MISS JULIA TWICHELL

Miss Manitowoc

U's Summer Theater Planned

The University Summer Theater will open its second big season on June 36, with the Frothy comedy, *Come Blow Your Horn* by Neil Simon, the author of two of Broadway's current biggest hits, *Barefoot in the Park* and *The Odd Couple*. Producer Alice Peet has announced that five productions will be produced during the seven-week period, William C. Kramer is the resident di-
rector.

Another Part of the Forest, William Hallman's exuberant sequel to *The Little Foxes*, will be the second offering of the Summer Theater, has been selected by Miss Manitowoc, the great comic travesty on the Hollywood film capital in the 1930's, will be followed by the William Inge favorite, *Bus Stop*. *Bus Stop* is the popular saga of the loveless cowboy pursuing the winsome night club "clam-toolee." The fifth production to close the season at the end of July is the delightful, graceful Gallie Purnell's *Tiehes Carnival* from the pen of French playwright Anouilh, who is noted for his astounding Becket, *The Waltz of the Toreros* and many others. William C. Kramer, resident director of the University Summer Theater, has selected from conducting extensive auditions for actors in Washing-
ton, D. C., and in Baltimore. He considers the trip to have been successful. Five experiences of performers were signed up for the Summer Theater by the William Inge favorite, *Bus Stop*. All of the actors have been with the group for one to six years and have solid acting experience behind them either from television or student theater companies. The total professional resident acting company members will number ten, six men and four women.

Two of the recently signed actors are alumni of Catholic University's well-known Theater Department and are now enga-
gaged in television in Washington. Two other performers are surprise and recent professional theater, *Cente r of* New York. Twisted is the leading man at Baltimore's Vagabond Theater, the oldest professional theater in the United States. Previously signed actors are performers from Theater St. Paul and from the Univer-
sity of Minnesota's Theater De-

Big-Little Sister Program Begins

Once again, the Associated Women Students' organization has begun its Big-Little Sister Program. Freshmen, sophomore and junior women who wish to sign up as freshmen during the summer are en-
rolled to sign up on the sheets which have been placed in the Entrance and Business com-
ers for this purpose. Many women students probably remember being curious about going to a strange place alone, and many freshmen wished they knew someone who could give them an inside look at college life. Now, they can help some uncertain freshman. The suc-
cess of the program depends

In Need Or Not In Need

By BARBARA YRIOS

How nice, marvel many to day, that the government is showing concern for the strugg-
ling college student. It is only among the students themselves that a paradox shines through the haze. A large num-
ber smile wryly or swallow mentally: he has no money, no connections, and no government assistance to re-
course on. With the mounds of papers Student files out; you'd think he would stumble. A section here could hardly make much dif-
ference. One tiny clause, how-
ever, personal financial resources, is a source of diffi-
culties. In order to be eligible for work or loan, a student is expected to air his folks' private affairs.

It seems that the chief de-
fense of this practice main-
tains it safeguards against a stampede of students applying for unrequired assistance. Since funds are limited, so the argu-
ment begins its Big-Little Sister Program. Freshmen, sophomore and junior women who wish to sign up as freshmen during the summer are en-
rolled to sign up on the sheets which have been placed in the Entrance and Business com-
ers for this purpose. Many women students probably remember being curious about going to a strange place alone, and many freshmen wished they knew someone who could give them an inside look at college life. Now, they can help some uncertain freshman. The suc-
cess of the program depends

on their willingness to carry out their responsibility as a Big Sister. This means those signing up to be a Big Sister must sign a paper giving the date and time they will be sent to them by the summer and the fall. Finally, the fast which A.W.S. will be spon-
soring in the fall will be for a pi-

es. And a Big Sister must be prod-
uced in *Purp and Oak* by Jack Corne Blow Foxes, the Forest.

That Questionnaire!

A Guest Editorial

Recently, most students at WSU-SP received questionnaires as part of 23 questions with "in my opinion". Therein lies the inadequacy of this survey, for in many of the questions the available answers range from "very much so" to "not at all." But average what? What basis does the student answering the questionnaire use to determine the "average" so he can judge our school and ourselves? If you think of the students who compare WSU-SP with the other state universities, but very few students have ever attended another university, let alone all the others, and have as rude hear say on which to judge them. This seems a very unsound basis on which to make a survey.

