Isaacson, Kroner Head
European Study Tour

Enrollies for the study tour include several recent graduates, current students, and two June high school graduates who will enroll in CSC in Sept. 1962.

An English teacher from Suster, a secretary from Minnepolis, a member of the State Dept. of Public Instruction, someone interested particularly in Art, a History "prof.," a student desiring of improving his conversational German, are among those in the "first forty" of guaranteed enrollees.

The group promises to be interesting and harmonious.

Students Attend Union Conference

Among the several hundred students attending the Association of College Unions Regional Conference at Ball State University, Muskegon, this week, will be the following members of our college Union Board: DeLyle Bowers, Larry Harms, Frank, Leigh Hulbert, Dutch West, Janice Lathrop, Nancy Nuss, Keith Jarnou, and John Anacker.

The group will leave Stevens Point on the 28th of October and return on the 31st.

The purpose of the conference is to examine the programs of union currently in use and to develop new ideas for events.

Included in the programs that will be presented at the conference will be a feature by our students on outdoor activities and the Camping Out club; the co-chairmen of which are Mr. Bowers and Miss Nuss.

The midwestern States of Indiana, Illinois, Michigan, Minnesota, and Wisconsin will be represented at the meeting, including students from all the state colleges and the University of Wisconsin.

WILLIAM WORTHY
Library Receives
Valuable Books

A collection of over 150 volumes valued at $1,000 was recently donated to the library of Central State College by Dr. Paul J. Wallace, Associate Professor of English at CSC.

Included in this group are many Shakespearean works previously not available to students, as well as a number of books by other English writers of Shakespeare's time. Some of the more valuable and useful of these dealing with Shakespeare are: "Prefaces To Shakespeare" by Granville Barker, "Shakespeare's Quarters" and E. K. Chamber's "William Shakespeare," vols. I and II.

In addition there are other outstanding works as "Grafton of Wit, Bought With A Million of Repentance" by Apuleius; "The Alchemist" by Ben Jonson, "Holinshed's Chronicles, England's Helicon," "The English Romance Lyfe," by Anthony Munday and Robert Greene's "Godly Head Quartals." There is also a very fine bibliography consisting of five volumes of sources which would enable a student to pursue further his studies in the literature of this period.

These books are all on reserve and may be checked out by any member of this campus. In the future a bibliography of such titles available will be placed at the reserve desk.

Member Of CSC Music Dept.
To National Advisory Board

KESONIA. Wis., Oct. 9 (Special).--Paul J. Wallace, Rl. 2, Box 375, Stevens Point, Band Director and Brasl Instructor, Wisconsin State College, has been appointed a member of the National Advisory Board of music educators. It was announced today.

The board is composed of nearly 500 music educators and directors of bands and colleges across the nation, who will meet "by proxy" to consider common problems and to pool professional resources for the benefit of music educators everywhere.

G. Leblanche Corporation, Keson, Wisconsin, a leading manufacturer of musical instruments, is a sponsor of the group.

"We are very pleased to have so many distinguished educators with us in helping to achieve our common goal -- a musical America," Mr. Pascal, president of Leblanche, said.

"Our hope is to make the Leblanche National Advisory Board a close-knit, vital force in furthering music education. A free exchange of ideas not only the music educator, but music in general, the school systems themselves as the nation as a whole.

The board will be "convened" early this month by answering a letter of questionnaires dealing with some of the outstanding problems in the field of music education.

Completed questionnaires will be screened at Leblanche and the ideas and information obtained condensed and made available to music educators everywhere where for their consideration and use. A face-to-face meeting of the board is projected for some time in the future.

Members of the National Advisory Board were selected from several hundred thousand music educators in the United States, Canada and the Philippines.

William Worthy, the noted Negro correspondant, will speak at the college union lodge on Monday night, Oct. 23, 7:30 p.m. on the topic, "The Cuban Revolution." He is an American newspaperman who has covered this subject. Last year Mr. Worthy spent four months in Cuba preparing the TV documentary "The Cuban Revolution," for ABC television. This was purchased and shown on ABC’s "The World Today," incidentally, precipitated the resignation of ABC’s vice-president.

