

## 113 STUDENTS TO GRADUATE LAST SPRING FORMAL MAY 23rd

### Omega Mu Chi Books Malcolm's Orchestra

Maidens fair! Get out your best gown, ask your best beau, and have a gay time at the Omeg Spring dance. Make the last formal of the year something to remember! Bob Malcolm, a Casino favorite, has been booked to provide the sweet notes that will float around the dance floor on the night of May 23. Come on, coeds of C.S.T.C.—pop the question to your biggest moment, buy a ticket from any Omeg. The tariff is only \$1.50, tax included. The dance will begin at 9:30.

Members of Omega Mu Chi sorority and their guests will enjoy a dinger at the Hotel Whiting; it will precede the formal, to which everyone is invited. Speakers at the banquet, scheduled to begin at 6:30, will be Ruth Stelter, President, Lillian Boe, Toastmistress, Dorothy Dunn Huffman, Society Editor of the Stevens Point Daily Journal, Mrs. A. E. Harris, Mrs. H. M. Tolo, and Mrs. Earle Kidder, who is to become a new patroness of the sorority.

### FACULTY COMMITTEE TO AUDIT FUNDS

At a meeting of the faculty, held on May 7, 1942, it was unanimously voted that the Auditing Committee audit the financial accounts of all student organizations receiving funds from any source whatever, other than those funds allocated from the General Student Activity Fund.

In order to get this information before the various student organizations, the Auditing Committee is issuing this memorandum to the Treasurers and Officers of all such college organizations, with the exception of the Sororities, Fraternities, and those organizations receiving funds from the Student Activity Fund. In case, however, any of the several organizations receiving a percentage of the regular Student Fund, should receive funds of any kind from any other source, said organization must present its financial records of these additional funds to the committee for audit.

Please submit your financial records and books for the purpose of this audit to Miss Syble Mason between the hours 9:00-11:00 and 1:00-4:00 on any school day from May 18, 1942 to May 20, 1942.

The final date for turning in such financial records is 4:00 P.M., May 20, 1942.

Signed by Auditing Committee  
O. F. Nixon  
Syble E. Mason  
V. E. Thompson.

Since this is the final edition of The Pointer for the current college year, I welcome the opportunity of a final message to the graduating class. I know I express the sentiment of the entire faculty when I say that we wish you success in your work next year and, the years to come, and we hope you like your job because that's important. Some of the men will not have the opportunity to try their hand at teaching next year because they have another task facing them which may be more important for the time being. For them also we wish good luck and safe return. Come back to visit us whenever you can, but keep 1944 in mind. That's our 50th anniversary year and we're planning to celebrate.

To those who are not graduating, we wish a pleasant and profitable summer vacation and hope we may see you back here next September. We have had a good college year in spite of the national and international disturbances. We'll try to do as well again next year.

I also want to express my personal good wishes to the members of The Pointer staff who are leaving us. I believe you have provided us with a fine college paper. The editorial policy has been cooperative and constructive and the news service has kept us in touch with all college events in an interesting manner. Your work has been a contribution to college life in Central State.

## Scandal! Reporter Reveals Male Presence In Dorm

By Hannah Kaufman

The "dormites" bounded out of bed at five forty-five, and in half an hour's time they were outside "sounding off" on Fremont. Setting-up exercises were next in order, and then, unmindful of what was coming down in buckets, they tossed their shoes in one heap and ran a relay race. The object was: Find your shoes and put them on.—Try it sometime—when weather conditions don't permit.—After the rally around the flag on the campus, the "dormites" trooped back to their rooms at Nelson Hall, where they spent the next half hour removing specks of dust that were barely noticeable. A hungry group responded to the call for breakfast.—And so to school. The "dormites" studied math., geology, health and sanitation, and other subjects of relative importance. After mess at noon came more studies followed by Drill later in the afternoon. The evening was open for recreation—with a nine o'clock curfew—after which time it was "Fire escapes only, please!"

That, dear readers, is the day in review—as lived by Joe Smith, Dormite, nineteen hundred and sixteen.—As if you couldn't guess. Had sentence one referred to dormites "42"—it would have read: The dormites yawned at seven forty-five.

But back to Joe and the boys who "confiscated" Nelson Hall in '16—when this center was a preparatory school at which Joe was given a three months' officers' training course, and if he passed all exams he was sent to Camp Grant commissioned as a Second Lieutenant.

The rooms in the Dorm in those days had the masculine touch—as required by army regulations.—A

table—chairs—and a cot with all the necessary bedding—except—no pillow, unless Joe smuggled one in and hid the prize during the day. The cots, incidentally, are the same in use here today. And we know of just one of those cots that has coil springs.