Public opinion is an important and powerful part of our society, and those who attempt to interpret it are to be commended, but before people are asked to make judgments, reasonable and relevant criteria should be provided.

*Approximate as assigned at end of the 1st semester, 1964-65, at WSU-SP.

There is more of everything but time." — Leonardo da Vinci (1452-1519)

Are All Equal?

Dear Editor:

Lately there has been a lot of attention devoted to civil rights in higher education. There have been freedom rides, sit-ins, and crusades to Selma. Now, 1, most people, agree that everyone should have their civil rights, but, like most people, I must disagree when equality for all Americans is proposed.

The Negro (for example) obviously does not equal the average white American. The Negro has his own colleges, and is being educated socially, economically, culturally, etc. from most whites. As college students, we should be able to see through the little story we were told in grade school about how "God forgot and left the Negro in the oven to long," and realize the story as it is; but as we get older we learn that the Negro... not a white man with dark skin and curly hair.

There are some very real differences and many of us object to the effort of some people to accept the Negro as an equal. We ask only that we have the right of association with people of our own choice.

Again let me say, I am not against the civil rights movement. I believe every American should have the right to education guaranteed in the Constitution. However, I do object to any effort to force the Negro to accept the Negro as an equal. We, ask only that we have the right of association with people of our own choice.

Dear Editor:

There is more of everything but time." — Leonardo da Vinci (1452-1519)

What happens if someone is really sick, goes to the Student Health Center, and gets the usual diagnosis of two aspirins? What then?

ALAN P. HAFEMEISTER

Who's Prejudiced?

Dear Editor:

In regard to Mr. Meka's letter concerning the opinions stated by Mr. Chirwa, I would like to point out Mr. Meka's immature and prejudiced viewpoint.

I do not believe that Mr. Chirwa is just as prejudiced as the people he criticizes. He is stating facts. Mr. Meka does not seem to think that heathen beatings occur in Selma or that people are butchered by the savage Ku Klux Klan. Why don't you try reading the paper or talking to someone who has actually seen such things, Mr. Meka? Sure, Americans can be real nice people but they can also be real nasty people.

Your solutions, Mr. Meka, seem to be for Mr. Chirwa to refrain from attending social events and to leave Stevens Points. Isn't this just a little bit immature? Aren't we so much better than he?

How many of the students at WSU-Stevens Point really know foreign students? — not very many. They are just like us except for the color of their skin. Why don't we start acting like mature people and treat them as equals instead of telling them to leave?

PEG FOWERS

Podium Policy

The Podium is dedicated to the expression of opinions in the form of editorials and letters to the Editor. Letters may not exceed 300 words. The Editor reserves the right to edit all letters if they exceed 300 words or are judged to be written in poor taste. Opinions expressed will not be altered in any way. All letters must be signed, but names will not be published upon request. Address all letters to the "Editor, The Pointer, "

POINTER DEADLINE

All articles for the Pointer must be turned in on Friday, 10:00 p.m., to be in the next Thursday's Pointer.
NEW LIBRARY HOURS

Until the end of the semester, the library hours will be:

MON.-FRI. 8 a.m. to 10:30 p.m.
SAT. 8 a.m. to 3 p.m.
SUN. 10 a.m. to 10 p.m.

A.W.S. Honor Society

Sixteen junior women were initiated into the Associated Women Students' Honor Society, Saturday, May 1. The ceremony took place in the Auditorium. Darlene Zedde, outgoing president of A.W.S. was mistress of ceremonies. She passed the torch of leadership to incoming president, Patricia O'Neill. President Albertson spoke in honor of the new members, who are: Peggy Bartell; Portage; Karen Compton, Montielo; Sylvia Christensen, Oregon; Joan DeWitt, Menomonee Falls; Mary Kermeske, Oostburg; Barbara Epple, Stevens Point; Jane Gronell, Eagle River; Mary Ann Jeline, Stevens Point; Marie Jancovy, Stevens Point; Frances Lewis, Almond; Mary Panter, Wisconsin Rapids; Patricia Roda, Merrimac; Jeannine Sands, Stevens Point; Alice Schilling, Green Bay; Pat Steen, Beaver Creek; and Mary Peck Sullivan, Clinton. Past members of the A.W.S. Honor Society presented the new members with corsages.

