"Thrilling" Expresses Sentiments of Homecoming Queen Candidates

Five Girls Are CSC Sophomores

By Jeanne Holcomb

Suspense is mounting for five Sophomores who have been selected as candidates for 1959 Homecoming Queen.

The candidates and their sponsoring organizations are Carol Chudzinsky, Alpha Beta Beta; Judy Garot, Phi Sigma Epilon; Gerry Huschak, Mu Chi Chi; Jo Ann Van Oren, Sigma Phi Epilon.

"It all begins when I put into words how I feel, but it's the greatest," says Carol Chudzinsky, a home economics major from bloomfield, who is a member of Alpha Sigma Alpha sorority. She has been active as a Student Council representative, and belongs to Gamma Delta and Home Economics Club. This year she is a cheerleader.

Carol also said, "Alpha Beta Beta has made me the happiest girl on campus by showing me how to be a candidate. I'd like to thank them." The Phi Sig's candidate is Judy Garot from Green Bay. She is majoring in primary education.

Judy is a member of Newman club and belongs to Primary council. She worked on the Players staff last year and is working on the Iris this year.

Omega Mu Chi sorority claims much of Judy's time. In addition, she serves as class secretary for the second year.

"I want to thank the Phi Sig's for nominating me for their Homecoming Queen candidate," Judy says, and adds, "it's the most exciting and wonderful thing that has ever happened to me. I still find it hard to believe and I don't think I could feel any more like a queen than I do now."

Gerry Huschak, a home economics major from Wisconsin Rapids, is the TEKE's candidate.

Gerry belongs to Newman club and Home economics club. She is also a member of Alpha Sigma Alpha sorority.

"Expressing thanks to the TEKE's, Gerry said, "I've a wonderful

Meet Our Candidate, Or - if Five Were One

By Bob LaBott

So you're going to select a Queen candidate? Well, this year's typical choice is a 19-year-old Sophomore, most likely majoring in home economics, possibly primary or biology. She's 5 feet, 4 inches tall in her stocking feet and sends the scale dial to 130 pounds. Her brown hair matches her eyes, which are set off by a fair complexion. More important, the tape measure reveals a 24-34-37. Among her activities are a religious group, a sorority, and perhaps she serves on Student Council or a class officer.

Altogether our 20½ foot composite weighs 600 pounds and measures 175-120-185. But forget it all, if she's just 2 little too old for you.

Homecoming Calendar

Friday, October 16 - Elections 8 P.M.
"Yell Like H----!" contest at 1 P.M. in front of Union.
"Yell Like H----!" contest ends at 4 P.M.
Homecoming assembly at 7 P.M. in the auditorium.
Bonfire on practice field behind Union.
Mixer at the Union after the bonfire.

Saturday, October 17 - Parade at 3:30 A.M.
Union open house from 10 A.M. - 5 P.M.
Football game with Whitewater at 1:30 P.M. at Goerke Stadium.
Homecoming dance at the Union from 9 P.M. - 1 A.M.

Sunday, October 18 - Homecoming concert at 3 P.M. in the auditorium.
Nelson hall open house from 1-3 P.M.
Open house at the Union for area residents - 1-7 P.M.

Days of Excitement - CSC Homecoming 1959

By Emmy Runge

October -- the gay month of bright colors and tawny trees, of football and hunting; of warm days and frosty nights -- is the month for meeting new friends and greeting our old ones. It is Homecoming time!

The back-to-school bustle has almost settled and we have nearly adjusted ourselves to the everyday pattern of classes and studying, join sessions and coffee breaks. But we sense a new feeling of anticipation as we look forward to our own Homecoming at CSC.

In the past weeks we have thought of Homecoming as the queen candidates were chosen and we planned our floats and made arrangements for our banquet and our Homecoming Dash. But now the real work begins.

Homecoming began on Friday, October 9, when the queen candidates were introduced at the Phi Sig's Queen's Dance. Then the campaign began with full force! Actual work on the floats for Saturday's parade is well underway, inspired by keen competition for the prizes to be awarded in three divisions: religious, serious and humorous.

The candidates most likely will continue to work until time for assembly for the parade. Everyone has worked on a float. The fun excitement and hard work that goes into making one.

Tomorrow will be a big day! At the pep rally in the auditorium on Friday night we will find out who our Homecoming Queen is.

Bashful and wood is already being gathered for the big bonfire that will burn all night. After the pep rally around the fire, excited, happy students will join in songs and games.

