

National Resources Association Will Meet In Stevens Point

The 17th Annual Meeting of the Citizens Natural Resources Association of Wisconsin will be held Sept. 30-Oct. 1, 1967, at Wisconsin State University, Stevens Point. Both professional and informal talks to be held known conservationists will be presented.

On Saturday (9:00-11:00 a.m.) at one mile west of Babcock, Wisconsin a field trip will be taken to the Sand Hills Life Demonstration Area. Also a canoe trip on the Plover River is planned by the Sierra Club, leaving the University Classroom Center at 9:30 a.m. Saturday afternoon, Dr. James Newman, of the WSU Department of Natural Resources, Mr. Philip L. Archibald, supervisor of the Nicolet National Forest, and Mr. Charles H. Stoddard, owner of a tree farm near Minong, Wisconsin, and since 1961, head of the Bureau of Land Management Department of the Interior, will speak in the Classroom Center on the relationship between "recreation and conservation."

Following the speech, two conservation films will be shown. A fire-fighting lecture at Buho Park at 8:00 p.m. on "Caring the lower Wisconsin River" will be presented by Mr. Robert K. Scaries of the WSU Department of Biology.

On Sunday morning in the Classroom Center, Mr. Les Woerpel, Secretary of the Board of the Wisconsin Wildlife Federation, will discuss the "Water Policy Controversy" which is of major local interest.

Dr. Newman will present a film on hydrology of the Little Plover River followed by a field trip to the Little Plover to inspect hydrological devices.

The public is invited to these affairs. Local chairman for the meeting are professors Frederick C. Baumgartner and George C. Becker of the University, who may be contacted for further information.

Art Works Sought For Anthology

Intercollegiate Arts Affiliated is currently compiling an anthology of art works being produced on campuses.

It is now accepting entries for its forthcoming national publication in the fields of poetry, sketches and graphic arts, photography (max. 4x6), and film criticism (max. 300 words).

All applicants will receive notice of acceptance or rejection by Nov. 6. Only entries accompanied by a self-addressed envelope will be returned. Winners in each field will be awarded a subscription to the cultural journal of their choice.

All entries should be sent to Intercollegiate Arts Affiliated, Box 658, 5541 S. Everett, Chicago, Ill. The deadline is Oct. 31, 1967.

Placement opportunities

Representatives from the U. S. Navy will visit the campus on Tuesday and Wednesday, Oct. 3 and 4, to interview Seniors who may be interested in Officer Candidate School following graduation. General information may be obtained from the representatives at a table located in the University Center adjacent to the University Store. Students desiring an interview for additional information may sign up for one at the Placement Office—USE Main. This program is open to men of any major. Brochures for both men and women are available. Freshmen, Sophomores, and Juniors may contact these representatives at any time between 10 a.m. and 4 p.m. while they are on campus.

For the week of Oct. 9-13 the following interviewing schedule has been made:

Oct. 10, 11—From 8:30 to 5 p.m.—Connecticut Mutual Life Insurance, Madison. This company will interview Seniors who are interested in sales management training programs or sales opportunities in life insurance. Some part time employment is available for students while attending the University. Brochures and applications are available in the Placement Office.

Oct. 11, 12—Representatives from the Marine Corps Officer Selection Team will interview interested Seniors or others on Wednesday and Thursday concerning Officer Candidate School in this service. The General Information booth will be available at the University Center as well as opportunities for a personal interview at the Placement Office.

Oct. 12—From 9 a.m. to 4 p.m.—Wilson and Co., Albert Lea, Minnesota. This company has special interest in Business Administration and Economics majors at this time. Those with other majors may sign up if interested in future employment opportunities which will be reported later.

Oct. 10—8 a.m. to 5 p.m.—Dun and Bradstreet, Inc. This company is interested in graduates with majors in the following areas: Economics, Business Administration and other Letters and Science majors. Brochures are available at the Placement Office.

