viewpoints

Be a leader — voice your views

Who are the leaders in our society and what do they do? More importantly, what should they do?

There’s more to being a good leader than just serving as an authoritarian who sets down rules which underlings are to follow blindly.

A leader should be someone who does something well, and who encourages and helps others to follow suit. A leader should be open to questions, suggestions and criticism, and be able to provide answers and reasons when possible. If not, however, he or she should not be hesitant to say “I don’t know” or “I’m not sure.”

A leader should represent the wants and needs of the people he or she leads. At the same time, though, the leader should be the one who asserts some authority that influences those who need guidance.

There are some people who effectively lead by example. They don’t always have to act as a leader, they simply do things right and in so doing, show others the way.

Think of yourself as someone who interacts with society and affects it every day. Everything you do has some effect on someone’s life. You can help make society a better place to live.

I’m trying to do that right now. The purpose of writing an editorial is often to persuade — to state an opinion on a matter and/or suggest some course of action.

That’s a big responsibility. And there will always be those who just can’t see your point of view. Nevertheless, there are many disturbing issues that need to be discussed and eventually resolved. Vitaly important decisions must be made on subjects ranging from abortion to capital punishment, to nuclear weapons — even to UWSP’s parking lot dilemma. Some issues are not as vitally important, but can have a significant impact on our everyday lives.

What I’m getting at is that it is an important leadership function of a newspaper to present carefully reasoned ideas and opinions and in so doing, serve the public.

At the same time as it presents an intelligent, considered opinion, a newspaper should open its pages to other (often opposing) viewpoints. A newspaper can and should be an important medium for the contemplation of serious matters.

In this way, The Pointer serves in a leadership capacity. But, anyone who reads The Pointer, or any newspaper for that matter, also can be a leader. If you feel strongly about an issue, voice your opinion. Let people know what you think. And be prepared and open-minded if others disagree with you.

We at The Pointer strongly encourage our readership to write to us and to take a stand on issues. Through intelligent discussion (as the dialogues of Plato and Socrates illustrate) people can often come to an agreement on a perplexing topic. And while it is sometimes difficult to determine whether or not an opinion is truly right or just or moral, at least people are able to come to a mutual understanding. And even if people are never going to come to an agreement on a difficult issue, at least there will be some grounds on which to base a judgment. Then, through the system of democracy, we can see which side of an issue is adhered to by more people, and in this way arrive at plausible solutions to problems. The majority is not always right, but it is the best system we’ve come up with.

If you disagree with the current status or policy regarding a certain issue, write to your newspaper and express your opinion. The Pointer will be glad to print your views. Even if you agree with someone regarding an issue, let others know where you stand. The world needs some good leaders.

Private consultant heads business-economics division

Biology professor on mission to Asia

Dick Judy's abilities in both teaching and research... 

UWSP doing well in recruiting freshmen

Eight of the campuses report more applications and five campuses plus the UW Center System have declines. The total campus gain is two percent.

It's just incredible that 90% of our undergraduate students are in-person. It's just... 

Richard B. Judy, who has been a teacher, private consultant to business and a management officer in the U.S. Army Medical Service Corps, has assumed duties as head of the Department of Biology and Coastal Resources at the University of Wisconsin-Stevens Point.

Judy, 50, who most recently lived in Silver Spring, Maryland, retired January 31 from a 25-year military career to assume the position vacated last summer by Robert Taylor. After three years on campus, Taylor took over as chancellor of the business program at the University of Louisville in Kentucky.

The Stevens Point program has about 1,600 undergraduate majors and 1,500 business students. The institution has an enrollment of 9,000 students.

Judy was chosen for the new position by a search and screening committee headed by James Haven, a faculty member who has been acting head of the division since Taylor's departure.

"We were very interested in the 'ambassadors' as the delegation of the institution," said Judy, who is a resident of a dormitory on campus in one of the new dormitories on the UW-Stevens Point campus.

Judy was born in Silver Spring and graduated from high school in Hammond, Indiana. He holds a bachelor's degree in biology from the University of Kansas and a Ph.D. from the University of Wisconsin.

The University of Wisconsin-Stevens Point is defying odds for another year in its recruitment of new students.

While the number of high school graduates is declining, applications from prospective freshmen keep increasing.

As of January 1, the gain was 77 or seven percent ahead of last year on an annual rate, said Chairman and President Eisenhower in 1956 to bring together technical and scientific teams from around the world to improve international understanding and friendship.

"It's just incredible that 90% of our undergraduate students are in-person. It's just...

Stab in the back

To the editor:

It is interesting to note Jeff Peterson's objection to the College Republicans' request for additional funding. As a College Republican for over two years, Peterson himself never objected to reaping the benefits of SGA funding.

Where were Peterson's cries for political principles when he enjoyed free accommodations at SGA's expense during the Wisconsin College Republican Fall Meeting in 1984?

Such blatant, hypocritical statements in Peterson's letter to the editor last week, lead one to ask if Peterson is fit to be part of any governing body. Can you imagine what he will be saying about the Student Government Association a year from now? Don't turn your backs, student senators, Jeff Peterson may have your name on his next knife.

Neil F. Payne
Professor of Wildlife

Don't forget wildlife

To the editor:

The article by Lori a. Henke (from conservation major to CNR department) in The Point, January 31, mentioned that there are six majors in the College of Natural Resources, but listed and described only five. She overlooked the largest wildlife program in the nation.

Domestic spending cut in budget plan

by P. W. Wong

News Editor

Drawing complaints that the domestic budget is too complex. He also found time to organize a local fire department, becoming fire chief.

In 1977, Brother Jim became principal of a high school with an enrollment of 560 students. At

that time, he was asked by the Nicaraguan Government to serve the Guatemalan territorial elementary schools in the area, which he accepted. This assignment took Brother Jim back to the Sinjantay, as he was viewed as a righteously called Guatemalan. But he was not persuaded, as there were many social and economic problems in the area. He lived in the place, and lived it the way it should be, and lived it for eight years in Nicaragua.

In January 1981, Brother Jim returned to the United States where he re-learned to work eight hours in Nicaragua.

There he taught, but also helped the parents patrol, apparently for no reason other than to have a deep respect for the many centuries of Mayan history and tradition that is our cultural heritage.

The Indians are industrious, honest, peace-loving, simple people whose hospitality is proverbial. I always find it a joy to visit the homes of the boys from the Indian Center. The Indians of the Guatemalan form about 6 percent of the seven million-plus people of the country; but they are the poor, the oppressed, the forgotten. Theirs is a struggle for survival. "I can't end this letter without asking for your prayers for the Indians (and for all Central America). The level of personal violence here is reaching appalling proportions (murders, tortures, kidnappings) and the church is being persecuted because of its option for the poor and the oppressed.

The Indian population of Guatemala, caught in the middle of the conflict of the army versus the peasants, is taking the brunt of this violence! We pray and long for peace and justice, and that the army understands that any social and economic problem, peace, order, and justice will elude us.

There is speculation for the future of the Indians in Guatemala. The army is a regular way of meeting the core of the problem. It is possible that the Guatemalan army rounds up Indian boys. There is no exception. Never­theless, we believe this time to Guatemala.

