The Union: The Beginning

Two years ago the idea for expanding the Union was born, and the idea blossomed into an all-out project. Fifteen people helped to start the plan, which began in late summer, 1968. Mr. Ron Riechet, University Center, asked the Student Senate, the U.A.B., Student Affairs, and staff and faculty to submit their ideas on the kind of things they'd like to see in an expanded program for the Union. During this time, the actual program statement committee began to meet. It consisted of the University Center staff, Mr. Ray Specht, director of campus planning, the late Caroline Sands, Robert Worth, who was like to see an expanded ideas on the kind of things they'd Ron Hachet, University Center, U.A.B., Student Affairs, and Ray Specht, director of campus planning, the late Caroline Sands, Robert Worth, who was like to see an expanded ideas on the kind of things they'd hopeful, lime to start would be Spring, 1972

Two meetings with the architectural firm to review the program statement have since taken place. The firm is now the process of doing preliminary sketches and plans. The major hurdles have been taken. The final step is to have the GO from the Building Commission, which is expected soon. Assuming plans are ready, the architectural firm would make up the final steps to begin. The project would then go out to bid to contractors—the possible, and hopeful, time to start would be Spring, 1972.

The Intermedia-Ecological Repercussions

Dreyfus's Student Stabil Fund.

The litter and refuse used to create the ecology oriented presentation were collected from the Stevens Point city dump and trees used in the "Nature" room had previously been employed as Christmas decorations. Unfortunately the materials remaining after the dismantle of the exhibit will have to be returned to the dump. To date it is impossible to recycle such material.

Although not a solution to the present ecological mess Intermedia in its most recent capacity served as a strong reminder of an issue vital to the existence of all men.

According to C.B.S. News, over a million Indochinese people have been killed since the beginning of the Indochina War.

The following U.S. casualty figures for Southeast Asia are based on U.S. government statistics. They are lower than U.S. casualties reported by the liberation forces. The figures in parentheses are for the week Feb. 6. to 13. Killed: 44,459 (31); Wounded: 294,926 (217); Missing: captured: 1534.
Leonard L. Gibb is the 36 year old Associate Dean of Students. He received his B.A. from Montmouth College in 1958, his M.S. from Northern Illinois University in 1962, and his Ed. D. from Northern Illinois University in 1966. He has been at Stevens Point since 1967. His annual salary is $16,250.

Pointer: What, in general, is the function of the Student Affairs Office?

Gibb: The Office of Student Affairs coordinates all of the other student services, admissions, counseling, financial aids, health center, placement, housing office and others.

My specific role in the organization is to assist Dr. Steilstra in any way he deems fit. Specifically, the other Deans in the office, Mrs. Farlow, Mrs. Taylor and myself, work with academic concerns the students may have.

If they feel they're getting a raw deal on a grade we can perhaps assist them in finding the right channel to go through to combat this: until the faculty formulates a kind of academic process due channel.

We work with all withdrawals from the university. We try to see if there isn't something we can do to help them solve their problem other than quitting.

In my case I work with discipline, the foreign students, and drug education.

This office also handles orientation. Working with fraternities, sororities and many small problems. If students are having health problems we try to notify the teachers. We handle just a myriad of things no one else is geared up to handle. There are many, many areas of this type to work with.

If not can you give concrete proof that you are not?

Gibb: I was in the infantry for two years in Korea but I was just as happy to get my release from active duty as the next guy. I am not involved with the CIA or military intelligence or any group. No, I don't work for the government in any way, shape or form.

But I can't show you anything to prove it.

Gibb: I think there are several factors. One, I think, is peer pressure. The second may be the hypocrisy that the older adults have rested on for so long. That is that it is a big bad no-no. Also the adults are pretty poor models. We have six or seven million adults who are alcoholics. Most of the chain smokers are adults. The biggest abuser of amphetamines is the American housewife from diet pill use.

All the people in college today have grown up in this check-full, medicine-cabinet world. There are always things in a bottle to cure things and everything.

Gibb: I think generally, the barometer of student activism all over the country is on the decline. I don't know if it's lack of frustration, or that things tried last year didn't work, or that they feel withdrawal is going according to Nixon's and Laird's timetable and progress is being made.

Part of it may be the general economy. Maybe they're concerned about themselves and what they're going to do after graduation. I'm not certain which is most applicable.

Pointe:r: Is there the threat of expansion ever used against individuals who take part in lawful demonstrations?

Gibb: President Dreyfus has stated quite clearly those things that he would immediately suspend a student for and they appeared in the Pointer earlier this year.

As far as this most recent demonstration, one student was disciplined. This was in the papers so it certainly was public knowledge. He received a disciplinary probation for his involvement. I suppose the threat is always there via the guidelines established by the Regents and Pres. Dreyfus. I suppose the threat is always there if somebody totally disrupts or impedes the process.

Pointer: Do you think marijuana should be legalized?

Gibb: At the present time I don't think enough longitudinal research has gone on to warrant the legalization of any of the cannabis by-products. Short term effects look pretty good for the normal, mature individual who uses marijuana infrequently. There seems to be no debilitating effects. There is no hangover or dietary problems as is the case with beer.

The biggest drug abuse on campus certainly is alcohol. There is no question about it. But we don't know over a long period of time what debilitating effects the ingestion of T.H.C. will have on the screening agents of the body, the liver, the kidneys, the things that filter the chemical out of the blood stream.

Pointe:r: What do you see as the major cause of drug use by students?

Gibb: I think there are two causes. One, I think, is peer pressure. The second may be the hypocrisy that the older adults have rested on for so long. That is that it is a big bad no-no. Also there's a certain thrill to trying to get around the law.

Also the adults are pretty poor models. We have six or seven million adults who are alcoholics. Most of the chain smokers are adults. The biggest abuser of amphetamines is the American housewife from diet pill use.

Interview Of The Week

Leonard Gibb
Associate Dean Of Students

The biggest drug abuse on campus certainly is alcohol. There is no question about it. But we don't know over a long period of time what debilitating effects the ingestion of T.H.C. will have on the screening agents of the body, the liver, the kidneys, the things that filter the chemical out of the blood stream.

Pointe:r: What changes would you propose for this university?

Gibb: I think generally, the barometer of student activism all over the country is on the decline. I don't know if it's lack of frustration, or that things tried last year didn't work, or that they feel withdrawal is going according to Nixon's and Laird's timetable and progress is being made.

Part of it may be the general economy. Maybe they're concerned about themselves and what they're going to do after graduation. I'm not certain which is most applicable.

The Tenant
And the Law

The decision in the case of Pines vs. the ACLU which was discussed last week in The Tenant and The Law, stated that the landlord was responsible for providing a habitable apartment at the inception of the lease.