A dinner followed the ceremony in the University Center Lounge. Patricia O'Neill introduced Mrs. Elmer Delbot, Assistant Dean of Students, to talk about the activities of the 63-64 honors group. Miss Johnson told the new members of the future plans for the society and distributed certificates of merit to the sixteen women.

CAMPUS COMMENTARY

A Study In Depth

by Don Hamme, Feature Editor

Where ever you find teachers and students, you can find one of the most spectacular battles man has ever fought. The student and the teacher, fighting a long hard fight for the blessings of knowledge, and the faculty is fighting a long battle to "let loose" the knowledge they have.

This battle, unlike most battles, is more on an individual basis. Each student, each teacher, fight the battles by himself, with his friends, and with the world. It usually lasts around 16 years of the student's life and a life-time for a teacher. As in all battles, some die and lose the battlefield defeated and some become great and lead the charge right up there in the front lines. But, there the world looks down upon weakers, traitors, and those who desert the battlefields; but, they treat with great care, honor, and respect those who lead them and help them win. This is our University campus. Among the man, many students and teachers that come to WISU-Stevens Point, definitely, some are defeated and leave, and definitely, some become leaders and are honored. For those who are winners, is the wish to be proud of and for those who honor there is much to be thankful for. Remember those of you who fight the battle, you could not win without someone to lead you into the fight, to guard you from defeat and help you on to victory. Without good teachers to lead the students, they loose their battle. Without students, teachers lose theirs. You have much to be thankful and proud about when you see many from a front of one or more of your leaders. If you don't agree with me, read no further for what I am to say won't concern you.

Last week, I was failing to the Awards Day Chairman Dorothy Igl and she was telling me about Awards Day here at Stevens Point. This is the day when our leaders of WISU-Stevens Point are honored.

The following information disturbed me as it should disturb you. Awards day is being held in the Auditorium NOT the Fieldhouse. Let me explain this to the student body let alone the faculty. But, that is not the most disturbing fact. Dorothy also told me that on Awards Day they will be "lucky" if they fill half of the seats that are there. IS THIS THE WAY STUDENTS AND FACULTY TO SHOW THEIR APPRECIATION TO THEIR LEADERS? IS THIS THE WAY THEY HONOR THEM AND IS THIS WHAT YOU WOULD LIKE TO FACE IF YOU WERE TO BECOME ONE OF THESE LEADERS? ?? I don't think I need answer these questions. Students and Faculty, if that Auditorium is not jammed back to the top of the stairs when those awards are being made, you have no right to blame but yourselves for the defeats you meet in the future.

For it must -
Die before it lives
And in the death comes
The knowledge
Be lost to be found
And in the absence comes
Yourself...

For it must -
For it must -
Be abandoned to be regained
The pain comes
The appreciation
For it was youth

Dexedrine...Not A Joke

The Passive Student

By DICK EDWARDS

Is it the responsibility of the college student to be active beyond his scholastic endeavors?

There has been much ado concerning the lack of support, lack of interest, lack of participation, and lack of a lot of other things on the part of the college student in extra-curricular activities. Is the "suitcase student," the "bar fly," the "non-Greek," the "non-doer" a lesser breed of student? The college student has one fundamental responsibility; to be a student. This doesn't mean a lack of participation in Student Council, participation in the "Theta Neta's," or anything else beyond the classroom. The student is responsible to himself. If he feels that he should be a part of something he likes, then he likes geography class, etc., he should participate. The results of this pursuance should be solely his own.

If he feels that he can find the right mixture of books and extra-curricular activity in a "DSP," that his "Ma's cooking" is more important than a weekend in college-town-fine.

This is his prerogative, and one that is his own.

If there is any plus or minus judging to be made in this respect, let's give the benched active student the individual that carries himself as an armistice. Students, who are the president of the "Theta Neta's."

The shaming heart of bitterness is so like a howling wind tearing at windows, eeking under floors, and sounding out with no words.