Two days prior to the shooting of Miller, a Mayan pupil was forced into the army. As a regular way of meeting the core of the problem. It is possible that the Guatemalan army rounds up Indian boys. There is no exception. Nevertheless, we believe this time to Guatemala.

A cousin of Jim's, who knew Jim well, wrote: "I feel and I like to feel that I was close to Jim, but I don't like the thought that I was that few, if any of us, were "that close to him. Always, he seemed to be everywhere in the world at the same time. He was somewhere else, usually with his students.'

As Bishop Frederick Freking concluded at Brother James Miller's funeral, "In Brother James' death the witness of the Indian is lost that many are there, there is there, there is that much in the world that our energies worrying about what may happen. If it happens, it happens, it is natural."

Brother James Miller loved and gave his life teaching in the complex. He also found time to organize a local fire department, becoming fire chief.

In 1977, Brother Jim became principal of a high school with an enrollment of 560 students. At

that time, he was asked by the Nicaraguan Government to serve the Guatemalan territorial elementary schools in the area, which he accepted. Incinerators closed in halls to prevent air pollution

by Noel Radomski
News Editor

As an increased awareness of the consequences of air pollution surfaces, a local contributor to the problem of air pollution was addressed at the same time, the on-campus students’ answer to the concern of the incinerators which greeted them in the morning was solved. Now, in place of the rubber matting to prevent the garbage to the incinerators to be burnt, a new routine of taking the garbage to the dumpsters has emerged.

As Associate Director of Residence Life, Pele Armstrong explained, “We have decided to discontinue the use of incinerators because of three reasons. The first was that the roofs were deteriorating, in part because of the ashes which fell on it. Second, it was the environmental question. Essentially, the use of the incinerators was at best questionable. Lastly, many citizens are occurring during the use of the incinerators.

Armstrong noted that last fall in Smith Hall, a student working in the basement was injured when an aerosol can exploded which was in the incinerator. Other problems arose with the incinerators, including residents when students accidentally dropped gun shells in the incinerator. At times, large bulky materials were burnt in the incinerator, which caused smoke to “back up” in the hallways and rooms of the halls.

The annual replacement of the bricks in the chimneys were also a problem with the incinerators. Thay, the phasing out of the incinerators could save the campus money. However, the cost of the increased service for the dumpsters delayed any surplus from the fire bricks.

Armstrong acknowledged there are still problems with the new system. “Students now have to pick up garbage bags at the front desk and then carry the bags out to the perspective dumpster.” The dumpsters are located in various buildings, but the locations aren’t as effective as Armstrong would have liked. “The trucks have to pick up the refuse where they cannot drive on the lawns,” responded Armstrong.

The new open visitation policy should not change roommate relations or privileges. A student desiring to have a visitor must do it with respect to his/her roommate’s rights. If a problem would emerge, they can consult their resident assistant or hall director.

The issue of cohabitation, according to the report, would be the same as before: illegal. Policies are already in effect to enforce this. Also, a visitor of the same sex is allowed a stay of a maximum of four days, after which he/she will be required to depart. If excessive stay or roommate complaints surface, the RA or hall director would deal with the problem. If a conflict continues, a person could be barred from visiting that specific hall, according to a similar case which occurred in UW-River Falls.

The report also suggests that the “living together” and open visitation policy to be effective and should remain. The moral issue seems to be of the greatest concern to the opponents. The open visitation committee reported, “We realize that 24-hour visitation may be called the major violation of the legislation of cohabitation. This is not the case of open visitation. If the open visitation is in any way promoted cohabitation, then this committee could not support open visitation. But we feel that the purpose of open visitation is to promote a healthy adult environment for the students to live in.”

The open visitation committee also took a survey of the students that live in the halls and found that about 10 percent are opposed to open visitation. The majority of the opposers feel that the policy would violate their morals. But the conclusion was that the majority of the students were in favor of the rights of adults. The committee suggests the students take a stand on their rights or of adults. The committee suggests the students take a stand on their rights.

The committee looked at other universities in the state in making changes on how visitation could be set up. The first was that of UW-Madison, which has the simplest policy of all the UW schools. Madison has 110 hours of open visitation which can be changed to a lesser visitation policy. They cannot be changed to a 24-hour visitation policy. Certain hours are limited to 24 hours, but this can only be reduced by a majority vote by the residents of that house. UW-Oshkosh is the only other school that does not let the students select the hours of their visitation. Certain halls are at 24 hours, while others are selected to be 17 hours. The other UW schools have policies where the students decide what the hours of visitation are to be.

As of security, none of the universities could cite any additional problems from 24-hour visitation during the period. The desks are either closed at midnight or about 2 a.m. and the doors are locked at 10 p.m. The only access into the hall is if one has a desk key.

If the open visitation would be enacted, the outside doors of the buildings would be locked at the same time during which they are locked now. Also, all the students would have to be required to sign in at the front desk.

The new phone system, when implemented, would provide additional security for the people who are visiting in the rooms after the desks have closed.

The cost would be slim for there would be no added desk hours. Also, the nightly patrols of the halls by Protective Services would take on added significance.

The committee noted that if the open visitation is enacted, each wing or floor must elect to extend visitation from 17 to 24 hours. Voting shall take place within two weeks of the first day of classes each semester.

The report also concluded that after the visitation policy has been established, it can be limited further at any time by the residents, following the same voting procedure (96 percent of residents voting with a two-thirds majority) that the visitation policy cannot be extended after the initial two-week period.

The proposal could be amended in any area through the Faculty Senate or the administration.
Student Senate meets by Noel Radomski

Nationally, the 9th Congress took to the floor recently. But closer at home, the first official Student Senate meeting of the second semester began. With the new Senate came a new look for Student Govern­ment (SGA). As SGA President Alan Kesner explained at the Senate meeting, "We have to let students know us; we're not on a pedestal—we're real students just like everybody else."

SGA has begun its remodeling process, ranging from better communications to the students and a new seating assignment for the Senators, to new officers. As is the case for former Budget Controller Scott Klein, who moved to budget director. Assuming the vacant position of budget controller and auditor is Brian Holle. In charge of communications to the students is the new Communications Direc­tor Fran Messa.

Kesner drew up two major goals for this semester's Student Senate. The first is that he would like to see SGA more responsive and open to the students. Kesner hopes to do this by having continued programs to attract students to SGA meet­ings, as was the example of student forums. The last student for­rum was heavily attended, mainly because of the extent of the subject—a proposed parking lot on Fourth and Isadore. Kesner would also like to see SGA open up to new areas of the campus, particularly citing the examples of non-traditional stu­dents, minorities and off-campus students having an increased amount of needs and political re­sources.

who aim to bring about change by violent means and to estab­lish a socialist or even a commun­ist state." It was reported.

WASHINGTON: Donald Re­ gan and James Baker III formally completed their job swap Monday. Reagan will become Baker's chief of staff and Bak­er will head the Treasury De­partment. Ceremonial oath-tak­ings are to be held tomorrow in the Oval Office.

Assistant Director Positions Available For Next Fall!

Walks in the park. Holding hands in the dark.

Ah love!
Special smiles, knowing looks.
Little things that mean so much.

Amore!
This Valentine's Day give the heart of your heart a part of your heart, a part of your Heart Shaped Pizza from Rocky Rococo.

