

the new 72 years of service to students, faculty, administration

SERIES VIII, VOL. X

WISCONSIN STATE UNIVERSITY, STEVENS POINT, WISCONSIN, JUNE 29, 1967

4 PAGES — SUMMER EDITION

Latin America, East Asia are topics of Institute

An eight week NDEA History Institute in response to the new social studies curriculum suggested by teachers from Wisconsin and Latin America for 30 high school teachers will be held at Wisconsin State University-Stevens Point from July 9 through August 31.

The institute will be directed by Dr. Robert J. Knowlton, associate professor of history at WSU-Stevens Point. Other WSU faculty members assisting in the institute are: Hugh D. Walker, assistant professor of history; Dr. John Bernd, professor of education; Robert Lewis, director of instructional media services; and Miss Carol Marion, assistant professor of history.

The NDEA Institute on Latin American and East Asian history, is one of 43 such institutes authorized under Title XI of the National Defense Education Act of 1958.

The purpose of the institute is to provide basic information in the history of East Asia and Latin America for experienced high school teachers whose major academic training has been in other areas of history but who are now teaching courses which require coverage of these areas.

The program was developed

Educators join Dr. Eagon in South Vietnam

A team of five educators is joining Dr. Burdette Eagon, WSU-Stevens Point, in South Vietnam where Eagon is heading up a study of elementary, secondary and vocational education.

Eagon left here May 27 and has been in Saigon and Tokyo doing background work for the study.

The team is expected to be in Vietnam until about Sept. 1. One of the members is W. Harold Anderson, director of elementary education for the Wausau Public Schools.

Learning resource center receives federal grant

The Learning Resources Center of Wisconsin State University-Stevens Point has received a \$27,000 federal grant from the U.S. Department of Health, Education and Welfare under the Higher Education Act of 1965, Title II, for the 1967-68 fiscal year.

Title II provides for federal grants in support of library collections.

Dr. Frederick Krempel, Dean of Learning Resources, who made the announcement, said that \$5,000 has been granted for basic library materials and

Although the program will emphasize the problems of development and modernization in the countries of East Asia and Latin America, the afternoon seminars will trace the United States relations with these countries.

With the cooperation of the Department of Education at WSU, the participants will have an opportunity to examine and discuss new instructional materials and to explore new strategies of teaching.

NDEA history lectures open to public

As part of the NDEA History Institute on Latin America and East Asia, the public has been invited to a series of talks, by visiting lecturers. The lectures will supplement the formal course of study.

The programs will be held at 3 p.m. in the Frank Lloyd Wright Lounge, University Center, on the following dates:

July 13, Herschel Webb, Columbia University, will speak on "The Meiji Transformation and the Modernization of Japan."

July 20, William D'Antonio, University of Notre Dame, "Population Problems in Latin America."

July 27, Stefan Robock, Indiana University, "Problems of Development in Latin America and East Asia."

July 31, Immanuel Hsu, University of California - Santa Barbara, "China's Response to the West: Problems of Chinese Efforts at Modernization."

Aug. 3, Robert Alexander, Rutgers University, "Millarism in Latin American Politics."

NADIA NAHUMCK, founder-director of the Philadelphia Dance Academy, gives instructions to her students, in part of the six-week National Institute for Advance Study in Dance being held at Wisconsin State University-Stevens Point.

National dance institute hosted by WSU Stevens Point

WSU Stevens Point is hosting a six week National Institute for Advance Study in Dance.

The directors, Nadia Chikolova Nahumck founder-director of the Philadelphia Dance Academy, and Mrs. Gertrude Lip-

pinco, a faculty member at the University of Minnesota, are nationally known figures in dance. The institute is concerned with the approach to graded dance, curricula. The class, 35 students from 15 different states, is involved with problems of an educational dance program adaptable to elementary and secondary school programs.

Dean of the College of Fine Arts, Dr. Robert Centrick is co-director of the dance institute which is being federally financed by the U.S. Office of Education. New members of the WSU Stevens Point faculty, Mr. and

Mrs. Hatch, are Assistant Directors of the program. They are both involved with two demonstration groups. These classes offer both boys and girls an "experience in dance." A fairly new approach in teaching dance, Labanotation, a dance notation symbolic of various movements, is being used.

Local school children from the 4th through the 12th grade are participating in the program. Assisting in these dance classes are Miss Linda Kloes, Gary Celain and Eugene Harris, all of whom are associated with the Philadelphia Dance Academy.

Regents still interviewing candidates

The Board of Regents committee to select new presidents for Stevens Point, Whitewater and River Falls are still interviewing candidates for the vacancies. It is expected that selection will be made in August. So far, at least 20 candidates have been interviewed.

The Regents approved a master of science in teaching degree for WSU-Stevens Point at their July meeting. This approval is still subject to the confirmation by the Coordinating Committee for Higher Education.

Also approved was a one-year leave of absence for Francis Brey, WSU-Stevens Point Library director.

Regents okayed raises recommended by one of their committees. They include increases of \$500 a year for full professors (to \$13,288), \$500 for associate professors (\$500 for assistant professors and \$300 for instructors.

CAS presents Japanese film, 'The Baillif'

The Wisconsin State University-Stevens Point Cinema Art Series will present a Japanese film, "The Baillif," Monday evening July 10 at 7 p.m. It will be shown in room A121 of the Seifer Building.

"The Baillif" is a film version of the medieval tale about the family of a nobleman sold into slavery to a petty baillif and the son who finally defeats the baillif and becomes a provincial governor able to abolish slavery in the area. The movie is in Japanese with English subtitles. It is directed by Kenji Mizoguchi.

The film was selected to tie in with the NDEA History Institute on Latin America and East Asia which is being held June 19-August 11 at WSU.

Mental health workshop directed by Mr. Enstad

A Mental Health Workshop, under the direction of Dr. L. Enstad, director of guidance at Stevens Point, is now in progress at Wisconsin State University-Stevens Point.

The workshop, which is sponsored by the WSU College of Education, is designed to help teachers learn to incorporate the attitudes and practices based on positive mental health into their teaching procedures.

The program deals with the relationship of learning theory to mental health, mental health education in schools, the relationship of teachers attitudes, emotions, interests, and values to learning.

Visiting research consultants are being brought in to lead discussions on various aspects of the program.

