Expansion Continues

When will the new Science Building be finished? Are they really going to start the Main Building?

Answers to these and many other questions were recently given by CSC President James H. Alberton who said that the Science building will be ready first, beginning in August. This building will be used by the departments of chemistry, biology, geology and physics.

"The women's new residence hall, Hyer Hall, will be ready Sept. 1, when some 300 women will be housed there. As to the fate of the Main Building, President Alberton said "recommendation has been made by the board of engineers that the building be torn down."

He added that remodeling the building might be a possibility, but if the building is structurally unsound, it should be raised. If that is done, the basement, another part of the structure, will be built in the same location. He said a building will not be constructed on what is now known as the "front lawn."

Construction of the new buildings near the future includes an addition to the old residence halls and a Food Service Center.

The president said the south campus Union addition will be started in 1964. Part of Schoenkle Hall will be used. The cafeteria in the expanded Union will serve about 300 meals a day. The south campus residence halls will be completed in the fall semester, and student parking will be moved to a new location near the Koken Field, behind Deitell Hall will be reserved for the faculty.

Construction of two residence halls and a Food Service Center will be started this summer, according to President Alberton. One hall will hold 300 women students and the other hall will accommodate 300 men students.

The Food Service Building will include a dining hall, snack bar, lounges, and a recreation room. North campus students will use this center.

Further plans also include the expansion of the old Science Building west of the Science Building. A new heating plant will also be built. When the present heating plant is torn down, the old Science Building will be landscaped.

Juniors Elect King; Floriano Will Reign

CSC's field house will be transformed into a "Summer Place" for the Junior Prom May 18. Bob Floriano, Green Bay, will reign as king over the "Summer Place." The members of the court are DeLyce Bowers, Kaukauna; Jim Gelline, Schofield; Tom Fuhrmann, Berlin and Dennis Schilals, Rhinelake.

The king and court were chosen by the junior class members at elections May 1, 2 and 3.

The band of "Dancing Shoes" Palmers will play in a garden setting under a starry sky. This band has recorded on the Mercury label. Dancing will be from 9 p.m. until 1 a.m.

Attire for the prom will be semi-formal. Dark suits and either formal or cocktail dresses should be worn.

From tickets may be purchased at the Koken or from any junior. Cost of the tickets is $3 in advance or $5.50 at the door.

Burb Tweedale and Mary Jo Rice are co-chairmen for the prom.

Robert Epp has been chosen as next year's Homecoming chairman by the student council. Epp, a junior from Chippewa Falls, was a member of the Winter Carnival committee this year. Homecoming week will be Oct. 6-12.

Students who have been appointed to the Homecoming committee are Tom Corrigan, parade marshal; Karen Fox and Barbara Jakubowski, publicity; LaAnn Hylund, queen's chaperone and Janice Lathrop, alumni luncheon.

The contest for the selection of the theme for the parade has already begun and will close May 13. The traveling trophy will be awarded to the organization submitting the winning theme.

Something new is being planned for Homecoming week next year. The returning alumni will be welcomed back at a luncheon Homecoming day.

The week's activities will center around the football games.

The opponent will be the UW-M Cardinals. Activities planned for the week are the queen's dance, queen's assembly, parade and Homecoming dance. The week's final event will be the Homecoming concert.

Band, Choraliers Perform May 5

"A Concert for a Spring Eve" will be given by the CSC band and Choraliers May 15. Principal Dean Blair, chorus director. This concert will be performed in the Auditorium at 8 p.m.

The first half of the concert will be sung by the Choraliers. The 80-voice group will sing "Oh Happy Day," and "It's a Grand Night for Singing," and "Red Roses for a Blue Lady."

The band and Choraliers will combine to present selections from "South Pacific" and "Carousel." "South Pacific" and "Carousel" and "Red Roses for a Blue Lady." Mr. Blair arranged these numbers for both the band and the Choraliers.

