. The magazine will be published by Listeners Digest, Inc., 420 Lexington Ave., New York, N. Y., at 25 cents the copy.

Radio courses in a variety of college subjects ranging from literature to geology, with members of the faculties of metropolitan universities as instructors, are now available to listeners thru the facilities of WNYC, the municipal broadcasting station, New York, N. Y. The courses are part of WNYC's extensive schedule of adult education programs. Co-operating in the presentation of the courses are New York University, Brooklyn College, Hunter College, and the College of the City of New York.

The American Medical Association began on October 19 a fourth series of the dramatic health education programs, "Your Health." The programs are being heard over the NBC-Blue network each Wednesday at 2 P. M., EST, for thirty-six consecutive weeks. One of the programs of a previous "Your Health" series received a first award at the Annual Exhibition of Recordings of Educational Radio Programs at Columbus, Ohio, last May.

Arthur G. Crane, president of the University of Wyoming and chairman of the National Committee on Education by Radio, was elected president of the National Association of State Universities at its annual meeting held in Chicago last month. Dr. Crane has long been chairman of the Association's radio committee.

The Library and the Radio, Number 18 in the Information Series of the National Advisory Council on Radio in Education, 60 East 42nd Street, New York, N. Y., is the work of Faith Holmes Hyers of the Los Angeles Public Library, chairman of the library radio broadcasting committee of the American Library Association. The study is divided into the following sections: "The Librarian Co-operating with Educators on the Air," "The Librarian as a Broadcaster," "The Librarian Experiments with Radio Programs," and "A Look Ahead."

Bruce E. Mahan has been elected president of the National University Extension Association for 1938-39. Dr. Mahan, a member of the radio committee of the NUEA, has long been actively interested in radio at the State University of Iowa, where he is director of extension and chairman of the University-Radio Board.

Three weekly broadcasts of
(Continued to page 3, col. 4)

SOCIETY LIFE

Giles-Winch

Miss Winifred Giles and Samuel Winch were united in marriage December 26, 1938. Only the parents and the immediate relatives attended the ceremony at the Giles home.

Samuel Winch, better known as "Timmie" Winch, is a former student of Central State Teachers College. He entered college in September, 1934 and after attending for three years, withdrew at the end of the first semester in 1937-38. His host of friends remember him as excellent in music and an all around "swell fella". Prior to his marriage Tim is attending Eau Claire Teachers College.

The young people are making arrangements for a tour through south Wisconsin.

Forensic Men Chosen In Meet

(Continued from page 1, col. 2.)
The Women's debates, E. T. Smith, O. Reppen, and Miss Sue Colman; Men's debates, H. M. Tolo, W. G. Jenkins, and H. R. Steiner. Twenty-five students participated in the elimination rounds.

The other members of the Forensics Society will continue to hold their regular meetings and work on a series of projects. The organization will sponsor a tournament in this college in February, and is planning on participating in radio programs in the near future. In addition, members will act as coaches for Junior High Debaters and other forensics activities in the Training School. Debating activities will be continued as a part of the work.

Pointers Face Titans Thurs

(Continued from page 1, col. 5)

introduction to local fans. The Pointers squeezed out a 41-40 victory over the Green Knights here in the season opener. However, the Kotal-men have come along fast during the last six games and we pick them to halt the De Pere boys by a more decisive score.

Back Your Team

With the conference opening this week you fans give the team a merited boost. We've got a good team here and although we are not conceding them a championship, we do maintain that they will take a back seat to few, if any. So give the boys a hand, folks, and let's do all we can to bring that banner back to Stevens Point.

STEINER RECALLS C.S.T.C. HISTORY

The speaker at the last meeting of the Grammar Round Table held in Mr. Watson's room Monday night was Mr. Herbert Steiner, Dean of men.

Mr. Steiner discussed the early days of Central State, some of the traditions of the college and how they started. An interesting practice that has been discontinued, was that each class officer was on a debate team. Another thing carried out in "those good old days" was the annual "hazing" of each class president.