Speakers so far have been Dr. C. P. Popenik, 250 Clark St., Stevens Point, District Mental Health Consultant with the State Department of Public Welfare, who spoke on Monday, and Dr. Arthur Macht, Marshfield Clinic, department of psychiatry, who addressed the group on Tuesday.

Also scheduled to speak during the four-week workshop are three staff members from the State Department of Public Instruction, Madison. They are Vernon Smith, Supervisor of Speech Correction; Robert Schunk, Guidance and Counseling Services; and Victor Contreras, Bureau for Handicapped Children.

Other speakers scheduled are Miss Beverly Kuchan, Madison; Children's Behavior Center; Miss Elaine Burnham and Aaron Savage, Madison, Division of Child Behavior and Development, State Department of Health; and Mrs. Corrine Roy and James Ursin, social workers in the Wausau Public Schools.

Classes will be rescheduled

Due to the Independence Day holiday, classes will not meet on Monday and Tuesday, July 3 and 4.

Makeup periods will take place however during the rest of the week. Following is a revised schedule for those days, July 5 through 7:

First period - 7 a.m. to 8:15 a.m.; second period - 8:25 a.m. to 9:40 a.m.; third period - 9:50 a.m. to 11:05 a.m.; fourth period - 11:15 a.m. to 12:30 p.m.; fifth period - 12:40 p.m. to 1:55 p.m.; sixth period - 2:05 a.m. to 2:20 p.m.

Class breaks are 10 minutes. Bells will not be reset for the three-day make-up sessions.

Gach appointed to CD agency

John J. Gach has been appointed to the Wisconsin Industrial Production Agency of the Wisconsin Emergency Management Resources. The two year appointment was announced by Gov. Warren Knowles.

The six man agency will study how to mobilize the civil defense resources of the area in the event of possible attack.

John J. Gach has been associate professor of education and director of Student Teaching at Wisconsin State University-Stevens Point.

Summer theater offers four plays in July

The 1967 WSU Summer Theater under the direction of Sheldon Faulkner and Thomas Ryan of the WSU Speech and drama departments will present a series of four plays, the first scheduled for July 5th and the last on July 29th. In addition Robert Baruch, of the University of Minnesota will be guest director for this season's theater.

Miss Freda Bridgeman and her crew are in charge of all technical direction including costuming, lighting, sound effects and stage building. Her crew consists of Ellen Crosby, James Mueller, Steve Rees, Jayne Somogy, Barbara Blakey and Joel Weaver.

The First Play, "Waiting for Godot" by Samuel Beckett was originally produced on Broadway starring Bert Lahr, and was developed from and produced for the modern theater. The play is the viewing of the resilience of man's spirit. Directed by Mr. Baruch, it will feature James Greiner as Estragon, Earl Smith as Vladimir, Larry Krauska as Pozzo, and James Tarleton, Art O'Connell as Lucky. "Waiting for Godot" will be presented July 5 through the 8th.

The next production "Misalliance" written by George Bernard Shaw and directed by Mr. Faulkner deals with an uncompromising parent who finds the tables are turned when he rejects the daughter of a young generation.

Local school children from the 4th through the 12th grade are participating in the program. Assisting in these dance classes are Miss Linda Kloes, Gary Celain and Eugene Harris, all of whom are associated with the Philadelphia Dance Academy.

The third theater presentation will be "Twelfth Night" by William Shakespeare, and will be under the direction of Mr. Ryan. This play is the famous English comedy concerning the popular subject of love, and of the main cast members are Robert Check as Orsino, Larry Krauska as Sebastian, and James Tarleton as Viola.

"Twelfth Night" will be presented July 19th through the 22nd.

As to date the cast has not

been chosen for the fourth and final play "Medea" by Euripides also to be directed by the guest director Robert Baruch. This production is the theater classic of Medea, who sacrifices all her love for Jason only to be scorned. "Medea" will be presented July 26th through the 29th.

These plays were chosen for this year's summer theater for several reasons. The new location and stage problems did not have some bearing on the choice, but primarily, they were picked to give the student actor a wide variety of acting experience. Each play comes from a different theater era, starting with an avant garde

production, a 1909 comedy, an Elizabethan comedy, and ending with a classical Greek play.

Mr. Faulkner said on behalf of himself and all those involved in the theater productions, "We would like to encourage everybody who is interested in good theater to come and see us." All seats for each production will be reserved. A season ticket for all four plays may be purchased for \$5.00 and individual tickets will cost \$1.75 each. Fulltime students in summer school will be admitted with the presentation of their fee card to obtain tickets. All tickets may be picked up at the University Center, 10 a.m. to 4 p.m.

BARBARA BLAKEY, a member of Mrs. Freda Bridgeman's production crew, works on costumes for the summer theater plays.

Faculty resignations, leaves announced

Dr. Paul Yambert, acting president of academic affairs at Wisconsin State University-Stevens Point, has announced the resignations of several faculty members who will be on faculty improvement leaves during 1967-68, and faculty resignations now in effect.

Faculty members who will be on leave are Frederick Copps, biology; Miss Jeanne Strauss, foreign language; Dr. Donald Rupert, music; Albert Kudi-Zadeh, political science; John Weiler, Matthew Law, mathematics; Donald Patow, English.

Dr. Milo Harstead, assistant professor of conservation, and Dr. Terrence Snowden, director of the Campus Laboratory School, will be on two year leaves to Nigeria.

Dr. Geoffrey Seed, visiting professor from St. Andrews University, Scotland, and Dr. Francis Boman, visiting professor from the University of Southern California, Los Angeles, have returned to their schools. Dr. Frank Crow, WSU professor of history, who has been visiting professor at St. Andrews University, will be returning to WSU.

The faculty resignations below also include all faculty members hired on a one year basis and all retiring members.

Miss Judith Booka, Miss Myrna Bouchee, Miss Patricia Kenny, Miss Margaret Matrone, Donald Preston, William Truckey, English.

Carroll Arnold, Harry Loomer, Paul MacDougall, Art Ray, George Chester, Ray, George Ward, Rudersdorf, biology; Norman Kittel, Thomas Sever, political science.

Mr. Keith Bander, Mrs. Sybil Ferguson, Miss Millicent Ferguson, Mrs. Mary Glavin, William Kramer, Robert C. Peters, speech; Thomas Brauer, music; Joseph Jerry, mathematics.

