

POINTER

SERIES VIII, VOL. 17 UW-STEVENSON POINT, THURSDAY, JANUARY 31, 1974 NO. 17

Administration Charged With Overspending

In the interest of fair play, the POINTER has investigated as fully as we are capable, the circumstances surrounding student government allegations of administrative overspending. It should be pointed out, however, that the UWSP administration has not been able to factually refute the allegations, nor have they been willing to cooperate with the POINTER in clearing up some of the questions brought out by Student Government. This does not mean the allegations are either true or false, but rather that the POINTER has been inundated with information which is newsworthy but basically unsubstantiated. The story is as accurate as humanly possible, under the circumstances.

by Terry Witt and Al Stanek

The annual battle of the budget at this university has taken on a fresh dimension this year with allegations by student government of administrative overspending.

Student Senate President Jim Hamilton and Student Controller Bob Badzinski maintain that an increase in the administrative budget is unjustified in light of the fact that cuts have been made in academic areas. "Priorities have to be rearranged so that educational needs are met first. After all that's what we're here for," said Badzinski.

The administrative branch of the budget has received a 2 per cent increase while Student Affairs and Academic Affairs have been cut by 10 per cent each. Business Affairs has been cut 17 per cent.

Chancellor Dreyfus defended the 2 per cent increase in administrative spending as an effort "to solicit funds. Recently two tenured faculty members were moved into an administrative opening in a development area for the purpose of generating new revenue for the university. The Chancellor never directly stated what the money would be used for but implied that it would be used for retention of faculty. The chancellor's office actually received an additional \$4000 but the executive office's salary budget was increased by

\$15,500. This was accomplished by channelling \$11,500 from non-personnel areas. The additional \$15,500 in salaries is being used to pay the two fund raisers.

The UW-Central Administration provided a formula calling for proportionate cuts in all areas of the budget.

"We feel he (Dreyfus) should have gone by Central's formula," said Hamilton. "Because of enrollment shortfall we were cut by nearly a half a million dollars this year and none of it came out of administration. He takes care of his offices first."

A reliable administrative source has confirmed that we do spend relatively more in the administrative branch than other former state universities.

This assertion is reinforced by an April 2, 1973 letter from Donald Percy, senior UW Vice-president. The letter was addressed to the Wisconsin Legislature's Joint Committee on Finance and was produced at a November 1973 public hearing concerning the non-retention of tenured faculty. Percy asserted that UWSP has the highest percentage of administrative and service costs of the 13 former state universities.

The problem with interpreting these statements lies in the definition of the term 'Administration'. In a POINTER interview Chancellor Dreyfus himself could not define administration in regard to other universities. For this reason the question of administrative over-spending remains unclear.

Hamilton and Badzinski have arranged to present their case before members of the administration within the next two weeks. "We feel we have an airtight case," said Hamilton. The next step is to convince the Chancellor.

Dreyfus and Hamilton agree that nothing has been settled yet, but the hearing will be informative to both parties.

Hamilton said that he doesn't feel the budgetary errors were intentional, but

rather that Chancellor Dreyfus is simply not aware of the discrepancies. "I think he's taking a 'Nixon' on this," said Hamilton.

If administrative and student officials cannot iron out their differences at the upcoming meeting an audit of budgeting practices is possible. Hamilton and Badzinski have already

contacted UW Central Administration. "We didn't get into specifics but we did let them know that we feel there is a problem on this campus," said Hamilton.

Dreyfus stated that he didn't think Central Administration would even give Hamilton and Badzinski an answer to their inquiries. "I

do not accept that central makes the specific internal decisions of how I run this university. That would be highly destructive to the autonomy of this institution. If they tell me how to spend it and I would spend it that way. . . well, that wouldn't be me because I wouldn't stay in that kind of a job," said Dreyfus.

Winter Carnival games brought out a crowd of spectators to cheer the teams on. See feature, pages 4 and 5.

Mall temporarily killed

by Mark Brandt

On Dec. 17, the Stevens Point Common Council held a public hearing to determine the future of the proposed Franklin St. Mall. The final vote of the Common Council was 10 - 3 in favor of the mall.

The Common Council's favorable vote was nullified by the presentation of a petition signed by citizens that reside on both sides of the proposed mall on Franklin St.

The citizens opposing the mall cited that there was no immediate need for it and that having a mall on Franklin St. is not an absolute

necessity. The protesting citizens proposed that students should walk on existing sidewalks and cross the street at designated areas, rather than build a mall for pedestrian traffic.

William B. Vickerstaff, special assistant to the chancellor, explained that the main reason for the formation of the petition was a lack and misunderstanding of information concerning the mall. Some citizens thought that the mall was to be extended from Reserve St. to Division St., thus eliminating a street in front of a block of houses.

This is totally wrong, said Vickerstaff. The mall plans call for vacating Franklin St. from Reserve St. to Isadore St., and not from Isadore St. to Division St.

Vickerstaff commented that the State of Wisconsin has given UWSP \$144,000 for the mall. All that is needed is citizen approval, he said.

Vickerstaff cited that the mall would be a great safety factor by forcing cars to take Fourth St. to the stoplights. Also, the mall would be aesthetically beautiful and add to the overall effect of the area, he added.

Pointer Deadline Changes

All material submitted for publication in the POINTER must be submitted by noon on the Friday prior to publication. This policy will begin with the next (Feb. 7) issue.

To Tell The Truth

Portage County Sheriff Gets Lie Detector

by Mari Kurszewski

Captain Ernest Medina was acquitted of the Viet Nam war crimes his unit allegedly committed. Consenting to and taking a lie detector test proved Medina's innocence and ignorance of the war crimes. To aid in elimination of crime suspects, the Portage County Sheriff's Department has begun using the polygraph instrument on various investigations.

"Can't beat it," are the words detective Mark Wysocki of the Sheriff's Department used in describing the accuracy of the polygraph instrument. Wysocki is the examiner for the polygraph which was recently installed in a back office of the Courthouse Annex.

Wysocki stated that the polygraph clears a lot more people than it indicates. "The polygraph instrument doesn't deal in terms of guilt or innocence, but rather in terms of deception or truth," said Wysocki. "This is due to the socialization process one endures during childhood and on through adulthood," said Wysocki. "As a child, one goes through a conditioning process. He is taught by his parents, teachers and peer groups, the 'rights and wrongs' of society. He is taught that punishment goes hand-in-hand with rule-breaking, and is subconsciously afraid to get caught in a lie."

In describing the equipment Wysocki said, "There are basically three channels to the polygraph instrument: the Cardiograph, the Galvanograph and the Pneumograph section. The first two sections are each equipped with one pen and the pneumograph with two pens. These components record the activity on a graph that the various attached sensory devices measure."

The Cardiograph section records relative blood pressure. This is recorded before, during and after the interrogation. "Changes in the mean blood pressure can be indicative of deception," said Wysocki.

The Galvanograph measures the physiological change in the subject's sweat-gland activity," said Wysocki. Two electrodes on the index and ring-finger of the right hand record reaction of the sweat glands. "An individual tends to sweat more when he is lying," said Wysocki. "People are under the misconception that the electrical current used is of danger to the subject. In actuality, very little current is present," he added.

The Pneumograph section measures the subject's breathing rate. A strap around the person's abdomen and another around the chest record the breathing and respiratory changes. "Changes in ratio of the inhalation and exhalation rate are apparent when the subject is lying by uneven or

suppressed breathing. This would be evident on the graph," said Wysocki.

Wysocki explained three different types of detection tests. The "I&R" test consists of questions of an irrelevant and relevant quality. Wysocki said, "for normal tracing, reaction is tested to a question having nothing to do with the suspected subject's crime." Wysocki explained that the polygraph operates on the emotion of fear. The "Peak of Tension" tests type "A" and type "B" deal with a "choice of variables" relevant and irrelevant to the case. "Reaction to voice stimulus and the reaction to

question material is measured and recorded in these two tests," said Wysocki.

"Usually only two I&R tests are administered," said Wysocki, "consisting of 10 to 13 questions and each test lasting three to four minutes. Yes or no vocal answers are required because any lengthy talk(ing) has an effect on all tracings of all three sections."

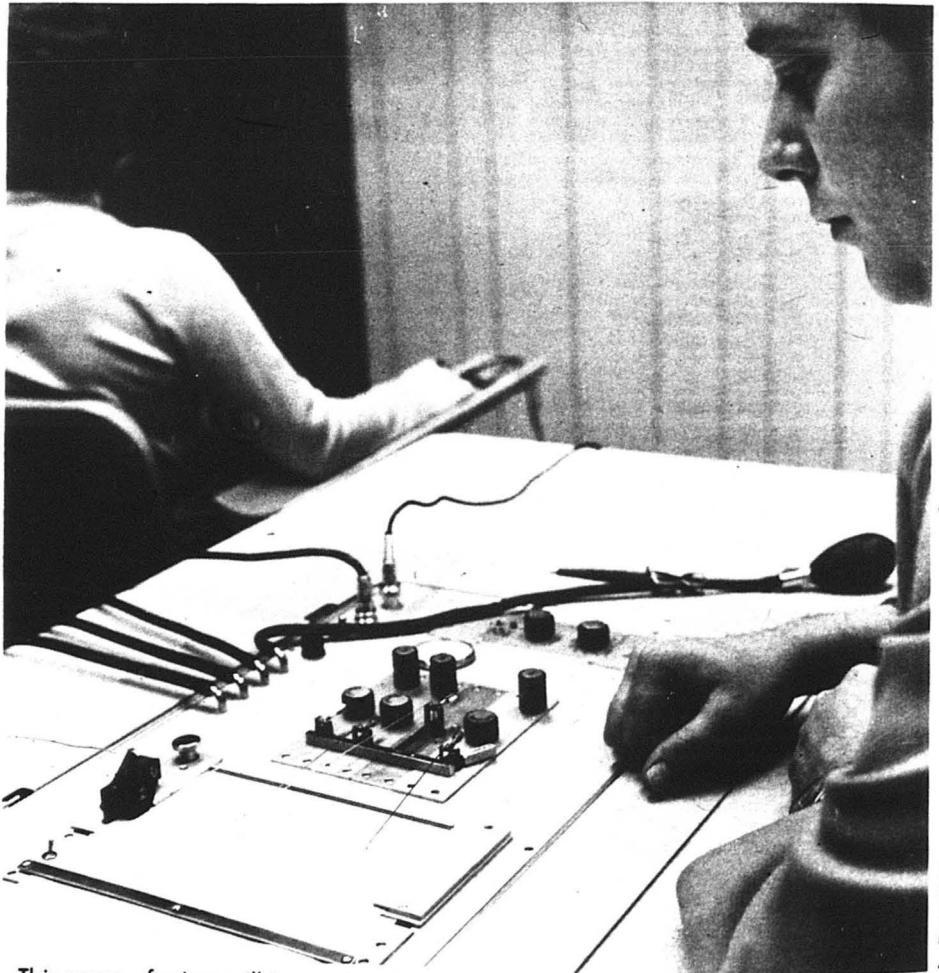

In initiating the polygraph program, Sheriff Nick Check applied for two Criminal Justice Planning grants; one for purchasing the polygraph instrument and the other to train an examiner. Following

a series of tests, Wysocki was selected as the potential examiner. He then studied from Sept. 9 to Oct. 19 at the Keeler Ploygraph Institute in Chicago, Ill. The entire program cost approximately \$10,000. The grants lowered the local share to \$2,400, which was then split equally among three counties: Portage, Waupaca, Waushara.