Saturday is the day we have all been waiting for. Many alumni friends will be on campus to take part in the weekend activities which begin with Friday night get-togethers.

The Homecoming parade will be a big attraction to the town and hopefully will be a fun-filled day for all.

From President's Desk:

"Welcome Back, Alumni"

Greetings to Homecoming alumni and friends of our college.

We hope you meet many old friends in your visit to the campus and make some new acquaintances. Our students have planned some entertaining events for you to enjoy, not the least of which is the parade on Saturday morning and the Whitewater game in the afternoon. You'll see some new buildings too if you haven't been here recently! Don't fail to pay a visit to the new College Union.

Our buildings are increasing in number, not quite as fast as the enrollment, but we can still hold all our classes indoors when we want to.

We hope you have a good time and that our students are good hosts for Homecoming.
**Homecoming and Every Day . . .**

The season of Homecoming has again filled the fall air here at CSC. Competition for our queen and for the best float has reached the usual — or perhaps surpassed the usual — height. Homecoming seems to be almost a part of the year now. "Happy Homecoming, Alums!" It’s nice to see familiar faces and nice, too, to meet some of the students who graduated from CSC in years beyond the recall of our own college days.

Homecoming always seems to mean that there is so much done, but we still have so much left to do. No matter how busy we are though, during Homecoming, another season or just an average week of school, it doesn’t require much time to carry a coffee cup from your table at the snack bar, now called the "Keneil", over to the window for soiled dishes, does it? Let’s all co-operate with this request NOW so that we won’t have to gripe later about paying a dime for a cup of coffee!

---

**Union Doings**

By Steve

Was anyone else confused by the recent "if you see something, say something" issue of the Pointer? When we said no slack or shorty Monday through Friday noon, we meant breakfast, lunch and dinner Monday through Friday, except Friday, Friday.

The Union board continues to be one of the most active organizations on campus. The first record dance was small, but everybody had a good time. Why don’t more of you try the next one? Plans are progressing for a great many dances, both with records and with bands. For the formal opening of the Union during Homecoming weekend, there will be coffee and cookies served from 10 A.M. to 5 P.M. Plan to drop by and see us.

What do you think about the game center becoming a general store? This is another way in which we can say, "You asked for it!"

The Union office was well attended that scalpers were selling reserved seats in the main lounge. Arrangements for a second television set were advanced in order to curtail the admission fee.

Did any of you see that small sign that appeared in the cafeteria a week ago? "This establishment is recommended by Duncahin." We also hope you saw the name "Schwart" written on a dress regulation in the last. Just one more sad reminder, Mr. Amccker is still requesting everyone in the snack bar to return their dishes. He wouldn’t say for sure, but hints that, if the 10 cent fee is not raised to 10 cents if he has to hire people to do it.

See you all in the next issue, or in the "Keneil."

---

**Due to Misuse: Union Initiates Rates to Cover Damage Cost**

Effective Monday, October 12, the game center began to charge for the use of the billiard rooms in the Union.

Those using the room only a portion of the hour will be charged a fraction of this hourly rate depending upon the length of time they occupy the room.

This system is similar to those unions. The money collected from cost of damage done to the billiard rooms will be used in the other state college these fees will be used to meet the needs of the students.

---

**The Union director, Mr. Amccker, had this to say about the sudden change, "When I first came to Central State I was led to believe that the students here were a bit different than those I had been used to. I am sorry to say that I find this not to be true. The studens were led to think the opportunity of having a new building with many facilities they have wanted for years. Early discussion led us to think that the students were old enough, mature enough and wise enough to appreciate the facilities of the Union. It was felt that there would be no appreciable damage or abnormal wear during the first year and that no fee would be charged for the use of games, use of any room or facility. I can only say at this time that they have had a chance and that we have failed ourselves."

"The damage which has been done to the billiard rooms is inexcusable. I am sorry that this sort of thing has had to happen, but I can assure you that we are interested in similar steps will be taken regarding other facilities as soon as they are abused. We expect that for a short time the students will not be old enough, not mature enough and not wise enough to know when they are being given a chance. Measures will be taken to curb such abuse as long as they continue."

---

**Journalists Visit Worzalla Plant**

**Big Query Is, "Will Skip Help"**

By Karen Knowles

Journalist 101 toured the Worzalla Printing Co., Tuesday, October 6. "Worzalla Printing is a Union concern and they are trying to meet the demand when he drove up in a magnificent Buick."

