

## President Extends Greetings!

It is a pleasure for me to extend greetings to you at the opening of the college year. As you already know, this is the largest enrollment in the history of the College. Two years ago, in 1944, we opened with an enrollment of less than one-third of the present one, the lowest the College had had in many years. We have the same plant facilities now that we had two years ago. Except for the additional help in mathematics and the sciences there has been very little increase in staff since then. So you will appreciate that the staff members are much more heavily loaded and the plant facilities much more completely utilized than was the case in 1944.

If each student is to enjoy the maximum opportunity to which he is entitled without encroaching on the

similar rights of other students, we will all need to be more patient and more cooperative than would be necessary under less crowded conditions. I hope you are all here with serious intentions of achieving the maximum from your college studies. Fortunately, you can do this without depriving anyone else of the same opportunity. Education is cooperative, not competitive.

Along the way you are going to have a good time. You will enjoy some of your studies, perhaps all of them, and there are many other opportunities in social, religious, musical, athletic, forensic, dramatic, journalistic activities for you to do the things you like to do. I wish for all of you happiness and success in your college work.

President Wm. C. Hansen

## CSTC's Enrollment Skyrockets for '46

The enrollment at CSTC reached an all time high for the fall term with a total of 874 students enrolled. Altogether there are 621 male students, including 410 veterans and 65 Navy V-5 students.

The following paragraph is quoted from the first issue of the 1945-46 Pointer as a comparison to this year's enrollment figures: "CSTC's enrollment totals 302 for the first semester—an increase of 79 over last year's 223 students. And here's the best part of all, girls! There are 65 men registered!"

The greater part of the burden accompanying the increase has fallen upon the science departments. Science classes all over the state are suffering not only from an inadequate number of teachers but also from an acute lack of sufficient laboratory supplies and equipment.

## Convocation Held

In an impressive and colorful ceremony the faculty of CSTC, attired in academic robes, marched into the auditorium this morning to take part in the annual fall convocation.

Students once more filled the auditorium to capacity and viewed with interest the academic procession of their instructors. Colors of their alma maters decorated the masters' and doctors' hoods worn by the faculty members.

As a highlight of the convocation, President William C. Hansen addressed the assembly on matters of foremost importance.

## 1946 Football Schedule

Sept. 28	Eau Claire	There (Night Game)
Oct. 5	Oshkosh	There
Oct. 12	Milwaukee	Home Game
Oct. 19	Whitewater	Home Game (Homecoming)
Oct. 26	Platteville	There

## Many New Faces Appear As CSTC Enlarges 1946-47 Faculty

### Pointer Receives Face-Lifting

Because of the increase in enrollment and added funds from student allocations, the Pointer this year is able to increase its original size by an extra column.

The Pointer "pup" which has for many years pointed its nose at the main head is retiring and in his place will be a plain, solitary head, which follows the modern trend in journalism.

The Wozalla Printing Company, printers of the Pointer, are overburdened with putting out the Wisconsin Blue Book and may be unable to put the Pointer to press on the usual day, necessitating a slight delay in the first few issues.

### Fall Reception At Nelson Hall Sunday

Nelson Hall girls will be hostesses at an annual fall tea and reception on Sunday, September 29, from three to five o'clock.

Lorraine Peters, Dorm vice-president and social chairman, is in charge of general preparations. She has selected these committees to aid her: Decorations, Althea Boorman, chairman; Refreshments, Pat Thorpe, chairman; Mary Due and Lorraine Meyer; Clean up, LaVerne Haskins, chairman; Ellen Whittingham and Doris Yaeger.

To each student and every faculty member, Nelson Hall extends a cordial invitation to be present at its first major social event.

### Social Calendar Planned For 1946-47

A social calendar for 1946-47 was drawn up at the initial meeting of the social committee on September 9, in Dean Pfiffner's office. Attending were Mrs. Mildred Williams, chairman, Miss Helen Meston, Gilbert W. Faust, Mrs. Elizabeth Pfiffner, Mrs. Myrtle Spande, George Berg and Dr. Arthur S. Lyness, members of the committee. Dolores Jelinek and Art Pejsa represented the Student Council.

During the meeting, the following program was suggested for the coming year:

September 13—Faculty Reception and Student Dance (Social Committee planned this party for the Faculty.)

October 19—H. S. Gym, "S" Club sponsored dance—Homecoming.

November 2 (tentative)—Hallowe'en Dance.

November (tentative)—Pan-Hell Dance.

December 12—Christmas Cheer (sponsored by W. A. A.) Student Lounge.

January—Greek Dance will probably be given.

February 14—Valentine Dance (Social Committee Dance).

March—Lent (Events indefinite depending on plans of other organizations.)

April 6 is Easter.

May—Busy with graduation activities.

Recreational dancing plans are being formulated.