Since the summer of 1960 Mr. Worthy has made three additional trips to Cuba totaling nearly five months and has returned to the United States just prior to his present tour.

Mr. Worthy is also one of the three American newsmen who defied the State Department’s ban on travel to the China mainland. Also, he was a photographer team from Look magazine sent for the African studies tour of China as correspondent for the Baltimore Afro-American and New York Post.

One of his China trips, Mr. Worthy was a Nieman Fellow at Harvard University. Previously he had flown the globe twice on official duty, having been assigned to cover the Korean Truce negotiations at Passumun, the Asia-African Conference at Bandung, and news in the Soviet Union and Eastern Europe.

Before his personal permission of Premier Khrushchev, he was the Soviet "barrister" by being the first U.S. newsmen to enter the cold war in 1950, to broadcast to the world at the height of the 1962 Cuban Missle Crisis and to cover the first Soviet systems there, which he has also made an unsecured newsman of the Soviet Union, Africa, Australia, Hong Kong, Vietnam, Union of South Africa, India, Pakistan, and the Pacific Northwest.

From China he broadcast three times "live" from the People’s Republic.

A native of Boston, graduate of Bates College, Mr. Worthy, during the last seven years, has been a Ford Foundation Fellow in African studies at Oxford University, England.

Mr. Worthy also will be on campus Monday and Tuesday, Oct. 23 and 24, for informal talks and seminars. The topics are "The Cuban Revolution," "Red China Today," and "The American Virginian: Where Will It Next Exploit?" Plus the discussion of these informal talks and the topic for each hour will be posted prior to Mr. Worthy's appearance on campus.

The Pointer

Selling dates for CSC's sum-
er study tour in 1962 are these: westbound to (Europe), June 20, and eastbound, August 2. With Miss Isaacson and Mr. Kroner, the group will leave Stevens Point by bus on the morning of June 19, and will board the New York Central's famed 2000. Century Limited the same afternoon in Chicago. The morning arrival in New York will allow a few hours sightseeing before departure on the "S. S. America" for Le Havre, France. The return voyage will be on the "S. S. United States."

The "America" stops at Cob, Eire, to allow passengers to disembark. This will give CSC's a chance to feel the "GOLDI" sound of Ireland beneath their feet briefly if they wish. On the return voyage from Southampton there are no stops.

While the group membership has reached a limit, students who may wish to part of this credit tour, many place their names on a waiting list. A deposit of $50 will insure a waiting list spot. If there are cancellations because of illness, names will be transferred to the "going" list, unless you are interested, see Mr. Kroner (Department), or Miss Isaacson (Speech Dept.) very soon.

Travel on the European continent will be by rail except in Austria and Germany. The group will visit Paris, Lucerne, Milan, Rome, Florence, Aix, Venetia, Vienna, Salzburg, Munich, Rottenberg, the Black Forest, Colmar, Alsace, Brussels, London, Shatford. A few members of the group will also visit Switzerland.

Lecture materials for the 4 courses in which each member will be taking are being assembled for the 31st of October. A newsletter describes Salzburg. Festival city in Austria.

Frosh Elections Set New Record

The election of a poster-appointed and heart-felt candidates of the class of 1965 successively climax its first major activity after the election of class officers.

Clifford L. H. Liebelein, Nebraska, president; Bobie Zeman, Janawee, vice-president; Claud Gunderson, registrar; John Kemple, Paul Rangno, secretary; John Kempel, Paul Rangno, John Klung, and Mark Diugo, Garfield Heights, Ohio, and Kenneth Tran, Peoria, Illinois, student council representatives.

Congratulations, officers, and candidates. May 388, for setting an all-time high for votes! Fifty-three per cent of the class turned out! Good luck, freshmen, under your new leadership.
Homecoming Best Ever

Homecoming has passed for another year and the students of the Student Council and Union Board who made the best this school has ever seen, it was very heartwarming to see the spirit and enthusiasm that was built into all the phases of the celebration but in particular for the queen contest and the fine floats. The winners did an excellent job in making their contestants. It is good to see that there is still something that will get the students of CSC stirred up and will keep the suetmers on campus for least one weekend out of the year.