Our group proceeded to the plant where a variety of antiquated printing presses greeted us in the lobby. Composed of one of the students, "So that’s why the kids took so long."

On entering the boot room I was told that we were going to view how the press was made and began to explain the printing process. Diagrams of a pyramid on the blackboard were to represent the importance of certain people to the printing process. Deeply spotters as the bottom. The copy editor was the bottom block, so I imagine it meant he was paid the least of anyone.

The first thing we looked at was a Linotype machine. The fellow who ran it looked as if he were completely relaxed. He was lying back on the machine and I thought ran through my mind that if I ever made it as a reporter, I could always try to get a job operating a Linotype machine.

One thing that particularly fascinat- ed me was the row of little flames that the paper slid through when it came from being printed. Also, I was intrigued by the atomizer above the paper that sprayed each piece.

In paring, our guide told us that if he could ever be of service or if we ever needed help, not to hesitate

---

**Cheery Are Our Cheerleaders**

By Betty Karter

Six cheerleaders have been selected by the Student council. The girls who will be cheering our team are: Angela Zink and Louise Poulson, sister: Jewel Henchel, Gini Plant and Carol Chrymsky, not shown, Kay Chesebro.

---

**Music in the Air**

Civic Orchestra Prepares Concert

On October 21 at 8 P.M. a Civic Orchestra concert will be given in the college auditorium. The program will feature three selections and a guest soloist. "Eggmont Overture" by Roustin and "Pastorale" by Chopin and "Peer Gynt Suite" by Grieg will be played. Kenneth Amada is the guest soloist and will play the "Concerto for Piano No. 2." Mr. Amada was accepted without doubt the United States for his excellent performance. He was presented to the college union and was given a gold medal "for extraordinary achievement."

The Civic Orchestra is composed of some of the most talented and promising members of the CRC faculty and the student body. Those from the college faculty in the orchestra are: Charles Hauk, president of the CRC faculty department; Mr. Good, director of the music department; Mr. Yager, director of the music department; Mr. Draper, director of the music department. This year the orchestra is under the direction of Dr. Hauk and Mrs. Hauk also of the music department.

CSC Profiles

By Carol Jenein

In the year of our Lord 1957, a mute was born in the middle of the night. From the little town of Cavanor, Wisconsin, she walked the world as an astronomer. Dr. Harlow Shapley, the eminent astronomer, will be on the campus of Oren College as a Danforth visiting lecturer on Monday and Tuesday, October 15 and 16. There will be various groups of students and faculty members on both days. At an assembly on October 15, Dr. Shapley will present an illustrated lecture on "Galaxies and Man's Place in the Universe." He will talk of the history of the subject, arranged by the assembly committee, will be by student activity cards.

Fuller of his colleagues having delivered more lectures on science, especially astronomy, than almost any other ranking American scientist. His wit, nerve and eloquence, combined with his mastery of his own field and the discipline of other fields of science, have kept him in constant demand for many years. His interests extend from the physiology of the lovely valley in which he has written three technical papers, to the furthest reaches of space.

Following completion of his education at Cambridge academy, the University of Missouri and Princeton university, Dr. Shapley was on the staff of the Mount Wilson observatory at Pasadena, California, for seven years. For the following two years he was at the Carnegie Institute of Technology, formed for high research.

Honorary degrees have been awarded to Dr. Shapley by 15 universities, including Harvard, Princeton and Harvard. He has been a member of the National Academy of Sciences of the United States of America, honorary fellow of the Royal Society, and recipient of the Nobel Prize in Physics for his work on Cosmography in Harvard University.

He is the author of several books, including "The Physical Universe," "The Birth and Death of the Sun," "The Life and Death of Galaxies," "The Structure of the Universe," and "The Sights of the Universe." He has also written many scientific papers and articles for popular audiences.

Dr. Shapley is married to a scientist, and they have two children: a son and a daughter. He enjoys music, literature, and travel. His hobbies include astronomy, photography, and cooking. He is a member of the American Astronomical Society, the American Physical Society, and the American Association for the Advancement of Science.

Oren College共有25位学生和教职员工参加了活动。Dr. Shapley will present an illustrated lecture on the history and future of the subject, arranged by the assembly committee. The event is free and open to the public.