## WELCOME, FRESHMEN!

### Faust and Rightsell Return

A number of changes and additions have been made in both the College and Training school faculties this year.

Miss Pauline Isaacson, of Spring Valley, Wisconsin, has been added to the college staff as teacher of history and speech. Miss Katherine Hope, Stevens Point, is full time assistant in the mathematics department, and Robert Burkman of Hawkins is full time assistant in the biology department.

Arol Epple of Beloit succeeds Charles C. Evans, as instructor of zoology. He has not arrived, but expects to be here by October 1.

Gilbert W. Faust of Madison after 27 months in the service, is again on the faculty as chemistry teacher. Mr. Faust is also "house mother" for the V-5 students, living in the Training school. He resumed his work here this summer, teaching chemistry the first summer session.

Raymond M. Rightsell is back at CSTC as head of the physics department and director of secondary education, after a year's leave of absence. He taught physics at the Army University Center at Biarritz, France, last year.

### Students Assist Faculty

Art Pejsa and Vincent Brunner are both student assistants in the mathematics department. Mr. Brunner teaches four classes of Freshman math, and Mr. Pejsa teaches two. Frank Splitsek is also a student assistant in the geography department.

Francis E. Pratt, physics instructor here last year, is now teaching physics in Eastern New Mexico State college, Portales, New Mexico.

R. E. Gotham of Beloit is the new director of the Training school and chairman of the committee on recommendations. He replaces Raymond C. Gibson, who is now president of Duluth Teachers college at Duluth, Minnesota. Miss Patricia Doherty of Mosinee has been added to the Training school staff as kindergarten teacher and music supervisor of the grades.

Miss Gladys Van Arsdale, third grade supervising teacher in the primary department, has been given a year's leave of absence, and will teach American children in Germany. Mrs. Palmer Taylor, Stevens Point, is temporarily filling her place.

Mrs. Raymond M. Rightsell, Stevens Point, temporarily is taking the place in the junior high school of Miss Hazel Benson, who has resigned to take a position with the Red Cross.

### Teaching At Shorewood

Chester Rinka, who was a social studies substitute teacher in the junior high school last year, is now teaching junior high school social studies at Shorewood.

Miss Isaacson has been associated with the Wisconsin Historical society, and prior to that was in American Red Cross service during the war. She is a graduate of River Falls.

### Dr. Lyness Marries

The marriage of Miss Marie Kachel, daughter of the John C. Kachels of Whitewater, to Dr. Arthur S. Lyness, registrar at CSTC, took place at 5 o'clock on Saturday, July 20, at the Methodist church in Whitewater. Mrs. Lyness is a graduate of Milwaukee-Downer college and had been teaching at Oshkosh previous to her marriage.

The student body wishes to extend best wishes to Dr. and Mrs. Lyness.

State Teachers college. She received her master's degree from the University of Wisconsin, and is doing work towards her doctor's degree there.

Miss Hope and Mr. Burkman are both graduates of CSTC. Miss Hope graduated last June, and Mr. Burkman, recently discharged from the service, is a 1942 graduate.

Mr. Epple taught at Beloit and Antigo and has served on the college staff here during two summer sessions as an instructor.

Mr. Faust was an electronics officer in the navy, specializing in fire control radar. The radar is used in directing gunfire, detecting and locating the target, tracking the target.

(Continued on page 4, col. 1)

### Mr. Evans Retires

Charles C. Evans, head of the biology department at Central State Teachers college, where he has been teaching for 25 years, retired on September 8.

A native of Norwalk, Ohio, he received his bachelor of science degree at Ohio Wesleyan university and the master of science degree at the University of Chicago. Formerly a teacher in high schools in Ohio and Peoria, Illinois, he did post graduate work at Yale university, Ohio State university and the University of Wisconsin.

He enlisted as an apprentice seaman in the First World War and after attending officer's training school was commissioned as an ensign in the navy where he served for four years.

Mr. Evans, a member of the Wisconsin branch of the International association of Milk Sanitation, and private milk inspector of Stevens Point has done the bacteriological work for the city more than 20 years. He made the first bacteriological tests for the city here in the college laboratory.

While at Oak Park, Mr. Evans worked summers in the research department of the Western Electric company of Chicago.

MR. EVANS

While at Yale, he was sent by the Yale museum to Georgian Bay to collect geological specimens for the museum. He also drew maps for the books, "Across South America" and "Forest, Physiography of North America" during this time. Occasionally, he has been a contributor to scientific publications. Mr. Evans is listed in "American Men of Science", a biographical directory of outstanding men in the scientific field.

Active in the Wisconsin State Guard since its formation early in 1941, he holds the rank of Lieutenant Colonel.

Mr. Evans was chairman of commencement at the college for many years.

He and Mrs. Evans plan to make their home in Stevens Point but will spend the winters in a warmer climate, probably Florida.