After all this excitement, who knows? Perhaps the authors of the editorials when Mr. Worthy speaks on campus, the Student Council can promote these type of events just as they did the homecoming.

Letters To The Editor

James E. Tarvid

The war of these two systems has been purely one of words exponentially portrayed to Americans. So exaggerated was this war of "clout" that many "evil" have been observed by "pa-" ticularly the American Public. Of course, we mean when we say socialism is considered evil. The point is that those who believe in and support capitalism are so few that their record and the impact of the political scene, has, however, been drawing more attention.

Conservatives don’t want to conserve anything—well, I suppose they have balanced budgets, initiative, economy, freedom, patriotism and could no longer be conserved. Our economic system is not at all a vital factor in the strength of our nation and in the development of its people. The free enterprise system is balanced, clear-sighted and superior in conditions in other countries around the world.

The Student Council Meeting was held on Wednesday, Sept. 21, 1961 in Room 27 of the Union. All were well attended except Bill Reine. The follow-up meeting was held in the Aquinas Club has been asking for proposals for the Student council to take. The building. The administration told student council if the Ail annual did "clean up" their bulletin board the Aquinas Club might get the job. The problem is that the Aquinas Club doesn’t have the resources to do it. 

"Let’s paint the sidewalk green that we don’t have to use it anymore instead of the path between the buildings. That was the solution offered by Bob Dye, the new student president. "When Mr. Lord and the Student Council have met with this situation for several months now, the student council was simply left to improvise, that the faculty uses the trail, said Mr. Lord." The future of O’Shannassy was sponsored by Student Council. This project with $6 or $7 in the bank so the cheerleaders volunteered to help O’Shannassy. No aid was offered by Student Council.

Student Council Meetings In Brief

63% of the freshmen class would like to have some form of relief from last year, Andrew L. Dickey said. The Student Council and the 50’s, began serving her term. In the student council, the students have gotten used to ten cents coffee being the order of the day. If a depression hour they think of how much they have to eat and complain. Karl Heise sup-posed that the union should have nice coffee for the students. If it is a dime call attention hour. A joint meeting of Student Council and Union Board was presented. The Student Council is the boy’s cheerleading uniforms were red and white.

Re: Snack Bar Operation

To Union Board Sept. 21, 1961

FROM: Student Council

Snack Bar Operation

We realize that a balanced budget is necessary for the smooth operation of the Union, however we feel that a price increase of a dime should not be the most interested of the student body generally. Coffee is one of the most popular things with almost every student. Since it is the purpose of the Union to benefit the greatest number of students possible, five cent coffee baffles the "greatest benefit" case.

If the operating expenses of serving coffee cannot be covered by charging a price of a dime, some other service can be subsidized. Surely more students would derive bene- fit from something such as bridge lessons, billiard demonstrations, and other similar activities sponsored by the Student Council.

It realized that this increase was not enacted by the Union Board, but was done by the Union administration. The Student Council, however, has the responsibility of looking out for the general well-being of the students in Union Board operations, thus we hope you can take some action in this matter.

Daniel R. Rossofield

Deer Broeder,

Do you ever get that "dog-tired, disgusted, and disillusioned" feeling when you wake up in the morning? The mir breeding of optimism is as remote as the first day of school. For many students, the morning sun barely rises above the rest.

It is to this passion that the socialist appeals. Thus, support for the socialist cause is as necessary as patriotism. We refer to socialism as an intellectual or scientific organization. The evils he attacks are inherent in an industrial society under capitalism. It should be obvious that the solution is necessary.

Socialism is identified with reform. The effects of unions as representatives of those who labor are the result of capital system are naturally dis-associated. Without the support of the industrial system in the Christian Socialist Party, the American does not work for a communal system of regulations and regulation as can only come after considerable time. It is time to look for the good as well as the bad.