THE POINTER

CSC Hosts Astronomer Shapley, Will Talk on "Man and Universe"
While You and I Sleep
By Lloyd Mertens

makes more money a year than General Motors! The Mafia, more commonly called the Crime Syndicate, will take in about 10 billion dollars by the end of this year. All of this money will come from the pockets of the average American.

The Mafia first got its income from its first days in the States. It is no longer a loose organization of hoodlums. It has become a very efficient and very big business. However, its aims have not changed any from the old days. It is still out to make money. So far, the Mafia has achieved great success.

Some men who have been in danger of the Crime Syndicate have tried to do something about this menace to society. One of these is Victor Reisel, a columnist. He was doing stories exposing the war front rats on the East Coast. The Mafia tried to stop him by having a bullet of acid thrown into his eyes.

Bill Drury, a police lieutenant for the Chicago Police Force, was a constant menace to the Syndicate in Chicago. The Mafia pulled strings until they managed to have the lieutenant removed from the force. Then the day before Drury was to appear before the Knickerbocker book, he was shot and killed in front of his home. How far was Chicago going? Only as far as the people let it go. When people will stand up and take an interest in their government, the Crime Syndicate makes no headway from the usual forms of vice, but in the wonders of nature and of man.

Sigma Tau Commences Interesting New Year

Sigma Tau Delta, national English fraternity, met Wednesday, September 20, to discuss plans for the coming year. Officers for the school term, 1959-1960 are: Gleta Richard, president; Jaye Hefer, secretary; Jan Campbell, treasurer; and Gary Mansfield, historian.

All students having fifteen credits in English with a 2.5 or a 2.5 overall grade point are eligible for membership in this honorary fraternity.

Plans for this year include the selling of Wodsworth and the pledging and initiation of new members. Other officers include guest speakers who will be of particular interest to people in English and related subjects. Members of Sigma Tau Delta urge everyone to make the most of their English and they extend a hearty welcome to all potential, qualified members.

LONELINESS
The quiet tick of a clock is
In the empty caverns of your heart.

REGRET
A soundless echo laughing ringing in your ears
VOY FOOL
you feel

WEAR JIMMY
When the winter wind meses low
And long around your neck -
It is but my love
Searching for your warmth.

When the autumn leaf drifts down and covers your face
It is but my finger tracing your nose with my love.

When you walk in summer
In a field of flowers
And the multitude pull and hold you
It is but my love
Filling the draught of your heart.

It makes no difference to this column if you choose to remain anonymous. However, I must know confidentially who the creator is. Leave all contributions in my small box.

Wonderful Weekend

Central States Go North on Lit Tour

By Mary Haughey

Mr. Norman E. Knutzen's Mid-Western Literature course was represented by fourteen of us who left OBU about 12:30 Friday, October 2, to view the wonders of nature and of man.

After spending Friday night at Evergreen Lodge near St. Ignace, Michigan, we drove to the Soo Locks Saturday morning. Lack failed us as we stood in the rain waiting for a ship to pass through the locks - none came. Many of us had never been out of the United States before but at last our opportunity came as we arrived at Saint Marie, Canada! We were thrilled to be welcomed back to the United States on our return.

Another dream came true when we crossed Lake Michigan to the island of the Grand Hotel and homes - Mackinac Island. After inhaling the quintessence of the island, we crossed the magnificent five-mile bridge from St. Ignace to Mackinaw City.

The northern lights provided an unscheduled wonder as they moved darting through the bubbling cold. A person wants to make a call outside calls. These phones are located in the College Union. Pay phones are provided for outside calls from the Union.

The system is an open one. As far as I know, it has been used on October 29 to 10 P.M. on Saturdays.

The dial system to campus phones is still open after 10 P.M. However, the phones at Nelson hall are disconnected at night.

Absolutely no long-distance calls will be allowed. This includes collect calls. Pay phones are provided in the dormitories for this purpose.

If any girls are interested in becoming switchboard operator they should contact either Miss Helen Hansen, dormitory director, or Fran
cine Townsend, chief operator. The only requirement is that the operator reside at Nelson hall.

At present the sixteen operators are: Marilyn Schneider, Ardis Werner, Josephine Anderson, Rosaline Barbin, Gall Wickus, Carolyn Holsclaw, Gertrude Schwertner, Joan Trickey, Carol Young, Marian Stans, Paul Gronsel, Shirley Kirshoff, Jo Ann Van Ornum, Johanna Clark, and Joyce Torson, and Franine Townsend.

