THE ASSOCIATED WOMEN STUDENTS HONOR SOCIETY has been paving its way on the WSC campus. Twenty-one women students have been named to the newly founded organization.ショワ passing the torch of leadership is retiring AWS president, Patricia Reznicek, on the left, to Darlene Jeckle, the new president, at right. Watching the ceremony is Lynn Donehower, the marshal for the events.

Three Students Selected To Join Summer Stock

"There’s no business like show business" and three WSC students are finding out how true this really is when they participate in the WSC Summer Stock Theatre this summer. Chosen to be in the resident acting company are Jeffrey Rodman, Cynthia Parkovich and James Mueller. Rodman, a junior, has a leading role in "The Importance of Being Earnest," and plays a supporting role in "The World's Fair" and "Arsenic and Old Lace." Parkovich, a sophomore, will appear in "The Importance of Being Earnest," "Arsenic and Old Lace," and "A Letter from Father." James Mueller, a junior, will be seen in "The Importance of Being Earnest" and "The World's Fair." These three students were chosen as some of the Needle’s Ear Dramatics outstanding players and have been recognized by the Student Council. They are accomplished actors with experience in college productions.

Student Council To Recognize Organizations

A special meeting of the Student Council was held on Thursday, April 30, to discuss the proposed organization recognition and Homecoming.

If present hopes are realized, the class of 1964 will be the organization that recognizes student organizations on campus. The resolution pertaining to this was moved by Mr. James Mueller, chairman of The Pointer. After they gain this right it must be cleared through the Student Council, which is presently going through necessary channels. The resolution says that the process for recognition is filing an approved constitution with the Student Council. To be approved, the constitution would have to contain the following: the organization’s name, the organization’s purpose, the number of members, the eligibility of membership, the governing body, the election procedures, the requirement for holding elections, the term of office, the number of terms a member can hold, the activities the organization is eligible to sponsor, and the constitution should contain an

State Buys Homes; Building To Start Soon For Classrooms

The State has substantially completed purchase of an area west of Wisconsin State College’s Science Building, where a new classroom building will be started later this year. Involved are 54 parcels of land containing 13 homes, two of them duplexes. The purchase includes property on both sides of N. Phillips Street. (Continued on page 2)
April showers bring May flowers. Also exams. The grade-point grind, now slowing perking, will soon come to a full boil. The four-point plugger now spends eight instead of six hours in the library, laboriously copying material "suggested" supplementary material, polishing up his term paper, adding a few impressive footnotes. The one you have been dedicated enough to scholarship and truth to zip down to Milwaukee or Madison for your correspondent's in-flight research, and is a source of constant irritation to others because of this.

I can't get started is the usual fate of the snack bar sat. somehow Cokes and conversation can't relax that clutching feeling every student suddenly gets when he realizes he has less than a week left and no term papers, a special project; three book reports and an oral report are all due. "What the..." that happens not often, surprised sophomore, juicedjunior and swamped senior.

The parks are also at a loss for a solution. Go to a skating rink on a Saturday night, No-Doz and aspirin complete in intestinal tracts. Faces are pale, haggard and lined under eyes from studies late. To the point and for the first time all semester one can breathe at Joe's and Fill's. Things are tough all over. 

Student Council

(Continued from page 1)

organization is a member of a national organization the national conventions are held each year to be attended. At this point the discussion brought to the attention of the Council that certain Greek organizations are not allowed by their national groups to file their constitutions. After discussion it was decided to find out how many of these problems and to investigate what the Greek regulations are in this and other groups.

Turning to Homecoming the Council was in the midst of staging the event. It was stated that the Alumnae have yet to take an active part in the job. It was the intention of the Council to form a Standing Committee, but this requires a constitutional amendment and could not be done immediately. The special committee was formed and they have made a Standing Committee at the present time.