This Valentine's Day say it with pizza, a Heart Shaped Pizza from Rocky Rococo. February 8th thru the 16th at a Rocky Rocco location near you.
Kristin Schell, President SAL

by Melissa A. Gross

SIAU, a December graduate with a bachelor of Fine Arts major and a psychology minor, is currently president of the UWSW Student Art League.

"I was nominated and then elected by the Art Department in students this past semester," said Schell. "It's a lot of hard work, but I enjoy it."

As president of SAL, Schell is responsible for planning trips to cities such as Milwaukee, Chicago, go and Minneapolis. With the help of her vice president, treasurer, and secretary, Schell arranges these trips so the organization's members can view major, professional art shows.

The funding for the trips comes mainly from our SGA allocation and money we raise from various fund raisers," said Schell. "The trips cost SAL members only $15 per person for a weekend."

In addition to trips to larger cities, Schell oversees SAL's sponsorship of workshops, visiting artists and speakers. SAL also participates in the COFA Halloween party and furnishes the performing arts departments with ushers for their performances.

"Student Art League's main function is to present to students things in art that aren't available otherwise," said Schell.

In addition to her duties as SAL president, Schell works as the graphics editor for the Pointer. Her work with SAL gives her a lot of valuable experience in all of these areas.

Originally from Wausau, Schell is the oldest of three children. Her brother Karl is a junior in the CIR department here at UWSP. "I see my family about once every other week," said Schell.

Judy Elert

by Christopher Dorsey

Environmental Editor

In 1981, Judy Elert graduated from Wauwatosa East High School with the idea of coming to Stevens Point to major in home economics and French. Judy, like many other college freshmen, decided she didn't like her first chosen field of study. From home economics, Judy decided to try business. She didn't care for business either. After struggling through her first semester here at UWSP, Judy finally decided to try wildlife biology. She liked it.

Upon deciding wildlife biology was her destiny, Judy became a member of what is now the largest student chapter (900 members) of the Wildlife Society in the nation. For 2½ years, Elert was an active member of the Wildlife Society prior to being elected as President of the Society. Now in her senior year at Stevens Point, Judy finds her job as President hectic at times, but she likes the organization.

The Stevens Point chapter of the Wildlife Society is considered one of the most active chapters in the country. Activities include such things as the building of nests to attract songbirds to your yard, setting up nest boxes, and the sponsoring of various educational programs.

The Wildlife Society currently has plans to sponsor a wildlife workshop with the theme of developing wildlife interests. How to attract song birds to your back yard as well as other facets of urban wildlife will be discussed.

Another Wildlife Society function includes the publishing of, Cont. p. 10

The University Centers
"The Vinyl Jungle": live album review

by Rob Taylor

Live albums are usually indicative of an artist's career. When a performer has hit writer's block and can't come up with any new material, a live LP is the easiest solution. When the money starts running out, a cash infusion trickles in on the back catalog, and boom! Live album! Get nothing left to say? Want to recapture old glories? Live LP time!

If this sounds cynical, well, so I am. I've bought more terrible live albums than I care to count, and since two acts (Bob Dylan and The Who) that I know don't need the money have recently released live albums, I plan to get a lot more cynical.

First up, Bob Dylan. His latest LP is called Real Live, and it was recorded on his 1984 tour of Europe. Aside from pretty good sound quality and excellent performances from his back-up band (especially ex-Rolling Stone Mick Taylor on guitar), this album is redundant. It's a holding pattern so that Dylan can buy time until he figures out what to do next. It's a waste.

Why "redundant"? Look at the material. Two songs originate from 1964's Infidels album, one song from Blond on the Tracks (1975), and the rest of the album (seven more tracks) dates from Dylan's most popular period, mid-to-late 60's. Some critics seem to take this as an indication of a return (after a long dry spell) of Dylan's political consciousness. That's as may be, but I think that a song like "Master of War" belongs in a museum. Most of the material on Real Live is dated, not necessarily by when it was released, but by an attitude (mid-60's radical) that isn't particularly relevant anymore. Much of Dylan's work doesn't age well in this respect, and he reinforces that point every time he goes on tour and once again plays the old favorites. He re- fuse to let that old material die a decent death.

Dylan actually could've made this album worthwhile by concentrating on late 70's-early 80's material; there are quite a few gems scattered throughout his recent studio output (like the incredible "Every Grain of Sand" from the Shot of Love album) that, collected together, would have made a great live album. Instead, Dylan sticks with the tried-and-true, and makes one wonder why.

The 1980's are not going to be a rerun of the 1960's, and if Dylan is to be believed, the audience he lost when he went electric is coming back and feeding them the old slingers, then he really is out of touch. As for me, the only thing I can do is turn to some thing more current, like the Gang of Four, The Clash, or The Who.

The Who are a different kettle of fish entirely, mainly because they're as long, loud for what was right, and true, and life-affirming about rock and roll. They had integrity, conviction and the ability to surprise, and to shock. What's more, this LP did it all with a sense of humor.

Now that The Who are gone, their old record company (MCA) has decided to cash in with a double-live album (the record companies are usually quite willing to do so, since the cost of putting out a live album is far lower than that of a studio album). There is less time involved and, in the case of a name band like The Who, there is a ready-and-will ing audience to plug it, rush out and buy anything that their heroes release), recorded on The Who's last (1982) tour of America, hence the LP title (Who's Last. The temptation is to blame something like this on the greed of the record company, but a quick scan of the liner notes (where we are informed that the band "handpicked" the tracks on the album) indicates that The Who are the true villains here.

This album, to be kind, sucks canal water. The very idea of near-40-year-old men singing "My Generation" ("I hope I die before I get old") is humorous, to be sure, and pathetic. One by one, the old Who classics are dragged out of the closet. "I Can't Explain," "Substitute," "Magic Bus," etc., and demilshed before one's very ears.

The obligatory Who's Next numbers are here, just like they were on The Concerts for the People of Kampuchea in 1981. And, by the way, The Who suffer from the same problem as Dylan does. On their live album, The Who drag out seven tunes from the 60's. The newest song on this album is Who's Last is 1978's "You Are Young.

All of which really wouldn't matter except that The Who play with none of the fire and passion that once made them such a vital band. These versions of The Who's classic songs are utterly without spirit (and if you don't believe me, compare this album with The Who's previous live work, Live at Leeds from 1970, and portions of the soundtrack of The Kids are Alright from 1979). Compared to what The Who have done in the past, Who's Last is actively painful to listen to.

I suppose that the reason why I feel insulted by this album is because I know good and well that The Who were better than that. If they had concentrated on later material, instead of repeating the old anthems, this might have been a worthwhile album. The entire of the Face Dances album (from 1961) could've served as a worthwhile live album. There is also a song on the revamped Quadrophonial soundtrack called "Joker James" that deserves rescuing from obscurity. If The Who had thought to use more recent material, this could have been a great, illuminating album. Instead, The Who, like Dylan, take no chances. Who's Last is nothing but a piece of merchandising, something that I can hardly affirm about rock and roll.