Home Ec Plans Second Program

The second in a series of educational programs, "Updating 67," sponsored by the home economics department, will be presented Monday, Oct. 2, from 7:20 to 9:30 p.m. in Room 109, Main.

"The Generation Gap" is the title of the program exploring the problems of parents and teenagers. Dr. Gordon Shipman, chairman of the sociology department, will be the guest speaker. The discussion will touch on teenage problems, communicating with the teenager, and sex education.

The program is free of charge, and open to all community residents. Students responsible for the program are Peggy Burns, Marilyn Hanson and Kleo Steuber.

The series began last Monday with a program on "New Fabric Know-How" presented by Mary Lynn Zahn, Mary Keeney and John Cirriacs.

Gourmet cooking, "Exploring Cultural Foods," is scheduled for Oct. 9. This program will feature the specialty dishes of Mexico, Poland and the Orient and their relation of the culture and customs of these areas.

"Lured by Advertising—Who?" on Oct. 16 will be a discussion of misleading advertising and deceptive packaging and give hints to the consumer who is looking for a bargain.

"Party Ideas for Young and Old" on Oct. 23 will include a variety of entertainment suggestions suitable for all age groups. Topics to be presented include games, centerpiece ideas and table settings.

Also during the month of October, the Home Economics department will present a series of three television presentations on WAOV-TV, Wausau. These will include "The Art of Clothing," "The Case of the Disappearing Breakfast" and "Tips for Tom Turkey."

Cinema Art Series Opens October 6

The Cinema Art Series at WSU-Stevens Point will present seven foreign films during the next three months.

The first semester scheduled begins Oct. 6 with the showing of "My Name is Ivan," a Russian movie with English subtitles. It is a story of a 12 year old boy whose mother and sister were killed in World War II and based on a novel by Vladimir Bogomolov.

Each movie will be presented in the Wisconsin Room of the University Center on Fridays at 3 p.m. and Sundays at 7 p.m.

Other scheduled films are "The Letter That Was Never Sent," shown in Russian, to be produced Oct. 13 and 15; "Fires on the Plain," Japanese, on Oct. 27 and 29; "The Cranes Are Flying," Russian, Nov. 10 and 12; "Yano," Mexican, Dec. 1 and Dec. 3; "One Summer of Happiness," Swedish, Dec. 8 and 10; and "Stars," Bulgarian, Dec. 15 and 17.

The public has been invited to attend the movies by the series planners.

DR. JIMMIE FRANKLIN

FOCUS

By KAREN MICHALSKI
Dr. Jimmie Franklin, Assistant Professor of History, recently completed his degree as Doctor of Philosophy at the University of Oklahoma in August, 1967.

In reflecting upon the term "university" recently given to the nine state colleges, Dr. Franklin believes that we have to expand our concepts of a "university."

Music Workshop Will Organize

A meeting to organize a chamber music workshop club will be held Sunday, Oct. 10, at 3:30 p.m. in the Nicolet Marquette room of the University Center at WSU-Stevens Point.

The club, which is being organized and directed by Miss Margery Aber, WSU-Assistant Professor of Music, is open to all interested persons in Stevens Point and the surrounding areas.

The purpose of the club is to provide an outlet for individuals who are interested in playing chamber music for personal enjoyment.

According to Miss Aber, both amateur and professional performers on all instruments, string or wind, and piano and those interested in voice are welcome to join the group.

Miss Aber explained that the club is planned to be an outlet for musical talent regardless of age, years of study or experience. "We hope to provide a place and an audience in true workshop style for any one who desires this kind of experience," Miss Aber said.

"We also hope to expand knowledge of chamber music literature at our meetings," she added.

Members of Delta Omicron International music fraternity for women, will serve refreshments at the meeting.

Miss Aber said that those wishing to play chamber music with others after the meeting should bring music of their choice and their own instruments.

Poetry Contest Announced

The National Poetry Press has announced its Spring Poetry Competition is now open to all college students.

