South American Theme
In Art Department

News does travel at a top rate and word was not long in spreading on the way to the Art Department this afternoon to watch the art students unpack a Latin-American Exhibit. Out came books and pamphlets dealing with Latin-America, record-

ings of Latin-American songs and dances, handicraft articles, flags, maps, and pictorial materials. The display was so attractive and the Art Room looked so thoroughly Latin-Americanized that we began to wonder what was detaining Car-

ren. Then we remembered a Spaniard who was arriving. The night we spoke Spanish we advise you to go in to see the Exhibit—especially you students who are teaching History, Geography, or Social Studies.

STUDENT SPARRING

TO THE EDITOR:

It was highly amusing to read the column "The Latest" in last week's issue of the Pointer. It's always nice to see lighthearted stories, especially when they are written by someone who has a flair for the unexpected. I'm sure the reader will appreciate the intelligence and wit displayed in your writing.

Yours sincerely,

TRIPLE TIE FOR SOFTBALL LEAD

A triple tie exists for the intra­mural softball league championship. The Hurricanes, Independents and the Yankees, who were victorious in their first two games, have all the teams involved in the deadlock.

In the opening game a week ago Tuesday the Yankees trounced the Linoleum Rugs 14-6. Marvin Harrison, the Toe fisher, hit three home runs and had control of the situation throughout. Numerous errors on the part the Rugs encouraged the Yankees to pound three hurlers for 15 safeties.

The Fumblers forfeited to the Independents. The Hurricanes defeated the Phi Sig 6-3. Bob Schunk slugged the fly ball to left field. Then Swob and Thruke both hit three home runs while striking out ten. Posluszny led the winners with a homerun and a triple. In a free­fielding game, the Independents handed the Linoleum Rugs their second straight 9-6. Kulidas gave up seven hits and struck out six.

Last Wednesday the Hurricanes came from behind to defeat the Fumblers 10-8. Losing, the Fumblers came to bat in their half of the last inning, and when they were out, they were out and with whom and why. It's great to have an old standby, isn’t it? Mickey, Brooks, Owens (incidentally where is Mr. Sager spend the last weekend? Larson and all the rest. There will be usual promises. Harvin and Markey’s band is scheduled to appear, but with whom.

We could help Poggie out on the ad situation again. We have the following extras. Wanted, one prom date. Need not be a member of a panel discussion. Walker must have at least 17 cents for cokes. Must be able to dance a little. Call Nelson Hall for further details. Or we might add a $1.65 to pay my class dues. A Junior. 

Ginger Nelson has the diamond and the accoutrements. Lacking is the wedding dress for long. Saturday Ginger will journey to Milwaukee to top those wild songs with Joe Palmer. Don’t say that we didn’t tell you.

I was surprised in a special notice for the dormitories for Saturday afternoon if you want a place to please before the 2 a.m. deadline, ask Brenner and Owens for reservations. Speaking of dancing, don’t forget the Tug Swan in the college gym Friday after­noon, right after junior hall fire­house.

Eldred Judd is still knee deep in roses with Donna Rae which reminds me of last week’s meeting. Doc took because this term is of course, and to whom may well b e that with whom.

This year marks the 11th annual "Playday". Up to date 12 schools have designated a desire to invade the spring program with participation in a varied spring program theme.

MEN’S GLEE CLUB

At 11 o’clock this morning, 33 members of the Men’s Glee club left in the college bus to present two numbers and their first appearance before central Wisconsin audiences. At one o’clock they are presenting a concert at Clinton College and then travel immediately to Marion for an appearance at three o’clock.

FRATERNITY SOFTBALL SERIES BEGINS NEXT TUESDAY

The eleventh annual Chi Delta Rho and Phi Sigma Epsilon intramural softball series will get under way next Tuesday, May 5th. The scene of action will be at Schmeeke Field, and the game time will be 4 P.M. The series as in previous years, will be the best three out of five games. The Chi Deltas hold an eight to two edge in the series to date, which was begun in 1932.

