Home Ec Department Moves to New Home

Saturday, March 7, was moving day for the Home Economics Department. The members of the college administration and faculty, along with the College of Home Economics staff members, arrived by bus at 1213 Main St., formerly the home of (June) Vetter. A reception was held in the faculty room. There was somehow of a question mark on the address, and the furniture had been in storage for some time. Since last July, the old furniture, above mentioned, was an assignment of the home management class. The furniture was moved, as follows: Mr. and Mrs. J. L. Teachman, Mrs. Helen Davis, Mrs. Lois Willows, and five girls have moved in for a six-week period.

These girls are Eleanor Curtis, Patricia Duff, Alice Stuntz, Evelyn Allen, and Glenn Clark. They will be training in home management, under the direction of Mrs. Willows, for the girls, under the house, under Miss Yousman’s supervision.

Their practice day will terminate on April 12 when Dona Duff, Ruth Willows, Evelyn Allen, Winnie Pierre, and Vera Schaefer

TWCA to Sponsor All-School Homecoming

The TWCA is sponsoring an all-school movie on March 19, in the college auditorium. The feature will be "A Wonderful Life," with the annual homecoming to be held in the afternoon. There will be no cost for admission to this attractions.

In the event that the above-mentioned picture is unavailable, a substitute will be made.
FAMILIAR FACES

Leaning across an impression of the "Central State Point" newspaper, editors and writers are working behind tables and desks, hunched over their writing, editing, and composition. The faces of the students who contribute to the paper are varied, each with their own unique story to tell.

At the present time Mary's home address is.. However, she does not live in town. Miss Land is a Tuscaloosa girl, a native of the state. She has had a good education and is well respected. The charter members of the "Point" have helped to form this enthusiastic student body into a strong and loyal organization. Last year Mary had the privilege of being the President of the Student Council. Says Mary, "Never mind at all."

Mary has led a very interesting life, she calls it normal... Nor is this the first time she has been published. She was published in the late childhood traveling around the U.S. Her family finally settled at Kemenah, W. I., where she gradu- ated from high school. After graduation, they moved to Eagle River but she has not been there long. They are now in Chicago... "Everything you want to do is right here," says Mary. A young girl who has just graduated from the art institute in Chicago next year. She has a contract for Beloit sewing up in her future.

Mary has two pets, a dog and a cat. She also has a small radio and a television. She is happy when in Florida a few years ago. She likes the run around from the guesthouse to the garage, to the dining room, and back. She goes to a Great Western College of the Contractors, and she likes to go to parties. In fact, she has been to parties in the last two years, she was caught on a television signal at 2 p.m. on a Sunday School picnic.

Last summer Mary went to Nor- way for her father. Summer: "Just visiting." At the time she was last seen, she was in the kitchen,据说是新计算机的发明者之一，其中一部分代码在1984年被发现并公开发布。
Basketball Season Ends on Sour Note with Loss to Platteville

Central State’s Pointers fell behind in the final period to lose their final Big Ten game, 70-65, to the visiting Platteville cupboard, 17-1 in the Big Ten, on Wednesday evening. It was the last game for 11 of the 12 Pointers who started the 20-game campaign.

Point guard Ralph Luedke fired in 11 first-period points to set the stage for the game. However, Platteville’s Tom Riedl, with 21 points for the game, scored 16 in the second period to vault the visitors ahead.

The Pointers managed to put up 13 points in the final period, but it was not enough to overcome the 13-point deficit that Platteville built on the strength of Riedl’s perfor- mance. The Pointers’ final game was an 82-70 victory over the same Platteville team a week earlier in Platteville.

The final record for the Pointers was 8-12, with a Big Ten mark of 3-7. The Pointers had a better than expected season, given the circumstances of the previous season, where the team was forced to play most of its games on the road due to a lack of facilities.

The Pointers are now looking forward to the off-season and hope to return with an even more improved team next year.
Conservation Brought to College Campus in Day-Long Activities

Conservation was brought to the entire Central State campus on Conservation Day. A team of trained men from the Wisconsin Department of Conservation was brought here to present a program of four lectures repeated four times during the day.

For a good look, let’s take a return trip to the second floor of the con- ference building. According to Frank Ca- cor, district forest supervisor from Waupa- ca, to grow, but that man should not what the success- ion of birds and the succ- es- sion of trees; (4) Help each other in the con- duct onese If in a boat. (5) Help a drowning or swimming person into the boat, or not the gunwales: (5) Treat every gun as a loaded gun; (5) When handling guns, keep the weapon on the ground; (6) Don’t point your gun at any- one; (7) Keep your gun away from the boat. (11) Don’t treat the 22 rifle as a .22 rifle. Remember that a .22 is a matter of law; (12) Exercise your gun in a case when transporting in a vehicle, (This is a law.) (13) Make sure your gun barrel is free of obstruction. (Herb Johnson, assistant supervisor of operation in district four, was program chairman.)

The man behind the scenes was Put Whalen of the forest and parks division, accompanying the con- servation men as custodian of prop- erty.

Dr. Jenkins Attends Chicago Conference

Dr. Warren G. Jenkins, dean of the School of Science at the NEA’s eight National Con- ference on Higher Education in March 5-7.

Wayne Howe, S. senated from Oregon and former dean of the law school at the U. of Oregon, spoke on “The Relevance of Political Liber- tarianism” at the conference on March 5.

The Challenge to Higher Educa- tion was the closing address March 7, given by William S. Cornwell, president of the State University of New York.

Senior Class Wins The Jug-o’ Blood

The senior class of CSSC provided theIntercollegiate Blood Drive welfare and clagged the traveling “Jug-o’ Blood” and cleared out of the area for five days of population, and the last week, the senior class. The tanks and prepared skins of birds are important. “Of particular interest was the discus- sion of the planning of the warhorse in the general discussion of some birds in relation to the habitat. Perchmaned.

Your reporter went at 2 p.m. to the rural area of the lake where games is de- fected from hunting or trapping. The major game in the area is turkey. In the fall of the season, the turkey game to build up populations, and the last week the area is largely devoted to game for a place to grow. Mr. Da- m, assistant supervisor of the silts, said, “We are prepared to go into the harvest, hunting and trapping, and several really is a good tool for the conservation laws of the state which regulate seasons and bag limits.

Then there are refugee and closed seasons where game is de- fected from hunting or trapping. The major game in the area is turkey.
