President Extends Greetings!

It is a pleasure for me to extend greetings to you at the opening of the fall semester. As you already know, this is the largest enrollment in the history of the College. Two points on the admission front are opened with an enrollment of less than one-third that of the present year, the lowest College had in many many years.

We have the same plant facilities now as we had in the past, and are able to keep the additional help in math and the sciences there has been little increase in staff since then. So you will appreciate that the staff members are much more heavily loaded and the plant facilities much more completely utilized than was the case in the past.

If each student is to enjoy the maximum opportunity to which he is entitled without encroaching on the similar rights of other students, we will all need to be more patient and more cooperative than would be necessary under less crowded conditions. I hope you are all aware of the seriousness of achieving the maximum from your college studies. Fortunately, you can do this without depriving anyone else of the same opportunity. Education is cooperation.

Along the way you are going to have a good time. You will enjoy some of your studies, perhaps all of them, and there are many other opportunities in social, religious, musical, athletic, forensic, dramatic, social and other activities for you to choose from. You will need to think things through a little, and I wish for all of you happiness and success in your college work.

President Wm. C. Hansen

CSTC’s Enrollment Skyrockets for ’46

The enrollment at CSTC reached an all time high for the fall term both in numbers and in academic preparedness. Altogether there were 621 male students, including 410 veterans and 65 V.Y. students.

The following paragraph is quoted from the World, Sept. 12, 1946, the 98th S.T. C. Alumni group as a comparison to this year’s enrollment figure:

"CSTC’s enrollment totals 102 for the first semester—an increase of 77 over the enrollment in the fall term last year. And here’s the best part of all, girls! There are 65 men enrolled!"

The greater part of the burden accompanying the increase has fallen on the science depts. Science is the only area where the state is not suffering from the lack of enough teachers.

Convocation Held

In an impressive and colorful assembly, President John C. Hanes, president of CSTC, attended in academic robes, marched in the procession of CSTC students, and delivered the address, as has been the custom since the college opened. The students were permitted to carry their own books to take part in the annual fall convocation.

Students once more filled the auditorium to capacity and viewed with interest the academic procession of their instructors. Colors of their alma maters decorated the masters’ and doctors’ hoods worn by the faculty members.

As a highlight of the convocation, President William C. Hansen addressed the assembled on matters of importance.

1946 Football Schedule

Sept. 28 Eau Claire There (Night Game)
Oct. 4 Oshkosh There
Oct. 12 Milwaukee Home Game
Oct. 19 Whitewater Home Game (Homecoming)
Oct. 26 Platteville There

Many New Faces Appear as CSTC Enlarges 1946-47 Faculty

Faust and Rightsell Return

A number of changes and additions have been made both in the faculty and student body of CSTC this year.

Miss Pauline Iasick, of Spring Valley, Wisconsin, has been added to the college staff as teacher of history in the fall term, and Miss Katherine Vaske of Stevens Point, is full time assistant in the mathematics department. Robert Burkman of Waukesha is full time assistant in the biology department.

Mr. Epple of Beloit succeeds Charles C. Evans, as instructor in zoology. He has not arrived, but expect to be here by October 1.

Mr. Daniel F. Waddell has been back at CSTC as head of the physics department and director of physics publications, after a year’s leave of absence. He taught physics at the Army University Center at Biatiraz, France, last year.

Fall Reception At Nelson Hall Sunday

Nelson Hall girls will be hostesses at an annual fall tea and reception on Sunday, November 29, from 3 to 5 o’clock.

Lorraine Peters, Dorn vice-president and social chairman, is in charge of all the plans. She has selected her committee, Misses Dorothy Spaulding, chairman, Gladys Nienhuis and Joyce Kraglievich. The tea will be in the dining room, and the refreshments and music will be provided by the social committee.

Social Calendar Planned For 1946-47

The following events are arranged for the social calendar for 1946-47:

October 19 - October 22 (tentative) - Homecoming Week.
November 22 (tentative) - Homecoming Dance.
November 12 - December 12 - Christmas Cheer "1946" (sponsored by W. A. A.) Student Lounge.
January - Greek Dances (sponsored by Homecoming Committee).
April 6 - Easter.
May - "1946" (sponsored by Homecoming Committee).
Recreational dancing plans are being formulated.

State Teachers College. She received her master’s degree from the University of Wisconsin and work towards her doctor’s degree in forestry.