It's a rawer, more exciting stage to play with none of the fire and passion that once made them such a vital band. These versions of The Who's classic songs are utterly without spirit (and if you don't believe me, compare this album with The Who's previous live work, Live at Leeds from 1970, and portions of the soundtrack of The Kids are Alright from 1979). Compared to what the Who have done in the past, Who's Last is actively painful to listen to.

Prepare to Pucker!

WE’LL PAY YOU TO GET INTO
SHAPE THIS SUMMER.

If you have at least two years of college left, you can spend six weeks at our Army ROTC Basic Camp this summer and earn approximately $672. And if you qualify, you can enter the ROTC 2-Year Program this fall and receive up to $1,000 a year. But the big payoff happens on graduation day. That’s when you receive an officer’s commission. So get your body in shape (not to mention your bank account). Enroll in Army ROTC. For more information, contact your Professor of Military Science.

ARMY ROTC BE ALL YOU CAN BE.

Grad student sheds a little light

by Darlene Loehrke

A lighthouse, tall and white, overlooks Whitefish Bay on Lake Superior. It no longer beckons to ships in fog and darkness but it still captures the attention of tourists and local residents who stumble upon it. It has also captured the attention of Erik Alexander, a graduate student from UWSP, who has been selected to design an interpretive museum plan for the lighthouse.

The Point Iroquois Light Station was built in 1876 in the St. Marie Forest District of Upper Michigan. In 1955, additions were made to the lighthouse on the original building. When the lighthouse, which is surrounded by national forest land, was replaced by a lighting device built in the middle of a river channel, the lighthouse was turned over to the National Forest Service. The buildings were deteriorating, but the community still had an interest in the lighthouse. Efforts were made to stop the deterioration and through the works of citizens, the lighthouse became a National Registered Historic Site in the early 1970s.

Erik Alexander has a degree in natural history and improvements, he found that Erik Alexander, a graduate student from UWSP, who has been selected to design an interpretive museum plan for the lighthouse.

1. Preserve, repair, restore, renovate and develop the lighthouse.
2. Develop within visitors and local residents an awareness and appreciation of the unique, interrelated history of the Point Iroquois area.
3. Enhance the appreciation and spirit of cooperation of the public toward the USDA Forest Service.

Alexander spent last summer living in the lighthouse, doing research in local libraries, interviewing people who were associated with the lighthouse, and getting the general feel of the place. While living in the lighthouse, Alexander was surrounded by the number of people who stopped to look around the lighthouse, even in adverse weather. The lighthouse was not advertised, yet as many as 400 people a day would stop. The Forest Service saw value in keeping the lighthouse as a cultural, non-timber-producing unit. The lighthouse could be a valuable public relations instrument. People may be able to realize that the Forest Service has other things to work on, in some cases, for the people, they will have a greater respect for other, sometimes mundane, Forest Service activities. Currently, much of the work being done in the lighthouse is done by volunteers who are interested in developing the lighthouse into a museum.

For years people have been trying to protect the bald eagle. It was listed as an endangered species in 1970 and that has brought a lot of attention to the species. There are now 1,500 nesting pairs in Wisconsin and 30,000 in North America. The bald eagle is also a symbol of the United States and is protected by law.

The Endangered Species Act of 1973, which is in place, has helped to protect the bald eagle and other species. It has been successful in recovering several species, including the bald eagle. The act also provides for the protection of habitats and the establishment of recovery plans for endangered species.

The act has also helped to protect other species, such as the whooping crane, the American alligator, and the black-footed ferret. It has been successful in recovering these species as well. The act has also helped to protect species that are not yet endangered, such as the Atlantic salmon and the Pacific salmon.

The Endangered Species Act is an important piece of legislation that has helped to protect many species. It is a success story for wildlife conservation.

**Endangered Species Act up for reauthorization**

The Portage County Humane Society will be holding an annual free public education program called "PEOPLE, GIRAFFES AND WILDLIFE TOGETHER" on Wednesday, February 13, 1985, at the Humane Society's auditorium in Stevens Point. The public is invited to come and learn about the problems that arise when wild animals come into contact with people.

The program will be held in the evening and will include a speaker who will discuss the problem of wildlife conflicts and how to deal with them. The speaker will be an expert in wildlife management and will have a lot of experience in the field.

The program is free and open to the public. It is a great opportunity to learn more about wildlife and how to coexist with them. It is a great way to show your support for the Portage County Humane Society and its programs.

**Humane Society speakers**

The Portage County Humane Society and the Portage County Department of Natural Resources are co-sponsoring a RABIES/LICENSING CLINIC to be held on March 30, 1985. There will be several stations located throughout Portage County. The main goal of the clinic is to have people register their pets and get their rabies shots.

There will be free snacks and drinks provided for all attendees. The clinic is free and open to the public. It is a great opportunity to show your support for the Portage County Humane Society and its programs.

**Charity for animals**

Hal's Food Stores is sponsoring a program which was created by a "painless" donation to their favorite charitable organization. Cash register receipts from Hal's two Stevens Point stores, when turned in by recognized charitable groups, will result in a donation of one percent of the sale total from Hal's to the charity.

There will be several stations located throughout Portage County. The main goal of the clinic is to have people register their pets and get their rabies shots.

There will be free snacks and drinks provided for all attendees. The clinic is free and open to the public. It is a great opportunity to show your support for the Portage County Humane Society and its programs.

**ANNUAL DOG SHOW AND OBEDIENCE TRIAL**

It's a great day to spend with your dog at the annual dog show and obedience trial. The event will take place on Saturday, August 10, 1985. There will be a wide variety of different dog categories, including obedience, agility, and show ring. The event will be held at the Portage County Fairgrounds in Stevens Point.

The event will also feature a special guest speaker who will discuss the art of dog training. The speaker will be a certified dog trainer with years of experience in the field. The event will be a great opportunity to learn more about dog training and how to improve your relationship with your dog.

**Charity for animals**

Hal's Food Stores is sponsoring a program which was created by a "painless" donation to their favorite charitable organization. Cash register receipts from Hal's two Stevens Point stores, when turned in by recognized charitable groups, will result in a donation of one percent of the sale total from Hal's to the charity.
DNR sponsors clinics

RHINELANDER, WI — Prospective wild turkey hunters are invited to attend one of 47 hunter education clinics to be held at 34 locations around the state during February and March, says Department of Natural Resources Wildlife Staff Specialist Arlyn Loomans.

The purpose of the turkey hunting workshops is to assist sportsmen to hunt safely, ethically, and successfully for a game bird that few Wisconsinites are skilled in pursuing.

"Pursuing" may not be the best word to describe a turkey hunt because the hunter must know how to bring the bird to him," said Loomans. "Workshops will cover the art of turkey calling."

The hunter clinics are designed to produce good landowner-hunter relationships since most turkey hunting is done on private lands.

"Turkey hunting can be a dangerous sport because hunters dress in camouflaged clothing while mimicking turkey calls with as much skill as they can muster. There is a chance that their turkey calling might lure in another turkey hunter. Thirty-five minutes of each session will be devoted to viewing a turkey hunter safety movie."

The wild turkey clinics are jointly sponsored by the DNR and the Wisconsin Chapter of the National Wild Turkey Federation. The workshops are open to the public at no charge. Each session lasts 3½ hours, and persons who complete a clinic will receive a "Turkey Hunting Guide for Wisconsin."