Paul Wallace will conduct the band, which will perform the second half of the concert. The band will play Beethoven's "Symphony No. 7." "Candide." Reed's arrangement of "Greenwich Village" and Green's "March for Americans."

Central State College

Albertson Inaugurated As CSC Head

Calls For Liberal Education

A plan for an intensified liberal education was presented by Central State College president James H. Alberton in his inaugural address "Nowhere before representatives of 94 colleges, universities, and learned societies as well as faculty, students and guests.

President Alberton stressed the importance of integrating knowledge into the major areas of learning -- the humanities, social sciences and natural sciences.

He emphasized that the real problem is not to be found in his inauguration as CSC's eighty-first president as in the inauguration of the re-appraisal of the undergraduate liberal education program.

He said the reappraisal at CSC in order that the college might be "a center for liberal education rather than a more specialized educational establishment."

The president cited several specific areas of the curriculum which he believes should be handled by appropriate faculty councils and committees. He said that attention should be given to the development of general courses at both freshman and senior levels which will integrate the fields of knowledge.

President Alberton expressed the view that the major problem confronting higher education is meeting the real needs and goals of those who present and the future. He noted that evolution of the curriculum will be in the prime of their lives and their civilization moves into the 21st century.

The president stressed that the college should be "radically different from nature... in its education."

He added that the function of a college is to prepare for life in a democratic society or to primarily use our educational institutions for vocations.

In closing, President Alberton said that the knowledge of most worth will be provided for students when they are suited to and can identify their identity and purpose in life.

John K. Kyle, president of the Wisconsin State Colleges Board of Regents, introduced Dr. Alberton to the inaugural audience. Greetings were given by Dr. Kyle, Jack Olson, Stevens Point, and Student Council president Jack C. Steinke.

Greetings were also given by alumni Dr. John Steiner, Wausau, and President John H. Simmons of Ball State College, Muncie. President Alberton was formerly Dr. Emen's roommate at Central State College.

Henri Runke, chairman of the faculty, presided over the program. President Alberton, Seattle, gave the invocation and the benediction was given by Father Leonard C. Staheek. Newman Club chaplain.
A Beautiful Campus?

Summer is almost here. The lawn in front of the Main Building is almost ready for the students to start using it as a recreation area for studying and "just dreaming of vacation." This front lawn is a real asset to the school. However, other campus areas are need

Although the campus is expanding, it is still possible that it could be beautified and made more attractive. This could be done by both the student body and the administrators. There are three main areas where the campus could be improved.

The current plans are to fill in Mosen Creek which runs behind the Field House and Pray-Simas Residence Hall. This winding creek flows all spring, summer and most of the fall. It is quite an asset, in it, why couldn't it be improved by building up its banks and cleaning out its bed? A park area would thus be created near the new dormitories which are to be built. Would it not be a good idea to erect pedestrian bridges across the creek? Students could go via the bridges to the Food Service Building which will be located on the north campus area.

An improvement which could easily be instigated by the students would be walking on the sidewalks on campus. If the students continue to cut down sidewalks and use the sidewalks for the purpose intended, the lawns would look fresher and greener.

In addition to these two improvements, the campus could also become more attractive by improving the north campus area. This area, which now almost completely lacks landscaping, could be made as attractive as the south campus with its shaded walks and beautiful trees.

If all these improvements are made, the CSC campus will really look like a campus. It will be something for the student body and the faculty to be proud of and enjoy.

D. A.

Toward Joint Productions

Students who saw the music department's production "Paint Your Wagon" saw a good production. Those who saw the speech department's latest show, "Separate Tables" and "Pygmalion" also saw good shows. Good music plus good acting equal a degree of excellence.

A few weeks ago students produced a Broadway musical comedy on a large university campus. The music, dancing, singing, acting were all reasonable. This show was a joint effort of the music and speech departments plus a number of people who weren't connected with either of these departments but who were just interested in the theater.