In regard to the other activities of Homecoming, the Council will be meeting with the faculty and other councils regarding their facilities at its disposition to do things at the last minute. It was thought it best to turn the job over to another organization, the Interfraternity Council was given a one year trial of the job at an earlier meeting and it was felt that this should be enough time before the problem again and keep a close watch on the job to see how the problem can best be met.

Council Vice-President Ed Benjamin appointed President Dick Klein who was absent. Alarmed without excuse were Mark Marit, Tom Corrigan, Karen Fox and Janice Hoth.

 Psi Delta Phi, Psi Soroity Elects Next Term Officers

Judith Davis has been elected president of the Psi Delta Phi social sorority at Wisconsin State College.

Also elected were Ellen Gulixon, vice-president; June Roth, junior; Lucille Dawidycz, corresponding secretary; and Grace Beecher, treasurer; Sandra Fream, member; and for the first time in the job a female to be elected. She is a junior and swamped senior.

Psi Delta Phi, Psi Soroity was attended at the Alpha Phi Omega Homecoming dance at 6 p.m. and the Psi Delta Phi Homecoming dance at 8 p.m. Both were held at the main hall.

Are You Interested? Come Along!

You don't have to be handsome or beautiful. So come along!

Interested students who wish to attend the meetings of the Pointer staff must attend a meeting with the Pointer advisor, the President of the Psi Delta Phi. This meeting will be held at 7 p.m. Thursday, May 14, in room 21-12 of the College Union.

Miss Bainter Awarded Two Study Grants

Dr. Monica E. Bainter, chairman of the physics department at Wisconsin State College here, has been selected as one of the two recipients of the National Science Foundation Study Grants.

The first grant, scheduled for the Optical Society of America, will be given to Dr. Bainter at the Western University in Memphis, Tenn.

The second grant will be given to Dr. Bainter at the University of Pennsylvania, N.M., where at New Mexico, a State College. The grant will be used for research in Theorectical and Modern Physics.
MEMBERS OF THE WSC Brass Choir will appear in concert at 8 p.m., Thursday, May 14, in the College Union Lounge. The Madrigal Singers will also share the spotlight in his music department event.

Physics Teachers Meet Here Today

Talks by professional physicists and teachers from all grade levels will be heard when the Wisconsin Association of Physics Teachers (WAPT) meets Friday and Saturday, May 8 and 9, at Wisconsin State College here.

This marks the first time that high school physics teachers will meet with the association to listen to talks on radiation, biophysics, astronomy, fundamental aptitudes, grade school, junior high school and the high school teaching of physics. Short film concepts and research programs will also be highlighted. Films will be shown both days and there will be new equipment previews.

One of the features of the two-day meeting will be a talk which Dr. W. A. Hiltner, director of the Yerkes Observatory at Williams Bay, will give on “Recent Developments in Observational Astronomy at Yerkes Observatory.”

Registration and a tour of the new science building are set for 1:30 p.m., Friday, and at 2:30 p.m. Sunday. Oh, WSC in structure of physics, will talk on “Radiations of Jupiter.” He will be followed by the Rev. R. A. Mazak, whose topic will be “Meson Field and Evidence for Sterile Effects in Deneb.”

Tours will be made to Trexosoytum Company April 30, followed by a dinner at the Antler’s has been scheduled for 6:30 p.m., and at 8 p.m. Dr. Hiltner will talk.

“Statistics of the Physics of Fundamental Particles,” will be discussed at 3:30 a.m. by Dr. K. C. Wall of the High Energy Physics Division, Argonne National Laboratory, Lemont, Ill.

Mrs. A. J. Hansmann, Racine, at 10:30 a.m. will talk about “The Science Being Taught to School Students.” She will be Our Grade School and Junior High School Students. She will be followed by Dr. Hildegarde Kuse, WSC assistant professor of education, whose topic will be “Experimental Programs in Elementary Science.” A. R. Nielsen, Port Washington Senior High School, will wind up the session with a discussion on “Our Research Programs.”