In north central Wisconsin, one clinic will be held at Wausau, and two clinics will be conducted at Wisconsin Rapids. The Wausau session will be at the North Central Technical Institute, 1000 Schofield Avenue, in Room 401 on Monday, February 11, starting at 6:30 p.m.

The Wisconsin Rapids programs will be held at Mid-State Technical Institute in Room E-100 on the successive Mondays of February 18 and February 25, beginning at 7 p.m.

Other Wisconsin communities holding turkey clinics are: Viroqua, Gensburg, Tomah, Sparta, Bangor, La Crosse, Prairie du Chien, Eau Claire, New Richmond, Green Bay, Appleton, Fond du Lac, Beaver Dam, Baraboo, Poynette, and Pewaukee.

Also, Mequon, Elkhorn, Kau- nasville, Racine, Sheboygan, Hales Corners, Janesville, Spring Green, Black Earth, Monroe, Fennimore, Lancaster, Richland Center, Dodgeville, and Madison.

The times, places, and dates of turkey clinics in those cities may be obtained by contacting the DNR district wildlife staff specialists at: Eau Claire (715) 836-2939, Green Bay (414) 497-4013, Milwaukee (414) 562-9504, and Fitchburg (608) 773-2648.

Pointers come on strong to surprise Lewis

by Alan Lemke
Sports Editor

If there were a contest in the crowd who thought the Pointers would have problems against the Flyers of Lewis University last Wednesday night, they were quickly converted. Point came on strong in the second half to take a decisive victory by a score of 61-48 here at the Quandt Fieldhouse.

The Pointer's success stemmed from their ability to control Lewis with the strong man-to-man defense they have become known for. This helped to tie the Flyers up, and caused them to force many of their shots.

Lewis' coach Chuck Schwartz pointed to the Pointer defense as the major obstacle for his team Wednesday night.

"They did a good job defensively as they always do, and we never got ourselves into any kind of rhythm," Schwartz said.

"They did everything right. You've got to give them a lot of credit. They just did a hell of a job."

The Flyers played their share of good defense also which made the Pointers wait for the good, open shot. The strong defensive efforts left both teams with low numbers as the Pointers went into the locker-room at halftime with a 16-13 lead.

"In the first half neither team shot the ball very well. It was a very low scoring half," Schwartz added. "In our first possession of the second half, if we wouldn't have turned it over, we could have made something well when we're behind. We couldn't never in the situation where we could spread it out."

When the Pointers were able to break the zone and get the man inside, it was Tim Naegeli who found himself with the ball. Naegeli dropped in 14 of his 20 points in the second half, all coming off of inside lay-ups. Terry Porter added 17 points, but Porter inflicted the most damage to the Flyers through his passing. Porter noted the key to his seven assists.

"The first half we really didn't get that many easy shots inside. In the second half coach just mentioned that we guards have to get to the hole, and when I couldn't penetrate I just looked to dish it off to the big guys underneath."...and that's exactly what Porter did. All but two of his assists led to inside lay-ups for his teammates. Schwartz was quick to compliment Porter on his ability, and pointed out the main way Porter hurt his team.

"Porter's a great athlete; there's no question about his playing ability. It takes so much concentration trying to stop him and that leaves other people in position. Then the people who are averaging 10 or 12 points per game for the Pointers, which was 10 for 12. We could, have played for six hours more and still would have been on the outside looking in.

Although the Pointers came on strong in the second half, Bennett said he never got the feeling they had put it away. However, he said the opening minutes did give him a more easy feeling.

"I felt good after the first three minutes of the game because I was very concerned going in. They had made some adjustments, did some mentally good things, some smart things, and pushed us farther out on the floor. Then, when we got those early steals, I could just kind of feel everybody pick up." Bennett evaluation of the game was a compliment to the fine game his team played. "I felt good about our defensive game. We're capable of playing."

Bennett said the Pointers next game will take them to Platteville where they return home for big conference tests. They face UW-Whitewater on Feb. 12, UW-LaCrosse Feb. 13, and UW-Eau Claire Feb. 16.

Naegeli said coach Bennett told him he has a great deal of confidence in their playing ability at home. "Coach made a comment about playing at home; that we won't lose in this barn," and that's quite a statement considering the horrors that will be headed into the Pointer barn.

Pointers split with Eau Claire

by Kent Walstrom
Staff reporter

Just when people in the Eau Claire area thought the UW-Eau Claire would be a walkover at UW-Eau Claire as underdogs at the WSC with a 2-14 record, came away with a two-game split and also gave notice that the remainder of their season may well be worth watching.

UW-Eau Claire, defending NAIA national champions of the 1984-85 hockey campaign, had to settle for a split against UWSP earlier this season and were fortunate to manage a decision in the two games this time around at the Hobbs Ice Arena.

Despite a slow start in Friday night's contest, the Pointers hung tight and came through in the closing minutes of the final period with some clutch performances to edge the Blugolds, 5-8, and 10-7, respectively, in a weekend series, both of which were decided in overtime.

Trailing 5-4 late in the first period, Randy Sakuma opened the Pointer scoring attack up with a short-handed goal to make 1-1 with just 2:02 remaining in the period. Greg Herfendahl added another UWSP goal early into the second period, but the Pointers, as they have done all year long, faltered defensively while allowing four goals inside a span of four minutes to give Eau Claire a commanding, 7-2 lead.

A slap shot from Pointer Jeff McCoy, assisted by Erich Pfef, eased the score to 7-3 midway through the period.

Scott Kukarra and Scott Edwards followed up with a pair of Point goals to pull the score to 7-4 at the close of the second stanza.

Ten minutes of the third period passed before Mark Squires of Eau Claire broke the offensive scoring log with a goal to make it 8-5.

Goals by Bob Engelhart and Scott Kukarra gave the Pointers an 8-7 deficit, then, with 2:17 left in the game, the Blugolds were penalized on an interference call, adding to the Pointer's momentum and setting them up in a fast play position.

As the puck moved to the Bluegold end of the rink, coach Lin- den Carlson pulled his goaltender and sent out Sakuma as an extra attacker.

Kukarra hit Sakuma with a well-timed pass and he blasted it into the upper corner of the net to tie the game at 8-8 with 27 seconds remaining. Regulation time ended with the tie.

Joe Bruno, assisted by Mike Lohrengel and Sakuma, scored a tip-in goal in the overtime period to seal the Pointer victory.

"I'm proud of these young men tonight," said Carlson. "They showed some character coming from behind and winning in overtime."

"Randy Sakuma had the best game of his Pointer career," Carlson added. "He scored our first goal and tied it up for us at the end of regulation time. I sent in Kukarra to replace Eric Brodin (as goalie) in the second period, and Davis allowed Eau Claire only one goal. His sharp play helped to lift our team."

On Saturday, the Pointers picked up where they left off the night before, as they jumped to a 3-0 lead with 2:13 remaining in the first period.

The Pointers next game will be at Wisconsin-River Falls on Feb. 11 at 7:30 p.m., and 7:30 p.m. again on Feb. 12.