Soon, soon, the heart, at a racing speed surrounding total vacuum -

the collapsed heart turns in for the night.

-Ellen Kieliszewski

Kaleidoscope

Gone love is like the dull taste of a smoked cigarette; the calling mind is it is the leaf-sapped smell of lilac blossoms; the hollow heart of love gone is a lady bug lying empty dead; on a grey powdered window ledge; the desiring for love's returning is persistent with the fall of mate-calling rain drops roof to clay.

(ACP) — Dexedrine is taken by many Oklahoma University students... taken too lightly, says the OKLAHOMA DAILY.

Most who take dexedrine to stay awake or buoy their spirits don't realize the possible severe effects; few think they would be susceptible to such drug reactions. There are many and frequent cases of reactions to pep pills on the campus.

The OU Infirmary has handled dozens of such cases, with symptoms ranging from nausea and vomiting to hysteria and a form of amnesia. Students are brought in by counselors and friends, often unaware of where they are or what they are doing.

One girl brought in the night before last said she had a heart attack. Use of pep pills raced her heart to well above normal, her blood pressure fell on heart attack-like effects.

Two years ago, a sophomore who had a term paper due the Saturday afternoon of finals was giving dexedrine under a doctor's prescription to avoid concentration. Sensitive to the drug, he went into a reaction that left him overnight in the hospital.

The worst case the infirmary says they have handled involved a boy who had never taken dexedrine in one of the phys ed classes. He told a friend as they walked out of the classroom that he had read a good book, he had never written it, just one capsule. He was brought in as seriously injured with pain in his chest, a heavy glass window in the door. He told officials he didn't remember doing it. Dexedrine is no joke.
It's Official!
By DON HAMMES
THE DAY WAS THURSDAY AFTERNOON, APRIL 29th, a day the students had been waiting for. It was this day they officially declared it Spring by their first big massing at Iverson Park.

Eight rounds around, things of a sudden seemed to shift into high gear around campus. Cars were bouncing around, students could be seen in short-sleeved shirts, shorts, tennies and knaeks no socks! Some teacher was holding class out in front of Ol' Main and by the middle of the afternoon 250-200 students were down at Iverson. People were comin' and goin' in sport cars, convertible, St Cyr's and motor-cycles. Radio's were blazin', hair was flyin' in the breeze, laugs and screams were heard all over.

Some 50 cars were lined up in Iverson's parking lot. Students were spread all over the park. Some could be seen studying or sleeping, but most were not. Some could be seen tryin' out the swimmin', it took a lot of "guts" to really go in. I saw some students up the hill, laying in the sun and a bunch more playin' football. A big fluffy puppy were runnin' around having as good a time as anybody. The gloomy face was not to be seen.

Thoughts of suntanning, golfing, tennis, swimming, water-skiing and summer beer bash-es all memories from the past. Now summer really hums into the minds of everyone. You could hear them talkin' about it, you could see it in their eyes, you could feel it running up and down your spine. You just wanted to GO! GO! GO! You had to get out.

The sky was aquamarine blue, the wind was quick, but warm and the sun spread its warmth all over. The trees were still brownish-gray but the grass was really beginning to take color.

Yes, a few left the park a little "plotzed"! So what? This is not rare around any university campus. And besides, it was the first big day of spring, a good time for anyone to celebrate after the long winter we had this year.

And to think just four days before Thursday, there were two inches of that white stuff on the ground — incredible!

In Need ...

(Continued from page 1)

could have utilized the assistance more fully. Granted, that the ambitious student will persist without the aid, but it is necessary to make it more difficult.

If the government wants an effective student program, it is time for it to make a few changes—like removing "papa" clauses. Is it a charity program of unnecessary humiliations for all concerned—or is it an aid program for students? THAT is the question which needs an answer.

Psi Delta Psi News

Formal installation of officers was held in April for the Psi Delta Psi sorority. New officers are as follows: Beverly Jones, president; Verna Stillman, vice-president; Eunice Paterson, recording secretary; Janet Markie, corresponding secretary; Kathy Goodwin, treasurer; Carol Foss, editor and historian; John Bloomer, chaplain; Sharon Havlik, membership director; Donna Rodzicznak, membership at-large; Pat Ruda, rush chairman; and Anita Torkelson, parliamentarian.