Champ Team 1907

Mr. Steiner recalled that in 1907 our team held the state championship although they only played two games that year. Also included in his interesting talk was a brief discussion of the Mardi Gras and other events of C.S.T.C.'s early years.

The meeting was presided over by Miss Florence Smith, president of the Grammar Round Table.

Art Students Sponsor Exhibit

(Continued from page 1, col. 1)

father of Miss Susan Colman. Beside this display of wood carvings, there are two fine paintings by Marvin Fryer, a former student of C.S.T.C.—now enrolled in the Layton School of Art, and Evelyn Sonnenberg, a junior of Central State. The cartoons were drawn by Arnold Mossler.

Invited

The Art League wishes to extend an invitation to all students to come in at anytime before January 20.

Syphilis Campaign Started Here

(Continued from page 1, col. 3)

everywhere awaits diagnosis, so pre-
tear are its manifestations."

Syphilis Can Be Cured

Dr. Raymond Vonderlehr, Assistant Surgeon General in charge of the Division of Venereal Diseases, United States Public Health Service pointed out that on the basis of 78,388 blood tests, the largest sample yet taken among college students, the prevalence of syphilis among white students is 19.9 per 10,000. Size of enrollment, type of institution, or geographic location has no bearing on the rate of syphilis. But once found, syphilis can usually be cured. However, every doctor must be prepared to play his part. These must be ready to recognize this disease which is undermining the youth of our nation. There are too many patients of this disease—about 10,000,000 in the United States.

The major efforts of public health authorities must be centered on early syphilis. The best method of preventing the spread of this infection is the prompt and adequate treatment of early syphilis.

The annihilation of this disease depends on each individual member of society. As the youth of the world, it is your duty to do everything that you can to prevent the spread of this dreaded disease.

T. B. Tests Offered

"An ounce of prevention is worth a pound of cure" is an old saying but it can be applied to the Tuberculin tests now being offered by our Health Department. Dr. Marrs requests that you sign for the tests in the main office from January 9 to January 20, to ascertain the amount of serum to order.

Student Art Club Shows Varied Exhibit

Its atmosphere changed from that of a study room to that of a gallery the Art Room furnishes an appropriate setting for the art exhibition which started yesterday. Flowers, the market square, and many other themes are beautifully expressed in the oils, water colors, and charcoal drawings that are being displayed.

Among those of greatest interest, perhaps, to the students are the "Market Square in 1900" and Stevens Point Begins" which are paintings by Evelyn Sonnenberg and Marvin Fryer, respectively.

Market Square

Imagine yourself shopping in the square in the late 1890's and you will picture the scene depicted by Miss Sonnenberg in the "Market Square in 1900". In one corner of the square, known to the older residents of Stevens Point as the Devil's Elbow, we see farmers selling wood, vegetables, and chickens. The scene is graced by the presence of two nuns pictured in the upper left portion of the illustration.

Stevens Point Begins

Located to the left of the Market Square is Fryer's picturesque "Stevens Point Begins". This mural depicts a scene on the Wisconsin River way back in the days when Indians and Whites farmed side by side. In the foreground at a bend in the river we see a man who, casting logs into the stream to be carried down to a sawmill located in the background, designates the lumber industry. A plow and two oxen are indicative of farming.

Two stalwart Indian braves are pictured in the center who seem to resent the intrusion of George Stevens, the outstanding or central figure, who is pictured standing beside his faithful companion, his dog.

Another picture of especial interest is a self-portrait done in oils by John Pfiffner who attended this school last year.

As one goes around viewing the different artistic works the gracious club advisor of the Students Art Club, Miss Carlsen, is always ready with a detailed description of anything that one might be especially interested in.

A delightful treat of punch and cookies was furnished during the reception by the Art Club sponsoring the exhibit.

Many people, from Stevens Point and surrounding towns, have already visited the exhibit which is highly educational as well as interesting and entertaining.

COED'S COLUMN

Thanks so much for that light for our bulletin board, now it certainly has some 'umph' about it.

The Phy. Ed. practice teachers are putting their students through the final drills for their demonstration that will be given Friday, January 20, at 4 o'clock in the Training School Gym.