It appears that the landlord's responsibility is for such furnishing livable premises terminates when the renter moves into the premises. The courts have generally held to the opinion that in the case of an express agreement regarding repairs, the landlord has no duty to tenant because the repairs which were to be done after the renter is in possession of the premises. Robert Baer and Baaldorp, Wis. Corporation, Inc.

Although this ruling releases the landlord from the responsibility to the tenant, the landlord still has the responsibility of conforming to the housing codes. This duty to observe housing laws has been interpreted as an obligation to the public or to the authority adopting a housing code rather than to the tenant. Pines vs. Persaud appears to have no influence on this opinion, therefore the responsibility to repair an apron since it is occupied.

Those who disagreed, who were not tenants and teachers, were imprisoned, banished, eliminated. The ACLU believes as did our nations founding fathers that meaningful freedom includes freedom from interference with "one's parents" without being subject to governmental penalties for its exercise. It is in this spirit that the ACLU defends the civil liberties, concerning others, without having the right to them. The A.C.L.U. involvement, as a whole, can be seen as a radicalization.

The ACLU's involvement in controversial cases throughout history has brought it cargers' rights is that if it is the ACLU's responsibility to aid tenants. The four were later reinstated.

The ACLU offers its message to the citizens in this area, "Watchdog" for civil liberties violations and by carrying the ACLU message into their communities. The ACLU is in no way a secret society, its meetings are open to the public as well as its membership. The following is a list of just a few of the members of the ACLU chapter in our community. If you have any questions, ideas or comments on the ACLU chapter in our community. Pete Kelly, Communication Dept. Guy Rumsey, History Dept. and Thomas Johnson, Sociology Dept.

The program essentially is geared to enhance the development of professors as scholars and teachers. Knowlton, who came to Stanford in 1962, Autumn, brought his study on effects of a policy in Mexico in the 1800's which involved liberal governments in the U.S. real estate. The subject ties in somewhat with the dissertation of a Ph.D. done at the University of Wisconsin's 19th Century Reform which forced the Church to disband the Catholic Church.

While in Berkeley, he will be accompanied by his wife and two children. Knowlton will also serve as an associate scholar to the University of California- Berkeley as well.

Knowlton, a native of Akron, Ohio, received a B.A. from Miami University and a M.A. from the University of Wisconsin before completing the doctorate. He has directed several projects for the American Association of University Libraries from 1971.

His long range plans are to write a book based on the information in New Mexico and in the future, study visits to France, England and several places in the United States.

ASA Offers Travel Help

It is estimated that 175,000 American students will travel abroad during the summer of 1971. One organization promoting study abroad is the American Students Association, ASA, which works with over 15,000 members. ASA is represented in over 650 colleges and universities throughout the U.S. ASA produces booklets covering working and travel opportunities in Europe and the southern hemisphere as well as the opportunities for American students in Europe.

ASA's summer program, "Summer in Europe," is designed to aid students in becoming familiar with European life and culture and improve their knowledge of the European Union. The American Students Association is in contact with European firms and arrange for employment of American Students in Europe.

Work opportunities for American students in Europe during the summer are numerous and of great interest to many. One reason for the interest is that the European countries are experiencing a severe labor shortage due to the fact that European countries in the Common Market are at the present time a period of massive industrialization. Therefore, are short of having a hul labor force. Working abroad gives students the opportunity to acquire first hand familiarity with European society. ASA booklets covering working and travel opportunities in Europe are available to ASA members. Students interested in employment abroad must read the ASA's booklets covering working and travel opportunities in Europe.

Work abroad is not always lucrative, and in some cases can be asimsome as plain hiking. ASA furnishes round trip air travel at reduced rates.

Information can be obtained by writing to: American Students Association, P.O. Box 36087, Cincinnati, Ohio 45236.
Landlord Of The Week

Daniel Sentz, a junior at WSU, has been selected our landlord of the week. He owns, though he does not live in, the property at 1216 Division which is rented to thirteen students. Excluding the summer months, Dan receives five thousand dollars a year in rent for a property evaluated by the city at $8,400 and taxed at $311.70.

One tenant complained that the paneling was coming off, there was little or no heat in the bathroom, the landlord was very slow to repair items and the tenants were not even given keys to the apartments. Recently, with the melting of snow, water has begun to leak into the bathroom. The back door on the second floor is nailed shut because the stairs are old, but the landlord claims they can still be used in an emergency.

In the lower apartment there is a heat regulatory problem. One bedroom has to be about 90 degrees in order to maintain a decent temperature in another bedroom. There is a blatant violation of the building code in this apartment as the entrance to one bedroom is through another.

Dan says that he is going to build a hallway to eliminate this and provide privacy to the one bedroom used as an entrance.

In the rear of the house is a small apartment consisting of basically one room with an adjacent kitchenette. The wiring for the whole building is centered in this room as is manifest by the series of fuse boxes. The bathroom or more accurately, the area with the toilet has no door which presents certain problems when guests are visiting. "When girls are over, people have to leave the apartment so one can use the washroom," explained one tenant.

Although this sounds grim, the two fellows living there appear satisfied because of the privacy. Also, the tenants stated that Mr. Sentz lets them do as they please with the apartment as long as major damage is not incurred.

When contacted, Mr. Sentz said he purchased the property as a learning experience. "As far as the property goes," Dan stated, "it is not worth much and never will be, but I am learning a great deal." He explained that he has learned about tax laws, insurance and related matters. This summer Dan plans to repair the house which appears to be a major project. He claims he has already invested $2,800 in materials and an uncountable number of hours in labor.

Mr. Sentz had this response when asked to give his comments concerning the property.

I suppose like most landlords I could comment on the inane questions posed by the Pointer. But I could care less about defending something that's really not the issue.

What is the issue? The Pointer said something about keeping the landlord honest, but if the Pointer doesn't display honesty then honesty isn't the issue. Unless it's mentioned that the total improvements exceed far and above the net; gross income I would detect a lack of honesty.

Most men that did bring about change, social or otherwise, at least used a little tact. One in particular appealed to mans intellect and dignity, how absurd. Anyway change was brought; so says Superstar.

Maybe you just don't believe the issue warrants that route, if not, find one that does.

Some people need a cause, especially when panged by feelings of unproductivity. It's too bad when even legitimate issues, and basically the housing issue is legitimate, have to suffer under the pre-pubescent anxiety of just being heard.

Landlord Facts Clarified

As we promised in the last issue of the POINTER, we have checked into the contested facts in the article on landlord John Noel. A picture which appeared with the article showed a dining area and left the impression that the dining area was also the only study area in the house. This is erroneous as there is several other study areas. The second point in question is a quote from a former tenant of Mr. Noel, Mary Lou Ley. She claimed that there was only one bathroom for the use of twelve girls. There were in fact two bathrooms though one was rather cold and contained construction materials which Mr. Noel was using to finish the bathroom. The following letter from Miss Ley clarifies the situation:

"In clarification of the Landlord of the Week article of March 8, 1971, I would like to state that I meant no personal attack upon John Noel. Furthermore, my complaints mainly concerned the overcrowding of the house since the physical features of the house, excepting the functional but unfinished, bathroom in the basement were relatively decent. My purpose in contributing to the POINTER was not for my personal benefit since I no longer reside there, but for the betterment of the conditions at 1108 Reserve.