Miss Hope and Mr. Burkman are both graduates of CSTC. Miss Hope graduated last June, and Mr. Burkman, recently discharged from the service, is a 1942 graduate.

Mr. Epple taught at Beloit and Antigo and has served on the college staff here during two summer sessions as an instructor.

Mr. Faust was an electronics officer in the navy, specializing in fire control radar. The radar is used in directing gunfire, detecting and locating the target, tracking the target.

(Continued on page 4, col. 1)

Mr. Evans Retires

Charles C. Evans, head of the biology department at Central State Teachers College, has been teaching for 25 years, retired on September 1.

Mr. Evans, a native of Norwalk, Ohio, received his bachelor’s degree in science at Western Reserve University, and master of science degree at the University of Chicago. Formerly a teacher in high schools in Ohio and Pennsylvania, Ohio State University and the University of Wisconsin.

Mr. Evans was enlisted as an apprentice seaman in the first World War and was later returned to his teaching. His training college was commissioned as an ensign in the navy where he served as a midshipman.

Mr. Evans, a member of the Wisconsin branch of the International Association of Milk Sanitarians, and private milk inspector of Stevens Point, is a past chairman of the Wisconsin Milk bank for the city for more than 20 years. He made the first bacteriological tests for the city here in the college laboratory.

Mr. Evans, a member of the Wisconsin Vitamins and Minerals Association, is a past chairman of the Vitamin committee of the Western Electric Company of Chicago.

While at Yale, he was sent by the Yale museum to Georgian Bay to collect geological specimens for the museum, and to make maps for the "Across South America" and "Forests, Physiology of North America" during this time. Occasionally, he has been a contributor to various periodicals. Mr. Evans is listed in "American Men of Science", "Who’s Who in the West", "Who’s Who of Kansas", and "Outstanding men in the scientific field.

Active in the Wisconsin State Teachers College, he was a member of the Y.M.C.A. Board from 1934 to 1941, he holds the rank of Lieutenant Commander in the United States Navy.

Mr. Evans was chairman of the college at many schools.

He and Mrs. Evans plan to make their home in Stevens Point but will spend the winters in a warmer climate, probably Florida.
Welcome From Dean Pfliffer

Jane Miller stayed here last weekend, and this weekend Mary Lou Miller will be with us. Good to see them again!

Dean of Women

Everyone is getting “hepped-up” for the first meeting of the year to order at 4:00 p.m. Thursday, “Our College”; Tuesday, “Books and Authors”; Wednesday, “The College; Thursday, “College Round Table”.

Radio Workshop Organizing

Radio Workshop has again organized its program for another year. The session is open to all students, regardless of major, and the program will include discussions of the work of Raymond M. Rightsell and Gilbert W. Faust, faculty advisor.

The group met Monday morning, by the classes at the college. She, too, is Leona Bovee, seated before a tea table, as new house mother, is registered for friend. (Perhaps we should place “alums” lately. Lu Vaughn and Carolyn Miller stayed here last week -- W. Faust, faculty advisor.

The students of the workshop staff, which was not available this term, will be printed in next week’s Pointer.

Chi Delta Rho News

Grant Thayer, president of Chi Delta Rho, attended the first meeting of the year to order at 4:00 p.m. Thursday, "Our College"; Tuesday, “Books and Authors”; Wednesday, “The College; Thursday, “College Round Table”.

Steve Alley is Durinfl, Illinois, and Carl E. Jett, Ridgway, Pennsylvania, on the track team. They have helped supply information during the week.

After submitting a preliminary application the V-5 applicant is given a list of schools and is helped to choose one that he prefers. At least three different types of schools are listed for the application to use as a guide. Next, the prospective team, which will have served in the Navy, will be followed by a welcoming address by the faculty advisor. After the flight duty for nine months as midshipmen; and the following 12 months as ensigns. The new officers may be given further training at Annapolis, equivalent training elsewhere, or may be assigned directly to the active duty in the Navy Reserve as midshipmen.

While here the students are entertained by speakers each evening. They are also entertained by special events such as member of the team, roll call was high since the opening of the new dormitory.

Meeting of Rural Life Program

The meeting opened with fellowship singing led by Mr. Doudna, a member of the team, roll call was high since the opening of the new dormitory.