Rossini’s “Barber Of Seville”
Will Be Presented October 31

The Godovsky Grand Opera Theater’s
"Barber of Seville"

Acknowledged by leading musical authorities through 145 years as "the finest flower of the old Italian musical comedy," Rossini’s rousing opera buffa "The Barber of Seville" will be brought to the college campus and played for families in a City-Fine English version, when The Godovsky Grand Opera Theater performs at the college field house, October 31 at 8 p.m.

Under the musical and stage direction of Boris Goldovsky, known to millions as "Mr. Opera," the production presents an enchanting intermission commentary on "how the cookie crumbles." A weekly Saturday matinee broadcast from the Metropolitan Opera House — "The Barber of Seville" will be performed here in a translation by Mr. Goldovsky and Sarah Cerny of the Metropolitan's local presentation of the bubbling operatic farce will employ a company of 50, including 11 principal singers, a chamber orchestra, and a chorus.

The Godovsky Grand Opera Theater presents "The Barber of Seville" here is actually the national touring unit of the New England Opera Theater, founded by Mr. Goldovsky in Boston in 1946 and widely acclaimed as "a refreshing new breath of life in the operatic world!" for its pioneering of major new techniques and for its production. Dedicated to proving that the lyric masterpieces of Rossini, Donizetti, Verdi, Puccini and Rossini, among others, can be valid and absorbing theater rather than mere displays of vocal pyrotechnics; that their texts, intelligently translated into English and intelligently set forth by performers, thoroughly schooled in dramatic values, can make sense to the 20th Century American public; and that their leading roles can be assumed with irreproachable vocalism and stage technique by Goddard young people who comport themselves like romantic heroes and heroines; the Company has already produced its home city — and its 6 previous seasons — has offered more than 260 performances of 6 operas in the leading cities of more than 30 states.

This outstanding attraction, sponsored by the assembly, should provide a delightful evening for all in attendance. Students and Faculty may pick up tickets at the college book shop. I.D. cards must be presented to obtain tickets. Students and facul­ ty desiring additional tickets may purchase them for the adult admission fee of $2.00, $1.25 for stu­ dents up through high school age. Two of the outstanding productions for the 1962-63 assembly series, The Godovsky Grand Opera Theater and Basel Rath­ burger, are offered to buyers of a season coupon book at a substantial reduction below the cost of buying single tickets. The purchase of a season book at $2.50 represents a savings of $1.50 for the two attractions.

Student Group
Well Received

On Saturday, September 30, four student from CSC partici­ pated in a panel before Seventh District Parent Teacher Con­ vention at Marshfield. They were as follows: Miss Diane Hanne, Mrs. Shirley Rehmam, Mr. Kenneth Brunner and Mr. Thomas Kesough. Mr. Franklin Pearson, Supervisor of the Campus School Council accompanied them and moder­ ated the panel discussion of "Attitudes, Attitudes, Pressures and Ambition.

These students are to be con­ gratulated for their fine job as this letter of thanks from Mr. Heffner, District President to Mr. Pearson so aptly indicates that they did. The letter reads, "Seventh District Board and I send you and the students you brought a sincere "thank you." The students were remarkable in their ability to express their­ selves. If had been only the part of the program I could have heard, I would have considered it well worth the effort of preparing.

Sincerely,
Mrs. Heffner.

These are the types of incidents which give our college a good reputation and which are so sorely needed to create better rela­t ions with the people of Wisconsin.

Just Bee-ing Around

Another way of escaping the villains, they thought, was to move to a different house, notALLUSING that the sun casts a shadow, too, they were only a memory. With the exception of a few hangers for door life, the light fixtures, the bees had taken over.

Now came the mounting — boring desire to kill even those few that still existed. With a couple more — "pool of the exterminator the last had fallen.

Things didn't seem the same without those so-called "class stoppers.

The room was rather quiet and lifeless. A professor's attention was drawn to the room as he passed by. He heard the exterminator and decided to investigate. "Just killing a few bees, sir," was the answer he received.

So, that's the way it went on this certain day in October.