Although there will never be much privacy for 12 girls in that house, John has completed the downstairs bathroom, removed the construction material from the basement, refurbished the living room, and is in full knowledge of the state housing codes since he has measured the bedroom areas. He has made improvements. Enough said."

Mary Lou Ley

Our apologies to Mr. Noel for any inconveniences to him.

Landlord Of The Week

by Dan Sentz

I am the Landlord of the week
And from the pictures it may
look bleak
But don't fret and don't you
frown
Because that clogged drain
will eventually go down.

I am the landlord of the week
My beds are soft even though
they squeak
But don't you fret and don't you
frown
Once your asleep you won't
hear a sound.

I am the landlord of the week
I thank you Pointer for letting
me speak
But don't you fret and don't you
frown
There are still many issues
here in town.

This is the entire bathroom
complete with no door. A shower
is located on the other side of the
apartment.
Focus On Issues
Problem Pregnancies

Three views on sex, birth control, and problem pregnancies were discussed Thursday. A abortion and unwanted pregnancies, held in the Room C of the University Health Service. Speaking on the medical aspects of pregnancies was Dr. D. D. Johnson. Kent Hall of the Biology Department and affiliated with ZPG, spoke on birth control, abortion, and pregnancy counseling. And speaking on the emotional aspect of pre-marital sex was Elaine Albracht, director of Neale Hall.

Dr. Johnson said, because of the shortage of doctors at the health center they could not get into birth control service. When they can do is to run the test to see if the girl is pregnant and Dr. Johnson stressed that this would be kept confidential.

Johnlast said that month 12 girls were reported pregnant and 11 of these were considered problem pregnancies. If a girl is pregnant, the administration nor the parents are notified. The girl then makes the choice of carrying the baby or to seek an abortion.

To help the girl with her decision, Johnson suggest four sources she can go to. He suggests she go to the guy responsible because he is involved. Second, she should ask her parents if at all possible, go to the counseling service, or go see one of the ministers at UC.

If, then she decides she wants an abortion, he will refer her to one of the official organizations set up for this to see that she gets a safe abortion.

Johnson feels there is a place available to abort. Thus we ready to take the responsibility of having a child. He said we need to have the service available because it is a natural function.

Hall emphasized birth control, problem pregnancy control, and abortion. He told students that they can do is to run the test to see if the girl is pregnant and if it is a marriage or not. He also stressed that students think more about their pre-marital sex actions as he does not like to see unwed parents coming to him for abortion counseling.

There were 6,200 illegitimate births in Wisconsin last year and there is a mentality in our country and society that contraception is "dirty." Hall said.

Hall suggested that problem pregnancy counseling should be set up in the dorms for students who need help. The procedure would be to make sure the girl is pregnant, then ask her to approach the campus SMC. The SMC then can give her the information she needs. If she wants to go to an abortion, she can ask Johnson about this. He will give her a referral to an abortion counselor. If she does not get an abortion, she will need to get a referral to a sperm donor.

Hall also suggested that birth control information is fine, but she said sometimes it is easier to get out this information than to be able to counsel a person on sex and maybe not see the results of the effort.

SMC Conference in LaCrosse

On March 26 and 27 the first state wide conference of student antiwar forces is being sponsored by the Student Mobilization Committee (SMC) in La Crosse. The two day conference is set up at the WSU-L campus. The purpose of the conference, according to John Meyers, director of the campus SMC, is to "enlarge and strengthen" student antiwar and activist movement, especially on the campuses. It is the first effort to build a unified, coordinated and effective cooperative action in this state. Students are a key to building mass demonstrations and mobilizing the antiwar sentiment of the community.

Registration for the conference is scheduled to begin on Friday, March 26, at 5:00 pm.

Friday evening a "kick-off rally" is planned for 7:00 pm featuring state antiwar leaders representing many segments of the population: women, high school students, veterans, black and other third world groups, workers and others. A plenary session begins Saturday at 10:00 am. The time proposals for action will be presented to the conference body. The afternoon is scheduled to be spent on the Women and War; Campus; Black and Third World; and Workers and the Community. Saturday evening a "final general" vote on state wide actions, and implementation of those actions.

This conference is expected to be the largest state-wide student antiwar conference held in the U.S. this year, according to the La Crosse SMC. It marks the rejuvenation of campus activity, which many thought was a thing of the past.

Art Shows For Prof

Larry Brown, a new art instructor here has been invited to exhibit his paintings and graphics at three out-of-state shows this spring.

April 5th he will show "Drawing-U.S.A.-1971" at the Museum of Art in St. Paul Minn., and this month he will exhibit "Graphics-71" and "Drawing Mid-U.S.A." at the Spiva Art Center in Joplin, Mo.

In January, Brown's work was accepted for showing at a regional exhibition at the Tucson Art Center in Arizona.
Cantor Tours Ends

STEVENS POINT—The 48-member Cantor Touring Company, currently completing its annual winter tour of area high schools by presenting a concert at 8p.m. today in the fine Arts Building. Open to the public without charge, the performance may be held at 6p.m. in the Peter J. Michelson Concert Hall. Cantor Director, William D. Fisgel. Contributing solosists: Beloit, Middleton Tomah and Highland. The Cantor Touring Company will make its homes in each of the communities hosting their performances.

The University Madrigal Singers, comprised of select choir participants, sang several selections at each school.

Some schools said they enjoyed the tour, currently making its rounds in Stevens Point, and complained of problems on the tour because several solosists had been unable to attend their sides because of illness. Last minute substitutions aren’t always easy to make, they concluded.

Besides the solists, other members of the choir are:

SOPRANO: Sherrie Anderson, Green Valley; Jean Carpenter, Chris Dansco, Mosinee; Paulette Delinsky, Mosinee; R. Candace Erickson, Green; Darou Grun, West Allis; Terri Long, Appleton; Janet Miel, Middleton; Muriel Olsen, Eagle River.

ALTO: Cheryl Johnson, New London; Kathy Marsh, Athens; Marjorie Connor, Palatine, Il.; Jeanna Ramshick, Waukesha; Pamalla Schneider, Stevens Point; Cindy Schultz, Stevens Point; Chris Steffen, Stevens Point; Maggie Somers, Amherst; Marlene Thiele, Payette; Karen Wampler, Marshfield; Carol Wienandt, Wausau.