The basketball tournament is being run off with four teams participating. If you really want to see some snappy ball playing come down and watch these girls. Last Wednesday afternoon the "Allahs" defeated the "Rurals" and the "Trojans" took the "Bears". All four of the teams have proven themselves stiff competition.

If any more of you gals and fellows would like to get into the tournament report to Miss Gormley or Mr. Heyer as soon as possible. The best players, one boy and girl will be chosen to play in the exhibition tournament between halves at a basketball game. Watch the bulletin for further scheduling.

Incidentally, why don't more of you girls come out for mixed sports. Don't let this become a stag affair.

W.A.A. girls watch the bulletin board for notice of our meetings and other special announcements.

The Ping Pong tournament needs a little more zip since the holidays. Come on revive it. I'm anxious to see who the champion will be.

Wednesday evening from 7:15 to 8:45 mixed badminton tournaments are being held. Last Wednesday Eleanor Theisen and Harold Scheel, Dorothy Ingram and Lyle Grambsch, and Grace Melchior and Eddie Essex won the birds.

FROM HERE AND THERE

From the time of the end of the Civil War and 1938, the number of microscopes in America increased from about fifty to 50,000.

Honeycomb cells, generally thought to be hexagonal, are circular in interior cross-section.

More than 1,700 tons is the estimated weight of the largest tree at Sequoia National Park, California.

Woodpeckers use their stiff tails as props or supports when clinging to a tree.

The number of ships that have passed through the Panama Canal is greater than 100,000.

The oldest children in large families as a rule live the longest.

One and seven eighths tons would be the weight of one million dollars in twenty-dollar gold pieces.

Nine feet long and six feet wide is the size of the smallest public park in America located at Visalia, California.

When sea birds are confined in cages on shipboard, they get seasick.

Nests six feet long are sometimes built by orioles in South America.

A woman in Brooklyn, New York makes crocheted miniature houses.

POINTERS TRIP JORDAN IN SEVENTH WIN

Stevens Point rung up its seventh consecutive victory last Friday by defeating the Jordan Angels 47-36 on the P. J. Jacobs High School floor last Saturday.

Led by Fred Nimz and Hank Warner with thirteen and eleven points respectively the Pointers jumped off to an early lead and were never behind at any time during the game. The passing and shooting were especially fine throughout the game. The Pointers connected on twenty of sixty three attempts.

Good Scoring
The Jordan team was lead by Wagner and Steffen who hung up a round dozen markers a piece. The floor work of Gilmore, Jordan's colored forward was sensational at times and he gave the fans an exhibition of real speed.

The game as a whole was well played and at no time was there a dull moment. The smooth passing of both teams was par excellence at all times.

SPORTS QUIZ

1. What is an offside in the game of hockey?
2. What former American League baseball player is now playing with the New York Giants in the National League?
3. Who is the coach of the Purdue basketball team?
4. What was the score of the Rose Bowl game between Duke and Southern Cal?
5. What Wisconsin football star has been in the movies?
6. How do they furnish sound effects for a movie fight?
7. How much of the blade of a figure skate touches the ice?
8. What championship fight is coming off the latter part of this month?
9. How many players on a girls basketball team?
10. What school did Woodrow Wilson, former president of the United States coach at?

INTRAMURAL COLUMN

** Mens Badminton **

Chuck Heyer head of the intramural department has organized a mens badminton league which holds its games every Tuesday night starting at 7:15. Doubles teams are being formed and the sport is becoming very popular among a number of boys in school. Some of the more outstanding players are G. Quandt, Scheel, Stenz, Ruppel, Turner, Urbanowski, and Grambsch. A small fee of 5c per three games is charged. The winning combination receives the shuttlecock.

** Mens Tumbling **

Along this same intramural line Mr. Heyer has organized a mens tumbling group and states that there is still room for more men in this sport. No experience is necessary as there are men who are experienced to give advice to others. The leaders in this group are Olingy, Bartosz, McDonald and Benke.