No more, shall the teacher get disgusted by the eyes of the students focused on the swarming bees on high, while she's giving a lecture.

No more shall a class be interrupted by an innocent female — "yell, as she discovers a bee investigating her. (At least not until someone opens the window and brings the bees out.)

Now the excitement is over, and the class can resume in its natural way.

Things like this need to happen, so that a little "spark" into a life that can sometimes become a bit monotonous. "That's all that happened. I have been 'beesting' around too long."

Men Teachers Needed In Primary Education

"Tosky's primary school rooms are like homes without fathers. The music life influence in school but are denied this influence because of the absence of men in primary teaching."

So stated Mr. Berdette W. Eagen, director, and Miss Mary R. Egan, associate director, of the Elementary Education division at Central State. Mr. Eagon added that there are many good job opportunities in primary and kindergarten education. The father of seven children himself, he knows the importance of male influence on young children, as portrayed in their action and thinking.

Miss Smith stated that she inherited a flourishing department from Miss Susan Coleman in 1952. In the nine years since, we have increased in numbers to over two hundred people in primary education, but as far as quality is concerned, C.S.C. was graduating excellent primary teachers in 1952 and we believe we will still be graduating excellent primary teachers in 1953. When Miss Smith came to C.S.C., the primary education girlies led all divisions in the school yard and they still do. Quality attracts quality.

The time is 11:30 a.m. the primary curriculum has been under way since February of last year. The four advisers, Miss Edith S. Trewhella, Mr. Elwin Miller, Miss Alice Smith and Mr. Elvin McLoed and the four supervisors in the school. The School, Mr. Mildred Williams, Miss Hildi Harsko, Mrs. Mary Samter, and Mrs. Phyllis Revere demonstrate the program. The Teachers in the school have increased in numbers and the curriculum is now being taught.

Miss Smith was born in South Dakota, and started teaching in rural schools. Her hobbies include flower gardening, reading, listening to Beethoven, and nature strolling.

Fire Fighting Equipment Shown To Forestry Class

On Wednesday, Oct. 11, the Conservation 2 (Forestry) class attended a fire protection lab. Two labs were held, one at 8:40 and the other at 1:45 near the airport, between Highways 10 and 66.

At this lab Forest Ranger Bill Peterson showed the boys many items of fire fighting equipment. He also explained and showed the boys the best way to use this equipment efficiently.

Ranger Peterson demonstrated hand tools such as a long handled shovel used for mop up work, a hoe used for building a fire line, axes which are used for setting fires, brush boxes, the famous Pulaski which has a hatchet blade on top and a grove on the bottom, a fire rake, a fire swat which is used for beast ing out the fire, two different types of packcans, and a beehive fire shoveling.

Then the ranger demonstrated his heavy equipment which consists of his four-wheeled drive patrol truck which carries equipment for fighting forest fires. This equipment is used at a fire plus a 150 gallon water tank, and a water truck, which held 1200 gallons of water and is used to jet down roads and brush in the area of the fire.

The ranger and his assistant demonstrated the equipment which consisted of a truck holding 100 gallons of water and a 30 horsepower Oliver tractor with a wide range of attachments. The tractor has a 75 gallon water tank in the main piece of equipment in the state. Its cut the time needed to dig a fire line and it has been effective in putting out fires.

401st Reserve Unit Tries Union Food, Hospitality

The time is 11:30 a.m. Students are working in the college library. Students are turned and ears perked. The sound of marching is the only thing that stops at the college union. Then, books are reopened and attention is paid.

One hundred sixty members of the Thirty Eighth Signal Company of the Army Reserve, in addition, we have a "taste" of collegiate recently. The Thirty Eighth Signal Company of the College students for three meals at the C.S.C. Union. Every instalment and students scheduled their meals different to accommodate the service.

"Since no other place was available for the men to eat, we decided to have a try here. We are looking forward to serv ing the men for a long time this week. I also wish to thank the students for their patience in this matter," commented John Amacher, manager of the College Union.
Points Boast Great Defense

Now that our team is unbeaten up to date we should give them some special credit, especially the tremendous defensive unit.

