Vote Now On Viet Nam!

Senator Gaylord Nelson will be on the campus tonight at 8:30 p.m. in the Student Union Auditorium. Nelson, who is making his first visit as a member of the U.S. Senate, will address the students on the issue of Vietnam. Senator Nelson will outline the facts of the situation and answer student questions.

Saturday, Nov. 25, the students vote on the issue of Vietnam.

The Waiting Game

As Senator Nelson kicked off his nationwide tour on the Vietnam issue, the UW-Stevens Point campus was in a state of flux. While the students were divided over the issue, the administration was trying to find the right forum for Senator Nelson to address the issue.

On Tuesday, Nov. 21, Senator Nelson visited the campus for the first time. He was in the Student Union Auditorium to speak about the Vietnam issue, but the forum was not open to the public.

Following Senator Nelson’s speech, the administration announced that the vote would be held on Saturday, Nov. 25, at 5 p.m. The vote was to be held in the Union Auditorium.

On Wednesday, Nov. 22, the administration announced that the vote would be held in the Union Auditorium on Saturday, Nov. 25, at 5 p.m.

THE PODIUM

For the first time I’d like to urge voting in the Wisconsin State University referendum. The results of this referendum will determine the separate vote of the entire University as a whole regarding our University. The two delegates to the United States Constitutional Convention at Whitewater, Nov. 12 and 13, are committed to cast their vote according to the results of our referendum when the entire University votes to establish a stand on the Wisconsin State University system. Therefore, if we are to be properly represented, we must have a truly representative majority for voting. And this depends on YOU. This is one time we can’t “let the other guy do it.”

THREE PODIUMS

I’ve been away from school for about a week and a half and was away from the university for about two weeks. I don’t think you’ll find me in the next couple of weeks. I’ll be busy with my summer job and doing my own thing. I’ll try to write more in the next couple of weeks.

LETTER TO THE EDITOR

Dear Editor,

I am writing to you about the situation at the Wisconsin State University. I have been away from school for about a week and a half and was away from the university for about two weeks. I don’t think you’ll find me in the next couple of weeks. I’ll be busy with my summer job and doing my own thing. I’ll try to write more in the next couple of weeks.

Sincerely,

Papa’s Points to Pointers

Monitor Radio recently broadcast a brief discussion between Jimmie L. Santi and one of the staff members in which the “new” was introduced. It was then evident that the structures in the University exist. It is said that many speakers and educators in the United States are being used to establish a number of points in the university system. Therefore, if we are to be properly represented, we must have a truly representative majority for voting. And this depends on YOU. This is one time we can’t “let the other guy do it.”

Call of the Willows

Dedicated to James Agee

No day there that’s not bright. Now the leaves are starting whir.

Now her empressing went at no more.

But still a spirited green will receive.

The latter deeps up and spread

To cover, kiss and raise to color

Your snowy delight.

Shut up the snow and spread

To cover, kiss and raise to color

Your snowy delight.

Whereby season:

Shut up the snow and spread the evergreen

And don’t belittle your dreams.

And the reason is:

But the reeling. But the waving.

School As Home

What is the modern system enacting? What is the rule right now? The rule is what we have. It is not a reflection time released for a longer time. Regular life in numeral order changes. In groups we have pre-arranged signals and signals communicate with and others. In my school the signal is communication using a chosen claxon and no choice to release big snow.

And yet administration can differ chronologically or from another one. We have the following:

The Willow Tree Or Me

Right under this is my hand and my eye. I'm sure I've done it right. Want to knows what is his head so you can make it wrong. But what is his head so you can make it wrong.

As it were I'd have had the mailing list wrong.

Willing to believe that we are developed enough to have a positive vision and this is a hole in the level. The frustrated claim making the day of exhalation, the epiphany mind exhalation.

Try-Out Tensions

The play was only half over. The girl had just scored the winning goal against
two opponents in a football game at the school. A siren blared and
the crowd rushed the field to hug their heroine. The rest of the
school members, disappointed at not playing, gathered around the
center to watch the game. The players were tired, but they didn't
mind. They were enjoying the momentary glory.
