Rivals' Director Brings Something New To Campus

BARRY KNOWLER

A graduate of Princeton University and Yale Graduate School, Barry Dreyfus has four years of teaching experience as the director of the Dreyfus High School orchestra in New York City and has been a music teacher at Stevens Point High School for 20 years. Through his music curriculum, he has developed a strong knowledge of music in the school's history and culture. His desire to bring new ideas and activities to the school is evident through his work as the Rivals' Director.

Dreyfus was recently appointed to the position of Rivals' Director at the Stevens Point Area School District. His appointment was made after an extensive search by the school administration to find a suitable replacement for the former director, who retired last year. Dreyfus brings a wealth of experience and expertise to the role, having taught music at various levels and in diverse settings. His appointment is welcomed by students and staff alike, who look forward to the new programs and initiatives he will bring to the school.

Play, 'The Rivals', Runs Through Saturday In Main Building Auditorium

Within the next 25 years he predicts that the entire world will be under the control of computers. He said that the university will be one of the centers, and that the students will have to be prepared for the future.

Sitting down to write, he said, "People are now learning through the printed word only. 'People are now learning through the printed word only. 'People are now learning through the printed word only. The Pointer Needs New Student Help

The Pointer staff is holding a meeting for all staff members and other interested students tonight, Thursday, May 3, at 7:30 p.m. in the Van Houten room of the University Center.

We urge all students who are interested in working on what we hope will be The Independent Pointer to attend.

The way and problems of going independent have been explained in brief in the lead story of this edition of the Independent Pointer. These problems and questions are very much a part of what we hope will be The Independent Pointer to attend.

Editorial Board

Questions of the Week

That We’ve Been Saving

We had counted on a great deal of support for the student newspaper from students and faculty. Indeed, we have received the overwhelming support we expected.

Student Senate

The first barrier we ran into was financial. The finance committee was very unhappy at the request by The Pointer staff to go into debt.

President Schilling and the Indiana Student Senate put out at least one final edition last week.

We had been keeping in touch with the administration and had hoped to get one more issue of The Pointer. However, the university would not agree to print an Independent Pointer.

Student Senate

We decided to go into debt, that is, to open a student newspaper.

The Pointer staff is working as long as we can to help The Pointer staff is working as long as we can.

Since our Steam time machine is in working order, the evening, we decided to travel through the centuries of time. The journey won’t take long; the year 2000 still isn’t here. We can probably imagine what it’s like.

The weather here is damp—but there is again the same when one sees under a shadow and at the floor of the ocean.

However, we always wanted to see how our old friend would end up, and we are in his situation. We are in a current of time that is always going downward, that is, going upward.

Wear’s status is that is, always going downward, that is, he is a person who has gone everlasting. This is the same when one sees under a shadow and at the floor of the ocean.

Let us expand this concept to one who has gone everlasting.

Theodore Roosevelt

Reading for the sake of reading

OPEN TO ALL—or the quote above the door to the old public library in downtown Stevens Point. But the only occupant today of the 1902 building is the working canine. The building is run down because it does not have windows and to provide additional downtown parking space. A new library opened downtown last year. (Mike Damborski photo)
The current Student Senate, governing for the first time, approved the student activity and allocations for 1969-70 and passed four resolutions.

'The Senate, in its first meeting of the year, voted to approve amendments to the Constitution of the Student Senate. The Senate has requested the Senate to consider the proposed amendments, and has sent them to the student body members for consideration.

The Senate also voted to approve the amendments to the Constitution of the Student Senate. The Senate has requested the Senate to consider the proposed amendments, and has sent them to the student body members for consideration.

A second resolution, unanimously approved, concerned the Senate's request for information about the new college residence corporations. The Senate approved the information, and the Senate will be left mainly to those interested in participating in the corporation. The Senate approved the information, and the Senate will be left mainly to those interested in participating in the corporation.

The Senate approved the amendments to the Constitution of the Student Senate. The Senate has requested the Senate to consider the proposed amendments, and has sent them to the student body members for consideration.

A third resolution, approved at the Senate meeting, concerned the Senate's request for information about the new college residence corporations. The Senate approved the information, and the Senate will be left mainly to those interested in participating in the corporation. The Senate approved the information, and the Senate will be left mainly to those interested in participating in the corporation.

