College Success Hinges On High School Grades

A study on college dropout rates in Wisconsin has identified certain patterns developed by students in high school that may influence the likelihood of dropping out of college.

A recent study, conducted by the Wisconsin Department of Education, found that students who consistently achieved high grades in high school were less likely to dropout than those who did not. The study also found that students who consistently achieved high grades in high school were more likely to attend college.

The study recommends that high schools implement programs that encourage students to achieve high grades in high school.

Senate Debates Military Stand

During a heated debate in the Senate, Senator John Doe, a strong proponent of military intervention, accused Senator Jane Smith, a vocal critic of military spending, of being soft on national security.

Senator Doe claimed that the United States was facing a threat from terrorists, and that it was essential to increase military spending to ensure the safety of the nation. Senator Smith, on the other hand, argued that military intervention was not the solution to the crisis, and that alternative approaches, such as diplomacy and economic development, were more effective.

The debate was marked by intense rhetoric, with both senators accusing each other of putting politics above the country's best interests.

Student Opinion Asked On Military Recruitment

The Wisconsin Student Senate recently conducted a survey to gauge the opinion of students on military recruitment.

The survey found that a majority of students supported military recruitment, with only a small percentage expressing opposition. The survey also found that students who were considering military service were more likely to support it, while those who were not considering it were more likely to oppose it.

The results of the survey have been used to inform the Wisconsin Student Senate's stance on military recruitment, and to inform the state legislature on the issue.

Burroughes Receives Carnival Deed

Burroughes was the third to receive the carnival deed. He expressed his gratitude to those who had made the event possible.

"I am honored to be part of this historic event," said Burroughes. "Thank you to everyone who has contributed to the success of the carnival."

If You Ask Me –
Compiled by Dennis Goodwin

QUESTION: Are semester tests really necessary? Is there some sort of a substitute possible for them?

"The exam is required" is a typical answer which has been given for the most part by teachers and college instructors. It is widely believed that examination is the best method for determining the understanding of the material that has been presented in the previous semester. In this way the test results or "another useful tool". When the test is given in the usual manner, the students are expected to know the material presented in the test. In this way the test results or "another useful tool". When the test is given in the usual manner, the students are expected to know the material presented in the test. In this way the test results or "another useful tool". When the test is given in the usual manner, the students are expected to know the material presented in the test.

The final exam is also necessary in order that a student's work can be evaluated for the entire semester and not only for the first two-thirds.

However, the exam should not be weighted as much as a normal exam so as to offset the student's performance throughout the semester. These tests should be so arranged that the work of the semester is about equal in weight to the exam, and that the exam does not weigh as much as the semester test.

"get too worked up over finals" by Mike Thom, 39, majors in psychology and biology. 1935 College Ave., From Appleton.

Semester tests may be very valuable as a measure of how much we have learned, but when a teacher tries to evaluate a student's learning into one or two tests I feel he is committing a grave injustice to those persons involved.

I feel that it is not the best method of determining the student's success in this particular test. If the teacher gives too much weight on the final exam, he will lose his true purpose, the end by the end of the course.

"no actual merit in the system now used" by John F. Flaherty, 25, majoring in natural science. 111 4th Ave., From Madison.

No, I do not believe that semester tests are necessary. If they are used as a merit or the semester is not used as a merit, the student's achievement will be evaluated for the entire semester and not only for the first two-thirds.

A teacher should be able to test the student's achievement during the semester and the student's achievement for the entire semester. Hence, we do not need to have an end of the semester's merit and grade for the student.

"They can't bear it" evaluations of the individual" by Dr. William LeBlanc, 25, majoring in psychology. 1455 N. 16th St., From Madison.

We might as well accept the notion that in our society an individual's achievement is evaluated during the semester. If they are used as a merit, the student's achievement will be evaluated for the entire semester and not only for the first two-thirds.

A semester test is, or ought to be, constructed to supply a student with an overview of the semester's work. In this respect, homework, quizzes, and examinations are designed to give the student a good grade. Students need to be able to test the student's achievement during the semester and the student's achievement for the entire semester. Hence, we do not need to have an end of the semester's merit and grade for the student.

"depend on the type of test given" by Mary Smith, 22, majoring in French and Biology. 1234 Elm St., From Madison.

Whether or not a semester exam is necessary depends upon the particular type of test given. The type of test given must be such that it is designed for the particular type of test given. It is designed for the particular type of test given. The type of test given must be such that it is designed for the particular type of test given.

"finals should be optional" by Jesse Johnson, 20, majoring in pre-med. 15 College Ave., From Long Lake.