There is no limitation on form or theme, but each poem must be typed or printed on a separate sheet, and each sheet must bear the name, college, and home address of the student.

All entries should be sent to the Offices of the Press, National Poetry Press, 320 Schuy Avenue, Los Angeles 24, Cal. The closing date is Nov. 5.

UCB Receives New Name

With the beginning of a new school year, the University Center Board became the University Activities Board as a result of a re-evaluation of its purposes by members.

According to Mark Deadman, programming director, the new name is more in line with activities the Board sponsors which are not confined to the University Center proper, but are all-campus in scope.

The Board, which consists of an executive board and eleven subsidiary committees, has created a Public Relations committee to work with the two resident hall complexes to further its primary function of all-campus programming.

This programming reaches specific interest groups and the campus at large through events in a wide variety of areas (cultural, recreational and social).

While the programming may or may not be selective in appeal, it is not selective in participation but is open to the whole student body.

The board is also designed to be an educational experience for its members by providing them with situations which foster and develop qualities of leadership and co-operation.

Medford Curriculum Will Be Liberal Arts

A curriculum has been established for the Medford branch of WSU-Stevens Point, scheduled to be opened in the fall of 1969.

It will offer liberal arts training in a two year program, with course credits that can be transferred to other state institutions of higher learning when students decide to complete their degree work.

Russell Oliver, who will be branch campus dean, said emphasis will be placed on giving well-rounded education to persons going into the teaching profession.

Mr. Oliver reported the proposed class offerings are being used to plan facilities where the courses will be taught. He said the arrangements include construction of several new buildings to what is the Taylor County Teachers College campus.

The dean is getting assistance in his planning at regular meetings with the heads of the various Wisconsin State University branch campuses. Mr. Oliver said each meeting is devoted to group discussions in which the deans discuss the future of all four branch operations.

Church Services

NEWMAN CENTER
Monday—Friday 11:45 a.m. and 4:45 p.m.
Saturday 7:30 a.m.

Draft Counseling Center Motives Investigated

By GUY ORCUTT
Recently many students were informed of the Stevens Point Draft Counseling Center through a flyer entitled "Notice-Students and Other Men of Drafting Age." Any student who reads this flyer and looked forward to a campus draft resistance center may be in for a disappointment.

The draft flyer was passed out at the food center lunch line and other campus spots along with a leaflet titled "Vietnam." The Vietnam leaflet was put out by the Stevens Point Vigil for Peace in Vietnam.

Since the two flyers were handed out together, one would expect that the Point Draft Counseling Center and the Stevens Point Vigil for Peace in Vietnam are connected.

This is not the case. At the Counseling Center's Headquarters, reporters talked to Father Hall of the Canterbury House who is one of the founders of the Counseling Center. He said that the Point Draft Counseling Center is for the people who will work for the Counseling Center, not on the Vigil, there will be no connection between the two groups.

Furthermore, the Counseling Center is different than the Vigil because it will offer no political or moral opinion. The Counseling Center will make no attempt either to discourage youths from joining the military, or to encourage them to resist the draft.

Finally, the Counseling Center will present only legal alternatives to the draft. For instance, it will not assist youths who wish to escape to Canada.

Here is an official statement of Counseling Center Policy: "We of the Stevens Point Draft Counseling Service feel that many young men of draft age do not know their rights under the Selective Service Act. Therefore we are making available all the information we have on draft alternatives in the hope that draft age men may benefit from it."

"Although we will counsel you on any of the legal draft alternatives—the final decision of which alternative you choose rests with you."

"For counseling of either religious or a nonreligious nature."

Call or write: "Canterbury House, 2224 College Ave. Tel. 344-7634."

According to Morris Wilhelm of the Political Science Department, "Our concern is for the young man." The Council is hoping to help end "the bewildered attitude among many young men."

The Counseling Service was founded on an informal basis, with no official list of officers or members, and with no set hours. Father Hall or his wife are usually available at the Canterbury House.