Dean Pfliffer

Greetings and a hearty welcome to CTS/C students who will be here this fall. This is a most exciting and rich experience. It should open new avenues of thought, preparation and planning for all of us. Miss Myrtle Henricksen, assistant to the new house mother, is registered for residence at the college. She, too, is becoming known to us as a real friend. (Perhaps we should place “alums” in each case, for none of those more prevalent in the last few days.

We have had visitors (recent “alums”) lately, La Vaughan and Dean Pfliffer

All good things must come to an end, as the close of a perfect summer vacation proved; but it isn’t. People are as fortunate as we are, with a good beginning all ready to be begun. Certainly there is opportunity for fresh starts knocking on every door—from first floor to third. We are speaking, of course, to those who haven’t already guessed, of the newfound acquaintances to be made at Nelwood Hall. Half the girls this year are brand-new to Dorm life—30 of the nicest (and certainly most enthusiastic) girls to be found. 18 Dorms of the past three years who have returned to the prospect of being upperclassmen and rehashing former days. This week marks the first week of blanks for that great event of October 2nd.

Dorm Notes

Here it is! The first issue of the 1946-47 POINTER and with it the beginning of the new academic year. We are here as close as, as old friends among the upperclassmen and faculty.

We hope that this fall’s form and face, the POINTER, is still the same unbiased projection of student opinion. Our opinions may change, and opinions make it what it is. We are more than willing to accept any contributions or suggestions you may have.

With this issue a new column is introduced, “What’s new”. This column is one that will endeavor to keep you informed during the course of the year. We will pass along to you any information we have, any news which will be interesting as well as informative. The first facts is on Homecoming for this year. The date is October 5th, the event the football game with Whitewater. There will be parades, cheerleading, and an informal dance activity. The fellows pay for Parades, and the following 12 months as ensigns. The new officers may be given further training at Annapolis, equivalent training elsewhere, or may be assigned directly to the active duty in the Navy Reserve as midshipmen.

While here the students are entertained by speakers each evening. They are also entertained by special events such as member of the team, roll call was high since the opening of the new dormitory.

Married life is out of the question for any student who does not qualify as a Cadet. But that goal must first spend two years in the Navy, including flight training. This is required to take four semesters of English, two semesters of mathematics, and one semester of physical education. The remainder of the program is made up of electives offered and permitted by the college.

After the first year has been completed, the student must pass a flight test. This test is required to take four semesters of English, two semesters of mathematics, and one semester of physical education. The remainder of the program is made up of electives offered and permitted by the college.

Marriage is out of the question for any student who does not qualify as a Cadet. But that goal must first be accomplished. It is required to take four semesters of English, two semesters of mathematics, and one semester of physical education. The remainder of the program is made up of electives offered and permitted by the college.

After the first year has been completed, the student must pass a flight test. This test is required to take four semesters of English, two semesters of mathematics, and one semester of physical education. The remainder of the program is made up of electives offered and permitted by the college.

Most of the students of the workshop staff, which was not available this term, will be printed in next week’s Pointer.

General Assembly

We are pleased to note that both new and old students in a speech given on Thursday, Sept. 16, at the meeting of the General Assembly, the auditorium was filled to overflowing, with more than 300 students and faculty seated in the room.

The resolution was brought forward by the student’s president’s address. Miss May Rosch of the faculty introduced several members of the committee.

As a grand finale for the assembly program, tickets for a movie at the theater were distributed to every student present. The movies were "Tomorrow" and "The Unknown." The tickets were presented in behalf of the committee. Members of the committee are on the committee, Oscar W. Neal, Floyd Wilt- han, Ken Anderson, Art Diedrich, E. G. Hulme, Charles Dig neur and Kenneth B. Willet.

Notice

Students who wish to have their 1946-47 YEARBOK completed should notify the office of the yearbook department, 201 Central, by Monday, September 5th. Those who do not return their forms by that time will be requested to fill them out at a later date.

We will try to give you any information explaining the purpose of this column. If at any time any of us as a column, announcements or good stories, drop us a note in the student newspaper office addressed to The See & Eye, and we’ll be glad to print them. This is a service for you, so don’t hesitate to give us any data you think is pertinent.

Another thing we plan on doing every week is naming a “Student of the Week” through his or her outstanding work in some college organization. If you are active in any of your organizations and are planning to be selected for our column, we close your selection and consequently may at times seem prejudiced but we will try to be fair in selecting those who we think are worthy of recognition. So let’s see who can be a Student of the Week.

We know there are some who are turned off by the idea of being “picked on.” This is one of the facts for we have only one week of the year and we will reserve our first selection for next week’s column. So watch this space.