Mrs. Vern Kagarice, library.

Miss Leone Oyster, Mrs. Yu Tsao, chemistry; Mrs. Carman Lane, Mrs. Elwin Sigmond, physical education; Dr. Jerry Morrison, physics; Miss Julia Hulley, Miss Ruth Lerud, home economics.

Daniel Fawcett, economics; James Conway, art; Michael Baur, education; Joseph Davis, Miss Sigrid Kahan, William Wickman, Campus Laboratory School.

Daniel Keppie, Mrs. Robert Leacy, Miss Gayle Paulie, Larry Stephenson, residence hall director.

Regents OK an increase in tuition

At a meeting in Madison, the Board of Regents of the State Universities endorsed the legislative decision to raise tuition for resident undergraduates by \$14 per semester to start this fall.

Although the regents officially set the tuition levels, the lawmakers approve the budgets for the nine universities and control the amount of fees that must be paid.

Resident undergraduates will be charged \$119 per semester instead of \$105. Resident graduate tuition will be increased from \$105 to \$141 per semester. Out-of-state students, although, will be hardest hit by the new scale and will be charged \$227 - \$52 more than they now pay.

The cost to non-resident graduates will be jumped from \$351 to \$375 per semester.

DANIEL STOFFEL, left, personnel manager of the North Central Region, Sentry Insurance, recently presented a check for \$100.00 to Dr. Frederick Krempel, Dean of Learning Resources, Wisconsin State University-Stevens Point. The contribution is an annual gift to the Learning Resources Center to aid in the development of the library's reference texts and materials on insurance.

"And gladly wolde he lerne, and gladly teche." — Canterbury Tales

THE POINT

Need Increases for summer senate

One of the goals of the Student Senate is to be the primary representative and legislative body for the students of Wisconsin State University-Stevens Point. With the increase in enrollment of summer school students, the functions of the Senate are becoming increasingly important during the summer.

The Senate realizes that there are problems unique to summer school: problems that cannot be effectively handled during the regular school year. In order to fully identify and deal with these problems, a Summer Senate Committee is being established. By resolution of the Student Senate, this committee will be composed of five students enrolled in the summer session; one of them to be an adult. One person that is presently serving on the Student Senate will serve in the committee in an advisory capacity.

This committee can be very effective in identifying and investigating these problems and recommending to the Student Senate the legislation necessary to best handle them.

If you are or have been interested and/or active in student government on the high school or college level, you can be of great benefit to this committee. If you are interested, contact either Len Maricse at ext. 312, or myself at ext. 467.

CLIFF HEISE
Student Senate Treasurer

Sparking, Spooning missing on campus

Any summer school student, from the youngest freshman to the oldest graduate student (who doesn't have a wife and kid at home), should recognize the definite advantages of warm and balmy weather for that traditional summer romance.

Unfortunately it has come to my attention that the shaded walks and arbors of our campus are not being put to full use. Our mobilized students are still seemingly unaware that courting in cars is strictly a winter pastime.

Summer romances are much more idle. They involve the reading of John Keats beneath an oak tree (preferably with a nightingale sweetly singing and an old urn half exposed), or the picking of daisies in a field (like Dr. Zhivago), or ideally, but heaven forbid not too often, a midnight swim.

Of course, summer romances have their own vocabulary. First of all, an idle flirtation can be best described as sparking. (Sparking is not parking with an added "a" as one unromantic freshman suggested). Sparking must be done, however, only on moonlit nights. A horse and buggy also help.

When sparking gets a little more serious it becomes spooning. When one is spooning it is usually permissible to hold hands. Although canoeing would come under the head of spooning (and is quite a romantic device), one does not spoon down a river. You may either punt or paddle.

Of course, if spooning goes too far it can only lead to wooing. If a fellow gets carried away to the point of going to his lady fair's front screen porch with a bunch of lilacs he is truly wooing.

I hope now that everyone is a little more aware of the pleasures of summer we will have more instances of sparking, spooning, and occasionally wooing. A quiet moonlit night, a gentle breeze, and a tree-lined walk will prove that love, like H. L. Mencken once said, is a triumph of imagination over intelligence.

BILL MCILLEN

Students wishing to purchase textbooks from the University Store must do so on or before Friday, July 21. No texts will be sold after that date.

The New Pointer

The New Pointer is published weekly except holidays and examinations periods at Stevens Point, Wisconsin, by the students of Wisconsin State University. Subscription price—\$4.00 per year. Circulation 3,875. The New Pointer office is located in the University Center. Telephone 341-1251, Ext. 235.

LITTLE MAN ON CAMPUS

"YOU HEARD WE SHOPPING MY RESEARCH NOTE CARDS," SAYS, HANSON. "I'M WORKING VERY HARD WRITING A TERM PAPER."

Coed offers gentleman suggestion

Dear Editors,

Recollections of the first days of school last September and anticipation of this fall prompt me to write this letter and make the following suggestion: Since the day of arrival is inevitably either very hot or very rainy, and since the walk from the parking lots to Neale and Schmeckle residence halls is relatively long and tiring for most girls and parents, it would like to see an ambitious group of men, maybe a fraternity or service group, grab this opportunity for good public relations. I am positive that most of the girls would greatly appreciate help in transferring their luggage and clothes and any other paraphernalia from the car to the lobby and to the residence hall. If a staff of organized, muscular, well-mannered university men were on hand at the two parking lots to perform this service, I am sure their group would be well-represented and highly respected—an excellent way of getting the interest of the freshmen, as first impressions are always important.

LINDA HAMM

Graduate degrees bring top wages

That summer spent in college to obtain a master's degree begins to pay off almost immediately. This heartening news for present June graduates is based on a study just completed by the nine Wisconsin state universities on salaries currently earned by the Class of 1966.

A placement report released by the Board of Regents, Madison, shows that graduates with advanced degrees earn approximately \$100 to \$200 more per month, right from the day of graduation and in almost every field. Last year's graduates with bachelor's degrees are earning a monthly salary of \$491 to \$559 compared to those with master's degrees earning from \$560 to \$856 in the same fields.

Nine State Universities offer master's degrees in education and turn over several thousand prospective teachers which consists of a stipend and the opportunity to perform in theater productions. In return for the stipend, the system now offers 38 graduate programs in special areas and eight more have been included in a graduate expansion bill now in the state legislature.

