CLOSING SHOP

When this issue of the Pointer rolls off the presses, the mounds of assorted debris from the last semester's work will be cleared away.

The Pointer has come against many obstacles, many complaints and some compliments (yes, actually)! Perhaps the first obstacle was an apathy of the multitude of students crowding this campus, who said, "Of course we want a paper, but I don't have time." No of course they don't have time, but the greatest debt of thanks go out to the loyal staff members who stuck by all the crisis, and also to the advisory staff for words of encouragement.

Next year, the Pointer staff will have a new advisor; Mrs. Jane C. Houlihan. We hope you will be behind him. Without student and faculty cooperation little can be done.

College students are only human — human beings need one another — the encouragement, advice and actual help. Without this, human beings don't survive.

The staff sincerely wishes a happy, healthy year to these "Pointer people." We all hope you'll try, "trailing news" next year. May participation in the advice newspaper be very rewarding.

Congratulations, honors students! It is no small honor to be able to place your name in the honor list. It is an honor of which you can well be proud.

A student named to the dean's honor roll is a scholar as well as an athlete. Winning the encouragement, advice and actual help. Without this, human beings don't survive.

The ability to respect yourself and to be self satisfied is no small honor to place your name in the honor list. It is an honor of which you can well be proud.

Most of us well know how hard it is to maintain a two-point average throughout four years, and we can readily admire those of you who have done it. We also admire those of you who have maintained their scholastic standing despite their vigorous participation in extra-curricular activities.

Congratulations are also in order for all the students of WSC who received awards at the Awards Assembly Monday. If you have earned a place at the top of the list, you deserve it.

The respect and like you and most important of all, the ability to respect yourself, the one person you envying you and yet it is aware that it was just that little bit of extra work which you did and they didn't do that made your worthy of being named to the honor list.

A Fairy Tale

For "Educated People Only"

Once upon a time there was a big ugly ogre.

He had a head which was too heavy for the rest of his body, and a tail which was too long for his back. His round sheets of glass and in his eyes were so cross they couldn't see anything. He was quite tall— but was not at all broad, no matter how much caloric food he ate. fe was suction cups that stuck to the floor and he was quite eyeless and his head hung up with his head.

HIS NAME WAS EDUCATION.

EDUCATION ate anything and was especially fond of children. He built high cells in each which one was kept in solitary confinement.

Each year he would make a little room for the children. He did this as a measure of the success he will experience in being able to respect yourself, the one person you envying you and yet it is aware that it was just that little bit of extra work which you did and they didn't do that made your worthy of being named to the honor list.
