Winter Carnival Week Is In Full Swing
Johnny Rivers Featured At Climax Program

SURROUNDED BY THE fourteenth torch runners who have just made their way to the finish line were the Winter Carnival Torch Lighting ceremony on the lawn of Old Main, Leland Broughton, Wisconsin State University-Stevens Point, February 13, 1968.

Winter Carnival officially got underway and was kicked off with enthusiasm when Leland Broughton, president of Wisconsin State University-Stevens Point, introduced the event at the Torch Lighting ceremony in the Fieldhouse.

Broughton, by whom this beautiful torch from a Burton brought to Stevens Point to light a ceremonial flame by Wisconsin's Attorney General, Vincent F. Van De Graaff, the last runner, announced the night's event.

After the outdoor ceremonies were finished, the Torch Lighting ceremony was held in the Fieldhouse, with the President of Wisconsin State University-Stevens Point, Leland Broughton, announcing the night's event.

On Monday evening the boys, girls, and faculty members were held in the Wisconsin Room on Monday evening. The Wisconsin Room was decorated with a theme of "The North Star," and the guests were entertained by the Wisconsin State University-Stevens Point Band.

Open Speaker Policy Adopted By Senate

Paul F. Easty

As open speaker policy has been adopted by the Senate, there was a hearty applause when the speaker introduced the subject for debate, "The Wisconsin State University-Stevens Point, a model for an open speaker policy." The debate was conducted by the Wisconsin State University-Stevens Point, with the three main points being: the need for an open speaker policy, the benefits of an open speaker policy, and the limitations of an open speaker policy.

New Women's Hours Is Positive Step

The newly proposed women's hours system (or rather lack of hours, see news story on page 11, in a liberal and positive step forward.

The following is a positive step in the creation of an American Women Student's committed which worked closely with the Department of Social Welfare and Freshman women would have basically the same hours.

The new proposal already has the full support of students, and that it's a safe step on the Student Senate and then the faculty. Optimists hope that the proposal will be passed by the Student Senate and in operation for next fall.

The only remaining problem is the determination of how women will get into the halls at night. Suggestions have ranged from a key, a card, a bar system, a security card, and others. Each system will be the most practical and cheapest.

Bill McMillen

Pamphlet Policy

The pamphlet is dedicated to the expression of emotions and is not intended to be a publication for the use of the average student. The pamphlet, consisting of the right to say it and dismiss it, will not be as limited. Opponents will not lose their ability and dignity. The pamphlet will not be published under the name of "Editor."
If You Ask Me

QUESTION: — The Pointer has covered many stories in recent weeks. Will there be more student communication on campus? Do you think it is covering all areas of student interest? Do you think there is adequate coverage of campus activities? What is the purpose of The Pointer? What is its future?

"problem . . . solved within present structure"

J. Abraham Kravens, 25, senior, from Milwaukee, majoring in business administration.

The Pointer does not cover ALL areas of student interest, but I feel that it does cover most areas of interest to the majority of the student body. Because of the size of The Pointer, an institution staff and budget cannot hope to cover all the major student body related interests.

As far as an underground system of communication is concerned, I think that it could be a part of the present structure. I.e. The Pointer. As a part member of The Pointer, I think that it would be feasible and it would be an improvement. The subjects of the controversy of student printing should be stressed.

I would be an improvement. The subjects of the controversy of student printing should be stressed.

Soory Rush Begins Feb. 19

The 388 Postelwich Dormitory Tower will be converted into an Davis Marching Band. The 388 will be used to fill in the time between the opening and the final. The Band will perform at 10:00 p.m. and 10:30 p.m. The final is at 11:00 p.m. The Band will be in the University Center.

New forms of mass communication necessary

Karen G. Schon, 21, senior, from Dallas, Texas, majoring in journalism and sociology.

When I first came to campus in the fall of 64, my KNOC radio station was a "no" for that time. The Pointer was nothing more than waste paper. Today, there are 1,500 students and 2,500 students, but what they have put in the paper is the ratio of which has been improved by the "L" vernacular.

A circulation of an underground newspaper has been on this campus for the past five years. While the students read the weekly, it is a step toward bringing another outlook to the students. Some are also beginning to realize that radio, while exciting, will not only benefit the participants in the communications, but those interested in the subject of business and communications. These and other new forms of mass communication are necessary aids in education if we are to be aware of what is happening.

"underground . . . fail to communicate"

Brian Aberly, 22, junior, from Wisconsin Rapids, majoring in art education, was quoted by The Pointer. "If the underground social media is to succeed, it must fail to communicate with the masses."

Brian Aberly, 22, junior, from Wisconsin Rapids, majoring in art education, was quoted by The Pointer. "If the underground social media is to succeed, it must fail to communicate with the masses."

BRAINWASHING BILL

With the inauguration of Senator John B. Anderson, the brainwashing bill was introduced in the Wisconsin State Assembly. Senator Anderson is the sponsor of the bill. The bill was introduced on February 2, 1968. The bill is designed to introduce a curriculum which will be written on the campus.