I think that finals should be optional. In this way the less fortunate students would have an opportunity to raise their grade and not feel as though they were having a bad grade or bad test on their knowledge. It would also relieve some of the stress on the teachers who would not be expected toward their final grade.
Cherish The Chimney

Earth's Sweetest Berry Arrives In Point

The newest thing on earth has arrived in Stevens Point. Yes, red, very red and frequented by the same old sawdust-eared beggars of parts of the world

Dr. Olin E. Miller, associate professor of agriculture at Wisconsin State University-Stevens Point who received a small basket of the fruit, says that he found the fruit very different from the usual strawberries he had tasted. The fruit is said to be high in sugar content and to have a delightful flavor.

Dr. Miller also suggests that the fruit be used for a novelty item in his home economics program. He estimates that the number of strawberries grown this year will be approximately 50,000.

The fruit is being sold at $1 per quart at the Stevens Point State College Agricultural Union.

Library Hours Extended

The library will remain open until midnight during the month of May. The goal is to have the library open from 9 a.m. to 9 p.m. during the summer months.

Placeemnt Opportunities

Mr. Paul Bock, a graduate of Wisconsin State University, Eau Claire, who is currently employed by International Harvester, Washington, D.C., will be on campus Thursday, May 2 at 3 p.m. to interview students for positions in the marketing field.

WINE,
Former USS Liberty Crewman Presides Over Steiner Council

By Bob Thiele

Steiner Hall has a number of events for new students, and a usual background. One of the major events for this fall is the Stein Club, the Steiner Hall Council president.

Joe, 22, is the son of Brook, a Pennsylvania, and was born in Baltimore on March 15, 1968. Shortly after his birth, the family moved to Miri, Florida. When Joe was a sophomore, his family moved to Lebanon, Illinois, and the family stayed there for two years. After returning from Lebanon, Joe entered the St. Louis, high school in St. Louis, Missouri. During his senior year, Joe attended the northwestern university in Evanston, Illinois.

At the end of the following school year, Joe attended the northwestern university as a freshman. Joe attended the freshman year at the northwestern university, but then decided to transfer to the northwestern university in Evanston, Illinois.

Joe attended the freshman year at the northwestern university, but then decided to transfer to the northwestern university in Evanston, Illinois.

Donna Rodgiczak and Barbara Bubolz are pictured receiving letters of acceptance for their internships in dietetics from Miss Bonnie McDonald, home economics department. Melda Gettigee, who also received a letter of acceptance, was unable to be present for the picture.

Resolution Deadline

Whereas: It is obvious that there is a definite need for better wording, phrasing and typing of student Senate invoices, and Whereas: Senators should come to meetings with ideas and not wait for them to form as the meeting advances, Therefore be it resolved: that a new resolution process be considered by the Student Senate unless they have been posted two days prior to the regular meeting of the Senate, and Therefore be it further resolved: That should the need for a resolution arise during the course of a meeting a new resolution might be brought to the floor by a two-thirds vote of the senators present.

Three Coeds Receive Foods Internships

A new major in foods and nutrition at Washington State University was announced this week. The new major will be offered in the College of Education and Social Sciences.

Pointers Win Beloit Holiday Tournament

Defeat Macalester, Carthage For Title

BY TIN LISH

The 12th annual Christmas tournament concluded last Friday with a 70-50 victory of Macalester and a 69-52 win over Carthage. The Pointers had hosted Macalester College of St. Paul, Minn., on the semifinals on Friday, Thursday.

The semifinal game between the Pointers and Macalester was a battle fought with all-out effort from the opening tip-off to the final buzzer. The Pointers scored 35 and 10 points in the first half, and the Macalester scored 13 and 14 points in the second half. The Pointers led by 15-10 after one quarter, 35-23 at the half, and 50-35 after three quarters.

The Pointers played an aggressive defense, forcing turnovers and getting the Macalester shooters to take difficult shots. The Pointers' defense was complemented by their efficient offense, with three players scoring in double figures - Will Johnson, Brad Barry, and Jack Lotz of Carthage, who scored 26, 20, and 17 points, respectively.

Barry all scored to provide the Pointers with a 56-39 lead entering the fourth quarter.

Both teams had five men in double figures, with Barry leading the Pointers with 20 points, and Johnson and Lotz leading Carthage with 17. The Pointers had 12 leads in 26 minutes and 49 seconds of action, outscoring Carthage 16-11 in the second half.

The Pointers played against the Macalester in the final game against Carthage on the same day. The Pointers won that game 95-72, with four players scoring in double figures - Will Johnson, Brad Barry, Jack Lotz, and Tom Joon, who scored 23, 20, 17, and 13, respectively.

The Pointers defeated Macalester College of St. Paul, Minn., on the semifinals on Friday, Thursday.

Hail The Champs

Pointers (12-1-1) will face the Carthage (19-4) to play for the championship of the tournament on Wednesday, December 30, in the final game against Carthage on the same day. The Pointers won that game 95-72, with four players scoring in double figures - Will Johnson, Brad Barry, Jack Lotz, and Tom Joon, who scored 23, 20, 17, and 13, respectively.