Longhorns split at home

by Scott Moser
Staff reporter

The UWSP women's swim team continued to show that it is ready for its two dual meets over the weekend as it topped UW-Stout, 11-3, and UW-River Falls, 86-25, in the two Saturday contests.

Earning firsts in the win over Stout were Roxie Fink, 100 breaststroke, 1:15.1; Laura Thomason, 200 backstroke, 2:27.1; Kathy Frohberg, 100 and 200 butterfly, 1:05.1 and 2:23.5; Lynn Palmquist, 50 free, :26.57; Sarah Celichowski, 100 freestyle, 57.35; and Dawn Hlakva, one meter diving, 1:57.2 points.

Hlakva was pleased with the outcomes of the matches for several different reasons and singled out some individual performers.

"I'm happy with the opportunity to play a little with entries for these meets. A number of our women swam and were managed to play the kind of chance to let some of our younger athletes earn points."

Lisa Roets and Lynn Palmquist were singled out as the meet's top swimmers for the weekend.

The next meet for the Pointers will be against Wisconsin Women's Collegiate Athletic Conference Meet which will be held Feb. 14-15 at UW-Eau Claire.

Angelfish improve dual record

by Scot Moser
Staff reporter

The UWSP women's swim team continued to show that it is ready for real in two dual meets over the weekend as it topped UW-Stout, 78-61, and UW-River Falls, 86-25.

Earning firsts in the win over Stout were Roxie Fink, 100 breaststroke, 1:15.1; Laura Thomason, 200 backstroke, 2:27.1; Kathy Frohberg, 100 and 200 butterfly, 1:05.1 and 2:23.5; Lynn Palmquist, 50 free, :26.57; Sarah Celichowski, 100 freestyle, 57.35; and Dawn Hlakva, one meter diving, 1:57.2 points.

Also placing first was the 200 medley relay team of Dorothy Murray, Michelle Thomason, Jeannine Haasen and Pam Steinbach with a school record time of 1:58.4. That foursome came back against River Falls and also finished first, and in the presentation of their one-day-old record with a time of 1:58.2.

Individuals placing first against River Falls were Fink, 100 freestyle, 12:04.67; Adee, 300 freestyle, 2.98.91; Thomason, 14-13; Frohberg, 200 butterfly, 2:25.82; and Murray, 300 backstroke, 2:25.55.

Also placing first against UWRF for the Lady Pointers were Donna Keane, 200 breaststroke, 2:57.47; Judy Swanson, 300 free, 1:37.96; and Hlakva, one meter optional diving, 125.6 points.

Hlakva was pleased with the outcomes of the matches for several different reasons and singled out some individual performers.

"I'm happy with the opportunity to play a little with entries for these meets. A number of our women swam and were managed to play the kind of chance to let some of our younger athletes earn points."

Lisa Roets and Lynn Palmquist were singled out as the meet's top swimmers for the weekend. 

The next meet for the Pointers will be against Wisconsin Women's Collegiate Athletic Conference Meet which will be held Feb. 14-15 at UW-Eau Claire.
Lady cagers end game losing streak

Page 18 February 7, 1985

The University of Wisconsin-Stevens Point women's basketball team came up with one of its best performances of the season in Berg Gym last Tuesday night, fortunately it came against one of its toughest opponents and the result was a 38-33 win, highly regarded UW-Green Bay.

Lady Pointer coach Bonnie Gehling probably summed up the play of her team and the loss best.

"We played the best we could have. We didn't lose this game, we just ran out of gas." The Point women did play well and did appear to run out of gas. A see-saw first half came to an end with a strong spurt by the Lady Pointers who went to the locker room with a 38-33 advantage.

UW-SP retained that lead throughout the second half before the Phoenix women exploded to take a four point lead with seven minutes left in the contest. However, Amy Gradecki hit for four points in the last minute of the contest and Dona Pivonka added two driving layups to give UW-SP a four point advantage with 4 minutes left.

The fatigue factor and a lack of bench strength seemed to enter the picture as UW-GB UW-GB had a 38-33 advantage in rebounding while Point committed 15 turnovers compared to 18 Green Bay.

Sonja Sorenson, a freshman from Manawa who was a mid-year transfer from UW-Whitewater, scored a collegiate career high 21 points to lead all scorers. She was joined in duo-figures by teammates Amy Gradecki and Miry Miller with 12 and 11 points, respectively.

"We took a serious attitude into the game and really played well," Gehling said. "Our lack of depth hurt us.

"Our two freshman centers (Sorenson and Miller) played extremely well. Dona Pivonka played a complete game in both scoring and passing.

The ladies bounced back on the floor in the second half as they defeated UW-Parkside at home.

"The Pointers jumped to a 41-34 halftime lead with a spurt late in the half which broke open a 10 point lead. The Observer-Minor league all-stater finished with 13 of 16 in the second half as the Phoenix missed 9 of 16 from the field.

"We had a good chance to feel each other out and find out where we were. The only setback so far for us has been the weather ammonites - we do most of the training inside.

Six Pointers took advantage of the change of scenery to capture first place honors. Leading the way was sophomore Arnie Schraeder, a two-time winner in the triple jump, with a personal best 14.85.

"With six Pointers ahead of the board, we just needed a good finish. I knew Schraeder was in excellent shape, the way we had been running in practice.

"We had a good chance to feel each other out and find out where we were. The only setback so far for us has been the weather - we do most of the training indoors." Dear Grandpa, we took it to a gunsmith to have it examined. He told us that as old and worn as it was, it could have exploded the next time it was fired. "Retreat," in memory of you. You would really love it, Grandpa.

I think it was times like these that have changed me. I marveled at this type of wisdom you possessed. How could he possibly know all these things, I would think to myself. Then one day while I was out in the woods, it dawned on me.

When you were in the woods, you did more than just hunt or walk around. You watched everything that was going on around you. So, that's what I've been trying to do more often. I want to enjoy myself in the woods, but now I also want to learn from my surroundings. I know I can never be as wise as you were, but maybe I can pass on some of what I've learned and some of what you've taught me to my sons or grandsons someday.

Oh, one more thing. I shot my first buck about six years ago. It was no trophy, but I would have given anything for you to have been there with me. Still, as I stood over that deer and looked around, I had the feeling that somehow you were there.

Well, I'll close now, because I know if there's hunting and fishing in heaven, you'll want to get back to it. But just remember, Grandpa, whenever I'm in the woods you hunted or on the lakes you fished, you'll always be with me. You may be gone, but you'll never be forgotten.

Love, Alan

Women take second at Oshkosh

The University of Wisconsin-Stevens Point women's track and field team began the 1985 strong fashion at Oshkosh Saturday by capturing second place in the UW-Oshkosh Groundhog Invitational Meet.

Host UW-Oshkosh won the four team meet with 76 points while UW-SP was runnerup with 66 points. Placing a close third was UW-Parkside with 46 points while Ripon rounded out the scoring with five.

The Lady Pointers captured four firsts in the meet with sophomore standouts Carlene Wilkorn leading the way with two blue ribbons. She won the long and triple jumps with top efforts of 16'4" and 32'3.5". Also placing first for UW-SP was defending national champion Michelle Hinds in the high jump with a top effort of 5'4". Point's final first was earned by Betty Miller in the 60 yard hurdles where she beat out teammate Lori Nelson for first. Miller was clocked in 9.4 while Nelson had a 9.5 time.