We hear from a reliable source that the next big thing is the “See & Eye” column. That is the letter-man’s column. They are the backbone of the athletic department who try to create this atmosphere to the athlete to increase his spirits and the school spirit, as it moves, as it shows that all college organizations are aware of this little thing they are doing. This is their activities this year. The relationship of all colleges and all clubs will have a bigger and better year, thus making our school look better and richer in opportunities than ever before. We think this will be a banner year with your help.

Just as we have mentioned above, the new facts and announcements you can expect to forward to an information source. Keep your eye on the "See & Eye" column.
Pointers Beaten In Season's Opener 54-0

CSTC's in the opening game of the season against Mosinee Wednesday night at P teenagers, clearly disclosed a lack of coordination in both offensive and defensive play. Blocking was totally ineffective, with the DePere men charging through to stop most of the plays before they had a chance to materialize. Consequently, the Pointers’ aerial offensive also collapsed. Kicking suffered a similar fate with the Blackbirds blocking four attempted punts. Outstanding players for St. Norbert's were Nelson, Lamers and Vanden Branden. While for the Pointers, Pat Kubisik, Jim Koehn, and Dick Parsons showed up very well. Koehn's tackling was gracefully to see.

With the experience of one game behind them the Pointers enter into preparation for their next game which will be played at Eau Claire on Saturday. September 28th. Especially impressive is the team’s defensive play. With the exception of one punt St. Norbert’s fumble the offense was held to an average of two first downs per game. The Blackbirds followed up by recovering one of their own fumbles and the Pointers’ fumble on the 42-yard line. On the next play the men in green were successful in getting Vanden Branden off to a 42-yard run for a touchdown. St. Norbert's converted to make the score 8-0. The last touchdown was scored by putting a Point fumble on their own 30-yard line. St. Norberts recovered and in a matter of seconds was over the goal line. The score was 15-0 for the extra point failed and the score stood at 15-0. The remainder of the game was a touch and go situation with St. Norberd's recovering a Point fumble at midfield. A Point recovering a St. Norbert's fumble. The Knights intercepted a pass at the game ended with Lane of CSTC recovering a St. Norbert's fumble.

The second quarter opened with Nelson pulling off a 21-yard gain to bring the ball up to the three yard line. Frispatrick then plowed through for the second through the touchdown. Weiland converted to make the score 14-0 to the Pointers. The second half went downhill and the game was nip and tuck until the final minute of the game. Kulbach of CSTC intercepted a pass on his own 1yard line and ran it up the middle for a 75-yard touchdown. He was tripped attempting a pass but Stienski intercepted at the 56-yard line of the remaining period Lansers went over for St. Norbert's third touchdown. Kulbach converted again to make the score 21-0. The half ended with Point in possession of the ball.

The THE POINTERS

The beginning of the third quarter found CSTC in but water over Corner when St. Norbert's blocked Haidig's kick and recovered on CSTC's yard line. The next play was a day and Hickey carried the ball from the scored line for another touchdown. Kleiland tallied the score 28-0 for the game.

St. Norbert kicked off and in a matter of minutes blocked another block from Klaerden. The Knights recovered the ball on the three yard line and Vanden Branden went over for another score with the extra point made and the score was 35-0. Before the end of the quarter St. Norbert’s blocked another of Worden's kicks, but CSTC recovered. On the next play St. Norberts recovered off of Vanden Branden on Points 37, and Vanden Branden, with a clear field ahead of him, went over for the sixth touchdown of the game. Kleiland converted again to move the score up to 41-0.

The final quarter opened with a new, while experienced Point team on the field. CSTC kicked to the Knights who brought the ball back to Point's 42 yard line. On the next play the men in green were successful in getting Vanden Branden off to a 42-yard run for a touchdown. St. Norbert's converted to make the score 48-0. The last touchdown of the game was set up by a Point fumble on their own 30 yard line. St. Norberts recovered and in a matter of seconds was over the goal line. The score was 55-0 for the extra point failed and the score stood at 55-0. The remainder of the game was a touch and go situation, with St. Norbert’s recovering a Point fumble. Another Point recovering a St. Norbert's fumble. The Knights intercepted a pass and the game ended with Lane of CSTC recovering a St. Norbert's fumble.

The WAR IS OVER!

