Barbar and Moll Selected To Attend ACE Convention

Jean Barbar and Joyce Moll were selected March 17 as the senior girls to represent Primary Council at the national ACEI (American Children’s Home Education, International) convention, which is to be held at Denver, Colorado, April 5 through April 16. Two of these girls were chosen by the council as best fulfilling the qualifications of leadership scholarship, teaching ability, ability to present a program, and personal impression, and the ability to make the presentation.

Primary Council is financing the trip to Denver, the trip of children’s play, “Prince Swinegard,” which is to be presented on April 20 at Emerson auditorium.

**Elementary Children To See Dance-Drama**

The students of Stevens Point are in for a treat on April 20 at 2 p.m. when the Wordy Strawbridge production “Prince Swinegard” will be shown at the Emerson school auditorium.

“Prince Swinegard” is the dance-drama version of Andersen’s fairy tale, “The Swinegard’s Daughter.” Strawbridge is using this performance as a project to teach the students high social status to the boys and girls of Stevens Point. President of the group is Dr. Mary Elizabeth Smith.

The Strawbridge production of Andersen’s beloved story combines music, dance and drama in a delightful show of costumes and settings. Bright costumes and bewitching scenery. The entire production will be on view at all the schools of the city. Because of the high规格 specific principles of children, tickets will not be sold to adults until April 15 when the sale will be open to adults if there are tickets still unsold.

The sale, which is now being conducted at the Training School, will be open at the other elementary schools of the city after Easter vacation.

Iris May Be on Time!

It has been traditional in the past to predict that the Iris will be ready to bloom on a certain date in the past that the Iris was not ready to bloom this year. The tradition will be broken. There will be no Iris this year. Thomson's Iris must be out by commencement time.

Welcome! Constructive Pledging!

From all appearances it seems to us that the Greeks' switch to a constructive pledging program to aid community and college is a step in the right direction.

Sigma Theta Epsilon Holds Pledge Ritual

Many students and groups, both on and off campus, have expressed their willingness to help the group, and the students have agreed to work towards constructive pledging activities, for the good that can be accomplished in the program.

Congratulations, Greeks, on a fine start!

Jim Clark Sits Through College With the Neighborhood Babes

One of the unique occupations of Chief Douglas, of Clark and Barnes, is being a baby-sitter. He has carried on this work for four years and in the past few months has been a baby-sitter for Miss Catherine Stout, the senior in secondary education, while she was in her recent experience at the Vesper, a sophomore in the high school, worked as a baby sitting. Jim replied, "Oh, yes, I've been a baby-sitter before, but if they don't behave, I can just spank them."

"Cowboy" Jim Popular

His summer of working on a ranch in nearby Pineville was a happy one, especially when taking care of little Garnett Curley's horse. Jim has made quite a hit of this type of work and is becoming more popular, especially with the younger generation.

"The parents told me before they left that if little Jackie didn't behave, he was to have their permission to him in bed. I expected a little rebellion, but he wasn't so bad. I just told him fictitious stories about the Waco kid. Of course, before he'd go to bed, I had to promise to take a picture of his horse and have it developed for him. I'm sure he'll be pleased with it."

Boys Give Less Trouble

It really doesn't make any difference to Jim whether his job is taking care of a little girl or a little boy. But some boys are more difficult to handle, and Jim considers his charge easy to control and put to bed. Jim's majors include physics and math, and his goal is to be an engineer. There's no question either a transfer to the University Air Force. Jim isn't the only male baby-sitter in the district, however. Little Brian Eason has found the boys at Delsea and C. E. are more difficult to handle, and uses them for services other than the usual baby-sitting duties. Little Brian Eason finds them to be more rebellious, and he says if it wasn't for some incident Miss Eason recalls happening while he was baby-sitting (he couldn't find the three corners of a hat) he'd be in jail.

"I don't think Jim will have any trouble with the boys."

Jim remembers one incident in particular:

"I was given the job of baby-sitting for a high schooler during the summer, and the boy's parents told me that he was a little hellion. Well, I had to baby-sit for him, and by the end of the week, I was convinced that he was a genius."