Wysocki pointed out that Wisconsin laws do not accept the results of polygraph tests as evidence in the courtroom, so the examiner's results are regarded as a "rendered opinion." "Where the polygraph instrument is

extensively used," said Wysicki, "is in the courtrooms out east. Also in large cities, corporations employ polygraph operations to test the integrity and honesty of potential employees."

At present, Wysocki has administered approximately 10 tests but expects the examinations to increase once the other agencies in Central Wisconsin learn of the facilities. When testing is scheduled, the other agencies will be charged for each test. "The UWSP security system as a law enforcement agency, is eligible to utilize the polygraph instrument, if needed," said Wysocki.

Union Addition Criticized by Student President

by Keith Otis

The new addition to the University Center (U.C.), originally scheduled to open early this semester, has been delayed pending completion of minor construction and the delivery of essential furnishings. The addition is being constructed at a cost to the students of \$2,172,400. Completion is scheduled in two to three weeks.

When finished, the new addition will contain roughly the same facilities as the old center with the exception of extended service and larger space. In the words of Jim Hamilton, student government president, the addition is "very costly for more of the same."

Some services which are relatively new will be an audio-visual room with a library of student-selected tapes and magazines. A room with listening stations and a typing room with ten stations will be adjoining this facility.

There will be an enlarged recreation section containing a room for table tennis and table games, a room with seven pool tables and an arcade room featuring foosball, air hockey, and pinball-related machines. The sports equipment rental will also be moved here and should offer greater storage space and convenience.

Other innovations include a new Information Desk with a larger staff and later hours. There will also be a hallway of bulletin boards. Adjoining this front hallway are six solicitation booths which may be used by campus

organizations to distribute their wares.

Additional facilities include three small meeting rooms, one large meeting room, a

visual meeting room, and a large banquet program room which is multipurpose and equipped with a projection booth to show movies. The

old student lounge has been converted to a mini-service lunch room. The Grid has been greatly enlarged by a new addition which can be

sectioned off when it is less crowded. The Home Economics Department has designed unique table tops to match the decor for this coffee house area.

The Text Rental will be moved into the basement of the new part, as will the enlarged Bookstore. Of this Hamilton stated, "The Bookstore is bigger, not better," and went on to say that it is "still as high priced as ever."

This is only one of the controversies arising over the new addition. Another even greater disagreement is that there will be no office space provided for student organizations in the new section. Most student organizations are cramped in their present facilities with no hope of an immediate solution, while University Center Director Ron Hachet, Assistant Director Bud Steiner, and Business Manager Joe St. Marie are moving from their presently adequate offices into new ones.

Zero Population Discontinued

Zero Population Growth (ZPG) is no longer an active organization on the UWSP campus. "This reflects a cooling off of the environmental movement," said Kent Hall, former faculty advisor.

According to Hall it wasn't apathy, but a combination of members graduating and his choice to become inactive.

Hall said he believes the organization reached many of their goals. According to Hall, the organization "was able to lower the threshold towards things such as abortion counseling, sterilization and the need for contraception. Society is now conscious of the need to control population growth and has the potential for handling the crisis of overpopulation."

Vonnegut play, Star Trek, featured at Science Fiction Film Fest

by Mary Anne Moore

A television play by Kurt Vonnegut, jr., *Between Time and Timbuktu* is one of the films scheduled to be shown during the Science Fiction Film Festival, according to Richard Doxtator, science fiction club advisor.

The film festival, which is co-sponsored by the Science Fiction Club and the Film Society, was designed to stimulate interest on campus in both science fiction and film, said Roger Bullis, film society advisor.

The film festival has a two-fold purpose, Doxtator said. "We hope to further the cause of science fiction on campus and in the community," he explained. "We also would like to make enough money to bring speakers to campus."

All films will be shown at 7 and 9:15 p.m. in Old Main Auditorium. The festival is open to both the university and the community. No regular Film Society season passes will be accepted for admission to this series, Bullis said.

The following films are on the three-week series schedule:

Feb. 6 - *The Menagerie*, the pilot episode for the "Star

Trek" series, involves an interplanetary zoo.

Feb. 7 - *No Time Like the Past, The Monsters Are Due on Maple Street, 5 Characters in Search of an Exit*, three of the best one-the "Twilight Zone" series.

Feb. 13 - *Gas-s-s*, directed by Roger Corman (*The Wild Angels, The Trip*), is a satire about a secret army gas which gets out of control and eliminates all people over 25 years old.

Feb. 14 - *The Day the Earth Stood Still*, directed by Robert Wise, is a film involving a sympathetic space traveler who stops on earth and is greeted with hostility. Also, *Dagger of the Mind*, another film from the "Star Trek" series.

Feb. 20 - *Forbidden Planet*, a Metro-Goldwyn-Mayer spectacular starring Walter Pidgeon and Robby the Robot.

Feb. 21 and 22 - *Between Time and Timbuktu*, a humorous and satirical play by Vonnegut which contains segments from four of his most popular novels.

The Science Fiction Club was organized on campus in the fall of 1973 for "the enhancement and promotion

Leafgren, director of housing, concerning the establishment of a screening board to hear appeals from dorm residents who have had charges made against them by the dormitory director and assistant.

The request arose out of a student's removal from a dormitory.

Housing brings the charge against the student made by the dorm director and assistant. Housing also hears the charges, and decides what action should be taken. The appeals also go to housing.

Hamilton said that students should have somewhere else to turn for an appeal, and that a screening board might be the answer.

The Senate voted on three of the resolutions presented at the Jan. 20 meeting of Student Government.

The resolution for the reduction of the Chancellor's Reserve fund from \$10,000 to \$5,000 was passed. Also, the

resolution to eliminate funding of the accountant position from student activity fees was accepted.

A resolution presented by Sen. Bob Kung at the Jan. 20 joint meeting recommending that all faculty and administrative personnel pay a \$45 University Center activity fee was passed after an amendment was added.

The resolution was amended to read that faculty, administrative personnel and students should pay an equal University Center fee.

Kung's recommendation to keep all fluorescent lighting in dormitories and restrooms at a minimum was also accepted.

The resolutions will be sent to the chancellor after action is taken by the assembly at the Feb. 3 meeting.

The recommendation will be sent to all dormitory directors.

Hamilton said that a considerable amount of funds has been diverted from in-

structions and put into administrative funds.

"We strongly believe these funds have been diverted, and we are sure we can prove it," said Hamilton.

In other action, Susan Stark, a UWSP student, expressed concern over how faculty members are dismissed. She said that students should have a say in what faculty members should be cut.

Hamilton said the senate was aware of the problems and has been working on a faculty evaluation survey. These evaluations were distributed last semester and will be continued this semester.

Students have the absolute right to conduct these surveys, said UW Regent John Lavine, and Senior Vice-President-UW System, Donald Smith.

Students were reminded by Hamilton that Student Senate elections will be Jan. 31. HE urged all students to vote.

Housing, voting and fees dominate Senate meeting

by Kris Moun

Voter registration in area elections will be high priority this year, said President Jim Hamilton at the Jan. 27 Student Senate meeting.

Students should support local candidates because the decisions made will affect the student attending UWSP, said Hamilton.

Support shown also has an effect on how the representatives will express the feelings of their constituency, said Hamilton.

A total of 4,000 students voted for Sen. William Babilitch in 97.

A total of 4,000 students voted for Sen. William Babilitch in 1972. This represents 1-5 of Babilitch's votes, said Hamilton, and Babilitch was against user's fees from its conception, he added.

In other senate discussions, Hamilton asked Sen. Pete Anderson, chairman of the student affairs committee, to meet with him and Fredrick

It was then that, along with plans for a new addition, they formed plans for renovating the old part of the U.C. In this plan the old Text Rental and a number of other rooms were to be converted into office space which would be compatible in quality to that in the new addition. Unfortunately, the State Building Commission canned the renovation project two years ago.

Hachet is optimistic that work will be done on the old part; however, it may have to be done "piece meal" instead of as a major project due to unforeseen budget limitations.

Concerning rejuvenation of the old section, Hamilton said, "I don't think that it will be fixed for at least four or five years."

In reply to this Hachet stated, "I don't believe it. I think that it will happen before that."

The Pointer is a second class university publication, published weekly during the school year in Stevens Point, Wisconsin 54481. It is published under the authority granted to the Board of Regents of State Universities by Section 37.11, Wisconsin Statutes. Publication costs are paid by the State of Wisconsin under contracts awarded by the State Printing Section, State Department of Administration, as provided in State Printing Operational Bulletin 9-24 of August 16, 1973.

by Tom Halfmann

Some mornings it just doesn't pay to get out of bed.

Love doctor dares students to love

by Dave Gneiser

Leo Buscaglia challenged the audience that packed Quandt Gym Friday night to "dare to love."

Buscaglia, known as the "Love Doctor," says he is totally committed to love, which means endeavoring to love all men even if he isn't loved by them.

"Life is not the goal, it is the trip which is full of little happenings," said Buscaglia. "Life can only be lived in now, not in tomorrow," he said. He advised the audience to be creative in their lives and to solve life's problems one at a time. "The healthiest person is the one with the most alternatives to solving his problem," said Buscaglia.

The "Love Doctor" read a quote from his recent book, entitled Love, saying, "to be a lover will require that you continually have the subtlety

of the very wise, the flexibility of the child, the sensitivity of the artist, the understanding of the philosopher, the acceptance of the saint, the tolerance of the dedicated, the knowledge of the scholar and the fortitude of the certain."

Buscaglia criticized the educational system and society's treatment of old people.

"What we do to old people in our society is a crime," he said. "we put them in institutions where all they can do is sit and wait to die." In contrast, he pointed to the Italian family structure where the elders are cherished and loved.