Father Hall acts, to an extent, as spokesman for the group. Melvin Bloom of the Foreign Language Department is one of the principle founders of the group. Other members include Mr. and Mrs. Morris Wilhelm, David E. Blank, also of the Political Science Department, Mrs. Maxine Burruss of the English Department, Mrs. Jane Missy, Jerry Butler, and Jack Lindberg. Funds for the service come from members' pockets or from contributions.

The fact that membership consists almost entirely of faculty members or wives of faculty members, with few students, indicates that the service is not interested especially in college students. Council members expressed particular interest in helping the high school student who may not see that Army, Navy or Air Force.

In short, the Point Draft Service is a group of people who feel that complete information on the Selective Service Act is hard to get, and that someone should provide such information. As a group they offer no opinion on anything.

In the next issues of The Pointer, the Stevens Point Vigil for Peace in Vietnam, which offers an opinion against the war, will be examined. Also, to be considered are certain individuals of campus who have strong opinions on the war in Vietnam, and on war, peace, and the draft in general.

As an assistant director, Mr. Johnson will handle the High School relations and do extensive traveling for WSU to inform prospective students of the academic offerings here.

He is a native of Dane County who attended St. Olaf College, Northfield, Minn., and the University of Wisconsin where he received a master's degree. Mr. Johnson did post-graduate work at the University of Louisville, Ky., under a General Electric Fellowship. Before coming to WSU, he was guidance counselor from 1960 to 1966 at Wisconsin Rapids Lincoln High School.

Enrollment Figures At WSUs Released

Nearly 51,000 students are attending the nine Wisconsin State Universities, 21 branch campuses, the board of regents office in Madison reports.

Preliminary figures show a total of 50,899 students, said Eugene R. McPhee, Director of State Universities. This is 6,645 or 15 per cent more than last fall's official count of 44,044.

The final 1967 enrollment figure is expected to be about 51,000, within 1 per cent of the estimate of 51,385 used in computing the 1967-68 budget, McPhee said.

The students enrolled include more than 16,000 entering freshmen, very close to the estimated number.

Oshkosh remains the largest State University, with an official count of 9,261, a 15 per cent increase over last year. Whitewater, second in size with 8,325 students, recorded the greatest increase, with 1,521 students more than last fall.

Eau Claire is third in size, with 6,320.

Following are the preliminary enrollment figures reported by each university, with increases over last fall:

Oshkosh 9,363, up 1,096 (13 per cent); Whitewater 8,525, up 1,521 (22 per cent); Eau Claire 6,320, up 994 (19 per cent); Stevens Point 5,900, up 777 (15 per cent); La Crosse 5,091, up 977 (13 per cent); Platteville 4,590, up 400 (10 per cent); River Falls 3,630, up 86 (2 per cent); Superior 2,966, up 257 (9 per cent).

Foreign Students

cal chemistry courses, which are taught only at the college level in the United States.

Hong Kong, with an area of 400 square miles and a population of 4,000,000 people, will soon be facing a population crisis.

Charles says that birth control practices have not been too effective, for the average size of a family still continues to be about eight. However, there is still some hope that stricter birth control methods will help to alleviate the problem in the near future.

Because drinkable water is so precious back home due to its scarcity, Charles continues to be amazed at the usage of water in Stevens Point.

At home Charles spent his spare time swimming, hiking and playing soccer. But here he is very anxious to try out deer hunting since he has never hunted before.

"Many of the older people in Hong Kong do not have any formal religion as people do here," he remarked. However, because of the large number of Catholic High Schools, many of the younger generation are becoming Catholics.

After graduation, Charles plans to continue his studies in organic chemistry and then to return home to teach at the university level.

Charles pointed out that during the last two years in Hong Kong High School the student can take organic and physical chemistry courses.

"THE EDGE" performs at the Sigma Pi dance last Friday night which kicked-off Greek Week.

The Greekvine

Alpha Phi Omega

The brothers will be going to the State Convention that will be held in Madison on Oct. 7 and 8.