The defense is doing a wonderful job, which the record so clearly shows. While our offense has scored 154 points the defensive unit has held our opponents to a mere 39 points. As the people know who have seen the Whitewater and Stout games, it usually takes a score by the other team to get the Pointers going, but when they do get started they really go as was so aptly shown in the two aforementioned games.

The goal line stand by the Pointers in the second quarter of the Stout game deserves special mention. The boys who were there at the time should be very proud of this defensive effort.

I think note should be taken of Dan Trench who played a tremendous game against Stout but was injured with a dislocated shoulder and will not be able to play for the rest of the year.

The usual defensive lineup looks like this: ends, Conrad and Guglinski; tackles, Niekic and Ted Schultz; guards, McAlhan and Herbst; line, Slepke, F controlling, Nickerson, and Wickman; safety’s, Stevens and Rice.

So as has been stated in all other Pointer issues, students back home and all athletic events and show our teams that the student body is behind them all the way.

CROSS COUNTRY TEAM — From left to right as shown: O. M. Rice, coach; K. Johnson; R. Sommer; E. Schultz; F. Kohl; R. Marquardt; G. Effer; S. Mori; and G. Morara

Time Out With Doug

This week the column introduces you to a new sport on campus, cross-country. It has been rejuvenated after a 15 year lapse on the CSC campus.

Orcivlle Rice is the coach of the noble Harrier team. It is as old a team as this year only two years old, but the sport itself can be traced back to medieval times.

Meets for this sport are arranged with the school and there is no specific conference play. This year CSC has six meets, Lakeland, Michigan Tech, Ripon, Beloit, (tentative), La Crosse, and the conference meet at Flatville. If the meet is held at Beloit, a substitute meet will be held at the Whitewater Invitations.

The number of runners vary from five to seven, seven men actually make up the team, but only five of those runners count. The reason for the sixth and seventh men is to increase the other men scores. These men are called ‘pushers.’

The scoring is done thus; first place counts one point, second two, third three, etc. So the reason for the sixth and seventh men becomes evident. If they beat any of the other teams first five men these scores will be increased and thus increasing the other teams scores.

Courses meets for vary from school to school, but usually an average about three miles with the conference course going about four miles.

The usual starters are selected from the following group: Rice men are also pictured above.

Four of the important cogs in the wheel of the Pointer teams are present here - Gregg Engler, Steve Rotan, Nickerson and Ted Schultz. Terry Engler, Steve Rotan, Nickerson and Ted Schultz.

Michigan Tech — Remains Unbeaten

CSC Harriers lost by one point to Michigan Tech on October 7. However, in defeat Stevens Point still has its best race of the year. On October 21 they encounter La Crosse in a luminant to be held at the Stevens Point Country Club.

Placeing in last Saturday’s meet was as follows:

First — Michigan Tech, 18:02.
Third — Stevens Point, 18:02.
Fourth — Gregg Engler, Stevens Point, 18:31.
Fifth — Roger Marquardt, Stevens Point, 18:32.
Sixth — Walter Cherry, Mitch. Tech., 18:56.
Eighth — Ed Schultz, Stevens Point, 20:06.
Ninth — Fred Kohl, Stevens Point, 20:08.
Tenth — Steve Mort, Stevens Point, 21:17.

Siasefi News

You probably saw our fine group of pledges last week. We had a happy time as they came through in fine SIASEFI tradition.

The group of pledges consisted of: Larry Sperry, Dan Full - Oliver Plata, Bill Schmenfeld, Paul Tadyck, J. J. Johnson, and Charles Besch.

Congratulations!

A fine turnout of alumni showed up for homcoming as usual. They all enjoyed the game and the surprise held at the Country Club. Alumnes Pee Wee Somers once again won the event. The winners in the other contests were not available for comment.

It seems that there has been an unfortunate accusation against various activities on campus. We would like to suggest a different approach to this aspect of college life. Enough said!

Our bulletin board has once again received the cause of discontent. The reprimand this time will result in a change. Be prepared.