550's Start Rolling, "Action" Year Ahead

With the new semester getting under way, the 550's are picking up momentum and show promise for an action packed year. The first regularly scheduled meeting of the
Student Recital Well-Received
A music recital held by members of the music department was very well received in the Library theater on Monday, October 12.

The first solo was sung by Jean Sweet in Thy Discourse and at At Follows this, William Clarke rendered a trumpet solo, "Sonata VII" by Corvall.

Curious Kiddy played a clarinet and was accompanied by Misses Francis, Mr. and Mrs. Robert. She sang "Celebrate" by Samuel. The soloist was playing "Children of the Night" by Samuel.

A mezzo-soprano, Kay Cather, sang "Whosever Thinks or Hopes of Love" by Paul. The soloist was playing "Farewell to the Fisherman" by Samuel.

Following in the order below were: Harriet Adams, a trombone solo, entitled "Concert Piece"; Richard Breeden, a piano solo, entitled "Sonata". Following this, "Opus 26, No. 4"; "Allegro from "Hungarian Dance" by Samuel" was played by Shirley Kitross and a clarinetist.

Fraternity Features

TEKES
Saturday, October 5, the TEKES' and their victory bell attended the football game at Oshkosh as part of the initiation program. An invitation dance was held Sunday, October 4, at the Laurel motel in honor of Robert Lapp, William Mowen and David Jeffers, becoming active members of the chapter.

With Homecoming Banquet, the TEKES are being kept busy. Roger Kepka is the general chairman for Homecoming activities: Robert Nolde is chairman of the float committee and Richard Tinsley is Homecoming Queen campaign manager. Business of all is Robert Lapp who is Student council Homecoming chairman. TEKES is also sponsoring the annual Homecoming bonfire and a picnic supper at Ewers lodge for the alumni.

SIG EPS
In keeping with the announcement by the student council that they are planning a bigger and better Homecoming this year, the Sig Eps are planning to make the Homecoming Assembly one of the highlights of our Homecoming activities.

At this assembly the queen will be crowned and one of the best lists of queen candidates that CSC has ever seen. Don't miss the opportunity to join with your fellow students in the spirit of Homecoming this year. Join the Sig Eps of the year it was organized and for the year it is planning.

Invasion Of Warhawks Highlights Homecoming
CSC Tries Repeat

Last year the Pointers traveled to Whitewater to upset the Warhawks in their Homecoming game, 22-14. This year Whitewater will be traveling to Stevens Point in pursuit of spoiling the Pointers' Homecoming, October 17, 1959.

CSC came from behind in the sec¬ond quarter of last year's game to win, 27-7. Last year's Warhawks were leading 14-0 in the second quarter of the game. The victory was a big one for the Pointers as it helped them remain unbeaten in the conference.

As of October 6, in conference play this year, CSC's have found themselves in good company.

The Scoop From Schup

Once again the campus has made itself ready for a gals homecoming weekend. From the looks of things, with the new Union as an added attraction, this Homecoming should be the biggest and best in a long line of successes.

The main show should really be a dilly. The way Whitewater has run over River Falls and Platteville, this game is shaping up as a battle for the conference crown. Whitewater beat River Falls 32 to 12 and Platteville 47 to 44 last year.

Even though the Pointers have only won one game, tied one and lost, they still have a very good chance to end the season in first place. Hope for the Pointers is that they can win the rest of their games and give the Warhawks a run for their money. With Whitewater either losing or tying one game, there is reason for the Pointers to be hopeful. This is for the championship will be decided by points instead of percentages this year. A team gets five points for a win, four for a tie, and one for a loss. By the time the Season is over, the Pointers will have played 12 games. If they win five of these games they will be champions.

This year the Pointers are favor to win this battle against the Titans as they and River Falls each play seven conference games while the rest of the teams play six league contests. Under this set up the Pointers and Falcons have a possibility of meeting each other three times. If the Pointers win the first two meetings they will play the third game for the conference title.

Green Bay has finally come into the limelight in the National Football League as the Packers have won their first two conference games and are tied for the Western Division lead. How many people around here can ever remember the Packers in first place before? It seems rather odd, but also rather wonderful!

The Badgers have been the Pointers' chief opponents this year. Except for a game against the Badgers, the Pointers have been able to collect an average of twelve. As of now the Pointers and River Falls have each collected three points in conference play.