The session will present a variety of topics related to the health education program, including the importance of diet, exercise, and stress management. Attendees will have the opportunity to network with other educators and learn from experts in the field. The session is scheduled for Thursday, March 26th, from 1:10 to 2:40 in the campus auditorium.

Jim Clark, Enrico Energy young sophomore from Vespo, is well prepared for the role of baby-sitter. He has been working in this capacity for the past four years and is especially adept at handling the younger set. His small friends in the picture are John Stephen (center) and Brian Eagle, sons of Mr. and Mrs. Sutin, of Kewanee. Enrico.

Rural Students Spend Friday in Conference at Eau Claire College

By Roy Habrock

At 6:30 last Friday morning, the robins from the campus at CSC watched nine young people and two teachers, Miss Cecilia Winkler and Miss Mary Roach, set into the conservation station wagon and start off to Eau Claire. The big occasion was a Rural Life Conference for all of the Wisconsin colleges. From the reports we have heard, they really had a great time.

After a hectic 112 mile ride, the group arrived at the college campus at Eau Claire. If we could have looked in on what happened next, we would have found nine lost people wandering around the campus, first going to one building and then to another, until finally they reached their destination. It was now just about nine o'clock, the time at which the meeting was scheduled to begin. However, it did not start until a half hour later because some other groups had not yet arrived.

The meeting finally got started after Peter J. Michel, director of Rural Education at Eau Claire, made an opening report. One from a gentleman from Iowa and one from a gentleman from but they were from the Red Cross than last year at least.)

Just to make the letter complete, we added those lines in closing. "My two hobbies are Indians and planes. I like Indians better."

Doesn't all this sound familiar, practical teachers? But don't let it discourage you. It is the right day to love. It is the road to happiness. It is hitching your wagon to a star. Take time to look around — It is too short a day to be selfish. Take time to laugh — It is the music of the soul.

STEVES POINT, WIS.
CSC Trackmen Work Out
With Indoor Sessions

Central State’s typhoons are look-
ing toward the skies and hoping for a change in the weather as they make preparations for outdoor practice sessions. Practice
activities thus far have been limited to the enclosed gymnasium and have taken the form of calisthenics, weight-lifting, and work
on the various hurdle and distance
races. The men and distances runners have been shaking out their limbs by running up
and down stairs and through the halls of the college buildings.

Coach John Roberts, starting his
second season as CSC track mentor,
has seen a number of his young
men around which to build a promis-
ing team. Several newcomers are
likely to add the necessary strength to the indoor sessions run by Coach
Dick Jost, assistant trackman.

"Youman's Bakery--Which Cookie Do You Want?"
Home Ec House
Is Officially Open for Business

By Eleanor Curtis
Have you been wondering what has been happening at "Miss Rita Your House" across from the college? The one at 1126 Main? Some people have, in the extent of stepping into puddles because they were looking to the house so intently. In case you are curious, there is some information:

As to what the place is called--well, that hasn't been decided definitely yet. But if you can get the answer, "Home Ec House" or "Home Management House" or the favorite, which is "Youman's Bakery"--then do you want?

At the present time there are five girls staying there with Miss Rita Your House. They are: Mary Pfitzen, Glenn Clark, Ann Eisen, Phyllis Jarlisch and Eleanor Curtis. After April 17, Dennis Dohn, Kathrym Blankenheim, Winnie Pierre, Kathrym Allen, Ruth Tetsen and Vera Schafer will be there. Experience Gained

One purpose of the home management house is to give each girl experience in the care of the home. The girls are divided into four groups who divided the work so that each girl has a different job each week. The diversions include (follow): Food manager, assistant housekeeper and housekeeping student. Each girl has her turn as food manager. The work schedule is not rigid. It is adapted to serve the needs of each girl, and to make sure that girls are familiar with various work situations.

The diverse is divided into four groups, so that the girls each have a different job each week. The girls are responsible for the cooking and cleaning of the house, and they are to be in charge of the house when the rest of the group is not.

Home Economics students direct the work to meet the current needs of the house. The work is not just limited to the kitchen, as there are the other areas to be considered.

Pledges Help
Does the work take all of your time? It is but we've had some help. All the H.E. 231 class members have been very helpful. The girls who weren't in the class are also helping.