Good Luck in the rest of the season “Pointers.”

January Sweaters

SPORT SHOP

The Hawk’s Nest

With the Pointers headed for the title of the SCC, 1961 could be one of the great years in sports history. Since the year began our athletes have captured both the basketball and baseball championships and should add the football title this fall. Not to be overlooked are the cross-country and wrestling teams CSC had in 1961. Congratulations are in order for all members of the coaching staff and to all the men who have played as hard to give the college these fine teams. Also hats off to those in the main building who have in any way helped to maintain the strength of the teams academically.

A rather pleasant surprise has been received by cross-country coach Orcivlle Rice this fall in the person of George Morara, a student from Kenya who joined the team for its second meet and in his first college competition as a runner, took first place with a fine time of 18:20.

Contrary to reports that gruose would be scarce this fall, there appears to be a good population and bird hunters have been doing very well in this locality. There have also been quite a few quail sighted south and west of the city and there should be some good hunting for these little bushwhackers when the season opens on October 21. Grouse hunting should improve considerably as the leaves start to thin out.

After the first two weeks of the new bowling season, the team leaders in the Campus leagues are Bill Morel and the Siasefi are tied for first with records of 5.1. The top five bowlers are at this time: Bill Morel, J. Desh, Charles, 16, Bill Kostelar, 163.

The opening weekend of the season provided some fine shooting locally with those truly managing to bag a pair of greenheads. The best bet for ducks is the Wisconsin river and its backwaters which can be reached via Highway 21 north or Highway 10 west by traveling along South River Drive as it parallels the river.

QUARTERBACK BILL RUSE, who completed 13 of 19 passes for 213 yards against UW-M here Saturday, is shown just before flying his first TD pass to fullback George Rivers. The scoring aerial was the first of three tossed by Ruse during the game. Bearing in the Pointer signal-caller are UW-M players Jerry Olson (20) and Ted Weerts (60). CSC won the contest, 27-10.

THE POINTER

October 19, 1961

By Norman Jossee

One of the important oges in central state’s successful football team this season is David Herbst. Dan hail from Park Falls where he lettered three years in high school football.

His positions on the Pointer team are offensive tackle and defensive guard. Herbst also played football in the Army. He was on the team at Fort Lewis, Washington and also played a year in Germany.

The 200 pound lineman stated that his most memorable game was the last Whitewater contest. Anyone who witnessed the vicious line play in that one can well understand why. When asked his opinion on the chances of Point taking the championship, Dan replied, “All we can do is play one at a time and hope for the best.”

Dan is a junior majoring in Biology and Stevens Point college. He should see more good things from him next year also.

Fraternity News

The Sig Ep was looking to extend special recognition to Dave Petro and Jim Shaw for the outstanding job they did in organizing the queen campaign.

The fraternity has elected two new officers. Dave Erreci has been elected vice-president succeeding Dave Herrell. Jim Yoder was elected the new Sig Warden to replace Jim Curtiss who transferred to EWU. All congratulations go to both Dave Petro and Jim Shaw.

The new pledge class soon to start their pledging activities. Bill ’Tiger’ Hannah’s has been appointed the new pledge trainer. I’m sure they will do an excellent job as well.

The brothers would also like to extend their warmest congratulations to our president, Les Jerger, who was married on September 30. Congratulations Les.

The CIC chapter of Alpha Phi Omega has been re-established. Although the group is small, its projects are big. In the last few weeks AFO set up a camping program in which all boys, freshmen, supported the Bloodmobile 100% and helped with the city-wide paper drive. Future projects include recoding of the path between the Union and the Library and a reaping of all former Scouts now attending CSC.

Increased Scholarship Goal Of Alpha Gamma

Alpha Gamma, in keeping with its purpose to promote an increasing knowledge of the various social studies on Central State Campus, is pleased to present its first two programs of the season as follows:

Wednesday, October 18, 7:30 p.m. in Room 21-122 in the College Union Alpha Gamma will hold a meeting of Dr. E. W. Karchaus speaking on “Stewardship andig of the Seventh Seal,” a report on his investigation of legal history.