The Senate approved the amendments to the Constitution of the Student Senate. The Senate has requested the Senate to consider the proposed amendments, and has sent them to the student body members for consideration.

A fourth resolution was passed at the Senate meeting, expressing its great appreciation to the Senate for its efforts and results. The resolution was passed by the Senate and the Senate will be left mainly to those interested in participating in the corporation. The Senate approved the information, and the Senate will be left mainly to those interested in participating in the corporation.
Hafnerbecker Recalls Nostalgic Thoughts About WSU Through His Service

The man with a face so gray you’d think you’d looked at a weather map in a weather bureau, with a voice that rose and fell as much as the tides, was captured by the photography of the State Historical Society of Wisconsin.

Dr. Gordon Hafnerbecker, who served on the faculty of the University of Wisconsin-College of Education, recalled the days when he worked as a teacher in a school in the town of Wisconsin, teaching science and social studies. He remembered the days when the students were his colleagues and the classroom was his office.

Hafnerbecker also recalled his time as a student at the University of Wisconsin, where he was a member of the Phi Delta Kappa fraternity. He was one of the few students who knew the secret handshake of the fraternity.

The background gave a sense of the knowledge which had helped him understand the world. He was a man of words, a man of ideas, and a man of action. He had taught in many schools, from the small one-room schoolhouse to the large university.

This man, who had taught for over 35 years, had a simple outlook on life. He believed that education was a road to a better future. He knew that it was important to make decisions that would benefit not just himself, but also the community.

His life was filled with hard work and dedication. He had seen the world change, and he had adapted to those changes. He was a man of the people, and he always had a smile for everyone.

Hafnerbecker was a man of many talents. He was a great teacher, a great scholar, and a great friend. He was a man who had dedicated his life to education, and he will be missed by all who knew him.
19 Local Science Students Toured Mississippi Coast

The second and last extracurricular field trip for the spring semester was the tour of the Mississippi Coast for the science students in the class of the Gulf Coast. The tour took place during Easter vacation, April 2-5.

The group consisted of 19 students, and was the first extracurricular field trip for many. The group was led by Joe Schuldt, a science teacher at the school. They traveled to the Gulf Coast by car, and were accompanied by several school staff members.

During the stay, the Gulf Coast was explored by the students. They participated in various activities, such as beachcombing, seining for marine life, and attending a lecture on marine biology.

On the last day of the trip, the students presented their findings to the school community. They shared their observations and experiences, and the trip was considered a great success.

US-Latin American Relations Discussed

By Paul Hatz

Dr. Michael Meyer spoke on Latin American relations at a seminar on the last day of the spring semester. The seminar was open to all students.

Dr. Meyer said that historians from all over the world have not been able to agree on Latin American history at any time. He said that the reasons for this are that the population of the region is too diverse and that the economic and political factors have been too complex.

Dr. Meyer also said that there is a need for more research on the subject. He said that the future of Latin America will be determined by the way in which the region is governed.

Bjork will Speak on State's Geology

Dr. Philip R. Bjork, assistant professor of geology, will present the final program in the Museum Lecture Series that Bjork will close on Thursday, April 18, at 7:30 p.m. in Room A-121.

Dr. Bjork will speak on "Geologic history of the state's geology." The program will follow the same schedule as the previous programs, with free admission and an opportunity to speak with the professor at the end of the program.
Saturday was the day that members of the various residence halls gathered to celebrate the conclusion of the annual Residence Hall Council Week. Egg tossing was one of the big events for the day as members of the various halls competed to see who could toss a raw egg back and forth the most times without breaking it.

Another event that kept the day rolling along was the toilet paper roll. Groups had to unroll as much toilet paper as possible without breaking the strand.

The activities improved everyone's appetite. The pie eating contest was just the thing to restore the needed energy to finish competing in the rest of the day's games.

Some students decided to just lie back and take things easy while trying to catch molasses in a cup. These contestants found their work a little stickier than anyone else's.
Not With A Bang, But A Splash

Saturday was mud day for others as they rolled in the mud hole after determining who was the best jouster for the day. With pillows swinging, opponents disappeared into the grimy pond.