Five new pledges were formally initiated Sunday evening, Apr. 25, at the Hot Fish Shop. The banquet honored both pledge classes for this year.

The new active members are:
Rosalind Knipp, Kewaunee; Kathy Rozen, Stevens Point; Janet Ruda, Merrimac; Janice Newman, Baraboo; and Elaine Ritchie, Wausau.

On Tuesday, Apr. 27, the children of St. Michael's Hospi-tal received toys made by the sorority girls. This was the spring service project.

In honor of the girls' patrons, the sorority held a Parents' Day Picnic at Birkholm Park. This was held on the campus Parents' Weekend.

It was announced on Apr. 27, that Pat Ruda was selected for membership in AWB Honor Sorority. Donna Rodziezak was elected as Panhellennic secretary.

Nelson Hall News

Last Saturday evening, Apr. 23, Nelson Hall hosted its annual spring dance. The theme, "For Away Places," prevailed in every sense, for there was very poor attendance. The entire basement of Nelson was cleverly decorated in relation to the general theme. The "Cafe D'International" was enhanced by soft music, candle-light, and a cozy fireplace. There was a plac­ing fireplace, offered a romantic atmosphere. One area of the cafe was converted into an art gallery where do-it-yourself pieces displayed their talents. The Oriental Room, decorated by w.a.i.l murals and Japanese lanterns, offered stereo music to dance by.

C.A.S. Presents
On May 7 and 8, at 2:15, 6:30 and 8:30 p.m., the Cinema Arts Series will present "5000 Fingers of Dr. T." This movie, to be shown in the Library Theater, is an American film dealing with the nightmarish dream of a boy's piano lessons and his music teacher.

Announcement Made
President Albertson has announced that the title of the Department of Sociology will be changed to the "Department of Sociology and Anthropology." This change will be effective July 1, 1965, and a designation to this effect will appear in the catalog and other publications.

Teacher-Of-The-Year Candidates

This year the POINTER, with the cooperation of Student Council, is sponsoring a faculty evaluation. Last week all the recognized organizations on campus were asked to nominate the teacher they felt helped the students the most in class as well as outside of class. Here and on page 6 are the nominations with duplications deleted. On Thursday and Friday, May 6 and 7, the student body is asked to vote for the teacher they feel is qualified for the "Best Teacher Award." to be presented May 10. You may vote in the Snack Bar.

DR. GEORGE BECKER

Biology

Advice and counsel to organizations, as well as his academic work, make Dr. Becker one of the most "qualified" teachers on campus. Dynamic personality added to a great knowledge of his subject matter and a devotion to education enable Dr. Becker to bring out the best in his students. He is fair at all times and tries to understand the problems of the young people. He will readily help students at any time, willingly speaking at many private functions.

Too often, a "teacher" becomes a master of his field and a teacher of subject matter, not a teacher of individuals. Dr. Becker is a teacher of individuals. This is the highest compliment that can be pronounced.

Dr. Fortune, a genial, humble man with a delightful sense of humor, is considered deserving of this honor because of his obvious interest in his students, his willingness to accept and encourage original thinking, and his innate sense of fairness, which is perhaps the most admirable quality a teacher can possess.

Dr. Fortune's own enthusiasm for his subject matter, his competence in conveying ideas to the students and eliciting thoughtful response, and his examinations which thoroughly cover the subject matter and demand comprehensive, well "thought-out" answers command the respect of students and faculty alike.

DR. C. MORRISON

History

Dr. Morrison would make an excellent candidate for Teacher of the Year because his method of lecture is excellent and because he shows a willingness to help the students with any problems that might arise.

His lectures cover topics that should be discussed with just enough humor interjected in them to prevent them from becoming dry. He does not make his personal opinions or his problems the topic of his lectures as many professors do.

In his willingness to help the student, he has repeatedly stressed that his office door is always open for students to discuss their problems with him.

At functions and in the halls, he cordially talks to students in a manner which makes them feel like old friends.

Mr. Knowlton has always remained friendly and helpful to everyone desiring his assistance, whether in or out of the classroom.