Published weekly except holidays and examination periods, at Stevens Point by students of the Central Wisconsin State Teachers College. Subscription Price \$2.00 per year.  
Entered as second-class matter May 26, 1927, at the post office at Stevens Point, Wisconsin, under the Act of March 3, 1879.

## EDITORIAL STAFF

Editor-in-Chief—Mary Juetten, Nelson Hall, Phone 660; News Editor—Michael Fortune; Assistant News-Editors—Mary Due, Leone Hein, Jean Neale; Composition Editor—Art Swenson; Assistant Composition Editor—Margaret Guth; Sports Editor—Ed Prybylski; Assistants—Ray Bartkowiak, Jack Rasmussen; Features—Jim Hanig, Jack Berry, John Edwards, Duane Moran, Deane Moran, Betty R. Crawford, Elizabeth Stadler, Gladys Soetbeer, Dorothy Olson, Warren Busch, Margaret Roberts, Isabelle Stelmahoke, Althea Boorman; Proof Readers—Naomi Barthels, Majorie Beaver; Typists—Lucille Tanner, Dorothy Severson, Kathryn Peterson, Kathryn Rosenow.

## BUSINESS STAFF

Business Manager—Betty June Maki, Nelson Hall, Phone 660; Assistant Business Manager—George Whitney; Advertising Staff—Bob Westenberg, Jean Crosby; Circulation Manager—Gail Smith; Circulation Staff—Barbara Lument, Ellen Whittingham, Joyce Kopitzke, Marianne Simonson, Mary Ellen Gmeiner, Evelyn Markwardt, Rose Dalske.  
Faculty Advisers—Miss Bertha Glennon, Editorial Adviser, Robert S. Lewis, Business Adviser.

Here it is!! The first issue of the 1946-47 POINTER and with it the POINTER staff wishes to extend a hearty welcome to the new Freshman class, as well as to its many old friends among the upper classmen and faculty.

Although sporting a new face and form, the POINTER is still the same unbiased projection of student opinions.

It is your paper! Your activities, interests and opinions make it what it is. We are more than willing to accept any contributions or suggestions you may make.

## Dorm Doin's

All good things must come to a close, as the end of a perfect summer vacation proved; but it isn't always that people are as fortunate as we, with a good beginning all ready to be begun. Certainly there is opportunity for fresh starts knocking on every door—from first floor to third. We are speaking, if you haven't already guessed, of the new acquaintances to be made at Nelson Hall. Half of the girls this year are brand-new to Dorm life—50 of the nicest (and certainly most enthusiastic) girls to be found. 58 Dormitories of 1945-46, and two from another year, arrived with these new girls around the week-end of September 8-9 and since then, amid open suit cases dripping with sweaters, etc., and half-hung drapes, we've been getting to know each other.

September 8, a rather gloomy Sunday in itself, was made infinitely brighter for new and old residents, who arrived that afternoon, by the sight of our new house mother, Miss Leona Bovee, seated before a tea table in Nelson Hall's living room. Our first impression of Miss Bovee will always be connected with "home".

Meanwhile, as Miss Bovee couldn't be with us immediately, we've had the pleasure of Mrs. Pfiffner's and Mary's residence with us. Miss Myrtle Henricksen, assistant to the new house mother, is registered for classes at the college. She, too, is becoming known to us as a real friend. (Perhaps we should place particular emphasis on the word "friend" in each case, for never was there more occasion to use it.)

We've had visitors (recent "alums") lately. Lu Vaughan and

Janie Miller stayed here last week-end, and this week-end Mary Lou Hutchins was with us. Good to see them again!

Everyone is getting "hepped-up" about a homecoming—especially Dormites of the past three years who seem thrilled at the prospect of renewing old acquaintances and rehashing former days. This week Alums are being sent registration blanks for that great event of October 19.

Dates? 'Fraid we haven't space to write the "who's" and "wherefores" of the couples coming and going from the Dorm.

Looking at the whole thing philosophically, it appears that everyone this year, instead of gazing wishfully into the past is looking with pleasurable anticipation toward the future.

## Navy V-5 Trainees Enrolled At CSTC

All of you know what a V-2 bomb is and all of you know what a V-8 is, but do you know anything about a V-5? A visit to the Training school, where 39 V-5 trainees are quartered, helped to throw some light on the subject for this reporter.

John Gehring, Chicago, Illinois, and Earl J. Eckert, Ridgway, Pennsylvania were two of the fellows who helped supply information during this visit.

After submitting a preliminary application the V-5 applicant is given a physical examination. Following this he takes several different types of mental tests and a mechanical aptitude test. Next, the prospective trainee is interviewed by doctors and officers of the Navy. If all goes well the applicant is sent home to wait for the school he has chosen to begin enrolling his students.