Some day it may be possible that the music and speech departments of CSC can combine efforts. Although there is no joint work done in music and speech productions, this has always been the practice. Some people have combinations of music and speech in the expanding curriculum and exploring enrollment of this institution, we are training people in a variety of fields.

Most CSC graduates will enter the educational fields, Sigma Nu, Alpha Sigma Alpha, Delta Tau Delta, Omegamale, and produce musical comedies and dramatic shows. It is a duty of the college to provide those graduates with training and experience in every aspect of such productions. Not simply in music, acting or technical work, but in a combination of all.

After all, no one expects a speech teacher to be a voice coach or a music teacher to be a technical director. The speech student who is interested in theater leaves Stevens Evanston, but his background in the coaching and professional aspects of producing musicals because the speech department doesn't span both areas. The music student who is interested in theater cannot leave with a strong background in acting because the music department does not provide in-depth training in that field.

There is a third department which could be incorporated into the stage productions. Our newly expanding art department is one such area.

Another factor that must be considered is finances. If we could pool the finances of the music and speech departments, wouldn't a more imaginative and adventurous program result? We would also have money to pay the high royalty fees for more recent Broadway shows.

If we combine the efforts of the speech and music departments and the productions of Central State College will be improved. With the formation of the School of Fine Arts as of July 1, joint productions may become a reality.

Faculty Retains Textbook Rental

do by Gary Jacklin

Do you appreciate all the things which are not available to you by the library? Some students, when complaining, the Faculty Library Committee, has been asked to consider the possibility that the rental of text books be made available.  

After considerable discussion, the committee recommends that the library? Some students, when complaining, the Faculty Library Committee, has been asked to consider the possibility that the rental of text books be made available. The Chairman of the committee, Mr. Bob Davis, points out that the libra ry staff members spend much of their time finding and reserving books and placing them in sections according to classes. This service enables you to have exactly the books you need for your studies while you are standing in line. And, just think, if the place isn't full, you'll have more room to move around. If you don't have to buy the books, you'll have more room to move around. If you don't have to buy the books, you'll have more room to move around.

NORMAN KNUTZEN... We Salute You

MR. KNUTZEN behind the desk in the office he will vacate when he retires next year. His love of nature is evidenced by the numerous plants and vines which surround him. That he is not an idle man, is evidenced by the stacks of papers and books piled on his desk. At the end of this year he will have devoted more than 30 years to helping mold the lives of young Americans.

32 Years' Devotion
End Of Year Marks End Of Long Career

The end of the 1962-63 school year will mark the end of the colorful and devoted career of Norman E. Knutzen, associate professor of English.

Thus, Mr. Knutzen has had several "academic grandchildren" both in his classes and in the Men's Glee Club which he directs.

In the past 32 years, the glee club has sung more than 350 concerts, including those at the New York World's Fair, the Senate Rotunda in Washington, D.C., West Point Military Academy and the Shrine Auditorium in Chicago. This year the 35 members of the glee club participated in the U.S. Senate's traditional Easter program.

Knutzen's footsteps will not echo down the halls and disappear altogether next year. He will teach one class and will remain as director of the glee club.

ROUGHING IT — An advocate of Henry David Thoreau's love of nature, Mr. Knutzen spends a great deal of time fishing, swimming, boating, hiking and just plain relaxing at his cottage on Pike Lake. He firmly believes that "nature is a year-round friend."

WINTER WONDERLAND — Mr. Knutzen pauses amid stalwart pines and lofty snow-laden birches in Northern Michigan. He is on his way to fill water jugs for the cabin he once owned in Michigan. He makes his teaching "come alive" by referring to Thoreau's writings in the light of personal experience.
Life Of Joan Doyle Has Many Facets

Evelyn was mother, baby sitter, and a recent graduate of Central State College. She has been working at the tradition of being a mother, babysitter, love counselor and crying-towel to 200 college women students? a job that has been going together for the past two years. On May 9, the banquet will be at the Whiting Hotel at 6:30 p.m.