Buscaglia criticized educators for placing too much emphasis on perfection. He said that rather than strive for perfection it is better to be human and love it.

"All pets must be kept on a leash."

UW funding restoration urged

Gov. Lucey was urged to restore nearly \$1 million in budget funds for the University of Wisconsin to compensate for money withheld last year pending a study of increased user fees.

State Rep. Richard A. Flintrop (D-Oshkosh) asked Lucey to include \$934,000 for the UW System in his budget review bill, which will be submitted to the State Legislature when it convenes in Madison, Jan. 29.

When the 1973-75 biennial budget was being prepared

early last year, \$1 million was left out of the UW budget until the Board of Regents could study ways to increase the use of user fees for certain non-instructional activities.

The final budget approved in August of last year mandated the user fee study, but specifically forbid any fees from being applied to students. The governor

vetoed that exclusion, but the Assembly has overridden that veto. The Senate will consider the veto in the upcoming session.

Flintrop noted that the completed study by the Board showed that a maximum of \$66,000 could be generated by additional user fees.

"The only fair response to

Philosopher to Talk on Infinity, Religion and Math

Peter Wenz of the Philosophy Department will lecture on "The Concept of Infinity and the Beginning of Time" in the Muir-Schurz Room of the University Center on Wednesday, Feb. 6, at 3 p.m. This public lecture and discussion is open to all students and faculty without charge.

Wenz will explore one premise of an ancient argument for the existence of God. That premise -- that an infinite regress of changes is impossible -- seems to be supported by the current definition of infinity in

mathematical set theory, according to Wenz. If true, the premise would seem to stand against the possibility of an infinite series of changes as held by some physicists, including those who propose the "big bang" theory of "creation."

Wenz' lecture is the first in a series of talks on philosophical questions to be sponsored by the Philosophy Department. On Feb. 20, at the same hour, Richard Feldman will talk on "Natural Rights, Dirty Books, and the First Amendment."

A look at arts and lectures

Warsaw Philharmonic on Friday

by Mari Kurszewski

"No one could attend the same concerts in Chicago for under \$7 per ticket," said Carol Hopper, assistant student director of the arts and lectures series, in comparing the student's opportunity to attend concerts for 50 cents at UWSP. "The Series," said Ms. Hopper, "presents 20 concerts per school year."

The Arts and Lectures Series is underwritten by student fees. "This is one of the reasons the series can afford to charge the individual student a minimal fee for the concerts," said Ms. Hopper.

Student Director Dean W. Hanford, and Ms. Hopper both advise and work closely with a student committee. "The major policy-making group," said Ms. Hopper, "is the student committee. The committee is not just limited to music students but rather made up of representative students from all facets of the University."

Ms. Hopper pointed out that the students manage the box office, the house during performances and make major decisions involving the budget and performances.

Ms. Hopper said that all of the productions are presented on campus, either in Jenkins Theatre, Michelsen Concert Hall or in the Quandt Gym. "Soloists perform in Michelsen," said Ms. Hopper. "The larger productions are presented in the Quandt Gym."

Ms. Hopper told of coming cultural events. Arts and Lectures will present the

Warsaw National Philharmonic on Feb. 1, violinist Jean-Jacques Kantorow on Feb. 10, and Israeli pianist Ilana Vered on Feb. 20. The Ballet Repetory Company will be presented on Feb. 21; the Netherlands Wind Ensemble on March 3; rock adaptation of Shakespeare's comedy, "Two Gentlemen of Verona" on March 10; and cellist Jonathan Abramowitz on March 17; John Stewart will play the violin and viola on April 17 and clarinetist Michael Webster concludes the series April 21. All events begin at 8 p.m.

"The Arts and Lectures Series is available to all students, and is open to program suggestion," said Ms. Hopper.

The Warsaw National Philharmonic, which holds

this study is a restoration of the \$934,000 withheld from the university system budget which cannot be generated by new user fees," said Flintrop.

According to Flintrop, the Regents determined that UW students are already paying \$164 million in tuition and various fees. They also pay \$418,000 in segregated fees for instructional services and activities that should be supported by general tax dollars or other methods.

"University students already depend on financial aid for between 30 percent and 45 percent of their total costs, and increased user fees could only create further money problems for many of them," Flintrop stated. "At a

time when Wisconsin is trying to open up its university and when the cost of living is skyrocketing, it would be unthinkable for the Legislature to impose additional costs on students," he added.

The Board of Regents study also reported that 80 percent of the cost of intercollegiate athletics and individual and group recreation is already financed by user and segregated fees.

The governor's annual budget review bill will be considered by the Legislature's Joint Finance Committee, which will recommend changes before submitting the bill to the entire Legislative body.

Resolution passed to reduce student fees

by Mary Budde

The financial burden on students should be reduced to no more than 25 per cent the cost of instruction, urged the Student and Faculty Affairs Committee at last week's Faculty Senate meeting. The resolution was made primarily for resident undergraduates.

Reasons given for the resolution were that tuition has doubled in the last four years; new fees covering the cost of construction have increased; and the cost of living has increased.

The senate passed the resolution. It will be sent to Central Administration.

After analyzing the local operational budget at UWSP, the Student Senate believes they have found an unwarranted diversion of about \$900,000 in funds, reported Carol Marion for Student Senate President Jim Hamilton.

The Student Senate believes the funds have been diverted from the academic and instructional budget to administrative and other areas of campus. The Student Senate plans on sending a copy of these findings to the chancellor, said Ms. Marion.

The Student Senate also asked for faculty participation in their evaluation of courses.

The adoption of a minor in museum technique was passed by the senate. It is to be part of the Department of Biology.

It was also passed that math placement tests, in addition to high school performance, may be used to place students in math courses.

The Search and Screen Committee announced that applications for the vice-chancellor position are still being accepted. Any interested faculty members were urged to apply before March 1.

Review

Bands Provide High Time

by Dave Gneiser

There was a smell of excitement in the air, among other things. At last a "big name" group was coming to the sleepy burg of Stevens Point, and the audience waited impatiently. Some members of the audience tossed a frisbee around Quandt Gym, while others were blowing bubbles. Those bubbles didn't mean Lawrence Welk was coming either.

"T. S. Henry Webb" ex-

ploded on the stage in a wild, crazy style. If you had to sum up the "Webb" crew in one word, it would be dynamic. Constantly on the move, "Webb" covered every inch of the stage in their romp. The leader was capable of playing many different instruments although he was unable to do a job with the flute.

There was some disagreement after the concert between those impressed with "Webb" and the loyal "Wishbone Ash" fans. One reason suggested for "Webb's" popularity was that all the dope was smoked before "Ash" got to the stage. Maybe so, but more important is the fact that "Ash" and "Webb" are two very different groups. They have two very distinct styles. It's not a case of one being better than the other. "Webb" and "Ash" were both good but for different reasons. The dynamic "Webb" was a hard act to follow and the more refined "Ash" got off to a slow start. "Webb" was fun to watch, but the music of "Ash" had so much more quality.

Whichever band you liked best really isn't important when you consider the most important event of the night. Finally, a "big name" concert sold out in Stevens Point. This means a possibility of having more such concerts if we are willing to support them. If we do get more concerts we could lose our image of a "nothing happens here" school.

the highest citation for achievement given by the Polish government, will perform in Quandt Gym at 8 p.m. on Friday night, Feb. 1, at UWSP.

The repertoire to be used in the Stevens Point performance will include works by Szymanowski and Ravel plus "Symphony No. 4 in F Minor" by Tchaikovsky.

The philharmonic was created in 1901 by Emil Mlynarski, a composer and conductor well-known in the musical worlds of Europe and America of those times.

Today the philharmonic is Poland's primary musical institution, disseminating Polish and international musical culture.

The approximately 120-member orchestra is being brought to campus by the Arts and Lectures Series.

Native American Presentation Set for Three Days

by Bruce R. Beaman

The UWSP Historical Discourse Society will present special programs on Native Americans and American colonial history on Feb. 5, 6 and 7.

There will be a double presentation on Tuesday, Feb. 5. Russell S. Nelson, Jr. and David R. Wrone of the UWSP history department will discuss their recently published book, *Who's the Savage*. The book relates the mistreatment of the North American Indians at the hands of the white man. David Tousey, a UWSP senior, will speak on the "Oneida Constitution," concerning the Oneida tribe of Native Americans. The program will begin at 7:30 p.m. in the Frank Lloyd Wright Lounge, University Center. A question and discussion period will follow.

The program on Feb. 6 Maurice Rice, Jr., will

present, "The Voyageurs", a slide presentation and commentary on the colonial fur trade in North America. The program will be held at 8 p.m. in the Wright Lounge, University Center. A question and discussion period will follow.

Leland Pomainville will present a lecture and slides concerning medicine and medical practices of the American Indian. The program will be held on Feb. 7, at 8 p.m., in the Wright Lounge, University Center.

These programs will provide an excellent opportunity for interested persons to learn about some unique aspects of American Colonial history and Native Americans, according to Bruce R. Beaman, programming director of the Historical Society.

The programs are open to students, faculty and the public. No admission charge.

Job Interviews Dates Set

All graduates are urged to take advantage of the following interviews by contacting the Placement Center, 106 Main Building, at their earliest convenience. Literature concerning the companies listed below is available in our placement library and should be read in preparation for your interview. Attire for placement interviews should consist of a coat and tie or an appropriate dress.

Feb. 5, St. Regis Paper Company. All pulp and paper science graduates.

Feb. 5, Hercules Chemical Corporation, Delaware. All paper science graduates.

Feb. 5, S.S. Kresge Company. All majors for retail management positions.

Feb. 6, J.C. Penney Catalog Division. All majors - especially business administration, economics and liberal arts graduates with a marketing interest. Job descriptions and literature available in the Placement Office.

Feb. 6, Wisconsin Department of Transportation (Wisconsin State Patrol). All majors - especially ethnic minority and female individuals.

Feb. 6, Combustion Engineering, Inc. Connecticut. All paper science graduates.

Feb. 7, Westvaco, Covington, Va. All pulp and paper science graduates.

Feb. 11, Packaging Corporation of America, Evanston, Ill. All majors - especially paper science graduates for positions in sales, marketing, accounting and production management.

Feb. 14, Aid Association for Lutherans, Appleton, Wis. All majors for home office management and sales positions. Lutherans only are eligible for officer and top management positions. As a fraternal life insurance company, Aid Association for Lutherans, is exempted from certain aspects of the equal opportunity employment code.

Feb. 19, Shopko, Green Bay, Wis. All majors - especially business administration and liberal arts for positions in management trainee programs.

Feb. 19, Nalco Chemical Company. All paper science graduates.

