Rembrandt, Look to Your Laurels! Spectch Starts Dabbling in Painting

Geography instructor, Ray E. Spectch, recently turned up painting (oil, water color, and crayon), a hobby that finally paid off last Sunday (April 16) when he was awarded first place in the Marshfield State College Art Convocation.

Although he has never had an art course and only found this interest stems from photography—photographing the Irish Sea in making colored slides for geography class.

Mr. Spectch's interest started when he went to the high school Christmas ball last December and was struck with the face of a girl whom he later learned was a student in his biogeography class. He immediately went to work and, after the last exam, he finished the painting of the girl.

When he proudly brings into the high school a portrait of a student, he plans to paint portraits of all his students.

He paid a special visit to the Marshfield State College Art Convocation and his portrait was accepted with much acclaim.

"I plan to continue painting and will probably have a show next spring," said Mr. Spectch.

Flowers and Formulas Fit Faust's Fancies

Ralphineculea . . . Geraniaceae . . . Old-fashioned flower sounds different familiar? (Like Greek, huh?) Well, they also have "Fondant" and "Rumhelian," and the star of Backstreet.. So says Gilbert W. Faust, chemistry instructor at ISC, and will bear his mark on that record.

Mr. Faust has developed an amazing interest in such things and has been filled with his enthusiasm for their study and research. He is now the proud owner of a miniature rose bush, the fausts to the other things there is no name.

Several weeks ago a certain religious group was having a light speaker on the subject, "Alcoholics anonymous." This group was interested in the study and research before the president had a chance to speak, the man who opened the kitchen door, and called, "Whoever has a hot dog, you're a winner." It was not a very successful attempt to a raise the plate.

A group from the college went to the old folk's home last Sunday night for a religious program. One of the old fellows who sat on the piano while the group played, said to Faust, "I wish they'd do something else."

"Yes, but it's not their kind of music," replied Faust.

Mr. Faust spends a great deal of his sparse weekends working in the garden. If you want to be happy, you must have a garden. Mr. Faust has a garden and it is all that he enjoys. He is a real gardener.