Wordsworth Available On Newsstands

The 1963 Wordsworth are now available. This annual Sigma Tau Delta publication consists of prose and poetry written by students of Central State College. Mary Bunnels, a recent graduate of Coloma, won the first prose prize for the short story, "Dream Day." The first place poetry award went to Thomas Lehnert. Miss Peter Edwards was a freshman, for his poem, "Quim Querita?"

Devoted Members Of Male Glee Club To Receive Honors

Awards will be given to members of the CSC Men's Glee Club and their guests at their annual banquet May 9. The banquet will be at the Whiting Hotel at 6:30 p.m.

THE LIBRARY THEATER: The Library Theater will present two films in May, "The Last Angry Man," May 9-10, and "The Have and Have Not," May 16-17. "The Last Angry Man," based on Green's best-selling novel, was filmed in 1959, starring Paul Muni, David Wayne, and Luther Adler. Paul Muni superbly portrays the Jewish doctor whose love for humanity and devotion in principle are reflected in his service toward his patients within the slums of New York. Providing a contrast, Luther Adler portrays another doctor more interested in the prestige of medicine and the prestige that accompanies the profession than in his service to the people. This motion picture carries a profound message that one should practice idealism in a sophisticated world based on success and security. "To Have and Have Not" is based on Ernest Hemingway's novel of the same title. The film stars Humphrey Bogart, Lauren Bacall and Walter Brennan. Bogart brings force to his role as Hemingway's protagonist Harry Morgan, an embittered "tough guy" involved in intrigue and violence.

Cheating-A Disease?  
Epidemic Hits CSC

By Rosemary Reiner

A girl stood up in the back of the auditorium, and with a cautious glance toward the door asked, "Does everyone have the answers?"

"The cautious glance anticipated the entrance of the professor who wasn't as yet arrived on the scene. The incident occurred in early April just before an exam.

The exam questions and answers weren't hard to get because most teachers haven't the time to make up a different exam for each section, and the exam room made it convenient to use "crib notes." But using "crib notes" is not the only form of cheating. Students have always played an important role in communications, and a complicated system of signaling (and even coughing) has developed among CSC students.

One such incident involved the use of a number of signals. The task of studying for a true-false test fell to a group of three, and signals were arranged. A head to the left meant that the answer was false. One to the right meant that the answer was true. A signal pointing up in the pencil indicated the correct multiple choice. You may ask, "What was wrong?"

The answer is, "nothing." They never practiced for any length of time. Irregular practice might account for their time perfectly system the question and they had it down pat.

What are the sources of "crib notes" and other cheating materials? They are as varied as the students themselves.

One source is the large purse carried by a typical co-ed. Often the teacher does not find it necessary to "reach" into a student's purse. Of course, this does not account for all of the "crib notes." It can be found in any of the next sections committee reports and the catalog of the Secondary Education Association, the WEA, and the NEA.

President of the Foreign Language Club and working on the Student Council Public Relations Committee have kept Dave busy.

Embla says that being co-editor of the Pointer has provided her with her most valuable college experience.

Emlae Omernik  
DAVID PEPLINSKI

Facts and Faces

The subjects of this week's 'Facts and Faces' are two hard-working, outgoing, successful young journalists, the co-editors of the Pointer.

Steven Point is home for Emlae Omernik and David Peplinski. Dave is a graduate of Pulaski High School. Emlae attended Menasha High School.

E. O. and Peppy are English majors. Emlae has an art minor. Both received scholarships to finance their education.

After graduation Dave plans to enter a career in publishing. Fitted-haired Emlae is going to reach in Prairie du Sac next fall.

Both E. O. and Peppy are active in several college organizations. Emlae is president of Sigma Tau Delta, national honorary English fraternity. Dave is vice president.