** Forming of Volleyball Teams **

In the very near future a call will be issued for volleyball teams to make up an intramural volleyball league. Medals will be awarded to the team winning in this league. Further notice of this will be posted on the mens bulletin board.

** Free Throw Contest **

This contest is opened to anyone who can hold and toss a basketball. In order to qualify you must make at

"SIZING 'EM UP"

The students that went home for the vacation missed some good basketball—Point made it seven straight by upsetting a highly-touted Jordan team 47 to 36—Concordia College and Rhinelander city team were two of the 'holiday victims—although the Point squad has beaten some strong teams they have yet to play as smoothly as they are capable of doing.

Gilmore of Jordan showed occasional signs of brilliance in the last contest, but failed to connect many of his tosses—Terzynski, Olk, and Fred Nimz played well in the Jordan game—Olk turned in his best game of the season—Hank Nimz was still unable to play because of an injured ankle.

A team composed of Dick Larson, Bob Shrank, "Shrimp" Turner, and Ralph Urbanowski defeated a team composed of Meyer, Bagnell, Berard, Koehn, and Winkler—all of the latter were candidates for the varsity squad.

If this mild weather continues, tennis and swimming will be more in order than hockey. The local rink has been open only five days this season—too much work for the city crew—or is it because the city thinks that money spent for recreation is wasted.

Several teams have contacted students of this school in an attempt to schedule hockey games, but alas! Plans for a college team have again fallen through—and not from lack of student support.

The intra-mural program is continuing to attract a large number of students, but the Monday and Wednesday programs could take care of more than are now attending.

least eight of fifteen free throws. For further notice of this see mens bulletin board.

** Mixed Badminton **

On Wednesday night at 7:15 the mixed badminton tournament is to be played. Teams entering the league so far are,

Team 1. Eleanor Theisen and Harold Scheel; 2. M. Fleming and G. Quandt; 3. G. Melcher and Essex; 4. C. Prouz and G. Stenz; 5. D. Ingram and L. Grambsch; 6. H. Faulks and J. Halverson; 7. W. Miller and C. Wikrus; 8. M. Kujiwa and R. Urbanowski; 9. A. Jensen and E. Turner; 10. Celia Jordan and E. Ruppel.

The winning teams in this league receives the shuttlecock. Two leading men and two leading women will put on an exhibition at the half time of a college game later in the season.

NOT BAD FOR A START

By JOE BLOOM

Seven games is not so bad for a start. In fact, as we see it, it's pretty fair. We are talking now about the Point's grand slam of seven victories in its warm up schedule. Starting with the thriller against St. Norberts and so on right down the line until you get to the Jordan game. Seven straight victories without a set back. The opponents were not all set-ups either. St. Norberts usually puts out a good team and gave Milwaukee a sound trouncing in the early part of the season. Northland College from Ashland had a fifty point average last season and were considered equally as strong this year. River Falls is considered a contender for the Northern division title and they, too, fell a victim to Kotal's sharpshooters. Then we go along until we get to the Jordan game. Jordan was given a good share of it in of by previous columnists who watched them and yours truly is no exception. Coach Garrity put a fast smooth-working aggregation on the floor and by Wagner, Sailman and Steffenp they passed the ball with unerring accuracy, and their shots were of the breath taking variety. But in spite of all this they were only a fair second to a Point team that handled the ball with plenty of class, broke with lightning speed, and rolled the ball into the charmed circle with devastating regularity. Now mind you, we aren't selling this Jordan gang short. They had a ball club and a plenty good one but Point had a better one. Fred Nimz rose to supreme heights in that game. His brother, Hank, was out but Freddie took over and what a game that boy did play! Captain Hank Warner, too, put in his share of the baskets and Pete Terzynski, Art Bandow, and Bob Olk, came in for a good share of the credit.

Now the way it looks you might think that we are placing the Conference Championship in our back yard before the season starts. We're not. We're giving credit where credit is due. If the boys can keep that up through the conference season—well, let's hope. Anyway we should wish them luck. They made a grand start and deserve the whole hearted support of every loyal Pointer fan in this fair land of ours.