Nine brothers are giving Boy Scouts from Tripp 234 a monthly retained tour, rides to and from their Scout meeting each Monday night.

Seven brothers are serving as Neighborhood Commissioners.

The Used Book Exchange will continue until Oct. 13 in the tunnel.

A display is scheduled for the Pointers Jubilee and a paper drive will be held on Oct. 23.

During homecoming the brothers will run the Queen's Election, referee the games, and have an Alumni Banquet.

Alpha Phi

Alpha Phi started the semester with a rummage sale and fish fry on Friday, Sept. 22, and a car wash with the Delta Sigs on Saturday, Sept. 23.

Four officers were filled for the rest of the year: Secretary, Lori Weber, Treasurer-Sandra Tysen, Assistant Treasurer-Shon Apfel, and Pledge Trainer-Karen Pohl. Nancy Olson was appointed Rush Chairman.

Plans have begun for Rush, Greek Week, Pointers Jubilee and Homecoming.

Alpha Phi will meet on Monday evenings this semester due to Tuesday evening classes.

Mary L. Huben, Rudersdorf, Gerry Campus Snow, Pat Barry, Fogarty, Anita Knacksk Kulla, Shirley Dickson Schmidt and Marguerite Vignas Wundrock were Alpha Phi who were married over summer vacation.

Psi Delta Psi

The Psi Delta booth at Pointers Jubilee will feature a carving table where anyone may come and carve their name in the top.

The Psi Delta-Tek Greek Week car wash netted \$4.50 for St. Michael's Hospital.

A car wash will be held at the DX Station on Main Street, Saturday, Sept. 30, from 9 a. m. to 5 p. m. The Psi Dels will also be selling boxes of chocolate covered mints for 50 cents per box within the next week.

Tau Kappa Epsilon

During the last week in August, Ed Neuhauer and Phil Kallias represented Epsilon Nu Chapter at the International Conclave held at West End, Grand Bahama Island.

John Leich, a Tau Kappa from Northland College (Kappa Epsilon), has transferred to Stevens Point and is now affiliated with the local chapter.

Dick Scheal, who last semester was nominated for the Typical Tele Award, has been chosen one of the top ten International Typical Teles.

This year Epsilon Nu Chapter has been awarded third in the nation for their service project.

No state tax funds are used for construction of the residence halls, dining halls and student centers at the Wisconsin State Universities. Construction bonds are repaid from receipts from students.

Las, Saturday the Delta Sigs and the Alpha Phis washed cars at the Spur Gas Station as part of the Panhellenic-IFC Service Project.

On Sunday, the Delta Sigs had a date party and went on a canoe trip at Waupaca.

No state tax funds are used for construction of the residence halls, dining halls and student centers at the Wisconsin State Universities. Construction bonds are repaid from receipts from students.

New Admissions Officials Named

A new director and assistant director of admissions have been appointed at Wisconsin State University-Stevens Point.

They are John A. Larsen and William A. Johnson, respectively, who formerly served as admissions counselors.

Their promotions were included in a WSU announcement that the admissions office has been separated from the registration and records office headed by Gilbert W. Faust.

Mr. Faust, who will continue to serve as registrar, said the change was made to even his staff's workload created by rapidly increasing enrollment.

The admissions personnel also will be made a part of the student affairs division and be in closer contact with housing, financial aids, and orientation policy making.

Mr. Larsen, a native of Oshkosh, came to WSU in 1961 as both a counselor and instructor of physical education. He recently spent a year doing work at WSU-La Crosse, Stout State University-Menomonie, and the University of Wisconsin.

Mr. Johnson, a native of Wausau, was principal of Auburndale High School before coming here.

As an assistant director, Mr. Johnson will handle the High School relations and do extensive traveling for WSU to inform prospective students of the academic offerings here.

He is a native of Dane County who attended St. Olaf College, Northfield, Minn., and the University of Wisconsin where he received a master's degree.