Elaine Teske and Alva Thompson now live in what was then the Canteen—where Joe bought everything from razor blades to candy bars. The tonsorial artists worked across the hall. Mikey McMillan lived there last semester and it might interest you to know that she gives some pretty good "feather cuts."—In the

## SEVENTY-ONE STUDENTS TO RECEIVE DEGREES

Spring has come again, and once more seniors and underclassmen are looking forward to graduation. A mingled feeling of happiness and regret is in the hearts of all students—happiness for another year of school successfully completed, and regret for friendly comradeship that is so soon to end.

Many seniors already have positions for next fall and others are hopeful of acquiring them in the next few weeks. In the Rural State-graded division, Mr. Neale and Miss Roach report that about fifty people out of the sixty-five who are to graduate this month or at the end of the summer session, have been placed. Seniors of other divisions who have secured jobs are: Lucille Neuman, grade 2, Neenah, Wis.; Lucille Weier who will teach the primary grades in Waukesha, Wis.; Margaret Edwards, grade 3, Wausau, Wis.; Diane Kamke, grade 3 and 4, Wittenberg, Wis.; Dorothy Wirkus, grade 6, Neenah, Wis.; Janet Bowker, science and math at Sturgeon Bay, Wis.; and Annette Albright, Home Economics at Woodruff, Wisconsin.

The graduating class for 1942 is large with all divisions represented in it. The students receiving the Bachelor of Science Degree number thirty-eight. In the high school division, these are: Jack Ackerman, Wallace Bartosz, Robert Becker, Arnold Bocher, Lillian Boe, Paul Bor-

## THAT'S ALL, FOLKS. . . .

So there you have it; the 1941-42 edition of the POINTER goes into the records of CSTC. We sincerely hope that it has met with your approval. Our work on it has been fun and well worth the time and effort. It was an invaluable experience and we're sorry it's over.

We cannot lock the desk, however, without first paying fitting tribute to all those who made the work easier. The entire POINTER staff has been no less than grand. Lillian "Pop" Boe was the perfect news editor, thorough, conscientious, and most dependable, never once failing to carry out her responsibilities. Likewise Bob Malecki, the composition editor. He took the most disagreeable position on the staff and did a masterful job of it. Janet Poggemiller, the business manager, organized a very efficient business staff and was always in the spirit of co-operation with the editorial department. We could name them one by one; Hannah Kaufman, "Doc", Pils, et al., but we lack the space. We wish there might be some way by which we could adequately express our appreciation for their work.

So, within three weeks, it's goodbye to CSTC. It's been an interesting and valuable four-year period. Again, we're sorry it's over, even in the knowledge that we've finally accomplished what we set out to do.

We extend our best wishes to this year's graduates. We hope that they are resolved to go out as teachers with the idea of giving their level best to education. To us, teaching is the most important profession in the world today. Without proper education for the youth of the world, what might the future bring? Better teachers—better education—better citizens—better world, is the way we see it.

As we turn the key to lock the desk, then, we offer a heartfelt "thank you," to all those who have aided the POINTER in any way during the year. We hope that next year's editor will enjoy the same co-operation.

## Reporter Reveals Male Presence

Continued from page 1, col. 3

days before Mrs. Finch has put an "O" in Living room, the place was practically void of furniture and occasionally wrestling matches were held there of an evening.

All third floor was used as an infirmary during the flu epidemic. At Nelson Hall the epidemic was felt only lightly as substantiated by the claim that one of the prerequisites for being eligible to spend a while on Third—was to be a shark at "Five Hundred" One of Joe's friends who was a genius at cards, feigned illness one morning and was dealt a hand of potatoes—in the kitchen where he "played" all week.

Those were the days when Nelson

Hall was guarded every minute of the twenty-four hours. Every few hours—even in the dead of night—the guard on duty would shout "Corporal of the guards!" And the sleepy Corporal, who occupied the apartment that Mrs. Pfiffner has now, would come out to call a new guard to duty. Imagine guards marching up and down the front porch at ten twenty-eight in '42 when—Oops!—This military censorship!

And now we'll let Joe fade back into the memories of 1916-18. But as we watch him go one thought lingers.—You recall that cot we were talking about—the one with the coil springs.—Well, it's in Room 217 now—and we wonder if one of

## Dope From Pils!

Everything seems to be coming to a climax just about now, with plenty to look forward too. Graduation, packing, leaving, and home. Well, what I am trying to say is that this is the last Pointer column I will be writing this year. I only hope you enjoyed reading "Dope" as much as I have enjoyed writing it. You have followed all the romances new and old, and all the printable "goss" for a while yet now. Was it educational? Yes, I suppose all work and no play makes Jack a dull boy.