Feb. 19, Upjohn Co., Minneapolis, Minn. All biology, chemistry and/or science graduates for pharmaceutical sales positions.

Feb. 20, State of Wisconsin (Bureau of Personnel), Madison, Wis. All majors interested in positions in general administration, social services, laboratory and therapy, engineering, natural resources, accounting and finance, information services and teaching.

Feb. 20, Ryder Truck Lines, Inc., Jacksonville, Fla. All business related majors and/or other major with two years active military service, between ages of 24-29, U.S. citizenship required and free to relocate.

Feb. 23, Federal Civil Service Entrance Exam will be given on campus in the Science Building, Room A-121 from 8:30 a.m. to 12:00 noon. All interested students please sign up for the exam in the Placement Office, 106 Main Building, and pick up the necessary application booklet.

Feb. 26, Sears, Roebuck and Company, Skokie, Ill. All majors (seniors) interested in retail management training programs or catalog management training programs.

'Whisper' centers around suicide

by Debi Hill

Neurotic depression and pessimistic attitudes were influential to the performance of *WHISPER INTO MY GOOD EAR*, presented Jan. 16 - 19 by the University Studio Theatre. Student Diana Du Pree was the director.

Broadly speaking, a play is the representation of man in action. However, the action of a play is not created merely of physical movement for it depicts mental and psychological functions which motivate the external

behavior. Such was the case with this 90 minute drama.

Charlie and Max, played by Robert Schoenbolm and Michael Sheridan, respectively, were two old men who felt they had little to live for and thus contemplated suicide to end their loneliness and dejection. Suicide, to them, seemed a probable answer to their cynical disposition toward old age and Max's guilt regarding his homosexuality.

Jan L. James intelligently fashioned the costumes as

outdated, but contemporary, winter garments. Max possessed several coats, trousers, etc. and wore all that he had this "final" day, some of which would be shared with his friend through the course of the play.

Make-up became a problem. Using a flesh-tone flat finish latex to perform necessary wrinkles and blemishes on the faces and hands transformed the young men to old. The "mask" was a wet solution which began to dry, causing a "peeled" effect to the neck and mouth areas of the characters. Further experimentation was necessary before the problem was eliminated.

Setting was basic, with two park benches centered on a cement sidewalk depicting Nes York Central Park. Properties were simple. The actors carried a newspaper, a bottle, a pomegranate and a gun and either "littered" or thought better of using them (special reference to Max's gun).

Technical expression was particularly effective. Day-outdoor lighting was yielded by the use of non-uniform patterns and various light temperatures or intensities. Blue and white compositions depicted a cold, gloomy, December day. Lights dimmed and shadowed to emphasize character mood and loss of day-light hours.

Although it took patience and determination to stick with the seemingly slow moving drama, the conception of reason, perception and atmosphere of the production certainly "whispered into my good ear," leaving me mindful to similar situations, and satisfied with the characters' psychological rehabilitation.

leadership workshops planned

Student Activities along with the Housing Office will be holding a mini leadership workshop for anyone involved with campus organizations. The sessions will include "Community Resources" on Feb. 11, "How to Rally Support and Action" on Feb. 25, "Group Goals" on

March 12, and "Getting Ready for '74 and Specifics on Goals for Campus Organizations" on April 8.

All sessions will be held at 7 p.m. at DeBot Center in the Main Lounge. The format for the sessions will include a short lecture and discussion.

Stored nuclear waste "Enough to kill us all," says Hoover

by Lloyd Nelson
"There is more than enough nuclear waste stored now to kill every individual in the world," said Charles W. Hoover, associate professor of the University of Minnesota. He lectured on the ecological environmental effects of power plants on Wednesday, Jan. 23, at the Collins Classroom Center.

Hoover has done special research on radiation physics and presented testimony at congressional and state

hearings on environmental effects of power plants. Nuclear wastes are from one million to one billion times more toxic than poisons such as cyanide on a per weight basis, he said. At present there are 90 million gallons of waste on hand.

Hoover countered Atomic Energy Commission (AEC) claims that these wastes are being converted to salts by saying that only 1 per cent of these nuclear wastes have been successfully treated.

Wastes have even been released into open waters, he said.

According to Hoover, the most important question is what should be done with radioactive waste materials. The costs alone are very high. At present it is costing between two to three million dollars for waste storage.

After World War II we felt a moral need to develop a 'good' use for atomic power, according to Hoover. This need was felt as a result of guilt feelings after dropping nuclear bombs on Japan. It was a means of atonement, Hoover said.

termed inoperative or have been closed for safety reasons, said Hoover.

Hoover went on to say that there are still many unanswered safety problems and what we are left with is a number of "dead white elephants."

Energy consumption in the building and operating of these plants should be considered, Hoover said. As of 1970, 10 times the energy was consumed in the building and operation of nuclear power plants than all that had been produced, he added.

If a major accident occurred at a plant such as the one proposed at Rudolph, Wis., immediate damage would amount to \$7 million property damage and a human life loss of about 3,400. These are old figures and have been updated to even higher numbers, he said.

Hoover said that even at present, nuclear contaminants have been linked with genetic mutations and occurrences of stillborn babies.

Although nuclear power appears to be the answer to our present energy crisis, it is not the savior that it seems to be, commented Hoover.

Nuclear power production is dependent on fossil fuels. We are therefore burrowing deeper into our already declining fuel reserves, Hoover stated.

According to Hoover, it is not only health hazards that present a problem. National security problems also arise. He said that extremist groups may sabotage nuclear reactor plants and/or use them as scare tactics to their advantage.

Hoover cited a case that arose in Argentina in which a guerilla group machine-gunned a nuclear reactor plant. Luckily the plant was inoperative and the storage tanks empty, he said.

Because of these feelings we rushed into nuclear power production without proper regard to the safety aspects. Nuclear power was at first viewed as a savior, he said.

Of the first generation of nuclear power plants, seven or eight have been declared failures and have either been

Cross-country ski club formed

by Steve Lybeck
Thirty-five cross-country skiers from campus and town met recently to discuss plans to form a cross-country ski club. The group is a division of UAB Trippers but with its own officers. They plan to promote cross-country skiing for anyone in the Stevens Point area, establish trails where snowmobiling would be prohibited, improve skiing skills, and instruct beginners. The club will meet every Wednesday evening at 7 p.m.

in the Nicolet-Marquette Room of the Union. Membership is open to anyone who is a cross-country skier or interested in learning the sport. There are no dues.

The club plans to sponsor several clinics to demonstrate waxing of skis and various techniques of skiing. They will be open to the public.

Car Pools Still Forming

by Lloyd Nelson
A university car pool is in operation at the UWSP campus. According to Lyle Urdike, chairman of the environmental council, the

car pool was set up to allow people living in the same general area a chance to share transportation and conserve gas.

The idea of the car pool was originated by John Sungstrum, a business affairs office staff member.

Environmental Council Gets New Office

by Lloyd Nelson
The Environmental Council office is now located in room 109, Collins Classroom Center.

This announcement was made by Lyle Urdike, chairman of the council, at its first meeting for the second semester held Tuesday, Jan. 22, in the Mitchell Room at the University Center.

representatives to the Conservation Coalition of Wisconsin (CCW). The CCW was first formed in April of 1973. Purposes of the coalition range from engaging in fact finding and research to promoting sound state legislation in environmental matters.

Car pool members fill out forms, information is taken from these forms, filed and people are matched according to where they live. At present there are 90 members in the pool.

Anyone interested in joining should pick up the forms at the Environmental Council Office located at room 109, Collins Classroom Center.

Rosanne Proite, a sophomore and political science major at UWSP, has been selected as "Resident of the Week" here on campus.

Rosanne is an Associate Director of the Great Lakes Association of College and University Residence Halls. She is active in the Roach Hall Council at UWSP and serves as a delegate to the monthly United Residence Hall Association.

Ms. Proite will receive a memento from the Residence Hall Council which sponsors the award program in recognition of scholastic excellence, service, and campus involvement.

Among topics discussed was the need for student

Representatives are required to attend a meeting every two months, said Jeff Littlejohn, presently a CCW representative. The meetings are held in Madison.

"Being a representative is an excellent reference to have with regards to future jobs," said Littlejohn.

Any interested student should contact Littlejohn at the council's new office.

An alternate energy workshop was scheduled for Feb' 23, 1974, to be held in the Nicolet-Marquette and Muir-Schurz Rooms. A slide program has been planned. The workshop will serve to inform people of methods of alternate energy production and related topics. More information will be put out at a later date, Urdike said.

Film Society Presents...

The University Film Society will present *I Never Sang For My Father* at 7 p.m. and 9:15 p.m. on Feb. 5 in Old Main Auditorium.

A grown son who is torn between responsibility to his parents, yet struggling to be true to himself, discovers the emotional chasm that has existed between he and his father. Until now he has never had the courage to respond. This is the theme of playwright, Robert Anderson's poignant film starring Gene Hackman, Estelle Parsons and Melvin Douglas.

Sports quiz of the week

by Tim Sullivan, Joe Burke, and Randy Wievel

Okay, sports fans, get your pencils sharpened and ready to go. Super Sports Quiz number one is coming at ya. Don't worry if you happen to miss a few of our questions, because we'll have the correct answers listed in the next issue.

Question no. 1 - WHICH OF THE FOLLOWING TEAMS HAS HIT FOUR CONSECUTIVE HOMERS IN ONE INNING?

- a. Boston Red Sox
- b. San Diego Padres
- c. Pittsburgh Pirates
- d. New York Mets

Question no. 2 - WHAT WAS THE LAST SCHOOL TO WIN THE PACIFIC EIGHT BASKETBALL TITLE BEFORE UCLA?

- a. USC
- b. Washington
- c. Oregon State
- d. Stanford

Question no. 3 - WHO WAS THE ONLY PLAYER TO HIT TWO TRIPLES WITH THE BASES LOADED IN THE SAME GAME?

- a. Harmon Killebrew
- b. Elmer Valo
- c. Clyde Kluttz
- d. Altie Taylor

Question no. 4 - WHO WAS THE HOLDER FOR TOM DEMPSEY'S FAMOUS 63-YARD FIELD GOAL?

- a. Joe Scarpatte
- b. Joe Don Looney
- c. Archie Manning
- d. Joe Reed

Question no. 5 - WHEN WILT CHAMBERLAIN SCORED 100 POINTS AGAINST THE NEW YORK KNICKS, THREE KNICK PLAYERS EACH SCORED OVER 30 POINTS. WHICH ONE OF THE FOLLOWING PLAYERS DID NOT SCORE OVER 30 IN THAT GAME?