Before I go any farther I'd like to thank Pat Otto and Better Char¬necke for contributing the new heading to this column. Thank you!

Send the Ball... Pennant Hopes Sink as CSC and Oshkosh Tie

Bill Koxe

Pointers Nail UW to CSC Goal Post

Last Saturday night the Pointers played their best football of the sea¬son as they defeated highly rated Milwaukee 7-0 at Oocker field.

When it looked like the Pointers were going to lose their game's only point with no time left in the first half. On offense, when Bill Kase decided to pass, the line held the Cardinals back and when Mike Liebenstein, Jack Bush or Gene Noonan decided to run, the line made sure the hole was open wide. Liebenstein was in top form as he ran over and through most would be tacklers.

Dick Johnson grabbed five of Kase's passes as he was having a field day reaching out for comple¬tions.

On defense coach Duane Conneal could hardly ask for more. Captain Dale Schallert was all over the field and was in on more tackles than the whole Milwaukee team. On passes he dropped back to cover the middle of the secondary and on running plays Schallert usually had his hand on the ball carrier before he got much of a start. Chuck Weber and Oven Schwerdtfeger set up and waited to plaze the Cardinal's quarterback. On one play Schwerdtfeger red-dogged and nailed the passer before he even turned around. Th line was rushing the passer so much that the defensive backs had a generally soft evening except for a few blocks intended for Kase.

Dennis Schmidtke was at his best in fielding punts as he wore his way in and out between UW's players though they were just post in the line.

The Pointers scored their only points on the last play in the first half as Liebenstein carried the ball over from the one yard line. The score came after the Pointers had taken possession of the ball on UW's 24 yard line with about three minutes remaining in the second quarter. Dick Johnson passed to make the attempt to the twenty-eight and then made the final score 7-0.

Another effort like this should beat Whitewater at our Homecoming this Saturday!

--- Over Here ---

By Kay Cherwien

The Oshkosh State Titans who were "really up" for the battle on their own field October 9, put a clamp on CSC's title hopes as the two teams fought to a 7-7 tie.

The Pointers were led by Mike Liebenstein's 100 yard rushing and Gene Noonan's 96 yards paved the way for the Pointers' lost TD. It seemed to this reporter who witnessed the game, that the Pointer backs and line roomed at will the track defense anywhere from the Pointers 10 to the Oshkosh 10 yard line.

Midway through the first quarter, the Pointers had their first opportu¬nity to make a mark on Liebenstein. Liedenberg made a 37 yard run shanking off three tackles to give Point a first down and goal to go on the Oshkosh 9. However, the fired up Titans rose to the challenge and stopped the Pointers cold for 3 downs. Don Rykoskie's attempt for a field goal was wide to the right. So went the first opportunity.

The Titans got three driving goals for the first half, but each time were stopped by the sharp defense of Dennis Schmidtke who stepped in to intercept a Tommy Matchon pass and stall the Titans.

The Pointers came out the second half with what seemed a load of fire. Dick Johnson blocked an Oshkosh kick and recovered the ball the 17 yard line. Noonan blasted up the middle to the 9, but his 15 yard hold¬ing penalty drove the Pointers back. On the next play Noonan gained 13 yards to place the ball on the 7. Two plays later Liebenstein drove over from the 6 giving the Pointers a 6-0 lead. Rykoskie added the extra point.

The next time the Titans got the ball they scored on a series of passes with Wayne Belke scoring the touchdown and the extra point.

Dennis Schmidtke was the de¬fensive standout for the Pointers as he intercepted three passes and had five touches in exciting defensive plays.

It seems that there is a definite lack of fighting spirit amon the players and fans when the going gets tough. Never-less, the Pointers could still rank near the top position in the State College conference with a little backing from all of us at CSC!

Grid Season Hears End, 
Eau Claire Hosts CSC

On Saturday, October 24, the Pointers travel to Eau Claire to take on the Blugolds in the next to last game of the season.

As far as season records go little can be said as to the caliber of either team. In their first three conference tilts the Pointers have looked like championship material in one game and a bunch of "shells cases" in another. Little is known about Eau Claire except that they were routed out by LaCrosse earlier in the season.

Since 1952 the Pointers have won five of the seven games that were played against the Blugolds.