TENOR: Curtis Atkinson, Shell Lake; Ellworth Beckman, Marshfield; Peter Crawford, Antigo; Ed Christopherson, Valders; Jacquie Durfand, Monoma; James E. Fritz, Peshtigo; Norman Myers, New London; James Tischer, Wisconsin Rapids.

BARITONE: Augie Bug, Fond du Lac; Keith Brux, Kaukauna; Wayne Dykstra, Wisconsin Rapids; Mike Fuller, West Allis; Bryon Gongaware, Wauconda; Robert Heitinger, Milladore; John Heuer, Waukesha; Boyd Jordan, Stevens Point; George King, Wisconsin Rapids; Rolland Okk, Mosinee; Michael Southwell, Madison; so John C. Strassburg, Beloit; David Worth, Stevens Point.

The piano accompanist was Jean Schneider of Wittenberg.

Benefit Tours Ends

One of the largest parties ever held in Stevens Point involving university personnel and members of the community was punctuated Saturday night by lively entertainment and an announcement that the affair netted near $12,000 for scholarship programs.

Proceeds will go to a fund for distribution to worthy university students in all academic disciplines.

The University Madrigal Choir conducted a choral benefit, with the widely acclaimed Pete Fountain Band.

The University Singers drew cheers during a half-hour show featuring works by Bach and Cantor Tours. The University Madrigal Choir conducted a choral benefit, with the widely acclaimed Pete Fountain Band.

About 375 persons jammed the Holiday Inn ballrooms to “wave out” to the peppy beat of the University State Band, directed by faculty member James Duggan. The young professor returned to campus last fall after spending a year as a fund raiser.

The proceeds will go into the University Annual Fund headed treasurers: Emeritus May Roach of Eau Claire, who attended the ball and praised planners for what she termed a worthy project.

It was all that was expected. There were so many groups joining forces to aid young men and women at the university who show academic potential but are in financial need.

University President Lee S. Dreyfus lauded the effort as an example of “getting the town and gown together,” planning was headed by a committee known as “Friends of the University,” and chairman this year were Mr. and Mrs. Charles W. McKelvey, Rick Frederick, director of university alumni affairs and annual giving, who worked with the group, said results of the ball provide “concrete evidence that a spirit of cooperation exists here which can produce unusual success.”

Review: Bach Aria Group

“The harvest shall make you glad,” Bach wrote. The happy opulence of a Bach constata almost makes one forget that folk music, or even that it was written by a human being. There is something so basic to the simple repetitions and this group of delicately precise musicians, the finest group ensemble that I have ever heard in person and understand. I have been a listener from the earliest recorded, brought Bach to life, and have always been in awe of it. Life flowed through each aria, never heavy, never meager; always a contribution to what are as most meaningful life events.

To speak quite clearly and without any obtuseness: Bach is great, the Bach Aria Group is great, if you saw them and you turn on tonight’s variety show I hope you stay your brain, cluck your tongue, see them and realize you turn on tonight’s variety show—see yourself and the people you admire. That no longer exists. It is, I mean, great for the people who turn on tonight’s variety show. They are satisfying, indeed.

SOPRANO: Sherrie Anderson, Green Valley; Jean Carpenter, Chris Dansco, Mosinee; Paulette Delinsky, Mosinee; R. Candace Erickson, Green; Darou Grun, West Allis; Terri Long, Appleton; Janet Miel, Middleton; Muriel Olsen, Eagle River.

ALTO: Cheryl Johnson, New London; Kathy Marsh, Athens; Marjorie Connor, Palatine, Il.; Jeanna Ramshick, Waukesha; Pamalla Schneider, Stevens Point; Cindy Schultz, Stevens Point; Chris Steffen, Stevens Point; Maggie Somers, Amherst; Marlene Thiele, Payette; Karen Wampler, Marshfield; Carol Wienandt, Wausau.

TENOR: Curtis Atkinson, Shell Lake; Ellworth Beckman, Marshfield; Peter Crawford, Antigo; Ed Christopherson, Valders; Jacquie Durfand, Monoma; James E. Fritz, Peshtigo; Norman Myers, New London; James Tischer, Wisconsin Rapids.

BARITONE: Augie Bug, Fond du Lac; Keith Brux, Kaukauna; Wayne Dykstra, Wisconsin Rapids; Mike Fuller, West Allis; Bryon Gongaware, Wauconda; Robert Heitinger, Milladore; John Heuer, Waukesha; Boyd Jordan, Stevens Point; George King, Wisconsin Rapids; Rolland Okk, Mosinee; Michael Southwell, Madison; so John C. Strassburg, Beloit; David Worth, Stevens Point.

The piano accompanist was Jean Schneider of Wittenberg.

Benefit Tours Ends

One of the largest parties ever held in Stevens Point involving university personnel and members of the community was punctuated Saturday night by lively entertainment and an announcement that the affair netted near $12,000 for scholarship programs.

Proceeds will go to a fund for distribution to worthy university students in all academic disciplines.

The University Madrigal Choir conducted a choral benefit, with the widely acclaimed Pete Fountain Band.

About 375 persons jammed the Holiday Inn ballrooms to “wave out” to the peppy beat of the University State Band, directed by faculty member James Duggan. The young professor returned to campus last fall after spending a year as a fund raiser.

The proceeds will go into the University Annual Fund headed treasurers: Emeritus May Roach of Eau Claire, who attended the ball and praised planners for what she termed a worthy project.

It was all that was expected. There were so many groups joining forces to aid young men and women at the university who show academic potential but are in financial need.

University President Lee S. Dreyfus lauded the effort as an example of “getting the town and gown together,” planning was headed by a committee known as “Friends of the University,” and chairman this year were Mr. and Mrs. Charles W. McKelvey, Rick Frederick, director of university alumni affairs and annual giving, who worked with the group, said results of the ball provide “concrete evidence that a spirit of cooperation exists here which can produce unusual success.”

Review: Bach Aria Group

“The harvest shall make you glad,” Bach wrote. The happy opulence of a Bach constata almost makes one forget that folk music, or even that it was written by a human being. There is something so basic to the simple repetitions and this group of delicately precise musicians, the finest group ensemble that I have ever heard in person and understand. I have been a listener from the earliest recorded, brought Bach to life, and have always been in awe of it. Life flowed through each aria, never heavy, never meager; always a contribution to what are as most meaningful life events.

To speak quite clearly and without any obtuseness: Bach is great, the Bach Aria Group is great, if you saw them and you turn on tonight’s variety show I hope you stay your brain, cluck your tongue, see them and realize you turn on tonight’s variety show—see yourself and the people you admire. That no longer exists. It is, I mean, great for the people who turn on tonight’s variety show. They are satisfying, indeed.

Committee was charged with kerosene lamps. Right you are. It's the Menominee Indi... organization which is seeking determination of the legal rights of... tribe's Menominee Enterprises, Inc., the corporation controlling tribal assets.