- a. Willie Naulls

- b. Richie Gueren
- c. Cleveland Buckner
- d. Woody Sauldsberry

Question no. 6 - WHO WAS THE ONLY GOALIE TO ACTUALLY SCORE A GOAL IN PRO HOCKEY?

- a. Tony Esposito
- b. Michel Plasse
- c. Yvan Cournoyer
- d. Ken Drydan

Question no. 7 - WHICH ONE OF THESE PLAYERS HAS NEVER PLAYED SECOND BASE FOR THE OAKLAND ATHLETICS?

- A. Bert Campaneris
- b. Gene Tenace
- c. Mike Andrews
- d. Ted Kubiak
- e. Dick Green
- f. None of the above

Question no. 8 - WHICH PRO GOLFER HAS MORE HOLE-IN-ONES THAN ANYONE ELSE?

- a. Art Wall, Jr.
- b. Arnold Palmer
- c. Bunky Henry
- d. Doug Sanders

Question no. 9 - WHO SCORED THE QUICKEST GOAL FROM THE OPENING

FACEOFF IN NHL HISTORY?

- a. Derek Sanderson
- b. Phil Esposito
- c. Pit Martin
- d. Henry Boucha

Question no. 10 - NAME THE PRO BASKETBALL COACH WHO WAS FAMOUS FOR LIGHTING UP A VICTORY CIGAR DURING THE GAME.

- a. Dick Motta
- b. Arnold Auerback
- c. Toby Kimball
- d. Bill Sharman

Question no. 11 - WHO WAS THE PITTSBURGH STEELER THAT SPIKED THE BALL ON THE TWO-YARD LINE WHILE THINKING HE WAS ALREADY IN THE END ZONE?

- a. Mean Joe Greene
- b. Frenchy Fuqua
- c. Dave Smith
- d. Ron Shanklin

Question no. 12 - WHICH OF THE FOLLOWING IS THE MACHINE THAT CLEANS THE ICE DURING BREAKS IN HOCKEY GAMES?

- a. Westinghouse Ace
- b. Macauld Sweeper
- c. Spaldrini
- d. zamboni

Stump the sports stars

by Tim Sullivan, Joe Burke, and Randy Wievel

Back by popular request, this column will once again be devoted to answering any sports questions that our readers might feel like asking. Our specialties are professional sports, major college sports and general trivia, but actually, we're confident we can answer EACH and EVERY question thrown at us, no matter which category it might belong in. The following are the questions that we've been asked so far:

(1) Bob Glodowski, sophomore from West Allis - I READ THAT FRANK HOWARD RECENTLY SIGNED A JAPANESE BASEBALL CONTRACT. ARE THERE ANY OTHER AMERICANS PLAYING OVER THERE?

Stars: Yes, quite a few are, including ex-Oriole Don Buford, ex-Dodger Jim Lefebvre, ex-Brave Clete Boyer, ex-Cub George Altman, ex-Padre John Sipin, ex-Red Don Blasingame and of course Hondo Howard. Incidentally, no more than two Americans are allowed on any one Japanese team.

(2) Jim White, junior from Sheboygan - HOW FAR WOULD MICHIGAN HAVE GONE IN THE ROSE BOWL?

Stars: Probably all the way to Pasadena.

(3) John Loomis, senior from Stevens Point - I'VE NOTICED THERE ARE MANY UNIVERSITY STUDENTS PLAYING BASKETBALL IN THE CITY RECREATION LEAGUES. SPECIFICALLY, CAN YOU TELL ME WHO THE ASSIST LEADER IS IN THE DOUBLE-A LEAGUE?

Stars: The last time we looked, there were three UWSP students battling for the top honor. They are Mike Derer of Joe's Bar, Pat Hedquist of Boston Furniture and John Kedrowski of Sport Shop.

(4) Sandy Nelson, freshman from Omro - WHY DID THE CHICAGO CUBS TRADE RON SANTO?

Stars: The same reason they traded Fergie Jenkins, Glenn Beckert, Randy Hundley and possibly someone else at the time of this writing. The Cubs are trying to keep Jack Brickhouse's hopes up again, so this time they're going with a youth movement.

(5) George Hughes, sophomore from Madison - WHAT WAS THE BIGGEST REASON FOR THE GREEN BAY PACKERS' DOWNFALL LAST YEAR?

Stars: They were outscored by most of the opposing teams.

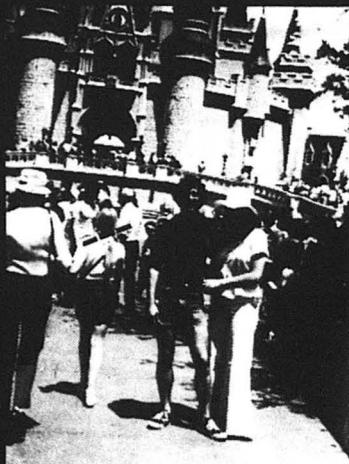

(6) Paul Zimmerman, junior from Wausau - MY ROOMMATE CLAIMS STAN MUSIAL'S FIRST HIT WAS A HOME RUN. I SAY IT WAS A TRIPLE. WHO IS RIGHT?

Stars: Neither one of you. Stan's first hit was a double off Boston's Jim Tobin in 1941.

- (7) Jean Konopacki,

sophomore from Merrill - SINCE 1910, WHAT WAS THE HIGHEST SCORING GAME IN MAJOR LEAGUE HISTORY?

Stars: The wildest slugfest we know about came in August, 1922, when the Philadelphia Phillies beat the Chicago Cubs 26-23. Neither starting pitcher was around at the end of the game.

POINTER

Pointers outshoot Oshkosh

by Jim Habeck

"Moving underneath," said Matt Smith, "made the difference." It made such a difference that the Pointer center scored a season high of 25 points, grabbed seven rebounds, and led the Pointers to a 67-62 home victory over Oshkosh Saturday.

Oshkosh forward, Charlie White, made 10 points to give Titans an early 18-14 lead. After tying at 20-20, the Titans' shooting led a 15-6 spurt with only two minutes left in the half.

A characteristically strong Pointer finish still left Oshkosh leading 35-30.

The Titans tried to keep it that way. Starting the second half, six unanswered points gave them a 41-30 lead before the Pointers sent their reply. Eleven straight points in a 15-1 spurt gave the Pointers a lead at 45-42 they never relinquished.

"The second half we got more aggressive and did a better job of blocking out," Coach Krueger stated. "Dave Welsh started getting up there, and we held onto the ball."

Dave Welsh held on to the ball enough to earn him game high rebound honors with 16. Welsh, Smith, and Bruce Weinkauff baskets upped the lead to 62-50.

All that remained was a desperate fouling spree by the Titans in an effort to counter the Pointer stall. Bruce Weinkauff, Tom Enlund, and Dave Welsh scored 16, 12, and 10 points respectively to join Smith in

double figures.

Oshkosh, with two of the ten conference leading rebounders, held a mere 34-30 rebound edge. League leader Greg Holmon was held to four rebounds, seven below his average.

Bruce Weinkauff, Pointer

guard, has been named Conference Player of the Week. Weinkauff received the honor after the Superior and River Falls contests, in which he scored 36 and 18 points, respectively. He is the leading scorer for the Pointers this year.

Pointer Women Trounce Green Bay

by Diane Pleuss

The UWSP women's basketball team overwhelmed UW-Green Bay and Northern Michigan University (NMU) this weekend.

The Pointers defeated UW-Green Bay Friday night at Berg Gym, 53-24. On Saturday, they traveled to NMU to outscore them 52-36.

In the Green Bay game, Pointer's bench depth and height proved superior as they outclassed Green Bay to take a commanding 28-8 halftime lead.

In the third quarter Green Bay rallied, but were overcome by Pointer's consistent shooting. The Pointers shot a sizzling 45 per cent from the field.

Pointer's balanced scoring was apparent, as they had four girls in double figures. Kris Labutzke and Margaret Schmelzer led the way with 14 and 13 points respectively, while Dee Simon chipped in 12 and Jan Gundelinger 10.

Coach Marilyn Schwartz was pleased with the team's performance. "It was one of the best games the girls have ever

played," said Schwartz of the NMU game. Stevens Point combined a strong offense with a sticky defense as they overcame a stubborn Northern Michigan team.

The two teams battled on even terms in the first half, with NMU on top as they took a two point lead in at intermission, 26-24.

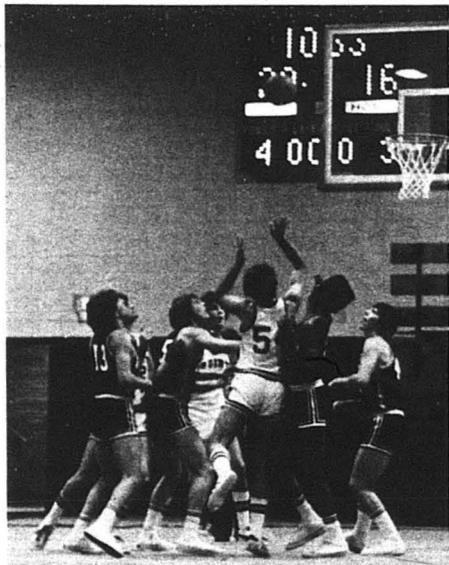

The second half, depth proved to be Pointer's biggest asset, as they outscored NMU 19-4, in the third quarter.

In the final stanza Point continued to roll as they recorded their fourth victory against no losses of the season.

Mary Schultz led the scoring attack with 10 points. Vicky Hellem and Wendy Kohrt each netted nine. Marcy Mirman dropped in eight.

Saturday, in their first conference game, the Pointers travel to La Crosse to take on the Indians at 6 p.m. On the same day, Stevens Point plays a non-conference game with Superior at 11 a.m.

On Feb. 5 the Pointers do battle against Eau Claire at 6:30 p.m. in the Berg Gym.

by Roger Barr

Teammates, Bob Omelina, Dave Welch and Matt Smith operate in close quarters to get a rebound at the Pointer-Oshkosh game last Saturday. The Pointers defeated Oshkosh.

Vets lose battle to BSC I

Black Student Coalition I, the number one team on campus (according to last week's poll), maintained their status by humiliating Vets II 89-31. The final score is somewhat misleading in that the Vets II were within reach at the half, with the score at 39-31.

BSCI applied a sticky defense in the second half to hold the Vets II scoreless. Jerald Roebuck captained BSCI with 21 points.

In other independent action the Golden Bears trashed the

No Names, 68-8. Don Reinke had 21 digits for the victors. Another rout in independent action saw ROTC stifle the Vets I team, 57-20. Eddie Rogers and Dewayne Byrnes each had 15 points for the winners.