Doc, Louie and Fritz Kelly sort of invaded Chicago Heights this week-end. They went to see a friend off to the Navy and then Fritz did a little sight seeing and he says the "femmes" down there are pretty K.O.

Campusing again takes over as main issue at Nelson Hall. They had a bank night last week. Gen Smith, Marjorie Sparks, Brigetta Fleischmann and Flossie Theisen all in one night. Quite a haul, I must say.

I want to apologize to my "fan" for not writing up that choice bit about Doc. You see I think I picked on Doc enough this year.

There is going to be one lonesome gal on the campus in a week or so and that is Lois Andre. Paddy is answering the call to arms.

Some of the girls at Nelson Hall had quite a treat Saturday. Several of the LIFE magazine photographers took some shots of the girls throwing a variety of rubber articles into Cooper's rubber raft.

Seems Bob Schunk is sporting a very good looking ring around. He said he received it from his Mother, but I heard from a very authentic source that that solution isn't on the level.

The day of the band picnic Bob Dietrich certainly was worried about Brigetta getting out of Glee Club. It was not unusual to look out of the studio window and see "Dieter" there giving directions. You should have seen Miss Colman on a bike and Mr. Steiner on the merry-go-round at the picnic.

The Omega formal will climax the social season here at good old C.S.T.C. for the year. Just a few of the couples are mentioned here—Conant-Moreau, Crowns-Olingy, Erdman-Johnson, Skatrude-Tibbetts, Wildermuth-Rondeau. Go to the formal to find out the rest.

Nixon went to Oshkosh this week-end. So did Alan Kingston. Ask Editor Sword about Oshkosh and try to figure out what it has that we haven't got.

Remember Don Lewis and Evelyn Schwinge. Seems that Madison is as good a meeting place as any, and these two have met there for a long time now. Every week-end, should I say?

Hear that Ken Brenner is quite the cook. Especially where steak fries are concerned. Ah, yes, he's a handy man to have around. Oh?

Here is the close of the last column of the last issue of the Pointer this semester. Have fun this summer.

## STUDENTS, NOTICE!!

Credit slip number 2, intended for the student, will be mailed soon after the closing of the semester to the parent or guardian as given by the student at the time of enrollment. Students may have copies of these grade slips mailed to them if they will leave a self-addressed, stamped envelope at the registrar's office before leaving the campus.

The College Band will present a twilight concert this evening in front of the main entrance of the college. The concert will begin at 7:45 and will continue for an hour.

Joe's superior officers could have been a Major Maguire?

## "Life" Camera Clicks Central's Coeds

LIFE is probably the most popular magazine on the campus (outside of the Educational Journals) and the high rating of that weekly was clinched last Saturday. There was a LIFE photographer in town taking pictures planned by Mrs. W. F. Cowan, chairman of the Portage County Council of Defense. One of the pictures that she bargained for was of "the dormites" gayly and patriotically tossing various forms of unneeded rubber into a rubber raft—the same that Earle Cooper and his four pals floated around in on the Pacific. Mr. Cooper, Earle's father, was there, too. He gave us some of the salty details about how they rode it upside down the first night, etc.

As long as he and the camera were here and as long as Playday was here too, the camera-man clicked a few times at the pretty, young, athletes going through their paces.

A certain sports writer should heartily approve this stunt, for he's been trying to get some publicity for "the alma mater" all year.

We don't know when the pictures will be published so we can't say which issue of LIFE to buy—but you'd be certain of it by subscription. Of course, the composition editors of the magazine may decide to cut expenses or something and so—we land in the waste basket—the contents of which are also used for salvage.

None the less, it was fun to pose for LIFE, and now we wait for Powers.

# We Need Every College Man In Officers' Training

★ TO MAN THE MIGHTIEST AIR ARMY IN THE WORLD ★

IF Jap treachery and Nazi savagery make you see red — calm yourself. *We shall pay them back with compound interest!*

You as a college man now have the opportunity of serving as a Flying Officer — a Bombardier, Navigator or Pilot — with the branch of service which will do that paying back *in person* — the U. S. Army Air Forces!

If you are a Senior or wish to leave school — apply *now* for your Aviation Cadet training. After approximately 8 months — earn the right to be a flying officer in the U. S. Army Air Forces!

If you are a Freshman, Sophomore or Junior — you can, if you like, *continue your studies* under the Deferred Service Plan of the Army Air Forces.