Nancy Laurie has given a good account of... about and how it started (Milwaukee Journal... 1970). She says "a great many... and a select elite of increasingly discomfited Menominees... turning since1940... prove that the policy... terminate federal jurisdiction over the Men... Reservation can succeed.

Meanwhile, growing numbers of... are convinced that termination was "counter to the social and economic condition of the tribe, and that it... has often been worse after termination than it was before."[3] The Milwaukee Journal... is passed and... termination became final with the approval of the Wisconsin county, a corporation was created, Menominee Enterprises, Inc., to hold and administer the Menominee's land, forest, and other... The corporate structure instigated upon by federal governments... of any effective voice or influence in running of their own business affairs. Menominee at the time of termination was a... had been transformed by... wealth translated into a binding paying 4 per cent interest with... the year 2000, and 100% of stock... to dividends and date to be non-negotiable until 1971 (it is new under consideration to extend the period to 1972.) Enterprise has the first right of refusal on the bond. Menominee who have investigated the corporation are convinced that private investors are not enthusiastic about securities paying less than 4% interest; they express skepticism that the corporation will be able to... very long, let alone redeem; the bonds in the year 2000.) If the Menominee... country, their own land, they must use the bond. Such land is taxed like any other, and many... do not have their bonds or... property, must suffer great disruption... and using kerosene lamps. As the primary tax payer in the county, Enterprises immediately faced staggering tax on the land is being sold and given... such low interest and... is required. Menominee have been trying... since1970, and... the Vote. The management also points out that preventing land sales... their future. 7. Elect representatives who... needs and desires of the Menominee. "DRUMS has... of the services of Wisconsin enterprises... the northern counties in bringing suits in court... to a group of lawyers against the Department of Interior... for ignoring the hazards of pollution and resource waste in... making a medical clinic... for holding property of another effect... of termination." The city Indians are the... victims. Drums show... by economic exigencies in the county, many exchange rural for urban... the county... is... for... to lose their land... DRUMS major en... July 11, the first such traditional... discuss issues from all angles." So goes Nancy Laurie's report on the deposit. Critics of DRUMS also say... and the decision to take... There were many student supporters of this effort both in... of the... to have continuing co... of the stockholders are to: 1. to prepare a proposal... of a medical clinic... to secure the violated rights of the Menominee people... a paddlewheel project... 1970, was proud to be affiliated with... belongs... to discuss... of... of the Council of Chiefs, a quorum of... there was, I can personally attest to the fine job of cooperation with authorities in the handling of such a large order in the ranks of the... Menominee were... Menominee had embarked on further activities, although progress has been substantially deferred due to a lack of sufficient funds to make the plans feasible. These include... (as taken from the DRUMS newsletter).

On April 3rd, the Menominee will cast ballots to determine whether the Voting Trust is to be... vote on this issue will not be presented until at least a... Keshena rally is planned for March 26th to discuss all issues pertinent to the next election.

The Voting Trust: 1. To provide... of the stockholders... the corporation controlling Menominee Enterprises, Inc., which the... and Associates, Inc., of Wisconsin, particularly Stevens Point, were aware of the protest by the Menominee on... October which ensued due to the general concern about Menominee... and DHUMS are... by the council that... 13,1971, called by the Council of Chiefs for a quorum of... was not present. All three chapters of... Menominee, President, General Motors, General Electric, and IBM. American Telephone and Telegraph get along fine without... 13. To make every effort to influence the... of Menominee Indians in their own government.

DRUMS recognizes an obligation to this committee. However, they also realize that the question continuing commitment to the Menominee position must be faced by those who are members and supporters of DRUMS. DRUMS will continue to work in this manner, while working with this committee to reverse the Termination Act. It in no way affects its intermediate objectives of stopping the sale of the land and the elimination of the Voting Trust.

Vine Deloria is also interested in the Menominee cause. He made a trip to... Menominee meeting in Keshena about the devastating effect of the Voting Trust.

The Menominee Reservation is a... of $3,000 in bond paying that private investors... the corporation was formed, Menominee Enterprises, Inc., to hold and administer the Menominee's land, forest, and other... To the Editor:

Tonight I most audaciously propose what I believe to be the Fundamental axioms concerning the plight of man since his inception. The premise exists within the existence of man and is a concomitant of this "virtue", which is the separation of the means and ends. Throughout man's brief and lingering history he has consistently vindicated all means by the supposed divinity. The slaughter, the human suffering, all augmented by the continual bewilderment of man by man. Even today, or I should say, especially today, I view the man against man and the man against environment atrocities with a mortified ends justification.

Surely, you say, this explanation is peccadillo via simplicity, yet when proved more profoundly we shall see it is not.

Today I shall strike with a quasi-cognition that all knowledge, sciences, beliefs and doctrines are possibly nothing more than illusionary rationalizations manifested by the human condition. Man at one time lived a semi-animal life where the means never separated from the ends, nor did he entertain a "advancement" the godly reason commenced. Man for the first time gained a consciousness of himself, of death, and fear, thus ingrained with the notions concerning the "Now" embarked. Henceforth man becomes conscious of his supposed short time of life and in desperation implements a pseudo-relief from mental anguish, separation of means and ends.

We can now view man's pathology ridden score card of appealing deeds, where in tormentled death, nor human butchery, nor feebleminded aggression is left unjudged. Surely, you say, had not all past and present human suffering and killing taken place man may not have "advanced" to his "higher" civilization. The fact is man has gotten to his precarious plateau not because of separation of ends, but in spite of it. Let us for get Mahatma Gandhi, Martin Luther King Jr., and a fellow C.O. Socrates. There have always been men with the moral interpidity to face life, or better to realize and live knowing the means can't be separated from the ends, for this is absurdly inconceivable. Today there are those who believe man has fallen below the extinction threshold, I am not that pessimistic (or realistic) biologically, but spiritually, amen.

I am deeply troubled by my generations and all generations around me, for I perceive them submerged in the "now" evading trap becoming unconsciously dull and insensitive in living the dead worlds of past and future mental obsession. We boggle our minds and bodies with paraphernalia of life numb-ers; music, books, soma, knowledge, drugs, aquavitae and food, consuming our entire world in our fear of living. Yes, living, people are sick with passions of life, think about it, when you are ever delighted with solitude, when you are not possessed with doing something just anything to get from an essence of insecurity.

Well peoples time to brighten up the gloomy skies before we have an out break of suitter. Suppose we not only intellectually comprehended, but deeply felt the meaning of the means and ends. We would start realizing the degree of our pathological folly, that of past-mean and future - ends - time. We would realize that life is Now, not yesterday nor tomorrow and develop the intensity felt when nearing god's inevitable living in the eternal moment.