John Gehring tried to enroll at DePaul, Northwestern, Loyola and a few others, but there was no room. The same was true of Earl Eckert and of other young fellows who had similar intentions. Through the work of Frank G. Lasecke of Stevens Point, and the foresight of President Hansen, CSTC was on the list of schools suggested by the Navy as being suitable for the training of V-5 trainees. So, here we have John Gehring and Earl Eckert all set to go to school at CSTC. Just what does the immediate future hold for these two fellows and the other trainees who are here? Well, it's something like this:

The object of the program is to develop fliers for the Navy Air Corps, but before the trainee reaches that goal he must first spend two years at college. During this time, he is required to take four semesters of English, two semesters of mathematics and two semesters of physics. The remainder of the program is made up of electives offered and permitted by the college.

After the first year has been completed, the student is given about 10 hours of dual instruction in the air and an opportunity to solo. This is a period of selective flight training. Then back to school for another year. At the end of the second year, the youths will serve with the fleet on

## Student Organizations

### Radio Workshop Organizing

Radio Workshop has again organized its program for another year, with Miss Gertie Hanson as its director. Grant Thayer is the producer, replacing Jane Miller who graduated last June, and Harvin Abrahamson will be control operator.

Programs this year are scheduled for 3:15 p. m. Monday through Friday. Weekly broadcasts are as follows: Monday, "Our College"; Tuesday, "Books and Authors"; Wednesday, "Radio Workshop Players"; Thursday, "College Round Table"; Friday, "Music Album".

The complete list of the workshop staff, which was not available this week, will be printed in next week's Pointer.

### Chi Delta Rho News

Grant Thayer, president of Chi Delta Rho fraternity, called the first meeting of the year to order at Klinks on Tuesday, September 17. Raymond M. Rightsell and Gilbert W. Faust, faculty advisers, were among the 30 men present.

The frat met during the summer to plan activities for this school year so that it would have something better than ever before as its program for CSTC. These plans were brought before the members present and were approved. A large number of members, who pledged before the war closed down activities, are back again. They are Fred Schwierske, Carl Torkelson, Jim Hanig, Ed Kowalski, Guy Roberts, Grant Thayer, Steve Speidel, Chuck Larsen, Earl Crowns, Eldred Judd, Art Pejsa, Ed Boycks, Percy Voight, Vincent Brunner and John Mase. Bob Burkman, instructor in biology, is also a member of Chi Delta Rho.

The aim of Chi Delta Rho this year, as has been in past years, is to promote and sponsor school activities and to arouse interests, academic, athletic and social, in the students of CSTC.

The frat bowling team, defending champion, is in the league again. Ed Fenelon, a member of the team, rolled a 222 game which was high game of the opening night.

### Meeting of Rural Life

Frank Splitke was elected president of the Rural Life club at the first meeting of the year held Monday evening, September 16, in the Rural assembly room. Other officers selected were: LaVerne Haskins, vice-president and program chairman; Ruth Wachholz, secretary and Eva Peterson, treasurer. Advisers are Quincy Doudna and Miss May Roach.

The meeting opened with fellowship singing led by Mr. Doudna, chairman for the evening. This was followed by a welcoming address by

flight duty for nine months as midshipmen; and the following 12 months as ensigns. The new officers may be given further training at Annapolis or equivalent training elsewhere, followed by active duty. Inactive duty in the Naval Reserve also may be a choice of the airman.

While here the students are apprentice seamen drawing the pay of such. The college furnishes bunks, pillows, mattresses, and blankets. The bed linen is laundered free of charge but clothing is not included in this service. The fellows pay for their own meals and eat at a place of their own choosing. They are not issued clothing but must wear civilian clothes. Military discipline is not for them, as yet, but that day will come.

Marriage is out of the question until the commission has been received. But that is no hardship because the maximum age of the trainees is 20 and they shouldn't be giving marriage a thought. Don't you agree?

Some of the boys come from Pennsylvania, one or two hail from Florida, while others represent Indiana, Maine, Massachusetts and Michigan.

All of the fellows seem to think it is a good deal. They are trying to meet the requirements and maintain the standards knowing that if they fail to "measure up" they will be eliminated from the program.

Miss Roach. The freshmen and new students then introduced themselves to the group.

An interesting part of the program included experiences related by several included sophomores on "Visiting School—the first day". Each student had visited an entirely different type of school; therefore, the impressions made on each person proved to be very entertaining as well as practical.

After the election and a brief discussion of future plans, several more songs were sung, and the meeting was adjourned.

### LSA Holds Picnic

Old and new LSA'ers and faculty guests gathered on Monday evening, September 16, for a picnic at Bukolt park. Appetites were stimulated by a game of softball, with Orval Moser and Don Jorgensen as team captains.

The group roasted hot dogs and sang around the fire in the lodge. During an informal get-acquainted meeting, Rev. Orville K. Wold welcomed the new students to the organization.