### New Simplified Requirements

To qualify you must be 18 to 26 (inclusive), physically fit — and pass a new, simplified mental test which college men find easy.

## THREE ENLISTMENT PLANS FOR COLLEGE MEN

Juniors — Sophomores — Freshmen May Continue Their Education

1. A new plan allows Juniors, Sophomores and Freshmen, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standings.

All College Men May Enlist for Immediate Service

2. All college students may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until they are ordered to report for Aviation Cadet training. Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Force Enlisted Reserve Plan is part of an over-all Army Enlisted Reserve Corps program shortly to be announced. This program will provide opportunities for college men to enlist in other branches of the Army on a deferred basis and to continue their education through graduation if a satisfactory standard of work is maintained. In case of necessity the Secretary of War shall determine when they may be called to active duty. It is understood that men so enlisted will have the opportunity of competing for vacancies in officer's candidate schools.

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not alter regulations regarding established R. O. T. C. plans.)

As an Aviation Cadet you receive \$75 a month, with expenses paid. As a Second Lieutenant on active duty, your pay ranges from \$183 to \$245 a month.

About *four out of every five* Aviation Cadets this past year received Second Lieutenants' commissions — of which 67% are now flying officers. Commissions for ground crew service are also awarded.

### Settle Your Service Now

To make America supreme in the air we need *every* college man who can qualify for active or deferred service.

See your Faculty Air Force Advisor for information and help with details. Join the thousands of America's college men who are enlisting this week!

NOTE: If you are under 21, you will need your parents' or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants. Obtain the forms and send them home today.

## REPEAT PERFORMANCE

College Theatre presented Mantle's cut version of "Outward Bound", at the invitation of Mrs. H. M. Tolo, for the Stevens Point Women's Club, last Monday afternoon. The original cast was present but the part of Lingley, taken by Russ Fredericks in Jack Ackerman's absence. The cast enacted short skits informally, the interceding parts read in digested form by Iris Pre-court.

## COUNCIL COMPLETES SURVEY OF IRIS

The Student Council committee has concluded the study of Iris expenditures. A report explaining the expenditures has been made and copies are available at the main office to anyone wanting one.

Regarding the Iris study, the council approved the following recommendations: 1. Should the Iris desire to assess any organization for the purpose of raising funds in addition to those given to it from the student activity fund, it is recommended that the Iris present an itemized budget to the student body for approval before proceeding with the annual. 2. The council recommends that the Iris present to the student body during the first semester following publication of the annual, an itemized account of receipts and expenditures for the previous year.

Similar studies will be made of other organizations, should the students so desire.

Evelyn Beckman, Sidney Berg, Alice Britten, Harriet Burant, Lillian Chylek, Marian Cole, Marie Collins, Mary Condon, Betty Ellman, Helen Firkus, Betty Grindle, Thelma Gunderson, Anna Haines, Lucy Holman, Mildred Kjer, Ada Knutson, Ida Lau, Keith Lea, Arvin Liebszeit, Evelyn Lutz, Irene Malek, Evelyn Mastey, Marit Mayer, Mary McGinley, Alice Moldenhauer, Ione Morgan, Arlene Prentice, Jeanette Rich, Velma Rhode, Dorothy Sixel, Malinda Soule, Marjorie Sparks, Marjorie Stevens, Helen Swenson, Carla Weinmann, Ethel Williams, Carol Winter, Cecilia Wiza.

All classes advanced considerably in the purchase of War Saving Stamps during the past week, spurred on by the dance sponsored by the Student council last Thursday evening. Admission to the dance was gained by the purchase of a ten cent stamp.

Largest class gain was by the Juniors, who are now in third place close behind the Phi Sigs. First place was taken over this week by the Chi Deltas with a single purchase sufficient to boost them into the lead. They have now bought 32% of the total amount sold at the college. The Phi Sigs have bought 29% and the Juniors 24% of the total.

# FROM THE LOCKER ROOM

by Jimmy Kulidas and Jack Rasmussen

From the Locker Room closes again for another year, as the semester draws to a close. The 1941-42 season of football and basketball has been highlighted by the winning of the Southern Basketball Championship. The football team also fared well, despite several handicaps, including graduation, draft and season's injuries to key men. After trouncing Eau Claire, the team lost to Whitewater and Platteville, games which might have been won rather than lost, if the breaks had been on the side of the Pointers. They administered defeats to Oshkosh and Milwaukee, and the Milwaukee game played here was the outstanding performance of the season. Throughout the season Ted Fritsch, Frank Koehn, and Bill Carnahan played fine offensive ball. The finest play was also in the Milwaukee game in which Carnahan outsmarted the oncoming Green Gulls, by picking up a bouncing punt, on the twenty yard line, took a few steps, and then lateraled the ball to Koehn, who went the remaining seventy-five yards for a touchdown. Fred Fink was a stand-out on defensive as well as Sharkey, Otto, Parr, Barton, and Swett. The basketball season produced several thrilling moments and outstanding personalities. The high scoring of the Terzynski broth-