Emlae's other activities include membership in the Secondary Education Association, the WEA, and the NEA.

President of the Foreign Language Club and working on the Student Council Public Relations Committee have kept Dave busy.

Emlae says that being co-editor of the Pointer has provided her with her most valuable college experience.

Emlae believes that the process of education involves more than listening to lectures, taking notes and writing exams. "The person who is attending college should give something to the school instead of just trying to absorb everything that it has to offer," she says.

Knutzen Honored

Nerman E. Knutzen, president of the college, has been awarded the Alumni Award. The award, named for the college, recognizes contributions to the college and the community.

Ray Swings 'n' Sweeps a Storm

By Ruth Konkol

Ray Konkol, College Union maintenance man, leads a double life.

Around school, in addition to his other work, Ray sets up the "milkies" and record players and helps out in any way he can. "He is so and even later, when he had gone to Milwaukee to work, Ray used to come back weekends to play for dances. During his Milwaukee days he was in a concertina band. He then began to practice "on his own." He had a three-piece band during high school days at St. J. Casimir. Much later, when he had been graduated from Milwaukee High School and got a job at the Daily News, he finally formed his own band.

Ray has been at CSC three years and has been playing the concertina since he was 15. A friend of his father, Pepe, gave him his first instrument and he then began to practice "on his own." He had a three-piece band during high school days at St. J. Casimir. Much later, when he had gone to Milwaukee to work, Ray used to come back weekends to play for dances. During his Milwaukee days he was in a concertina band. He then began to practice "on his own." He had a three-piece band during high school days at St. J. Casimir.

Organization News

The third annual "Peanut Nic" promoted by the Aquinas Club will be staged Saturday, May 11. This year over a ton of peanuts will be given away for donations throughout the business and residential areas of Stevens Point by Aquinas members.

Ten men recently became active members of the Aquinas Club. They are Dennis Havy, Milwaukee; Erik Hirsch, New Berlin; Mike McGinley, Wausau; Mike Meyer, Hillbert; Jerry Pasche Stevens Point; Jim Spirit, Northbrook, Ill.; Lawrence Wyworyk, Castle; Dennis Sloan, Stevens Point; Dennis Willgen, Marshfield, and Tom Zmuda, Stevens Point.

Aquinas Club's bowling team tied for fifth place with a 360 record, and took second place for high team series.

Alpha Phi Omega

Second 16 of the annual Phi Alpha Omega conference will be held May 11-12 in Stevens Point. The theme is "New Frontiers." An attendance of more than 100 is expected from Wisconsin and surrounding states.

The new president, Dr. Lester R. Steig, will attend.

Registration is from 8 to 11:45 a.m. May 11. Lunch will follow with Robert Davis of the student council giving the welcome.

The afternoon program will consist of discussion groups. Revising the CDA chapter as discussion leaders will be Kenneth Flick, Wau Prairie and Donald Merk.

The evening banquet will be at Trinity Lutheran Church, Norman E. Krueger, president.

Gamma Delta

Plans are being made for a May 19 picnic. Watch for more information. All members are invited.

On May 9, Gamma Delta will meet at St. Paul's Lutheran Church at 7:30 for their regular meeting.

During the week-end of April 26-28 some 22 members of Gamma Delta attended the annual Lakes Region Spring workshop at Winona, Minn. The theme was presented by Pastor John Consstable of Iowa City when he spoke on "The Church in My Profession."

Alpha Kappa Lambda

The annual smelt fry will be held at Boishe Park tonight. The event is open to members only and tickets will be paid in order to attend. Election for the members of the board of directors will be held at this time.

During the last few weeks members have been going to the Mead Wildlife Area to complete some of the work projects started earlier in the semester.

By Sue Steake

"I'm Ron, He's Roger." These are the often impatiently repeated words of Ronald and Roger Ernst, sophomores here at Central State College.

