CSTC Has Five New Faculty Members

The college faculty has three new members this year, and the Training School faculty two new members. At the college, Dr. Eugenie Doudna of Peyton, now director of the rural division, Alex T. Peterson of Stevens Point is the supervisor of the rural demonstration school, and Dr. Roland and Tryten of Ripon is a new chemistry instructor. Dr. Raymond M. Rightsell, director of the Training School, and Miss Hester Feller of Neenah is ninth grade critic.

Dr. Doudna has for the last seven months been in Madison working on his Ph.D. He has an M.A. from the University of Wisconsin, and a B.A. from Carroll college. He was formerly principal of the Door-Kewaunee county normal, and before that in the Antigo high school. Dr. Doudna is interested in music, especially glee club and quartet, or group singing of any kind. He is a fine pianist and organist. He is married and has two young sons. He is remotely related to Edgar G. Doudna, secretary of the Board of Regents, who spoke at the college last April 18.

Teach During Summer

Mr. Peterson taught American history at the college during the summer session the last winter he was in LaCrosse teaching biology and general science at Logan high school. He received his B.E. in rural education, a first degree from CSTC, and his M.A. from the University of Iowa. Mr. Peterson enjoys all music, but especially likes the piano, which he plays well.

Dr. Tryten taught chemistry at the college during the summer session; he is in his third year of teaching at the college. Dr. Tryten was last winter teaching college chemistry. He received his B.A. from St. Olaf college, and his Ph.D. from the University of Wisconsin. Dr. Tryten is married and has two little daughters. He and his wife are fon of bicycling. He is interested in gardening, and at present is busy (FACULTY, page 5)

Scholarships Are Granted Freshmen

A number of freshman students who have entered CSTC this September are the recipients of scholarships equivalent in value to the payment of all incidental fees.

The Wisconsin state law authorizes all state colleges to extend two types of scholarships to high school seniors who intend to come to college. The type A scholarships will be given to students with highest high school averages; the number depends upon the size of the school’s enrollment. The type B scholarships are granted to people who are “good students,” in financial need, and possess qualifications for leadership.

Freshman who have received the type A scholarship are: Shirley Brown, Stouton, James Buelow, Bancroft; Earl Cotton, the members of Eugene Dieck, Neillsville; Yvonne Gabelson, Stevens Point; Lorraine Meyer, Westfield; Jean Neelen, Chili; Olga Hercher, Stevens Point; Wayne Salter, Unity; Winnifred Sainsbury, Endeavor; Jeanette See, Juneau County; Mary Stelmahoski, St. Joseph’s Academy; Virginia Hansen, Marshfield; Gloria H. Smith, Milwaukee; Mabel Smolik, Milwaukee;_exempted. Then the best of all, girls! There are 65 men registered.

Heading the list in class enrollment are the freshmen, with 160 members. The sophomores come next, with 75, and then the seniors with 4d. Away down at the bottom with only 24 are the juniors. The enrollment also includes one special student and one post-graduate.

Mr. Rightsell Accepts Position in France

College Enrollment Shows Increase

CSTC’s enrollment totals 302 for the first semester—an increase of 78 over last year’s 223 students. Here’s the best of all, girls! There are 65 men registered.

Mr. Rightsell has been appointed as chairman of the department of education and chairman of the department of science at Central State Teachers college, has been appointed as instructor in physics at the Army University Center at Biarritz, France. Mr. Rightsell has been granted a year’s leave of absence. He is scheduled to be in Washington, D.C. on October 15, where he will leave for overseas shortly after that date.

The Army University center at Biarritz is one of those being established by the government of France to address the need for instructors in science at the various military schools. The center will be headed by Dr. Raymond M. Rightsell, director of the division of secondary education and chairman of the department of science at CSTC.

Students and faculty wish Mr. Rightsell well and hope that his work in science education at the center will be successful.

Nelda Dopp Chosen Business Manager

Nelda Dopp has been chosen as business manager of the POINTER, replacing Eulah Walter, who resigned her position.

Nelda, whose home is in Wild Rose, is in the division of Secondary Education, with major in general science. She has taken an active part in extra-curricular activities, and is president of WAA and of Tau Gamma. Nelda is a member of the Girls Glee club, Wesley Foundation and the Forum.

ENTERTAIN SYMPATHY

The faculty and students of CSTC extend their sincere sympathy to Miss Mary Neuberger in the recent death of her mother. Mrs. Stephen Neuberger...
The POINTER staff is happy to welcome a new freshman class to the halls of CSTC. It is our hope that you may find here the genuine friendship for which Central State is noted.

It is an added pleasure for us to make you "hello" to many old friends who have returned. We want you to again look to the POINTER for the same complete and impartial news coverage which it has given in the past.

Because of the lack of money in the activities fund, our money is necessarily limited. We shall have to run more ads than usual, but CSTC students should be proud of the fact, however, that this college publishes a paper every week. Many other State Teachers Colleges have been forced to discontinue their weekly publications.

The POINTER will try to give you any suggestions which you may wish to make us. The year ahead promises to be an outstanding one. With your help, we shall strive to make the 1945-46 POINTER equally outstanding.

Where To Find Some Old Familiar Faces

Despite the increased enrollment, old students still manage to miss the friends who have left CSTC to teach, or to get married, or to transfer to another school. This is where some of them are:

Graduates from last year who have accepted positions since last spring are: Irene Ludwig and Joe Kalma who teach at Colby, Mary Ann Hotvedt at Abbotsford, Dorothy Davids at St. Croix Falls, Beulah McCon- ley at Tigerton, and Doris Johnson at Marinette.

Janet Benn, Dorothy Jenkins, Kay Hansen, and Claire Berg are at University of Wisconsin. Jeannette Feer has transferred to Marquette, and Doris Karner to Milwaukee State Teachers College, Solove copyright.

Faith Price and Gertrude Marshall are in nursing trains at Milwaukee. Patricia Johnson and Phyllis Harrington were married this past summer.

Pat Nelson has accepted a position with the Marshfield High School principal, and Betty Klein works at the local Montgomery Ward office. Mary Ellen Dein is at home but may return next semester. Gloria Rybick is employed at the Hardware Mutual here.

Gold and Silver Stars Are Added

Three former students of CSTC have been reported as missing or killed during the summer months. Ensign Sidney E. Berg from New Hope was killed when he was hit by an airplane at Nashotah, California. He was a graduate of the rural course in June, 1942.

Lt. Joseph Kryshak was killed instantly when his plane crashed into the ocean near Guam. He attended CSTC in 1936-38, then transferred to the University of Wisconsin. He was active in band, art and photography.

Lt. Jack Vincent of the Naval Air Corps is missing in the South Pacific. He graduated from Central State in 1941 and married Carmen Brooks, who also attended college here. Lt. Vincent was reported missing in July.