Mr. Knowlton has distinguished himself as a superior faculty member through his participation as an advisor of the University Center Board. His unselfish service to the University and the students compliment his teaching abilities.

Mr. Robert Seaboles

Biology

Mr. Seaboles deserves this award for his teaching abilities and his contributions to the Biology Dept. and Wisconsin State University.

His orderly lectures not only bring forth needed information, but also practical application for everyday living. They stimulate the student in a love for his chosen field. He puts an "all-out-effort" into producing specimens for labs and does taxidermy work for our museums.

Mr. Seaboles' interest in the individual student is not merely a "student-teacher" relationship, but a "friend-to-friend" relationship that the student can always count on.

Mr. R. Knowlton

History

Mr. Knowlton has been selected as a nominee for the Teacher-of-the-Year Award because of his continuing devotion to the essentials of university teaching. He has demonstrated an outstanding comprehension of his subject, which he presents in an exciting and meaningful manner.

Mr. Knowlton has always remained friendly and helpful to everyone desiring his assistance, whether in or out of the classroom.

Mr. Knowlton has distinguished himself as a superior faculty member through his participation as an advisor of the University Center Board. His unselfish service to the University and the students compliment his teaching abilities.

Outside of class which he has displayed in several areas. This year, Dr. Hagerman is working to develop a tennis team and has accomplished a great deal in the training of WSU's fine swimming team. Showing his desire to communicate to all the students, he has taken time to write a two-article series for the POINTER.

He also has a full time teaching position as Assistant Professor to the Physical Education Dept.

Patience, friendliness, drive and intense interest are generated daily from this man. He works to give Stevens Point University students all he is capable of, both inside and outside of class.

“Cathedral” Review
By GEORGE HOLLMILLER
WSU should consider itself fortunate in having a director like William Dawson who demonstrated his talent fully in Murder in the Cathedral. He also had a group of well-disciplined actors, who played with a naturalness and made the whole performance a continuous pleasure.

The entire cast played with verve, precision and flexibility. Murder in the Cathedral is by no means easy to produce effectively, but the cast gave a superior performance.

Jeff Rodman, who portrayed Thomas Becket, was communicative and effective in his gestures, neither restrained nor exaggerated. His interpretations were flawless. He played with authoritativeness and was always in full command of himself. Truly, he was the right Thomas.

Jerry Hartwig, John Primm, James Mueller, and Mike Worman played both the four doctors and four knights. Their interchange of character was remarkable. They, too, were in full command at all times. The roles were difficult and their interplay was excellent.

The chorus of women consisted of Barbara Birenkof, Mary Ann Jelich, Terry Kaskey, Gloria Kubiaik, Cynthia Parkavich, Gertie Rutten, Marianne Schowalter, Sandra Vill, and Paul Werner. They had the necessary depth and communicated fully with one another; through this they reached the heart of the audience.

Theirunionat times left something to be desired. The chorus had a common purpose and they brought it through fully.

The three priests played by R ob e rt Fontecchio, Truman Flowers, and John Glinzki, never really reached their peak. At times it sounded as if they really did not grasp the situation at hand. But, most important is the fact that they never left character.

The messenger portrayed by John Smith was a small role but was handled with grace and sincerity.

Another high point of the production was the set designed by James Mueller. It was beautiful and yet simple with professional lighting and color. All this added greatly to the play.

I think Murder in the Cathedral was one of the better productions of the year. It was performed with depth and illumination. All those who took part should be extremely proud of their worthwhile contribu-

did not grasp the

Dr. Guy Gibson was selected as a candidate for this award because he has proven a valuable asset to the history student. His forthright, informal classroom manner has placed him high on the list of devoted, conscientious teachers at W.S.U.

Mr. Thoyre has been nominated as a person deserving this particular honor, the Teacher-of-the-Year. He was chosen because of his exceptionally good class preparation and his ability to present material in a method which can be easily understood by his students.

Mr. Thoyre has been nominated as a person deserving this particular honor, the Teacher-of-the-Year. He was chosen because of his exceptionally good class preparation and his ability to present material in a method which can be easily understood by his students.