"Our studies show that graduate students will begin to skyrocket next year," stated Eugene R. McPhee, director of state universities.

The graduate with a bachelor's degree who specializes in field demand, according to the report, and can now give competition to the traditional salary leaders. Those who immediately after graduation can command top salaries in the \$600 to \$800 bracket included civil engineers from Plattville State University industrial technologists and vocational education teachers from Stout, and majors in mathematics - physics from Eau Claire.

Teacher-specialists from the nine institutions also rate high on the salary scale, especially those majoring in speech correction, mathematics and mental retardation.

Under the technical direction of Miss Frieda Bridgeman, the Wisconsin State University-Stevens Point Summer Theater Festival will open its season Wednesday evening July 5 at 8 p.m. in the new air-conditioned Classroom Center.

Changing the summer theater productions from the stage in Old Main to the new Classroom Center Lecture Hall took place for a variety of reasons, but perhaps the most important reason concerned the comfort of the audience and the actors. The new Classroom Center is

Podium Policy

The Podium is dedicated to the expression of opinions in the form of editorials and letters to the Editor. Letters may not exceed 300 words. The Editor reserves the right to edit all letters if they exceed 300 words or are judged to be written in poor taste. Opinions expressed will not be altered in any way. All letters must be signed, but names will not be published upon request. Address all letters "Editor."

WSU hosts idea exchange at recent shoplifting conference

Shoplifting was the topic of a conference held Thursday, June 22, by the University in the Classroom Center. Local shoplifters, law enforcement officials and members of the university administration exchanged ideas on the local and nationwide problem.

Representatives of stores located near the university said WSU students were involved in about half of their shoplifting incidents. Whereas, a store in the downtown area estimated that teenagers were the offenders in 80 to 85 per cent of their cases.

According to the police department, two-thirds of the 75 cases of shoplifting last year involved juveniles. The university recorded 25 student-involved incidents.

Areas of frequent loss to the merchants include prescriptions and colognes in drugstores, cosmetics and jewelry in clothing stores and small items in department stores. Shoplifters are not particular, claimed a representative of Seifert's, citing an incident in which half of a bathing suit was stolen.

A per capita national increase in shoplifting of 35 per cent in the last five years was reported by a Woolworth's representative who said their offenders come from all walks of economic and social life.

Dr. David Coker, director of WSU Counseling Center, said that children and adults often shoplift to gain an identity through acquisition. Many are searching for what he termed "a negative identity," believing they can gain more attention by being "bad" than "halfway good."

Police Capt. Frank Barbers stated there are no provisions within the law for shoplifting but that the offenders are charged with theft. Postage County Sheriff Nick Coker explained that shoplifting up to \$100 is considered a misdemeanor.

The comprehensive examination in the Master's program will be given July 6 at 2:15 p.m. in the Science Building, Room 107-A. Students are requested to consult their department chairmen if they have questions in this area.

punishable with a fine of jail sentence, whereas shoplifting over \$100 is a felony and therefore could bring a prison term. Discipline in itself is not always guaranteed for a behavior change, said Coker, and it may even increase illegal behavior. Barbers said he would prefer to see the fines used to give psychiatric treatment to the offenders.

The university explained that it treats students involved in shoplifting without a set policy. "We try to figure out how it fits into the rest of the individual's behavior," said Dr. William Stelstra, vice president for student affairs. The student is usually put on probation, it goes down on his record, the parents are notified and an attempt is made to find out why the offense was committed.

Suspension because of one instance of shoplifting was explained, because it might mean thousands of dollars lost in fees, tuition and postponement of entrance into the working world.

University shoplifters, said Fred Leighton, director of housing, are usually underclassmen, primarily freshmen, and from all economic strata. They are usually in academic distress and often are psychologically unhappy. Lacking guilt, their actions are usually impulsive,

he said, and they don't realize that the stealing of a small item will be on their record for life.

On one store offers \$5 to an employee for catching any shoplifter and noted some ingenious methods developed by the thieves. Woolworth's teaches its help to look for shoplifters - "We don't mean to make criminals out of them," said their representative, "they bring it upon themselves."

Merchants were urged to refer their cases to the police. The district manager of Temp Stores warned storekeepers against trying to "ditch" the situation, allowing for fear and personalities to enter their judgment.

Shopkeepers agreed the element of fear was present in attempting to arrest a shoplifter, for once out of sight it is easy for them to "ditch" the item. The representative of one store said they had made a mistake once and within an hour were being sued by the child's parents.

Sheriff Coker said the individual must go through the check-out area before an arrest can be made. Then, if a merchant has probable cause to believe a theft has been committed, he may detain the person and call the police or sheriff's department.

he said, and they don't realize that the stealing of a small item will be on their record for life.

On one store offers \$5 to an employee for catching any shoplifter and noted some ingenious methods developed by the thieves. Woolworth's teaches its help to look for shoplifters - "We don't mean to make criminals out of them," said their representative, "they bring it upon themselves."

Merchants were urged to refer their cases to the police. The district manager of Temp Stores warned storekeepers against trying to "ditch" the situation, allowing for fear and personalities to enter their judgment.

Shopkeepers agreed the element of fear was present in attempting to arrest a shoplifter, for once out of sight it is easy for them to "ditch" the item. The representative of one store said they had made a mistake once and within an hour were being sued by the child's parents.

Sheriff Coker said the individual must go through the check-out area before an arrest can be made. Then, if a merchant has probable cause to believe a theft has been committed, he may detain the person and call the police or sheriff's department.

paradise lost

I sit here with a tear upon my cheek - I realize that this year has no understanding, and doesn't belong and I must cry alone for the same reason that I must laugh in a crowd. I need someone to laugh at, but I can only cry for myself. I have lost my love because I wouldn't share her, and now there is no one with whom I can share, my emptiness.

MICHAEL HARPER

Give Master's comprehensive examination

The comprehensive examination in the Master's program will be given July 6 at 2:15 p.m. in the Science Building, Room 107-A. Students are requested to consult their department chairmen if they have questions in this area.

WSU and preteens study development of values

What makes great men great?

This is a question being explored by upper intermediate and junior high students participating in a Social Value Development Project at the University Laboratory School at Stevens Point. The project, which is being directed by A. Irene Gray and Jay F. Thurston, WSU department of education, is aimed at helping preteen boys and girls broaden their concepts of the values and standards that enable great men to become great.