The young men are identical twins. Roger is the older by a scant 20 minutes. As English majors and speech minors, both are taking the same courses. Both plan to enter the ministry.

Ron is five foot 11 inches, blue-eyed, sandy-haired and stocky. Roger is five foot 11 inches, blue-eyed, sandy-haired and stocky. Ron wears black horn-rimmed glasses. Roger doesn't. And that's how most people tell these soft-spoken, serious-minded young men apart.

Being identical twins has gotten Ron and Roger into many amusing situations.

Last summer Roger was selected as one of 25 the representatives to the International Congressional National Conference in Europe. This "friend of mine kept coming up to Ron, pummeling him on the back and congratulating him," said Roger.

"I didn't have the heart to tell him he had the wrong twin. Not after all that back-thumping," added Ron.

"And there was the time Roger's girl friend came home from college and phoned our house. I answered the telephone, said Ron, "and this female voice sang out 'I'm home!' The 'so what?' slipped out before I realized who it was, and by that time it was too late. She had hung up. Roger sure had some fast explaining to do when he called her back. Though the boys share many of the same interests and have similar tastes, they are not 'dress-alikes.'"

"I guess you could say we stopped dressing alike when we began to pay for our clothes ourselves," said Roger. "Dressing alike is cute up to a point. We reached that point in high school.

"Not only did we dress differently, we didn't even talk to one another," said Ron, pushing his glasses, which have a knack of falling off back, into frame.

Twins Identity Confuses Their Friends, Dates

By Ken Groh

"I'm Ron, He's Roger." (Charlesworth Photo),

we ran into each other in the corridor we simply ignored one another. Fortunately, we soon outgrew that stage.

Both boys share an absorbing interest in music. Roger plays tenor sax and was a member of a quartet. Ron was a member of a madrigal group at Oshkosh. Both sing in their church choir.

Both are happy to be on their look-alike status, except for one thing.

"People forget that we are individuals. They don't do us the courtesy of telling us apart. Roger weighs 15 pounds more than I do, and I wear glasses. Yet people still mistake us. People don't bother to tell us apart," Ron said earnestly.

The twins, whose home is at Oshkosh, transferred here because "it is farther from home and we're more independent." After receiving their bachelor of arts degree the twins plan to enter Eden Seminary in St. Louis.
Point Thindclads Stun Titans In Fourth Win

Central State College's "Pointer" thindclads tallied ten firsts and nine seconds in racking up their fourth consecutive track win. The Titans of Oakland fell prey to the mighty attack, ending on the short end of a 75-56 Pointer triumph. Coach Gene Brodha- gen's victory was the third against the opposing Titans this season.

Firsts in the 100-yard-dash, 220, 440, mile relay, pole vault, shot-put, discuss-throw and high hurdles (highlighted by George Packard's record-breaking time of 13.65) gave the Pointers an overwhelming margin of victory. Steamboat Jack Baugh and key middle-distance man George Morara did not see action for the Pointers due to muscle injuries. Both are expected to be in trim shape for future meets, however.

Track Events

440 — 1. Marquardt (SP); 2. Stetter (SP); 3. Robin (SP). Time — 52.3.
220 — 1. Holmes (SP); 2. Hodkiewicz (SP); 3. Mori (SP). Time — 10.5.
100 — 1. Robin (SP); 2. Huralt (O); 3. Lathrop (SP). Time — 20.1.
300 hurdles — 1. Holmes (SP); 2. Mori (SP); 3. Macke (O). Time — 33.2.
Two-mile — 1. Bradley (O); 2. Packradt (SP); 3. Ekvall (O). Time — 10:25.3.
Low hurdles — 1. Woldemann (O); 2. Iler (O); 3. Cattaneck (SP). Time — 22.6.

Field Events

Pole vault — 1. Duper (SP); 2. tie between Meunier (SP) and Dwyer (O). Height — 120. Javelin — 1. Adams (O); 2. Schroeder (SP); 3. Kerr (SP). Distance — 174'.