In fraternity competition, a determined Sig Tau squad denounced TKE, 64-39. They managed without the service of their talented center, Oris Sjoberg. Harry Babcock ignited the Sig Tau's with 26 digits.

In dormitory competition, 1st W Hyer hammered 1st E Hyer,

80-39 behind the awesome scoring of Mike Campbell. Campbell had 30 points in the game. With the score deadlocked at the end of regulation play, 4th S Sims caught fire in overtime to defeat 2nd N Sims, 62-55. Larry Hebel sparked the overtime surge. All total, Hebel tallied 28 points for the victors.

4th N Sims defeated 3rd S Smis, 39-38. However, a distraught 3rd S team filed a formal protest immediately following the game.

According to Steve Snow of 3rd S: "the officiating was atrocious. I've seen less body contact in a hockey game."

The protest went to Jim Clark, the director of intramurals. Clark ruled that the final minute will be replayed since the officials neglected to follow some of the necessary rules governing intramural play. Consequently, 3rd S will have an opportunity to redeem themselves.

3rd N Sims scored an impressive win over 1st N Sims, 49-26. At the half N was up 23-20 but they managed to pull away in the second half by administering a continuity of balanced scoring. Bill Becker led the balanced attack with 10 points.

2nd W Smith defensively harassed 4th N Smith to hold them to a mere eight points. The final score was 25-8. Ross Remmer had 12 points for the winners. 2nd N Smith had little trouble living up to their pre-season reputation as they defeated 3rd S Smith, 46-25. Bob Rosenkranz had 14 points for the victors.

In Burroughs dormitory competition, 2nd S managed to squeak past a stubborn 1st W squad, 53-51. Ron LaFond scored 26 points for the winners.

Swimmers Left In Michigan's Wake

by Tom Enlund

The UWSP swimming team lost one meet last weekend and may or may not have lost another. The Pointers were beaten by Northern Michigan Friday, 85-28. That's official. They also supposedly lost Saturday to Michigan Tech, 59-54, but if Pointer Coach Lynn Blair has his way that defeat will be reversed.

Blair claims his team actually beat Michigan Tech and he is protesting the meet to the Michigan Tech athletic director on numerous counts. Most notable is the fact that there were no certified officials present. Blair is also challenging an "impossible" call the stand-in "officials" made that led to the disqualification of a UWSP swimmer. He also noted illegal visual counters, lane dividers and diving board.

"We work too hard to go all that way just to get a meet taken away from us," said the disgusted Point coach. "It doesn't hurt me, it hurts my swimmers. I'm fighting this thing for them."

The controversial decision by the officials occurred in the 200 yard individual medley. Pointer freshman Jeff Hill appeared to have won the event in 2:16. He was disqualified because his head had gone under water, which is not allowed in this event. But did his head go under the water or did the water go over his head? According to Blair it is a crucial point.

"Pools are supposed to be equipped with non-turbulent lane lines which act to keep the water calm," said Blair. "All the Michigan Tech pool had was ropes with bobbers attached. The water was so rough that it was going up over the swimmers' heads. There is

no way an official can make a call like that under those conditions. I questioned the stroke judge on his ruling but all he said was that I couldn't argue the decision."

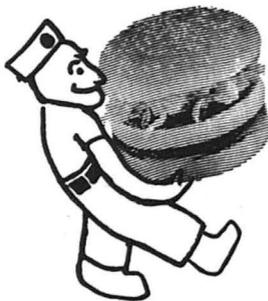

"The visual counters and diving board in the Michigan Tech pool do not meet the standards of the 1974 Official NCAA Swimming Guide," said Blair. (Visual counters are placed at the end of each lane to indicate to distance swimmers how many lengths they have completed.) "The counters had no last lap indicator as required and the diving board went on an upward incline and was not the correct height above the water surface," said Blair.

Section 3, Article 4, states in part, "Visual counters must be provided by the host institution. Each indicator must be equipped with one indicator of solid fluorescent orange color to indicate the final length of each distance event. Failure to provide counters shall result in the disqualification of the host competitors in the events where counters are required."

Amid the confusion there were bright spots for the Pointers. Freshmen Mike Slagle and Dick Jesse finished 1-2 in the 1000 yard freestyle with times of 10:58.4 and 11:28.3, respectively. Freshmen Scott Schrage (1:57.4) and Alan Jensen (2:00.8) finished 1-2 in the 200 yard freestyle. Slagle (5:18.1) and Jesse (5:36.9) were the first two finishers in the 500 yard freestyle.

The Northern Michigan meet was significant for one UWSP swimmer. Hill won the 200 yard breast stroke in 2:22.6 which breaks the school record by 2.2 seconds and qualifies him for the NAIA National Championships in Downers Grove, Ill., March 7-9.

Pointers fall to Indians

by Jim Habeck

Tuesday's encounter at LaCrosse displayed a second half reversal of the Oshkosh game. After leading by three in the second half, the Pointers were unable to keep up with LaCrosse, losing 79-68.

LaCrosse's Indians began the game with a press, producing three consecutive UWSP turnovers and a total of nine for the half. Largely due to the press, the Indians grabbed a 15-8 lead despite Tom Enlund's six points. They did so with honorable mention All-American Eric Haug's nine

points and Mark Thibodeau's six.

The diminutive Thibodeau, at only 5-9, soon increased the Indian lead to 21-10 before reserve Bob Omelina struck back. Driving to the basket and taking short jump shots, Omelina produced 16 first-half points.

With Omelina providing the spark, UWSP scored the final seven first-half points, and went in at half down 42-40.

Omelina's jump shot gave the Pointers a 51-48 lead. Moving to a zone defense, the Pointers suddenly found themselves in

trouble. LaCrosse scored six quick points, and continued the hot streak when Point resumed a man-to-man defense.

Tom Checkai, starting guard for the Indians, hit on three jumpers while his teammates lent enough support to post a 16-4 scoring spurt. Outbounding Point, 30-17, the second half, the Indians were never again threatened.

Leading the Pointers was Omelina with 22 points, followed by Bruce Weinkauff with 16, and Enlund with 12. Center, Matt Smith, led in rebounding with 16.

Hockey team skates by Madison Tech

by Phil Esche

Skating to two victories and scoring a forfeit win, the Pointer hockey team evened their season record at 6-6.

Behind the fine play of Pat Beyler and Pat Grzadziewski the Pointers scored two goals in each period to defeat Madison Vocational Tech 6-3, last Friday.

Beyler scored a pair of goals and had an assist to his credit

while Grzadziewski scored a goal and had two assists.

Saturday's scheduled game turned into a forfeit when the Madison coach differed on a ruling that disallowed one of his players to participate.

The player had been banned Friday night for a game misconduct penalty. According to NCAA rules, he is unable to play in his team's next game.

Upon being told this, the Madison coach took his team off the ice. When they didn't reappear in three minutes the referee ruled Point the winner by forfeit.

Sunday's contest was all Point from the very start. Scoring five goals in each period, the Pointers went on to a 15-3 win.

Dave Veitch led the 65 shots on goal attack by getting the hat trick (three goals) and assisting on four others. Beyler also made his presence felt as he scored twice and assisted on four goals.

The front line, which includes Beyler, Veitch and Steve Fiala, iced the game in the second period when they each scored a goal within 25 seconds of each other to make the score 8-0.

The volley of shots came at 11:46, 11:38 and 11:21 in the second period.

Coach Kottke was fairly pleased with his team's performance. "Friday," he said, "wasn't a very exciting game. We had beaten them twice before and I don't feel the boys were too up for the game. Sunday, though, the boys did some good passing, especially the front line of Beyler, Veitch and Fiala."

Back to 500, Kottke's skaters face some tough competition this week. Saturday the team will be in Minneapolis for a two game series with Ramsey Jr. College.

Lightweights aid in winning dual meets

by Tom Enlund

Running their dual meet winning streak to four, the UWSP wrestlers defeated the Madison JV's, 24-15, and UW Platteville, 27-9 last week.

The key to both wins was the work of the lightweights, according to Pointer Coach Reg Wicks.

"I was real pleased, especially with the lightweights," said Wicks. "They

actually won the meets for us. When you dominate the lightweights, it gets the team off to a good start and the momentum carries you through the meet."

In the Jan. 22 Madison meet, the momentum was provided by Rick Hughes (126) and Luby Sidoff (134). Following Pete Doro's loss in the 118 pound class, Hughes won 5-1 and Sidoff pinned his opponent in 5:38 of the third period. The Pointers had an early 9-3 lead.

Stevens Point jumped off to a 9-0 lead against Platteville Jan. 26. Doro, Hughes and Sidoff won 3-0, 8-4 and 9-1 respectively.

The Madison JV's, after falling behind early, came back and made the match close. They tied the score 9-9 at one point and trailed 18-15 with only the heavyweight match remaining. Pointer heavyweight Joe Johnson won the meet by pinning his opponent in 5:20 of the third period.

"Winning or losing the meet came down to the heavyweight division and Johnson came through for us," said Wicks. "He was losing but came back to win on the pin. Overall, it was a real determined effort. The score got close a couple times and we could have fallen behind but we came back well."

Other Pointers contributing to the win were Phil Mueller (158), who won by a pin in 5:22 of the third period, and Rick Neipert (177), a 7-5 winner.

After the three UWSP lightweight wins, the Pointers won five of the seven remaining matches against Platteville. Warren Popp (150) and Mueller (158) both won 11-2. It was the first time Mueller had not won by a pin in a dual meet this year. Neipert (177) padded the Stevens Point lead with a 5-2 victory as did Russ Krueger, winning 2-0. Heavyweight Johnson won on forfeit.

"I was surprised we won so easily," said Wicks. "Platteville is one of the better teams in the conference and I thought it would be closer."

There are two home wrestling meets this weekend, Friday against Superior, and Saturday against River Falls. Both begin at 7:30 p.m.

Gymnasts lose to Northern Iowa

by Joe Duffy

The UWSP gymnastic team continued to show marked improvement as they prepared for the opening of the WSUC season. On Saturday afternoon, the team competed against Northern Iowa, (NI). The final score was NI with 125.30 and UWSP with 111.55.

In the meet the Pointers improved by 24 points on their past team total points. It was the first time the team had been healthy enough to put out a strong effort.

Despite the final score, the Pointers had a number of fine individual performances. Todd Dillman scored a school record 7.6 in the side horse event. Dillman, a freshman from Homestead, captured a first in the side horse. Greg Hanson won the rings competition for Point with an 8.15 score, completing his home NAIA qualification for the second year in a row.

Norm Olsen scored team highs in the free exercises and in vaulting. Captain Craig

Hagen finished second on the parallel bars. Senior Milo Weiss, competing in only his second year, earned a pair of thirds on the rings and parallel bars. The Pointers other third place finish was recorded by freshman Dan Courtney on the horizontal bar.