One of the values being stressed in the project, the development and growth of secure feelings which enable persons to become happier and more wholesome individuals, was discussed Monday by Senator William C. Hansen, guest speaker. In his discussion with the students, Senator Hansen noted that feelings of security are an important part of life. "On your way through life you will want to be a member of a group," he said. "There are times when you will be called upon to stand out from your group. You don't want to go along, and you don't all have to be exactly alike," he added.

Other speakers who have appeared so far are Edward P. Nowicki, the former mayor of Stevens Point, and Robert E. Johnson, Madison, supervisor of the Wisconsin Conservation Department. According to Miss Gray and Thurston, the program has been designed to recruit students who will increase their knowledge and understanding of civic responsibility more through progressive classroom procedures, or through a combination of progressive classroom procedure.

Field trips have been scheduled to Madison, Bass Lake, Rio Mountain and other areas. A Johnny Appleseed tour has also been planned. Other values which are being stressed in the project are the growth of a feeling of responsibility toward oneself, learning democracy as a leader and as a member of the group, the ability to adjust to life and an awareness of the individual's place in society.

Six adult students enrolled in

dures and utilization of the outdoors.

For this reason, the students, who are from the public schools and the University Laboratory School, have been divided into a control group and an experimental group. They have been paired for sex, age, grade level, achievement in language arts and social studies.

In the control group, which is using an oral and written approach to their activities, the students are participating in creative dramatics, creative writing, evaluation of news items pertaining to the development of social values, and free choice reading.

In the experimental group, the ideas, concepts, and objectives are the same. However, the study will sometimes move from the classroom to an outdoor setting. Instead of learning second hand, the students will gain a source of their learning experience whenever possible.

As an example, the students are studying the Robert Frost poem, "The Mending Wall," in the classroom. Those in the experimental group will actually go to a wall and discuss the poem in those surroundings, and they may even do some mending.

Field trips have been scheduled to Madison, Bass Lake, Rio Mountain and other areas. A Johnny Appleseed tour has also been planned. Other values which are being stressed in the project are the growth of a feeling of responsibility toward oneself, learning democracy as a leader and as a member of the group, the ability to adjust to life and an awareness of the individual's place in society.

Six adult students enrolled in

an outdoor education workshop at WSU this summer, will study the boys and girls and make an evaluation from observations made during the sessions.

Announce officers of 'Players'

New officers were announced for the WSU-Players at Wisconsin State University-Stevens Point, Ill., outgoing president.

The officers are: Mark Niedzolkowski, South Milwaukee, president; Dale Becker, Stevens Point, vice-president; Lijestras, Marinette, secretary; Ellen Crosby, Stevens Point, treasurer; and Donna Nowak, Milwaukee, assistant secretary.

Last year's Players' awards went to Prim for best supporting actor, to Sandra Young, Madison, best supporting actress, to Earl Smith, Rahway, New Jersey, for best actor in a major role, and to Barbara Blakey, Stevens Point, for best actress in a major role.

The top player of the year award went to Joel Weaver, Minneapolis.

Stephen Rees, Waukesha, received the technician's award. The directors of the four major plays of the WSU-Players this year, all members of the WSU-Stevens Point Speech and Drama Department, received awards.

Awards went to Dr. Alice Peet, professor of speech, for "House of Bernard Alba," to Dr. Sheldon Faulkner, professor of speech, for "The Fantasticks," to R. Cornelius Peters, assistant professor of Speech and Drama, for "The Miser," and to Thomas R. Ryan, instructor of Speech and Drama, for "Dark Of The Moon."

Prim gave recognition to present and new members of the Key Players, which was formed in November, 1966 from the old Alpha Psi Omega, national honorary dramatic fraternity.

Dr. Peet and Dr. Faulkner announced the presentation of keys to the present key holders, Miss Blakey, Cindy Parkovich, Portage, Douglas Wisby, Tomah, Rees, Prim, and Weaver. They named Miss Crosby, Dale Becker, Diane Benzschawel, Manitowish, and John Giesley, assistant professor and librarian at WSU, as new Key Players.

Students attending UN session

William Gehling, Niagara, and Dexter McKelvey, Stevens Point, students at Wisconsin State University-Stevens Point, are scheduled to take part in the second Wisconsin Universities' United Nations Seminar which began June 15 and will run through August 12 at the UN headquarters in New York.

The seminar is offering an intensive study of the United Nations with an opportunity to confer with UN staff members and representatives of national delegations and to attend meetings.

Twenty undergraduates from nine university campuses in Wisconsin are participating in the program which is aided by a \$7,500 grant from the Johnson Foundation, Racine.

The seminar was organized by Dr. Llewellyn Plankenhorn, professor of political science at the University of Wisconsin; Donald Shea, dean of International Studies and Programs at UW-Milwaukee; Carol Elder, executive director of the UNW and Extension Institute of World Affairs; and Charles E. Smith, director of the UNW Arts and Sciences, WSU-White-water.

Graduate awarded UW assistantship

David Leszczynski, Athens, has been awarded a research assistantship at the University of Wisconsin-Stevens Point. Leszczynski, who is a June graduate of Wisconsin State University-Stevens Point, received a Bachelor of Science degree with a major in conservation and a minor in mathematics.

Leszczynski will start work in September under the direction of Dr. Willard Gardner. He will receive a grant of \$314.

JUNIOR HIGH students attending the music camp make use of the pinball machine in the Games Room, University Center.

University Summer Schedule

Circulation Desk —
7 a.m. - 10 p.m. Monday-Thursday
7 a.m. - 5 p.m. Friday
Recreation —
7 a.m. - 5 p.m. Monday-Friday
Periodicals Paged — 8 a.m. - 5 p.m. Monday-Friday
UNIVERSITY CENTER HOURS:
Book Store Hours — 7-15 a.m. - 1 p.m. Monday-Friday
Game Room Hours —
11 a.m. - 1:30 p.m.
3 p.m. - 4:30 p.m.
Tandem and single bikes available —
Tandem — 30¢ per hour
Single — 30¢ per hour
Golfing Hours — 6-15 a.m. - 5 p.m. Monday-Friday.
DEBOT CENTER HOURS:
6-15 a.m. - 10:45 p.m. Monday-Thursday.
6-15 a.m. - 8 p.m. Friday
PHY. ED. BUILDING:
Pool: 1 p.m. - 3 p.m. Mon-Fri.