These pious concerns are not suggestive of hedonism nor futurity (nor a return to animalism!), for these are not opposites, but synonymous symptoms of the human condition. What is meant is the mind should feel all the transcendent for all other joys are necrophilic. I deplore panaceas and pancrestons, yet I can't help but believe that we, people with earth, could produce universal ahima, and a genuinely involve in active love. We must under go a metamorphosis to man-life's real essence from shibboleths of illusionary rationalization and accept man's life-death joy.

On the evening of March 27, the community will be treated to the annual bovine pageant of the Miss Stevens Point Beauty Contest. A seemingly innocuous way to spend an evening. The aspirations of the contestants are certainly to be commended—"Today, Stevens Point, Tomorrow, the Universe!" Such an event can hardly pass without comment.

Each of the girls will exhibit her unique talent and beauty before a panel of distinguished judges who will make the final decision as to who really is "the fairest in the land". To lend an air of integrity to the program, each finalist will be asked a question of momentous import. Of course, her answer doesn't really matter as long as she articulates. After all, the hearing in question was only a verbal hearing, then Miss Garvey should not have been called to the stand, only a physician or psychologist, or some other member of the medical field, who could competently comment on my husband's mental status, should have been present to testify.

Mr. Bablitch is very concerned over "responsible journalism." Yet he failed to spell the name correctly. Really, Mr. District Attorney, how thorough are you? Can you honestly say you have made any less mistakes in this case than the Publisher? I'm afraid that everyone involved is "all too human."

A Reply To Bablitch

To the Editor:

The Pointer on two issues, 1) I was never informed of the nature of my husband's legal transgression until his second appearance in court. At his first appearance, bail was set at $1,000, in accordance with the definition of the state of Wisconsin laws, bail can be set no higher than the maximum fine if the defendant is found guilty, it would be natural to assume a felony was involved, the maximum fine for a misdemeanor is $200 and since this was the charge from the onset, the court erred in setting his bail at $1,000. The court was informed of its error and subsequently reduced bail to $200 with not even an apology. 2) If the Jackson Workers Club was given the opportunity to nominate young americans for outstanding service during the past calendar year. We had planned to nominate your group, but found that the award is made only to one individual; therefore, we wish to extend to each of you, through this letter, our personal and organizational commendation for your enthusiasm and concern in the planning and actualizing of the project. We hope that you are aware of the many people in the Stevens Point area that are behind the project and expressed their pride for "our University students" because of this project.

Please accept our congratulations for your willingness to be involved with the needs of mankind.

Most sincerely,

Mrs. Robert Dodd

President

...Unquestionably, the day of the printing, most of the university community has seen the tripe labeled "In The Know Kit." The nature of this material is for the most part beyond reasonable discussion...All the way to the point of absurdity. We can only ask, incredulously, how it is possible that Student Activities fees paid for such trash (to use an old argument). Let us examine it, generally, for what it is saying to students.

As a remarkable example of the fragmentation of knowledge this packet urges us to "keep an open mind" to ideas and philosophy in its opening statements. How pretentious! Where, in that collection of subjective drivel does one find an idea, much less a philosophy? It tells us "how it is (supposedly) and how to "cope" but does it dare to touch upon "what" is wrong or why?"

"Being active on campus can prove to be one of the most satisfying aspects of your college life."

With this statement we are told to "get into it."

Into what? We are not told about studying until page 24. What we should get into is the campus "social thing" and when you get there, as it predly exists, the rest of the packet will help you to battle it. Page 7 (at the top) it takes us into a mystical illusion by telling us that the proper state of our economic status relies on the stars banging

A Few Comments

**Fainstadt Art Donation**

The failure of the law to place some value upon a student's work represents a direct threat to our efforts as students. It is the view of a portion of our society that the efforts of students (their work, study, and pursuit of the creative arts) are of little or no value, and, make no contribution to society, i.e., that we are "bums..." consuming much but contributing little.

Therefore, we (the students of WSU) should establish a precedent in this case, that a student's work is not valueless. If 50 to 100 students would contribute one dollar ($1.00) we could have collected the sum for a restoration of Mr. Fainstadt's destroyed work. The work to be donated to the University as a symbol of the fact that our work as students is of value, not only to us but to society as a whole.

**Know? Kit**

Together. By this line of "thought" if you are a Scorpio you will have an orgasm in November.

In general, the section on sex is in bad taste. Are young people really that naive or are the memories of others fading somewhat? "Women play at sex to have love; men play at love to have sex." Now we know.

Concerning birth control we have two comments: (1) Legalize it and (2) supplement that legalization with proper sex education. That part on Campus Protest is almost a belly-laugh. We hope the "activists" recognize that. The Student Handbook may tell you where the Counseling Center is. Overall, this packet seems to say a brief hint at what the purposes of a university are.

The nature of the beauty pageant. A pageant is, by Webster definition, after all "empty pomp and display." Can we criticize an event for being void of something that can be useful to obtaining a decent job? I have enough left over to finance the economic rehabilitation of South America and Latin America; and have even left over to finance the resurrection of the black ghettos and city problems.

Kathy's Kitchen

Hungarian Cooking-

I am blessed with four wonderful Hungarian aunts. And my childhood memories of them include yearly family reunions with mounds of sugar-coated Hungarian pastries and cakes heaped on well-laden picnic tables. Their baking and cooking skill is an art, and I am delighted that they have sent along some of their recipes for us. I include only three here; there will be others in later columns.

First, from my Aunt Liz, who is also my beloved godmother— a most unusual coffee cake.

**Hungarian Coffee Cake**

Dissolve 1 cake yeast, 1 T sugar in 1 C lukewarm milk. Then in a bowl:

- 4C white flour
- 1 salt
- 1 C cold milk
- 5 egg yolks
- 1/4 C soft butter or margarine

Mix all together. Then add dissolved yeast mixture. Make a soft dough, and set aside for 15 minutes. Then roll about 1/4 inch thick and spread with filling as follows:

- 2 c cream
- 1/4 C sugar. Spread brown onions lightly in fat. Add with 1 C chopped nuts or ground poppy see. (If you can't get the bulk poppy seed, combine 1/4 C soft butter, 1/4 C sugar, and 1 can "Solo" Poppy Cake and Pastry Filling, and use this as the filling.) Then roll up like for jelly roll. Cut into slices 1 inch thick. Put slices in tube pan, laying one slice down, and one slice standing up. Then alternate them on top, Cover, set aside till dough is double (about 1 hour) and bake at 350 degrees for about 45 minutes. Invert pan, cool and serve.

From my Aunt Barb, two good dinner-time dishes:

**Cauliflower Casserole**

Cook 1 good-sized head cauliflower in salted water until tender. Drain, cut into pieces if you like, and place in buttered baking dish. Cover with 1 C bread crumbs, season with salt and pepper and pour 1 C sour cream over it. Bake in 350 degrees over 20 to 30 minutes, until bread crumbs are browned.