Conference competition begins Saturday with Point hosting Platteville at Berg Gym at 1 p.m. Both teams are about equal in ability and the outcome could be make or break the meet for UWSP.

Size limit put on northerns

A 22-inch size limit on northern pike added nothing in the way of trophy fish caught by fishermen and wasted about 85 per cent of the northerns that anglers otherwise would have taken home without such a restriction, according to 16 years of Department of Natural Resources research studies on Escanaba Lake in Vilas County.

The 22-inch limit on northerns in Escanaba Lake has been discontinued effective Jan. 1, 1974.

Escanaba Lake is one of five lakes in the Northern Highland Fishery Research Project under special fishing regulations. Through a compulsory angler permit system, there is a complete creel census. Since 1946, there have been no size or bag limits and no closed seasons except for northern pike. For experimental purposes a 22-inch minimum size limit was imposed on northerns from 1964 through 1973.

Jim Kempinger, fisheries research biologist, reports that before the 22-inch size was imposed, Escanaba Lake had an annual average northern pike catch of 600 fish that weighed a total of 948 pounds. When the 22-inch restriction was established in 1964, the average number of northerns kept each year dropped to 101 fish. The total weight decreased to 274 pounds. Less than 29 per cent of the earlier annual yield was now reaching the table.

There was a measurable decline in trophy fish quality. After the 22-inch limit was started, 101 pike caught annually averaged 2.7 pounds per fish. The preceding six years, when fishermen could keep any northern pike, the annual average catch of 104 pike 22 inches and larger averaged 3.2

pounds each, or about a half pound heavier.

A study of an 18-inch limit on northerns in Bucks Lake in Rusk County also found the restriction served to reduce the number of fish sportsmen could take home, without increasing the number of large northern pike caught.

Young swimmers aid Pointers

"We have been running two a day practices and the boys have been swimming between 5,000 and 9,000 yards per day," said Swimming Coach Lynn Blair. "This way they are tired so they have to learn to swim tired, which is important. Then we'll start tapering off just before the conference meet. That way they won't be tired for the conference meet and should really swim well."

"I'm pleased with the team so far. We're improving," he added.

Evidence of this improvement came when the Pointers swam in the recent Blue Devil Invitational at Menomonie. In seven instances UWSP swimmers improved their best times of the year.

Freshman Dick Jesse swam his best time in the 1000 yard freestyle, 11:29.2.

Freshman Mike Slagle swam the 1000 yard freestyle in 10:38.8, improving his own

school record by 11 seconds. He also swam the 500 yard freestyle in 5:10.6, breaking the school record by almost 12 seconds. Slagle currently holds the best time in the Wisconsin State University Conference in both these events and is ranked nationally in both by the NAIA.

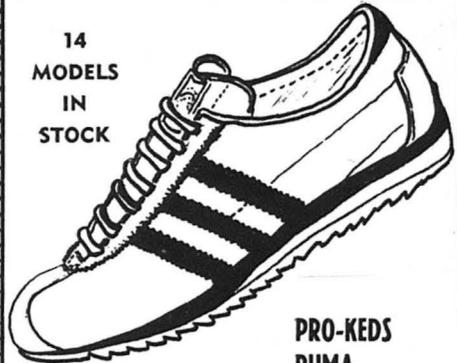

Freshman Rusty Jensen swam his best time in the 200 yard freestyle in 1:58.2, while freshman Scott Schrage's 1:56.5 in the 200 yard free style preliminaries was his best.

Freshman Jeff Hill swam his best time in the 200 yard individual medley, 2:13.2, and in the 200 yard breaststroke, 2:25.2. His time in the 200 yard breaststroke is the best in the conference to date.

As a team, the Pointers finished sixth in total team points at the Blue Devil meet. They finished behind the University of Minnesota, Hamline, UW Eau Claire, UW LaCrosse, and UW Stout.

Grateful for student work at Norwood

Dear Sir:

The Portage County Association for Mental Health would like to pay public tribute, through your newspaper, to the dedicated students who participated in the Association's Recreation Night program at Norwood Hospital during last semester.

Approximately 20 students, with Gary Zierke as Coordinator, visited Norwood nearly every week to interact with the patients there. They played cards, basketball, pool, and various other recreational activities. They took patients out of the hospital setting on shopping trips, visits to the zoo, walks through the parks.

A special treat was provided the patients with a dinner held in Stevens Point at the Peace Center, with the students doing the cooking. A tour of the campus and a visit to Jordan Park followed.

Another special event was an outing at Powers Bluff, which included a wiener roast.

Their many hours of volunteer service should not go unnoticed by their fellow students. Their only reward is the joy they brought to the many patients residing in that mental institution.

"Ours hats are off to the student volunteers!"

Sincerely,
Mrs. James Allen
Volunteer Services Chairman

Counseling Center Starts Group Sessions

To the students:

The Counseling Center will be initiating a series of groups for interested students during the next few weeks. The groups are intended to meet the developmental needs of a wide range of student concerns. Groups will be offered in the following areas: (1) Vocational Exploration; (2) Personal Growth; (3) Assertive Training; (4) Couples; and (5) Learning Skills.

The vocational exploration groups will run for three weeks (a total of three class periods). Students will be asked to take an interest inventory a week in advance of the first group meeting. The group meetings will center on an overview of major factors in making vocational decisions, review of the interest inventory results and the development of, and formulation of, individual "game plans" with respect to careers.

The personal growth groups will run the entire semester, meeting for one and one-half hours per week. The groups will focus on the development of (1) interpersonal competence; (2) the ability to send and receive

communication about his own and other members' behavior; (3) a tolerance for ambiguity and interpersonal anxiety; (4) the capacity for open, honest, trusting relationships, and (5) insights about oneself during the semester. Prospective group members will be asked to talk with a counselor to ascertain individual goals for joining the group.

A third type of group involves assertive training. It involves teaching people to express directly their feelings of love, affection, admirations, approval, agreement, anger, disagreement, dissatisfaction, annoyance, etc. The students who have difficulty with over-apologizing, excessive interpersonal anxiety, difficulty in resisting the persuasion of others, and submission to authority may be interested in this group.

The fourth type, couples groups, will focus on the development of interpersonal relationships of married and unmarried couples. These groups will focus on the development of (1) the ability to "fight" constructively; (2) the ability to set reciprocal goals; (3) mutual decisionmaking; (4) ability to deal with freedom vs. control in the relationship; and (5) the ability to settle the power issue in relationships. The groups will run the entire semester, an hour and a half per week.

The last type of group involves the development of learning skills. The major aims of these groups are: (1) to develop an increase in the speed of reading; (2) to increase comprehension for material read; (3) to develop flexibility in speeds and modes of attacking material; (4) to develop ability to retain material for exam-taking; and (5) the development of alternative study methods for differing types of material. These groups will run for six weeks, with one class period per week for group meetings, and one hour a week for individual practice on the controlled reader pacing machine. Anyone interested should come to the Counseling Center or room 306 Collins Classroom Center and sign up.

Individuals interested in participating in any of the above-mentioned groups should come to the Counseling Center, 014 Nelson Hall, or call extension 3553.

In addition, DeBot Center is offering study skills groups, under the direction of Al Stenstrup. These groups will meet in the evening for one hour per week, focusing on basic study methods, exam-taking, study schedules, concentration, motivation and reading development. Anyone interested should contact the student manager in the DeBot Center.

Sincerely,
Dennis E. Elsenrath
Director, Counseling Center

Visitor finds UWSP friendly

UWSP students;

I had the occasion to be a visitor at the campus of Stevens Point on Friday, Jan. 18, during the day as a representative of the Women in the Arts. Our meeting took place on your campus at the University Center. Because of the fact that we got together on a riding pool, I found that I had to spend more time on the campus than I would ordinarily have done. This meant that I spent some time walking around and sitting in the Center, etc.

I want to take this opportunity

to express to you that I was very well received and that I was very highly impressed with the friendliness of the students and the people with whom I came in contact. I am an older teacher, and I was utterly amazed at the way your students respected me and also made a rather definite point of speaking to me first. I did not approach them; rather they approached me with a very friendly gesture of "Hello," "How are you," "Hi," etc.

Naturally, in my travels as chairman of the Department of Art and also a representative

for Women in the Arts, I have visited a good many campuses and had many experiences with all types of young students. I do not write this letter to request an answer or to take up your time, except to say that I was very pleasantly impressed with the friendliness of the students that I encountered while visiting Stevens Point last Friday.

Sincerely,
Gretchen Grimm, Professor and Chairman
Department of Art

All letters to the editor must be signed by the writers. However, the name may be withheld from publication for what the editor deems good and sufficient reason.

The POINTER reserves the right to edit, delete, or reject contributions. All letters should be limited to 300 words unless permission is given by the editor to go over the limit.

All letters must be typed, doublespaced, and have one inch margins. All letters must be submitted by the Monday noon before publication.

Since You Didn't Ask - Another look at capital punishment

by Jerry Long

As long as I have been able to rationalize, I have continually concluded that the institution of capital punishment was an anachronism that had no place in a civilized society. To me, the idea that the state could legally and ceremoniously snuff out a human life was an athema. My premise was based on the assumption that we were a relatively advanced society, somewhere beyond the concept of lex talonis, the eye-for-an-eye brand of justice.

With the recent unspeakable brutal rape-murder of an Oshkosh coed, I am forced to review once again the ideals which have led me to oppose capital punishment. Only this time, I'm not sure that those beliefs are valid for this society.

In the recent past, we have witnessed the murders of a president, a senator, a civil rights leader and the attempted murder of a presidential candidate. We have read about the Tate-La Bianca murders in Los Angeles and the mass murders by Juan Corona. This last year we have read about the senseless slaughter of Milwaukee's police. And, there was the Fond Du Lac girl who was kidnapped, molested and murdered. There was also the Chicago boy who was taken by court order from his Wisconsin foster-parents and given back

to his natural parents, who promptly beat him to death.

We are not a civilized society.

If we hold that capital punishment has no place in a civilized society, then we are not far from accepting the premise that such measures do have a place in an uncivilized barbarian state such as our own.

The murderer or murderers of that Oshkosh coed are, by virtue of their crime, no more deserving of life than a rabid dog. That we in Wisconsin prefer not to stoop, as it were, to the level of degradation on which a mad-dog killer exists by having capital punishment, is an indication of how far we think we've progressed from Neanderthal. But are we only fooling ourselves?

