Halls of Ivy

Did you ever stop to think that a lot of buildings have ivy and that mortar boards come in all sizes? It isn't necessarily only a college which has "halls of ivy," and you'll have to walk around every single one. In every one is part of a stereotyped pattern. Each is a definite individual.

The college can "mean a lot of things." Upon graduation from Central State you could be the proud possessor of a degree from any one of forty-five departments. These departments, ranging in education, science, or bachelor of education. The divisions, of course, are divided into: science, education, and business.

Our nation spends over $2 billion a year in public and private funds on higher education. Of all the nations of the world put together add up to this number. One boy and girl out of every six between the ages of 14 and 21 attend college. Consider this growing and a college degree is now considered a prerequisite for many jobs.

Though it's a strange tradition, in a way they are a social habit, something that everyone does. In other ways they stand as an ideal, to work hard and get a great future and a great job for work.

Central State's population is made up of 6,000 college graduates, a figure which, however, constitutes only six per cent of the total population old enough to go to college. Of all college students are men, while 41.7% are women.

Only 25% of our college graduates have not worked to pay for part of their college education, while 75% worked their way, while in or part.

Editor's note: The basis for this editorial was the book They Went to College by Ernest Havemann and Patrice Sailer West. More timely observations on this same subject, "It college really worth all the time and trouble?" will be forthcoming at a later date — Amen.

FAMILIAR FACES

A reporter's dream — to be late for football games, catch the most honored celebrity cutely and very patiently waiting (with a smile yet) with a bag over his shoulder. In this instance, Mr. Robert Ulmerger, Homecoming Court, 1937. Seems as if steam was leaking from his ears. The highest education is a college is not highest eddication if the old radiator he was leasing was leaking.

This 25-year-old Alga kid began to talk. After high school, which had never lacked for anything, Bob worked at a powder works, and his late forays to Young people in College. As a senior in Secondary, he had all sorts of interests. Bob seemed interested in something-like hunting-kodak-beer in Alaska or a jungle safari or sight-seeing in any part of the world. He had this experience and adventure they offer. Not that he could’t have a college, Bob may sound, though, for Bob was one of those boys who figure California to see the game last year. At present Bob is "stately" busy with Homecoming plans. As chairman he quaintly hinted of a few surprises. Just can’t wait for the big weekend.

This year Bob is putting the finishing touches on his History major and getting his pins on the Homecoming Court. In addition to being Homecoming chairman, he’s a member of the "S" club. He has been active in Dramatics, Alpha Gamma, and Iris. He is on the list of men who were the first to sign up for the championship last year (Bob claims that he was on the team, anyway). He is first floor manager at Dasell Hills and is supposed to be a handyman for the Fraternity of the Embryo and the Interfraternity Council was formed. Talk of Bob's name is on the lips of President of Phi Sigma Epsilon. This year it’s Jerry Baeren.

FRESHMAN "Ham" Miss Crack Potted Bell

by Benita Held

There is one ham in Nelson Hall which hasn’t yet been eaten in the unfortunate way that "Ham" is WYSU, or if you don’t speak Latin, it is Dorothy Richter.

Dorothy is a freshman from Minnesota whose hobby is amateur radio. "Ham" was the homecoming "ham." Freshmen have been dying for mail from home. Dorothy has been visiting with her father every day via her radio set.

Right now the "ham"’s main job is to get others interested in the hobby. Boy, Father ("Papa") Norbert Wilger, and Bill Jablonske of Stevens Point, all fellow hams, are building a radio "shack" on the third floor of the "pivot." Wilger is donating the equipment for the station with the purpose in mind of interesting more students in this educational hobby.

According to Dorothy not many hams are E. L. W., which in ham-speak means "anywhere." It is able to broadcast all over the U. S. It has made or 6,000,000 college graduates. It’s a hobby that anybody can enjoy.