Gramps’ One-Hit Shutout Sparks Season Opener

by Mike

Ace sophomore hurler Bill Grams chalked up a brilliant one-hitter in leading his "Pointer" teammates to a bruising 60 victory over the Superior Yellowjackets in their clash April 27. Superior countered with a 5-2 shake-up victory in the second contest.

Aiding Grams' cause were 11 hits, including home-run blasts off the bat of Jim Hansen and Pat Down in the seven-inning contest. Buddy Woller’s double and two singles were no detriment whatever to the Pointer onslaught. Deeper water confronted the Pointer nine in the second match, as they were able to muster only four hits and made three errors in losing to the Yellowjackets, 5-2.

Freshmen Ron Grabow and Al Roth handled the mound duties until the fifth inning when Billy Grams was summoned to finish the job. Pat Dann collected two more hits, Don Einzinger and Dale Vogel knocked singles, but this was not quite enough to match the Jackets’ 5-run battery.

Shilsky

The Pointer baseball squad traveled to St. Norbert College, DeFer, last week to challenge the Green Knights in a two-game non-conference tilt.

Both games fell to the Knights by run margins of 7-6 and 7-6. The Pointers, however, matched the Knights in total hits, 13-14. St. Norbert battled back to overcome a 40 Pointer margin early in the sixth inning. Three Pointer errors, some hand-pitching on the part of the Knights, and stranded Pointer basemen, finally gave St. Norbert the victory. A two-run Pointer rally in the final inning fell short.

Bill Grams, going the distance on the mound for the losers, did not quite equal his pitching performance against Superior two weeks ago, but this was no discredit. Grams allowed seven hits, struck out nine and walked two in his seven-inning stint.

The second game, a pitcher’s duel match-up, didn’t only paw, Dale Vogel, against the Knights’ Paul Schrader, who scoreless until the fifth inning. The Pointers sparked in the third when third-sacker Ron Yer- outh socked a two-out triple, but the Pointers failed to bring the run across.

With the Knights coming to bat in the bottom of the fifth, Vogel found himself in real trouble as the Knights slammed a triple, were allowed a walk, and then doubled, scoring two runs.

The Pointers made a last-ditch one-run bid in the top of the 7th to end the contest. Vogel’s pitching efforts allowed for only seven scattered hits, seven strikeouts, and just one walk. With the completion of this game the Pointers held a 13 season record.

CHUCK PANKRATZ finishes well ahead of his nearest opponents in recent mile-run against UW-Duluth. (Jour- nal Photo-
ENTERING THE FIELD HOUSE gymnasium are some of the more than ninety-five delegates from colleges, universities and learned societies who attended the presidential inauguration. These delegates were a part of the colorful academic procession which also included the CSC faculty, student council members and other dignitaries. (Charlesworth Photo)

Pointer, Faculty, Students Honor President Albertson

With the inauguration of Dr. James H. Albertson as Central State College's eighth president, the students and faculty honored him in many ways.

The activities of the week of April 29-May 5 marked the first inauguration of a CSC president on this campus. The high point of President Albertson's inaugural week was the inauguration ceremony May 4, but there were many other events in his honor.

Faculty members of the art department staged an art exhibit in the college library. The speech and drama department produced the play "Pygmalion" May 1-3.

Musically speaking, the annual spring concert by the Men's Glee Club May 3 was dedicated to the president. The music department performed its annual choral union concert May 4 as an inaugural concert.

President and Mrs. Albertson were hosts at a tea for parents, students and faculty May 5.

Other inaugural week events included an inaugural buffet luncheon and an inaugural reception for guests.

The Pointer staff is also honoring the new Central State College president. This page of inaugural pictures is dedicated to Dr. Albertson. All the students from the CSC campus join with the staff in welcoming President Albertson as the eighth president of this college.