**Chicken Paprikash**

3 pound frying chicken, disjointed
- 2 onions, finely chopped
- 3 T fat
- 1 T paprika
- 1/4 C sour cream

Wash chicken well and drain. Brown onions lightly in fat. Add paprika and the chicken. Sprinkle with paprika. Cover and cook slowly about 1 hour or until tender. Pour sour cream over chicken. Heat for 1 minute only, and serve over freshly boiled noodles.

New Student Village

An alternative experience in university living will soon be offered to upperclassmen on the Stevens Point campus. A Madison partnership is building a sixty-four unit apartment complex on north Michigan Avenue.

The Village will consist of two buildings of thirty-two apartments each. Each apartment will have 875 square feet of floor space containing two bedrooms, two full baths, a kitchen, living room and dining area. Each unit will house four students.

The apartments will be completely furnished, including carpeting and drapes throughout and individual desks for each student. The rent will also cover all utilities, air-conditioning, full size range, refrigerator and dishwasher, cable T.V. hook up and full sound conditioning.

The developers plan to start construction immediately and expect to have the buildings ready for occupancy by the time school starts in August. They are involved in similar student housing projects in Madison, Platteville, and Oshkosh, and plan to add two more buildings to "The Village" next fall.

Students will rent individually and will be responsible only for their own share of the apartment cost. The developers say that for students who do their own cooking, the apartments will be competitive in cost with living in a dormitory and eating in a residence hall.

Applications are now being accepted from juniors and seniors for fall occupancy. They may be obtained by calling Lysa Fanstill at 344-2296. Students may apply in groups or individually.

Studying for the mental vote of the 92nd Congress is expected to come during the week of March 8 in the House and the week of March 15 in the Senate. The results will be most revealing.

---

**EUROPEAN STUDENT TRAVEL**

**SST**

The first really significant environmental vote of the 92nd Congress is expected to come during the week of March 8 in the House and the week of March 15 in the Senate. The results will be most revealing.

Prisoners Of War Part IV

by Seymour M. Hersh

Copyright, 1971, 
Renee Bouchal
Washington, D.C.

The Pentagon angrily denounced the St. Petersburg Times report, but the State Department was getting a little concerned about the growing inability of the wives and families of the men missing in action over North Vietnam to get any kind of information from the Pentagon.

Crossing the country on a tour of American bases, Mrs. Weiss heard from a number of the young wives that the problem was almost as bad as it had been when she was last there.

In late June, a three-man American peace delegation returned from Hanoi with the incorrect information that the previous list of 335 American prisoners was complete.

Miss Weiss gave the list of 335 men to the New York Times, which published it on June 29, 1970.

In a subsequent interview, Mrs. Weiss explained that her purpose was to remove the prisoner issue from the discussions of the final settlement between the Vietnam peace negotiators and the United States. She said that the issue was not the prisoner issue as such, but the continuation of the war. These men could have been home for Christmas if we were interested in a negotiated settlement.

Mrs. Weiss eventually announced that she and other antiwar leaders had agreed, at the beginning of the year, to try to help the wives of American prisoners of war toward the military.

The Pentagon, however, spent much of the year disputing and denying the release, publication and discussion of such lists.

In late June, Mr. Weiss announced that he and other antiwar leaders had agreed, at the beginning of the year, to try to help the wives of American prisoners of war toward the military.

Excitement mounts as the ten finalists vying for the title of Miss Stevens Point 1971 strive to perfect the individual talent presentations each will perform on stage March 27 at 8:00 in Old Main Auditorium, W.S.U. Stevens Point. On that night before a capacity crowd Miss Sandra Kay Poeltter will relinquish her crown as a memorable year of reigning as official Hostess for the city of Stevens Point comes to a close. Surrounded by her Court of Honor, Sandra will be present when the new Miss Stevens Point introduces herself to the community.

Serving as her Court of Honor, and also taking an active part in the production will be "Miss Sheboygan 1971", Miss Judith Zwirchitz; "Miss Sheboygan 1970", Miss Deborah Schoreder, and "Miss Stevens Wisconsin 1969," Miss Jennifer Hyland.

The honored Mistress of Ceremonies for the sixth Miss Stevens Point Pageant is Miss Sharon Sjolons, Miss Wisconsin 1965. Sharon is the lovely and talented former Miss Wisconsin who brought fame and prestige to our state as fourth runner-up to Miss America. "The Golden Girl" as she was nick-named, was also a member of a special troupe of entertainers which visited and entertained our troops in Vietnam.

The ten finalists in this year's pageant are all coeds at W.S.U.-Stevens Point. They include Miss Dottie Howlett, from Green Bay, sponsored by Sig Tau Gamma, who will sing "Sixteen Going on Seventeen"; Miss Christine Johnson, from Brookfield, Illinois, sponsored by Alpha Sigma Alpha, who will perform a modern dance to the song "One Note Samba"; Miss R. Candace Erickson from Greendale, sponsored by the University Swing Choir, who will sing "Hello, Young Lovers"; Miss Sue Anderson, from Kaukauna, sponsored by the University Cheerleaders, who will execute a floor exercise routine; Miss Patricia Jacobs, from Wauwautosa, sponsored by "The Cloister", who will sing and dance to the tune "On a Clear Day"; Miss Shirley Badtke, from Appleton, sponsored by 4E Neale, who will present an interpretive dance to "Soul Breeze"; and Miss Miriam Olson, from Eagle River, sponsored by the University Choir, who will sing "Black Is the Color of My True Love's Hair."

To add even more spark and vitality to the Miss Stevens Point Pageant, the University Players will be on hand to perform three numbers during the evening in connection with the theme "Magic Carousel". They are also providing the staging for the performance, which involves many hours of construction work and rehearsals.

The Stevens Point Jaycees have played an active part in this year's pageant, and are confident of its success. Publicity Chairman Bob Taylor stresses the fact that this year's pageant "involves not only Stevens Point, but all of Wisconsin." Mrs. Doug Neumann, Co-Producer and Coordinator, maintains that Miss Stevens Point 1971 Pageant will be "the best one we've had yet!" Judges for the event will be Mrs. Arnold Singstock, Mr. Leon Gengler, Mr. Jack Erkilla, Mrs. Mary Lu Lewis, and Mr. Jack Closey.

Tickets for the Miss Stevens Point 1971 Pageant are on sale at the Union Office, at Hannon's Drug Store, at the Holtz and Osco Drug Stores in downtown Stevens Point, from contestants, or from their sponsoring groups. Tickets are $1.50 for general admission, and $2.50 for a reserved ticket. The public is invited to attend a reception, directly following the Pageant, at the Holiday Inn. Contestants will be there, along with the new Miss Stevens Point.