In order to raise money for planned residence hall projects, Pray-Sims Hall presents movies every Wednesday night at 7 p.m. in their lounge. Pray-Sims has presented such movies as: "The Golden Age of Comedy," "The Anatomy of Murder," and "The King Kings." Future films include: "Asphodel Jungle," May 12; "Blackboard Jungle," May 15; and "Shane," May 26.

Admission is 15 cents.

Wisconsin State University—Stevens Point offers you the opportunity to work while you study. If you are interested in the Work-Study Program, you may apply for a job at the Stevens Point campus if you register for the fall semester, or start your freshman course during the summer.

Many high school graduates who thought that beyond their reach can now look forward to summer employment with the aid of jobs provided under the Economic Opportunity Act of 1964. WSU students, at present, approximately 200 students working under this program. Students who qualify may work up to 15 hours during the school week and 40 hours during the vacations and the summer holiday.

Write now to the Director of the Summer Session, WSU—Stevens Point, Wisconsin, 54481.
**Points Fourth In Carnival Relays**

The Stevens Point track team tied for fourth place in the highly competitive Carnival Relays in Milwaukee on May 1. Nine record meetings were shattered during the day and one school record fell and one survived by only one tenth of a second.

The school record came in the mile relay run by the team of Pallas, Brown, Nyariki and McGirane with a time of 3:28.9. However, the winning team broke a school record, they placed third. Marquette won the event with a time of 3:27.5. In the 880, the school record survived by only one tenth of a second. The team of Brown, Holmes, Valentine and Nyariki placed fourth. Stevens Point did, however, gain a first and a second place in the meet. In the high hurdles, Stevens Point's great depth won the meet by three and one-half seconds. The team of Steward, Hilly and McFinney won with a combined 1:57.1. In the discus, Whiffen, Dehlinger and Schroeder of the Pointers combined a distance of 392'8" to place second. UW placed fourth in both events to win the meet with 66 points. Four events were new this year—the four mile relay; the hop, skip and jump; the hammer throw; and the 440 intermediate hurdles. Stevens Point's Bill Barber injured his knee during the meet but will probably be back soon.

**Results**: 4 Mile Relay UW/WM WW/LC MU UIC 18:31.0

**Points Split Doubleheader**

Bill Grams pitched and eight Pointers hit their way to a 7-4 victory in the first game and then dropped the nightcap as Stevens Point split a home doubleheader with Whitewater last Saturday afternoon.

Grams upped his win-loss record to 2-1 and collected two hits to help his cause along. Tom Graffenaert hit a triple and a single and Jim Fitzgerald and Jim Woller had two hits apiece. The twelve hits top the best Pointer effort this season.

In the second game, it was the Warhawks turn as they compiled twelve hits and saddled Chick Bittzenthaler with his first loss this season. John Swendsen had two hits for the losing cause, and Ron Tornouth had one hit and two runs scored.

**First Game**

**Christian Science Lecture**

Man will never really conquer the atom until he conquers his fear of the atom — his fear of annihilation. He needs a spiritual understanding of himself, of the universe, and of God. You are invited to hear a hear-one-hour public lecture on this subject by Jules Cern of The Christian Science Board of Lectureship. The title is "Christian Science: Dominion Over the Atom."

Everyone is welcome.

Hagerman Replies

The following is the second of a two-part article in reply to Harold W. Whiting’s College Athletics, Education or Show Business, that appear in the Mar. 25 and Apr. 1 POINTER. It is written by Fredrick C. Hagerman, assistant professor, Physical Education Department, Wisc-Stein Point.

Mr. Stoke would have his readers believe that only Catholics are recruited. Recruitment of students has long been a policy of most universities. Why are academic scholarships available, why are college days sponsored at high schools and other secondary institutions, and why are a number of educators from their respective departments of admissions sent out to promote their colleges? I believe that administrators realize that students in reality are the university, and that encouraging students who possess academic and active excellence to attend their respective colleges, enhances the quality of education.

