Did you know that WSIU men help support Associated Women Students? Ever wonder why you give money to the Associated Women Students? Here's an explanation:

Though allocations are only part of one's job, they're very important. They mean the student body can vote on what they want to spend money on. The Associated Women Students have several important programs such as:

1. **Leadership Seminars**
2. **Bookstore Sales**
3. **Scholarships**
4. **Social Events**

By supporting the Associated Women Students, you're supporting these programs and more. So, the next time you see a WSIU member asking for money, please consider supporting their efforts.

**Questions Albertson's Book Request**

Dear Editor,

Last week's article concerned the problem of book-worship on campus and its possible solution. I would like to offer an alternative to the measures you proposed, which may not be as satisfactory to the average student as the solutions you suggested.

I believe that the root of the problem is the lack of understanding and appreciation of the subject matter. Many students enter college with little knowledge of what they will be studying, and they often feel overwhelmed by the amount of reading required. This can lead to a sense of helplessness and disinterest, which in turn can lead to a lack of motivation and success in the class.

To address this issue, I propose that the Associated Women Students work with the administration and faculty to provide additional resources and support for students. This could include workshops, study groups, and mentoring programs that focus on helping students develop the skills and confidence they need to succeed in their courses.

In conclusion, while I agree that the problem of book-worship is serious and requires attention, I believe that a more comprehensive and holistic approach is needed to address the root causes of the problem. With the support of the Associated Women Students, we can create a more supportive and inclusive learning environment for all students.

Sincerely,

[Your Name]

It's time you looked mental retardation square in the face.

The bigget enemy of the mentally retarded child is ignorance.

Plain, old-fashioned ignorance. Ignorance that says anyone who's mentally retarded should be shunted away. Ignorance that says the mentally retarded always have been, and always will be, burdens on society. Ignorance that says the mentally retarded never can learn enough to play a useful role in society. True, there are some severely retarded children. But the vast majority of them are like the youngster shown here. Attractive. Friendly. Capable of being educated and trained for a job. Capable of living usefully and happily. But only if all of us treat them as much as possible like other human beings.

For the retarded can be made much worse—or much better—by the attitude of those around them.

Your job isn't hard, your salary isn't much, and you probably won't get to do much, but you'll get to be President of the United States. That's pretty good, isn't it?

What's your hurry? You're only young once. And that one time you probably won't get as much. And now the time, probably the only time you'll have a chance to do something about it. So start planning now. Whether you're a Republican or a Democrat, start planning now.

Maybe it'll help you get to be President of U.S. Corps, maybe when you get there it'll help you here. Or maybe it'll help you find out you don't want to be President of U.S. Corps.