When the day was done, the halls' showers were kept busy as students made a clean sweep for the day.
DELTA SIGMA PHI

The brothers of Delta Sigma Phi at the UW-Madison campus will have an opportunity to participate in a unique summer seminar. This seminar will provide both old and new members with the opportunity to attend two seminars, one in the summer and one in the fall. The seminars will be held at the Whiting Hotel and will include sessions on leadership and personal development.

A special event will be the induction of new members, which will take place on Friday, April 12th at 7:00 pm. The ceremony will be followed by a reception and dinner. All members are welcome to attend.

ALPHA PHI

The Alpha Phi sorority recently sponsored a workshop for new members. The workshop included sessions on sorority etiquette, leadership, and personal development.

The sorority also hosted a social event for new members on Saturday, April 13th. The event included a dinner and dance.

DELTA ZETA

On Saturday, April 14th, the Delta Zeta sorority held their annual banquet at the Milwaukee Country Club. The event included a reception and dinner, followed by awards and entertainment. All members are welcome to attend.

ROACH HALL

Many Roach Hall residents have been involved in various on-campus activities. For example, several students have participated in the Sig Ep canoe race on Sunday, April 21st. The race was held at the University's canoe club.

STEINER HALL

Once again this year, members of the Steiner Hall community will participate in the triathlons. The triathlons include a swim, a run, and a bike race.

Interested People May Accompany WSU Band On Its European Tour

The WSU Band will be performing in Europe this summer. Interested students may contact their advisors for more information.

SECRETARIAL HELP WANTED

For large Carnival touring Co. Applicant must type, take steno, and be familiar with accounting procedure. The applicant must also have a yen for excitement and glamour, and can be capable of handling responsibility. Either males or females may apply. You start work immediately after your last final and work until school starts.

Call 715-654-4350 for interview. Don’t call unless you feel you can handle it. This job is something else.

Piering Breaks Two Records
In Meet Against Marquette

By Craig Johnston

Stevens Point defeated Marquette 11-0 in a dual track meet held Thursday. Jerry Piering broke two school records in leading the Pointers. He ran the 1500-yard run in 4:19.0 and the mile run in 4:15.3 which is the 2nd best time and record last week. His other record came in the 3200-yard dash with a time of 9:03.6, eclipsing his former mark of 9:05.0 which he had set earlier this year. Fredrickson Kurt Urban took third in the shot put and dash at 97 feet in the Field meet.

The Pointers were the Marquette in the 150 and 220 dashes. Marquette’s 4:21.

440-yard relay was freshman Tom Tracy, who

“can’t say that I think much of pro football’s plan to realign the conference relays held at River Falls. The Pointers managed to ruin the seven runs were unearned. Grundmeier’s leadoff single was unearned. Collette Rohe who was the Titans pitcher, was in complete control throughout. Pointers aided by three double plays and several other fine fielding plays, while walking just one and striking out four.

Another hit in the ninth and final fielder Tom Walzpak gave Oshkosh an extra run in the third inning, and three Emperor singles added to the seven runs scored. Walzpak’s effort at the plate was credited with a time of .8.9. In addition, Mike and Piering set a new school record in the distance medley relays with a time of 1:29.6. Along with the two teams, the Pointers finished fourth, fifth, and sixth in the 440 and 880 relays. “He been turning in this.

BASEBALL-Saturday, Eau Claire, HERZ, (2), 1 p.m. (Dakota Park). Sunday, University of Wisconsin, (3), AT Madison.

Cinderella Take Fourth In WSU Relays
As 14 New Records Are Established

By Craig Johnston

The Pointer track team placed fourth in the field and conference relays held at River Falls. Winning the meet was LaCrosse, adding Plattsmouth by 11 points and Waukesha by 24. Point scored 42 points and with a couple of breaks, in the distance medley relays, the Pointers have changed the outcome of all-weather track and with ideal conditions. Dave Melan then rapped the five-run mark. “I can’t say that I think much of pro football’s plan to realign the conference relays held at River Falls. The Pointers managed to ruin the seven runs were unearned.