Nelson also placed second in the 220 hurdles with a time of 23.3. Joining her in placing sec- ond were Annette Zielzema, one mile run, 5:14.9; and Willkorn, 200 yard dash, 24.8. Contributing thirds for the

A letter to a long gone hunting companion

by Alan Lemke

Dear Grandpa,

It's been a long time since I last visited. I figured out that it will be nine years this May. So, I decided maybe it's time someone let you know how things have changed since you left. The only problem is, I'm not really sure where to begin. I guess the best place to start would be with the thing that reminds me of you the most. The big oak tree.

I've heard more stories about how you've shot more deer from under that tree than most people shoot in a lifetime. Well, Grandpa, the milling came in two years ago and clean-cut the area, and now, just like you, the big oak tree is just a memory.

I remember when I was still too young to carry a gun, but I would go along hunting with the gang anyhow. As soon as we made the turn in the trail, I would see you sitting under that tree with your old shotgun across your lap. When I think back on it now, it seems like that would have been the perfect picture of a man in his domain.

Speaking of that old shotgun, we took it to a gunsmith to have it examined. He told us that as old and worn as it was, it could have exploded the next time it was fired. I guess God has a way of looking after old hunters, too. Things have kind of changed back at the shack, too. The old tar-paper cat shack that we all used to pile into still stands, but we don't use it anymore. Uncle Chuck decided to build another one down by the old turn-around, all put in a lot of work on it, and when it came time to give it a name, Chuck said it would be called, "Grandpa's Retreat," in memory of you, and we would really love it, Grandpa.

And believe me, there's not a time we go down there that your name isn't coming up at May once; whether it's how you would have made a certain drive, or the memory of one of your biggest bucks. Perhaps the best part of the shack is the picture of you and your last buck that hangs above the fireplace. It makes it seem like your spirit is always in the shack.

I think another thing that has changed has been me. I always wished you would have been around longer to teach me more than you did, but what you did teach me I'll always be thankful for. Like what kind of weather, the deer will move in best, or when and where to look for that buck before he gets to the tamarack swamp. You even seemed to have some kind of wisdom when it came to fishing.

Remember telling Marty and me to make sure we got down to the lake when the bigglets started spawning? I guess that was the last spring you were around. Well, that's history. You, Grandpa, and so were the bluegills, just like you say they'd be.

I think it was times like these that have changed me. I marveled at this type of wisdom you possessed. How could be possible know all these things, I would think to myself. Then one day while I was out in the woods, it dawned on me.

When you were in the woods, you did more than just hunt or walk around. You searched for everything that was going on around you. So, that's what I've been trying to do more often. I want to enjoy my time in the woods, but now I also want to learn from my surroundings. I know you can never be as wise as you were, but maybe I can pass on some of what I've learned and the things you've taught me to my sons or grandsons some day.

Oh, one more thing. I shot my first buck about six years ago. It was a high-flying buck that made for a good haircut. I know you would have given anything for you to have seen it. Me, still. As I stood over that deer and cleaned it around, I had the feeling that somehow you were there.

Well, I'll close now, because I know if there's hunting and fishing in heaven, you'll want to get back to it. But just remember, Grandpa, whenever I'm in the woods you hunted or on the lakes you fished, you'll always be with me. You may be gone, but you'll never be forgotten.

Arctic Fest 1985

by Alan Lemke
Sports Editor

The University of Wisconsin-Stevens Point's men's swimming and diving team dominated the Coe College Invitational held in Cedar Rapids last Friday and Saturday by winning 13 of 25 possible events and recording nine NAIA national qualifying performances.

UWSP won the seven-team annual competition by winning nine events and recording nine NAIA national qualifying performances.

UWSP was the seventh-seeded team in the invitational. They were seeded by UW-Whitewater, 64; St. John's University, 52; Grinnell University, 34; Coe College, 24; and UW-Green Bay, 41.

Winning their events and posting NAIA national qualifying times were the 800 freestyle relay of Jeff Stenske, Steve Davis, Ken Brumbaugh and Scott Moser, 7:15.4; the 400 freestyle relay composed of the same four men, 3:18.5; and the 400 medley relay of Kevin Setherlow, Greg Schneider, Davis and Stenske, 3:44.2.

Qualifying and winning individually were Stenske in the 50 and 100 freestyle, 23.9 and :51.8; Schneider, in the 100 and 200 breaststroke, 1:54.9 and 2:16.0; and Moser in the 400 individual medley, 4:38.4.

Stenske also qualified for this year's national meet in the 200 freestyle relay, leading off the 400 freestyle relay in 1:47.0. Other event winners for the Dogfish were the 200 freestyle relay of Jeff Shaw, Brumbaugh, Davis and Stenske, 1:50.2; the 200 medley relay of Setherlow, Schneider, Stenske and Brumbaugh, 1:45.1; Moser in the 200 butterfly, 2:04.3; Schneider in the 200 individual medley, 2:03.5; and Stenske in the 100 butterfly, 54.3.

Finishing second in their events were Moser in the 200 individual medley and 1,600 freestyle, 2:04.8 and 17:47.8; Brumbaugh in the 200 and 500 freestyle, 1:48.3 and 56.4; and Tom Thomson in three meter diving, 32.66 points.

Repeating out the Dogfish assault with third place efforts were Brumbaugh, 200 individual medley, 2:06.7; Andy Wyatt, 300 breaststroke, 2:32.8; Thomson, one mile, 10:08.7.

Women take second at Oshkosh

The University of Wisconsin-Stevens Point's women's track and field team began the 1985 indoor season at Oshkosh Saturday by capturing second place in the UW-Oshkosh Indoor Invitational.

Host UW-Oshkosh won the four team meet with 70 points, and the Pointers placed second with 50 points. Placing a close third was UW-Parkside with 48 points and finished third, followed by Carroll with 47 points.

The Lady Pointers captured four firsts in the meet with sophomore standout Carlene Willkom leading the way with two blue ribbons by winning the long and triple jumps with top efforts of 16'10" and 37'3", respectively. Willkom also took the 55 meter hurdles in 9.44 and the 200 yard dash in 26.1.

Adding fourth place points for UW-SP were Satori, 50 yard hurdles, 9.25; and Kosinski, 100 meter hurdles, 15.3. Contributing thirds for the Lady Pointers were Jane Bri- lowski, 600 yard run, 2:35.3; Kathy Seidl, shot put, 32.3"; Cathy Ausloos, 1000 yard run, 3:20.8; and the 440 relay of Barb Kuehne, Pam Satori, Willkom, and Bri lowski, which took the fifth place in 52.1. The distance medley relay of Jenni Sipes, Elyse Michalecki, Zuzanna Macejka, and Kathy Seidl was also third with a clocking of 14:39.

Schell, cont.

"It gets hard to get home be­cause I’m so busy with my job and other activities. But I try!"

Schell has practiced in averaged six hours per week with the Pointer. In addition to this, she waitsates at Jeremiah’s, teaches skating at Rib Mountain, and carries several special grad credits.

"All these things have taught me a great deal," said Schell. "They’ve taught me time management, to be a responsible leader and most of all, they’ve taught me that you can please everyone but that you have to be fair."