If this state decides to introduce the death penalty, we should not delude ourselves into thinking that capital punishment is a deterrent to crime. The overwhelming evidence indicates that it is not. If the death penalty comes to Wisconsin, it will be because we are a vicious, violent breed of men who rather like the idea of execution and revenge, not because we think we can control murder in that manner.

I still oppose capital punishment, but God help me, my reserve of mercy is getting pretty low.

Black Culture Week starts Feb. 2

To the UWSP campus:

When the average UWSP student is asked to rank today's problems the list includes energy crisis, Watergate scandal, inflationary prices and faculty cutbacks, and almost no one mentions a continuing problem that is of crucial importance—our Black-White relationships. To call attention to this problem throughout the nation, Black Culture Weeks are being celebrated during the month of February. During that time, contributions made by Blacks are brought before the eyes of the "unexposed." Viewing historical data and having spent four years on the Stevens Point campus I clearly see the relevance of such a cultural week here.

My reasons for its support are many. First, to expose to the students a proud, rich, flowing and beautiful culture that exists in Black America and other parts of the world. Cicily Tyson, star of "Autobiography of Miss Jane Pittman", puts it nicely when she said, "For too long we have been ashamed of our heritage. We have made tremendous contributions, not only to this country but to the world. We have been

made to feel that to have served the white race, to have black skin and kinky hair is something we should be ashamed of. This film deals with our history and how we managed to survive as a race of people."

Second, to wipe out the misconceptions that people of African descent are savages, dancing maniacs and studs, and that their land is a "dark continent" of ignorance. The term "dark" must not be used in reference to an uncivilized race but to the people of "dark skins" who inhabited such a beautiful, rich and "together" culture.

Third, to reinforce in the mind of students, community and university leaders that Black students whether foreign or American still suffer the plight of oppression. And that, as Black students we must continue to fight together even though we may be discouraged from social interaction by others. That a facetious smile and a pat on the back does not solve the problem.

To those of us who follow the idea of noninteraction with other Blacks, I cite an article from the London Observer Service titled "3 South Africans Burn Black".

-Capetown, South Africa. Remember, as you read, that South Africa is inhabited by 14.5 million Blacks and 3.5 million Whites and such massive exploitation takes place.

"An 11 year old South African Black child, who was roasted by three white railway workers, is to receive psychiatric treatment to cure him of his fear of whites. The boy, Godfrey Lambert, was caught picking up coal in a railway yard. Three whites, aged 18, 20 and 24, beat

him, undressed him, smeared his body with grease, and then held him in front of a blazing locomotive fire. The boy sustained third degree burns. The three were sentenced to six lashes and one year in prison each. The prison terms were suspended. His mother wants the boy to receive psychiatric treatments because "I do not want him to grow up with this fear of white people."

With tears in my eyes, trembling hands, aggressive feelings

Committee Throwing Hat In The Ring

A new committee is presently in the process of formation here in Stevens Point. As many people might already know, State Rep. Anthony S. Earl of Wausau is seeking the office of State Attorney General. UWSP students and community residents are invited to join "Citizens for Anthony S. Earl".

An organizational meeting will be held Tuesday, Feb. 5, at 7 p.m. in the lounge of Watson Hall.

If unable to attend the Tuesday meeting but interested in helping, please contact Joseph Sienkiewicz at 346-2350.

Point Blank

by Bob Ham, jr.

How can I sit in front of a typewriter every week and knock out snappy jokes when the world is full of crime, adversity, sickness, war and doggie do do? I, introspective fellow that I am, often ask myself that question. I never answer it though, because I think it's silly to talk to yourself, right? Oh certainly Robert, I quite agree. Glad you see it my way Bob. (Bad week.) Anyhow, I've decided to concentrate my vast energies on something important, valuable, and most of all, time consuming. So I went on an interviewing binge. I dubbed myself the Roving Reporter and made up a vital issue to contravene about. The question for the week is "What is your opinion of lust?" Let's ask that young lady over there.

"Pardon me miss, I'm the Roving--"
"Back off you sex pervert!"

"Sex pervert?"
"Aha! You admit it! Animal! I know your type--all you're interested in is sex! S-E-X, sex!"

"I knew how to spell it."
"Stay away from me you creep!"

"No really Miss, I work for the Pointer. I'm a loveable sorta guy."

"So was the Boston Strangler! You stay away from me!"

Hmm. I've had more success with a rock. Let's try that degenerate sitting in a snowbank.

"Pardon me sir, I'm taking a survey for the Pointer, and I wondered if I might ask you a question."

"Shoot."

"What is your opinion of lust?"

"Oh, I hate it. It gets in my pockets alla time."

"Uh, that's lint sir."

"Well, let's try one more time. I'll ask that young couple fooling around in that parked car."

"Uh, excuse me, I wonder if I might, er ... pardon me, I'm ... Uh, could I-ahem-er, would you stop for just a, ah ... Break it up!"

"(wheeze, gasp) What d'ya wannnt? (gasp)"

"Well I wanted to ask your opinion of-ah, you mind, you're fogging up my glasses."

"You're (wheeze) ruining my afternoon!"

"Look buddy, I have to make a living too."

"Okay (gasp, wheeze) what's a question?"

"What is your opinion of lust?"

"You gotta be kiddin!"

"No, really. How about if I

ask the young lady with her leg in the glovebox? What is your--Hey--what are you doing? Don't roll up the window, my head isn't out-argg!--lagymaag--"

Well, to hell with that! If you think I'm going to risk my life just to be controversial, you're crazy. Don't you think so Bob? Damn right!

"Waight--doon leeve me here! Heeeeeeeglp! Heeeeeeeglp!"

Getting Married?

MEN'S

FORMALWEAR SHOWING

AT

ERZINGER'S FOR MEN

Friday and Saturday, Feb. 1 & 2

All the NEWEST Spring Styles & Colors will be on display

POINTER

Freedom of the press obstructed on this campus

by Dave Gneiser

"Congress shall make no law... abridging the freedom of speech or of the press..." Our most important freedom lies in this section of the First Amendment.

Yet when interpreted by those who feel they have something to hide, it means simply, "You (the press) can print anything you want, if you can gain access to the information."

This obstacle not only confronts the national press in dealing with the Nixon administration, but also right here on campus.

Our reporters have asked to see public documents and are simply told by the individual being questioned that these documents are not in their possession. It appears that no one in the entire university has the public documents necessary to run it. We know the documents exist and in most cases we know who has them although they deny it. The documents are a matter of public record that is conveniently withheld.

When specific questions have been asked, they have either been ignored or given run around answers.

When these events occur, a newspaper is forced to rely on secondary information, often little better than hearsay. Unfortunately, in previous years, the Pointer used this secondary information which all too often proved inaccurate.

Because we believe the Pointer must have the confidence of the students who read it, we feel an obligation to provide accurate information. This in no way means that we do not make mistakes, but we do try to check our information as much as possible. If we are denied access to this information, the task becomes far more difficult and the

chances for inaccuracy are increased.

The Administration intends that the Pointer should only speak well of the intentions of administrators as if they never make mistakes.

What they fail to realize is that erecting barriers to the press only makes matters worse.

The truth will prevail.

From the President

Editors Note: Student Government President Jim Hamilton asked that this be printed this week in place of his "From the President."

UWSP students:

As students we face a number of serious problems which demand our attention. User Fees, faculty unionization, campus autonomy and curricular change are among them. However, the most serious challenge we currently face is the skyrocketing cost of education and the reluctance of the state and federal government to provide adequate financial aid.

There is currently an effort underway to study the question of refinancing Higher Education in Wisconsin. The Joint Finance Committee of the Legislature, the UW System, various state agencies, the

Ending Survival Of The Tenured

by Terry Witt

In all of my four arduous and sometimes frustrating years at this university no problem has seemed more perplexing or unsolvable than the elimination of poor instructors; especially tenured. The annual instructor evaluations have seemed rather meaningless but still I consider myself a fair judge of good teachers. The poor ones I assault; the mediocre I insult and the good ones never seem to stick around long enough to evaluate.

However, all those evaluations have taught me that there is really no fair and impartial method for retention and dismissal of faculty, and so I would like to introduce a rather novel theory in this area. It's called "Darwin's theory of natural selection," survival of the fittest.

Poppycock you say? After all, isn't that the real purpose of tenure--to protect the strongest and weed out the weakest, according to Mother Nature's plan. Only the most desirable specimens can enter the tenured ranks you say. Such qualities as age, sex, race and severe arthritis are considered necessary characteristics. The truth is that if you're not white, 65 and a morphidite with one foot in the grave, tenure will not be awarded. Nor can it effectively protect you unless all of those 65 years were spent on the campus. This, as you might well expect, considerably narrows down the

list of available candidates for tenure and who in effect shall survive.

I propose a method which has all those engaging qualities of tenure without sacrificing objectivity. My plan involves contaminating the champagne dispenser, and the Caviar-butter dish in the tenured faculty lounge with cholera bacteria. I can see it now; tenured faculty dropping like flies in restrooms, classrooms and bedrooms without the cumbersome subjectivity of a vote by fellow faculty members or the chancellor. A regular shot in the arm you might say to the university system which has suffered so

long under the burden of an almost completely personalized seniority system called tenure.

I've given the plan a great deal of thought and I really foresee no hangups with contamination of students or greenhorn faculty since both groups are isolated from the tenured elite. This system is as impartial as tenure claims to be but without any legal hangups. In effect accomplishing what tenure was supposed to accomplish, but never has! Can you imagine what would happen if students were awarded tenure after four years and couldn't be given less than an A...

imperative that the plan, WGHEP, receive full public discussion and consideration.

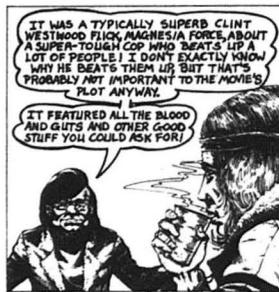

WGHEP will try to relieve growing concern of middle-income parents over the rising costs of higher education. According to the report, it will insure broad and equal access for all students to Wisconsin post-secondary institutions. WGHEP will also try to relieve the competition that the need for student financial aids has for the tax dollar, said the report. WGHEP meets these things head on and provides definite

responses to them. For this reason it is incumbent upon all interested parties to give WGHEP the most serious consideration and scrutiny. Until this is done the crisis in costs which Wisconsin students now face will continue.

Because of the serious problems facing the UW student in his or her attempt to pay for an education, United Council endorsed in principle the concepts contained in WGHEP. The endorsement takes into account the general nature of the WGHEP and anticipates further discussion, as the specifics of the plan are developed. However, it should be clearly understood by all that the endorsement underlines United Council's belief that there are serious inadequacies in the present financial aids situation.

Signed, Randy Nilsestuen President, United Council of UW Student Governments