Last year Eau Claire was the Pointers' Homecoming foe. They came into Stevens Point with a record of three wins and one loss. With visions of the conference crown in their eyes they had plans of wrecking our Homecoming. However, the Pointers were also after the conference crown and as a result they rubbed Eau Claire out 34 to 8. The Blugolds from way over west have not forgotten this and will be out for revenge.

Of Two Minds

On the one hand, you have Thirity G. Smith. Gourmet tastes to him mean seat and dish in a beverage, sparkler and lift and all that . . .

On the other hand, T. Gourmet laments perfect good taste as the right, fit and proper combination of Coca-Cola. Set . . . Have it both ways! Coca-Cola . . . so good in taste, in such good taste.

Meet My Roommate, Mary

By Jeanne Holcomb

"I'll open the door. You don't have to crawl through the transom to get an interview." At last Mary was going to let me in!

Mary happens to be my roommate. She has the distinct honor of being the first girl to fall in the new tunnel between the Union and the library. The result was six stitches.

She is an intimate terms with our dormitory. Only last week Mary spent a half-hour in her office.

"Just because there was a ladder against the window, the screen was opened, and the window was open, it didn't mean I was sleeping," Mary said.

Her hobby is eating. Fudge ripple ice cream cones and steak are her favorites. Mary also collects coke bottles, ashtrays, sugar bowls and poems. "Kleptomaniac? Who? Me?" was Mary's only statement.

The interview came to an end when Mary crawled under the bed to concentrate. She was mulling something about "free association."

Bernie's Best Bets

By Bernard Coughlin

"The Black Orchid" is an excellent movie that is an extraordinary love story. Sofia Loren and Anthony Quinn are the stars who fall in love, after they realize that life has many hardships and one must learn to overcome them. Here is "cinema" at its best, especially for the Sophia Loren fan.

"Blue Denim" is another fine motion picture. This drama tells the heart with the youth of America about their problems. Two friends, Carol Lynley and Brandon de Wilde, who were playmates yesterday, became sweethearts overnight with a desire for each other that knows no bounds. But, "Blue Denim" goes beyond this. It gets into the solutions of the teenager's problems. As you can visualize, "Blue Denim" is a strong drama with an excellent viewpoint.

"The Black Orchid" plays October 14-17 at the Fox theater in Stevens Point; "Blue Denim" plays October 21-24.

Heretics Take Lead In Intramural Grid

With two games left on the schedule, the Heretics are in first place in the Intramural Football league with a perfect record of 5-0. In second place are the Lumberjacks with a 2-1 record. Following the leaders are the Starfire's, the Underdogs, and the TKE's.

The Heretics were paced by Dave Gilson, Marvin Luedtke, and Gary Herold in their last game as they defeated the Lumberjacks 42 to 0. Dave Gilson caught two touchdown passes to lead the offense while Luedtke helped out the defense by intercepting two passes.

Herold was the standout, however, as he intercepted four enemy passes and ran a kickoff back for a touchdown. He also piloted the Heretics on offense. The final game was scheduled to be played on Tuesday, October 15, so by the time the Pointer is read the season will be over.

Here are the standings as of Wednesday October 7:

I Hated Spare Ribs . . .
Now I Love 'em!

That's a fact . . . there was a time when I just shook my head when I saw anybody eating spare ribs. But that was before Bill and Antoinette introduced me to their special Country Spa Barbequed Ribs. Now I enjoy 'em regularly . . . sometimes a couple times a week. I guess what sold me at the Spa was the combination of meaty, juicy ribs and Antoinette's homemade Barbeque sauce . . . but whatever it was, I know the Spa's Ribs are the finest I've ever eaten! Why don't you give 'em a try?
We have come to CSC to be educated to a fullness of living as I mentioned last issue. Certainly we can live life to its fullest only if we are happy. To keep the required happiness in our college life here on campus there is a definite need to take advantage of the opportunity to meet new people and to become a friend of those around us. Let’s be able to say “Hello,” with a smile to the people we pass, especially in that crowded second floor corridor. Take the chance now and then to stop and talk with others. Perhaps, too, you could accept the challenge to learn and remember a new name or two every day. I did that last year and was surprised at the number of people I knew not only by their face or first name, but also by their “terminal hand.”

I think it is the ability to be friendly, to make new friends, that is going to make for a real school spirit at CSC. When you start making friends and doing things with those friends here, you will lose some of that provincialism that comes from living in one small area of life. Making friends is one of the skills that can’t be gotten out of a book, but it takes a little time and effort too.

See you at the Homecoming game, friends!