Just prior to graduation, Schell held her Senior Art Exhibit in the Edna Carlson Gallery on December 13 through the 19, at which she sold one of her paintings.

"It’s my favorite painting," mourned Schell. "It really hurt to part with it."

Schell’s work is very distinctive and features many female forms.

"I am a woman and feminine," said Schell. "My work is very specific — specifically feminine. My work reflects a part of me."

Schell’s next exhibit began on Friday at the First National Savings and Loan and will continue throughout the month of February.

Lemancik, Cont.

one couldn’t hurt.
So how does all that make Mike Lemancik, a student leader? The same way it makes anyone else one. He cares about the problems you have and is willing to help. It’s just that he is a leader in the computer lab instead of in the peace rally.

Women’s track, cont.

dies: Knouse, 60 yard dash; Setid, 1000 yard run; and Kris Heel, two mile run.

Mike Pointer coach Nancy Schoen thought her squad performed well in the first meet of the season.

"I was very pleased with our performance," Schoen stated. "With only two weeks of practices, our performances were very competitive. Overall the team could have been practicing much longer than that."

"The times of the veteran runners were better than they were a year ago. They seemed to be a lot stronger which is probably a result of their year round training. The first year runners showed a lot of poise in their first meet also. I think they have a lot of potential."

"Carlene Willkom and Michelle Riedel did well as did Annette Zuidema. I was pleased with our three new hurdlers, especially Lori Nelson in the 220 yard.

The Lady Pointers will return to action Feb. 18 when they travel to UW-LaCrosse.

Men’s swimming, cont.

meter diving, 343.8 points; Da­vi­es, 12th, 343.5 points; and Sett­er­holm, 100 breaststroke, 59.0; and Stepanaski, 500 freestyle, 4:56.9.

Coach Lynn “Red” Blair could not have been happier with his team’s performance.

"This was a very good meet for us going into the conference championships," said Blair. "The total team effort was extremely good and that’s what we are looking for because individu­

ally we tend to be sporadic this time of year.

"We’re keeping our intensity up and that’s a positive sign."

Blair singled out Stepanaski, Brumbaugh, Moses, Schneider, Finley, Davis, Thoma, Baltzell, Woyte, Setterholm, Jackman and Trent Westphal as this week’s Dog of the Week. The Pointers will jump back in the tank again today when they travel to UW-Madison for more dual meet competition.

Women’s BB, cont.

"Sonja is gaining more and more confidence each time she steps on the floor. She is getting the ball and just going to the basket and very few people are going to stop her without fouling," said Pointer coach Bonnie Gehling.

Following Sorenson in the scoring was her freshman inside mate Mary Miller who scored 14 points, grabbed eight rebounds and made six steals.

"Mary, like Sonja, is playing with more confidence an the two of them are playing extremely well as a tandem inside," responded Gehling. "Rounding out the scoring for the Pointers was Dina Rasmussen with 11 and Amy Gradecki with 10."

For the game the Pointers shot 32 percent on 34 of 46 from the field and limited UW-Parkside to 32 percent on 18 of 55. The Pointers forced 23 Parkside turnovers with 14 of those turns­

overs being steals by the Pointers.

Gehling added these comments.

"Our first half defense was very poor, we had no weakside help and Parkside shot layups. We tightened up the defense in the second half and their shots became contested ones. The re­

sult was their poor percentage from the field in the second half. We took advantage of someone else’s shorthandedness (UW­

Parkside had only six players in uniform), it seems like we’ve been the shorthanded team all year.

"Donna Pivenoka played an excellent floor game for us and she’s assuming the role of tak­ing control and running the team for us. Paula lager did a nice job for us off the bench as she created havoc on defense and grabbed seven rebounds for us."

The Pointers overall record stands at 5-12 and 1-2 in league play and they return to action Tuesday night when they host UW-La Crosse in Berg Gym at 5:00.

Elert, cont.

school at either Michigan State, Texas A&M, or the University of Missouri at Columbia. Serving as her advisor is Dr. James Harvill and serving as advisor to the Wildlife Society is Dr. Ray Anderson.

Hockey, cont.

a quick 4-0 lead off the strength of a Scott Kueber goal at the 1:53 mark. Bob Engelhart was credited with the assist. The Blugolds tied the score at one apiece with 7:29 left, then took the lead over minutes into the second period before Engel­

hart, with assists from Kueber and Greg Tschida, scored to even the game at 2-2. The Pointers got another goal less than a minute later, this time from newcomer Dan Grumke, to give Point a 3-2 advantage.

The teams exchanged goals before the end of the period, with Kueber gaining accounting for the Pointer marker to make it 4-3.

At 4:01 of the third period, Eau Claire’s Rick Penick beat UWSP goalie Dave Kepler to the net to score the tying goal and send the game into overtime. Penick then came back with the game winning goal to give the Blugolds a 5-4 decision.

Carlson, along with praising his own team’s performance, pointed to the efforts of Penick and his linemate.

UWSP will host UW-Superior this weekend, with Friday’s game slated for 7:30 p.m., and Saturday’s at 7 p.m. in the Wil­lett Arena.

STARTS FRIDAY, FEBRUARY 8 AT A THEATRE NEAR YOU.

CHECK LOCAL NEWSPAPERS FOR SPECIAL PREVIEWS. REGULAR ENGAGEMENTS STARTS FRIDAY, FEBRUARY 15.
Thursday and Friday, February 7 & 8
All of Me—starring Steve Martin and Martin Short—will be shown at Judging at 3 pm on Saturday, February 8.

WANTED: Wholey Moses!" This star-studded biblical comedy comes on Thursday, February 8 at 7:30 pm at the Union Theatre. Wholey Moses depicts the life of Herschel, set adrift in a basket on the Nile in hopes he would be rescued by the Pharaoth’s daughter. Unfortunately, it doesn’t work out that way. Wholey Moses is a dole of comedy. Shows are at 6:30 and 8:30.

Saturday, February 9
Place: ...dubbed the worst film of all time is being brought to the BRT by the University of Wisconsin-Milwaukee's Department of Media Arts and Communication.

Information for the Pointer Program should be submitted to the Pointer Office by Monday!

Then get in on the ground floor in our undergraduate officer commissioning program. You could start planning on a career like the men in this ad have. And also have some great advantages like:

- Juniors earn more than $1900 during one ten-week summer session
- You can take free civilian flying lessons
- You're commissioned upon graduation

If you're looking to move up quickly, look into the Marine Corps undergraduate officer commissioning program. You could start off making more than $17,000 a year.

We're looking for a few good men.

CHECK OUT OUR SUMMER INTERNSHIP PROGRAMS TO SEE IF THIS IS FOR YOU. CAPTAIN BRUCE BANCROFT WILL BE CONDUCTING INTERVIEWS FOR THESE INTERNSHIPS TODAY AND TOMORROW FROM 9:00-3:00 P.M. IN THE UNIVERSITY CENTER. STOP BY THEN OR CALL TOLL FREE 1-800-242-3488 FOR FURTHER INFORMATION OR TO SCHEDULE AN INTERVIEW. INTERNSHIPS ARE AVAILABLE FOR FRESHMEN-GRADUATES.