Guests at the meeting were: Rev. and Mrs. Wold, Dr. and Mrs. Roland A. Trytten, Dr. and Mrs. Nels O. Reppen, Gilbert W. Faust, Miss Carolyn Rolfsen, Miss Myrtle Spande, Dr. Harold M. Tolo, and Miss Marie Swallow.

## General Assembly

President William C. Hansen welcomed both new and old students in a speech given on Thursday, September 12, at the first general assembly of the year. The auditorium was filled to overflowing, with more than 800 students and faculty sitting and standing in the room.

Following the president's address, Miss May Roach of the faculty introduced various members of the college committee of the Stevens Point Chamber of Commerce, who attended the meeting. Ben W. Dagneau, mayor of Stevens Point, and members of the committee extended a few words of welcome to the group.

As a grand finale for the assembly program, tickets for a movie at the Fox theater were issued free to every student present. The movies were the current hits, "One More Tomorrow" and "The Unknown." The tickets were presented in behalf of the Chamber of Commerce College committee. Members of the committee are as follows: Miss May Roach, Oscar W. Neale, Floyd Whitney, Ken Anderson, Art Diedrich, Wilson S. Delzell, Mayor Ben Dagneau and Kenneth B. Willett.

### NOTICE

Students who wish to have their 1946-47 POINTERS bound should save them, preferably unfolded and turn them in to the POINTER office at the end of the year. Only a complete volume will be bound.

## The Seeing Eye

Hi

with  
and

Si

With this issue a new column is born. Unlike many so-called gossip columns this one will endeavor to be helpful as well as newsworthy. During the course of the school year we will pass along to you any information which we deem significant or any school news that will be interesting as well as informative.

The first of these facts is on Homecoming for this year. The date is October 19. The place is Stevens Point and the big event is the football game with Whitewater. There will be a parade in the morning featuring floats designed by the various school organizations and led by the college band. So get to work on your floats and make this a big event, one to be remembered!

Also for your enjoyment there will be a Pre-Homecoming semi-formal at the Training school at 8 p. m. on Friday, October 18. This dance is traditionally sponsored by Phi Sigma Epsilon fraternity and promises to be one of the outstanding dances of the year. So get out the glad rags and polish up your technique, dancing that is, and we'll see you there.

On Saturday night following the game there will be an informal dance at the Training school. This is a tradition of homecoming which was established quite a while ago. This also entails the presence of a cider jug which former professor Charlie Evans guarded and siphoned. Due to his absence we will need an alternate. Need we ask for volunteers?

Did we see you at the game Saturday? "Rass" was there with the wind in his hair. Before we go any further we want to pass along our felicitations to Coach Berg and the team. It's true the score was high, but there wasn't a quitter on the team. They plugged right up to the last whistle and this typified the fighting spirit of all purple and gold teams. Remember it's not whether the game was won or lost but how it was played and on that count the Pointers proved their mettle. Let's not let this defeat dampen our spirits! The spirit wasn't so convincing Saturday so let's show the team and Coach Berg we're solidly behind them in future games.

The Seeing Eye wants to take this opportunity to welcome Merv and Irene back to the Eat Shop and the campus. They may be strangers to most of the student body but to the few old-timers and the faculty you can be sure they are a very welcome addition to our college careers. Hospitality, good service and a well planned cuisine are the by-word at

the Eat Shop. So welcome back, Merv and Irene, and please don't rush off like that again.

We've been sitting here trying to figure out where all the co-eds are this year. Is there a serious shortage or is it just because there are more men this year than ever before? Whatever the case we sure hope a remedy is forthcoming in the near future. What is a class room without their presence? Ah, women, those dear little understanding members of the weaker (?) sex. I guess we'll have to start a nylon sale so we can find out where they are hiding.

We want to impart a little information explaining the purpose of this column. If at any time any of you readers have any information, announcements or good stories, drop them on the spindle at the Pointer office addressed to The Seeing Eye and we'll be glad to print them. This is your column, so don't hesitate to give us any data you think is pertinent.

Another thing we plan on doing every week is naming a "Student of the Week" who through his or her outstanding work in some college activity earns recognition. This will be our selection and consequently may at times seem prejudiced but we will be as fair as we possibly can to warrant this choice. So let's see who can be "Student of the Week" the most number of times. Due to the fact that we've had only one week of school and are still getting organized we will reserve our first selection for next week's column. So watch this space for further developments.

We hear from a reliable source that the "S" club is reorganizing. That is the letter men's club. They form the backbone of the athletic department and will add an incentive to the athlete to increase his spirits and abilities. This is a significant movement, as it shows that all college organizations are aware of their possibilities and we will see much of their activities this year. The religious organizations, frats and sororities and all clubs will have a bigger and better year, thus making our education here wider in experiences and richer in opportunities than ever before. This will really be a banner year with your help.