Mr. Johnson did post-graduate work at the University of Louisville, Ky., under a General Electric Fellowship. Before coming to WSU, he was guidance counselor from 1960 to 1966 at Wisconsin Rapids Lincoln High School.

He is a native of Dane County who attended St. Olaf College, Northfield, Minn., and the University of Wisconsin where he received a master's degree.

WSU Conducts Grading Survey

Recent institutional research at Wisconsin State University-Stevens Point indicates first year instructors tend to give higher grades than veteran educators.

However, it usually takes only one year before the instructors tighten their standards, reports Dr. William Clements, director of WSU Institutional Research.

He recently completed an extensive survey of the geography department grading system and also found that after their first year of teaching at WSU, the entire geography faculty is consistent in scoring.

Dr. Clements cited department chairman Robert Anderson for leadership in assuring the consistency.

The data provided answers for Mr. Anderson who wondered why freshmen in 1964-65 received substantially lower grades than freshmen in 1963-64.

Although Dr. Clement

7 Buildings Planned

Seven new buildings to be constructed within the next two years at Wisconsin State University-Stevens Point will cost about \$12.5 million, according to Raymond Specht, campus planning director.

He announced Monday that final plans are being prepared for buildings on the learning, resources center, fine arts building, and physical education addition. Construction on each will begin early next year to assure completion by the time classes begin in the fall of 1969.

Currently under construction is a \$955,000 residence hall which will face Maria Drive on the north end of the campus. The basement has been completed for the structure to serve 270 students on four floors.

In the program statement planning stages are a second classroom center, maintenance shop, and central store. Mr. Specht said bids on these buildings probably will be opened later in 1968.

He explained the new facilities will house many classroom activities now held in Main Building; however, no plans exist to remove the 73-year-old landmark from the campus.

Earlier this year reports were made in Madison that the three-story brick building would be demolished by the early 1970s. The \$1.5 million physical education building project will include additions on the west and north of the existing athletic center.

The \$3.69 million fine arts building and \$3.4 million learning resources center will be located between Portage and Franklin Streets, on an area where State Street now divides the other two routes. A large, landscaped mall will be created between the two buildings.

Mr. Specht said the fine arts building will be two stories with two auditoriums atop the main section. In contemporary design, it will have one music auditorium to seat 350 persons and a similar facility for drama to seat 400 persons.

The learning resources center

will be six stories, including the ground level, and be the tallest building on campus, according to Frederick Krempfle, dean of the center.

He said the present center would undergo a \$327,000 remodeling job and be put into use either as classrooms or administrative offices.

The new building will house instructional materials plus books and periodicals to "help students learn and instructors to teach," he advised.

Audio-visual equipment and a number of documents will be kept on ground level; general circulation, reserve, and reference materials on second floor; offices and periodical collections on third floor; and basic stack collections and study facilities on the three remaining stories.

Planned are several hundred private study booths, small group study rooms, lounge-type reading and study areas, centralized catalogues, elevators, open stacks in the library, and an instructional television center.

Dean Krempfle said the modern-type design of the building will include integrated glassed walks on the third level and tower-like areas extending three more stories skyward.

The exact locations have not been determined for the \$2.44 million classroom building, \$336,000 central stores where university supplies will be distributed, and the \$318,200 maintenance building. Also, the size and designs of the structures have not been decided.

Program statements however have been formulated for each of the three buildings, listing by rooms all of the specifications. Each program includes about 150 type-written pages.

Mr. Specht said the completion of the school buildings will not mean an end to construction at WSU. Before the 10,000-student leveling-off enrollment is reached by the early 1970s, he expects "more of every kind of building we have now."

Old Heating Plant Will Be Torn Down

The old heating plant stack, landmark at WSU-Stevens Point, is coming down to make way for a landscaped mall connecting Main Building and the Learning Resources Center.