I am not going to dwell upon the educational values of athletics, but from detracting from his education. I can personally attest to the fact that capable athletes supplemented and complemented a student. How can you define an educated man? This is a nebulous area of which educators and proponents of education have been preoccupied for centuries. Aside from the author’s obvious quips on character building, charm, spirit, and sportsmanship as educational values, I firmly believe that a part of anyone’s basic education is to think reflectively and make decisions, whether written or otherwise. The laboratories of athletics—the swimming pool, the tennis court, the soccer field—all these provide an environment necessary for a youngster to face a problem, weigh the possibilities, and then decide and act. And oh yes, I wonder when the author has ever had the opportunity to participate in any team effort whether it be a three-year or an off-tackle play or whether he has sat down with his opponent after a musical ensemble contest or tennis match and talked about their future. I think if he had not he would not have placed character building, sportsmanship, and team spirit in quotation marks.

If colleges are to continue to compete with other secondary schools, all students, then they must offer outlets for those students who possess qualities of excellence, whether it be art, music, English, or any other field. As long as intercollegiate athletes remain an integral part of the physical education program and its growth depends on those who possess true ideals, and with a new protest, these individuals will make three trips during the next week.

The St. Norbert’s College defeated the Pointers in both games of a doubleheader, Thursday, May 2, at West De Pere, 42 and 41. In the first game, poor defense and inadequate offense proved too much for the Pointer downfall. Ron Ternouth provided three of the Pointer’s offensive thrust with two hits; one of which was a two-run home run in the fifth inning. The losing pitcher was Rehacht and the winner was Yach.

In the second game, both teams had only three hits but St. Norbert’s capitalized by scoring two runs. The winning pitcher was Hageman, who struck out seven men. The losing pitcher was Bill Grams.

Tennis Team Splits

The Pointer tennis team split a pair of matches over the weekend, dropping Lake- land, 63, on Friday, and being measured by LaCrosse, 54-0, on Saturday.

At Lake-land, the Pointers built up a 5-1 lead in the singles and held on in doubles combinations. Tom Rohm and Steve Grubbs were the only doubles winners and also won their own singles matches. Other Pointer winners, all in single matches, were Tom Jungkutte, Dave Anderson and Tom Resller.

La-Crosse shut out the Pointers with Tom Cattanach being the only player to come close.

Bowling Champs Announced

Dick Anderson, Sandy Schultz and a Dutch-doubles of Dutch West and Jerry Slominski were named as the champions of the University Center bowling tournament, April 21, at the Point Bowl.

Following in the men’s division were Ron Gut in second and Tom Joski in third. The women’s doubles champion was Judy Spychalla and Judy Spychalla.

Placing second in the doubles were Dominique Zappa and Jerry Pruninak and third place went to Judy Spychalla and Jerry Rominski.

The men’s division was well represented with twenty-seven entrants and there were fifteen doubles entered.

THE POINTER

Points Travel

BB TEAM

The Platteville Pioneers and the Winona Warriors will host the Pointer baseball team during the next week. Stevens Point will play at Platteville on Saturday and at Winona on Tuesday.

The Platteville game will be the Pointers third conference contest this year. The Pioneers have twelve lettermen returning from a team that placed second in last year’s race with a 6-2 record. The Winona State encounter is non-conference.

TENNIS TEAM

Stevens Point’s tennis team will make three trips during the next week, playing St. Norbert today (Thursday), North- east on Saturday and Eau Claire on Wednesday.

The tennis team features only four returning lettermen but Coach Fred Hagerman is optimistic about the team’s youth and enthusiasm. As for the team’s loss to Oshkosh in their first match, on a cold, rainy Saturday, he said, “We just played poorly.” He did explain that the team did not have enough outside practices. The weakness so far this year is a lack of doubles combinations. As for trying to remedy the situation by working out various sets. Audrey Pugh and Doug John- son, both lettermen, are pair- ing with Jerry Slominski. Tom Callahan and Tom Rohm are the Pointer’s best choice. Both are freshmen and have had the opportunity to come closer together that in a few years their experience in playing together must be utilized to the better combinations in the state.

TRACK TEAM

The Stevens Point track team will travel to Platteville Thursday, May 2, to compete in a triangular meet with River Falls State and Stout State.

River Falls has nine returning lettermen this year after a seventh place finish in last year’s conference race. The triangular will be the Falcons’ sixth meet this year. The Falcons have eight lettermen returning from last year and want to keep them together so that in a few years their experience in playing together may be utilized to the better combinations in the state.