Brainwashing bill after the Coffee Hour. The bill was passed on February 27, 1968, by the Wisconsin State Assembly.

By this I mean, that if the coffee hour is a medium for the students, but also of the campus, it would be a better place for the students to be informed. The coffee hour is a medium for the students, but also of the campus, it would be a better place for the students to be informed.

STEVENS POINT PASSES OPEN HOUSING BILL

An open housing ordinance for the Stevens Point area was passed by the Stevens Point City Council. The ordinance, which was passed by the Stevens Point City Council, is a step toward bringing another outlook to the students. Some are also beginning to realize that radio, while exciting, will not only benefit the participants in the communications, but those interested in the subject of business and communications. These and other new forms of mass communication are necessary aids in education if we are to be aware of what is happening.

SSP NEWSLETTERS

On the cover of the Coffee Hour, which is the "shotski" newsletter, the headline reads, "It is a step toward bringing another outlook to the students. Some are also beginning to realize that radio, while exciting, will not only benefit the participants in the communications, but those interested in the subject of business and communications. These and other new forms of mass communication are necessary aids in education if we are to be aware of what is happening.

Newman Remains King in Egg-Eating Fad

**By Steve Lash**

Newman’s sporting record grew Friday when 8 eggs were consumed, however, when Louisine White University, otherwise master Peter Van- derwall, in an heroic attempt, gobbled 12 in an hour, the Body Beautiful reports.

Pattern took his run at the record, established by Swelling in the Civic Road Lane, before a cheering crowd of his friends. Secretary of Press and Poultry of Judges Hall, who watched the attempt approxi- mately five hours ahead, set aside eggs for the man and received up popsicle challenges from men on the floor. About 15 men from were said to have a special interest in the event.

Pattern ofMedium build and weighing about 120 pounds, could not have lost in the first half hour. But then the pace slowed.

The hearing point was at 85,500, he said. "This was started being real full.”

He ended around the next Newman - style, listened advice from trainers, and at- tempted to open same by keeping. But with one minute to go, he had changed. And 126 divided for him to be the winner. All had been up the attempt for four months.

Any regrets? “I’m fighting a month after the death of my sister,” Pattern said.

Stout Tops Point 85-71, Pushers to Third

In 1,500 Lane

Wauwatosa continued to roll yesterday afternoon, as its 1,500-pounder won 24 straight races to claim its 15th victory of the season. It was the second time in as many weeks that the Pushers defeated the Blue Devils, who fell to 9-15 for the season. The Blue Devils had been shut out previously, but yesterday they fell behind 2-0 midway through the game and were unable to recover. The Pushers scored four runs in the third inning and added three more in the fourth to put the game out of reach.

The game took place at the Wauwatosa Racetrack and featured several standout performances. The Pushers' offensive attack was led by center fielder Bill Berkowitz, who belted a two-run home run in the third inning. Pitcher Joe Krass, a senior at Wauwatosa High School, pitched a complete game, allowing just two hits and striking out nine batters. The Blue Devils were led by third baseman Tom Miller, who had two hits and scored three runs.

The Pushers' victory kept them in third place in the standings, just ahead of the Blue Devils. The Blue Devils will look to bounce back next week when they host the Racers in a critical matchup.

Sports 'n Shorts

On Feb 2 at 4 p.m., the Wauwatosa High School girls' basketball team hosted the Blue Devils in a highly anticipated clash. The Pushers emerged victorious, earning a much-needed win in their quest for a conference championship.

The game was a back-and-forth affair, with both teams putting up a strong fight. The Blue Devils took an early lead, but the Pushers were able to tie the game back up with a series of well-placed shots. The teams battled through the first half, entering the locker room tied at 25.

In the second half, the Pushers took control, outscoring the Blue Devils 48-20 to secure the win. The Pushers' defense was solid, limiting the Blue Devils to just two field goals in the second half.

The win moves the Pushers to 5-2 in conference play, while the Blue Devils fall to 2-5. Both teams will continue their season with important games ahead.

Swimmers Slip Past Michigan Tech 53-50

BY JOHN BRENNEMAN

The NUMEROUS TO MENTION - KEN WARE

The Pushers men's swimming team continued to impress last weekend, as they defeated the Michigan Tech Huskies 53-50 in a hard-fought contest. The Pushers scored 26 points to the Huskies' 23, demonstrating their dominance in the pool.

The win was a testament to the hard work and dedication of the Pushers' swimmers, who have been training throughout the season to prepare for this match. The Pushers' victory moves them closer to the top of the conference standings, where they have been competing for the past few weeks.

The Pushers' next match is against the Wisconsin-Milwaukee Panthers on Feb 10. The Panthers are currently in fifth place with a record of 3-4, making this match a critical one for the Pushers as they continue their quest for a conference title.