EVERYTHING from candy to Chekov, from records to shampoo to Salingor can be found in the University Bookstore.

473 graduated in June commencement

Wisconsin State University-Stevens Point presented diploma to 473 graduating seniors during commencement exercises at the University Center on June 4 on the South Terrace in front of Main Building.

The seminar was organized by Dr. Llewellyn Plankenhorn, professor of political science at the University of Wisconsin; Donald Shea, dean of International Studies and Programs at UW-Milwaukee; Carol Elder, executive director of the UNW and Extension Institute of World Affairs; and Charles E. Smith, director of the UNW Arts and Sciences, WSU-White-water.

David Leszczynski, Athens, has been awarded a research assistantship at the University of Wisconsin-Stevens Point. Leszczynski, who is a June graduate of Wisconsin State University-Stevens Point, received a Bachelor of Science degree with a major in conservation and a minor in mathematics.

Leszczynski will start work in September under the direction of Dr. Willard Gardner. He will receive a grant of \$314.

Dr. Schmeller leaves WSU to head college in New York

Dr. Kurt R. Schmeller, assistant to the president at WSU-Stevens Point, has been named president of Queensborough Community College of the City University of New York.

The appointment was announced by Porter R. Chandler, chairman of the New York City Board of Higher Education.

Dr. Schmeller, at the age of 30, will become the City University's youngest college president when he takes office on August 1. He succeeds Dr. Dumont F. Kenny who assumed the presidency of City University's New York College Dec. 1, 1966.

A WSU-Stevens Point faculty member since 1962, Dr. Schmeller has been assistant to the president since 1964. He is also associate professor of history.

A native of Johnson City, N.Y., he graduated from Bates College, Magna Cum Laude, in 1959 and was awarded a Woodrow Wilson Fellowship and a Danforth Fellowship. He received his Master of Arts degree in 1961 and his Doctor of Philosophy degree in 1962 from Princeton University while at Philip Rollins Fellow.

Queensborough Community College, founded in 1960, has an enrollment of 1,425 students in the day session and another 2,744 at night. In the fall of 1967, some 2,500 day students are scheduled to enroll as three major structures in Phase I of a \$23,500 campus are opened for classes.

"The college is one of six two-year campuses within New York City University. According to Dr. Schmeller, about 80 per cent of students who complete their studies at Queensborough enroll in one of the City University of New York's four-year programs at Queens College, New York City College, Brooklyn College and Hunter College.

The City University of New York also provides two-year campus programs at Manhattan, Kingsborough, Bronx, New York City (Brooklyn) and Staten Island. The system also includes two three-year programs at Richmond College at Staten Island, and York College at Elmhurst.

"The City University of New York by 1975 will develop institutions to provide opportunities in post higher education for all secondary school graduates of New York City," Dr. Schmeller noted.

In his work as assistant to the president at Wisconsin State University-Stevens Point, Dr. Schmeller has supervised and coordinated applications for two general grants, coordinated the employment of new faculty, acted as chairman of presidential committees evaluating various aspects of administration. He has participated in community action programs designed to

provide educational opportunities to disadvantaged citizens and helped organize the Central Wisconsin Economic Opportunity Committee.

Dr. Schmeller's dissertation was "Ambassadorial Conferences and the Problem of International Co-operation in the Nineteenth Century." He is currently revising a history book, "The Course of Europe Since Waterloo," by Hall and

Davis. He is a member of the American Historical Association and of the Society for Historians in Higher Education.

Dr. Schmeller was married to Beata Sowka, the daughter of Dr. and Mrs. Paul Sowka, Stevens Point, in 1965. The couple has one son, Rudolph, 16 months.

Dr. Schmeller is the son of Mrs. Liska L. Schmeller, Binghamton, N.Y.

Milwaukeean's prints on display in library

An exhibition of prints by Danny Pierce, Milwaukee, is on display in the library foyer of the Wisconsin State University-Stevens Point now through July 7.

Mr. Pierce is an assistant professor of art at the University of Wisconsin-Milwaukee. He has exhibited professionally since 1946 and has had his work displayed in 47 of the 50 states, as well as in Europe, South Africa, Australia, India, South America, and Japan.

Mr. Pierce studied at the Brooklyn Museum Art School and worked with Max Beckmann in painting and Gabor Petenyi in graphics. His work is included in collections at the Museum of Modern Art, the New York Public Library, the Library of Congress, the Brooklyn Museum, the National Museum of Sweden, Stockholm, and the Bibliophili National Park.

From 1959 to 1961 Mr. Pierce was artist in residence at the University of Alaska. Hired under a Carnegie Grant, he established the first art department at the University and headed it from 1961-63.

Before joining the UW-M faculty in 1966, Mr. Pierce was head of the art department at Cornish School of Allied Art, Seattle. He is the author and publisher of three limited edition books, "Little No Name," "The Bear That Woke Too Soon," and "Lies." The couple has one son, Rudolph, 16 months.

Dr. Schmeller is the son of Mrs. Liska L. Schmeller, Binghamton, N.Y.

WSU begins fall term

Sept. 11 will bring Stevens Point students back to classes as dates of importance to the nine state university campuses were announced by the Board of Regents office in Madison.

The official university calendars for the 1967-68 school year show that classes will start Sept. 7 at River Falls, Platteville, Stout (Menomonie) and at the branch campuses at Rice Lake and Rhineland Center, and Sept. 11 at Eau Claire, Cross Lake and Oshkosh as well as Point.

A registration period will precede start of classes at each campus.

Thanksgiving recess will be from Nov. 22 to Nov. 28. The Christmas and spring recess schedule are as follows:

East Chicago, Dec. 12 to Jan. 5; Eau Claire, Dec. 16 to Jan. 5; Jan. 7 and Apr. 12-13; River Falls, Dec. 22 to Jan. 7 and Apr. 10-15; Stevens Point, Dec. 23 to Jan. 7 and Apr. 12-13; Platteville, Dec. 16 to Jan. 2 and Apr. 12-13; River Falls, Dec. 22 to Jan. 7 and Apr. 10-15; Stevens Point, Dec. 23 to Jan. 7 and Apr. 12-13; Platteville, Dec. 16 to Jan. 2 and Apr. 12-13.