Now that we've explained the purpose of our column, distributed a few facts and announcements you can look forward to an informative column but don't forget the personal and humorous touch which will permeate this space. Keep your eye on the "Seeing Eye".

## Welcome From Dean Pfiffner

DEAN PFIFFNER

Greetings and a hearty welcome to CSTC! A new year is before us, one which is full of promise and hope! A college education should be full of rich and interesting experiences. It should open new avenues of thought, present new problems to stimulate your best thinking and acting and give you many opportunities for mental, moral, and spiritual growth. Try to make the most of this college year so that at its close you may honestly feel you have reached new heights and are nearer your goal. May this be a truly happy year for you.

Elizabeth Pfiffner,  
Dean of Women.

# Pointers Beaten In Season's Opener 54-0

CSTC in their opening game of the season playing at Goerke Park Saturday afternoon were completely engulfed by a superior St. Norbert's team, who rolled in an easy 54-0 victory. The powerful Green Knights, with a decided advantage in weight, charged through the CSTC defense to score eight touchdowns and six conversions.

The game, the first one of the season for the Point gridders, clearly disclosed a lack of coordination in both defensive and offensive play. Blocking was totally ineffective, with the DeFere men charging through to stop most of the plays before they had a chance to materialize. Consequently, the Pointers' aerial offense also bogged down. Kicking suffered a similar fate with the Knights blocking four attempted punts. Outstanding players for St. Norbert's were Nelson, Lamers and Vanden Branden; while for the Pointers, Pat Kubiak, Jim Koehn, and Dick Parsons showed up very well. Koehn's tackling was gratifying to see.

With the experience of one game behind them the Pointers enter into preparation for their next tilt to be played at Eau Claire on Saturday, September 28. Particular emphasis is being placed on blocking and defensive play.

The Green Knights won the toss with CSTC and chose to defend the south goal. The Point Peds intercepted a pass and recovered two of St. Norbert's fumbles to hold an edge through most of the quarter. St. Norberts followed up by recovering one of Point's fumbles and from there on the men in green controlled the game. With three minutes of the quarter left to play St. Norberts blocked Haidvogel's kick on the 40 yard line and Picard ran the ball to the 2 yard line where he tripped and fell. The Point line held for one play but Nelson succeeded in going over on the next play. Kleiland converted to make the score 7-0. The quarter closed with St. Norberts kicking to Point. Kulick returned the ball but fumbled on the 24 yard line, with St. Norbert's recovering.

The second quarter opened with Nelson pulling off a 21 yard run to bring the ball up to the three yard line. Fitzpatrick then plunged through for the second touchdown. Weiland converted to make the score 14-0. The Pointers settled down and the game was nip and tuck until the final two minutes of the half.

Kubiak of CSTC intercepted a pass on his own 13 yard line and ran it up to the 35 yard line. Point then attempted a pass but Strenski intercepted, and with a minute of the period remaining Lamers went over for St. Norbert's third touchdown. Kleiland converted again to make the score 21-0. The half ended with Point in possession of the ball.

The beginning of the third quarter found CSTC in hot water once more when St. Norbert's blocked Haidvogel's kick and recovered on CSTC's 12 yard line. Two quick plays and Hickey carried the ball from the three yard line for another touchdown. Kleiland tallied the score 28-0 by converting again.

St. Norbert's kicked off and in a matter of minutes blocked another kick by Klorden. The Knights recovered the ball on the three yard line and Vanden Branden went over for another score. Kleiland missed the extra point and the score was 34-0. Before the end of the quarter St. Norbert's blocked another of Worden's kicks, but CSTC recovered. On the next play Klorden kicked to Vanden Branden on Points' 37, and Vanden Branden, with a clear field ahead of him, went over for the sixth touchdown of the game. Kleiland converted again to move the score up to 41-0.

The final quarter opened with a new, white jerseyed Point team on the field. CSTC kicked to the Knights who brought the ball back to Point's 42 yard line. On the first play the men in green were successful in getting Vanden Branden off to a 42 yard run for a touchdown. St. Norbert's converted to make the score 48-0. The last touchdown of the game was set up by a Point fumble on their own 30 yard line. St. Norberts recovered and in a matter of minutes Destiche was over the goal with the eighth touchdown. The attempt for the extra point failed and the score stood at 54-0. The remainder of the game was a touch and go situation with St. Norbert's recovering a Point fumble followed by a Pointer recovering on a St. Norbert's fumble. The Knights intercepted a pass and the game ended with Lane of CSTC recovering a St. Norbert's fumble.

**The Lineups:**  
Stevens Point  
Helminksi L. E.  
Quinn L. T.  
Dinen C. G.  
Derezniski C.

St. Norbert's	7	14	20	13-54

## The Fifth Quarter

Here are a few comments overheard, after the game Saturday afternoon, by two local characters!