Thursday, October 19, 1:30 p.m. in the Meeting Room on South end of the Snack Bar, the first of a series of informal discussions will be held. Bill Kozulac will lead the discussion which is to be on the United Nations. Everyone is urged to express an opinion on issues of the day to welcome them in to the discussion. Further discussions on such topics as the Berlin Crisis, Federal Aid to Education, Economic Issues and any other topic the students wish to discuss.

At the business meeting on October 9, the following officers for the year 1961-62 president: President, Nathan Tim; Vice-President, Karl Heizer; Secretary, Michael Ferrell; Treasurer, Ross Porter; Press Representative, Jane Burgess; Faculty Advisors elected are Dr. Frederick A. Robinson and Dr. H. V. Grist.

As a further opportunity to promote a better understanding of the campus, Alpha Gamma pledged itself to support the Library Theater Movie Series and to urge all student groups to do likewise. We particularly wish to call attention to the Library Theater presentation of the “Seventh Seal,” which is to be shown on October 30 and 31.

The Executive Board will meet every Tuesday at 10:45 a.m. in the Student Union.

The next regular business meeting of the Alpha Gamma will be Wednesday, Nov. 8, 7:30 p.m. in rooms 24 & 25 in the Union.

JOHANNA CLARK

Johanna Clark moved south in the fall of 1958 from Merrill to Stevens Point. She was here to begin her education in kindergarten-primary division at CSC.

Before we look at what Jo has done for the past four years let’s see what happened in high school. A great deal of her time was taken up working at the Merrill Public Library. But she still had time for band, choir, and Student Council activities. Jo was also a member of the National Honor Society in her senior year. She came to CSC on a two-year scholarship which she received from the Merrill Jayettes.

Her college life has also been a busy one in both work and extra-curricular activities. Jo has worked in the library for the past two years as well as having been a counselor at Steiner Hall. While still at Nelson Hall she was both vice-president and president. In the way of other offices Jo has been corresponding secretary of ISA and assistant-treasurer and treasurer of AWS. As a freshman she pledged Alpha Sigma Alpha sorority. For the past three years she has been a member of Primary Council.

As for the future Jo plans on teaching, but the biggest event after graduation will be her marriage to Herb Rosby on June 23, 1962. And that in a nutshell is Johanna Clark—past, present, and future.

JOHN CURRAN

This week’s profile spotlight throws its rays on an avid hob­bier. John Curran is the man who shows these many interests.

John’s favorite hobbies are trap shooting, golfing, water skiing, hunting, fishing, photography, and book reading. Most of these are outdoor sports. That shows where John gets his tan in a local store. His senior year brought him the Good Citizenship Award.

He was graduated in 1958 from Antigo High School and proceeded into his freshman year at CSC the following fall.

John is majoring in economics which explains his interest in ‘the business world. His only minor is English.

He is kept busy as student manager of the Kened, but he finds time for other activities and organizations. He belongs to Newman Club, was the treasurer of the Economics and Business Association his junior year and is president this year, and takes an active interest in the Aquinas Club which he was prexy of in his sophomore and junior years.

John chose CSC as his home for four years because it is small and a student is not just a number as in a big college. He says there is a closer association with teachers and your influence can be felt by others.

Being associated so much with the snick bar area, John has a comment on it. He feels the students should make an outstanding effort to keep their Union and campus clean.

The freshmen rate high with him. He thinks they are doing well this year. They should remember what society expects of them. He says if he were a freshman he would work hard to fulfill the responsibilities of being a freshman to society.

In the near future, sometime between October 15-24, John will be leaving CSC with hopes of returning for the fall term of 1963. His country has called for his services, and he will render them at Fort Lewis with the rest of the 332nd National Guard Bi­version. He is qualified for cler­ical work and wants to get that, if possible, in service.

Next year, if all goes as he wishes, he will come back and work for his BA degree. When he receives it, the business world is going to be challenged with a new executive, the position he hopes to achieve.