Final examination will be held the last week of May and commencement ceremonies will be scheduled for May 25 to June 2 in the regular campus.

The 1968 regular summer sessions will run from June 17 to Aug. 8 at River Falls, Stout, and Superior and from June 10 to Aug. 2 at the other campuses.

Snowden goes on Nigerian assignment

Dr. Terrance Snowden, WSU-Stevens Point professor of education and director of the University Laboratory School, will leave with his family in early July for a two-year assignment in Nigeria.

Dr. Snowden has been appointed Ministry Representative in the Northern Nigeria Teacher Education Project, 34 teacher training colleges in northern Nigeria. This project, begun about four years ago, is sponsored by the Ford Foundation and the U.S. Agency for International Development and administered by the University of Wisconsin.

Dr. and Mrs. Snowden and their five children will live in Kaduna where Dr. Snowden will work in the Office of the Inspector of Teacher Training. He will also travel among the 34 institutions serving as a member of inspection team boards of studies and acting as liaison with the operation of NNTEP.

His duties will also involve evaluating the methods and procedures of preparing teachers and recommending necessary improvements or research related to NNTEP programs and disseminating information on outstanding programs to the Ministry and teachers colleges not affiliated with the project.

Dr. Snowden is one of 25 educators appointed by the University of Wisconsin who will participate in the Nigerian Teacher Education Project, 34 teacher training colleges in northern Nigeria. This project, begun about four years ago, is sponsored by the Ford Foundation and the U.S. Agency for International Development and administered by the University of Wisconsin.

Changes noted for coming fall term

Many changes are expected this year at WSU-SP. Not only will there be a change in campus population, but a change in buildings as well.

Student enrollment is expected to reach 6,030, an advance of 807 from the 5,123 the previous year. In contrast, Oshkosh and Whitewater both expect 1,200, which will put them ahead of us by 3,500 and 2,300 students. Eau Claire is hoping for 6,100 students this September.

Changes to the population expansion at WSU-SP will be the addition of 900 new faculty members. Some of the new members will be filling vacancies, while others are taking on new positions that curriculum expansion has created. Some courses are being dropped completely, while new ones are planned to take their places.

The increase in students, faculty, and courses will result in changes in the buildings now on campus as the buildings are called into greater service. Some of the changes will be met with a cry of "about time," while others will only bring the growing pains and confusion.

Changes within Main are being moved from Main

255 junior high students enrol in WSU band clinic

Approximately 255 junior high school students registered on Sunday, June 25, for the first of two one-week sessions of the Junior Point Music Camp at Wisconsin State University-Stevens Point.

Another 150 students are expected to register for the second week session, July 2 to July 8, according to Leonard Smith, camp director and WSU assistant professor of music.

The students will have five hours of class instruction daily which will include band, choir,

orchestra, theory, music appreciation, instrumental sectional rehearsals, and private lessons. Other WSU faculty members participating in the camp in addition to Mr. Smith are Robert Van Noy, associate professor of music and Jack Chown, assistant professor of music.

James Floyher, Fargo, N.D., will be the band director. Stanley Noel, Kenosha, will direct the orchestras and Donald Mosert, University of Indiana, will be choir director.

Visiting faculty members in-

clude: Sigurd Rascher, Shushan, N.Y., concert saxophonist; Daniel McInch, first chair oboist with the Louisville Symphony; Ray Stahura, Ripon College, clarinetist; Jay Collins, WSU-Whitewater, percussionist; Al Perner, Pittsfield, trombonist; and Mrs. Joyce Pond, Grand Forks, N.D., flutist.

A combined band, orchestra, and choral concert Saturday, July 1 at 1:30 p.m. in the WSU Fieldhouse will conclude the first week session of the Junior Point Music Camp.

LOVELL IVES conducts high school students attending the Point Music Camp on campus last week. This week, junior high students are taking part in the camp.

GENE HARRIS, right, assisting with the National Dance Institute at WSU-Stevens Point, lends a hand of support to one of the students.

One-day conference highlights institute

A one-day dance conference will highlight the National Institute for Advanced Study in Dance. The Wisconsin Dance Council, Inc., is sponsoring the conference on dance education, Friday, June 23, at WSU-Stevens Point.

Nadia Nahum, director of the Philadelphia Dance Academy, will present the morning program, a lecture-demonstration titled "A Comprehensive Curriculum in Dance for Secondary Schools."

"Contemporary trends in Dance Education," will be reported by Gertrude Lippincott at a buffet luncheon. The afternoon session will continue with a panel discussion, "New Patterns in Dance Curricula," moderated by Robert Cunniff, dean of the School of Fine Arts at WSU-Stevens Point. Wisconsin school officials will participate in the panel discussion.

James C. Stollenbert, superintendent of schools, Merrill will discuss as a panelist "What Cultural Advantages Does Dance Offer to All Children?" and Virginia Weller, president of the Wisconsin Dance Council from Alverno College in Milwaukee, will comment on "How Can Community Groups Influence Elementary and Secondary Dance Curricula?"

Otto F. Haettner, deputy superintendent of schools from Kenosha, will speak on "A Positive Approach to Inclusion of Dance in School Curricula." Michael R. Kazar, project director, Operation Arts Arts, CCSA Agency & Green Bay will speak on "The Promotion of Dance in an Inter-Arts Program." G. C. Lloyd Schmitt, supervisor of music, Department of Instruction in Madison will speak on "The Responsibilities of Higher Education in Preparing and Certifying Dance Teachers." Edmund F. Schwan, superintendent of schools, Monona Grove, will speak on "How Can Pilot Schools be Established for Dance Curricula in the State of Wisconsin?" The panel discussion will be followed by a question-answer period. A social hour from 4 to 5 p.m. will conclude the One-Day Dance Conference.

The conference which begins at 9 a.m. will be held in the new Elizabeth Pfiffner DeBot Center on campus.

All summer school students and faculty will be admitted free to the conference. Anyone wishing to attend the luncheon must make a reservation with Mr. Frank Hatch, Assistant Director of the Institute, phone 271. The cost is \$2.20.

National Institute of dance students review details of Labanotation, a symbolic system of planned dance movements.