On March 31, the ten finalists can be heard on the WSPT radio station. They will be on the air for a half hour during the station's "Hot Line" Program.

The Pointer of Crandon, Wisconsin - Central Wisconsin - Mar 22, 1971

Stevens Point - The Stevens Point State track team, with balance throughout its lineup, established itself as a genuine challenger for championship honors in the Wisconsin State University Conference when the Pointers won a triangular meet with Oshkosh and Whitewater last Wednesday afternoon and evening.

The Pointers of the first-year coach Larry Clinton amassed 25 & 1/2 points to 67 1/2 for Oshkosh and just 30 for Whitewater. With freshman and veterans alike figuring in the scoring the Pointers scored in all but one of the six events. They were shutout in the high jump.

There were stars aplenty of the Pointers. Senior Jerry Piering was a double winner and set a new school record in one of the two wins. He took his specialty, the 70-yard high hurdles, and then came back to set a new Pointer record in the 60-yard dash as he nipped defending WSUC 100 and 220-yard dash outdoor champion Mike Koop of Oshkosh in 36.1. Piering is still unbeaten in the 60 this season with three straight wins.

Freshman Don Trzebsiakowski of Rosholt was also a double winner as he won the mile in the fine times of 4:32.7.

Kathleen Gehrig and Kathy Smith have made a party at Carol Peter's house.

Other Pointers firsts were captured by Bob Wundrock in the triple jump. The Grafton junior leaped 42-8. John Tassler, a freshman from Westfield, nipped Piering in the finals of the 70-yard low hurdles.

Women's Tennis

There will be an organizational meeting for all women interested in tennis on Monday, March 22, at 7pm in room 119 of the fieldhouse. If there are any questions contact Mitt Biddlestone, room 120 in the fieldhouse, extension 3999.

and then came back to take the 1,000-yard run in 2:34.8.

One other Pointer indoor record was established. Jim Lehman, a freshman from New London, soared to 13'9 as he placed second in the pole vault. The old mark was at 13'6 and held by teammate Mike Walczak.

Other Pointers firsts were captured by Bob Wundrock in the triple jump. The Grafton junior leaped 42-8. John Tassler, a freshman from Westfield, nipped Piering in the finals of the 70-yard low hurdles.

Union Expansion

continued from p.1

informal gatherings for three to six people—will serve the students' leisure time, and kind of human renewal, a place to get away. These "people pockets" will be located throughout the building; there will be display cases for informational materials and other things. The building will be wired for close-circuit television and a public address system—a whole new communication system. Air conditioning will be installed—an expansion of the recreation area to store the cases, tents, etc., will take place. There will be a student lounge areas, similar to Debot and Allen Centers' reference places. A television lounge, possibly two of them, will be constructed, along with a music listening lounge. There will be a typical coffee house lounge, similar to the lounge now in the Union, only bigger. Hopefully, a fireplace will be added in this lounge. A new bookstore area will be added, along with duplicating and poster services. There will be Assistant directors and business managers' offices. Felt will be somewhere near the front entrance of the building will be wall-booths to sell propaganda, relate news, etc., which will help to make student news more accessible to the students than through the "tunnel" and other areas, now being used.

Several additional meeting rooms, one to be divided into two separate rooms, will be built. A communications room to hold press conferences or regular meetings will also be built, and a banquet room, nearly twice the size of the Wisconsin Room, will be added, hopefully. The snack bar will be expanded somewhat, and an additional coffee house room, somehow tied to the snack bar, will serve as an overflow for the snack bar and hold the entertainment that takes place in the Grid now. An additional ala carte dining space may be added—also a new administrative complex for the University food service will be built. The "left-over" old space will be converted into an Arts and Crafts Center, Student Activities Complex, and a maintenance complex. The dining rooms will be re-decorated, besides several other rooms, possibly.

Mr. Hachet has some concern, naturally, about construction difficulties. For instance, the parking lot will probably be lost, and once the building is complete, at least a third of the parking lot will be gone for the expansion of the Union. Mr. Hachet wants to see if parking facilities could be developed for the Union and L.R.C., if the budget would allow it.

About the ideas and plans for the Union, Mr. Hachet says, "We want to be a human building—a people building, where students can interact, and have out-of-class educational experiences." When once completed, the "New Union" should certainly prove to be just that, and more.

SIGMA TAU GAMMA

The Brothers of Sigma Tau Gamma are proud to announce, the formal initiation of, Dennis Collins, Montello; George Franz, Appleton; Gary Lassanske, Milwaukee; Joe Leclair, Jacksonport; Al Makne, Shawano; Jim Pleuss, Marquette; Bill Sanford, Neenah; Jerry Wielichowski, So. Milwaukee; as pledges for this spring.

As with all other fraternities, the Sig Tau's held their national ball tournament at Pittsburg, Kansas, last weekend. We captured second place, after a tough loss in the championship game to the Sig Tau's from Emporia, Kansas.

The Brothers of Sigma Tau Gamma would also like to announce, that we are backing Nancy Schmidt for Miss Stevens Point. The contest will be held on March 27th.

ALPHA PHI OMEGA

The men of Alpha Phi Omega would like to give special thanks to the sisters of Gammi Chi for impressing on us the Joeth Arbitrage Committee to beauty the campus. In the past, they have prepared hand out packets, and have worked for the poor people's drive. During the last couple weeks, members have been busy with pledging. The rushees were a great success, and resulted in a fine class of enthusiastic and eager pledges.

Trippers Activate For Spring

Come out of hibernation and celebrate spring with the Trippers! For those of you who are avid canoeists, (or those of you who want to learn), there are a variety of trips planned. Starting out the season, on March 27, is a day trip on the Plover river with a day trip on the Little Wolf the following day. Trippers will be canoeing through the heart of the Bad River Indian Reservation on the Bad River, April 16-18. The following weekend is a trip on the Red River, which is similar to the Little Wolf. A most exciting trip is planned for April, 36-May 1 on the Flambeau River, including both the South Fork and the Turtle Dam Flowage. May 7-9 finds the Trippers canoeing the beautiful St. Croix River. If you're interested in seeing if L.S.D. canoes in his proverbial red vest, you'll have your chance on May 14-16. He'll be joining Trippers on the Kickapoo River for a weekend of fun. The climax of all the trips occurs on May 21-23 when Trippers will be canoeing the challenging and exciting Peshtigo River. (four foot waves have been reported this year)!

There is also a Trout Fishing Expedition planned for May 16 and a one-day horseback ride for both days the weekend of April 24-25. Rock Climbs are scheduled for May 1 and the weekend of May 23-25. Food and equipment are provided on all trips and sign-up will be in the lobby of the Classroom Center the Wednesday before each trip. Watch for more details on these and other trips as the spring season unfolds. Join us and take advantage of spring in the beautiful Northland!!