"Burp": What a game. They sure took a beating in their first game.

"Gurgle": So what if they did lose the first game, look at the big bruises they were playing against.

"Burp": I guess you're right. Boy, that Jimmy Koehn sure showed 'em that the bigger they come the harder they fall.

"Gurgle": That cheering section of CSTC's sure stunk.

"Burp": You're right there, for a college cheering section there wasn't much life.

"Gurgle": Well, Burp, here's where I cut off, see you at next Saturday's game.

The pin topplers are at it again. Bob Springer and Jack Knope deserve special mention for taking the initiative and getting things started.

Speaking of bowling, why hasn't a women's league been formed? Haven't you heard, girls, bowling is good for the "pins"?

We hear that Jay Swett, former athlete of CSTC, is assistant coach at Marshfield High school. More power to you, Jay.

"Hustling" Jack Young, they're calling him now. Jack, who went home to Wausau Friday, missed his connections Saturday noon and consequently came roaring into town via taxi at sixty per to just make the game. Besides being set back ten bucks Jack, as right guard, took much of the brunt in trying to stem the Green Tide.

## The WAR Is OVER!

Get out of that G. I. frame of mind, men—it's all over! Once again it's safe to volunteer for a job without fear of being stuck with something.

To get to the point, the business staff of the Iris, CSTC's yearbook, is in dire need of assistance. Bill Ritchay, 1946-47 business manager, asks that anyone with a yen or a flair for this type of work, volunteer his services.

Of course, this offer isn't limited to the males; you gals who are interested will be more than welcome on the staff of the Iris, too. Ritchay is a fairly nice, congenial fellow, so why not give it a try? You can find him wandering around the halls, or perhaps in the Iris office.

## Faculty Advisers Appointed For Year

Class advisers for the year 1946-47 have been named by President William C. Hansen.

Advising the Senior class are: Edgar F. Pierson (permanent) and Robert S. Lewis (rotating); Junior class: George Berg (permanent) and Miss Bertha Glennon (rotating); Sophomore class: Miss Edna Carlsten (permanent) and Miss Mildred Davis (rotating); Freshman class: Mrs. Elizabeth Pfiffner (permanent) and Roland A. Trytten (rotating).

## CSTC Bowlers Begin

"Set 'em up in the other alley; we're off again!" The student-faculty bowling league got off to a fine start last Wednesday evening in their first session of the year.

Last year's prize-winners gave notice that they will be hard to beat again this year. The champion Chi Delts took two out of three games from the Phi Sigs. The Faculty, who were nosed out by a single game last year, won three straight from the Moxon House outfit. Mosinees beat Seagrams Seven two games to one, and the Sad Sacks whipped Swan's Dive by the same margin. Present standings find the Faculty in first place, with the Chi Delts, Sad Sacks and Mosinees tied for second.

Joe Negard of the Phi Sigs bowled a 544 total for high series honors. He was followed by Ed Fenelon, Chi Delts-516; Walt Zych, Mosinees-499; and Chuck Larsen, Chi Delts-472. Fenelon bowled 222 for high game, followed by Zych-209, Negard-202, Pierson-196, and Bandow-191. The Faculty totaled 813 for single game honors, and Seagrams Seven had a 2179 total for high series score.

The league bowls every Wednesday night at nine o'clock, at the South Side bowling alleys. These games are open to the public, and all students are invited to attend.

## Extends Welcome

DEAN STEINER

Serving the educational needs of young people for more than 50 years, this college again welcomes its new and returning students. The 1946 student body is the largest in the history of the institution. Its members include more service personnel than ever before.

We of the college staff pledge ourselves to aid you in realizing your ambitions. We hope that your stay here may be most pleasant and profitable.

We welcome you most heartily.  
H. R. Steiner, Dean of Men.

(Continued from page 1, col. 4)

and making necessary corrections for wind, target motion, ballistics of the shell, and other factors which enter into the solution of fire control problems. He took his training at Princeton and M. I. T., with subsequent duty at the New York Naval Shipyard in Brooklyn where he was in charge of installation, testing, maintenance, and repair of ship borne fire control radar.

He was in charge of such installations on aircraft carriers, the Franklin D. Roosevelt, the Kearsarge and the Franklin. Mr. Faust also did work on the battleship Missouri and numerous cruisers and destroyers.

Mr. Gotham, before coming here had been assistant superintendent of schools in Beloit since 1939. He has taught four years in rural schools, and was for three years principal of a state graded school, where he also taught high school subjects. Mr. Gotham attended Rusk County Normal school, Ladysmith, Wisconsin, Superior State Teachers college, Superior, and the University of Wisconsin, from which he has his B. A., M. A., and Ph. D. degrees.