Get out of that G. I. frame of mind, men—it’s all over! Once again it’s safe to volunteer for a job without fear of being stuck with something. Get back to the point, the business staff of the Irr’s, CSTC’s yearbook, is in dire need of assistance. Bill Bitchey, starting business manager, is asking that anyone with a yen or a flair for this type of work, volun-
teeer his services. Of course, this offer isn’t limited to the “jocks” you drop who are interested will be more than welcome on CSTC’s staff, but the “jocks” are a fairly nice, congenial fellow, so why not give it a try? You can find him wandering around the trials, or perhaps in the Iris office.
Mr. Gorham, before coming here, had been assistant superintendent of schools in Beloit since 1931. He has taught four years in rural schools, and was for three years principal of a state grade school, when he transferred to high school subjects. Mr. Gorham attended Rock County Normal school, Ladymith, Wisconsin, Superior State Teachers college, Superior, and the University of Wisconsin, from which he has his B.A., M.A., and Ph. D. degrees.

Miss Doherty has, for the last three years, been teaching at Port Edwards. She graduated from Milwaukee State Teachers college with a B.A. degree and is now working on her M.A. degree.

This is the first year the Training school kindergarten has not been affiliated with the town’s public school system. In order to help her, a new teacher, Miss Doherty is music supervisor in the Training school.

Miss Leona Bovee, of Milwaukee, is the new director of Nelson Hall Dormitory, where she succeeds Mrs. Barrow, who is now at home in Madison.

Miss Bovee has, for a number of years, been teaching home economics in the Vocational school in South Milwaukee. She is the first local college graduate ever to come back to take charge of the Dorm.

Miss Myrtie Hendrickson of Kenosha, has been teaching here at the same time as Miss Bovee, and roomed with her in Nelson Hall, has been acting as temporary assistant director. Miss Hendrickson is doing graduate work also.

Mrs. Mary Randerson Rhode, third grade teacher, is now substituting for Miss Van Arsdale, who has taken leave of absence to teach American children in Germany. Mrs. Rhode, whose home is in Appleton, graduated from Oshkosh State Teachers college in 1944 and has taught for two years in Sheboygan. Her husband is enrolled in the conservation course at the college.

Information About Rural Teaching

Some freshmen have inquired about the possibility of changing from the general course to the two-year rural course, either now or at the end of the year. Quincy Douil, director of the Rural-State Graduated Division, has prepared the following statement regarding such transfers:

It is possible for students who take the general freshman course to transfer to the two-year course for rural elementary teachers at the end of the first year without loss of credits, ordinarily. However, it is impossible for such students to complete the requirements of the two-year course by the end of the sophomore year. For that reason students considering making such a change would be better off, as far as time is concerned, to make this shift this week.

"Rural teaching now offers better opportunities than ever before. Salaries are high, and will continue to be high for several years. The shortage of rural teachers is much more acute than that in any other teaching field, and will continue to be so for some time to come."

"Some added advantages of changing to the two-year course may appeal to many students who are crowded classes. Most of the courses required of students in the rural course are in sections of less than 30 students, and in most cases there are enough books. Also, there are no general fees charged either freshmen or sophomores in the two-year course, making a saving of $80. Students desiring to transfer, or get further information should call the director's office on the third floor soon!"

Men's Glee Club Opens Its Season

Central State Men's Glee club, as it is officially known, opened its first full season since the war with an unprecedented number of aspirants for positions. The membership is between 90 and 100 men! This year the club will revive its old traditions and again become one of the school's outstanding organizations. As in the past, the club is under the able direction of Norman E. Krutin, Officers of the organization are Bill Golomski, president; Frank Koslick, librarian; and Ed. Kowalski, business manager.

Twenty-eight men who were members of the club in past years are in school again, and will be able to form a nucleus around which the club can be built. A possible plan under consideration is to work the new men into the group, and thereby form the best possible organization.

Last spring the club sang at the following high schools; Eagle River, Rhinelander, Bowler, Mattoon, Stevens Point and Stevens Point. The high light of the season was the first post-war concert which will be surpassed this year in all ways. A mixer will be held at Irvinon Park in the future. —Sorry girls, it's stag.

Rep Assembly Held

We recently attended and watched the first prep session of the year echoed justly from the walls of "ve old auditories" last Thursday. Jack Ramsen was master of ceremonies was ably assisted in all matters under the chairmanship of Peter J. Michelson, and cheer leaders Roberta Shepard, Pat Thorpe and Mickey Rybick.