ers, Captain Pete and Ray. The spark, and drive and brilliant defensive play of Bill Carnahan, the rebound and faking and shooting of Ray Warren. Hank Poskie came in for a share in the lime-light with his decisive free throw in the Milwaukee game after the gun had sounded, to give the Pointers a hard fought decision over the down-state school. This game clinched at least a tie for the Championship. The Championship was clinched the next week when they defeated Oshkosh, on their home floor with Teddy Fritsch garnering honors. The Pointers amassed a total of 706 points throughout the season. This total was helped while playing Whitewater and Milwaukee on successive nights in which they scored over a hundred points in the two games. Pete Terzynski gathered twenty-two points in each game to lead the way. The Kotal men were overpowered by a larger Indiana State team. All in all it was a very successful season for Coach Eddie Kotal, who after ten years, wound up his coaching activities as a CSTC mentor. He made a very commendable record while here and his teams where ever they went were always respected. Next year's athletic outlook depends greatly on the war, but what ever the outcome, the Purple and Gold will be well represented. See You Next Year.

## SENIOR TRADITION TO BE REVIVED

Teacher's colleges seldom have, and are never given credit for possessing background in the form of tradition, as are the liberal arts colleges. To disprove this belief, the class of forty-two will breakfast together. Nelson Hall is the place, 8 o'clock on commencement morning the time. As one of the Seniors put it, "Here we all eat three times a day (usually) and in four years we've never eaten together." And where does the tradition come in? They always used to do it—and it's too bad to let good traditions die.

### SOCIAL SCIENCE

Five members of the Social Science club, including Dr. N. O. Reppen, traveled to Eau Claire last Thursday to participate in the District conference of the International Relations clubs. Participating clubs were Eau Claire and Stout in addition to Stevens Point. Charles Miller, Don Kordus, Lloyd Roe and Sherman Sword made the trip. The theme of the conference was "Plans for a Permanent Peace."

The program began with an address in the morning by Dr. David Bryn-Jones, professor of International relations at Carleton college in Northfield, Minn. He spoke on "Terms of Peace After This War." Following a noon luncheon, a series of panel discussions was held, during which various plans for world management were advanced by the attending delegates. Kordus and Sword presented a plan for the management of world resources and Roe and Miller discussed the essential elements of a world federation.

A banquet in the college cafeteria in the evening concluded the conference.

# YOUR COLLEGE CAN NOW HELP YOU BECOME A NAVAL OFFICER

**Freshmen, Sophomores, 17 THRU 19. Enlist now!**  
**Stay in college! You may qualify for a  
Naval Commission on the sea or in the air.**

**Freshmen. Sophomores.** Here's a challenge—and an opportunity! Your Navy needs trained men. Trained men to become Naval Officers! And your college is ready to give you that training now.

#### Here's New Navy Plan

If you're 17 and not yet 20, you enlist now as an Apprentice Seaman in the Naval Reserve. You then continue in college, including in your studies courses stressing physical training, mathematics and physics. After you successfully complete 1½ calendar years of college work, you will be given a classification test.

#### Aviation Officers

If you qualify by this test, you may volunteer to become a Naval Aviation Officer. In this case, you will be permitted to finish the second calendar year of college work

before you start your training to become a Flying Officer.

However, at any time during this two-year period after you have reached your 18th birthday, you may, if you so desire, take the prescribed examination for Aviation Officer . . . and, if successful, be assigned for Aviation training. Students who fail in their college courses, or who withdraw from college, will also have the privilege of taking the Aviation examination.

#### Deck or Engineering Officers

If you qualify in the classification test and do not volunteer for

Aviation, you will be selected for training as a Deck or Engineering Officer. In that case, you will continue your college program until you receive your bachelor's degree, provided you maintain the established university standards.

#### Other Opportunities

If you do not qualify as either potential Aviation Officer or as potential Deck or Engineering Officer you will be permitted to finish your second calendar year of college and will then be ordered to active duty as Apprentice Seamen. But, even in this event, because of your college training, you will have a better chance for advancement.

Pay starts with active duty. It's a real challenge! It's a real opportunity! Make every minute count by doing something about this new Navy plan today.