Miss Doherty has, for the last three years, been teaching at Port Edwards. She graduated from Milwaukee State Teachers college with a B. S. degree, and is now working on her M. A. degree.

This is the first year the Training school kindergarten has not been affiliated with the town's public school system. In addition to her kindergarten teaching, Miss Doherty is music supervisor in the Training school.

Miss Leona Bovee of South Milwaukee is the new director of Nelson Hall. She succeeds Miss Rose Barber, who is now at home in Madison.

Miss Bovee has, for a number of years, been teaching home economics in the Vocational school in South Milwaukee. She is the first local college graduate ever to come back to take charge of the Dorm.

Miss Myrtle Henriksen of Kenosha, who attended school here at the same time as did Miss Bovee, and roomed with her in Nelson Hall, has been acting as temporary assistant director. Miss Henriksen is doing work at the college also.

Mrs. Mary Randerson Rhode, third grade teacher, is now substituting for Miss Van Arsdale, who has taken leave of absence to teach American children in Germany. Mrs. Rhode, whose home is in Appleton, graduated from Oshkosh State Teachers college in 1944 and has taught for two years in Sheboygan. Her husband is enrolled in the conservation course at the college.

## Information About Rural Teaching

Some freshmen have inquired about the possibility of changing from the general course to the two-year rural course, either now or at the end of the year. Quincy Doudna, director of the Rural-State Graded Division, has prepared the following statement regarding such transfer:

"It is possible for students who take the general freshman course to transfer to the two-year course for rural elementary teachers at the end of the first year without loss of credit, ordinarily. However, it is impossible for such students to complete the requirements of the two-year course by the end of the sophomore year. For that reason students considering making such a change would be better off, as far as time is concerned, to make the shift this week.

"Rural teaching now offers better opportunities than ever before. Salaries are high, and will continue to be high for several years. The shortage of rural teachers is much more acute than that in any other teaching field, and will continue to be so for some time to come.

"Some added advantages of changing to the two-year course may appeal to many students who are in crowded classes. Most of the courses required of students in the rural course are in sections of less than 30 pupils, and in most cases there are enough books. Also, there are no general fees charged either freshmen or sophomores in the two year course, making a saving of \$80.

"Students desiring to transfer, or get further information should call at the director's office on the third floor soon!"

## Men's Glee Club Opens Its Season

Central State Men's Glee club, as it is officially known, opened its first full season since the war with an unprecedented number of aspirants for positions. The membership is between 90 and 100 men! This year the club will revive its old traditions and again become one of the school's outstanding organizations. As in the past, the club is under the able direction of Norman E. Knutzen. Officers of the organization are Bill Golomski, president; Frank Kostuck, librarian; and Ed. Kowalski, business manager.

Twenty-eight men who were members of the club in past years are in school again, and will be able to form a nucleus around which the club can be built. A possible plan under consideration is to work the new men into the group and thereby form the best possible organization.

Last spring the club sang at the following high schools: Eagle River, Rhinelander, Bowler, Mattoon, Rosholt and Stevens Point. The highlight of the season was the first postwar concert which will be surpassed this year in all ways. A mixer will be held at Iverson Park in the future. — Sorry girls, it's stag.

## Pep Assembly Held

With enthusiasm and punch the first pep session of the year echoed lustily from the walls of 'ye olde auditorium' last Thursday. Jack Rasmussen as master of ceremonies was ably assisted by the band under the direction of Peter J. Michelsen, and cheer leaders Roberta Shepherd, Pat Thorpe and Mickey Rybickie.

## Fifth And Sixth Grades Take Trip

Fifth and sixth graders from the Training school visited the Biron cranberry marsh recently, where they observed the irrigated cranberry bogs and the workers picking the berries in the dry fields. The trip along the Wisconsin River gave them an opportunity to see the dikes, gates and paper mills.

Accompanying the group were Dr. Raymond C. Gotham, principal of the Training school, Miss Lydia Pfeiffer, fifth grade supervisor, and Beatrice Abraham, Evelyn Markwardt and Harry Jones, student teachers.

## Annual Freshman Mixer A Success

What a change from last year! What a pleasant surprise to see the Training school gym filled with men (and most of them dancing, too).

The occasion for the above comment, was, of course, the first dance of the year, the annual freshman mixer, which was held on Tuesday evening, September 10. The dance was sponsored by the Student Council, as a get-acquainted party for new and old students.

Climaxing the first week of school the faculty of CSTC held their annual faculty reception on Friday evening, September 13. The date, however, seemed to have no effect as far as jinxing the occasion was concerned, for there was a very good turn out.

After both the freshmen and upperclassmen met or renewed acquaintances with the faculty, there was an enjoyable evening of dancing to the music of Benny Graham's orchestra. Punch was served through the courtesy of Merv and Irene, owners of the College Eat Shop. Judging by appearances all through the evening "a good time was had by all."