Oshkosh takes 1966-67 all-sports championship

MADISON — Oshkosh edged La Crosse and Whitewater to win the Wisconsin State Intercollegiate Conference all-sports championship for the 1966-67 school year, while Stevens Point finished fifth.

The title is decided on the 10 intercollegiate sports in which conference schools compete. The Titans wound up with 5 1/2 points compared with 63 1/2 for runner-up La Crosse and 62 1/2 for third place Whitewater.

The Whitewater Warhawks are followed by Plattville with 56, Stevens Point 51, River Falls 49, Eau Claire 39, Stout 1 and Superior 28.

Nine points are awarded for championship, eight for second, seven for third, and six for fourth. In case of a tie, the schools shared

points for the two or three places in which they were deadlocked. For instance, Oshkosh and Whitewater shared the conference tennis championships and divided 17 points (8 1/2 each) in the all-sports competition.

Oshkosh missed its all-sports trophy with a balanced program that produced championships in cross country, basketball, track, and golf as well as a tie for the tennis crown.

Whitewater captured the football title and shared tennis laurels. No other school figured in more than one championship.

Plattville won the swimming crown, River Falls wrestling, La Crosse gymnastics, and Stevens Point baseball.

The all-sports award is designed to encourage each school to emphasize a balanced athletic program.

Two place for Pointers on all-conference team

Stevens Point, champions of the State University Baseball Conference, placed two players on the all-conference team. Outfielder Jim Fitzgerald and pitcher Chuck Ritzenthaler, both from Baraboo, were picked to the first team by pool coaches following the 1967 season. Fitzgerald batted .333 for the conference season and Ritzenthaler won five games and lost none and did not yield a single earned run.

Point landed two berths on the team while Superior, which tied for fourth, placed three men on the team.

Superior's entries are second baseman Jim Sewall, outfielder

Joe Miller, and pitcher Chuck Nelson, who with Ritzenthaler forms the two-man mound staff on the honor team.

Oshkosh put two players on the team with Rick Birkhofz at shortstop and third base and held at shortstop.

Rounding out the all-conference selections are first baseman Ron McIntyre of River Falls and catcher Bob Berzwitz of Whitewater.

Sewall won his spot in the hottest competition for any berth on the team. The 5-foot-3 Superior dynamo edged out three other candidates. His .461 average leads this select group.

Sewall also earned all-conference honors in basketball while Berzwitz is Whitewater's all-league quarterback and record-chattering passer who led the Warhawks to the NAIA football final last fall.

Besides the two sophomores, the team includes six seniors and two juniors among the 10.

Seventeen awarded '67 baseball letters

Seventeen players were awarded baseball letters by coach Jim Clark following one of WSU's most successful baseball seasons which included a WSU Conference championship and a 13-6 overall record.

The Pointers won the WSU title with a balanced program that produced championships in cross country, basketball, track, and golf as well as a tie for the tennis crown.

Whitewater captured the football title and shared tennis laurels. No other school figured in more than one championship.

Plattville won the swimming crown, River Falls wrestling, La Crosse gymnastics, and Stevens Point baseball.

The all-sports award is designed to encourage each school to emphasize a balanced athletic program.

LITTLE MAN ON CAMPUS

Activities of servicemen

Students enrolled in the Aerospace Education Workshop at Wisconsin State University-Stevens Point flew from Wausau to Minneapolis on a Navy C54 to tour the Navy Air Base, the Federal Aviation Agency offices, and Northwest Airlines, June 20-22. The workshop, which is under the direction of Dr. Hildegard Kuse, is designed to update teachers by providing current information about aviation and space fundamentals, astronomy, and meteorology.

Robert Priebe

Robert H. Priebe, 23, a 1966 graduate of WSU-Stevens Point, has been assigned to the 12th Data Processing Unit, U.S. Army, South Vietnam, near Tan Son Nhut.

A native of Eagle River, Priebe majored in English and is now receiving a B.S. degree.

Priebe, a computer programmer, entered the Army Aug. 24, 1966. He was assigned to the Presidio of San Francisco, Calif.

David Stremmer

Private David E. Stremmer, 23, of Athens, has completed eight weeks of advanced infantry training at Ft. McClellan, Ala.

A 1967 graduate of Wisconsin State University-Stevens Point, Stremmer majored in history and geography, receiving his B.S. degree in the School of Letters and Science.

John Nelson

Army private John D. Nelson, 26, a graduate of WSU-Stevens Point and a native of Wisconsin Rapids, has completed his third straight year of service in the infantry training at Fort Ord, Calif.

Nelson, who received his B.S. degree in 1964, majored in economics and worked in electronics and physics in England.

Eugene Chauvin

Private First Class Eugene P. Chauvin III, 22, a 1966 graduate of WSU-Stevens Point and a native of Merrill, has completed his advanced armor training at Ft. Knox, Ky.

Chauvin received his B.S. degree for WSU, majoring in history, Phi Epsilon Fraternity.

Whiffen, McGinley take honors for track

Larry Whiffen, a junior from Milwaukee, and Dick McGinley, a senior from Port Edwards, received honors on the WSU track team as announced by Coach Don Hoff.

Whiffen, who established two new school records this season, was chosen the most valuable player on the team. He set records in the shot put with a loss of 46' 11" and in the javelin with 192' 7".

Art prof assists in puppet study

Richard Schneider, assistant professor of art at Wisconsin State University-Stevens Point, is assisting in a puppet study at the University of Wisconsin-Milwaukee.

Schneider began a puppet study last year, but it was interrupted by a sabbatical year at the University of Wisconsin-Milwaukee.

'66 graduate receives M.A.

Anne Graver, a 1966 graduate of WSU-Stevens Point, has been awarded her Master of Science degree from the Graduate School of Library Science, University of Illinois at Urbana.

Miss Graver, a native of Stevens Point, has accepted a position at the University of Missouri Library, Columbia, Mo.

FORESTS CAN'T FIGHT FIRES

Every litter bit hurts YOU

Trash! Litter! Empty! Don't leave them overboard! Carry a littering in your seat. Hold everything for the first trash container on shore or take it home for proper disposal. Remember—our waterways belong to all of us. Litter pollutes the waters, fouls purifiers, spoils fishing fun and costs tax dollars! Every litter bit hurts... YOU. America's beauty is your duty. Please help.

KEEP AMERICA BEAUTIFUL