This year, Myron Sharkey, fleet Phi Sig star, will captain the Phi Sigma Epsilon team. Sharkey has given a tentative lineup, with several players in doubt because of work which will hinder their playing. Sharkey plans to start Bill Carnahan with Sam Barton to catch his slants. In the infield will be Hebert at first, Lewison at second, Buck at short and Capt. Sharkey to cover “the hot corner”. Patrolling the outer garden will be Bob Becker, long distance hitter. Jack Perry, rookie fielder, Tom Wishinski, and John Ziehlke, another rookie of this year’s team.

COLLEGE Y

On Friday evening, the College Y will meet in the recreation room of Nelson hall. Prof. A. E. Harris will be the principal speaker and direct the discussion which will follow. The attendance has been steadily increasing at recent meetings and another large turnout is expected at Friday’s session.

Fritsch To Play With Green Bay Bluejays

Ted Fritsch, who recently signed his Green Bay Packer contract has successfully passed a trial to play baseball with the Green Bay Bluejays in the Wisconsin State League, and will join the Jays immediately after school disbands.

Teddy has played baseball with various local teams for the past few summers and has impressed many a baseball follower with his performances. Although he has passed the trial as a catcher, Ted plays in the infield equally well. His power at the plate was often feared by opposing pitchers and his hustle in the field have made him an outstanding figure on the diamond.

We sincerely hope that Teddy will compile many records while playing baseball and football in Green Bay. He is sure to catch on with the fans and his abilities should provide the rest.

COLLEGE FORUM

Superintendent Harley Powell, Clintonville, a former student at CSTC will address students attending the forum meeting Thursday at 10 a.m. in the auditorium. Since this is the last meeting of the high school division, all members in this department are expected to attend.

NAVY ANNOUNCEMENT
TO COLLEGE FRESHMEN AND SOPHOMORES 17 THRU 19

You want to serve your country!
Why not serve where your college training will do the most good?

Under the Navy's newest plan, you can enlist right now. You don't have to quit college.
You can stay in college, continue your studies and qualify to become a Naval Officer—on the sea or in the air.

Who may qualify
If you are between the ages of 17 and 19 inclusive and can meet Navy physical standards, you can enlist now as an Apprentice Seaman in the Naval Reserve. You will be in the Navy. But you may remain in college, taking regular college courses under your own professors. Your studies will emphasize mathematics, physics and physical training.
After you have successfully completed 1½ calendar years of work, you will be given a classification test. This examination is competitive. It is designed to select the best men for training as Naval Officers.

How to become an Officer
If you qualify by this test and can meet the necessary physical standards, you will have your choice of two courses—each leading to an officer's commission:
1. You may volunteer for training as an Aviation Officer. In this case you will be permitted to finish at least the second calendar year of college work, before you are ordered to active duty for training to become an officer-pilot.

However, at any time during this two year period, you may have the option to take immediately the prescribed examination for Aviation Officer ... and, if successful, be assigned for Aviation training. Students who fail in their college courses or who withdraw from college will also have the privilege of taking the Aviation examination. Applicants who fail to qualify in this test will be ordered to active duty as Apprentice Seamen.
2. Those who qualify in the classification test and do not volunteer for Aviation will be selected for training to be Deck or Engineering Officers. In that case, they will continue your college program until you receive your bachelor's degree, provided you maintain the established university standards.

Those whose grades are not high enough to qualify them for Deck or Engineering Officer training will be permitted to finish their second calendar year of college. After this, they will be ordered to duty as Apprentice Seamen, but because of their college training they will have a better chance for rapid advancement. At any time, if a student should fail in his college courses, he may be ordered to active duty as an Apprentice Seaman.

Your pay starts with active duty.
It's a real challenge! It's a real opportunity! Make every minute count by doing something about this new Navy plan today.