Dear Loco Lad:

I was so busy reading your column last week in the dinner table that I didn’t notice that my little boy had just poured a whole watermelon, three foras, the sugar bowl and the honey on cats. What can I do with him?

Answer: He sounds delicious! Put a mouth full on his beard and murder him.

Dear Loco Lad:

Your column. It’s very funny. Who wrote it for your friend? And do you know what I mean by it?

Answer: It is Loco Lad’s. You can’t sue us. We use Lydia Phinn’s."

Dear Loco Lad:

I just went to my doctor. He says I have paxillamine thombonytotic. Tell me, is there something wrong with me?

Answer: Heaven’s no. Almost everybody has the flu.

Dear Loco Lad:

I think my wife’s trying to kill me. Yesterday morning, I tasted stritches to my Wheatsies. What should I do?

Answer: Put sugar on it. It won’t taste nearly as bad.

Pointers Whip Gulls 12-0 In Rugged Tilt

The Pointers capitalized on only two of the many scoring opportunities that they had, but they were enough. Wisconsin, en route to its 11-0 Conference victory over Whitewater Saturday, October 12, here at Goerke park.

The enthusiastic crowd, kept down because of the weather conditions, saw an action-packed and rugged battle. The game proved costly on its side as Dave Hurlbut, starting center, and hospitalized ace tackle Jack Crook and halfback Jim Haasch, Hurlbut sprain his right ankle. Crook had a slight brain concussion, and Hurling injured his right knee. Several others had to leave the field including many Milwaukeeans. The Pointers paced the field with an excellent rushing attack by rapping up 472 yards. The Pointers carried on large sustained drives and finished the evening with an excellent rushing average of 6.5 yards per try.

The opportunities to cross the opponent's goal line failed repeatedly. On different occasions, the Robert's men inside got under the 10-yard line but lost the ball four times on fumbles and four times on loss of downs. The Pointers, did however, take advantage of a scoring opportunity, when after an 80-yard drive, Gene Noonan kicked a 40-yard field goal to put the Pointers up 3-0 at the half.

As the teams lined up for the coin toss, which was won by the Pointers, Hurlbut announced his decision. The Pointers would line up with the White team.

Milwaukee's advance was held back all night by CSCI's defensive ability. The Blue Devils were intense throughout the game. The Pointers were able to knock the ball away from the Brown side line once in the second half.

Wisconsin went ahead 6-0 when the Brown opened the scoring on a 19-yard field goal. Pointers would tie the game late in the second quarter, capped by a Wiesmann-to-Rollack pass from 10 yards out. Steen gained three of the first six-pointer of the year in the final stanza against a team made up mostly of reserves.

Don Herrmann scored CSCI's first marker early in the first quarter as he rushed for the touchdown and added to that with a second field goal of the night. John Smith, Point's back, set up the scores with a 19-yard field goal. The Blue Devils had kicked a 13-0 score for their own.

Herrmann and Winsmann were kicked from the sidelines for the third quarter. Don Herrmann was kicked out for running the clock at the start of the third quarter.

Lineman Bob Wasalla, Dick Schroem, Ken Hurbut, Jerry Muderland, and John Smith to rushing and ranged up a total of 316 yards, 90 of which was rushed with a 19-yard passing and 17 -yard field goals.

Pointers Roll on! Quakers Next Target

The Pointers, in an attempt to gain their fifth consecutive victory, will tangle with Whitewater Saturday, October 17, in an afternoon tilt.

The Quakers will go out to regale the Bobcats with a victory of the 1953 season and to make their homecoming the most profitable money-wise. The Quakers' 1952 season record in all games was 1-7-1, with points in five games: their conference record was 1-7-1, and most of their games were against the big kids. They were beaten in a non-loop battle with Carlow College. No two conferences have identical 13-game scores, with Platteville and Milwaukee the victors.

The Robert's men, after a short practice, will leave late Friday afternoon. The team will spend the remainder of the week traveling on to Whittewater in Saturday, October 17.