Ray Specht, director of campus planning, said the improvement will be one phase of a \$165,067 demolition and improvement project to include re-wiring and installation of modern lighting in the University Laboratory School and razing of the entire old heating plant complex.

Work began Monday, Sept. 25, and necessitated the closing of some parking areas behind the Main Building and be used for storage and Civil Defense purposes.

Work to go will be the former boiler system annex, now used as a paint shop. It will be moved to the corner of Maria and Illinois to stand near a new 40 by 72 steel structure assigned to campus craftsmen as their temporary center.

The carpenter's shop will be leveled to make room for incinerators to lift the two huge boilers from their foundations.

An Oklahoma firm has purchased the 15 by 12 by 20 foot boilers which weigh about 27,000 pounds apiece. After the boilers are hauled away by flat-bed semi trailer trucks, the boiler room and smoke stack will be razed.

Mr. Specht said the major demolition work will be completed by Jan. 1. The patio-type re-wiring and level of the landscaped later in 1968.

He reported that the underground coal bunkers will be the only part of the complex to be retained. The space will have an entrance from the Main Building and be used for storage and Civil Defense purposes.

Throughout the period the buildings will be under destruction, electricians will be at work re-arranging the underground electrical system which will pass through the area.

The University Laboratory School re-wiring will provide for the removal of 300-type fixtures and the installation of direct lighting.

Anson Mount Speaks On Playboy Morality

Playboy Magazine's Public Affairs Manager, Anson Mount, talked on Hugh Hefner's "Playboy Philosophy and the New Morality" at a University Christian Movement sponsored program last Monday night.

A film, "Would You Believe the New Morality?" presented Mr. Hefner's discussion of the changing attitude toward morals today. Hefner stressed that the Playboy Philosophy was a humanistic, pro-religion, but anti-church establishment.

Father Jablonske, of the U.C.M., introduced Mr. Anson Mount after the half-hour movie. Father Jablonske noted the large audience and commented that 60 per cent of Playboy readers were men and 40 per cent women.

Mount, a former religious editor of the magazine, was quick to point out that the moral revolution was not only a sexual revolution. The speaker claimed that many people are hung up on the idea that morals concern only sexual activities. He said when one hears of a "morals charge" sex is thought

of before one considers stealing, or poor business ethics.

The Playboy Philosophy, written (and still written) by Hugh M. Hefner states that morals should always be in the best interest of man. Personal morality should not be predicated or governed by law. Morality should be the exercise of personal responsibility. Mr. Mount pointed out that attitudes and morals change while legislation governing them remains the same.

Mr. Mount claimed Playboy does not support recreational sex as the most rewarding, but he did seem to think that sex without love is better than no sex at all. Playboy Philosophy admits that in the context of love and a lasting relationship sex is a most rewarding experience.

Mount supported the idea that the morality of the sex act depends entirely on the situation. Marriage does not necessarily make sex, moral. He claimed that any casual sex is moral if it is responsible. When pressed, he said on the point, Mount thought "casual sex" was a type of

WILLIAM EVJUE Scholarship Winners include (from left to right) — Helen D. Johnson, Ken Falkinham, Leon Liegel, and Sandi Last.

Students receive scholarships

Four WSU-Stevens Point students were awarded \$100 scholarships recently from the Evjue Foundation.

The scholarships, based on academic achievement, co-curricular involvement between two people, recreational sex on the other hand has little or no involvement of relationship — sex for sex's sake.

Our previous generation had liberal attitudes toward sex yet there were feelings of guilt. Today, attitudes toward sex are about the same yet there is not the guilt complex, he claimed.

Religious ideas toward human rights and social justice have been updated, but in the area of personal sex morals the church has resisted change. Mount pointed out that the church is rarely the headlight, and more likely the tail-light in such matters of change. The young have abandoned the church because of its basic immorality. He claims that the church values dogma more than people.

Mr. Mount observed that Christianity is basically humanistic and the Church most recently has followed and will continue to follow a more liberal, truly humanistic approach to man's morals concerning sex.
